QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2016

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 1-4717

KANSAS CITY SOUTHERN

(Exact name of registrant as specified in its charter)

Delaware 44-0663509

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

427 West 12th Street, 64105
Kansas City, Missouri

(Address of principal executive offices) (Zip Code)

816.983.1303

(Registrant's telephone number, including area code)

No Change

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class July 12, 2016
Common Stock, \$0.01 per share par value 107,983,492 Shares

Kansas City Southern and Subsidiaries

Notes to Consolidated Financial Statements

For purposes of this report, “KCS” or the “Company” may refer to Kansas City Southern or, as the context requires, to one or more subsidiaries of Kansas City Southern.

1. Basis of Presentation

In the opinion of the management of KCS, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal and recurring adjustments) necessary to fairly present the results for interim periods in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”). Pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”), certain information and note disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. These consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. The results of operations for the three and six months ended June 30, 2016, are not necessarily indicative of the results to be expected for the full year ending December 31, 2016. Certain prior year amounts have been reclassified to conform to the current year presentation.

2. New Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers, which requires companies to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration it expects to be entitled in exchange for those goods or services. The new standard will become effective for the Company beginning with the first quarter 2018 and can be adopted either retrospectively to each prior reporting period presented or as a cumulative effect adjustment as of the date of adoption. The adoption of this guidance is not expected to have a material impact on the Company’s consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases, which requires lessees to recognize a right-to-use asset and a lease obligation for all leases. Lessees are permitted to make an accounting policy election to not recognize an asset and liability for leases with a term of twelve months or less. Lessor accounting under the new standard is substantially unchanged. Additional qualitative and quantitative disclosures, including significant judgments made by management, will be required. The new standard will become effective for the Company beginning with the first quarter 2019 and requires a modified retrospective transition approach. Early adoption of the standard is permitted. The Company is currently evaluating the impacts the adoption of this accounting guidance will have on the consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting, which simplifies several aspects of the accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification of related amounts within the statement of cash flows. The new standard will become effective for the Company beginning with the first quarter of 2017, with early adoption permitted. The adoption of this guidance is not expected to have a material impact on the Company’s consolidated financial statements.

Table of Contents

Kansas City Southern and Subsidiaries

Notes to Consolidated Financial Statements—(Continued)

3. Mexican Fuel Excise Tax Credit

Fuel purchases made in Mexico or the importation of fuel into Mexico is subject to an excise tax. During the second quarter of 2016, the Company determined that it could utilize a credit available under changes in Mexican law for the excise tax included in the price of fuel that is purchased and consumed in locomotives and certain work equipment in Mexico. As a result, the Company recognized a \$34.0 million year-to-date benefit during the quarter ended June 30, 2016. Utilization of the credit is limited to the total 2016 Mexico income tax liability and income tax withholding payment obligations of Kansas City Southern de Mexico, S.A. de C.V. (“KCSM”), with no carryforward to future periods.

4. Flooding in the Southeastern United States

In March 2016, flooding in the southeastern United States caused damage to the Company’s track infrastructure and interruptions to the Company’s rail service. During the three months ended June 30, 2016, the Company determined that it would file a claim under its insurance program for property damage, incremental expenses and lost profits caused by this flooding event. Accordingly, during the three months ended June 30, 2016, the Company recognized a receivable for probable insurance recovery of \$7.0 million, which offsets the impact of incremental expenses recognized in the first half of 2016. The probable insurance recovery and incremental expenses have been recognized in Materials and other in the Consolidated Statements of Income. The recognition of remaining probable insurance recoveries represents a contingent gain, which will be recognized when all contingencies have been resolved, which generally occurs at the time of final settlement or when nonrefundable cash payments are received. As of the date of this filing, no payments have been received from the insurance program.

5. Earnings Per Share Data

Basic earnings per common share is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share adjusts basic earnings per common share for the effects of potentially dilutive common shares, if the effect is not anti-dilutive. Potentially dilutive common shares include the dilutive effects of shares issuable under the stock option and performance award plans.

The following table reconciles the basic earnings per share computation to the diluted earnings per share computation (in millions, except share and per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Net income available to common stockholders for purposes of computing basic and diluted earnings per share	\$120.1	\$111.8	\$227.8	\$212.5
Weighted-average number of shares outstanding (in thousands):				
Basic shares	107,720	110,334	107,891	110,322
Effect of dilution	187	181	203	200
Diluted shares	107,907	110,515	108,094	110,522
Earnings per share:				
Basic earnings per share	\$1.12	\$1.01	\$2.11	\$1.93
Diluted earnings per share	\$1.11	\$1.01	\$2.11	\$1.92

Potentially dilutive shares excluded from the calculation (in thousands):

Stock options excluded as their inclusion would be anti-dilutive 48 125 185 74

Table of ContentsKansas City Southern and Subsidiaries
Notes to Consolidated Financial Statements—(Continued)

6. Property and Equipment (including Concession Assets)

Property and equipment, including concession assets, and related accumulated depreciation and amortization are summarized below (in millions):

	June 30,	December 31,
	2016	2015
Land	\$217.2	\$ 218.1
Concession land rights	141.2	141.2
Road property	7,015.0	6,784.3
Equipment	2,354.8	2,326.1
Technology and other	163.6	159.3
Construction in progress	189.4	184.7
Total property	10,081.2	9,813.7
Accumulated depreciation and amortization	2,233.4	2,108.3
Property and equipment (including concession assets), net	\$7,847.8	\$ 7,705.4

Concession assets, net of accumulated amortization of \$573.0 million and \$538.0 million, totaled \$2,110.9 million and \$2,070.5 million at June 30, 2016 and December 31, 2015, respectively.

7. Fair Value Measurements

Assets and liabilities recognized at fair value are required to be classified into a three-level hierarchy. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value in its entirety requires judgment and considers factors specific to the asset or liability.

The Company's derivative financial instruments are measured at fair value on a recurring basis and consist of foreign currency forward and option contracts, which are classified as Level 2 valuations. The Company determines the fair value of its derivative financial instrument positions based upon pricing models using inputs observed from actively quoted markets and also takes into consideration the contract terms as well as other inputs, including market currency exchange rates and in the case of option contracts, volatility, the risk-free interest rate and the time to expiration. The fair value of the foreign currency derivative instruments was a liability of \$7.3 million and \$46.0 million at June 30, 2016 and December 31, 2015, respectively.

The Company's short-term financial instruments include cash and cash equivalents, accounts receivable, accounts payable and short-term borrowings. The carrying value of the short-term financial instruments approximates their fair value.

The fair value of the Company's debt is estimated using quoted market prices when available. When quoted market prices are not available, fair value is estimated based on current market interest rates for debt with similar maturities and credit quality. The fair value of the Company's debt was \$2,697.8 million and \$2,287.5 million at June 30, 2016 and December 31, 2015, respectively. The carrying value was \$2,557.3 million and \$2,321.1 million at June 30, 2016 and December 31, 2015, respectively. If the Company's debt were measured at fair value, the fair value measurements of the individual debt instruments would have been classified as either Level 1 or Level 2 in the fair value hierarchy.

