NOTES TO CONDENSED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1. NATURE OF OPERATIONS

Unless the context indicates otherwise, references to “Galaxy Gaming, Inc.,” “we,” “us,” “our,” or the “Company,” refer to Galaxy Gaming, Inc., a Nevada corporation (“Galaxy Gaming”).

We are an established global gaming company specializing in the design, development, manufacturing, marketing and acquisition of proprietary casino table games and associated technology, platforms and systems for the casino gaming industry. Casinos use our proprietary products and services to enhance their gaming floor operations and improve their profitability, productivity and security, as well as to offer popular cutting-edge gaming entertainment content and technology to their players. We market our products and services to land-based, riverboat, cruise ship and internet gaming companies located in North America, the Caribbean, Central America, the British Isles, Europe and Africa and to cruise ships and internet gaming sites worldwide.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation. The accompanying condensed financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) and the rules of the Securities and Exchange Commission (“SEC”). In the opinion of management, all adjustments necessary in order for the financial statements to be not misleading have been reflected herein. As permitted by the rules and regulations of the SEC, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to those rules and regulations. The operating results for interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year.

In the opinion of management, the accompanying unaudited interim condensed financial statements contain all necessary adjustments, consisting only of those of a recurring nature, and disclosures to present fairly our financial position and the results of our operations and cash flows for the periods presented. These unaudited interim condensed financial statements should be read in conjunction with the financial statements and the related notes thereto included in our Form 10-K for the fiscal year ended December 31, 2017, filed with the SEC on April 2, 2018 (the “2017 10-K”).

Basis of accounting. The financial statements have been prepared on the accrual basis of accounting in conformity with U.S. GAAP. Revenues are recognized when earned and expenses (such as wages, consulting expenses, legal, regulatory and professional fees and rent) are recognized when they are incurred. We do not have significant categories of cost of revenue, as most of our revenue is derived from the licensing of intellectual property.

Use of estimates and assumptions. We are required to make estimates, judgments and assumptions that we believe are reasonable based on our historical experience, contract terms, observance of known trends in our company and the industry as a whole, and information available from other outside sources. Our estimates affect reported amounts for assets, liabilities, revenues, expenses and related disclosures. Actual results may differ from initial estimates.

Reclassifications. Certain accounts and financial statement captions in the prior periods have been reclassified to conform to the current period financial statement presentations, including the addition of restricted cash to cash and cash equivalents on the consolidated statements of cash flows as a result of the adoption of ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash. See below for further detail.

Other Significant Accounting Policies. See Note 3 in Item 8. “Financial Statements and Supplementary Data” included in our 2017 10-K.

Recently adopted accounting standards

Revenue Recognition. Effective January 1, 2018, we adopted Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASC 606”), which is a comprehensive new revenue recognition standard that supersedes virtually all existing revenue guidance, including industry-specific guidance. Under the new standard, revenue is recognized when control of the promised goods or services is transferred to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods and services. The standard creates a five-step model that generally requires companies to use more judgment and make more estimates than under the previous guidance when considering the terms of contracts along with all relevant facts and circumstances. These include the identification of customer contracts and separating performance obligations, the determination of transaction price that potentially includes an estimate of variable consideration, allocating the transaction price to each separate performance obligation, and recognizing revenue in line with the pattern of transfer. We adopted ASC 606 using the modified retrospective approach (reporting the cumulative effect as of the date of adoption). See Note 3 for further detail.

Restricted Cash. Effective January 1, 2018, we adopted ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash. This ASU requires amounts generally described as restricted cash and cash equivalents be included with cash and cash equivalents when reconciling the total beginning and ending amounts for the periods shown on the statement of cash flows. We adopted this guidance on a retrospective basis, which resulted in the inclusion of restricted cash within cash and cash equivalents on our balance sheets and statements of cash flows. Such restricted cash represents reserves set aside in a restricted bank account in accordance with the requirements of gaming regulations to be used for the purpose of funding payments to winners of jackpots at one of our client locations and was \$60,996 and \$95,062 at September 30, 2018 and December 31, 2017, respectively. Cash flows from operating activities for the nine months ended September 30, 2017 increased by \$8,693 as a result of the adoption of this guidance.

Compensation - Stock Compensation. Effective January 1, 2018, we adopted ASU No. 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting, which provides clarification on when modification accounting should be used for changes to the terms or conditions of a share-based payment award. The adoption did not have a material impact on our financial statements.

New accounting standards not yet adopted

Leases. In February 2016, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2016-02, Leases (Topic 842). The amended guidance is intended to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The guidance requires lessees and lessors to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years with earlier adoption permitted. We will adopt the new standard effective January 1, 2019 and expect to recognize a portion of our operating leases as right-of-use assets and operating lease liabilities on our balance sheets upon adoption, which will increase our total assets and liabilities.

