AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(1) BASIS OF PRESENTATION

The consolidated financial statements include the accounts of Airgas, Inc. and its subsidiaries (the "Company"). Unconsolidated affiliates are accounted for on the equity method and consist of 20 - 50% owned operations where control does not exist or is considered temporary. Prior to the adoption of Statement of Financial Accounting Standards No. 142 as of April 1, 2001 (see Note 2), the excess of the cost of these affiliates over the Company's share of their net assets at the acquisition date was being amortized over 40 years. Intercompany accounts and transactions are eliminated in consolidation.

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. These statements do not include all disclosures required for annual financial statements. These financial statements should be read in conjunction with the more complete disclosures contained in the Company's audited consolidated financial statements for the fiscal year ended March 31, 2001.

The consolidated financial statements reflect, in the opinion of management, all adjustments necessary to present fairly the Company's financial position, results of operations and cash flows for the periods presented. Such adjustments are of a normal, recurring nature except for the impact of acquisitions, divestitures and the accounting changes, which are discussed in the notes to the accompanying financial statements. The interim operating results are not necessarily indicative of the results to be expected for an entire year.

Edgar Filing: AIRGAS INC - Form 10-Q

Certain reclassifications have been made to previously issued financial statements to conform to the current presentation.

(2) ACCOUNTING CHANGES

SFAS 133

On April 1, 2001, the Company adopted the Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 133, Accounting for Derivative Instruments and Certain Hedging Activities, as amended by SFAS No. 137 and 138. SFAS 133 requires all derivatives to be recorded on the balance sheet at fair value. In accordance with the transition provisions of SFAS 133, on April 1, 2001, the Company recorded the cumulative effect of this accounting change as a liability and a deferred loss of \$6.7 million in the accumulated other comprehensive income (loss) component of stockholder's equity to recognize, at fair value, interest rate swap agreements that are designated as cash flow hedging instruments. Additionally, the Company recorded an asset and adjusted the carrying value of the hedged portion of its fixed rate debt by \$6 million to recognize, at fair value, interest rate swap agreements that are designated as fair value hedging instruments.

SFAS 141

Effective July 1, 2001, the Company adopted SFAS No. 141, Business Combinations. SFAS 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. The adoption of SFAS 141 did not have an impact on the results of operations, financial position or liquidity of the Company.

6

AIRGAS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(2) ACCOUNTING CHANGES - (Continued)

Cumulative Effect of a Change in Accounting Principle

In July 2001, the FASB issued SFAS No. 142, Goodwill and Other Intangible Assets. As allowed under the Standard, the Company has adopted SFAS 142 retroactively to April 1, 2001. SFAS 142 requires goodwill and intangible assets with indefinite useful lives to no longer be amortized, but instead be tested for impairment at least annually.

With the adoption of SFAS 142, the Company reassessed the useful lives and residual values of all acquired intangible assets to make any necessary amortization period adjustments. Based on that assessment, no adjustments were made to the amortization period or residual values of other intangible assets. Additionally, certain reclassifications were made to previously issued financial statements to conform to the presentation required by SFAS 142 (see Note 10).

SFAS 142 provides a six-month transitional period from the effective date of adoption for the Company to perform an assessment of

Edgar Filing: AIRGAS INC - Form 10-Q

whether there is an indication that goodwill is impaired. To the extent that an indication of impairment exists, the Company must perform a second test to measure the amount of the impairment. The Company determined the implied fair value of each of its reporting units using a discounted cash flow analysis and compared such values to the respective reporting units' carrying amounts. This evaluation indicated that goodwill recorded in the Distribution segment associated with its industrial tool reporting unit was impaired as of April 1, 2001. Conditions that contributed to the goodwill impairment included the deterioration of the industrial and machine tool markets since the acquisition of the businesses in this reporting unit and difficulty in achieving expected cross-selling synergies. The resulting business performance made it difficult to justify further investment to achieve the growth originally forecast for the business. Accordingly, the Company recognized a \$59 million non-cash charge, recorded as of April 1, 2001, as the cumulative effect of a change in accounting principle for the write-down of goodwill to its fair value. The impaired goodwill was not deductible for taxes, and as a result, no tax benefit was recorded in relation to the charge.

SFAS 142 also requires goodwill to be tested annually and between annual tests if events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. The Company has elected to perform its annual tests for indications of goodwill impairment as of October 31 of each year. As of October 31, 2001, the Company's annual assessment of each of its reporting units indicated that goodwill was not impaired. In connection with the pending disposition of Kendeco, Inc., a business included in the industrial tool reporting unit (see Note 3), the Company performed an interim test for impairment of the reporting unit's remaining goodwill at December 31, 2001. The test indicated that the total reporting unit's remaining goodwill was not impaired.

Below represents the pro forma amounts, excluding the cumulative effect of a change in accounting principle of \$59 million, assuming that the application of the change in accounting principle was applied retroactively to April 1, 2000 (see Note 10):

	Three Months Ended December 31,		Nine Months Ended December 31,	
	2001	2000	2001	2000

	=====	=====	=====	=====

7

AIRGAS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(3) ACQUISITIONS AND DIVESTITURES

In September 2001, the Company acquired six retail distributor

Edgar Filing: AIRGAS INC - Form 10-Q

locations from Air Liquide America Corporation ("Air Liquide"). The acquisition added to the Company's national distribution network and strengthened the Company's presence in the southwestern United States. The purchase price of \$11 million was within a range of forecasted cash flow multiples that the Company has typically paid for similar gas distribution businesses and resulted in goodwill of approximately \$7 million. The operations have annual sales of approximately \$10 million. Pro forma results are not considered to be materially different from the reported results. The acquired operations have been included in the Distribution segment since the date of acquisition.

In October 2001, in a separate transaction, the Company sold two of its nitrous oxide production facilities to Air Liquide. Proceeds from the sale of approximately \$10 million were used to reduce borrowings under the Company's revolving credit facilities. The Company recognized a gain on the transaction of \$7.4 million, \$4.7 million after-tax, in the "Other income, net" line of the consolidated statement of earnings. The nitrous oxide facilities generated approximately \$7 million in annual sales and were included in the Gas Operations segment. The Company has retained its remaining four nitrous oxide production facilities to meet its requirements as a major producer and distributor of nitrous oxide.

During the quarter ended December 31, 2001, the Company recorded a loss of \$1.9 million in "Other income, net" for an indemnity claim related to a prior period divestiture. The Company is also in the process of negotiating an agreement to sell Kendeco, Inc, an industrial tool business in its Distribution segment. In December 2001, the carrying values of the net assets of Kendeco were reduced by \$3.6 million to their net realizable value of \$3.5 million based on the estimated selling price less cost to sell. This charge is reflected in the "Other income, net" line of the consolidated statement of earnings. Due to a difference in the book and tax basis of the net assets, only a minimal tax benefit was recognized in relation to the charge. Kendeco, Inc. generated sales of approximately \$21 million in fiscal years 2001 and 2000.

Subsequent Acquisition

On January 3, 2002, the Company announced an agreement to purchase the majority of Air Products and Chemicals, Inc.'s ("Air Products") U.S. packaged gas business for cash of \$236 million. The transaction is expected to close during the fourth quarter of fiscal 2002. The acquisition would include approximately 100 facilities in 30 states associated with the filling and distribution of cylinders, liquid dewars, tube trailers, and other containers of industrial gases and non-electronic specialty gases, and the retail selling of welding hardgoods, including customer service centers, warehouses, and other related assets. For the twelve months ended September 30, 2001, the assets to be acquired generated approximately \$223 million in revenues, and employed nearly 1,100 people. Approximately 76% of the revenues were from gas sales and cylinder rent, with the remainder from welding hardgoods and supplies. The transaction will be financed entirely with senior bank debt (see Note 8).