Table of ContentsKansas City Southern and Subsidiaries
Notes to Consolidated Financial Statements—(Continued)

8. Derivative Instruments

The Company enters into derivative transactions in certain situations based on management's assessment of current market conditions and perceived risks. Management intends to respond to evolving business and market conditions and in doing so, may enter into such transactions as deemed appropriate.

Credit Risk. As a result of the use of derivative instruments, the Company is exposed to counterparty credit risk. The Company manages this risk by limiting its counterparties to large financial institutions which meet the Company's credit rating standards and have an established banking relationship with the Company. As of June 30, 2016, the Company did not expect any losses as a result of default of its counterparties.

Foreign Currency Derivative Instruments. The Company's Mexican subsidiaries have net U.S. dollar-denominated monetary liabilities which, for Mexican income tax purposes, are subject to periodic revaluation based on changes in the value of the Mexican peso against the U.S. dollar. This revaluation creates fluctuations in the Company's Mexican income tax expense and the amount of income taxes paid in Mexico. The Company enters into foreign currency derivative contracts to hedge its exposure to this cash tax risk.

In the first quarter of 2016, the Company entered into foreign currency forward contracts with an aggregate notional amount of \$400.0 million. Contracts with an aggregate notional amount of \$60.0 million matured on April 29, 2016 and obligated the Company to purchase a total of Ps.1,057.3 million at a weighted-average exchange rate of Ps.17.62 to each U.S. dollar. During April 2016, the Company entered into offsetting contracts with an aggregate notional amount of \$60.7 million. These offsetting contracts matured on April 29, 2016, and obligated the Company to sell a total of Ps.1,057.3 million at a weighted-average exchange rate of Ps.17.41 to each U.S. dollar. The remaining contracts will mature on January 17, 2017 and obligate the Company to purchase a total of Ps.6,207.7 million at a weighted-average exchange rate of Ps.18.26 to each U.S. dollar.

In the first quarter of 2015, the Company entered into foreign currency forward contracts with an aggregate notional amount of \$300.0 million. These contracts matured on January 15, 2016, and obligated the Company to purchase a total of Ps.4,480.4 million at a weighted-average exchange rate of Ps.14.93 to each U.S. dollar. During January 2016, the Company entered into offsetting contracts with an aggregate notional amount of \$251.0 million. These offsetting contracts matured on January 15, 2016, and obligated the Company to sell a total of Ps.4,480.4 million at a weighted-average exchange rate of Ps.17.85 to each U.S. dollar.

During 2015, the Company also entered into several foreign currency option contracts known as zero-cost collars. These contracts involved the Company's purchase of a Mexican peso call option and a simultaneous sale of a Mexican peso put option, with equivalent U.S. dollar notional amounts for each option and no net cash premium paid by the Company. During January 2016, zero-cost collar contracts with an aggregate notional amount of \$80.0 million matured, resulting in a cash payment of \$10.1 million. As of June 30, 2016, there were no outstanding zero-cost collar contracts.

The Company has not designated any of the foreign currency derivative contracts as hedging instruments for accounting purposes. The Company measures the foreign currency derivative contracts at fair value each period and recognizes any change in fair value in foreign exchange loss within the consolidated statements of income.

The following table presents the fair value of derivative instruments included in the consolidated balance sheets (in millions):

	Derivative Liabilities		
	Balance Sheet Location	June 30, 2016	December 31, 2015
Derivatives not designated as hedging instruments:			
Foreign currency forward contracts	Accounts payable and accrued liabilities	\$ 7.3	\$ 39.8
Foreign currency zero-cost collar contracts	Accounts payable and accrued liabilities	—	6.2
Total derivative liabilities		\$ 7.3	\$ 46.0

Foreign currency zero-cost collar contracts	Foreign exchange loss	—	(2.4)	(3.9)	(3.1)
Total		\$(18.0)	\$(9.3)	\$(19.7)	\$(19.4)

9. Short-Term Borrowings

Commercial Paper. The Company's commercial paper program generally serves as the primary means of short-term funding. As of June 30, 2016, KCS had no commercial paper outstanding. As of December 31, 2015, KCS had \$80.0 million of commercial paper outstanding at a weighted-average interest rate of 1.072%.

10. Long-Term Debt

Senior Notes

On May 16, 2016, KCS issued \$250.0 million principal amount of senior unsecured notes due June 1, 2026 (the "3.125% Senior Notes"), which bear interest semiannually at a fixed annual rate of 3.125%. The 3.125% Senior Notes were issued at a discount to par value, resulting in a \$1.3 million discount and a yield to maturity of 3.185%. The net proceeds from the offering were used to repay the outstanding commercial paper issued by KCS and for other general corporate purposes. The 3.125% Senior Notes are redeemable at the issuer's option, in whole or in part, at any time, by paying the greater of either 100% of the principal amount to be redeemed and a formula price based on interest rates prevailing at the time of redemption and time remaining to maturity.

The 3.125% Senior Notes include certain covenants which are customary for this type of debt instrument issued by borrowers with similar credit ratings. The 3.125% Senior Notes are unsecured and unsubordinated obligations of the Company and are unconditionally guaranteed, jointly and severally, by The Kansas City Southern Railway Company ("KCSR") and each current and future domestic subsidiary of KCS that guarantees the KCS revolving credit facility or certain other debt of KCS or a note guarantor.

Debt Exchange

During the first quarter of 2016, KCS entered into agreements with certain holders of KCSR and KCSM senior notes (collectively, the "Existing Notes") to exchange Existing Notes for new securities issued by KCS. Each KCS note issued in exchange for an Existing Note has the same interest rate, interest payment dates and maturity date and substantially identical redemption provisions as the corresponding Existing Note. The KCS notes have the same terms (other than the issue date) as the corresponding notes issued by KCS in the exchange offers that closed on December 9, 2015. The following table summarizes the outstanding notes that were exchanged on March 29, 2016 (in millions):

Issuer of Existing Notes	Series of Existing Notes	Principal Amount Outstanding Prior to	Principal Amount of Notes Exchanged	Principal Amount Outstanding Following

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

		Exchange		Exchange
KCSR	3.85% Senior Notes due 2023	\$ 5.0	\$ 4.2	\$ 0.8
KCSR	4.30% Senior Notes due 2043	12.4	11.1	1.3
KCSR	4.95% Senior Notes due 2045	23.3	22.5	0.8
KCSM	2.35% Senior Notes due 2020	35.4	17.8	17.6

The Company has accounted for this transaction as a debt exchange as the exchanged debt instruments are not considered to be substantially different. The balance of the unamortized discount and issue costs from the Existing Notes is being amortized as an adjustment of interest expense over the term of the KCS notes. There was no gain or loss recognized as a result of the exchange.

Share Repurchase Program

In May 2015, the Company announced a share repurchase program of up to \$500.0 million, which expires on June 30, 2017. Management's assessment of market conditions, available liquidity and other factors will determine the timing and volume of repurchases. Share repurchases are expected to be funded by cash on hand, cash generated from operations and debt. During the three months ended June 30, 2016, KCS repurchased 85,000 shares of common stock for \$8.2 million at an average price of \$97.29 per share. Since inception of this program, KCS has repurchased 2,864,596 shares of common stock for \$253.4 million at an average price of \$88.46 per share. The excess of

repurchase price over par value is allocated between additional paid-in capital and retained earnings.