Goodwill Impairment. In January 2017, the FASB issued ASU No. 2017-04, Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, which simplifies the current two-step goodwill impairment test by eliminating Step 2 of the test. This guidance requires a one-step impairment test in which an entity compares the fair value of a reporting unit with its carrying amount and recognizes an impairment charge for the amount by which the carrying amount exceeds the reporting unit’s fair value, if any. This guidance is effective for fiscal years beginning after December 15, 2019 and interim periods within those fiscal years, and should be applied on a prospective basis. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. We are currently evaluating the impact of adopting this guidance and will adopt this guidance for the annual test to be performed for the year ended December 31, 2018.

Fair Value Measurement. In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. ASU 2018-13 addresses the required disclosures around fair value measurement, removes certain disclosure requirements related to the fair value hierarchy, modifies existing disclosure requirements related to measurement uncertainty and adds new disclosure requirements. The new disclosure requirements include disclosing the changes in unrealized gains and losses for the period included in other comprehensive income for recurring Level 3 fair value measurements held at the end of the reporting period and the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements. The standard is effective for annual periods beginning after December 15, 2019, including interim periods within those annual periods. Early adoption is permitted. We do not believe the adoption of this guidance will have a material impact on our financial statements.

Internal-Use Software. In August 2018, the FASB issued ASU No. 2018-15, Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud

Computing Arrangement That Is a Service Contract. ASU 2018-15. This new guidance aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The update is effective for annual periods beginning after December 15, 2019, including interim periods within those annual periods, with early adoption (including early adoption in any interim period) permitted. We do not believe the adoption of this guidance will have a material impact on our financial statements.

NOTE 3. REVENUE RECOGNITION

Adoption of ASC 606, Revenue from Contracts with Customers

On January 1, 2018, we adopted ASC 606 and applied it to all contracts using the modified retrospective method. Results for reporting periods beginning after January 1, 2018 are presented under ASC 606, while prior period amounts have not and will not be adjusted and continue to be reported in accordance with our historical accounting treatment under Topic 605, Revenue Recognition.

Edgar Filing: Galaxy Gaming, Inc. - Form 10-Q

The adoption of ASC 606 had the following impact on our balance sheet and statement of operations: (i) we reported higher product leases and royalty revenue and selling, general and administrative expense for the three and nine months ended September 30, 2018 as a result of the assessment of our distributor relationships. We have entered into agreements with certain distributors in Europe, which sublicense our intellectual property to gaming establishments in Europe. We have historically recorded net revenues (gross revenue generated minus distributor fees paid) as product leases and royalty revenue. However, after applying principal vs. agent considerations to these distributor relationships in accordance with ASC 606, we have determined that revenues earned from gaming establishments in Europe should now be recorded as gross revenue and fees earned by such distributors should be recorded as selling, general and administrative expenses as we had control of the sub-licensed intellectual property prior to the licensing of such intellectual property to the gaming establishments; and (ii) prepayments from customers in advance of the period that the revenue is recognized were historically recorded under the caption “deferred revenue” in the accompanying balance sheet. This caption has now been renamed “revenue contract liability” in accordance with the requirements of ASC 606.

For the three months ended September 30, 2018, the adoption of ASC 606 had the following impact on our statement of operations:

	Three Months Ended September 30, 2018		
	As reported	Balance without the adoption of ASC 606	Impact of the adoption
Product leases and royalties	\$4,775,754	\$4,544,912	\$230,842
Selling, general and administrative expense	\$2,559,056	\$2,328,214	\$230,842

For the six months ended September 30, 2018, the adoption of ASC 606 had the following impact on our statement of operations:

	Nine Months Ended September 30, 2018		
	As reported	Balance without the adoption of ASC 606	Impact of the adoption
Product leases and royalties	\$13,672,459	\$12,968,848	\$703,611
Selling, general and administrative expense	\$7,741,213	\$7,037,602	\$703,611

Revenue Recognition

We generate revenue primarily from the licensing of our intellectual property. We also, occasionally, receive a one-time sale of certain products and/or reimbursement of our manufactured equipment.

License Fees. We derive product lease and royalty revenue from negotiated recurring fee license agreements and the performance of our products. We account for these agreements as month-to-month contracts for the purposes of ASC 606 and recognize revenue each month as we satisfy our performance obligations by granting access to intellectual property to our clients. In addition, revenue associated with performance-based agreements is recognized during the month that the usage of the product or intellectual property occurs. We believe it is inappropriate to use the input method as the inputs do not correlate to the satisfaction of our performance obligations. Intellectual property requires significant upfront investment in the form of human resources required for their development and/or capital resources for acquisition from third parties. However, limited maintenance is required once the games have been placed on casino floors. The output method, on the other hand, recognizes revenue based on direct measurements of the value to our customers of the licensed intellectual property, which we believe is more appropriate. We have further applied the “as invoiced” practical expedient under the output method by recognizing product lease and royalty revenue in proportion to the amount for which we have the right to invoice.

Some of our intellectual property requires the installation of certain equipment and both the intellectual property and the related equipment are licensed in one bundled package. We have determined that the equipment is not distinct from the intellectual property and, therefore, we have only one performance obligation and, as a result, the allocation of the transaction price to different performance obligations is not necessary.

Product Sales. Occasionally, we sell certain incidental products or receive reimbursement of our manufactured equipment after the commencement of the new license agreement. Revenue from such sales is recognized as a separate performance obligation when we ship the items.