Separately, Air Products agreed to sell its packaged gas operations in the Carolinas and southern Virginia to National Welders Supply Company, Inc., a joint venture of the Company. These Air Products operations include 9 sites, which generated \$17 million in revenues in fiscal 2001 and employ about 100 people.

Edgar Filing: AIRGAS INC - Form 10-Q

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(4) EARNINGS PER SHARE

Basic earnings per share is calculated by dividing net earnings by the weighted average number of shares of the Company's common stock outstanding during the period. Outstanding shares consist of issued shares less treasury stock and common stock held by the Employee Benefits Trust. Diluted earnings per share is calculated by dividing net earnings by the weighted average common shares outstanding adjusted for the dilutive effect of common stock equivalents related to stock options, warrants and contingently issuable shares.

The table below reconciles basic weighted average common shares outstanding to diluted weighted average common shares outstanding for the three and nine months ended December 31, 2001 and 2000:

(In thousands)	Three Months Ended December 31,		Nine Months Ended December 31,	
	2001	2000	2001	2000
	-----		-----	
Weighted average common shares outstanding:				
Basic	68,300	66,500	67,900	65,700
Stock options and warrants	2,000	700	1,500	500
Contingently issuable shares	--	--	--	800
	-----	-----	-----	-----
Diluted	70,300	67,200	69,400	67,000
	=====	=====	=====	=====

Contingently issuable shares represented the issuance of Company common stock in connection with a prior year acquisition.

(5) TRADE RECEIVABLES SECURITIZATION

The Company participates in a securitization agreement with two commercial banks to sell up to \$150 million of certain qualifying trade receivables. As collections reduce the previously sold interests, new receivables may be sold up to \$150 million. During the nine months ended December 31, 2001, the Company sold, net of its retained interest, \$1.32 billion of trade receivables and remitted to the bank conduits, pursuant to a servicing agreement, \$1.18 billion in collections on those receivables. The net proceeds were used to reduce borrowings under the Company's revolving credit facilities. The amount of outstanding receivables under the agreement was approximately \$139 million at December 31, 2001 and \$73 million at March 31, 2001.

The transaction has been accounted for as a sale under the provisions of SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. Under the securitization agreement, eligible trade receivables are sold to bank conduits through a bankruptcy-remote special purpose entity, which is consolidated for financial reporting purposes. The difference between

Edgar Filing: AIRGAS INC - Form 10-Q

the proceeds from the sale and the carrying value of the receivables is recognized as "Discount on securitization of trade receivables" in the accompanying Consolidated Statements of Earnings and varies on a monthly basis depending on the amount of receivables sold and market interest rates. The Company retains a subordinated interest in the receivables sold. The subordinated retained interest of approximately \$43 million and \$26 million at December 31, 2001 and March 31, 2001, respectively, is recorded at the receivables' previous carrying value in "Trade receivables" on the accompanying Consolidated Balance Sheets. In accordance with a servicing agreement, the Company will continue to service, administer and collect the trade receivables on behalf of the bank conduits. The servicing fees charged to the bank conduits approximate the costs of collections.

9

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(6) INVENTORIES

Inventories consist of:

	(Unaudited)	
(In thousands)	December 31, 2001	March 31, 2001
	-----	-----
Finished goods	\$154,349	\$154,385
Raw materials	185	639
	-----	-----
	\$154,534	\$155,024
	=====	=====

Net inventories determined by the LIFO inventory method totaled \$16.1 million and \$19.1 million at December 31, 2001 and March 31, 2001, respectively. If the FIFO inventory method had been used for these inventories, they would have been \$1.5 million higher at both December 31, 2001 and March 31, 2001.

(7) ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities include:

	(Unaudited)	
(In thousands)	December 31, 2001	March 31, 2001
	-----	-----
Cash overdraft	\$ 10,606	\$ 24,445
Accrued payroll and employee benefits	28,559	24,989
Insurance reserves	19,937	15,596
Accrued interest expense	15,456	6,539
Restructuring reserves	3,562	5,157
Other accrued expenses and current liabilities	44,438	54,147
	-----	-----
	\$122,558	\$130,873

Edgar Filing: AIRGAS INC - Form 10-Q

=====

The cash overdraft is attributable to the float of the Company's outstanding checks. The increase in accrued interest expense relates to the Company's 9.125% senior subordinated notes (the "Notes") issued in July 2001. The first interest payment on the Notes is due in April 2002. The restructuring reserves were established in conjunction with the cost reduction plan initiated in the fourth quarter of fiscal 2001. The decrease in the restructuring reserves is due to cash payments related to severance paid to employees and the exiting of facilities.

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(8) DEBT REFINANCING, NOTE ISSUANCE AND ACQUISITION FINANCING

Debt Refinancing

On July 30, 2001, the Company refinanced its existing revolving credit facilities due December 5, 2002 with new bank credit facilities (the "new credit facilities") under a credit agreement with a syndicate of lenders. The new credit facilities consist of revolving credit facilities totaling \$367.5 million and \$50 million Canadian (US \$32 million), including letters of credit. The new credit facilities will mature on July 30, 2006. At December 31, 2001, the Company had borrowings under the new credit facilities of approximately \$112 million and \$37 million Canadian (US \$24 million). The Company also had commitments under letters of credit supported by the new credit facilities of approximately \$44 million. Based on restrictions related to certain leverage ratios, the Company had additional borrowing capacity under the new credit facilities of approximately \$193 million at December 31, 2001. The variable interest rates of the U.S. and Canadian revolving credit facilities are based on LIBOR and Canadian Bankers' acceptance rates, respectively. At December 31, 2001, the effective interest rates on borrowings under the new credit facilities were 3.66% on U.S. borrowings and 2.51% on Canadian borrowings. Certain of the Company's domestic subsidiaries guarantee borrowings under the new credit facilities and Canadian subsidiaries also guarantee Canadian borrowings. Should the Company's long-term senior unsecured debt ratings be reduced by one level, the Company will be required to pledge 100% of the stock of the domestic guarantors and 65% of the stock of the Canadian guarantors for the benefit of the syndicate of lenders. If the Company's long-term senior unsecured debt ratings are reduced by two or more levels, the Company will be required to grant a security interest in substantially all of the tangible and intangible assets of the Company for the benefit of the syndicate of lenders. The new credit facilities also contain covenants, which include the maintenance of certain leverage ratios, a fixed charge ratio, and potential restrictions on certain additional borrowings, the payment of dividends and the repurchase of common stock.

Note Issuance

On July 30, 2001, concurrent with the refinancing of its revolving credit facilities, the Company issued \$225 million of senior subordinated notes (the "Notes") with a maturity date of October 1, 2011. The Notes bear interest at a fixed annual rate of 9.125%, payable semi-annually on April 1 and October 1 of each year with the

Edgar Filing: AIRGAS INC - Form 10-Q

first interest payment due on April 1, 2002. The Notes were sold in accordance with the provisions of Rule 144A of the Securities Act of 1933 (the "Securities Act"). In October 2001, the Company exchanged the Notes for substantially similar notes that are registered with the Securities and Exchange Commission in accordance with the Securities Act. No gain or loss was recognized as a result of the exchange. The notes contain covenants that could restrict the payment of dividends, the issuance of preferred stock, and the incurrence of additional indebtedness and liens. The notes are guaranteed on a subordinated basis by each of the domestic guarantors under the new credit facilities (see Note 14).