Table of ContentsKansas City Southern and Subsidiaries
Notes to Consolidated Financial Statements—(Continued)

Cash Dividends on Common Stock

On May 6, 2016, the Company's Board of Directors declared a cash dividend of \$0.330 per share payable on July 6, 2016, to common stockholders of record as of June 13, 2016. The aggregate amount of the dividends declared for the three and six months ended June 30, 2016 was \$35.6 million and \$71.2 million, respectively.

The following table presents the amount of cash dividends declared per common share by the Company's Board of Directors:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Cash dividends declared per common share	\$0.330	\$0.330	\$0.660	\$0.660

12. Commitments and Contingencies

Concession Duty. Under KCSM's 50-year railroad concession from the Mexican government (the "Concession"), which would expire in 2047 unless extended, KCSM pays concession duty expense of 1.25% of gross revenues. For the three and six months ended June 30, 2016, the concession duty expense, which is recorded within materials and other in operating expenses, was \$3.7 million and \$7.3 million, respectively, compared to \$3.9 million and \$7.7 million for the same periods in 2015.

Litigation. The Company is a party to various legal proceedings and administrative actions, all of which, except as set forth below, are of an ordinary, routine nature and incidental to its operations. Included in these proceedings are various tort claims brought by current and former employees for job-related injuries and by third parties for injuries related to railroad operations. KCS aggressively defends these matters and has established liability provisions, which management believes are adequate to cover expected costs. Although it is not possible to predict the outcome of any legal proceeding, in the opinion of management, other than those proceedings described in detail below, such proceedings and actions should not, individually, or in the aggregate, have a material adverse effect on the Company's consolidated financial statements.

Environmental Liabilities. The Company's U.S. operations are subject to extensive federal, state and local environmental laws and regulations. The major U.S. environmental laws to which the Company is subject include, among others, the Federal Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA," also known as the Superfund law), the Toxic Substances Control Act, the Federal Water Pollution Control Act, and the Hazardous Materials Transportation Act. CERCLA can impose joint and several liabilities for cleanup and investigation costs, without regard to fault or legality of the original conduct, on current and predecessor owners and operators of a site, as well as those who generate, or arrange for the disposal of, hazardous substances. The Company does not believe that compliance with the requirements imposed by the environmental legislation will impair its competitive capability or result in any material additional capital expenditures, operating or maintenance costs. The Company is, however, subject to environmental remediation costs as described in the following paragraphs.

The Company's Mexico operations are subject to Mexican federal and state laws and regulations relating to the protection of the environment through the establishment of standards for water discharge, water supply, emissions, noise pollution, hazardous substances and transportation and handling of hazardous and solid waste. The Mexican government may bring administrative and criminal proceedings, impose economic sanctions against companies that violate environmental laws, and temporarily or even permanently close non-complying facilities.

The risk of incurring environmental liability is inherent in the railroad industry. As part of serving the petroleum and chemicals industry, the Company transports hazardous materials and has a professional team available to respond to and handle environmental issues that might occur in the transport of such materials.

The Company performs ongoing reviews and evaluations of the various environmental programs and issues within the Company's operations, and, as necessary, takes actions intended to limit the Company's exposure to potential liability.

Although these costs cannot be predicted with certainty, management believes that the ultimate outcome of identified matters will not have a material adverse effect on the Company's consolidated financial statements.

Table of ContentsKansas City Southern and Subsidiaries
Notes to Consolidated Financial Statements—(Continued)

Personal Injury. The Company's personal injury liability is based on semi-annual actuarial studies performed on an undiscounted basis by an independent third party actuarial firm and reviewed by management. This liability is based on personal injury claims filed and an estimate of claims incurred but not yet reported. Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. Adjustments to the liability are reflected within operating expenses in the period in which changes to estimates are known. Personal injury claims in excess of self-insurance levels are insured up to certain coverage amounts, depending on the type of claim and year of occurrence. The personal injury liability as of June 30, 2016, was based on an updated actuarial study of personal injury claims through May 31, 2016, and review of the June 2016 experience. The personal injury liability activity was as follows (in millions):

	Six Months Ended June 30,	
	2016	2015
Balance at beginning of year	\$23.9	\$29.3
Accruals	2.4	4.4
Change in estimate	(0.6)	(3.5)
Payments	(2.0)	(3.2)
Balance at end of period	\$23.7	\$27.0

Certain Disputes with Ferromex. KCSM and Ferrocarril Mexicano, S.A. de C.V. ("Ferromex") use certain trackage rights, switching services and interline services provided by each other. KCSM and Ferromex had not agreed on the rates to be charged for trackage rights and switching services for periods beginning in 1998 through December 31, 2008, or for interline services for periods beginning in 1998 through February 8, 2010. Both KCSM and Ferromex had initiated administrative proceedings seeking a determination by the Mexican Secretaría de Comunicaciones y Transportes ("Secretary of Communications and Transportation" or "SCT") of the rates that KCSM and Ferromex should pay each other. The SCT issued rulings in 2002 and 2008 setting the rates for the services and both KCSM and Ferromex had challenged these rulings based on different grounds. Additionally, KCSM and Ferromex had not settled amounts payable to each other for trackage rights and switching services for the year ended December 31, 2009. In the first quarter of 2016, KCSM and Ferromex executed a settlement agreement resolving amounts payable to each other for trackage rights and switching services for periods beginning in 1998 through December 31, 2009, and for interline services for periods beginning in 1998 through February 8, 2010. Under this settlement agreement, KCSM and Ferromex also agreed to terminate all related administrative proceedings. This settlement agreement did not have a significant effect on the consolidated financial statements.

Tax Contingencies. Tax returns filed in the U.S. for periods after 2011 and in Mexico for periods after 2008 for KCSM and after 2009 for companies other than KCSM remain open to examination by the taxing authorities. An Internal Revenue Service (the "IRS") examination has been completed and settled for the 2012 U.S. federal tax return. The Servicio de Administración Tributaria (the "SAT"), the Mexican equivalent of the IRS, is currently examining the KCSM 2009, 2010 and 2011 Mexico tax returns and the 2013 Mexico tax return of KCSM Servicios, S.A. de C.V. ("KCSM Servicios"), a wholly-owned subsidiary of KCS. An SAT examination has been completed during the quarter without adjustment for the 2012 Mexico tax return of KCSM Servicios. The Company is litigating a Value Added Tax ("VAT") audit assessment from the SAT for KCSM for the year ended December 31, 2005. While the outcome of this matter cannot be predicted with certainty, the Company does not believe, when resolved, that this dispute will have a material effect on its consolidated financial statements. However, an unexpected adverse resolution could have a material effect on the consolidated financial statements in a particular quarter or fiscal year.