Edgar Filing: Galaxy Gaming, Inc. - Form 10-Q

Disaggregation of Revenue. The following table disaggregates our revenue by major source for the three and six months ended September 30, 2018 and 2017:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Table games	\$4,666,150	\$3,720,987	\$13,273,184	\$10,596,140
Other	109,634	109,433	399,466	368,384
Total revenue	\$4,775,784	\$3,830,420	\$13,672,650	\$10,964,524

The following table disaggregates our revenue by geographic location for the three and six months ended September 30, 2018 and 2017:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
North America and Caribbean	\$3,622,729	\$3,177,942	\$10,568,129	\$9,049,494
Europe	1,153,055	652,478	3,104,521	1,915,030
Total revenue	\$4,775,784	\$3,830,420	\$13,672,650	\$10,964,524

Revenue Contract Asset and Liability. Upon the adoption of ASC 606, we have applied the practical expedient of expensing incremental commissions paid to sales representatives directly related to the acquisition and fulfillment of new contracts, when the amortization period of the contract asset that we otherwise would have recognized is one year or less.

We invoice our clients monthly in advance for unlimited use of our intellectual property licenses. Upon the adoption of ASC 606, we recognized a revenue contract liability that represents such advanced billing to our clients for unsatisfied performance. We reduce the revenue contract liability and recognize revenue when we transfer those goods or services and, therefore, satisfy our performance obligation.

The table below summarizes changes in the revenue contract liability during the nine months ended September 30, 2018:

	Revenue Contract liability

Nevada State Bank Credit Agreement. On April 24, 2018, we entered into a credit agreement with ZB, N.A. dba Nevada State Bank (“NSB” and the “NSB Credit Agreement”), which provides for a \$11.0 million five-year term loan (the “NSB Term Loan”) and a \$1.0 million one-year revolving credit facility (the “NSB Revolver”).

Outstanding balances under the NSB Term Loan and the NSB Revolver accrue interest based on one-month US dollar London interbank offered rate (“LIBOR”) plus an Applicable Margin of 3.50%, or 4.00%, depending on our Leverage Ratio (as defined in the NSB Credit Agreement).

Edgar Filing: Galaxy Gaming, Inc. - Form 10-Q

We are required to make monthly principal and interest payments, both of which are calculated over a seven-year term, with a balloon payment due on April 24, 2023. Borrowings under the NSB Credit Agreement are secured by a lien on substantially all of our assets.

Effective May 1, 2018, we entered into an interest rate swap agreement with an affiliate of NSB (the "Swap Agreement") to fix the interest rate on the NSB Term Loan at 6.43% (assuming a Leverage Ratio less than 2.0) for three years. The notional amount of the Swap Agreement is initially \$10.9 million but will decrease over time as a result of the anticipated principal paydowns.

The NSB Credit Agreement contains affirmative and negative financial covenants and other restrictions customary for borrowings of this nature. In particular, we are required to maintain a minimum trailing-four-quarters Fixed Charge Coverage Ratio (as defined in the NSB Credit Agreement) of 1.25 and a maximum Leverage Ratio of 3.00. The NSB Credit Agreement allows us to make share repurchases and to incur up to an additional \$1.0 million of unsecured indebtedness provided that we are in compliance with the covenants in the NSB Credit Agreement on a pro forma basis. We were in compliance with the financial covenants of the NSB Credit Agreement as of September 30, 2018.

Upon execution of the NSB Credit Agreement, we borrowed \$11.0 million under the NSB Term Loan and \$0.1 million under the NSB Revolver. Borrowings under the NSB Revolver were repaid in full in July 2018 and \$1.0 million was available at September 30, 2018 and the filing date of this Quarterly Report on Form 10-Q.

Breakaway Term loan. In August 2016, we entered into a term loan agreement (the "Breakaway Term Loan Agreement") for an aggregate principal amount of \$10,500,000 (the "Breakaway Term Loan"). In conjunction with the Breakaway Term Loan, we also entered into a warrant agreement (the "Warrant Agreement"), pursuant to which we issued the lenders a six-year warrant to purchase 1,965,780 shares of our common stock (the "Warrants").

The outstanding principal initially accrued interest at the rate of 14.0% per annum, which decreased to 12.5% per annum for any quarterly period in which we achieved a specified leverage ratio. Beginning October 1, 2017, the interest rate per annum decreased to 12.5% due to the achievement of such ratio.

On April 24, 2018, we used the proceeds from the NSB Term Loan and the NSB Revolver to repay in full the remaining principal amount under the Breakaway Term Loan, together with accrued but unpaid interest, an early redemption premium and associated legal fees. In addition, we redeemed the Warrants at \$1,333,333. The early redemption of the Breakaway Term Loan resulted in approximately \$1.3 million of loss on extinguishment of debt.

