NOTE 2. SALE OF EXHAUST BUSINESS

In January 2011, we reached an agreement to sell certain assets and liabilities of our exhaust business which manufactures exhaust products and select components for emission systems for a variety of applications. The transaction closed in the second quarter of 2011. This business was historically included in our Components segment. The sales price was \$123 million. We recognized a pre-tax gain on the sale of \$68 million, which included an allocation of goodwill of \$19 million. The transaction has a working capital adjustment mechanism that will be determined in the third quarter. We do not expect a significant change to the measurement of the gain. The gain has been excluded from segment results as it was not considered by management in its evaluation of operating results for the three and six months ended June 26, 2011.

Sales for this business were \$171 million, \$126 million and \$169 million in 2010, 2009 and 2008, respectively. Income before income taxes for this business was approximately \$22 million, \$11 million and \$19 million in 2010, 2009 and 2008, respectively.

We will enter into supply and other agreements with the operations that will represent ongoing involvement and as such, the results of these operations will not be presented as discontinued operations.

NOTE 3. INCOME TAXES

Our effective tax rate for the year is expected to approximate 29.5 percent, absent any discrete period activity. Our tax rate is generally less than the 35 percent U.S. income tax rate primarily due to lower tax rates on foreign income and research tax credits. The tax rates for the three and six month periods ended June 26, 2011, were 29.5 percent and 29.8 percent. The tax rate for the three and six month periods ended June 26, 2011, includes a discrete tax charge of \$4 million related to the enactment of state law changes in Indiana.

Our effective tax rates for the comparable prior year periods were 31.1 percent and 32.2 percent, respectively. The tax rate for the six month period includes a discrete tax charge of \$7 million (one percent) related to the enactment of the Patient Protection and Affordable Care Act. The lower rate in 2011 compared to 2010 is a result of the geographic mix of earnings.

Earnings before interest, taxes and noncontrolling interests

We define EBIT as earnings or loss before interest expense, income tax expense and noncontrolling interests in income of consolidated subsidiaries (EBIT). We use EBIT to assess and measure the performance of our operating segments and also as a component in measuring our variable compensation programs. Below is a reconciliation of EBIT, a non-GAAP financial measure, to Net income attributable to Cummins Inc., for each of the applicable periods:

Net income and diluted earnings per share (EPS) attributable to Cummins Inc. excluding gain on sale of business

We believe this is a useful measure of our operating performance for the periods presented as it illustrates our underlying operating performance and trends without regard to the gain related to the sale of our exhaust business. This measure is not in accordance with, or an alternative for, accounting principles generally accepted in the United States of America and may not be consistent with measures used by other companies. It should be considered supplemental data. The following table reconciles net income attributable to Cummins Inc. excluding gain on sale of business to Net income attributable to Cummins Inc. for the three and six months ended June 26, 2011.