Acquisition Financing

On January 3, 2002, the Company announced an agreement to purchase the majority of Air Products and Chemicals, Inc.'s U.S. packaged gas business for cash of \$236 million. The transaction is expected to close during the fourth quarter of fiscal 2002. In anticipation of the transaction, the Company amended its revolving credit facilities to permit the acquisition and extend the period for compliance under current leverage ratios to September 30, 2002. In addition, the Company obtained commitments from a syndicate of lenders for an additional \$100 million term loan with a maturity date of July 30, 2006. The term loan bears a variable interest rate based on LIBOR plus a spread, which is related to the Company's credit rating. The additional term loan along with the Company's existing revolving credit facilities will enable the Company to finance the entire transaction with senior bank debt. The Company expects that the closing of the acquisition may result in a reduction of its credit rating, which will increase the cost of borrowing on its revolving credit facilities by 25 basis points.

11

AIRGAS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(9) DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company's involvement with derivative instruments is limited to highly effective fixed and floating interest rate swap agreements used to manage well-defined interest rate risk exposures. Interest rate swap agreements are not entered into for trading purposes.

At December 31, 2001, the Company had a notional amount of \$180 million in fixed interest rate swap agreements that effectively convert a corresponding amount of variable interest rate borrowings under the revolving credit facilities and operating leases to fixed interest rate instruments. The scheduled maturities of these cash flow hedging instruments at December 31, 2001 are fiscal 2002, \$12 million; fiscal 2003, \$128 million; and fiscal 2005, \$40 million. Through the nine months ended December 31, 2001, the Company recorded a net change in the fair value of the fixed interest rate swap agreements of \$112 thousand to accumulated other comprehensive income (loss). The net additional interest payments made under these swap agreements during the quarter were recognized in interest expense. Over the next 12 months, the Company expects to reclassify approximately \$4.1 million of the deferred loss from accumulated other comprehensive income (loss) to interest expense as swap agreements mature.

At December 31, 2001, the Company also had a notional amount of

Edgar Filing: AIRGAS INC - Form 10-Q

\$155 million in variable interest rate swap agreements that effectively converts a corresponding amount of fixed rate medium-term and senior subordinated notes to variable rate debt. The fair value of these variable interest rate swap agreements and the increased carrying value of the hedged portions of the medium-term and senior subordinated notes at December 31, 2001 was \$6.5 million. There is no ineffectiveness associated with the Company's variable interest rate swap agreements, and therefore, changes in the fair value of the swap agreements are completely offset by changes in the fair value of the hedged portions of the medium-term and senior subordinated notes.

12

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(10) GOODWILL AND OTHER INTANGIBLE ASSETS

As described in Note 2, the Company adopted SFAS 142 as of April 1, 2001. The following table reconciles the prior year's reported operating income, equity in earnings of unconsolidated affiliates, earnings before the cumulative effect of a change in accounting principle and net income to their respective pro forma balances adjusted to exclude goodwill amortization expense, which is no longer amortized under the provisions of SFAS 142. Current period results, adjusted for a cumulative effect of a change in accounting principle, are presented for comparative purposes.

Balance at December 31, 2001	\$309,816	\$74,283	\$384,099
	=====	=====	=====

Other intangible assets amounted to \$23.8 million (net of accumulated amortization of \$75.7 million) and \$29.7 million (net of accumulated amortization of \$73.1 million) at December 31, 2001 and March 31, 2001, respectively. These intangible assets primarily consist of non-compete agreements entered into in connection with business combinations and are amortized over the term of the agreements, principally five years. There are no expected residual values related to these intangible assets. Estimated future amortization expense by fiscal year is as follows (\$ in millions): 2002 - \$1.7; 2003 - \$5.6; 2004 - \$4.8; 2005 - \$3.3; 2006 - \$2.2 and \$6.2 thereafter.

- (a) Issuance of common stock for stock option exercises.
- (b) Recognition of the cumulative effect of a change in accounting principle related to the adoption of SFAS 133 in the period (see Notes 2 and 9).
- (c) Reissuance of common stock from the Employee Benefits Trust for employee benefit programs.
- (d) The Company granted warrants to purchase 324,000 shares of the Company's common stock to an outside consulting firm for services rendered during the nine months ended December 31, 2001. The warrants have a term of three years from the date of grant and have exercise prices in excess of market value on the date of grant ranging from \$11.98 to \$18.78 per share. The aggregate value of the warrants on the dates of grant, as determined by the Black-Scholes pricing model, was \$1.1 million, which the Company expensed during the nine months ended December 31, 2001.

2001 Employee Stock Purchase Plan

On August 2, 2001, the Company's stockholders approved the 2001 Employee Stock Purchase Plan (the "2001 Plan"). The 2001 Plan is authorized to issue up to 1.5 million shares of Company common stock and contains essentially the same terms and conditions as the Company's previous 1998 Employee Stock Purchase Plan.

AIRGAS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(12) COMMITMENTS AND CONTINGENCIES

Litigation

In July 1996, Praxair, Inc. ("Praxair") filed suit against the Company in the Circuit Court of Mobile County, Alabama. The complaint alleged tortious interference with business or contractual relations with respect to Praxair's Right of First Refusal contract with the majority shareholders of National Welders Supply Company, Inc. ("National Welders") in connection with the Company's formation of a joint venture with National Welders. In June 1998, Praxair filed a motion to dismiss its own action in Alabama and commenced another action in the Superior Court of Mecklenburg County, North Carolina, alleging substantially the same tortious interference by the Company. The North Carolina action also alleges breach of contract against National Welders and certain shareholders of National Welders and unfair trade practices and conspiracy against all the defendants. In the North Carolina action, Praxair seeks compensatory damages in excess

Edgar Filing: AIRGAS INC - Form 10-Q

of \$10 thousand, punitive damages and other unspecified relief. The Company anticipates that additional discovery and pretrial motions will be completed by the end of May 2002, and that a trial on the merits will begin in July 2002. The Company believes that Praxair's North Carolina claims are without merit and intends to defend vigorously against such claims.

The Company is involved in various legal and regulatory proceedings that have arisen in the ordinary course of its business and have not been fully adjudicated. These actions, when ultimately concluded and determined, will not, in the opinion of management, have a material adverse effect upon the Company's consolidated financial condition, results of operations or liquidity.

(13) SUMMARY BY BUSINESS SEGMENT

Information related to the Company's operations by business segment for the three months ended December 31, 2001 and 2000 follows:

As a result of adopting SFAS 142 effective April 1, 2001, the financial results for the three and nine month periods ended December 31, 2001 do not reflect goodwill amortization expense (see Note 2). See Note 10 for a reconciliation of prior period financial results as reported to financial results adjusted to exclude goodwill amortization expense.