As of September 30, 2018, future maturities of our long-term debt obligations are as follows:

Twelve months Ending September	Total
2019	\$1,360,823
2020	1,437,950
2021	1,530,149
2022	1,616,655

Thereafter	4,511,000
Total notes payable	10,456,577
Less:	
Unamortized debt issuance costs	(101,983)
Notes payable, net	\$10,354,594

NOTE 11. COMMITMENTS AND CONTINGENCIES

Concentration of risk. We are exposed to risks associated with a client who represent a significant portion of total revenues. For the nine months ended September 30, 2018 and 2017, respectively, we had the following client revenue concentration:

	2018	2017
Location	Revenue	Revenue
Client A North America	11.0%	13.6%

We are also exposed to risks associated with the expiration of our patents. In 2015, domestic and international patents for two of our products expired, which accounted for approximately \$6,484,265 or 47.4% of our revenue for the nine months ended September 30, 2018, as compared to \$5,370,094 or 49.0% of our revenue for the nine months ended September 30, 2017. We continue to generate higher revenue from these products despite the expiration of the underlying patents and, accordingly, we do not expect the expiration of these patents to have a significant adverse impact on our future financial statements.

Operating lease. In February 2014, we entered into a lease (the “Spencer Lease”) for a new corporate office with an unrelated third party. The five-year Spencer Lease is for an approximately 24,000 square foot space, which is comprised of approximately 16,000 square feet of office space and 8,000 square feet of warehouse space. The property is located in Las Vegas, Nevada.

The initial term of the Spencer Lease commenced on April 1, 2014 and expires on June 30, 2019. We were obligated to pay approximately \$153,000 in annual base rent in the first year, and the annual base rent is scheduled to increase by approximately 4% each year. We are also obligated to pay real estate taxes and other building operating costs. Subject to certain conditions, we have certain rights under the Spencer Lease, including rights of first offer to purchase the premises if the landlord elects to sell. We also have an option to extend the term of the Spencer Lease for two consecutive terms of three years each, at the then current fair market value rental rate determined in accordance with the terms of the Spencer Lease.

In connection with the Spencer Lease, the landlord agreed to finance tenant improvements of \$150,000 (“TI Allowance”). The base rent is increased by an amount sufficient to fully amortize the TI Allowance through the initial Spencer Lease term upon equal monthly payments of principal and interest, with interest imputed on the outstanding principal balance at the rate of 5.5% per annum. The TI Allowance has been classified as a capital lease on the condensed balance sheet (Note 9).

Total rent expense was \$222,296 and \$217,650 for the nine months ended September 30, 2018 and 2017, respectively.

Estimated future minimum operating lease payment obligations total \$179,190, which are all due within the twelve months ending September 30, 2019.

Legal proceedings. In the ordinary course of conducting our business, we are, from time to time, involved in various legal and administrative proceedings, regulatory government investigations and other matters, including those in which we are a plaintiff or defendant, that are complex in nature and have outcomes that are difficult to predict. We record accruals for such contingencies to the extent we conclude that it is probable that a liability will be incurred and the amount of the related loss can be reasonably estimated. Our assessment of each matter may change based on future unexpected events. An unexpected adverse judgment in any pending litigation could cause a material impact on our business operations, intellectual property, results of operations or financial position. Unless otherwise expressly stated, we believe costs associated with litigation will not have a material impact on our financial position or liquidity, but may be material to the results of operations in any given period. We assume no obligation to update the status of pending litigation, except as may be required by U.S. GAAP, applicable law, statute or regulation. For a complete description of the facts and circumstances surrounding material litigation to which we are a party, see Note 11 in Item 8. “Financial Statements and Supplementary Data” included in our 2017 10-K.

In September 2018, we were served with a complaint by TableMax Gaming, Inc. (“TMax”) regarding an Operation and License Agreement executed between TMax and us in February 2011 (the “TMAX Agreement”). The complaint, filed in the Eighth Judicial District Court in Clark County, Nevada, alleges that we breached the TMAX Agreement, among other allegations. We filed an answer denying the allegations and counterclaimed for breach of contract, Abuse of Process and Fraud in the Inducement, among other counterclaims. We believe the TMax complaint lacks any merit and intend to aggressively pursue dismissal of the complaint while pursuing our counterclaims.

NOTE 12. STOCKHOLDERS’ EQUITY

On March 31, 2018, we issued 13,000 restricted shares of our common stock valued at \$13,520, to each of Messrs. Norm DesRosiers, Bryan Waters and William Zender, who are members of our Board of Directors (the "Board"), in consideration of their service on the Board during the three months ended March 31, 2018. These shares vested immediately on the grant date.

On June 30, 2018, we issued 13,000 restricted shares of our common stock valued at \$15,600, to each of Messrs. DesRosiers, Waters and Zender, in consideration of their service on the Board during the three months ended June 30, 2018. These shares vested immediately on the grant date.

On September 30, 2018, we issued 13,000 restricted shares of our common stock valued at \$16,770, to each of Messrs. DesRosiers, Waters and Zender, in consideration of their service on the Board during the three months ended September 30, 2018. These shares vested immediately on the grant date.

On April 24, 2018, our Board authorized the repurchase of shares of our common stock in an amount not to exceed \$1.0 million. Such repurchases may be made from time to time based on market conditions and may be completed in the open market or in privately-negotiated transactions. Repurchase transactions will be executed only when we believe that we will remain in compliance with the covenants of the NSB Credit Agreement. Finally, execution of share repurchases may require regulatory approval in one or more jurisdictions. We have not repurchased any of our common stock as of September 30, 2018.

