The Fund

LETTER FROM THE CHAIRMAN

Dear Shareholder:

We are pleased to present this annual report for Dreyfus Strategic Municipals, Inc., covering the 12-month period from October 1, 2005, through September 30, 2006.

After more than two years of steady and gradual increases, the Federal Reserve Board (the [Fed]) held short-term interest rates unchanged at its meetings in August and September. The Fed has indicated that the U.S. economy has moved to a slower-growth phase of its cycle, as evidenced by softening housing markets in many regions of the United States. Yet, energy prices have moderated from record highs, calming fears that the economy may fall into a full-blown recession.

Most sectors of the U.S. fixed-income market rallied in anticipation of and in response to the pause in the Fed\(\sigma\) tightening campaign, including municipal bonds. Investors apparently are optimistic that higher borrowing costs and moderating home values may wring current inflationary pressures from the economy. In addition, most states and municipalities have continued to report higher-than-expected tax receipts as a result of the recovering economy, helping to support the credit quality of many municipal bond issuers. As always, we encourage you to talk with your financial advisor about these and other developments to help ensure that your portfolio remains aligned with your current tax-managed needs and future investment goals.

For information about how the fund performed during the reporting period, as well as market perspectives, we have provided a Discussion of Fund Performance given by the fund perfolio manager.

Thank you for your continued confidence and support.

2

DISCUSSION OF FUND PERFORMANCE

W. Michael Petty, Portfolio Manager

How did Dreyfus Strategic Municipals perform during the reporting period?

For the 12-month period ended September 30, 2006, the fund achieved a total return of 6.92% (on a net asset value basis). During the same period, the fund provided income dividends of \$0.52 per share, which is equal to a

distribution rate of 5.66% .2

Municipal bonds rallied over the summer of 2006 as the Federal Reserve Board (the \Box Fed \Box) refrained from raising short-term interest rates and investors looked forward to a slower-growth economic environment, enabling the fund to post a competitive total return. Relatively high levels of income from the fund \Box s core holdings also helped drive its performance, but some of those seasoned bonds were redeemed early by their issuers. In addition, rising short-term interest rates resulted in higher borrowing costs for the fund \Box s auction preferred shares. These factors resulted in a reduction in the fund \Box s dividend in February 2006.

What is the fund investment approach?

The fund investment objective is to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. Under normal market conditions, the fund invests at least 80% of its net assets in municipal obligations. Generally, the fund invests at least 50% of its net assets in municipal bonds considered investment-grade or the unrated equivalent as determined by Dreyfus in the case of bonds, and in the two highest-rating categories or the unrated equivalent as determined by Dreyfus in the case of short-term obligations having or deemed to have maturities of less than one year.

To this end, we have constructed a portfolio derived from seeking income opportunities through analysis of each bond\(\sigma\) structure, including paying close attention to each bond\(\sigma\) s yield, maturity and early redemption features.

The Fund 3

DISCUSSION OF FUND PERFORMANCE (continued)

Over time, many of the fund srelatively higher yielding bonds mature or are redeemed by their issuers, and we generally attempt to replace those bonds, as opportunities arise, with investments consistent with the fund sinvestment policies. When we believe an opportunity exists, we also may seek to upgrade the portfolio sinvestments with newly issued bonds that, in our opinion, have better structural or income characteristics than existing holdings.

What other factors influenced the fund s performance?

Over the first half of the reporting period, investors low inflation expectations helped support municipal bond prices despite fairly robust levels of economic growth and rising short-term interest rates. In the spring of 2006, however, stronger labor markets, record oil prices and hawkish comments by some Fed members raised renewed concerns that inflation might be accelerating, and bond prices began to fall. Fortunately, these worries proved to be overblown as fuel prices declined and U.S. housing markets softened over the summer. The Fed lent credence to a more benign outlook for the economy and inflation when, after more than two years of steady rate hikes, it held short-term interest rates unchanged at its meetings in August and September.

Municipal bond prices also were supported by favorable supply-and-demand factors throughout the reporting period. Many states and municipalities received higher levels of tax revenue than originally projected, reducing their need to borrow. Consequently, the supply of newly issued municipal bonds fell compared to the same period one year earlier. Yet, demand remained robust from both individual and institutional investors seeking competitive levels of tax-free income.