KCSM has not historically assessed VAT on international import transportation services provided to its customers based on a written ruling that KCSM obtained from the SAT in 2008 stating that such services were exempt from VAT (the "2008 Ruling"). Notwithstanding the 2008 Ruling, in December 2013, the SAT unofficially informed KCSM

of an intended implementation of new criteria effective as of January 1, 2014, pursuant to which VAT would be assessed on all international import transportation services on the portion of the services provided within Mexico. Additionally, in November 2013, the SAT filed an action to nullify the 2008 Ruling, potentially exposing the application of the new criteria to open tax years. In February 2014, KCSM filed an action opposing the SAT's nullification action. While the SAT's unofficial communication to KCSM is not enforceable and the 2008 Ruling continues to be in effect, KCSM notified its customers in December 2013 of the potential assessment of VAT on international import transportation services; however, implementation of any VAT assessment will depend on future developments and any guidance published by the SAT. Due to the pass-through nature of VAT assessed on services provided to customers, the Company does not

Table of ContentsKansas City Southern and Subsidiaries
Notes to Consolidated Financial Statements—(Continued)

believe any ultimate requirement to assess VAT on international import transportation services will have a significant effect on its consolidated financial statements. However, unexpected adverse implementation criteria imposed by the SAT for open tax years could have a material effect on the consolidated financial statements of the Company in a particular quarter or fiscal year.

Contractual Agreements. In the normal course of business, the Company enters into various contractual agreements related to commercial arrangements and the use of other railroads' or governmental entities' infrastructure needed for the operations of the business. The Company is involved or may become involved in certain disputes involving transportation rates, product loss or damage, charges, and interpretations related to these agreements. While the outcome of these matters cannot be predicted with certainty, the Company does not believe that, when resolved, these disputes will have a material effect on its consolidated financial statements.

Credit Risk. The Company continually monitors risks related to economic changes and certain customer receivables concentrations. Significant changes in customer concentration or payment terms, deterioration of customer creditworthiness or further weakening in economic trends could have a significant impact on the collectability of the Company's receivables and its operating results. If the financial condition of the Company's customers were to deteriorate and result in an impairment of their ability to make payments, additional allowances may be required. The Company has recorded provisions for uncollectability based on its best estimate at June 30, 2016.

Panama Canal Railway Company ("PCRC") Guarantees and Indemnities. At June 30, 2016, the Company had issued and outstanding \$5.3 million under a standby letter of credit to fulfill its obligation to fund fifty percent of the debt service reserve and liquidity reserve established by PCRC in connection with the issuance of the 7.0% Senior Secured Notes due November 1, 2026 (the "PCRC Notes"). Additionally, KCS has pledged its shares of PCRC as security for the PCRC Notes.

13. Geographic Information

The Company strategically manages its rail operations as one reportable business segment over a single coordinated rail network that extends from the Midwest and Southeast portions of the United States south into Mexico and connects with other Class I railroads. Financial information reported at this level, such as revenues, operating income and cash flows from operations, is used by corporate management, including the Company's chief operating decision-maker, in evaluating overall financial and operational performance, market strategies, as well as the decisions to allocate capital resources.

The following tables provide information by geographic area (in millions):

	Three Months Ended		Six Months Ended	
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015

Notes to Consolidated Financial Statements—(Continued)

14. Condensed Consolidating Financial Information

Pursuant to Securities and Exchange Commission (“SEC”) Regulation S-X Rule 3-10 “Financial statements of guarantors and issuers of guaranteed securities registered or being registered”, the Company is required to provide condensed consolidating financial information for issuers of certain of its senior notes that are guaranteed. During 2015 and the first quarter of 2016, the Company completed a debt exchange whereby current holders of KCSR notes exchanged their notes for new KCS notes. As such, condensed consolidating financial information is presented with KCS as issuer of the new KCS notes and the 3.125% Senior Notes and with KCSR as issuer of the remaining Existing Notes that were not exchanged.

As of June 30, 2016, KCS had outstanding \$244.8 million principal amount of Floating Rate Senior Notes due October 28, 2016, \$257.3 million principal amount of 2.35% Senior Notes due May 15, 2020, \$439.1 million principal amount of 3.00% Senior Notes due May 15, 2023, \$199.2 million principal amount of 3.85% Senior Notes due November 15, 2023, \$250.0 million principal amount of 3.125% Senior Notes due June 1, 2026, \$448.7 million principal amount of 4.30% Senior Notes due May 15, 2043 and \$499.2 million principal amount of 4.95% Senior Notes due August 15, 2045, which are unsecured obligations of KCS, and are also jointly and severally and fully and unconditionally guaranteed on an unsecured senior basis by KCSR and certain wholly-owned domestic subsidiaries of KCS.

The 3.125% Senior Notes were registered under KCS’s shelf registration statement filed and automatically effective as of November 20, 2014. The Company filed a registration statement on Form S-4 with the SEC in connection with an exchange offer with respect to the remaining KCS notes, which was declared effective on June 27, 2016. As a result, the Company is providing the following condensed consolidating financial information (in millions).

Condensed Consolidating Statements of Comprehensive Income - KCS Notes

Notes to Consolidated Financial Statements—(Continued)

As of June 30, 2016, KCSR had outstanding \$0.8 million principal amount of 3.85% Senior Notes due November 15, 2023, \$1.3 million principal amount of 4.30% Senior Notes due May 15, 2043 and \$0.8 million principal amount of 4.95% Senior Notes due August 15, 2045 (collectively, the “KCSR Notes”) which are unsecured obligations of KCSR, and are also jointly and severally and fully and unconditionally guaranteed on an unsecured senior basis by KCS and certain wholly-owned domestic subsidiaries. The 4.95% Senior Notes were registered under KCS’s shelf registration filed and automatically effective as of November 20, 2014. KCSR filed a registration statement on Form S-4 with the SEC in connection with an exchange offer with respect to the 3.85% Senior Notes and 4.30% Senior Notes, which was declared effective on May 28, 2014. As a result, the Company is providing the following condensed consolidating financial information (in millions).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The discussion below, as well as other portions of this Form 10-Q, contain forward-looking statements that are not based upon historical information. Readers can identify these forward-looking statements by the use of such verbs as "expects," "anticipates," "believes" or similar verbs or conjugations of such verbs. Such forward-looking statements are based upon information currently available to management and management's perception thereof as of the date of this Form 10-Q. However, such statements are dependent on and, therefore, can be influenced by, a number of external variables over which management has little or no control, including: competition and consolidation within the transportation industry; the business environment in industries that produce and use items shipped by rail; loss of the rail concession of Kansas City Southern's subsidiary, Kansas City Southern de México, S.A. de C.V.; the termination of, or failure to renew, agreements with customers, other railroads and third parties; access to capital; disruptions to the Company's technology infrastructure, including its computer systems; natural events such as severe weather, hurricanes and floods; market and regulatory responses to climate change; legislative and regulatory developments and disputes; rail accidents or other incidents or accidents on KCS's rail network or at KCS's facilities or customer facilities involving the release of hazardous materials, including toxic inhalation hazards; fluctuation in prices or availability of key materials, in particular diesel fuel; dependency on certain key suppliers of core rail equipment; changes in securities and capital markets; availability of qualified personnel; labor difficulties, including strikes and work stoppages; insufficiency of insurance to cover lost revenue, profits or other damages; acts of terrorism or risk of terrorist activities; war or risk of war; domestic and international economic, political and social conditions; the level of trade between the United States and Asia or Mexico; fluctuations in the peso-dollar exchange rate; increased demand and traffic congestion; the outcome of claims and litigation involving the Company or its subsidiaries; and other factors affecting the operation of the business. For more discussion about each risk factor, see Part II Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, which is on file with the U.S. Securities and Exchange Commission (File No. 1-4717) and Part I Item 1A — "Risk Factors" in the Form 10-K and any updates contained herein. Readers are strongly encouraged to consider these factors when evaluating forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the timing when, or by which, such performance or results will be achieved. As a result, actual outcomes or results could materially differ from those indicated in forward-looking statements. We are not under any obligation, and we expressly disclaim any obligation, to update or alter any forward-looking statements. This discussion is intended to clarify and focus on Kansas City Southern's ("KCS" or the "Company") results of operations, certain changes in its financial position, liquidity, capital structure and business developments for the periods covered by the consolidated financial statements included under Item 1 of this Form 10-Q. This discussion should be read in conjunction with those consolidated financial statements and the related notes and is qualified by reference to them.