NOTE 13. INCOME TAXES

Our forecasted annual effective tax rate at September 30, 2018 was 17.5%, as compared to 56.6% at September 30, 2017. For the nine months ended September 30, 2018 and 2017, our effective tax rate was 17.5% and 61.4%, respectively. The decrease in both rates was primarily due to a reduction in the federal statutory rate as a result of the Tax Cuts and Jobs Act signed in December 2017 (the “Tax Act”). As of September 30, 2018, we had completed our preliminary assessment for the tax effects resulting from the enactment of the Tax Act and made a reasonable estimate of the effect on our annual effective tax rate and existing deferred tax balances. We will continue to make and refine our calculations as additional analysis is completed. In addition, our estimates may also be affected as we gain a more thorough understanding of the Tax Act.

NOTE 14. STOCK WARRANTS, OPTIONS AND GRANTS

On May 10, 2018, the Board ratified and confirmed the 2014 Equity Incentive Plan (the “2014 Plan”). The 2014 Plan is a broad-based plan under which 5,550,750 shares of our common stock are authorized for issuance for awards, including stock options, stock appreciation rights, restricted stock, and cash incentive awards to members of our Board, executive officers, employees and independent contractors. As of September 30, 2018, 689,000 shares remained available for issuance as new awards under the 2014 Plan.

Stock options. During the nine months ended September 30, 2018 and 2017, we issued 270,000 and 1,390,000 options to purchase our common stock, respectively, to members of our Board, executive officers, employees and independent contractors.

The fair value of all stock options granted for the nine months ended September 30, 2018 and 2017 was determined to be \$169,807 and \$652,895, respectively, using the Black-Scholes option pricing model with the following assumptions:

	Nine Months Ended September 30, 2018	Nine Months Ended September 30, 2017
Dividend yield	0%	0%
Expected volatility	78%	80 - 87%
Risk free interest rate	2.46% - 2.73%	1.73 - 1.94%

Forfeited or expired	—	—	—	—
Unvested – September 30, 2018	763,334	\$ 0.75	\$410,184	3.82

As of September 30, 2018, our unrecognized stock-based compensation expense associated with the stock options issued was \$299,788, which will be amortized over a weighted-average of 1.81 years.

Warrants. On August 29, 2016, in connection with the Breakaway Term Loan Agreement, we issued the lenders the Warrants to purchase 1,965,780 shares of our common stock at an initial exercise price of \$0.30 per share. On April 24, 2018, we paid \$1,333,333 to redeem the Warrants in full upon extinguishment of the Breakaway Term Loan (Note 10).

NOTE 15. FAIR VALUE OF FINANCIAL INSTRUMENTS

We estimate fair value for financial assets and liabilities in accordance with Accounting Standards Codification (“ASC”) Topic 820, Fair Value Measurement (“ASC 820”). ASC 820 defines fair value, provides guidance for measuring fair value, requires certain disclosures and discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). ASC 820 utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly.

These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect the reporting entity’s own assumptions.

The estimated fair value of cash equivalents, restricted cash, accounts receivable and accounts payable approximates their carrying amount due to their short-term nature. The estimated fair value of our long-term debt and capital lease obligations approximates their carrying value based upon our expected borrowing rate for debt with similar remaining maturities and comparable risk. As of September 30, 2018, the interest rate swap agreement was the only financial instrument measured at estimated fair value on a recurring basis based on valuation reports provided by counterparties, which are classified as level 2 inputs.

NOTE 16. SUBSEQUENT EVENTS

On October 12, 2018, we granted the following stock options to purchase our restricted common stock: (i) 250,000 to Todd Cravens, our President and Chief Executive Officer; (ii) 180,000 to Harry Hagerty, our Chief Financial Officer; and (iii) 45,000 to our general counsel. The stock options were issued with a strike price of \$1.187, have a contractual term of five years, contain customary change-of-control provisions, and vest in equal installments on each of the first three anniversaries from the grant date.

On November 5, 2018, we issued a press release and filed a related Form 8-K announcing that (i) Robert B. Saucier submitted his resignation as a member of our Board effective immediately and his resignation as Executive Vice President of Business Development effective on December 31, 2018; and (ii) that we have retained Macquarie Capital (USA) Inc. to assist it in evaluating strategic alternatives, including the potential sale of the shares of our common stock held by Triangulum Partners LLC, an entity controlled by Mr. Saucier.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The following discussion of the financial condition and results of operations of the Company should be read in conjunction with the condensed consolidated financial statements and the related notes thereto included elsewhere in this Quarterly Report on Form 10-Q. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Section 27A of the Securities Act, and is subject to the safe harbors created by those sections. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," "may," variations of these words or similar expressions are intended to identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, our actual results could differ materially and adversely from those expressed in any forward-looking statements as a result of various factors. Such forward-looking statements speak only as of the date of this report; we undertake no obligation to revise or publicly release the results of any revisions to these forward-looking statements. Readers are urged to carefully review and consider the various disclosures made by us in this report, as well as the disclosures made in the Galaxy Gaming, Inc. Annual Report on Form 10-K for the year ended December 31, 2017 filed on April 2, 2018 (the "2017 10-K"), and other filings we make with the Securities and Exchange Commission, which attempt to advise interested parties of the risks, uncertainties, and other factors that affect our business, operating results, financial condition and stock price.