(14) CONDENSED CONSOLIDATING FINANCIAL INFORMATION OF SUBSIDIARY GUARANTORS

As described in Note 8, on July 30, 2001, the Company refinanced its revolving credit facilities and issued \$225 million of Notes. The obligations of the Company under the Notes are guaranteed by the Company's domestic subsidiaries that guarantee the Company's new credit facilities (the "Guarantors"). The guarantees are made on a joint and several basis. The Company's joint venture operations, Canadian holdings and bankruptcy remote special purpose entity (the "Non-guarantors") are not guarantors of the Notes. The claims of creditors of Non-guarantor subsidiaries have priority over the rights of the Company to receive dividends or distributions from such subsidiaries. Presented below is condensed consolidating financial information for the Company, the Guarantors and the Non-guarantors as of December 31, 2001 and March 31, 2001 and for the nine months ended December 31, 2001 and 2000. On August 31, 2001, two Non-guarantor entities were merged into the parent. These entities were holding companies through which the Company managed its operations in Poland and Thailand. The operations in Poland and Thailand were divested in fiscal 2000. The net assets of the two Non-guarantor entities in the amount of \$42.7 million were transferred to the parent.

AIRGAS, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and
Results of Operations

RESULTS OF OPERATIONS: THREE MONTHS ENDED DECEMBER 31, 2001 COMPARED TO THE
THREE MONTHS ENDED DECEMBER 31, 2000

INCOME STATEMENT COMMENTARY

Net Sales

Net sales decreased 0.6% in the quarter ended December 31, 2001 ("current quarter") compared to the quarter ended December 31, 2000 ("prior year quarter"). Total Company same-store sales increased 0.3% in the current quarter versus the prior year quarter. The Company estimates same-store sales based on a comparison of current period sales to prior period sales, adjusted for acquisitions and divestitures.

(In thousands)	Three Months Ended		Decrease	
	2001	2000		
Net Sales				
	-----	-----	-----	
Distribution	\$357,769	\$359,721	\$ (1,952)	(0.5%)
Gas Operations	34,664	35,249	(585)	(1.7%)
	-----	-----	-----	
	\$392,433	\$394,970	\$ (2,537)	(0.6%)
	=====	=====	=====	

The Distribution segment's principal products and services include industrial, medical and specialty gases; equipment rental; and hardgoods. Gases consist of packaged and small bulk gases. Equipment rental fees are generally charged on cylinders, cryogenic liquid containers, bulk tanks and welding equipment. Hardgoods consist of welding supplies and equipment, safety products, and industrial tools and supplies. Distribution sales decreased \$2.0 million (-0.5%) resulting from a decline in hardgoods same-store sales of \$16.6 million (-7.5%), partially offset by gas and rent same-store sales growth of \$12.0 million (8.6%). Sales of \$2.6 million from an acquisition

Edgar Filing: AIRGAS INC - Form 10-Q

consummated during the current quarter also helped offset the decline in hardgoods sales. The decline in hardgoods same-store sales continued to track the decline in non-tech industrial production. The hardgoods sales decline was driven by lower volumes of industrial tools and welding products reflecting the continued weak industrial environment, particularly with regard to metal fabrication and heavy manufacturing such as automotive, aluminum and aircraft. Partially offsetting the decline in tools and welding hardgoods, safety product sales grew 4% to \$62 million reflecting continued success of cross-selling initiatives as well as growth through the Company's telemarketing sales channel. Gas and rent sales growth was driven primarily by price increases and growth from strategic sales initiatives. Strategic account sales (sales to large customers with multiple locations) were \$40 million in the current quarter, representing an 8% increase over the prior year quarter. The Company is on track with its fiscal 2002 forecast of strategic account sales of \$160 million. Strategic gas sales growth was driven by both higher volumes of medical, bulk and specialty gases, as well as price increases. Rental revenue was also favorably impacted by a 15.2% increase in welder equipment rentals.

Gas Operations' sales primarily include dry ice and carbon dioxide that are used for cooling and the production of food, beverages and chemical products. In addition, the segment includes businesses that produce and distribute specialty gases and nitrous oxide. Gas Operations' sales decreased \$585 thousand compared to the prior year quarter as a result of divestiture activity, partially offset by same-store sales growth. Divestiture activity, consisting of the divestiture of two nitrous oxide plants during the current quarter and the fourth quarter fiscal 2001 divestiture of the Jackson Dome carbon dioxide reserves and associated pipeline (the "Jackson Dome pipeline"), accounted for a \$2.7 million decrease in sales from the comparable period. On a same-store basis, Gas Operations' increased sales by \$2.1 million (7.4%) primarily from price increases and higher volumes of liquid carbon dioxide and dry ice.

24

AIRGAS, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Gross Profits

Gross profits, excluding depreciation expense, increased 3.4% and the gross profit margin increased 190 basis points to 50.6% during the current quarter compared to 48.7% in the prior year quarter.

(In thousands)	Three Months Ended December 31,		Increase (Decrease)	
Gross Profits	2001	2000	-----	
-----	-----	-----	-----	
Distribution	\$175,945	\$169,402	\$6,543	3.9%
Gas Operations	22,698	22,791	(93)	(0.4%)
	-----	-----	-----	
	\$198,643	\$192,193	\$6,450	3.4%
	=====	=====	=====	

Edgar Filing: AIRGAS INC - Form 10-Q

The increase in Distribution gross profits of \$6.5 million primarily resulted from gas and rent same-store gross profit growth of \$9.9 million (9.6%), partially offset by a decline in hardgoods gross profits of \$4.7 million (-7.3%) reflecting weak industrial market conditions. Acquisitions consummated during the current quarter also contributed \$1.3 million to the increase in gross profits. The Distribution segment's gross profit margin of 49.2% in the current quarter increased 210 basis points from 47.1% in the prior year quarter as a result of a shift in sales mix towards higher margin gas and rent sales and price increases. Gas and rent sales comprised 48.1% of sales compared to 44.2% in the prior year quarter.

Gas Operations' gross profits were relatively flat as a reduction in gross profits associated with divestiture activity was offset by same-store gross profit growth. Same-store gross profit growth resulted from higher volumes of liquid carbon dioxide and dry ice and price increases. Gas Operations' gross profit margin of 65.5% increased 80 basis points from 64.7% in the prior year quarter, reflecting volume gains leveraging fixed manufacturing costs.

Operating Expenses

Selling, distribution and administrative expenses ("operating expenses") consist of personnel and related costs, distribution and warehouse costs, occupancy expenses and other selling, general and administrative expenses. Operating expenses increased \$4.4 million (3.0%) compared to the prior year quarter primarily from higher personnel costs and health and workers' compensation insurance, partially offset by a decrease in distribution expense principally from lower fuel costs. Additionally, expenses net of realized benefits related to the Company's "Project One" initiative were not material to the current quarter. The Company's Project One initiative is focused on improving certain operational and administrative processes. As a percentage of net sales, operating expenses increased 140 basis points to 38.1% compared to 36.7% in the prior year quarter.

Amortization expense was \$1.9 million in the current quarter compared to \$5.2 million in the prior year quarter. On April 1, 2001, the Company adopted Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 142, Goodwill and Other Intangible Assets. The decrease in amortization expense was due to the adoption of SFAS 142, which resulted in the Company no longer amortizing goodwill.

25

AIRGAS, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Operating Income

Operating income increased 4.4% during the current quarter compared to the prior year quarter, adjusted to exclude the amortization of goodwill. The Company's overall operating income margin increased 30 basis points to 7.9% from 7.6% in the prior year quarter, as adjusted.

Three Months Ended

Edgar Filing: AIRGAS INC - Form 10-Q

(In thousands)	December 31,		Adjusted		As reported
Operating Income	2001	2000 (a)	Increase		2000
-----	-----	-----	-----		-----
Distribution	\$25,711	\$25,148	\$ 563	2.2%	\$22,038
Gas Operations	5,483	4,742	741	15.6%	4,204
	-----	-----	-----		-----
	\$31,194	\$29,890	\$1,304	4.4%	\$26,242
	=====	=====	=====		=====

(a) Operating income for the quarter ended December 31, 2000 has been adjusted for comparative purposes to exclude the amortization of goodwill (see Note 10 to the Consolidated Financial Statements).