Critical Accounting Policies and Estimates

The Company's discussion and analysis of its financial position and results of operations is based upon its consolidated financial statements. The preparation of these consolidated financial statements requires estimation and judgment that affect the reported amounts of revenue, expenses, assets and liabilities. The Company bases its estimates on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the accounting for assets and liabilities that are not readily apparent from other sources. If the estimates differ materially from actual results, the impact on the consolidated financial statements may be material. The Company's critical accounting policies are disclosed in the 2015 Annual Report on Form 10-K.

Overview

The Company is engaged in the freight rail transportation business, operating a coordinated rail network under one reportable business segment. The primary operating subsidiaries of the Company consist of the following: The Kansas City Southern Railway Company ("KCSR"), Kansas City Southern de México, S.A. de C.V. ("KCSM"), Meridian Speedway, LLC ("MSLLC"), and The Texas Mexican Railway Company ("TexMex"). The Company generates revenues

and cash flows by providing customers with freight delivery services within its regions, and throughout North America through connections with other Class I rail carriers. Customers conduct business in a number of different industries, including chemical and petroleum products, industrial and consumer products, agriculture and mineral products, energy products, automotive products and intermodal transportation. Appropriate eliminations and reclassifications have been recorded in preparing the consolidated financial statements.

Table of Contents

Second Quarter Analysis

Revenues decreased 3% for the three months ended June 30, 2016, as compared to the same period in 2015, due to a 3% decrease in revenue per carload/unit as a result of the weakening of the Mexican peso against the U.S. dollar and lower fuel surcharge, partially offset by positive pricing impacts.

Operating expenses decreased \$50.4 million during the three months ended June 30, 2016, as compared to the same period in 2015, due to a \$34.0 million year-to-date Mexican fuel excise tax credit recognized in the second quarter of 2016, the weakening of the Mexican peso against the U.S. dollar and lower fuel prices. Expense reductions resulting from the weakening Mexican peso and lower fuel prices generally offset the revenue reductions driven by these same macroeconomic factors. Operating expenses as a percentage of revenues was 61.3% for the three months ended June 30, 2016, compared to 68.1% for the same period in 2015.

The Company reported quarterly earnings of \$1.11 per diluted share on consolidated net income of \$120.1 million for the three months ended June 30, 2016, compared to earnings of \$1.01 per diluted share on consolidated net income of \$111.8 million for the same period in 2015.

Results of Operations

The following summarizes KCS's consolidated income statement components (in millions):

	Three Months		
	Ended		Change
	June 30,	2015	
	2016	2015	
Revenues	\$568.5	\$585.8	\$(17.3)
Operating expenses	348.6	399.0	(50.4)
Operating income	219.9	186.8	33.1
Equity in net earnings of affiliates	3.0	5.0	(2.0)

Other revenue	47.6	44.3	7 %						
Total revenues (i)	\$1,131.2	\$1,188.9	(5 %)						

(i) Included in revenues:

Fuel surcharge \$50.9 \$123.3

Freight revenues include revenue for transportation services and fuel surcharges. For the three months ended June 30, 2016, revenues decreased 3% and carload/unit volumes were flat as compared to the same period in 2015. For the six months ended June 30, 2016, revenues and carload/unit volumes decreased 5% and 3%, respectively, compared to the same period in 2015. For the three and six months ended June 30, 2016, revenues decreased by approximately \$17.0 million and \$37.0 million, respectively, compared to the same periods in 2015, due to the weakening of the Mexican peso against the U.S. dollar for revenue transactions denominated in Mexican pesos. The average exchange rate of Mexican pesos per U.S. dollar was Ps.18.1 and Ps.18.0 for the three and six months ended June 30, 2016, respectively, compared to Ps.15.3 and Ps.15.1 for the same periods in 2015.

Revenue per carload/unit decreased by 3% for the three and six months ended June 30, 2016, compared to the same periods in 2015, due to lower fuel surcharge and the weakening of the Mexican peso against the U.S. dollar, partially offset by positive pricing impacts.

Table of Contents

KCS's fuel surcharges are a mechanism to adjust revenue based upon changes in fuel prices above fuel price thresholds set in KCS's tariffs or contracts. Fuel surcharge revenue is calculated using a fuel price from a prior time period that can be up to 60 days earlier. In a period of volatile fuel prices or changing customer business mix, changes in fuel expense and fuel surcharge revenue may differ.

For the three and six months ended June 30, 2016, fuel surcharge revenue decreased \$35.6 million and \$72.4 million, compared to the same periods in 2015, due in part to the adjustment of certain line haul rates while reducing or eliminating fuel surcharges on those rates. In addition, fuel surcharge revenue decreased due to lower U.S. fuel prices and the impact of fuel prices falling below fuel price thresholds for certain of KCS's tariffs and contracts during the first half of 2016.

The following discussion provides an analysis of revenues by commodity group:

Revenues by
commodity
group
for the three
months ended
June 30, 2016

Chemical and petroleum. Revenues increased \$6.4 million for the three months ended June 30, 2016, compared to the same period in 2015, due to an 8% increase in carload/unit volumes, partially offset by a 2% decrease in revenue per carload/unit. Revenues increased \$8.9 million for the six months ended June 30, 2016, compared to the same period in 2015, due to a 6% increase in carload/unit volumes, partially offset by a 2% decrease in revenue per carload/unit. Petroleum volumes increased as a result of several customers' business expansion and plastics volumes increased due to strong market demand and low commodity pricing environment. Revenue per carload/unit decreased due to lower fuel surcharge and the weakening of the Mexican peso against the U.S. dollar, partially offset by positive pricing impacts.

Industrial and consumer products. Revenues decreased \$8.5 million for the three months ended June 30, 2016, compared to the same period in 2015, due to a 4% decrease in carload/unit volumes and a 2% decrease in revenue per carload/unit. Revenues decreased \$13.1 million for the six months ended June 30, 2016, compared to the same period in 2015, due to a 3% decrease in revenue per carload/unit and a 2% decrease in carload/unit volumes. Revenue per carload/unit decreased due to lower fuel surcharge and the weakening of the Mexican peso against the U.S. dollar, partially offset by positive pricing impacts. Forest products volumes decreased due to high inventory levels and planned maintenance outages.