Due to possible uncertainties and risks, readers are cautioned not to place undue reliance on the forward-looking statements contained in this Quarterly Report, which speak only as of the date of this Quarterly Report, or to make predictions about future performance based solely on historical financial performance. We disclaim any obligation to update forward-looking statements contained in this Quarterly Report.

OVERVIEW

We develop, acquire, manufacture and market technology and entertainment-based products and services for the gaming industry for placement on the casino floor. Our products and services primarily relate to licensed casino operators' table games activities and focus on either increasing their profitability, productivity and security or expanding their gaming entertainment offerings in the form of proprietary table games, electronically enhanced table game platforms, fully-automated electronic tables and other ancillary equipment. Our products and services are offered in highly regulated markets throughout the world. Our products and services are manufactured at our headquarters and manufacturing facility in Las Vegas, Nevada, as well as outsourced for certain sub-assemblies in the United States.

Additional information regarding our products and product categories may be found in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2017 10-K and on our web site, www.galaxygaming.com. Information found on the web site should not be considered part of this report.

Results of operations for the three months ended September 30, 2018 and 2017. For the three months ended September 30, 2018, we generated gross revenues of \$4,775,784 compared to gross revenues of \$3,830,420 for the comparable prior-year period, representing an increase of 945,364, or 24.7%. This increase was primarily attributable to higher revenue from: (i) Bonus Jackpot System due to additional game placements; (ii) internet-based gaming activities; and (iii) premium Games such as Heads Up Hold 'em, High Card Flush and Player's Edge, which command a

higher price point per unit. In addition, the adoption of ASC 606 resulted in \$230,842 of higher revenue reported for the three months ended September 30, 2018. Since we elected to adopt ASC 606 using the modified retrospective approach, no changes were made to our previously issued financial statements, including the statement of operations for the three months ended September 30, 2017. Excluding the impact of the adoption of ASC 606, gross revenue for the three months ended September 30, 2018 would have been \$4,544,942, an increase of 18.7% over the comparable prior period.

Selling, general and administrative expenses for the three months ended September 30, 2018 were \$2,559,056 compared to \$2,362,601 for the comparable prior period, representing an increase of \$196,455, or 8.3%. Excluding the impact of the adoption of ASC 606, selling, general and administrative expenses for the three months ended September 30, 2018 would have been \$2,328,214, a decrease of 0.9% over the comparable prior period.

Research and development expenses for the three months ended September 30, 2018 were \$373,456, compared to \$139,185 for the comparable prior-year period, representing an increase of \$234,271, or 168.3%. This increase was primarily due to increased costs associated with testing our products currently in development.

Edgar Filing: Galaxy Gaming, Inc. - Form 10-Q

Stock-based compensation expenses for the three months ended September 30, 2018 was \$192,998, as compared to \$384,925 for the comparable prior-year period, representing a decrease of \$191,927, or 49.9%. During the three months ended September 30, 2017, we issued stock options and restricted shares of common stock to our President and Chief Executive Officer and Chairman of the Board, a portion of which was vested immediately and thus expensed during the quarter.

Income from operations increased \$686,834 or 151.5% to \$1,140,044 for the three months ended September 30, 2018, compared to \$453,210 for the comparable prior-year period. This increase was primarily attributable to higher revenue and lower share-based compensation expenses, partially offset by higher selling, general and administrative and research and development expenses.

Total interest expense decreased \$226,041, or 52.3%, to \$206,425 for the three months ended September 30, 2018, compared to \$432,466 for the comparable prior-year period. The decrease was mainly attributable to lower interest rate on the NSB Term Loan and the NSB Revolver as compared to the Breakaway Term Loan.

There was no change in estimated fair value of warrants issued in connection with the Breakaway Term Loan for the three months ended September 30, 2018, compared to other expense of \$86,308 for the comparable prior-year period. The Warrants were paid off on April 24, 2018 in connection with the payoff of the Breakaway Term Loan.

Income tax provision was \$166,662 for the three months ended September 30, 2018, compared to a provision of \$21,990 for the comparable prior-year period. This increase was primarily attributable to the increase in income before provision for income taxes, partially offset by a reduction in the federal statutory rate as a result of the Tax Cuts and Jobs Act signed in December 2017.

