The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions and results:

Under the Company's Employee Stock Purchase Plan, the Company issued 202,000 shares in 2007 and 204,000 shares in 2006. The fair value of the employees' purchase rights under this Plan was estimated on the date of grant. The benefit of the 15 percent discount from the lesser of the fair market value per common share on the first day and the last day of the plan year was added to the fair value of the employees' purchase rights determined using the Black-Scholes option-pricing model with the following assumptions and results:

10. Effective at the beginning of 2007, the Company adopted the provisions of FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes. The adoption of FIN 48 resulted in no adjustment to beginning retained earnings.

At the beginning of 2007, the Company's liability for uncertain tax positions was \$5.5 million. Unrecognized tax benefits of \$4.9 million would affect the Company's effective tax rate if recognized. The Company records penalties and accrued interest related to uncertain tax positions in income tax expense. At the beginning of 2007, approximately \$0.6 million was included in the liability for uncertain tax positions for the possible payment of interest and penalties. There were no significant changes in components of the liability in the first nine months of 2007.

With few exceptions, the Company is no longer subject to U.S. federal, state and local, or foreign income tax examinations by tax authorities for years prior to 2001. The Company's U.S. income tax returns for 2004 and 2005 are currently under examination by the IRS. An estimate of the range of possible changes that may result from the examination cannot be made at this time.

Approximately \$1 million of unrecognized tax benefits relate to items that are affected by expiring statutes of limitations within the next 12 months.

11. In July 2007, the Company entered into an agreement with a syndicate of lenders providing an unsecured credit facility for 5 years. The new credit facility provides \$250 million of unsecured committed credit with an option for an additional \$150 million. The facility is available for general corporate purposes, working capital needs, share repurchases and acquisitions. Borrowings under the facility bear interest at either the bank's prime rate, the federal funds effective rate plus 0.5 percent or the London Interbank Offered Rate plus a spread of between 0.23 percent and 0.57 percent, depending on the Company's cash flow leverage ratio (debt to earnings before interest, taxes, depreciation and amortization.) The Company is also required to pay a facility fee on the full amount of the loan commitment at an annual rate ranging from 0.07 percent to 0.15 percent, depending on the Company's cash flow leverage ratio. The agreement requires the Company to maintain certain financial ratios as to cash flow leverage and interest coverage. The Company is in compliance with the covenants of the agreement.

Upon securing the new facility, certain committed lines of credit totaling \$50 million were terminated. Additional uncommitted lines totaling \$55 million expired at the end of July 2007. At September 28, 2007, the Company's various lines of credit, including the new facility, totaled \$295 million, of which \$193 million was unused.

In September 2007, the company entered into a pay-fixed, receive-variable interest rate swap contract that effectively fixes the rate paid on \$40 million of variable rate borrowings at 4.73 percent plus the applicable spread (depending on cash flow leverage ratio) for a period of three years. The fair market value of the swap contract is included in other current liabilities. The contract has been designated as a hedge against interest rate volatility. Consequently, changes in the fair market value are recorded in accumulated other comprehensive income.

Item 2.

GRACO INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Net earnings of \$39 million for the quarter were 5 percent higher than net earnings in the third quarter last year. Sales of \$207 million were 3 percent higher than the same period last year. Year-to-date net earnings of \$117 million were 3 percent higher than last year and sales of \$636 million were up 4 percent. Higher sales in Europe and Asia were offset to a great extent by lower sales in the Americas.

Foreign currency translation rates had a favorable impact on sales and net earnings. Translated at consistent exchange rates, net earnings and sales for the quarter were each up 1 percent. Year-to-date net earnings were down 1 percent and sales increased 2 percent.

Results include the operations of Lubriquip, which was acquired in July 2006. Sales of Lubriquip products contributed approximately 2 percentage points of year-to-date sales growth. Year-to-date costs and expenses related to moving and consolidation activities (including the consolidation of Gusmer operations completed in the first quarter) totaled approximately \$2 million.

