Dreyfus Strategic Municipals, Inc.

A LETTER FROM THE CEO

Dear Shareholder:

We are pleased to present this semiannual report for Dreyfus Strategic Municipals, Inc., covering the six-month period from October 1, 2006, through March 31, 2007.

Recent volatility in U.S. stock and bond markets has suggested to us that investors appetite for risk may be waning. Until late February 2007, the appetite for risk was relatively high, even in market sectors where the danger of fundamental deterioration was clear, such as sub-prime mort-gages. While overall valuation levels within the broad stock and bond markets seemed appropriate to us, prices of many lower-quality assets did not fully compensate investors for the risks they typically entail.

Heightened volatility sometimes signals a shift in the economy, but we do not believe this currently is the case. We continue to expect a midcycle economic slowdown and a monetary policy of prolonged pause and eventual ease. Tightness in the labor market should ease, with the unemployment rate driven somewhat higher by housing-related layoffs. While we believe there will be a gradual moderation of both CPI and PCE core inflation a measure of underlying long-term inflation that generally excludes energy and food products we expect the Fed to remain vigilant against inflation risks as it continues to closely monitor upcoming data. As always, your financial advisor can help you identify the investments that may help you potentially profit from these trends and maintain an asset allocation strategy that suited for your needs.

For information about how the fund performed during the reporting period, as well as market perspectives, we have provided a Discussion of Fund Performance given by the fund sportfolio manager.

2

DISCUSSION OF FUND PERFORMANCE

W. Michael Petty, Portfolio Manager

How did Dreyfus Strategic Municipals perform during the reporting period?

For the six-month period ended March 31, 2007, the fund achieved a total return of 2.78% (on a net asset value basis). During the same period, the fund provided income dividends of \$0.252 per share, which is equal to a distribution rate of 5.27%. 2

Municipal bonds fared relatively well over the reporting period in an environment of moderate economic growth, low inflation and stable interest rates. The fund performance benefited from its holdings of lower-rated securities as well as its overweighted position at the longer end of the market smaturity range.

What is the fund investment approach?

The fund investment objective is to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. Under normal market conditions, the fund invests at least 80% of its net assets in municipal obligations. Generally, the fund invests at least 50% of its net assets in municipal bonds considered investment-grade or the unrated equivalent as determined by Dreyfus in the case of bonds, and in the two highest-rating categories or the unrated equivalent as determined by Dreyfus in the case of short-term obligations having or deemed to have maturities of less than one year.

To this end, we have constructed a portfolio derived from seeking income opportunities through analysis of each bond\(\sigma\) s structure, including paying close attention to each bond\(\sigma\) s yield, maturity and early redemption features.

Over time, many of the fund \square s relatively higher-yielding bonds mature or are redeemed by their issuers, and we generally attempt to replace those bonds, as opportunities arise, with investments consistent with the fund \square s investment policies. When we believe an opportunity exists,

The Fund 3

DISCUSSION OF FUND PERFORMANCE (continued)

we also may seek to upgrade the portfolio investments with newly issued bonds that, in our opinion, have better structural or income characteristics than existing holdings.

What other factors influenced the fund s performance?

The municipal bond market generally rallied over much of the reporting period as energy prices declined from their previous record highs, the rate of U.S. economic growth slowed and investors became less concerned about inflation. The Federal Reserve Board (the [Fed]) lent credence to a more benign inflation outlook when it refrained from changing short-term interest rates throughout the reporting period. A bout of heightened market volatility interrupted the rally in late February and early March, when sharp declines in foreign equity markets and turmoil in the U.S. sub-prime mortgage market raised economic concerns. However, the market secline in March was not enough to fully offset better performance over the first five months of the reporting period.

Favorable supply-and-demand factors generally put upward pressure on municipal bond prices during the reporting period. Although some states recently have experienced tax revenue shortfalls due to soft housing markets and slower economic growth, other states continued to receive more tax revenue than originally projected in the growing economy, reducing their need to borrow. Issuance of new municipal bonds surged to a new record high toward the end of 2006, but the increased supply was readily absorbed by robust investor demand, including non-traditional investors such as hedge funds, leveraged institutional traders and even foreign investors.

In this environment, the fund \square s income stream continued to benefit from its core holdings of seasoned municipal bonds, most of which were purchased at higher yields than are available from comparable securities in today \square s investment environment. In addition, the fund \square s returns for the reporting period were bolstered when it was announced that a significant number of its holdings would be redeemed by their issuers on their first available \square call \square dates, with the funds for redemption

placed in escrow. These developments pushed prices of the affected bonds upward as the market [repriced] the securities in light of their newly certain redemption dates.

