Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, "Even in the current challenging economy, our financial condition remains strong. Our insurance companies' statutory surplus at September 30, 2009 is at an all-time high. The Company's book value per share increased 36% to \$14.33 at September 30, 2009 from \$10.56 at December 31, 2008, primarily due to an improvement in our investment portfolio. Moreover, our stockholders equity at September 30, 2009 was \$221 million as compared to \$223 million at December 31, 2007, the period before the onset of the current financial crisis. Our investment portfolio is rated on average AA.

Mr. Thung continued, "Our operating income was adversely impacted by unexpectedly large health claims, and a reduction in our top line due to recessionary pressures and the late development in our stop-loss segment from our 2007 and 2006 treaty years by certain non-owned MGUs that have been terminated. In response to the decrease in premiums and increase in loss ratio in the fully insured segment, we have initiated a restructuring of that division, which we believe will result in significant cost reductions and improved underwriting results beginning in 2010.

Non-GAAP Financial Measures

The Company provides non-GAAP financial measures to complement its consolidated financial statements presented in accordance with GAAP: (i) Operating income is income from continuing operations net of losses attributable to non-controlling interests and excluding net realized gains or losses, net of applicable income taxes, (ii) Operating income per share is operating income (loss) on a per share basis. These non-GAAP financial measures are intended to supplement the user's overall understanding of the Company's current financial performance and its prospects for the future. Specifically, the Company believes the non-GAAP results provide useful information to both management and investors by excluding realized gains or losses, net of taxes, that, when excluded from the GAAP results, may provide additional understanding of the Company's core operating results or business performance. However, these non-GAAP financial measures are not intended to supersede or replace the Company's GAAP results. A reconciliation of the non-GAAP results to the GAAP results is provided in the "Reconciliation of GAAP Income from Continuing Operations to Non-GAAP Income from Continuing Operations" schedule below.
