For Immediate Release

July 26, 2007

Cummins continues record performance in second quarter; increases full-year earnings guidance

COLUMBUS, IND. - Broad gains across most of the Company's product and geographical markets led Cummins Inc. (NYSE: CMI) to record revenues and strong earnings in the second quarter.

The Company today reported second-quarter revenues of \$3.34 billion, up 18 percent from \$2.84 billion in the second quarter of 2006 and 10 percent higher than the previous quarterly record set in the fourth quarter of last year.

Net income of \$214 million, or \$2.13 per diluted share, was down 3 percent from \$220 million (\$2.19 per diluted share) in the second quarter of 2006, which included a \$28 million (\$0.28 per share) one-time tax benefit. Absent the tax benefit a year ago, net income increased 11 percent over the same period in 2006.

Earnings Before Interest and Taxes (EBIT) increased 9 percent to \$354 million, from \$325 million during the same period in 2006, and also was a quarterly record.

The Company's strong performance comes in the face of the emissions-related slowdown in the North American heavy-duty truck market, which is expected to be down 45 percent this year. Cummins' North American heavy-duty engine shipments fell 42 percent from a year ago, but significant growth in the Company's non-heavy duty truck engine markets and other product lines more than offset that decrease.

"This was a tremendous quarter for Cummins and is further proof that the work we have done to diversify our business is paying off," said Cummins Chairman and Chief Executive Officer Tim Solso. "Our strong performance in the first half of the year has put us in a position to make 2007 Cummins' most profitable year ever - which would be a significant feat given the challenges we have faced in the heavy-duty truck engine market."

Based on its first-half performance and its outlook for the remainder of the year, Cummins also raised its 2007 earnings guidance today to \$7.15 - \$7.65 from \$6.00 - \$6.50 a share.

The Company's Engine, Power Generation and Components businesses all reported record revenues in the second quarter, while Power Generation, Components and Distribution reported record Segment EBIT.

In the Engine business, sales to light-duty automotive and recreational vehicle markets, as well as the global

medium-duty truck, bus and construction markets, were the key drivers of broad gains - lessening the impact of lower heavy-duty truck engine sales. Segment EBIT fell 2 percent from 2006.

The Company's share of the North American heavy-duty market continued to increase in the second quarter. Through May, Cummins had earned a 33.1 percent share of the market - up from 27.1 percent at the end of 2006.

The Company's Power Generation business continues to produce record sales and earnings, led by significant growth in the Company's commercial generator set and alternator product lines. Growth was strongest in North America, the Middle East and India.

The Components business - which includes filtration, exhaust aftertreatment, turbochargers and fuel systems - reported significantly improved profitability, along with record quarterly sales. Tougher emissions controls around the world are driving strong gains in this business. Cummins Filtration reported a 29 percent increase in operating profit on an 11 percent rise in revenue, while Cummins Emission Solutions is on pace to triple its sales from last year.

The Company's Distribution business reported record profit and near-record sales during the quarter. Demand for power generation equipment increased significantly in North America, Europe and the Middle East. Distributor joint venture income increased substantially from the same period in 2006 led by strong performance at the Company's North America distributor joint ventures.

Buoyed by its strong performance, Cummins also continues to invest in profitable growth opportunities and return significant value to its shareholders through actions such as the 39 percent increase in the cash dividend on Cummins stock announced in early July.

The Company expects to spend \$320 - \$350 million on capital projects this year - part of \$2 billion in planned capital expenditures around the world in the next five years. The Company also anticipates that its unconsolidated joint ventures will spend another \$1 billion on capital projects during that same period. The large majority of capital spending will go to increase capacity for emissions-compliant products across all of our businesses.

As a reflection of the Company's continuing strong performance, last week Fitch Ratings upgraded its ratings on Cummins' debt, citing the "continued improvement in Cummins' balance sheet, increased sales diversification, an improved competitive profile and solid operating performance in North America so far in 2007 despite the downturn in the heavy truck cycle" among other factors.

"This is an exciting time for Cummins," Solso said. "We have performed well this year in the face of significant challenges and continue to position ourselves for broad, global growth in the years to come. Increasingly, our businesses are working together to provide the best products and service to customers around the world, and we remain focused on providing strong returns to our shareholders."