The fund srelatively heavy exposure to bonds in the 15- to 20-year maturity range also helped support returns as inflation concerns eased and longer-term bond prices rose. In addition, the fund received strong contributions to performance from its holdings of lower-rated tax-exempt securities, including municipal bonds issued on behalf of corporations and securities backed by the states settlement of litigation with U.S. tobacco companies.

What is the fund s current strategy?

We generally have maintained the income-oriented strategy that has guided the fund s management for some time. However, heightened volatility in U.S. equity markets, rising delinquencies in the sub-prime mortgage sector of the bond market and slowing U.S. economic growth have made us more acutely aware of credit risks. Although we expect the Fed to remain on the sidelines for the foreseeable future, we expect its next move, when it eventually comes, to be a reduction in short-term interest rates. In our view, the fund currently is well positioned should the Fed begin to ease monetary policy later this year.

April 16, 2007

- Total return includes reinvestment of dividends and any capital gains paid, based upon net asset value per share. Past performance is no guarantee of future results. Market price per share, net asset value per share and investment return fluctuate. Income may be subject to state and local taxes, and some income may be subject to the federal alternative minimum tax (AMT) for certain investors. Capital gains, if any, are fully taxable. Return figure provided reflects the absorption of certain fund expenses by The Dreyfus Corporation pursuant to an agreement in effect until May 31, 2007, at which time it may be extended, modified or terminated. Had these expenses not been absorbed, the fund sreturn would have been lower.
- Distribution rate per share is based upon dividends per share paid from net investment income during the period, divided by the market price per share at the end of the period.

FINANCIAL HIGHLIGHTS

The following table describes the performance for the fiscal periods indicated. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and dis-tributions. These figures have been derived from the fund s financial statements, and with respect to common stock, market price data for the fund s common shares.

The Fund 29

NOTES TO FINANCIAL STATEMENTS (Unaudited)

NOTE 1 Significant Accounting Policies:

Dreyfus Strategic Municipals, Inc. (the [fund]) is registered under the Investment Company Act of 1940, as amended (the [Act]), as a diversified closed-end management investment company. The fund [s] investment objective is to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. The Dreyfus Corporation (the [Manager] or [Dreyfus]) serves as the fund [s] investment adviser. The Manager is a wholly-owned subsidiary of Mellon Financial Corporation ([Mellon Financial])). The fund [s] common Stock trades on the New York Stock Exchange under the ticker symbol LEO.

On December 4, 2006, Mellon Financial and The Bank of New York Company, Inc. announced that they had entered into a definitive agreement to merge. The new company will be called The Bank of New York Mellon Corporation. As part of this transaction, Dreyfus would become a wholly-owned subsidiary of The Bank of New York Mellon Corporation. The transaction is subject to certain regulatory approvals and the approval of The Bank of New York Company, Inc. and Mellon Financial shareholders, as well as other customary conditions to closing. Subject to such approvals and the satisfaction of the other conditions, Mellon Financial and The Bank of New York Company, Inc. expect the transaction to be completed in the third quarter of 2007.

b Calculated based on market value.

^C Not annualized.

d Does not reflect the effect of dividends to Preferred Stockholders.

e Annualized.

f Ratio of total expenses to average net assets, ratio of net expenses to average net assets and portfolio turnover rate have been adjusted to reflect participation in inverse floater structures.

g Ratio of total expenses to average net assets and ratio of net expenses to average net assets for prior periods have been restated. This restatement has no impact on the fund g previously reported net assets, net investment income, net asset value or total return. See Note 5.

The fund has outstanding 2,280 shares of Series M, Series T, Series W, Series TH and Series F for a total of 11,400 shares of Auction Preferred Stock ([APS]), with a liquidation preference of \$25,000 per share (plus an amount equal to accumulated but unpaid dividends upon liquidation). APS dividend rates are determined pursuant to periodic auctions. Deutsche Bank Trust Company America, as Auction Agent, receives a fee from the fund for its services in connection with such auctions. The fund also compensates broker-dealers generally at an annual rate of .25% of the purchase price of the shares of APS placed by the broker-dealer in an auction.

30

The fund is subject to certain restrictions relating to the APS. Failure to comply with these restrictions could preclude the fund from declaring any distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of APS at liquidation value.