Results of operations for the nine months ended September 30, 2018 and 2017. For the nine months ended September 30, 2018, we generated gross revenues of \$13,672,650 compared to gross revenues of \$10,964,524 for the comparable prior-year period, representing an increase of \$2,708,126, or 24.7%. This increase was primarily attributable to higher revenue from: (i) Bonus Jackpot System due to additional game placements; (ii) internet-based gaming activities; and (iii) premium Games such as Heads Up Hold 'em, High Card Flush and Player's Edge, which command a higher price point per unit. In addition, the adoption of ASC 606 resulted in \$703,611 of higher revenue reported for the nine months ended September 30, 2018. Since we elected to adopt ASC 606 using the modified retrospective approach, no changes were made to our previously issued financial statements, including the statement of operations for the nine months ended September 30, 2017. Excluding the impact of the adoption of ASC 606, gross revenue for the nine months ended September 30, 2018 would have been \$12,969,039, an increase of 18.3% over the comparable prior period.

Selling, general and administrative expenses for the nine months ended September 30, 2018 were \$7,741,213 compared to \$6,808,659 for the comparable prior period, representing an increase of \$932,554, or 13.7%. The increase was primarily due to higher compensation and related expense as we continue to invest in personnel and attract new talent. Excluding the impact of the adoption of ASC 606, selling, general and administrative expenses for the nine months ended September 30, 2018 would have been \$7,037,603, an increase of 6.0% over the comparable prior period.

Research and development expenses for the nine months ended September 30, 2018 were \$816,657, compared to \$403,618 for the comparable prior-year period, representing an increase of \$413,039, or 102.3%. This increase was primarily due to increased costs associated with testing our products currently in development.

Stock-based compensation expenses for the nine months ended September 30, 2018 was \$550,588, as compared to \$553,313 for the comparable prior-year period, representing a decrease of \$2,725, or 0.5%.

Income from operations increased \$1,342,580 or 77.1% to \$3,084,225 for the nine months ended September 30, 2018, compared to \$1,741,645 for the comparable prior-year period. This increase was primarily attributable to higher revenue, partially offset by higher selling, general and administrative and research and development expenses.

Total interest expense decreased \$496,208, or 37.7%, to \$819,837 for the nine months ended September 30, 2018, compared to \$1,316,045 for the comparable prior-year period. The decrease was mainly attributable to lower interest rate on the NSB Term Loan and the NSB Revolver as compared to the Breakaway Term Loan and a reduction in interest rate on the Breakaway Term Loan beginning October 1, 2017 due to achievement of a specified leverage ratio.

There was no change in estimated fair value of warrants issued in connection with the Breakaway Term Loan for the nine months ended September 30, 2018, compared to other expense of \$409,717 for the comparable prior-year period. The Warrants were paid off on April 24, 2018 in connection with the payoff of the Breakaway Term Loan.

Loss on extinguishment of debt was \$1,349,271 as a result of an early redemption premium paid in connection with the payoff of the Breakaway Term Loan and the write-off of unamortized debt issuance costs and estimated grant-date fair value of the Warrants.

Edgar Filing: Galaxy Gaming, Inc. - Form 10-Q

Income tax provision was \$154,799 for the nine months ended September 30, 2018, compared to \$86,881 for the comparable prior-year period. This change was primarily attributable to the increase in income before provision for income taxes, partially offset by a reduction in the federal statutory rate as a result of the Tax Cuts and Jobs Act signed in December 2017.

Adjusted EBITDA. Adjusted EBITDA includes adjustments to net income to exclude interest, taxes, depreciation, amortization, share based compensation, loss on extinguishment of debt, foreign currency exchange gains, change in estimated fair value of warrant liability, and settlement income. Adjusted EBITDA is not a measure of performance defined in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). However, Adjusted EBITDA is used by management to evaluate our operating performance. Management believes that disclosure of the Adjusted EBITDA metric offers investors, regulators and other stakeholders a view of our operations in the same manner management evaluates our performance. When combined with U.S. GAAP results, management believes Adjusted EBITDA provides a comprehensive understanding of our financial results. Adjusted EBITDA should not be considered as an alternative to net income or to net cash provided by operating activities as a measure of operating results or of liquidity. It may not be comparable to similarly titled measures used by other companies, and it excludes financial information that some may consider important in evaluating our performance. A reconciliation of U.S. GAAP net income from operations to Adjusted EBITDA is as follows:

Adjusted EBITDA Reconciliation:	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017

Liquidity and capital resources. We expect that we will be able meet our operating, investing and financing needs for liquidity through cash on hand and anticipated positive cash flows from operations. In addition, as part of the refinancing transactions completed in April 2018, we have access to a revolving line of credit (borrowings on which may be restricted under certain circumstances). See Note 10 to our condensed financial statements included in Item 1 of this report. However, our expectations may not be realized, and the issuance of additional debt or equity financing may be required. There can be no assurance that we will be successful in raising additional funding, if necessary; and even if we are successful, it may not be on advantageous terms to us. If we are not able to secure additional funding, the implementation of our business plan could be impaired. Several unforeseen circumstances may affect our belief that our cash on hand and cash flows from operations will be adequate for our needs. For example, we may incur higher capital expenditures than anticipated to expand our operations. We may from time to time acquire products and businesses complementary to our business. We may also incur higher-than-expected expenses when applying for new licenses or in complying with current jurisdictional requirements.