Second-quarter details

Engine Segment

Sales increased 11 percent from the same period in 2006 to \$2.11 billion. Sales to light-duty automotive and RV markets increased 23 percent; global medium-duty truck engine sales rose 30 percent and worldwide sales to the construction industry increased 24 percent.

Segment EBIT of \$186 million, or 8.8 percent of sales, fell 2 percent from the second quarter of 2006 due to lower North American heavy-duty truck engine sales.

Power Generation

Sales rose 29 percent from the same period in 2006 to \$769 million, while Segment EBIT increased 57 percent to \$88

million, or 11.4 percent of sales. Strong volumes across most regions - especially North America, the Middle East, Europe and India - led to the improved performance.

Commercial generator sales, the largest business in the segment, rose 33 percent compared to the same period in 2006, while alternator sales increased 40 percent. Every line of business in the segment reported double-digit percentage sales growth during the quarter.

Components

Sales increased 34 percent from second quarter 2006 to \$757 million, while Segment EBIT grew 41 percent to \$48 million, or 6.3 percent of sales.

The improved performance was led by strong profit gains in the segment's filtration and exhaust aftertreatment businesses. Sales in Emissions Solutions, an exhaust aftertreatment business, increased by more than 250 percent over the same period in 2006, due to strong demand for its products designed to help engines meet stringent new emissions standards in the U.S. and Europe.

Distribution

Sales of \$368 million were 10 percent higher than the second quarter of 2006 (24 percent higher when adjusting for a change in reporting at one of the Company's North American distributor joint ventures that took effect Jan. 1, 2007). Segment EBIT was a record \$46 million, or 12.5 percent of sales, a 28 percent increase from last year.

Distributor joint venture income increased 71 percent from the same period in 2006, led by strong gains at the Company's North American distributor joint ventures. Sales of power generation equipment rose 40 percent, paced by large gains in Europe and the Middle East, while parts sales increased 24 percent. Double-digit percentage sales gains were reported in all of the segment's geographic regions.

Presentation of Non-GAAP Financial Information

EBIT is a non-GAAP measure used in this release. EBIT is defined and reconciled to what management believes to be the most comparable GAAP measure in a schedule attached to this release. Cummins presents this information as it believes it is useful to understanding the Company's operating performance, and because EBIT is a measure used internally to assess the performance of the operating units. Management also believes that certain other non-GAAP measures, such as net income excluding one-time tax benefits and cash flow from operations excluding pension contributions, can provide meaningful reflection of underlying trends of the business because they provide a comparison of historical information that excludes certain items that affect the overall comparability.

Webcast information

Cummins management will host a teleconference to discuss these results today at 10 a.m. EDT. This teleconference will be webcast and available on the Investor Relations section of the Cummins website at www.cummins.com. Participants wishing to view the visuals available with the audio are encouraged to sign-in a few minutes prior to the start of the teleconference.

Forward-looking statements disclosure

Information provided in this release and on the webcast that is not purely historical are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding the company's expectations, hopes, beliefs and intentions on strategies regarding the future. It is important to note that the company's actual future results could differ materially from those projected in such forward-looking statements because of a number of factors, including, but not limited to, general economic, business and financing conditions, labor relations, governmental action, competitor pricing activity, expense volatility and other risks detailed from time to time in Cummins Securities and Exchange Commission filings.

About Cummins

Cummins Inc., a global power leader, is a corporation of complementary business units that design, manufacture, distribute and service engines and related technologies, including fuel systems, controls, air handling, filtration, emission solutions and electrical power generation systems. Headquartered in Columbus, Indiana, (USA) Cummins serves customers in more than 160 countries through its network of 550 Company-owned and independent distributor facilities and more than 5,000 dealer locations.

Cummins reported net income of \$715 million on sales of \$11.4 billion in 2006. Press releases can be found on the Web at www.cummins.com.