The holders of the APS, voting as a separate class, have the right to elect at least two directors. The holders of the APS will vote as a separate class on certain other matters, as required by law. The fund has designated Robin A. Melvin and John E. Zuccotti to represent holders of APS on the fund so Board of Directors.

The fund s financial statements are prepared in accordance with U.S. generally accepted accounting principles, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The fund enters into contracts that contain a variety of indemnifications. The fund s maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: Investments in municipal debt securities are valued on the last business day of each week and month by an independent pricing service (the [Service]). Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Other investments (which constitute a majority of the portfolio securities) are carried at fair value as determined by the Service, based on methods which include consideration of: yields or prices of municipal securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. Options and financial futures on municipal

The Fund 31

NOTES TO FINANCIAL STATEMENTS (Unaudited) (continued)

and U.S.Treasury securities are valued at the last sales price on the securities exchange on which such securities are primarily traded or at the last sales price on the national securities market on the last business day of each week and month.

On September 20, 2006, the Financial Accounting Standards Board (FASB) released Statement of Financial Accounting Standards No. 157 [Fair Value Measurements] ([FAS 157]). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Management does not believe that the application of this standard will have a material impact on the financial statements of the fund.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gain and loss from securities transactions are recorded on the identified cost basis. Interest income, adjusted for accretion of discount and amortization of premium on investments, is earned from settlement date and recognized on the accrual basis. Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date.

(c) Dividends to shareholders of Common Stock ([Common Shareholders(s)] Dividends are recorded on the ex-dividend date. Dividends from investment income-net are declared and paid monthly. Dividends from net realized capital gain, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the [Code]). To the extent that net realized capital gain can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gain. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles.

For Common Shareholders who elect to receive their distributions in additional shares of the fund, in lieu of cash, such distributions will be reinvested at the lower of the market price or net asset value per share

32

(but not less than 95% of the market price) based on the record date s respective prices. If the net asset value per share on the record date is lower than the market price per share, shares will be issued by the fund at the record date s net asset value on the payable date of the distribution. If the net asset value per share is less than 95% of the market value, shares will be issued by the fund at 95% of the market value. If the market price is lower than the net asset value per share on the record date, The Bank of New York will purchase fund shares in the open market commencing on the payable date and reinvest those shares accordingly. As a result of purchasing fund shares in the open market, fund shares outstanding will not be affected by this form of reinvestment.

On March 29, 2007, the Board of Directors declared a cash dividend of \$.042 per share from investment income-net, payable on April 30, 2007 to Common Shareholders of record as of the close of business on April 16, 2007.

- **(d) Dividends to shareholders of APS:** For APS, dividends are currently reset every 7 days. The dividend rates in effect at March 31, 2007 were as follows: Series M-3.50%, Series T-3.75%, Series W-3.75%, Series TH-3.75% and Series F-3.75%.
- **(e) Federal income taxes:** It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax exempt dividends, by complying with the applicable provisions of the Code and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

On July 13, 2006, the FASB released FASB Interpretation No. 48 [Accounting for Uncertainty in Income Taxes] (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the fund[s tax returns to determine whether the tax positions are [more-likely-than-not] of being sustained by the applicable tax authority. Tax positions not deemed to meet the more

The Fund 33

NOTES TO FINANCIAL STATEMENTS (Unaudited) (continued)

likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Management does not believe that the application of this standard will have a material impact on the financial statements of the fund.

The fund has an unused capital loss carryover of \$53,139,510 available for federal income tax purposes to be applied against future net securities profits, if any, realized subsequent to September 30, 2006. If not applied, \$5,230,162 of the carryover expires in fiscal 2009, \$76,128 expires in fiscal 2010, \$20,575,114 expires in fiscal 2011 and \$27,258,106 expires in fiscal 2012.

The tax character of distributions paid to shareholders during the fiscal year ended September 30, 2006 were as follows: tax exempt income \$40,437,009. The tax character of current year distributions will be determined at the end of the current fiscal year.

NOTE 2 Bank Line of Credit:

The fund participates with other Dreyfus-managed funds in a \$100 million unsecured line of credit primarily to be utilized for temporary or emergency purposes. Interest is charged to the fund based on prevailing market rates in effect at the time of borrowing. During the period ended March 31, 2007, the fund did not borrow under the Facility.