As of September 30, 2018, we had total current assets of \$8,948,806 and total assets of \$20,144,560. This compares to \$6,770,189 and \$19,114,163, respectively, as of December 31, 2017. The increase in current assets as of September 30, 2018 was primarily due to an increase in cash, cash equivalents and restricted cash. Our total current liabilities as of September 30, 2018 were \$4,376,583 and \$4,869,335 as of December 31, 2017. This decrease was primarily driven by a decrease in accounts payable (mainly due to a January 2018 payment of \$774,645 for license fees previously accrued at December 31, 2017) and income taxes payable (principally due to tax payments made during the nine months ended September 30, 2018).

We have undertaken certain growth initiatives to expand our recurring revenue base. As such we have made investments in personnel and research related to the development of our enhanced table systems. Additionally, we increased our sales and marketing budget and spent funds on regulatory efforts for the purpose of expanding the jurisdictions in which we can operate in. We have filed applications for new or enhanced licenses in several jurisdictions, which may result in significant future legal and regulatory expenses. A significant increase in such expenses may require us to postpone growth initiatives or investments in personnel, inventory and research and development of our products. It is our intention to continue such initiatives and investments. However, to the extent we are not able to achieve our growth objectives or raise additional capital, we will need to evaluate the reduction of operating expenses.

At September 30, 2018, we do not have any available third-party lines or letters of credit or any written or oral commitments from officers or shareholders to provide us with loans or advances to support our operations or fund potential acquisitions. In April 2018, we completed a refinancing transaction which provided us with a \$1.0 million line of credit (borrowings on which may be restricted under certain circumstances). See Note 10 to our condensed financial statements included in Item 1 of this report.

Our operating activities provided \$2,806,957 in cash for the nine months ended September 30, 2018, compared to \$2,235,840 for the three months ended September 30, 2017. The increase in operating cash flow was primarily due to the increase in net income.

Additionally, investing activities used cash of \$100,098 for the nine months ended September 30, 2018, which was due to the acquisition of property and equipment. Cash used in financing activities during the nine months ended September 30, 2018 was \$1,066,324, which was primarily due to refinancing activities occurred on April 24, 2018 and principal payments towards long-term debt and capital leases.

Critical accounting policies. The discussion of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with U.S. GAAP. Critical accounting policies are those policies that, in management's view, are most important in the portrayal of our financial condition and results of operations. See Note 3 of our financial statements included in Item 8. "Financial Statements and Supplementary Data" of our 2017 10-K for further detail on these critical accounting policies.

Off balance sheet arrangements. As of September 30, 2018, there were no off balance sheet arrangements.

Recently issued accounting pronouncements. We do not expect the adoption of recently issued accounting pronouncements to have a significant impact on our results of operations, financial position or cash flow.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A smaller reporting company is not required to provide the information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2018 our disclosure controls and procedures were effective.

No change in our internal control over financial reporting occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the effectiveness of internal controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives and our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at that reasonable assurance level. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of conducting our business, we are, from time to time, involved in various legal proceedings, administrative proceedings, regulatory government investigations and other matters, including those in which we are a plaintiff, that are complex in nature and have outcomes that are difficult to predict. In accordance with topic ASC Topic 450, Contingencies, we record accruals for such contingencies to the extent that we conclude that it is probable that a liability will be incurred and the amount of the related loss can be reasonably estimated. Our assessment of each matter may change based on future unexpected events. An unexpected adverse judgment in any pending litigation could cause a material impact on our business operations, intellectual property, results of operations or financial position. Unless otherwise expressly stated, we believe costs associated with litigation will not have a material impact on our financial position or liquidity, but may be material to the results of operations in any given period. We assume no obligation to update the status of pending litigation, except as may be required by GAAP, applicable law, statute or regulation. For a complete description of the facts and circumstances surrounding material litigation to which we are a party, See Note 11 in Item 8. “Financial Statements and Supplementary Data” included in our 2017 10-K. There are no material updates to matters previously reported on our 2017 10-K.

In September 2018, we were served with a complaint by TMax regarding the TMAX Agreement. The complaint, filed in the Eighth Judicial District Court in Clark County, Nevada, alleges that we breached the TMAX Agreement, among other allegations. We filed an answer denying the allegations and counterclaimed for breach of contract, Abuse of Process and Fraud in the Inducement, among other counterclaims. We believe the TMax complaint lacks any merit and intend to aggressively pursue dismissal of the complaint while pursuing our counterclaims.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On September 28, 2018, we issued 13,000 shares of our restricted common stock valued at \$16,770 to each of Messrs. Norm DesRosiers, Bryan Waters and William Zender, who are members of our Board, in consideration of their service on the Board during the three months ended September 30, 2018. In each of the transactions listed above, the securities were issued pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended, (the “Securities Act”) and rules and regulations promulgated thereunder.

Our reliance upon Section 4(a)(2) of the Securities Act in granting the aforementioned options to purchase shares of our common stock was based in part upon the following factors: (a) each of the issuances of the securities was in connection with an isolated private transaction which did not involve any public offering; (b) there were a limited number of offerees; (c) there were no subsequent or contemporaneous public offerings of the securities by us; and (d) the negotiations for the issuance of the securities took place directly between the offeree and us.