Table of Contents

Revenues by
commodity
group
for the three
months ended
June 30, 2016

Agriculture and minerals. Revenues increased \$10.6 million for the three months ended June 30, 2016, compared to the same period in 2015, due to a 9% increase in carload/unit volumes and a 1% increase in revenue per carload/unit. Revenues increased \$15.0 million for the six months ended June 30, 2016, compared to the same period in 2015, due to a 6% increase in carload/unit volumes and a 1% increase in revenue per carload/unit. Food products and grain volumes increased due to improved cycle times. In addition, grain volumes increased due to additional equipment capacity. Revenue per carload/unit increased due to longer average length of haul and mix, partially offset by lower fuel surcharge and the weakening of the Mexican peso against the U.S. dollar.

Energy. Revenues decreased \$7.0 million for the three months ended June 30, 2016, compared to the same period in 2015, due to a 12% decrease in revenue per carload/unit and a 5% decrease in carload/unit volumes. Revenues decreased \$31.6 million for the six months ended June 30, 2016, compared to the same period in 2015, due to a 20% decrease in revenue per carload/unit and an 11% decrease in carload/unit volumes. Revenue per carload/unit decreased due to lower fuel surcharge and a short-term rate concession provided to a customer beginning in the third quarter of 2015, which leveraged excess capacity and included no service commitments. For the three and six months ended June 30, 2016, volumes decreased as the decline in new crude drilling operations in the U.S has reduced the demand for frac sand. Crude oil volumes decreased during the three months ended June 30, 2016, as a result of low crude oil spreads and increased pipeline capacity. In addition, low natural gas prices and high coal inventory levels reduced the demand for utility coal in the first quarter of 2016.

Intermodal. Revenues decreased \$6.5 million for the three months ended June 30, 2016, compared to the same period in 2015, due to a 5% decrease in revenue per carload/unit and a 2% decrease in carload/unit volumes. Revenues decreased \$16.4 million for the six months ended June 30, 2016, compared to the same period in 2015, due to a 4% decrease in carload/unit volumes and revenue per carload/unit. Volumes decreased due to high retail inventory levels, increased truck conversion and service interruptions due to flooding in the southeastern United States earlier in the year. Revenue per carload/unit decreased as a result of pricing impacts and shorter average length of haul.

Automotive. Revenues decreased \$10.4 million for the three months ended June 30, 2016, compared to the same period in 2015, due to a 19% decrease in revenue per carload/unit. Revenues decreased \$23.8 million for the six months ended June 30, 2016, compared to the same period in 2015, due to a 16% decrease in revenue per carload/unit and a 6% decrease in carload/unit volumes. Revenue per carload/unit decreased due to the weakening of the Mexican peso against the U.S. dollar and lower fuel surcharge. Volumes decreased as a result of customers' temporary plant shutdowns in the first half of 2016.

Table of Contents

Operating Expenses

Operating expenses, as shown below (in millions), decreased \$50.4 million and \$100.5 million for the three and six months ended June 30, 2016, compared to the same periods in 2015, due to a \$34.0 million year-to-date Mexican fuel excise tax credit recognized in the second quarter of 2016, the weakening of the Mexican peso against the U.S. dollar and lower fuel prices, partially offset by higher incentive compensation and increased depreciation expense. The weakening of the Mexican peso against the U.S. dollar resulted in expense reductions of approximately \$17.0 million and \$35.0 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015 for expense transactions denominated in Mexican pesos. The average exchange rate of Mexican pesos per U.S. dollar was Ps.18.1 and Ps.18.0 for the three and six months ended June 30, 2016, respectively, compared to Ps.15.3 and Ps.15.1 for the same periods in 2015. In addition, operating expenses decreased for the six months ended June 30, 2016 due to lease termination costs recognized in the first quarter of 2015.

	Three Months			
	Ended		Change	
	June 30,	June 30,	Dollars	Percent
	2016	2015

Lease termination costs	—	9.6	(9.6)	(100%)
Total operating expenses	\$723.4	\$823.9	\$(100.5)	(12 %)

Compensation and benefits. Compensation and benefits increased \$1.0 million for the three months ended June 30, 2016, compared to the same period in 2015, due to higher incentive compensation and annual wage increases, partially offset by the weakening of the Mexican peso and lower U.S. headcount. Compensation and benefits decreased \$6.5 million for the six months ended June 30, 2016 compared to the same period in 2015, due to the weakening of the Mexican peso and lower U.S. headcount, partially offset by higher incentive compensation and annual wage increases.

Purchased services. Purchased services expense decreased \$3.3 million and \$10.5 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015, due to the weakening of the Mexican peso. In addition, purchased services decreased for the three and six months ended June 30, 2016, compared to the same periods in 2015, due to the renegotiation of maintenance contracts in the second quarter of 2015.

Table of Contents

Fuel. Fuel expense decreased \$15.9 million for the three months ended June 30, 2016, compared to the same period in 2015, due to lower diesel fuel prices of approximately \$7.0 million and \$3.0 million in the U.S. and Mexico, respectively, and the weakening of the Mexican peso of approximately \$7.0 million. Fuel expense decreased \$40.1 million for the six months ended June 30, 2016, compared to the same period in 2015, due to lower diesel fuel prices of approximately \$16.0 million and \$6.0 million in the U.S. and Mexico, respectively, and the weakening of the Mexican peso of approximately \$15.0 million. The average price per gallon, including the weakening of the Mexican peso, was \$1.97 and \$1.89 for the three and six months ended June 30, 2016, respectively, compared to \$2.50 and \$2.48 for the same periods in 2015.

Mexican fuel excise tax credit. The Mexican fuel excise tax is used by the Mexican government to control fuel price. Mexico is transitioning to market-based fuel pricing, and the transition is expected to be complete in 2018. The implementation of a 2016 fuel excise tax credit for the Mexico railroad industry effectively moves the industry to market-based pricing.

For the three and six months ended June 30, 2016, the Company recognized a \$34.0 million year-to-date benefit related to a credit available under changes in Mexican law for the excise tax included in the price of fuel that is purchased and consumed in locomotives and certain work equipment in Mexico. Utilization of the credit is limited to the total 2016 Mexico income tax liability and income tax withholding payment obligations of KCSM, with no carryforward to future periods. The Company expects to recognize a benefit of \$26.0 million to \$30.0 million in the second half of 2016, depending on fuel consumption, the excise tax per liter at time of purchase, and the foreign exchange rate.

While currently enacted legislation does not extend the fuel excise tax credit to Mexican railroads beyond 2016, and there can be no assurance that the fuel excise tax credit will be extended, the Company believes it is likely that the Mexican government will continue to extend this credit to the Mexican railroad industry.

Equipment costs. Equipment costs decreased \$2.7 million and \$5.1 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015, due to lower lease expense as a result of the purchase of equipment under existing operating leases and replacement equipment as certain operating leases expired, and lower net car hire expense due to a reduction in cycle times and an increase in owned equipment.

Depreciation and amortization. Depreciation and amortization expense increased \$4.9 million and \$10.7 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015, due to a larger asset base.

