- The number of options granted is not known at this time. The number is calculated as a function of certain assumptions, including risk-free interest rate, volatility, dividend yield, and expected life. The formula for determining the number of options granted is: number of options = (base pay x LTI%)/option fair value. This Form 4 will be amended to report the number of options granted when that number has been calculated.
- (1) Granted under the issuer's 2010 Equity Incentive Plan, exercisable in four equal annual installments, beginning on 3/10/2020.
- Each Performance Share Unit (PSU) represents a contingent right to receive one share of the Company's common stock. The percentage of PSUs granted that will actually be earned at the end of the three-year period is based upon the Company's free cash flow growth, earnings before interest and tax (EBIT) margin percent, and market share results over that same period.