The Distribution segment's operating income margin increased 20 basis points to 7.2% in the current quarter compared to 7.0% in the prior year quarter, as adjusted. The operating income margin increase was driven by higher gross profits, partially offset by higher operating expenses.

Gas Operations' operating income margin increased 230 basis points to 15.8% in the current quarter compared to 13.5% in the prior year quarter, as adjusted. The operating margin improvement resulted from higher selling prices and volume gains that leverage fixed operating costs. Lower fuel costs also contributed to the improvement in the operating income margin.

Interest Expense and Discount on Securitization of Trade Receivables

Interest expense, net, and the discount on securitization of trade receivables totaled \$13.5 million representing a decrease of \$2.2 million (-14.1%) compared to the prior year quarter. The decrease primarily resulted from lower average debt levels. The decrease in average debt levels was attributable to cash flow provided from operations and proceeds from the divestiture of the Jackson Dome pipeline in the fourth quarter of fiscal 2001. Weighted-average interest rates were relatively flat in the current quarter compared to the prior year quarter as higher rates of fixed cost debt associated with the July 2001 refinancing, discussed below, were offset by lower prevailing market rates affecting the Company's variable rate debt.

The Company participates in a securitization agreement with two commercial banks to sell up to \$150 million of qualifying trade receivables. The amount of outstanding receivables under the agreement was \$139 million at December 31, 2001. Net proceeds were used to reduce borrowings under the Company's revolving credit facilities. The discount on the securitization of trade receivables represents the difference between the carrying value of the receivables and the proceeds from their sale. The amount of the discount varies on a monthly basis depending on the amount of receivables sold and market rates.

As discussed in "Liquidity and Capital Resources" and in Note 8 to the Financial Statements, on July 30, 2001, the Company refinanced its variable rate revolving credit facilities and concurrently issued fixed rate senior subordinated notes. The Company's refinancing strategy also included the securitization of trade receivables, which helped diversify its funding sources. The Company refinanced its debt facilities prior to their maturity in December 2002 to take advantage of current favorable market conditions.

Edgar Filing: AIRGAS INC - Form 10-Q

26

AIRGAS, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Other income, net

Other income, net, in the current quarter includes a net gain of \$1.9 million (\$120 thousand after tax). The net gain consisted of a \$7.4 million gain from the divestiture of two nitrous oxide plants, partially offset by a \$3.6 million write-down of a business unit held for sale to its net realizable value and a \$1.9 million loss resulting from an indemnity claim related to a prior period divestiture.

Income Tax Expense

The effective income tax rate was 41.6% of pre-tax earnings in the current quarter compared to 35.5% in the prior year quarter, adjusted for comparative purposes for the impact of SFAS 142. The increase in the effective income tax rate in the current quarter was primarily due to the \$3.6 million write-down of a business unit held for sale to its net realizable value, which was not deductible for income taxes. The effective income tax rate as reported in the prior year quarter was 41.0%.

Net Earnings

Net earnings for the quarter ended December 31, 2001 were \$11.8 million, or \$.17 per diluted share, compared to \$6.7 million, or \$.10 per diluted share, in the prior year quarter. As adjusted for comparative purposes for the impact of SFAS 142, net earnings were \$.15 per diluted share in the prior year quarter.

27

AIRGAS, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS: NINE MONTHS ENDED DECEMBER 31, 2001 COMPARED TO THE
NINE MONTHS ENDED DECEMBER 31, 2000

INCOME STATEMENT COMMENTARY

Net Sales

Net sales increased slightly in the nine months ended December 31, 2001 ("current period") compared to the nine months ended December 31, 2000 ("prior year period"). Total Company same-store sales increased 1% in the current period versus the prior year period.

(In thousands)	Nine Months Ended			
	December 31,			
Net Sales	2001	2000	Increase	
-----	-----		-----	
Distribution	\$1,108,428	\$1,105,519	\$2,909	0.3%
Gas Operations	111,662	108,546	3,116	2.9%

Edgar Filing: AIRGAS INC - Form 10-Q

-----	-----	-----	
\$1,220,090	\$1,214,065	\$6,025	0.5%
=====	=====	=====	

Distribution sales increased \$2.9 million primarily resulting from \$2.6 million in sales contributed by an acquisition consummated in the third quarter of fiscal 2002 and \$300 thousand from same-store sales growth. Distribution same-store sales growth of \$300 thousand resulted from gas and rent sales growth of \$38.6 million (8.3%), offset by a decline in hardgoods sales of \$38.3 million (-5.8%). Gas and rent same-store sales growth was primarily driven by price increases. The price increases were levied in response to rising costs. Sales initiatives such as strategic accounts (sales to large customers with multiple locations) also contributed to same-store sales growth. Strategic account sales reached approximately \$120 million, an increase of 10% over the prior year period, which is in line with the Company's fiscal 2002 forecast of \$160 million. Gas and rent sales were also driven by higher volumes of medical, bulk and specialty gases, and welder equipment rentals. The decline in hardgoods sales was driven by lower sales volumes of tools and welding products reflecting the continued weak industrial environment. Partially offsetting the decline in tool and welding hardgoods sales, safety product sales grew 6% to approximately \$195 million reflecting continued success of cross-selling initiatives through the Company's distribution network.

Gas Operations' sales increased \$3.1 million resulting from same-store sales growth, partially offset by divestiture activity. Gas Operations' same-store sales increased \$8.5 million (8.6%) primarily from price increases and higher volumes of liquid carbon dioxide and dry ice. Sales were reduced by \$5.4 million as a result of the divestiture of two nitrous oxide plants during the third quarter of fiscal 2002 and the divestiture of the Jackson Dome pipeline in the fourth quarter of fiscal 2001.

28

AIRGAS, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Gross Profits

Gross profits, excluding depreciation expense, increased 3.9% and the gross profit margin increased 170 basis points to 49.7% in the current period compared to 48.0% in the prior year period.

(In thousands)	Nine Months Ended		
	December 31,		Increase
Gross Profits	2001	2000	
-----	-----	-----	-----
Distribution	\$533,851	\$513,801	\$20,050 3.9%
Gas Operations	72,166	69,204	2,962 4.3%
	-----	-----	-----
	\$606,017	\$583,005	\$23,012 3.9%
	=====	=====	=====

The increase in Distribution gross profits of \$20.1 million

Edgar Filing: AIRGAS INC - Form 10-Q

primarily resulted from gas and rent same-store gross profit growth of \$28.9 million (8.6%), partially offset by a decline in hardgoods gross profits of \$10.1 million (-5.6%). A fiscal 2002 acquisition also contributed \$1.3 million to the increase in gross profits. The Distribution segment's gross profit margin of 48.2% in the current period increased 170 basis points from 46.5% in the prior year period primarily due to a shift in sales mix towards higher margin gas and rent sales and price increases. Gas and rent sales comprised 46.7% of sales compared to 43.2% in the prior year period.

The increase in Gas Operations' gross profits of \$3.0 million resulted from same-store gross profit growth, partially offset by divestiture activity. Same-store gross profit growth of \$7 million (11.1%) was primarily due to improved gross margins from price increases and higher volumes of dry ice and liquid carbon dioxide. Gas Operations' gross profit margin of 64.6% increased 80 basis points from 63.8% in the prior year period, reflecting volume gains leveraging fixed manufacturing costs.