NOTE 3 Management Fee and Other Transactions With Affiliates:

(a) Pursuant to a management agreement ([Agreement[]) with the Manager, the management fee is computed at the annual rate of .75% of the value of the fund[]s average weekly net assets, inclusive of the outstanding auction preferred stock, and is payable monthly. The Agreement provides for an expense reimbursement from the Manager should the fund[]s aggregate expenses, exclusive of taxes, interest on borrowings, brokerage and extraordinary expenses, in any full fiscal year exceed the lesser of (1) the expense limitation of any state having

34

jurisdiction over the fund or (2) 2% of the first \$10 million, 1 1/2% of the next \$20 million and 1% of the excess over \$30 million of the average value of the fund s net assets. The fund has currently undertaken for the period from September 1, 2006 through May 31, 2007, to waive receipt of a portion of the fund s management fee, in the amount of .10 of the value of the fund s average weekly net assets (including net assets representing auction preferred stock outstanding). The reduction in management fee, pursuant to the undertaking, amounted to \$429,010 during the period ended March 31, 2007.

(b) The fund compensates Mellon Trust of New England, N.A., an affiliate of the Manager, under a custody agreement for providing custodial services to the fund. During the period ended March 31, 2007, the fund was charged \$62,477 pursuant to the custody agreement.

During the period ended March 31, 2007, the fund was charged \$2,044 for services performed by the Chief Compliance Officer.

The components of Due to The Dreyfus Corporation and affiliates in the Statement of Assets and Liabilities consist of: management fees \$548,279, custodian fees \$37,554 and chief compliance officer fees \$3,067, which are offset against an expense reimbursement currently in effect in the amount of \$73,104.

(c) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

NOTE 4 | Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities and financial futures, during the period ended March 31, 2007, amounted to \$123,142,975 and \$126,798,625, respectively.

The fund may invest in financial futures contracts in order to gain exposure to or protect against changes in the market. The fund is exposed to market risk as a result of changes in the value of the under-

The Fund 35

lying financial instruments. Investments in financial futures require a fund to ☐mark to market☐ on a daily basis, which reflects the change in the market value of the contract at the close of each day☐s trading. Typically, variation margin payments are received or made to reflect daily unrealized gains or losses. When the contracts are closed, a fund recognizes a realized gain or loss. These investments require initial margin deposits with a broker, which consist of cash or cash equivalents. The amount of these deposits is determined by the exchange or Board of Trade on which the contract is traded and is subject to change. At March 31, 2007, there were no financial futures contracts outstanding.

At March 31, 2007, accumulated net unrealized appreciation on investments was \$52,793,193, consisting of \$53,656,306 gross unrealized appreciation and \$863,113 gross unrealized depreciation.

At March 31, 2007, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments).

NOTE 5 Restatement:

Subsequent to the issuance of the September 30, 2006 financial statements, the fund determined that the transfers of certain tax-exempt municipal bond securities by the fund to special purpose bond trusts in connection with participation in inverse floater structures do not qualify for sale treatment under Statement of Financial Accounting Standard No. 140,Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities, and should have been accounted for as a secured borrowing.

The correction of the above item resulted in the restatement of the ratio of total and net expenses of the financial highlights table as shown below:

Ratio of Total Expenses	2006	2005	2004	2003	2002
Common Stock:					
As previously reported	1.37%	1.37%	1.38%	1.40%	1.38%
As restated	1.55%	1.47%	1.43%	1.48%	1.48%
36					
Ratio of Net Expenses	2006	2005	2004	2003	2002
Common Stock:

As restated	.93%	.89%	.94%	.97%	.98%

This restatement has no impact on the fund s previously reported net assets, net investment income, net asset value per share or total return.

In addition, the statement of changes in net assets were also restated as follows:

	2006 As Previously Reported	2006 As Restated
Statement of Changes in Net Assets:		
Net realized gain (loss) on investments	3,102,010	2,341,497
Net unrealized appreciation		
(depreciation) on investments	2,205,174	2,965,687

The Fund 37

INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND INVESTMENT ADVISORY AGREEMEN (Unaudited)

At a Meeting of the fund so Board of Directors held on November 6, 2006, the Board considered the re-approval for an annual period of the fund Management Agreement, pursuant to which the Manager provides the fund with investment advisory services, and the fund separate Administration Agreement, pursuant to which the Manager provides the fund with administrative services. The Board members, none of whom are sinterested persons (as defined in the Investment Company Act of 1940, as amended) of the fund, were assisted in their review by independent legal counsel and met with counsel in executive session separate from representatives of the Manager.

