Item 8.01 Other Events

On December 16, 2015, Rayonier Advanced Materials Inc. (the “Company”) and Borregaard ASA (“BRG”) executed definitive agreements regarding their plan to create a joint venture (the “JV”) to purify and sell lignin products at the Company’s Fernandina Beach, Florida manufacturing plant.

The proposed JV, which would be named LignoTech Florida LLC, was announced in June 2015 and, if approved by the boards of directors of both parties, should commence operations in two phases over five years, beginning in the first quarter of 2018.

A final decision by the boards of both companies on whether to proceed with the project is anticipated in mid-2016, after completion of final engineering, securing of local and state incentives, refinement of the capital cost structure and permit approvals by applicable state and local agencies.