Materials and other. Materials and other expense decreased \$0.4 million for the three months ended June 30, 2016, compared to the same period in 2015, due to the recognition of a \$7.0 million probable insurance recovery relating to the flooding event that occurred in the first quarter of 2016, the weakening of the Mexican peso and lower derailment expenses. These decreases were offset by increased other casualty expense due to flooding and storm related events, environmental expense and higher personal injury expense as a result of a \$0.6 million reduction recognized in the second quarter of 2016, compared to a reduction of \$3.5 million for the same period in 2015 as a result of changes in estimate due to favorable claims experience. Materials and other expense decreased \$5.4 million for the six months ended June 30, 2016, compared to the same period in 2015, due to the weakening of the Mexican peso, lower derailment expense and the favorable settlement of a legal dispute in the first quarter of 2016. These decreases were partially offset by other casualty expense due to flooding and storm related events and increased material and supplies expense due to the renegotiation of a maintenance contract in the second quarter of 2015.

Lease termination costs. Lease termination costs were \$9.6 million for the six months ended June 30, 2015, due to the early termination of certain operating leases and the related purchase of the equipment. The Company did not incur lease termination costs for the three months ended June 30, 2015 or the three and six months ended June 30, 2016.

Non-Operating Income and Expenses

Equity in net earnings of affiliates. Equity in net earnings from affiliates decreased \$2.0 million and \$2.5 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015, due to lower net earnings from Panama Canal Railway Company operations as a result of lower container volumes.

Interest expense. Interest expense increased \$6.7 million and \$11.7 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015, due to higher average interest rates and average debt balances as a result of the Company's issuance of debt during the third quarter of 2015 and second quarter of 2016. During the three and six months ended June 30, 2016, the average debt balances (including short-term borrowings) were \$2,486.0 million and \$2,446.5 million, respectively, compared to \$2,133.2 million and \$2,171.6 million for the same periods in 2015. Average interest rates during the three and six months ended June 30, 2016 were 4.0%, compared to 3.4% for the same periods in 2015.

Foreign exchange loss. For the three and six months ended June 30, 2016, foreign exchange loss was \$24.0 million and \$27.5 million, respectively, compared to \$10.5 million and \$22.1 million for the same periods in 2015. Foreign exchange loss includes the

Table of Contents

re-measurement and settlement of monetary assets and liabilities denominated in Mexican pesos and the loss on foreign currency derivative contracts.

For the three and six months ended June 30, 2016, the re-measurement and settlement of monetary assets and liabilities denominated in Mexican pesos resulted in a foreign exchange loss of \$6.0 million and \$7.8 million, respectively, compared to a foreign exchange loss of \$1.2 million and \$2.7 million for the same periods in 2015.

The Company enters into foreign currency derivative contracts to hedge its net exposure to fluctuations in the Mexican cash tax obligation due to changes in the value of the Mexican peso against the U.S. dollar. For the three and six months ended June 30, 2016, foreign exchange loss on foreign currency derivative contracts was \$18.0 million and \$19.7 million, respectively, compared to a foreign exchange loss of \$9.3 million and \$19.4 million for the same periods in 2015.

Other expense, net. Other expense, net decreased \$0.5 million and \$1.5 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015, due to lower miscellaneous expenses.

Income tax expense. Income tax expense increased \$3.1 million and \$9.5 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015, due to higher pre-tax income for the three and six months ended June 30, 2016 and a higher effective tax rate for the six months ended June 30, 2016. The components of the effective tax rates for the three and six months ended June 30, 2016, compared to the same periods in 2015, are as follows:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Statutory rate in effect	35.0%	35.0%	35.0%	35.0%
Tax effect of:				
Difference between U.S. and foreign tax rate	(2.9 %)	(2.9 %)	(2.9 %)	(2.9 %)
State and local income tax provision, net	1.2 %	1.3 %	1.2 %	1.3 %
Foreign exchange (i)	(3.0 %)	(3.4 %)	(1.2 %)	(2.3 %)
Other, net	0.4 %	0.9 %	0.4 %	0.9 %
Effective tax rate	30.7%	30.9%	32.5%	32.0%

Mexican income taxes are paid in Mexican pesos, and as a result, the effective income tax rate reflects fluctuations in the value of the Mexican peso against the U.S. dollar measured by the forward exchange rate. The foreign exchange impact on income taxes includes the gain or loss from the revaluation of net U.S. dollar-denominated monetary liabilities into Mexican pesos which is included in Mexican taxable income under Mexican tax law. As a result, a strengthening of the Mexican peso against the U.S. dollar for the reporting period will generally increase (i) the Mexican cash tax obligation and the effective income tax rate, and a weakening of the Mexican peso against the U.S. dollar for the reporting period will generally decrease the Mexican cash tax obligation and the effective tax rate. To hedge its exposure to this cash tax risk, the Company enters into foreign currency derivative contracts, which are measured at fair value each period and any change in fair value is recognized in foreign exchange loss within the consolidated statements of income as described above. Refer to Note 8 Derivative Instruments for more information.

Liquidity and Capital Resources

Overview

The Company focuses its cash and capital resources on investing in the business, shareholder returns and optimizing its capital structure.

The Company believes, based on current expectations, that cash and other liquid assets, operating cash flows, access to debt and equity capital markets, and other available financing resources will be sufficient to fund anticipated operating expenses, capital expenditures, debt service costs, dividends, share repurchases and other commitments in the foreseeable future. The Company's current financing instruments contain restrictive covenants which limit or

preclude certain actions; however, the covenants are structured such that the Company expects to have sufficient flexibility to conduct its operations. The Company was in compliance with all of its debt covenants as of June 30, 2016.

Though KCS's cash flows from operations are expected to be sufficient to fund operations, capital expenditures, debt service and dividends, the Company may, from time to time, incur debt to refinance existing indebtedness, purchase equipment under operating leases, repurchase shares or fund equipment additions or new investments.

Table of Contents

During the first half of 2016, the Company invested \$266.2 million in capital expenditures and purchased \$5.4 million of equipment under existing operating leases and replacement equipment as certain operating leases expired.

During the second quarter of 2016, KCS repurchased 85,000 shares of common stock for \$8.2 million at an average price of \$97.29 per share under the \$500.0 million share repurchase program announced in May 2015. Since inception of this program, KCS has repurchased 2,864,596 shares of common stock for \$253.4 million at an average price of \$88.46 per share. Management's assessment of market conditions, available liquidity and other factors will determine the timing and volume of any future repurchases.

During the first and second quarters of 2016, the Company's Board of Directors declared quarterly cash dividends on its common stock of \$0.33 per share (total of \$71.2 million). Subject to the discretion of the Board of Directors, capital availability and a determination that cash dividends continue to be in the best interest of its stockholders, the Company intends to pay a quarterly dividend on an ongoing basis.

On May 16, 2016, KCS issued \$250.0 million principal amount of senior unsecured notes, which bear interest semiannually at a fixed annual rate of 3.125%. The net proceeds from the offering were used to repay the outstanding commercial paper issued by KCS and for other general corporate purposes.