Analysis of Nature, Extent, and Quality of Services Provided to the Fund. The Board members received a presentation from representatives of the Manager regarding services provided to the fund and other funds in the Dreyfus fund complex, and discussed the nature, extent, and quality of the services provided to the fund pursuant to the fund Management Agreement. The Manager serpresentatives noted the fund sclosed-end structure, the relationships the Manager has with various intermediaries, the different needs of each intermediary, and the Manager corresponding need for broad, deep, and diverse resources to be able to provide ongoing shareholder services to fund shareholders. The Board noted the fund sasset size and considered that a closed-end fund is not subject to the inflows and outflows of assets as an open-end fund would be that would increase or decrease its asset size.

The Board members also considered the Manager sresearch and portfolio management capabilities and that the Manager also provides oversight of day-to-day fund operations, including fund accounting and administration and assistance in meeting legal and regulatory requirements. The Board members also considered the Manager sextensive administrative, accounting, and compliance infrastructure.

<u>Comparative Analysis of the Fund</u> Management Fee and Expense Ratio and Performance The Board members reviewed reports prepared by Lipper, Inc., an independent provider of investment company data, which included information comparing the fund smanagement

38

fee and expense ratio with a group of comparable [leveraged] funds (the $[Expense\ Group])$) and with a broader group of funds (the $[Expense\ Universe])$) that were selected by Lipper. Included in the fund[s] reports were comparisons of contractual and actual management fee rates and total operating expenses.

The Board members also reviewed the reports prepared by Lipper that presented the fund performance on an net asset value and market price basis and placed significant emphasis on comparisons of total return

performance for various periods ended September 30, 2006 and yield performance for one-year periods ended September 30th for the fund to the same group of funds as the fund Expense Group (the Performance Group) and to a group of funds that was broader than the fund Expense Universe (the Performance Universe) that also were selected by Lipper. The Manager previously had furnished the Board with a description of the methodology Lipper used to select the fund Expense Group and Expense Universe, and Performance Group and Performance Universe. The Manager also provided a comparison of the fund stotal returns to the fund Lipper category average returns for the past 10 calendar years.

The Board reviewed the results of the Expense Group and Expense Universe comparisons for various periods ended September 30, 2006. The Board reviewed the range of management fees and expense ratios of the funds in the Expense Group and Expense Universe, and noted that the fund\[\] s contractual management fee (based on net assets solely attributable to common stock after leverage) was higher than the Expense Group median and that the fund\[\] s actual management fee was higher than the Expense Group and Expense Universe medians. The Board also noted that the fund\[\] s total expense ratio (based on net assets solely attributable to common stock after leverage) was higher than the Expense Group and Expense Universe medians. The Board noted the undertaking in effect by the Manager over the past year to waive receipt of .10% of the fund\[\] s management fee and the Manager\[\] s commitment to continue such waiver through May 31, 2007.

The Fund 39

INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND∏S INVESTMENT ADVISORY AGREEMENT (Unaudited)(continued)

With respect to the fund sperformance on a net asset value basis, the Board noted that the fund achieved first or second quintile (the first quintile reflecting the highest performance ranking group) total return rankings in the Performance Group and Performance Universe for each reported time period up to 4 years. The Board noted that while the fund achieved total return results lower than the Performance Group and Performance Universe medians for the 5-year and 10-year periods, the fund was not leveraged prior to February 2000. On a yield performance basis, the Board noted that the fund 10 reported time periods. The Board noted that while the fund achieved total return results that were lower than the Performance Group and Performance Universe medians for the 5-year and 10-year periods, the fund was not leveraged prior to February 2000.

With respect to the fund sperformance on a market price basis, the Board noted that the fund achieved a range total return results that were variously at, higher, or lower than the Performance Group and Performance Universe medians for each reported time period up to 10 years. On a yield performance basis, the Board noted that the fund achieved 1-year yields that were higher than the Performance Group and Performance Universe medians for 7 and 8 of the 10 reported time periods, respectively.

Representatives of the Manager reviewed with the Board members the fees paid to the Manager or its affiliates by investment companies managed by the Manager or its affiliates that were reported in the same Lipper category as the fund (the \square Similar Funds \square). It was noted that each Similar Fund also was a closed-end fund. The Board members considered the relevance of the fee information provided for the Similar Funds to evaluate the appropriateness and reasonableness of the fund \square s management fee. The Manager \square s representatives noted that there were no similarly managed institutional separate accounts or wrap fee accounts managed by the Manager or its affiliates with similar investment objectives, policies, and strategies as the fund.