Net Sales

Sales by reportable segment and geographic area were as follows (in thousands):

¹ North and South America, including the U.S.

² Europe, Africa and Middle East

Industrial segment sales increased 7 percent for both the quarter and year-to-date. Double-digit percentage growth in Europe and Asia more than offset the 5 percent decrease in the Americas for both the quarter and year-to-date.

Contractor segment sales decreased 3 percent for the quarter and 4 percent year-to-date. Strong increases in Europe and Asia were not enough to offset the decrease in the Americas, where sales were down in both the home center and the professional paint store channels.

Lubrication segment sales increased 2 percent for the quarter and 19 percent year-to-date. The year-to-date increase is due to sales of Lubriquip products, acquired in mid-2006. Year-to-date sales in this segment increased in all geographic areas.

Gross Profit

Gross profit as a percentage of sales was 53.4 percent for the quarter compared to 52.7 percent for the third quarter last year. Translated at consistent exchange rates, gross profit percentage for the quarter is virtually the same as last year.

Year-to-date gross profit percentage was 53.1 percent in 2007 compared to 53.3 percent in 2006. The decrease was due mainly to lower margin rates on Lubriquip products, consolidation costs and higher material costs, offset somewhat by the favorable impacts of currency translation and pricing.

Operating Expenses

Total operating expenses for the quarter increased 1 percent. Product development and general and administrative expenses were down slightly while higher selling, marketing and distribution spending was in line with the sales increase.

Year-to-date operating expenses increased 4 percent, mostly due to expenses related to Lubriquip. Operating expenses as a percentage of sales are about the same as last year.

Income Taxes

The effective income tax rate of 32 percent for the quarter was 2 percentage points lower than the year-to-date rate. The lower rate in the quarter resulted from expiring statutes of limitations and a higher than expected benefit upon filing of prior year tax returns.

Effective tax rates were about the same as last year for both the quarter and year-to-date.

Liquidity and Capital Resources

In the first nine months of 2007, the Company used cash from operations and borrowings to purchase and retire \$165 million of Company common stock. Other significant uses of cash in the first nine months of 2007 included \$33 million for payment of dividends and \$28 million for capital additions.

In the first nine months of 2006, the Company used primarily cash from operations to purchase and retire \$70 million of Company common stock. Other significant uses of cash in the first nine months of 2006 included \$31 million for the acquisition of Lubriquip, \$30 million for payment of dividends and \$22 million for capital additions.

In July 2007, the Company entered into an agreement with a syndicate of lenders providing \$250 million of unsecured committed credit with an option for an additional \$150 million. The new credit facility will be used for general corporate purposes including acquisitions and share repurchases. Upon securing the new facility, certain committed lines of credit totaling \$50 million were terminated. Additional uncommitted lines totaling \$55 million expired at the end of July 2007.

At September 28, 2007, the Company's various lines of credit, including the new facility, totaled \$295 million, of which \$193 million was unused. Internally generated funds and unused financing sources provide the Company with the financial flexibility to meet liquidity needs.

Outlook

Management is optimistic about continued strength in the Company's international businesses and remains cautious in its outlook for the Americas. Portions of the Company's business that have ties to the housing sector in the Americas are expected to be soft until market conditions improve.

In September 2007, the Company announced the launch of new paint sprayers in the home center channel. The new sprayers are expected to generate higher per-store net sales; however sales to home centers in 2008 are estimated to be approximately \$7 to \$8 million lower than 2007 due to a reduction in the number of stores carrying the sprayers. Incremental expenses totaling approximately \$5 million related to the launch and production of new units will be incurred over the next 15 months, including \$0.5 million in 2007.

The integration of Lubriquip is on track for completion by the end of the year and the consolidation of Gusmer operations was completed in the first quarter. These integration activities will improve the contribution of the acquired products.

Management believes it can continue to guide the business to higher sales and earnings by making long-term investments in key growth strategies including new product development, expanding distribution, entering new markets and pursuing strategic acquisitions.