During the first quarter of 2016, KCS entered into agreements with certain holders of KCSR and KCSM senior notes to exchange approximately \$55.6 million of existing KCSR and KCSM senior notes for new securities issued by KCS with the same interest rates, interest payment dates and maturity dates and substantially identical redemption provisions as the corresponding existing senior note. The KCS senior notes have the same terms (other than the issue date) as the corresponding notes issued by KCS in the exchange offers that closed on December 9, 2015.

For additional discussion of the agreements representing the indebtedness of KCS, see "Note 9, Short-Term Borrowings" and "Note 10, Long-Term Debt" in the "Notes to the Consolidated Financial Statements" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

On June 30, 2016, total available liquidity (the cash balance plus revolving credit facility availability) was \$1,093.6 million, compared to availability at December 31, 2015 of \$856.6 million. During October 2016, KCS and KCSM floating rate senior notes totaling \$250.0 million will mature. The Company expects to repay this obligation upon maturity using available liquidity.

As of June 30, 2016, the total cash and cash equivalents held outside of the U.S. in foreign subsidiaries was \$70.7 million. The Company expects that this cash will be available to fund operations without incurring additional taxes. KCS's operating results and financing alternatives can be unexpectedly impacted by various factors, some of which are outside of its control. For example, if KCS were to experience a reduction in revenues or a substantial increase in operating costs or other liabilities, its earnings could be significantly reduced, increasing the risk of non-compliance with debt covenants. Additionally, the Company is subject to external factors impacting debt and equity capital markets and its ability to obtain financing under reasonable terms is subject to market conditions. Volatility in capital markets and the tightening of market liquidity could impact KCS's access to capital. Further, KCS's cost of debt can be impacted by independent rating agencies which assign debt ratings based on certain factors including competitive position, credit measurements such as interest coverage and leverage ratios, and liquidity.

Cash Flow Information

Summary cash flow data follows (in millions):

	Six Months Ended June 30, 2016 2015	
Cash flows provided by (used for):		
Operating activities	\$418.5	\$397.5
Investing activities	(283.3)	(443.5)
Financing activities	21.8	(251.1)
Net increase (decrease) in cash and cash equivalents	157.0	(297.1)

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

Cash and cash equivalents beginning of year	136.6	348.0
Cash and cash equivalents end of period	\$293.6	\$50.9

Cash flows from operating activities increased \$21.0 million for the six month period ended June 30, 2016, compared to the same period in 2015, due to decreased cash outflows from working capital items resulting mainly from the timing of certain payments and increased net income. Net cash used for investing activities decreased \$160.2 million, compared to the same period in 2015, due to a \$101.7 million decrease in capital expenditures and a \$55.9 million decrease in expenditures for the purchase or replacement of

Table of Contents

equipment under existing operating leases. Additional information regarding capital expenditures is provided below. During 2016, net financing cash inflows were \$21.8 million due to the net proceeds from long-term debt of \$235.7 million, partially offset by the net repayment of short-term borrowings of \$80.3 million, the payment of dividends of \$71.6 million and the repurchase of common stock of \$59.2 million. During 2015, net financing cash outflows were \$251.1 million due to the net repayment of short-term borrowings of \$159.0 million, the payment of dividends of \$67.5 million, the repurchase of common stock shares of \$20.6 million and the net repayment of long-term debt of \$12.3 million.

Capital Expenditures

KCS has funded, and expects to continue to fund capital expenditures with operating cash flows and short and long-term debt.

The following table summarizes capital expenditures by type (in millions):

	Six Months Ended June 30,	
	2016	2015
Roadway capital program	\$ 148.2	\$ 143.3
Locomotives and freight cars	38.1	111.8
Capacity	41.9	42.9
Positive train control	25.3	16.0
Information technology	10.2	5.8
Other	2.5	5.4
Total capital expenditures (accrual basis)	266.2	325.2
Change in capital accruals	(7.7)	35.0
Total cash capital expenditures	\$258.5	\$360.2
Purchase or replacement of equipment under operating leases (accrual basis)	\$5.4	\$61.3
Change in capital accruals	—	—
Total cash purchase or replacement of equipment under operating leases	\$5.4	\$61.3

Generally, the Company's capital program consists of capital replacement and equipment. For 2016, internally generated cash flows and short-term borrowings are expected to fund cash capital expenditures, which are currently estimated to be between \$580.0 million and \$590.0 million. In addition, the Company periodically reviews its equipment under operating leases. Any additional purchase or replacement of equipment under operating leases during 2016 is expected to be funded with internally generated cash flows and/or short-term debt.

Other Matters

KCSR participates in industry-wide multi-employer bargaining as a member of the National Carriers' Conference Committee, as well as local bargaining for agreements that are limited to KCSR's property. Approximately 75% of KCSR employees are covered by collective bargaining agreements. Long-term settlement agreements were reached and ratified during 2011 and the first half of 2012 covering all of the participating unions. These agreements were in effect through December 2015, and will remain in effect until new agreements are reached.

KCSM Servicios, S.A. de C.V. ("KCSM Servicios"), a wholly owned subsidiary of KCS, provides employee services to KCSM, and KCSM pays KCSM Servicios market-based rates for these services. KCSM Servicios union employees are covered by one labor agreement, which was signed on April 16, 2012, between KCSM Servicios and the Sindicato de Trabajadores Ferrocarrileros de la República Mexicana ("Mexican Railroad Union"), for an indefinite period of time, for the purpose of regulating the relationship between the parties. Approximately 80% of KCSM Servicios employees are covered by this labor agreement. The compensation terms under this labor agreement are subject to renegotiation on an annual basis and all other benefits are subject to negotiation every two years. KCSM Servicios has started

negotiations of compensation terms with the Mexican Railroad Union for the period covering July 1, 2016 to June 30, 2017. The anticipated resolution of this negotiation is not expected to have a material impact to the consolidated financial statements.

Union labor negotiations have not historically resulted in any strike, boycott, or other disruption in the Company's business operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There was no material change during the quarter from the information set forth in Part II, Item 7A. “Quantitative and Qualitative Disclosure about Market Risk” in the Annual Report on Form 10-K for the year ended December 31, 2015.

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures

As of the end of the period for which this Quarterly Report on Form 10-Q is filed, the Company’s Chief Executive Officer and Chief Financial Officer have each reviewed and evaluated the effectiveness of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have each concluded that the Company’s current disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company’s management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There have not been any changes in the Company’s internal control over financial reporting that occurred during the second quarter of 2016 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

Table of Contents

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

For information related to the Company's legal proceedings, see Note 12, Commitments and Contingencies under Part I, Item 1 of this quarterly report on Form 10-Q.

Item 1A. Risk Factors

There were no material changes during the quarter to the Risk Factors disclosed in Item 1A — "Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities

The following table presents common stock repurchases during each month for the second quarter of 2016:

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that may yet be purchased under the Plans or Programs ⁽¹⁾
April 1-30, 2016	85,000	\$ 97.29	85,000	\$ 246,599,256
May 1-31, 2016	—	\$ —	—	\$ 246,599,256
June 1-30, 2016	—	\$ —	—	\$ 246,599,256
Total	85,000		85,000	

On May 14, 2015, the Company announced that the Board of Directors approved a share repurchase program, (1) pursuant to which up to

\$500 million in shares of common stock could be purchased through June 30, 2017.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