As short-term interest rates rose, longer-term bond yields remained relatively stable, contributing to a narrowing of yield differences along the fund\[\]s maturity spectrum. Later, longer-term bond yields fell while short-term rates remained stable, and yield differences narrowed further. The fund benefited from this trend by maintaining its focus on long-term, income-oriented bonds. The fund received especially

4

strong results from its lower-rated holdings, including municipal bonds backed by U.S. airlines and educational facilities. Our security selection strategy proved to be successful in the airline sector, as we chose securities from solvent carriers and avoided those from airlines that declared bankruptcy early in the reporting period.

On the other hand, the fund strong relative performance was eroded somewhat by higher borrowing costs related to its leveraging strategy, which relies on the issuance of auction preferred stock. In addition, as expected, some of the fund seasoned, higher-coupon holdings were redeemed early by their issuers, and we were unable to replace them with new securities with similar income characteristics. The fund consequently generated incrementally less income, requiring an adjustment to its dividend distribution rate in February 2006.

What is the fund s current strategy?

Signs of a moderate economic slowdown suggest to us that the Fed is unlikely to raise or lower short-term interest rates over the foreseeable future. If current inflationary pressures wane and the U.S. economy achieves a <code>[]soft landing[]</code> as we expect, we may begin to increase the fund[]s average duration to lock in prevailing yields for a longer period and position the fund for wider yield differences along the maturity spectrum.

October 16, 2006

- Total return includes reinvestment of dividends and any capital gains paid, based upon net asset value per share. Past performance is no guarantee of future results. Market price per share, net asset value per share and investment return fluctuate. Income may be subject to state and local taxes, and some income may be subject to the federal alternative minimum tax (AMT) for certain investors. Capital gains, if any, are fully taxable. Return figure provided reflects the absorption of certain fund expenses by The Dreyfus Corporation pursuant to an agreement in effect until May 31, 2007, at which time it may be extended, modified or terminated. Had these expenses not been absorbed, the fund sreturn would have been lower.
- Distribution rate per share is based upon dividends per share paid from net investment income during the period, divided by the market price per share at the end of the period.

FINANCIAL HIGHLIGHTS

The following table describes the performance for the fiscal periods indicated. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and dis-tributions. These figures have been derived from the fund \square s financial statements, and with respect to common stock, market price data for the fund \square s common shares.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 Significant Accounting Policies:

Dreyfus Strategic Municipals, Inc. (the [fund]) is registered under the Investment Company Act of 1940, as amended (the [Act]), as a diversified closed-end management investment company. The fund [s] investment objective is to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. The Dreyfus Corporation (the [Manager] or [Dreyfus]) serves as the fund [s] investment adviser. The Manager is a wholly-owned subsidiary of Mellon Financial Corporation ([Mellon Financial])). The fund [s] common Stock trades on the New York Stock Exchange under the ticker symbol LEO.

The fund has outstanding 2,280 shares of Series M, Series T, Series W, Series TH and Series F for a total of 11,400 shares of Auction Preferred Stock (\square APS \square), with a liquidation preference of \$25,000 per share (plus an amount equal to accumulated but unpaid dividends upon liquidation). APS dividend rates are determined pursuant to periodic auctions. Deutsche Bank Trust Company America, as Auction Agent, receives a fee from the fund for its services in connection with such auctions. The fund also compensates broker-dealers generally at an annual rate of .25% of the purchase price of the shares of APS placed by the broker-dealer in an auction.

The fund is subject to certain restrictions relating to the APS. Failure to comply with these restrictions could preclude the fund from declaring any distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of APS at liquidation value.

The holders of the APS, voting as a separate class, have the right to elect at least two directors. The holders of the APS will vote as a separate class on certain other matters, as required by law. The fund has designated Robin A. Melvin and John E. Zuccotti to represent holders of APS on the fund so Board of Directors.

The fund□s financial statements are prepared in accordance with U.S. generally accepted accounting principles, which may require the use

30

of management estimates and assumptions. Actual results could differ from those estimates.