Operating Expenses

Operating expenses increased \$26.7 million (6.3%) compared to the prior year period primarily from higher costs associated with the Company's "Project One" initiative, personnel costs, and health and workers' compensation insurance. The Company's "Project One" initiative added incremental costs, net of realized benefits, of \$8.7 million during the current period. As a percentage of net sales, operating expenses increased 200 basis points to 37.2% compared to 35.2% in the prior year period. Project One costs contributed 70 basis points to the rise in operating expenses as a percentage of net sales.

Amortization expense was \$6.2 million in the current period compared to \$17.9 million in the prior year period. The decrease in amortization expense was due to the adoption of SFAS 142, which resulted in the Company discontinuing the amortization of goodwill.

29

AIRGAS, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Operating Income

Operating income decreased 2.3% in the current period compared to the prior year period, adjusted to exclude the amortization of goodwill. The Company's overall operating income margin decreased 20 basis points to 8.1% from 8.3% in the prior year quarter, as adjusted.

(In thousands)	Nine Months Ended December 31,				As reported
	2001	Adjusted 2000 (a)	Increase (Decrease)		2000
-----	-----	-----	-----	-----	-----
Distribution	\$80,069	\$ 83,988	\$(3,919)	(4.7%)	\$74,761
Gas Operations	18,748	17,175	1,573	9.2%	15,570
	-----	-----	-----		-----
	\$98,817	\$101,163	\$(2,346)	(2.3%)	\$90,331
	=====	=====	=====		=====

Edgar Filing: AIRGAS INC - Form 10-Q

(a) Operating income for the nine months ended December 31, 2000 has been adjusted for comparative purposes to exclude the amortization of goodwill (see Note 10 to the Consolidated Financial Statements).

The Distribution segment's operating income margin decreased 40 basis points to 7.2% in the current period compared to 7.6% in the prior year period, as adjusted. The operating income margin decrease was primarily attributable to Project One costs and increases in other operating expenses, as discussed above, partially offset by higher gross profits. The majority of Project One costs are allocated to the Distribution segment.

Gas Operations' operating income margin increased 100 basis points to 16.8% in the current period compared to 15.8% in the prior year period, as adjusted, primarily from higher gross profits from volume and price increases related to liquid carbon dioxide and dry ice.

Interest Expense and Discount on Securitization of Trade Receivables

Interest expense, net, and the discount on securitization of trade receivables totaled \$39.3 million representing a decrease of \$8.5 million (-17.9%) compared to the prior year period. The decrease resulted primarily from lower average debt levels. The decrease in average debt levels was attributable to cash flow provided from operations and proceeds from the divestiture of the Jackson Dome pipeline in the fourth quarter of fiscal 2001. Weighted-average interest rates were relatively flat in the current period compared to the prior year period as higher rates of fixed cost debt associated with the July 2001 refinancing, discussed below, were offset by lower prevailing market rates related to the Company's variable rate debt.

The Company participates in a securitization agreement with two commercial banks to sell up to \$150 million of qualifying trade receivables. The amount of outstanding receivables under the agreement was \$139 million and \$73 million at December 31, 2001 and March 31, 2001, respectively. Net proceeds from the sale of trade receivables were used to reduce borrowings under the Company's revolving credit facilities. The discount on the securitization of trade receivables represents the difference between the carrying value of the receivables and the proceeds from their sale. The amount of the discount varies on a monthly basis depending on the amount of receivables sold and market rates.

As discussed in "Liquidity and Capital Resources" and in Note 8 to the Financial Statements, on July 30, 2001, the Company refinanced its variable rate revolving credit facilities and concurrently issued fixed rate senior subordinated notes. The Company's refinancing strategy also included the securitization of trade receivables, which helped diversify its funding sources. The Company refinanced its debt facilities prior to their maturity in December 2002 to take advantage of current favorable market conditions.

30

AIRGAS, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Other income, net

Edgar Filing: AIRGAS INC - Form 10-Q

Other income, net, in the current period includes a net gain of \$1.9 million (\$120 thousand after tax). The net gain consisted of a \$7.4 million gain from the divestiture of two nitrous oxide plants, partially offset by a \$3.6 million write-down of a business unit held for sale to its net realizable value and a \$1.9 million loss resulting from an indemnity claim related to a prior period divestiture.

Income Tax Expense

The effective income tax rate was 38.0% of pre-tax earnings in the current period compared to 35.5% in the prior year period, adjusted for comparative purposes for the impact of SFAS 142. The increase in the effective income tax rate in the current period was primarily due the \$3.6 million write-down of a business unit to its net realizable value, which was not deductible for income taxes. The effective income tax rate as reported in the prior year period was 41.1%.

Cumulative Effect of a Change in Accounting Principle

In connection with the adoption of SFAS 142, the Company performed an evaluation of goodwill as of April 1, 2001. The results of the evaluation indicated that goodwill related to one reporting unit, the Company's tool business, was impaired. The Company measured the amount of impairment based on a comparison of the fair value of the reporting unit to its carrying value. Accordingly, the Company recognized a \$59 million non-cash charge, recorded as of April 1, 2001, as a cumulative effect of a change in accounting principle for the write-down of goodwill of the tool business reporting unit to its fair value. The impaired goodwill was not deductible for taxes, and as a result, no tax benefit was recorded in relation to the charge.

Net Earnings (Loss)

The net loss for the nine month period ended December 31, 2001 was \$19.2 million, or a loss of \$.28 per diluted share, compared to net earnings of \$26.9 million, or \$.40 per diluted share, in the prior year period. Net earnings for the nine month period ended December 31, 2001, excluding the cumulative effect of a change in accounting principle, were \$.57 per diluted share compared to \$.56 per diluted share in the prior year period, adjusted for comparative purposes for the impact of SFAS 142.

31

AIRGAS, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

Net cash provided by operating activities totaled \$176.6 million for the nine months ended December 31, 2001 compared to \$159.6 million in the prior year period. Net earnings, adjusted for non-cash items, including the cumulative effect of a change in accounting principle, were \$105.1 million in the current period compared to \$105.3 million in the prior year period. The sale of trade receivables under the trade receivables securitization program, described below, provided cash of \$65.4 million in the current period compared to \$71.7 million in the prior year period. Working capital and other assets and liabilities, net, provided cash of \$6.1 million in the current period compared to a

Edgar Filing: AIRGAS INC - Form 10-Q

use of cash of \$17.4 million in the prior year period. The improvement in working capital components in the current period was primarily driven by a lower level of trade receivables outstanding reflecting a slight improvement in days sales outstanding to 54 days from 55 days at December 31, 2001 and 2000, respectively. Additionally, Project One initiatives significantly improved accounts payable days outstanding to 43 days from 36 days at December 31, 2001 and 2000, respectively. Cash flow provided by operating activities was primarily used to reduce borrowings under the Company's revolving credit facilities and to fund capital expenditures.

Cash used in investing activities totaled \$36.4 million during the current period and primarily consisted of capital expenditures and acquisition and divestiture activity. The Company anticipates capital spending within a range of \$55 to \$60 million during fiscal 2002, including costs associated with the Project One initiatives. Cash used for the acquisition of six gas distributor locations from Air Liquide America Corporation was largely offset by cash provided by the divestiture of two nitrous oxide plants during the current period.