CUMMINS INC. AND CONSOLIDATED SUBSIDIARIES
FINANCIAL MEASURES THAT SUPPLEMENT GAAP
(Unaudited)

Earnings before interest, taxes and minority interests (EBIT)

We define EBIT as earnings before interest expense, provision for income taxes and minority interests in earnings of consolidated subsidiaries. We use EBIT to assess and measure the performance of our operating segments and also as a component in measuring our variable compensation programs. Below is a reconciliation of EBIT, a non-GAAP financial measure, to our consolidated net earnings, for each of the applicable periods:

	Three Months Ended			Six Months Ended	
	July 1, 2007	July 2, 2006	April 1, 2007	July 1, 2007	July 2, 2006

Edgar Filing: CUMMINS INC - Form 8-K

Earnings before interest expense, income taxes and minority interests	\$ 354	\$ 325	\$ 243	\$ 597	\$ 580
<i>EBIT as a percentage of net sales</i>	10.6%	11.4%	8.6%	9.7%	10.5%
Less:					
Interest expense	14	26	16	30	53
Provision for income taxes	112	67	75	187	152
Minority interests in earnings of consolidated subsidiaries	14	12	9	23	20

Royalty and other income	2	3	3	5	8
Investee equity, royalty and other income	\$ 52	\$ 37	\$ 36	\$ 88	\$ 68

NOTE 3. PROVISION FOR INCOME TAXES

Our tax rates are generally less than the 35 percent U.S. income tax rate primarily because of lower taxes on foreign earnings, export tax benefits and research tax credits.

Our effective tax rate for the three and six months ended July 1, 2007, was 33 percent. Our 2006 provision was reduced in the second quarter by \$28 million, or \$0.28 per share, due to the favorable resolution of tax uncertainties related to prior years. In addition, our 2006 provision was also impacted in the first quarter by a \$12 million, or \$0.12 per share, increase for the effect of new Indiana tax legislation. As a result, our effective tax rate for the three and six months ended July 2, 2006, was 22 percent and 29 percent, respectively.

NOTE 4. DEPRECIATION AND AMORTIZATION

Depreciation and amortization expense included in operating activities of the *Condensed Consolidated Statements of Cash Flows* for the six months ended July 1, 2007 and July 2, 2006, was \$142 million and \$148 million, respectively.

NOTE 5. SHIPPING AND HANDLING COSTS

Our shipping and handling costs are expensed as incurred. Those shipping and handling costs associated with operations of our inventory distribution centers and warehouse facilities were previously classified as "Selling and administrative expenses" in our *Condensed Consolidated Statements of Earnings*. In accordance with Emerging Issues Task Force (EITF) Issue No. 00-10 "Accounting for Shipping and Handling Fees and Costs," we previously disclosed the amount of shipping and handling costs included as "Selling and administrative expenses" in the notes to our consolidated financial statements. Beginning January 1, 2007, we revised our accounting policy and all shipping and handling costs are now classified as "Cost of sales." This presentation is more consistent with current industry practice. For purposes of comparability, the \$26 million and \$59 million previously classified as "Selling and administrative expenses" in the three and six months ended July 2, 2006, has been adjusted retrospectively to apply the new method. This change had no impact on operating earnings, EBIT, net earnings, or earnings per share.

CUMMINS INC. AND CONSOLIDATED SUBSIDIARIES
SUPPLEMENTAL STATEMENTS OF EARNINGS INFORMATION
(Unaudited)

Shipping and handling costs associated with operations of our inventory distribution centers and warehouse facilities were previously classified as "Selling and administrative expenses" in our *Consolidated Statements of Earnings*. In accordance with Emerging Issues Task Force (EITF) Issue No. 00-10 "Accounting for Shipping and Handling Fees and Costs," we previously disclosed the amount of shipping and handling costs included as "Selling and administrative expenses" in the notes to our consolidated financial statements. Beginning January 1, 2007, we revised our accounting policy and all shipping and handling costs are classified as "Cost of sales." This presentation is more consistent with current industry practice. For purposes of comparability, amounts previously classified as "Selling and administrative expenses" in previous periods have been adjusted retrospectively to apply the new method. The Consolidated Statements of Earnings for each of the quarterly periods in 2006 and for the 2006 and 2005 annual periods with all shipping and handling costs included in "Cost of sales" follows:

	April 2, 2006	For the three months ended			For the years ended	
	April 2, 2006	July 2, 2006	October 1, 2006	December 31, 2006	December 31, 2006	2005
	Millions					
Net sales	\$ 2,678	\$ 2,842	\$ 2,809	\$ 3,033	\$ 11,362	\$ 9,918