The fund enters into contracts that contain a variety of indemnifications. The fund s maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: Investments in municipal debt securities are valued on the last business day of each week and month by an independent pricing service (the [Service]). Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Other investments (which constitute a majority of the portfolio securities) are carried at fair value as determined by the

Service, based on methods which include consideration of: yields or prices of municipal securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. Options and financial futures on municipal and U.S. Treasury securities are valued at the last sales price on the securities exchange on which such securities are primarily traded or at the last sales price on the national securities market on the last business day of each week and month.

- **(b)** Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gain and loss from securities transactions are recorded on the identified cost basis. Interest income, adjusted for accretion of discount and amortization of premium on investments, is earned from settlement date and recognized on the accrual basis. Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date.
- (c) Dividends to shareholders of Common Stock ([Common Shareholders(s)]) Dividends are recorded on the ex-dividend date. Dividends from investment income-net are declared and paid monthly.

The Fund 31

NOTES TO FINANCIAL STATEMENTS (continued)

Dividends from net realized capital gain, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the $\square Code \square$). To the extent that net realized capital gain can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gain. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles.

For Common Shareholders who elect to receive their distributions in additional shares of the fund, in lieu of cash, such distributions will be reinvested at the lower of the market price or net asset value per share (but not less than 95% of the market price) as defined in the dividend reinvestment and cash purchase plan.

On September 28, 2006, the Board of Directors declared a cash dividend of \$.042 per share from investment income-net, payable on November 1, 2006 to Common Shareholders of record as of the close of business on October 16, 2006.

- **(d) Dividends to shareholders of APS:** For APS, dividends are currently reset every 7 days. The dividend rates in effect at September 30, 2006 were as follows: Series M-3.50%, Series T-3.54%, Series W-3.65%, Series TH-3.59% and Series F-3.59%.
- **(e) Federal income taxes:** It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax exempt dividends, by complying with the applicable provisions of the Code and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 [Accounting for Uncertainty in Income Taxes] (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions

32

taken or expected to be taken in the course of preparing the fund stax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. At this time, management is evaluating the implications of FIN 48 and its impact in the financial statements has not yet been determined.

At September 30, 2006, the components of accumulated earnings on a tax basis were as follows: undistributed tax exempt income \$2,829,622, accumulated capital losses \$53,139,510 and unrealized appreciation \$55,452,370.

The accumulated capital loss carryover is available to be applied against future net securities profits, if any, realized subsequent to September 30, 2006. If not applied, \$5,230,162 of the carryover expires in fiscal 2009, \$76,128 expires in fiscal 2010, \$20,575,114 expires in fiscal 2011 and \$27,258,106 expires in fiscal 2012.

The tax character of distributions paid to shareholders during the fiscal period ended September 30, 2006 and September 30, 2005, were as follows: tax exempt income \$40,437,009 and \$40,422,703, respectively.

During the period ended September 30, 2006, as a result of permanent book to tax differences, primarily due to the tax treatment for amortization adjustments, the fund decreased accumulated undistributed investment income-net by \$89,325, increased accumulated net realized gain (loss) on investments by \$72,930 and increased paid-in capital by the \$16,395. Net assets were not affected by this reclassification.

NOTE 2 Bank Line of Credit:

The fund participates with other Dreyfus-managed funds in a \$100 million unsecured line of credit primarily to be utilized for temporary or emergency purposes. Interest is charged to the fund based on prevailing market rates in effect at the time of borrowing.

The Fund 33

NOTES TO FINANCIAL STATEMENTS (continued)

The average daily amount of borrowings outstanding under the line of credit during the period ended September 30,2006 was approximately \$13,600, with a related weighted average annualized interest rate of 4.60%.

NOTE 3 Management Fee and Other Transactions With Affiliates:

- (a) Pursuant to a management agreement ([Agreement]) with the Manager, the management fee is computed at the annual rate of .75% of the value of the fund[s average weekly net assets, inclusive of the outstanding auction preferred stock, and is payable monthly. The Agreement provides for an expense reimbursement from the Manager should the fund[s aggregate expenses, exclusive of taxes, interest on borrowings, brokerage and extraordinary expenses, in any full fiscal year exceed the lesser of (1) the expense limitation of any state having jurisdiction over the fund or (2) 2% of the first \$10 million, 1 ¹/₂% of the next \$20 million and 1% of the excess over \$30 million of the average value of the fund[s net assets. The fund has currently undertaken for the period from November 1, 2005 through November 30, 2006, to waive receipt of a portion of the fund[s management fee, in the amount of .10 of the value of the fund[s average weekly net assets (including net assets representing auction preferred stock outstanding). The reduction in management fee, pursuant to the undertaking, amounted to \$847,978 during the period ended September 30, 2006.
- **(b)**The fund compensates Mellon Trust of New England, N.A., an affiliate of the Manager, under a custody agreement for providing custodial services to the fund. During the period ended September 30, 2006, the fund was charged \$145,007 pursuant to the custody agreement.