Financing activities used cash of \$140.2 million primarily for the net repayment of \$120.1 million of debt. The reduction in debt was principally the result of cash from operations, which includes the sale of receivables under the Company's securitization program. The remainder of cash used by financing activities included the reduction of the cash overdraft, representing the balance of outstanding checks, and financing costs related to the July 2001 refinancing, discussed below.

Cash on hand at the end of each period presented was zero. On a daily basis depository accounts are swept of all available funds. The funds are deposited into a concentration account through which all cash on hand is used to repay debt under the Company's revolving credit facilities.

The Company believes that its sources of financing are adequate for its anticipated needs and that it could arrange additional sources of financing for unanticipated requirements. The cost and terms of any future financing arrangement depend on the market conditions and the Company's financial position at that time.

The Company does not currently pay dividends.

Financial Instruments

On July 30, 2001, the Company refinanced its revolving credit facilities due December 5, 2002 with new bank credit facilities under a credit agreement with a syndicate of lenders. The new credit facilities consist of unsecured revolving credit facilities totaling \$367.5 million and \$50 million Canadian (US \$32 million) under a credit agreement with a maturity date of July 30, 2006. At December 31, 2001, the Company had borrowings under the credit agreement of approximately \$112 million and \$37 million Canadian (US \$24 million). The Company also had commitments under letters of credit supported by the credit agreement of approximately \$44 million at December 31, 2001.

Edgar Filing: AIRGAS INC - Form 10-Q

The credit agreement contains covenants that include the maintenance of certain leverage ratios, a fixed charge ratio, and potential restrictions on certain additional borrowing, the payment of dividends and the repurchase of common stock. Based on restrictions related to certain leverage ratios, the Company had additional borrowing capacity under the new credit facilities of approximately \$193 million at December 31, 2001. The variable interest rates of the U.S. and Canadian revolving credit facilities are based on LIBOR and Canadian Bankers' acceptance rates, respectively. At December 31, 2001, the effective interest rates on borrowings under the new credit facilities were 3.66% on U.S. borrowings and 2.51% on Canadian borrowings.

Borrowings under the new revolving credit facilities are guaranteed by certain of the Company's domestic subsidiaries and Canadian borrowings are guaranteed by Canadian subsidiaries. Should the Company's long-term senior unsecured debt ratings be reduced by one level, the Company will be required to pledge 100% of the stock of the domestic guarantors and 65% of the stock of the Canadian guarantors for the benefit of the syndicate of lenders. If the Company's long-term senior unsecured debt ratings are reduced by two or more levels, the Company will be required to grant a security interest in substantially all of the tangible and intangible assets of the Company for the benefit of the syndicate of lenders.

On July 30, 2001, concurrent with the refinancing of the new revolving credit facilities, the Company issued \$225 million of senior subordinated notes (the "Notes") with a maturity date of October 1, 2011. The Notes bear interest at a fixed annual rate of 9.125%, payable semi-annually on April 1 and October 1 of each year with the first interest payment due April 1, 2002. The Notes were sold in accordance with the provisions of Rule 144A of the Securities Act of 1933 (the "Securities Act"). In October 2001, the Company exchanged the Notes for substantially similar notes that are registered with the Securities and Exchange Commission in accordance with the Securities Act. The notes contain covenants that could restrict the payment of dividends, the issuance of preferred stock, and the incurrence of additional indebtedness and liens. The notes are guaranteed on a subordinated basis by each of the domestic guarantors under the new credit facilities.

In addition to the senior subordinated notes, the Company had the following medium-term notes outstanding at December 31, 2001: \$75 million of unsecured notes due March 2004 bearing interest at a fixed rate of 7.14% and \$100 million of unsecured notes due September 2006 bearing interest at a fixed rate of 7.75%. At December 31, 2001, the Company's long-term debt also included acquisition notes and other long-term debt instruments of approximately \$37 million with interest rates ranging from 6.0% to 9.0%.

The Company manages its exposure to changes in market interest rates. At December 31, 2001, the Company was party to a total of 14 interest rate swap agreements. The swap agreements are with major financial institutions and aggregate \$334 million in notional principal amount at December 31, 2001. Nine swap agreements with approximately \$180 million in notional principal amount require fixed interest payments based on an average effective rate of 6.70% and mature over periods ranging between one and three years. Five swap agreements with \$155 million in notional principal amount require variable interest payments based on an average rate of 5.29% at December 31, 2001 and mature over periods ranging between two and ten years. The Company monitors its positions and the credit ratings of its counterparties,

Edgar Filing: AIRGAS INC - Form 10-Q

and does not anticipate non-performance by the counterparties. After considering the effect of interest rate swap agreements, the Company's ratio of fixed to variable interest rates was 61% to 39% at December 31, 2001.

Trade Receivables Securitization

The Company participates in a securitization agreement with two commercial banks to sell up to \$150 million of qualifying trade receivables. During the nine months ended December 31, 2001, the Company sold, net of its retained interest, \$1.32 billion of trade receivables and remitted to the bank conduits, pursuant to a servicing agreement, \$1.18 billion in collections on those receivables. The net proceeds were used to reduce borrowings under the Company's revolving credit facilities. The amount of outstanding receivables under the agreement was approximately \$139 million at December 31, 2001 and \$73 million at March 31, 2001.

33

AIRGAS, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Pending Acquisition and Related Financing

On January 3, 2002, the Company announced an agreement to purchase the majority of Air Products and Chemicals, Inc.'s U.S. packaged gas business for cash of \$236 million. The transaction is expected to close during the fourth quarter of fiscal 2002. In anticipation of the transaction, the Company amended its revolving credit facilities to permit the acquisition and extend the period for compliance under current leverage ratios to September 30, 2002. In addition, the Company obtained commitments from a syndicate of lenders for an additional \$100 million term loan with a maturity date of July 30, 2006. The term loan bears a variable interest rate based on LIBOR plus a spread, which is related to the Company's credit rating. The additional term loan along with the Company's existing revolving credit facilities will enable the Company to finance the entire transaction with senior bank debt. The Company expects that the closing of the acquisition may result in a reduction of its credit rating, which will increase the cost of borrowing on its revolving credit facilities by 25 basis points.

OTHER

New Accounting Pronouncements

In July 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 143, Accounting for Asset Retirement Obligations. SFAS 143 requires the recognition of a liability for an asset retirement obligation in the period in which it is incurred. A retirement obligation is defined as one in which a legal obligation exists in the future resulting from existing laws, statutes or contracts. SFAS 143 is effective for fiscal years beginning after June 15, 2002. The Company is evaluating the impact of SFAS 143 on its results of operations, financial position and liquidity.

In August 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS 144 establishes one

Edgar Filing: AIRGAS INC - Form 10-Q

accounting model to be used for long-lived assets to be disposed of by sale and broadens the presentation of discontinued operations to include more disposal transactions. The Statement supersedes SFAS 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of, and the accounting and reporting provisions of APB Opinion No. 30, Reporting the Results of Operations—Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions, for the disposal of a business segment. SFAS 144 also amends ARB No. 51, Consolidated Financial Statements, to eliminate the exception to consolidation for a subsidiary for which control is likely to be temporary. SFAS 144 is effective for fiscal years beginning after December 15, 2001. The Company is evaluating the impact of SFAS 144 on its results of operations, financial position and liquidity.