40

Analysis of Profitability and Economies of Scale. The Manager srepresentatives reviewed the dollar amount of expenses allocated and profit received by the Manager for the fund and the method used to determine such expenses and profit. The Board previously had been provided with information prepared by an independent consulting firm regarding the Manager sapproach to allocating costs to, and determining the profitability of, individual funds and the entire Dreyfus mutual fund complex. The Board also had been informed that the methodology had also been reviewed by an independent registered public accounting firm which, like the consultant, found the methodology to be reasonable. The consulting firm also analyzed where any economies of scale might emerge in connection with the management of a fund. The Board members evaluated the profitability

analysis in light of the relevant circumstances for the fund, including any decline in fund assets from the prior year, and the extent to which economies of scale would be realized if the fund grows and whether fee levels reflect these economies of scale for the benefit of fund shareholders. The Board members also considered potential benefits to the Manager from acting as investment adviser to the fund and noted that there were no soft dollar arrangements in effect with respect to trading the fund portfolio.

It was noted that the Board members should consider the Manager sprofitability with respect to the fund as part of their evaluation of whether the fees under the Investment Advisory and Administration Agreements bear a reasonable relationship to the mix of services provided by the Manager, including the nature, extent, and quality of such services and that a discussion of economies of scale is predicated on increasing assets and that, if a fund sassets had been decreasing, the possibility that the Manager may have realized any economies of scale would be less. It was noted that the profitability percentage for managing the fund was within ranges determined by appropriate court cases to be reasonable given the services rendered and the fund so overall performance and generally superior service levels provided. The Board also noted the Manager waiver of receipt of a portion of the management fee over the past year and its effect on the profitability of the Manager.

The Fund 41

INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND∏S INVESTMENT ADVISORY AGREEMENT (Unaudited)(continued)

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to continuation of the fund Management Agreement. Based on its discussions and considerations as described above, the fund Board made the following conclusions and determinations.

- The Board concluded that the nature, extent, and quality of the services provided by the Manager to the fund are adequate and appropriate.
- The Board was satisfied with the fund □s performance.
- The Board concluded that the fee paid to the Manager by the fund was reasonable in light of the services provided, comparative perfor- mance and expense and management fee information, including the Manager sundertaking to waive receipt of 0.10% of the fund vestment advisory fee through May 31, 2007, costs of the services provided and profits to be realized and benefits derived or to be derived by the Manager from its relationship with the fund.
- The Board determined that the economies of scale which may accrue to the Manager and its affiliates in connection with the man- agement of the fund had been adequately considered by the Manager in connection with the management fee rate charged to the fund, and that, to the extent in the future it were to be deter- mined that material economies of scale had not been shared with a fund, the Board would seek to have those economies of scale shared with the fund.

The Board members considered these conclusions and determinations, along with the information received on a routine and regular basis throughout the year, and, without any one factor being dispositive, the Board determined that re-approval of the fund Management Agreement was in the best interests of the fund and its shareholders.

Item 10. Submission of Matters to a Vote of Security Holders.

The Registrant has a Nominating Committee (the "Committee"), which is responsible for selecting and nominating persons for election or appointment by the Registrant's Board as Board members. The Committee has adopted a Nominating Committee Charter (the "Charter"). Pursuant to the Charter, the Committee will consider recommendations for nominees from shareholders submitted to the Secretary of the Registrant, c/o The Dreyfus Corporation Legal Department, 200 Park Avenue, 8th Floor East, New York, New York 10166. A nomination submission must include information regarding the recommended nominee as specified in the Charter. This information includes all information relating to a recommended nominee that is required to be disclosed in solicitations or proxy statements for the election of Board members, as well as information sufficient to evaluate the factors to be considered by the Committee, including character and integrity, business and professional experience, and whether the person has the ability to apply sound and independent business judgment and would act in the interests of the Registrant and its shareholders.

Nomination submissions are required to be accompanied by a written consent of the individual to stand for election if nominated by the Board and to serve if elected by the shareholders, and such additional information must be provided regarding the recommended nominee as reasonably requested by the Committee.

Item 11. Controls and Procedures.

(a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes to the Registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) Not applicable.

(a)(2) Certifications of principal executive and principal financial officers as required by Rule 30a-2(a) under the Investment Company Act of 1940.

(a)(3) Not applicable.

(b) Certification of principal executive and principal financial officers as required by Rule 30a-2(b)

under the Investment Company Act of 1940.