During the period ended September 30, 2006, the fund was charged \$4,374 for services performed by the Chief Compliance Officer.

The components of Due to The Dreyfus Corporation and affiliates in the Statement of Assets and Liabilities consist of: management fees \$527,908, custodian fees \$49,854 and chief compliance officer fees \$2,274, which are offset against an expense reimbursement currently in effect in the amount of \$70,388.

34

(c) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

NOTE 4 Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities and financial futures, during the period ended September 30, 2006, amounted to \$269,621,452 and \$263,567,118, respectively.

The fund may invest in financial futures contracts in order to gain exposure to or protect against changes in the market. The fund is exposed to market risk as a result of changes in the value of the underlying financial instruments. Investments in financial futures require a fund to [mark to market] on a daily basis, which reflects the change in the market value of the contract at the close of each day's trading. Typically, variation margin payments are received or made to reflect daily unrealized gains or losses. When the contracts are closed, a fund recognizes a realized gain or loss. These investments require initial margin deposits with a broker, which consist of cash or cash equivalents. The amount of these deposits is determined by the exchange or Board of Trade on which the contract is traded and is subject to change. Contracts open at September 30, 2006, are set forth in the Statements of Financial Futures.

At September 30, 2006, the cost of investments for federal income tax purposes was \$796,693,503; accumulated net unrealized appreciation on investments was \$55,452,370, consisting of \$56,444,791 gross unrealized appreciation and \$992,421 gross unrealized depreciation.

NOTE 5 Restatement:

Subsequent to the issuance of the September 30, 2006 financial statements, the fund determined that the transfers of certain tax-exempt municipal bond securities by the fund to special purpose bond trusts in connection with participation in inverse floater structures do not qualify for sale treatment under Statement of Financial Accounting Standard

The Fund 35

NOTES TO FINANCIAL STATEMENTS (continued)

No. 140,Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities, and should have been accounted for as a secured borrowing.

The correction of the above item resulted in the restatement of the ratio of total and net expenses of the financial highlights table as shown below:

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Shareholders and Board of Directors Dreyfus Strategic Municipals, Inc.

We have audited the accompanying statement of assets and liabilities of Dreyfus Strategic Municipals, Inc. including the statement of investments, as of September 30, 2006, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the years indicated therein. These financial statements and financial highlights are the responsibility of the Fund\[\]s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included verification by examination of securities held by the custodian as of September 30, 2006 and confirmation of securities not held by the custodian by correspondence with others. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Dreyfus Strategic Municipals, Inc. at September 30, 2006, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the indicated years, in conformity with U.S. generally accepted accounting principles.

38

As discussed in Note 5, the statement of assets and liabilities, including the statement of investments, as of April 30, 2006, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the periods indicated therein have been restated.

The Fund 39

ADDITIONAL INFORMATION (Unaudited)

Dividend Reinvestment and Cash Purchase Plan

Under the fund s Dividend Reinvestment and Cash Purchase Plan (the Plan), a holder of Common Stock who has fund shares registered in his name will have all dividends and distributions reinvested automatically by The Bank of New York, as Plan agent (the Agent), in additional shares of the fund at the lower of prevailing market price or net asset value (but not less than 95% of market value at the time of valuation) unless such shareholder elects to

receive cash as provided below. If market price is equal to or exceeds net asset value, shares will be issued at net asset value. If net asset value exceeds market price or if a cash dividend only is declared, the Agent, as agent for the Plan participants, will buy fund shares in the open market. A Plan participant is not relieved of any income tax that may be payable on such dividends or distributions.

A Common Shareholder who owns fund shares registered in nominee name through his broker/dealer (i.e., in [street name]) may not participate in the Plan, but may elect to have cash dividends and distributions reinvested by his broker/dealer in additional shares of the fund if such service is provided by the broker/dealer; otherwise such dividends and distributions will be treated like any other cash dividend.

A Common Shareholder who has fund shares registered in his name may elect to withdraw from the Plan at any time for a \$2.50 fee and thereby elect to receive cash in lieu of shares of the fund. Changes in elections must be in writing, sent to The Bank of New York, Dividend Reinvestment Department, P.O. Box 1958, Newark, New Jersey 07101-9774, should include the shareholder sname and address as they appear on the Agent srecords and will be effective only if received more than fifteen days prior to the record date for any distribution.

A Plan participant who has fund shares in his name has the option of making additional cash payments to the Agent, semi-annually, in any amount from \$1,000 to \$10,000, for investment in the fund shares in the open market on or about January 15 and July 15. Any voluntary cash payments received more than 30 days prior to these dates will be returned by the Agent, and interest will not be paid on any uninvested cash payments. A participant may withdraw a voluntary cash payment

40

by written notice, if the notice is received by the Agent not less than 48 hours before the payment is to be invested. A Common Shareholder who owns fund shares registered in street name should consult his broker/dealer to determine whether an additional cash purchase option is available through his broker/dealer.

The Agent maintains all Common Shareholder accounts in the Plan and furnishes written confirmations of all transactions in the account. Shares in the account of each Plan participant will be held by the Agent in non-certificated form in the name of the participant, and each such participant proxy will include those shares purchased pursuant to the Plan.

The fund pays the Agent see for reinvestment of dividends and distributions. Plan participants pay a pro rata share of brokerage commissions incurred with respect to the Agent sopen market purchases and purchases from voluntary cash payments, and a \$1.25 fee for each purchase made from a voluntary cash payment.

The fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to notice of the change sent to Plan participants at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by the Agent on at least 90 days written notice to Plan participants.

Managed Dividend Policy

The fund sidvidend policy is to distribute substantially all of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more consistent yield to the current trading price of shares of Common Stock of the fund, the fund may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the fund for any particular month may be more or less than the amount of net investment income earned by the fund during such month.

The Fund 41

ADDITIONAL INFORMATION (Unaudited) (continued)

Benefits and Risks of Leveraging

The fund utilizes leverage to seek to enhance the yield and net asset value of its Common Stock. These objectives cannot be achieved in all interest rate environments. To leverage, the fund issues Preferred Stock, which pays dividends at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. The interest earned on these investments is paid to Common Shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the fund Scommon Stock. In order to benefit Common Shareholders, the yield curve must be positively sloped: that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Shareholders. If either of these conditions change, then the risk of leveraging will begin to outweigh the benefits.

Supplemental Information

During the period ended September 30, 2006, there were: (i) no material changes in the fund investment objectives or policies, (ii) no changes in the fund is charter or by-laws that would delay or prevent a change of control of the fund, and (iii) no material changes in the principal risk factors associated with investment in the fund.

Certifications

The fund schief executive officer has certified to the NYSE, pursuant to the requirements of Section 303A.12(a) of the NYSE Listed Company Manual, that, as of August 17, 2006, he was not aware of any violation by the fund of applicable NYSE corporate governance listing standards. The fund reports to the SEC on Form N-CSR contain certifications by the fund certifications of the fund certifications regarding the quality of the fund disclosures in such reports and certifications regarding the fund sticlosure controls and procedures and internal control over financial reporting.

42

IMPORTANT TAX INFORMATION (Unaudited)

In accordance with federal tax law, the fund hereby designates all the dividends paid from investment income-net during the fiscal year ended September 30, 2006 as [exempt-interest dividends] (not generally subject to regular federal income tax). As required by federal tax law rules, shareholders will receive notification of their portion of the Fund[s taxable ordinary dividends (if any) and capital gain distributions (if any) paid for the 2006 calendar year on Form 1099-DIV which will be mailed by January 31, 2007.

The Fund 43

Item 2. Code of Ethics.

The Registrant has adopted a code of ethics that applies to the Registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There have been no amendments to, or waivers in connection with, the Code of Ethics during the period covered by this Report.

Item 3. Audit Committee Financial Expert.

The Registrant's Board has determined that Richard C. Leone, a member of the Audit Committee of the Board, is an audit committee financial expert as defined by the Securities and Exchange Commission (the "SEC"). Richard C. Leone is "independent" as defined by the SEC for purposes of audit committee financial expert determinations.

Item 4. Principal Accountant Fees and Services

(a) <u>Audit Fees</u>. The aggregate fees billed for each of the last two fiscal years (the "Reporting Periods") for professional services rendered by the Registrant's principal accountant (the "Auditor") for the audit of the Registrant's annual financial statements, or services that are normally provided by the Auditor in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were \$34,374 in 2005 and \$36,008 in 2006.

(b) <u>Audit-Related Fees</u>. The aggregate fees billed in the Reporting Periods for assurance and related services by the Auditor that are reasonably related to the performance of the audit of the Registrant's financial statements and are not reported under paragraph (a) of this Item 4 were \$4,725 in 2005 and \$21,922 in 2006. These services consisted of (i) security counts required by Rule 17f-2 under the Investment Company Act of 1940, as amended.

The aggregate fees billed in the Reporting Periods for non-audit assurance and related services by the Auditor to the Registrant's investment adviser (not including any sub-investment adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Registrant ("Service Affiliates"), that were reasonably related to the performance of the annual audit of the Service Affiliate, which required pre-approval by the Audit Committee were \$0 in 2005 and \$0 in 2006.

Note: For the second paragraph in each of (b) through (d) of this Item 4, certain of such services were not pre-approved prior to May 6, 2003, when such services were required to be pre-approved. On and after May 6, 2003, 100% of all services provided by the Auditor were pre-approved as required. For comparative purposes, the fees shown assume that all such services were pre-approved, including services that were not pre-approved prior to the compliance date of the pre-approval requirement.

(c) <u>Tax Fees</u>. The aggregate fees billed in the Reporting Periods for professional services rendered by the Auditor for tax compliance, tax advice and tax planning ("Tax Services") were \$3,018 in 2005 and \$3,235 in 2006. These services consisted of (i) review or preparation of U.S. federal, state, local and excise tax returns; (ii) U.S. federal, state and local tax planning, advice and assistance regarding statutory, regulatory or administrative developments, and (iii) tax advice regarding tax qualification matters and/or treatment of various financial instruments held or proposed to be acquired or held.

-2-

The aggregate fees billed in the Reporting Periods for Tax Services by the Auditor to Service Affiliates which required pre-approval by the Audit Committee were \$0 in 2005 and \$0 in 2006.

(d) <u>All Other Fees</u>. The aggregate fees billed in the Reporting Periods for products and services provided by the Auditor, other than the services reported in paragraphs (a) through (c) of this Item, were \$0 in 2005 and \$0 in 2006. These services consisted of a review of the Registrant's anti-money laundering program.

The aggregate fees billed in the Reporting Periods for Non-Audit Services by the Auditor to Service Affiliates, other than the services reported in paragraphs (b) through (c) of this Item, which required pre-approval by the Audit Committee were \$0 in 2005 and \$0 in 2006.

<u>Audit Committee Pre-Approval Policies and Procedures</u>. The Registrant's Audit Committee has established policies and procedures (the "Policy") for pre-approval (within specified fee limits) of the Auditor's engagements for non-audit services to the Registrant and Service Affiliates without specific case-by-case consideration. Pre-approval considerations include whether the proposed services are compatible with maintaining the Auditor's independence. Pre-approvals pursuant to the Policy are considered annually.

Non-Audit Fees. The aggregate non-audit fees billed by the Auditor for services rendered to the Registrant, and rendered to Service Affiliates, for the Reporting Periods were \$761,002 in 2005 and \$443,981 in 2006.

<u>Auditor Independence</u>. The Registrant's Audit Committee has considered whether the provision of non-audit services that were rendered to Service Affiliates which were not pre-approved (not requiring pre-approval) is compatible with maintaining the Auditor's independence.

Item 5. Audit Committee of Listed Registrants.

The Registrant has a separately-designated standing Audit Committee established in accordance with Section 3(a) (58)(A) of the Securities Exchange Act of 1934, consisting of the following members: Richard C. Leone, Joseph S. DiMartino, David W. Burke, Hodding Carter III, Ehud Houminer, Hans C. Mautner, Robin A. Melvin,

and John E. Zuccotti.

Item 6. Schedule of Investments.

Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management

Investment Companies.

Not applicable.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a) (1) The following information is as of November 28, 2006, the date of the filing of this report:

W. Michael Petty has been the primary portfolio manager of the Registrant since November 2001 and has been employed by The Dreyfus Corporation ([Dreyfus]) since June 1997.

(a) (2) The following information is as of the Registrant□s most recently completed fiscal year, except where otherwise noted:

<u>Portfolio Managers</u>. The Manager manages the Fund's portfolio of investments in accordance with the stated policies of the Fund, subject to the approval of the Fund's Board. The Manager is responsible for investment

-3-

decisions and provides the Fund with portfolio managers who are authorized by the Fund's Board to execute purchases and sales of securities. The Fund's portfolio managers are W. Michael Petty, Joseph P. Darcy, A. Paul Disdier, Douglas J. Gaylor, Joseph A. Irace, Colleen A. Meehan, Bill Vasiliou, James Welch and Monica S. Wieboldt. The Manager also maintains a research department with a professional staff of portfolio managers and securities analysts who provide research services for the Fund and for other funds advised by the Manager.

Portfolio Manager Compensation. Portfolio manager compensation is comprised primarily of a market-based salary and an incentive compensation plan. The Fund\[\] s portfolio managers are compensated by Dreyfus or its affiliates and not by the Fund. The incentive compensation plan is comprised of three components: Fund performance (approximately 60%), individual qualitative performance (approximately 20%) and Dreyfus financial performance as measured by Dreyfus\[\] pre-tax net income (approximately 20%). Up to 10% of the incentive plan compensation may be paid in Mellon restricted stock.

Portfolio performance is measured by a combination of yield (35%) and total return (65%) relative to the appropriate Lipper peer group. 1-year performance in each category is weighted at 40% and 3-year performance at 60%. The portfolio manager\[\]s performance is measured on either a straight average (each account weighted equally) or a combination of straight average and asset-weighted average. Generally, if the asset-weighted average is higher, then that is used to measure performance. If the straight average is higher, then typically an average of the two is used to measure performance.

Individual qualitative performance is based on Dreyfus Chief Investment Officers evaluation of the portfolio managers performance based on any combination of the following: marketing contributions; new product development; performance on special assignments; people development; methodology enhancements; fund growth/gain in market; and support to colleagues. The Chief Investment Officer may consider additional factors at his discretion.

Portfolio managers are also eligible for Dreyfus Long Term Incentive Plan. Under that plan, cash and/or Mellon restricted stock is awarded at the discretion of the Chief Investment Officer based on individual performance and contributions to the Investment Management Department and the Mellon organization.

Additional Information About Portfolio Managers. The following table lists the number and types of other accounts advised by the Fund \square s primary portfolio manager and assets under management in those accounts as of the end of the Fund \square s fiscal year:

	Investment						
<u>Portfolio</u> <u>Manager</u>	Company Accounts	<u>Assets</u> <u>Managed</u>	Pooled <u>Accounts</u>	Assets <u>Managed</u>	Other <u>Accounts</u>	<u>Assets</u> <u>Managed</u>	
W. Michael Petty	8	\$2.6 billion	0	\$0	0	\$ 0	

None of the funds or accounts are subject to a performance-based advisory fee.

Registered

The dollar range of Fund shares beneficially owned by the primary portfolio manager are as follows as of the end of the Fund \square s fiscal year:

<u>Portfolio Manager</u>	Registrant Name	Dollar Range of Registrant Shares Beneficially Owned
W. Michael Petty	Dreyfus Strategic Municipals, Inc.	None

-4-

Portfolio managers may manage multiple accounts for a diverse client base, including mutual funds, separate accounts (assets managed on behalf of institutions such as pension funds, insurance companies and foundations), bank common trust accounts and wrap fee programs ($\lceil Other Accounts \rceil$).

Potential conflicts of interest may arise because of Dreyfus management of the Fund and Other Accounts. For example, conflicts of interest may arise with both the aggregation and allocation of securities transactions and allocation of limited investment opportunities, as Dreyfus may be perceived as causing accounts it manages to participate in an offering to increase Dreyfus overall allocation of securities in that offering, or to increase Dreyfus ability to participate in future offerings by the same underwriter or issuer. Allocations of bunched trades, particularly trade orders that were only partially filled due to limited availability and allocation of investment opportunities generally, could raise a potential conflict of interest, as Dreyfus may have an incentive to allocate securities that are expected to increase in value to preferred accounts. Initial public offerings, in particular, are frequently of very limited availability. Additionally, portfolio managers may be perceived to have a conflict of interest if there are a large number of Other Accounts, in addition to the Fund, that they are managing on behalf of Dreyfus. Dreyfus periodically reviews each portfolio manager soverall responsibilities to ensure that he or she is able to allocate the necessary time and resources to effectively manage the Fund. In addition, Dreyfus could be viewed as having a conflict of interest to the extent that Dreyfus or its affiliates and/or portfolio managers have a materially larger investment in Other Accounts than their investment in the Fund.

Other Accounts may have investment objectives, strategies and risks that differ from those of the Fund. For these or other reasons, the portfolio manager may purchase different securities for the Fund and the Other Accounts, and the performance of securities purchased for the Fund may vary from the performance of securities purchased for Other Accounts. The portfolio manager may place transactions on behalf of Other Accounts that are directly or indirectly contrary to investment decisions made for the Fund, which could have the potential to adversely impact the Fund, depending on market conditions.

A potential conflict of interest may be perceived to arise if transactions in one account closely follow related transactions in another account, such as when a purchase increases the value of securities previously purchased by the other account, or when a sale in one account lowers the sale price received in a sale by a second account.

Dreyfus goal is to provide high quality investment services to all of its clients, while meeting Dreyfus fiduciary obligation to treat all clients fairly. Dreyfus has adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures that it believes address the conflicts associated with managing multiple accounts for multiple clients. In addition, Dreyfus monitors a variety of areas, including

compliance with Fund guidelines, the allocation of IPOs, and compliance with the firm S Code of Ethics. Furthermore, senior investment and business personnel at Dreyfus periodically review the performance of the portfolio managers for Dreyfus-managed funds.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers.

None

Item 10. Submission of Matters to a Vote of Security Holders.

The Registrant has a Nominating Committee (the "Committee"), which is responsible for selecting and nominating persons for election or appointment by the Registrant's Board as Board members. The Committee has adopted a Nominating Committee Charter (the "Charter"). Pursuant to the Charter, the Committee will consider recommendations for nominees from shareholders submitted to the Secretary of the Registrant, c/o The Dreyfus Corporation Legal Department, 200 Park Avenue, 8th Floor East, New York, New York 10166. A nomination

-5-

submission must include information regarding the recommended nominee as specified in the Charter. This information includes all information relating to a recommended nominee that is required to be disclosed in solicitations or proxy statements for the election of Board members, as well as information sufficient to evaluate the factors to be considered by the Committee, including character and integrity, business and professional experience, and whether the person has the ability to apply sound and independent business judgment and would act in the interests of the Registrant and its shareholders. Nomination submissions are required to be accompanied by a written consent of the individual to stand for election if nominated by the Board and to serve if elected by the shareholders, and such additional information must be provided regarding the recommended nominee as reasonably requested by the Committee.

Item 11. Controls and Procedures.

- (a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.
- (b) The Registrant has revised its internal control over financial reporting with respect to a change in accounting for investments in certain inverse floater structures. As a consequence of this change, Dreyfus Strategic Municipals, Inc. has restated one or more sections of certain of its historical financial statements to account for these investments as secured borrowings and to report the related income and expense.

Item 12. Exhibits.

- (a)(1) Code of ethics referred to in Item 2.
- (a)(2) Certifications of principal executive and principal financial officers as required by Rule 30a-2(a) under the Investment Company Act of 1940.
- (a)(3) Not applicable.
- (b) Certification of principal executive and principal financial officers as required by Rule 30a-2(b) under the Investment Company Act of 1940.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

Dreyfus Strategic Municipals, Inc.

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, this Report has been signed below by the following persons on behalf of the Registrant and in the capacities and on the dates indicated.