34

AIRGAS, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-looking Statements

This report contains statements that are forward looking within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, statements regarding: the success of the Company's sales initiatives, including strategic products and accounts, in continuing sales growth; the achievement of strategic account sales of \$160 million in fiscal 2002; the effect of price increases on sales growth; the correlation of hardgoods sales with non-tech industrial production; the timing, scope and success of the Company's "Project One" initiatives designed to improve certain operational and administrative processes; the Company's expectation that capital spending will be in the range of \$55 to \$60 million in fiscal 2002; the expected closing of the purchase of the majority of Air Products' U.S. packaged gas business and the ability to finance the purchase entirely with senior bank debt; the Company's expectation that the closing of the pending acquisition from Air Products may result in a reduction of the Company's credit rating and increase the cost of borrowing by 25 basis points; the Company's belief that its sources of financing are adequate for its anticipated needs and that it could arrange additional sources of financing for unanticipated requirements; the effect on the Company of higher interest rates and/or changes in the Company's credit rating; and performance of counterparties under interest rate swap agreements. These forward-looking statements involve risks and uncertainties. Factors that could cause actual results to differ materially from those predicted in any forward-looking statement include, but are not limited to: underlying market conditions; growth and continued improvement in same-store sales; the success of marketing initiatives on sales of strategic products and accounts; the Company's inability to control operating expenses and the potential impact of higher operating expenses in future periods; the lack of correlation of hardgoods sales trends with non-tech industrial production; the inability of the Company's "Project One" initiatives to improve operational and administrative processes; higher than estimated expenses related to Project One; adverse changes in customer buying patterns; market acceptance of price increases; the inability of price increases and sales growth to offset any increases in product costs and operating expenses; the impact of higher than anticipated consulting expenses on future results; an economic downturn (including adverse changes in the specific markets for the Company's products); the inability to consummate the transaction with Air

Edgar Filing: AIRGAS INC - Form 10-Q

Products; the lack of availability of senior bank credit facilities to finance the transaction with Air Products; higher interest rates in future periods and/or downgrades of the Company's credit rating and the impact on interest expense; a higher or lower than expected level of capital spending in fiscal 2002; the inability to manage interest rate exposure; the effects of competition from independent distributors and vertically integrated gas producers on products, pricing and sales growth; changes in product prices from gas producers and name-brand manufacturers and suppliers of hardgoods; higher than estimated legal fees related to the Praxair, Inc. lawsuit; an unfavorable outcome of the Praxair, Inc. lawsuit; uncertainties regarding accidents or litigation which may arise in the ordinary course of business; the effects of, and changes in, the economy, monetary and fiscal policies, laws and regulations, inflation and monetary fluctuations and fluctuations in interest rates, both on a national and international basis; political and economic uncertainties associated with current world events; and other factors described in the Company's reports, including Form 10-K dated March 31, 2001 and Forms 10-Q dated June 30, 2001 and September 30, 2001 filed by the Company with the Securities and Exchange Commission. The Company does not undertake to update any forward-looking statement made herein or that may be made from time to time by or on behalf of the Company.

35

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

The Company manages its exposure to changes in market interest rates. The interest rate exposure arises primarily from the interest payment terms of the Company's borrowing agreements. Interest rate swap agreements are used to adjust the interest rate risk exposures that are inherent in its portfolio of funding sources. The Company has not, and will not establish any interest rate risk positions for purposes other than managing the risk associated with its portfolio of funding sources. The Company maintains the ratio of fixed to variable rate debt within parameters established by management under policies approved by the Board of Directors. After the effect of interest rate swap agreements, the ratio of fixed to variable rate debt was 61% to 39% at December 31, 2001. Counterparties to interest rate swap agreements are major financial institutions. The Company has established counterparty credit guidelines and only enters into transactions with financial institutions with long-term credit ratings of 'A' or better. In addition, the Company monitors its position and the credit ratings of its counterparties, thereby minimizing the risk of non-performance by the counterparties.

The table below summarizes the Company's market risks associated with long-term debt obligations, interest rate swaps and LIBOR-based agreements as of December 31, 2001. For long-term debt obligations, the table presents cash flows related to payments of principal and interest by fiscal year of maturity. For interest rate swaps and LIBOR-based agreements, the table presents the notional amounts underlying the agreements by year of maturity. The notional amounts are used to calculate contractual payments to be exchanged and are not actually paid or received. Fair values were computed using market quotes, if available, or based on discounted cash flows using market interest rates as of the end of the period.

(c) The variable receive rate for Canadian dollar denominated interest rate swaps is the rate on Canadian Bankers' acceptances ("CAD BA").

(d) The operating lease terminates October 8, 2004, but may be renewed subject to provisions of the lease agreement.

(e) The three-year agreement expires on December 19, 2003, but the initial term is subject to renewal provisions of the receivables purchase agreement.

37

Limitations of the tabular presentation

As the table incorporates only those interest rate risk exposures that exist as of December 31, 2001, it does not consider those exposures or positions that could arise after that date. In addition, actual cash flows of financial instruments in future periods may differ materially from prospective cash flows presented in the table due to future fluctuations in variable interest rates, debt levels and the Company's credit rating.

Foreign Currency Rate Risk

Canadian subsidiaries of the Company are funded in part with local currency debt. The Company does not otherwise hedge its exposure to translation gains and losses relating to foreign currency net asset exposures. The Company considers its exposure to foreign currency exchange fluctuations to be immaterial to its consolidated financial position and results of operations.

38

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Edgar Filing: AIRGAS INC - Form 10-Q

In July 1996, Praxair, Inc. ("Praxair") filed suit against the Company in the Circuit Court of Mobile County, Alabama. The complaint alleged tortious interference with business or contractual relations with respect to Praxair's Right of First Refusal contract with the majority shareholders of National Welders Supply Company, Inc. ("National Welders") in connection with the Company's formation of a joint venture with National Welders. In June 1998, Praxair filed a motion to dismiss its own action in Alabama and commenced another action in the Superior Court of Mecklenburg County, North Carolina, alleging substantially the same tortious interference by the Company. The North Carolina action also alleges breach of contract against National Welders and certain shareholders of National Welders and unfair trade practices and conspiracy against all the defendants. In the North Carolina action, Praxair seeks compensatory damages in excess of \$10 thousand, punitive damages and other unspecified relief. The Company anticipates that additional discovery and pretrial motions will be completed by the end of May 2002, and that a trial on the merits will begin in July 2002. The Company believes that Praxair's North Carolina claims are without merit and intends to defend vigorously against such claims.

The Company is involved in various legal and regulatory proceedings that have arisen in the ordinary course of its business and have not been fully adjudicated. These actions, when ultimately concluded and determined, will not, in the opinion of management, have a material adverse effect upon the Company's consolidated financial condition, results of operations or liquidity.

Item 2. Changes in Securities and Use of Proceeds

During the nine months ended December 31, 2001, in connection with services rendered by an outside consulting firm, the Company granted warrants to the consulting firm to purchase 324,000 shares of the Company's common stock at exercise prices ranging from \$11.98 to \$18.78 per share. The warrants have a term of three years from the date of grant. No underwriter was involved in the foregoing grant of warrants. The grants were made by the Company in reliance upon an exemption from the registration provisions of the Securities Act of 1933 set forth in Section 4 (2) thereof as a transaction by an issuer not involving a public offering. The warrants were acquired for investment and not for distribution by an accredited investor which had access to information respecting the Company and its business.

Item 6. Exhibits and Reports on Form 8-K

a. Exhibits

The following exhibits are being filed as part of this Quarterly Report on Form 10-Q:
