Franklin Templeton Investments

Gain From Our Perspective®

At Franklin Templeton Investments, we're dedicated to one goal: delivering exceptional asset management for our clients. By bringing together multiple, world-class investment teams in a single firm, we're able to offer specialized expertise across styles and asset classes, all supported by the strength and resources of one of the world's largest asset managers. This has helped us to become a trusted partner to individual and institutional investors across the globe.

Focus on Investment Excellence

At the core of our firm, you'll find multiple independent investment teams—each with a focused area of expertise—from traditional to alternative strategies and multi-asset solutions. And because our portfolio groups operate autonomously, their strategies can be combined to deliver true style and asset class diversification.

All of our investment teams share a common commitment to excellence grounded in rigorous, fundamental research and robust, disciplined risk management. Decade after decade, our consistent, research-driven processes have helped Franklin Templeton earn an impressive record of strong, long-term results.

Global Perspective Shaped by Local Expertise

In today's complex and interconnected world, smart investing demands a global perspective. Franklin Templeton pioneered international investing over 60 years ago, and our expertise in emerging markets spans more than a quarter of a century. Today, our investment professionals are on the ground across the globe, spotting investment ideas and potential risks firsthand. These locally based teams bring in-depth understanding of local companies, economies and cultural nuances, and share their best thinking across our global research network.

Strength and Experience

Franklin Templeton is a global leader in asset management serving clients in over 150 countries.¹ We run our business with the same prudence we apply to asset management, staying focused on delivering relevant investment solutions, strong long-term results and reliable, personal service. This approach, focused on putting clients first, has helped us to become one of the most trusted names in financial services.

Annual Report

Franklin Universal Trust

Dear Shareholder:

This annual report for Franklin Universal Trust covers the fiscal year ended August 31, 2015.

Your Fund's Goals and Main Investments

The Fund's primary investment objective is to provide high, current income consistent with preservation of capital. Its secondary objective is growth of income through dividend increases and capital appreciation.

Performance Overview

For the 12 months under review, the Fund's cumulative total returns were -9.40% based on net asset value and -11.57% based on market price, as shown in the Performance Summary on page 5. For comparison, the Credit Suisse (CS) High Yield Index, which is designed to mirror the investable universe of the U.S. dollar-denominated high yield debt market, had a -3.58% total return,¹ and utilities stocks, as measured by the Standard & Poor® (S&P®) 500 Utilities Index, which tracks all electric utility stocks in the broad S&P 500® Index, posted a total return of +1.62% for the same period.²

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown.

Economic and Market Overview

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

U.S. economic growth was mixed during the 12 months under review. In 2014's fourth quarter, growth expanded due to increased consumer spending, business investment, exports, and state and local government spending. Growth slowed in 2015's first quarter as the U.S. dollar strengthened, energy prices fell, and a West Coast ports labor dispute led to decreased exports. However, growth rebounded in the second quarter due to increases in consumer spending, net exports, state and local government spending, and investments for businesses, homes and inventory. Manufacturing and service activities continued to expand during the 12-month period, contributing to new jobs, and the unemployment rate declined from 6.1% in August

FRANKLIN UNIVERSAL TRUST

2014 to 5.1% at period-end.³ Housing market data were generally encouraging as home sales and prices rose amid declining mortgage rates. Retail sales generally rose for the 12-month period as strong employment gains led to broad-based improvement, especially for auto and auto components sales. Inflation, as measured by the Consumer Price Index, remained subdued due to lower energy prices.

The Federal Reserve (Fed) ended its bond buying program in October 2014 and kept its target interest rate at 0% 0.25% while considering when to begin increasing it toward normal levels. During its July meeting, the Fed stated that although labor market and economic conditions had improved, committee members would like more confidence that inflation was moving toward their goal before raising the federal funds target rate. Furthermore, it regarded international developments, particularly moderating growth in China and other emerging markets and China's unexpected currency devaluation, as well as a strengthening U.S. dollar, as potential risks to U.S. economic growth.

The 10-year Treasury yield, which moves inversely to price, shifted throughout the period. It began at 2.35%, rose to 2.63% in September 2014, declined to a period low of 1.68% in January 2015 and ended the period at 2.21%. The moves seemed to reflect investor uncertainty given concerns about soft domestic data, Greece's debt issues and the Fed's cautious tone on raising interest rates. Less robust growth in China as well as devaluation of the renminbi and subsequent rate cuts toward period-end also affected Treasury prices.

Investment Strategy

We invest primarily in two asset classes: high yield bonds and utility stocks. Within the high yield portion of the portfolio, we use fundamental research to invest in a diversified portfolio of bonds. Within the utility portion of the portfolio, we focus on companies with attractive dividend yields and with a history of increasing their dividends.

Manager's Discussion

During the Fund's fiscal year ended August 31, 2015, the Fund's primary asset classes, high yield corporate bonds and utility stocks, each faced unique headwinds that led to divergent returns. Weaker economic data drove the 10-year Treasury

Portfolio Breakdown

yield lower during the first half of the reporting period, but signs of economic strength and indications that the Fed was considering increasing interest rates in the fall led yields to reverse course and rise from their January lows. Over the summer, a flare-up of the Greek sovereign debt crisis combined with concerns about the state of the Chinese economy impacted the upward trend in rates, and 10-year yields ended the period slightly lower. Despite the heightened volatility caused by concerns over Greece and China, the Fed indicated that, based on recent economic data, it still anticipated raising interest rates sometime in 2015. Investors' expectations of the first hike in the federal funds target rate since 2006

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

caused anxiety and uncertainty in financial markets long accustomed to the current Fed policy.

We believe, however, that the Fed appeared to foresee sustainable if moderate economic growth that could support high yield corporate bond performance. Although overall corporate credit fundamentals were favorable during the period, commodity-related sectors such as energy and metals and mining faced severe headwinds. In this environment of a broadly supportive domestic economy hindered by significant pockets of commodity weakness, the average yield spread on high yield bonds, as measured by the CS High Yield Index, increased from 4.3 to 6.2 percentage points above comparable Treasuries. According to the CS High Yield Index, the average price of high yield bonds declined from 103.7 to 93.1 as the yield increased from 5.5%

FRANKLIN UNIVERSAL TRUST

to 7.6%, which led to an overall return of -3.58%.¹ Utility stocks benefited from declining interest rates in the first half of the Fund's fiscal year before reversing course and trading down as rates began to rise in late January. Overall utility stocks, as measured by the S&P 500 Utilities Index, returned +1.62% as favorable industry fundamentals were largely offset by rising rate fears.²

High Yield Corporate Bonds

The Fund benefited from its overweighted positions in the health care and containers and packaging sectors relative to the CS High Yield Index.⁴ Health care outperformed the benchmark as lower unemployment levels and the continued expansion of health insurance coverage under the Affordable Care Act reduced the percent of uninsured people and resulted in decreased bad debt expenses and increased utilization of health care services. Pricing power, more effective research and development and a more accommodative U.S. Food and Drug Administration helped the pharmaceutical sector produce strong results. Containers and packaging outperformed the index because its main end markets were the defensive food and beverage industries. In addition, a global consolidation trend continued during the period, which led to further market rationalization and significant pricing power for the remaining companies.

The Fund's high yield bond performance was impeded by overweighted positions in the energy and metals and mining sectors relative to the CS High Yield Index.⁵ Energy, the largest industry in the index, suffered as crude oil prices fell during the reporting period before staging a small rally at period-end. Natural gas prices also fell, which put additional pressure on energy producers. Metals and mining companies were also challenged as a broad range of commodities including coal, iron ore and copper experienced price declines largely because of investor concerns about China's economic weakness.

Utility Stocks

The utilities sector, as measured by the S&P 500 Utilities Index, rose 1.62%, outperforming the +0.48% total return of the S&P 500 Index for the 12-month period.² Utilities share

prices rose strongly during the fourth quarter of calendar year 2014 through January 2015 but gave up most of those gains during the remainder of the Fund's fiscal year as investors placed greater emphasis on potentially higher interest rates and their negative effect on utility share prices. In addition, weaker oil and natural gas prices hurt the performance of integrated utilities including CenterPoint Energy, Exelon and Entergy, whose profits were dependent on energy market prices. In contrast, regulated utilities did not suffer as commodities declined

4. Health care holdings are in health care equipment and services; and pharmaceuticals, biotechnology and life sciences in the SOI. Containers and packaging holdings are in materials in the SOI.

5. Metals and mining holdings are in materials in the SOI.

FRANKLIN UNIVERSAL TRUST

Performance Summary as of August 31, 2015

Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Total returns do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases. The performance table does not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown.

All investments involve risks, including possible loss of principal. Bond prices generally move in the opposite direction of interest rates.

As prices of bonds

in the Fund adjust to a rise in interest rates, the Fund's share price may decline. Investments in lower rated bonds include higher risk of default and loss of

principal. Stock prices fluctuate, sometimes rapidly and dramatically, due to factors affecting individual companies, particular industries or sectors, or general

market conditions. In addition to having sensitivity to other factors, securities issued by utility companies have historically been sensitive to interest rate

changes. When interest rates fall, utility securities prices, and thus a utilities fund's share price, tend to rise; when interest rates rise, their prices generally

fall. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

1. The distribution amount is the sum of the dividend payments to shareholders for the period shown and includes only estimated tax-basis net investment income.
2. The Fund has a fee waiver associated with any investment in a Franklin Templeton money fund, contractually guaranteed through at least its current fiscal year-end.
Fund investment results reflect the fee waiver, to the extent applicable; without this reduction, the results would have been lower.
3. Total return calculations represent the cumulative and average annual changes in value of an investment over the periods indicated.
4. In accordance with SEC rules, we provide standardized average annual total return information through the latest calendar quarter.
5. Assumes reinvestment of distributions based on net asset value.
6. Assumes reinvestment of distributions based on the dividend reinvestment and cash purchase plan.

FRANKLIN UNIVERSAL TRUST

Notes to Financial Statements

1. Organization and Significant Accounting Policies

Franklin Universal Trust (Fund) is registered under the Investment Company Act of 1940 (1940 Act) as a closed-end management investment company and applies the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP).

The following summarizes the Fund's significant accounting policies.

a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Fund calculates the net asset value (NAV) per share at the close of the New York Stock Exchange (NYSE), generally at 4 p.m. Eastern time (NYSE close) on each day the NYSE is open for trading. Senior fixed rate notes are carried at cost. Under compliance policies and procedures approved by the Fund's Board of Trustees (the Board), the Fund's administrator has responsibility for oversight of valuation, including leading the cross-functional Valuation and Liquidity Oversight Committee (VLOC). The VLOC provides administration and oversight of the Fund's valuation policies and procedures, which are approved annually by the Board. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded or as of the NYSE close, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the NYSE close on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities. Investments in open-end mutual funds are valued at the closing NAV.

Debt securities generally trade in the OTC market rather than on a securities exchange. The Fund's pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at the NYSE close on the date that the values of the foreign debt securities are determined.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the VLOC convenes on a regular basis to review such financial instruments and considers a number of factors, including significant unobservable valuation inputs, when arriving at fair value. The VLOC primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed. The VLOC employs various methods for calibrating these valuation approaches including a regular review of key inputs and assumptions, transactional back-testing or disposition analysis, and reviews of any related market activity.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before the daily NYSE close. In addition, trading in certain foreign markets may not take place on every NYSE business day. Occasionally, events occur between the time at which trading in a foreign security

franklintempleton.com

FRANKLIN UNIVERSAL TRUST

NOTES TO FINANCIAL STATEMENTS

1. Organization and Significant Accounting

Policies (continued)

a. Financial Instrument Valuation (continued)

is completed and the close of the NYSE that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at the close of the NYSE. In order to minimize the potential for these differences, the VLOC monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the NYSE is closed, which could result in differences between the value of the Fund's portfolio securities on the last business day and the last calendar day of the reporting period. Any significant security valuation changes due to an open foreign market are adjusted and reflected by the Fund for financial reporting purposes.

b. Senior Floating Rate Interests

The Fund invests in senior secured corporate loans that pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank or the London InterBank Offered Rate (LIBOR). Senior secured corporate loans often require prepayment of principal from excess cash flows or at the discretion of the borrower. As a result, actual maturity may be substantially less than the stated maturity. Senior secured corporate loans in which the Fund invests are generally readily marketable, but may be subject to certain restrictions on resale.

c. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply, the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is "more likely than not" to be sustained upon examination by the tax authorities based on the technical merits of the tax position. As of August 31, 2015, and for all open tax years, the Fund has determined that no liability for unrecognized tax benefits is required in the Fund's financial statements related to uncertain tax positions taken on a tax return (or expected to be taken on future tax returns). Open tax years are those that remain subject to examination and are based on each tax jurisdiction's statute of limitation.

d. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Facility fees are recognized as income over the expected term of the loan. Dividend income is recorded on the ex-dividend date except for certain dividends from foreign securities where the dividend rate is not available. In such cases, the

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

dividend is recorded as soon as the information is received by the Fund. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

22 | Annual Report

franklintempleton.com

FRANKLIN UNIVERSAL TRUST

NOTES TO FINANCIAL STATEMENTS

e. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

f. Guarantees and Indemnifications

Under the Fund's organizational documents, its officers and trustees are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. Currently, the Fund expects the risk of loss to be remote.

2. Shares of Beneficial Interest

At August 31, 2015, there were an unlimited number of shares authorized (\$0.01 par value). During the years ended August 31, 2015 and August 31, 2014, there were no shares issued; all reinvested distributions were satisfied with previously issued shares purchased in the open market.

Under the Board approved open-market share repurchase program, the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. During the years ended August 31, 2015 and August 31, 2014, there were no shares repurchased.

3. Senior Fixed Rate Notes

On August 28, 2013, the Fund issued \$60 million principal amount of a new class of five-year senior fixed rate notes (Notes). The Notes bear interest, payable semi-annually, at a rate of 2.87% per year, to maturity on August 28, 2018. The Notes are general unsecured obligations of the Fund and rank senior to trust shares and all existing or future unsecured indebtedness of the Fund. For the year ended August 31, 2015, total interest paid by the Fund on the Notes was \$1,722,000. The Fund is required to maintain on a monthly basis a specified discounted asset value for its portfolio in compliance with guidelines established in the Notes Agreement, and is required under the 1940 Act to maintain asset coverage for the Notes of at least 300%. The Fund has met these requirements during the year ended August 31, 2015. The issuance costs of \$126,916 incurred by the Fund are deferred and amortized on an interest method basis over the term of the Notes. For the year ended August 31, 2015, the Fund amortized \$24,644 of Notes issuance costs. Subject to certain restrictions and make whole premiums, the Fund may prepay the Notes at any time. At August 31, 2015, if the Notes were fully prepaid, the make whole premium related to the current balance of the Notes would have been approximately \$2,293,000.

The Fund employs an income-based approach to determine the fair value of the Notes, which uses the Notes' current credit rating, remaining time to maturity, stated coupon rates, the current yield of a comparable asset, and a liquidity premium. At August 31, 2015, the estimated fair value of the Notes was approximately \$61,594,000. The inputs used in determining the fair value of the Notes represent Level 3 in the fair value hierarchy. See Note 9 regarding fair value measurements for additional information about fair value hierarchy and Level 3 inputs.

4. Transactions with Affiliates

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

| Subsidiary | Affiliation |
|--|------------------------|
| Franklin Advisers, Inc. (Advisers) | Investment manager |
| Franklin Templeton Services, LLC (FT Services) | Administrative manager |

a. Management Fees

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

The Fund pays an investment management fee to Advisers of 0.75% per year of the average weekly managed assets. Managed assets are defined as the Fund's gross asset value minus the sum of accrued liabilities, other than the principal amount of the Notes.

Annual Report

| 23

FRANKLIN UNIVERSAL TRUST
NOTES TO FINANCIAL STATEMENTS

4. Transactions with Affiliates (continued)

b. Administrative Fees

Under an agreement with Advisers, FT Services provides administrative services to the Fund. The fee is paid by Advisers based on the Fund's average daily net assets, and is not an additional expense of the Fund.

c. Investments in Institutional Fiduciary Trust Money Market Portfolio

The Fund invests in Institutional Fiduciary Trust Money Market Portfolio (Sweep Money Fund), an affiliated open-end management investment company. Management fees paid by the Fund are waived on assets invested in the Sweep Money Fund, as noted in the Statement of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by the Sweep Money Fund. Prior to September 1, 2013, the waiver was accounted for as a reduction to management fees.

5. Expense Offset Arrangement

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the year ended August 31, 2015, the custodian fees were reduced as noted in the Statement of Operations.

6. Income Taxes

For tax purposes, capital losses may be carried over to offset future capital gains. Capital loss carryforwards with no expiration, if any, must be fully utilized before those losses with expiration dates.

At August 31, 2015, capital loss carryforwards were as follows:

| | | |
|---|----|-----------|
| Capital loss carryforwards subject to expiration: | | |
| 2017 | \$ | 161,295 |
| 2018 | | 9,083,012 |
| Total capital loss carryforwards | \$ | 9,244,307 |

During the year ended August 31, 2015, the Fund utilized \$1,029,970 of capital loss carryforwards.

The tax character of distributions paid during the years ended August 31, 2015 and 2014, was as follows:

| | | | | |
|---|----|-------------|----|-------------|
| | | 2015 | | 2014 |
| Distributions paid from ordinary income | \$ | 11,912,519 | \$ | 11,874,820 |

At August 31, 2015, the cost of investments, net unrealized appreciation (depreciation), and undistributed ordinary income for income tax purposes were as follows:

| | | |
|---------------------|----|-------------|
| Cost of investments | \$ | 221,283,929 |
|---------------------|----|-------------|

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

| | | |
|--|----|---------------|
| Unrealized appreciation | \$ | 36,782,520 |
| Unrealized depreciation | | (22,148,434) |
| Net unrealized appreciation (depreciation) | \$ | 14,634,086 |
| Distributable earnings undistributed ordinary income | \$ | 1,465,125 |

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatments of defaulted securities and bond discounts and premiums.

24 | Annual Report

franklintempleton.com

FRANKLIN UNIVERSAL TRUST
NOTES TO FINANCIAL STATEMENTS

7. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the year ended August 31, 2015, aggregated \$52,217,532 and \$51,580,102, respectively.

8. Credit Risk and Defaulted Securities

At August 31, 2015, the Fund had 64.57% of its portfolio invested in high yield securities, senior secured floating rate notes, or other securities rated below investment grade. These securities may be more sensitive to economic conditions causing greater price volatility and are potentially subject to a greater risk of loss due to default than higher rated securities.

The Fund held defaulted securities and/or other securities for which the income has been deemed uncollectible. At August 31, 2015, the aggregate value of these securities was \$1,455,080, representing 0.62% of the Fund's portfolio. The Fund discontinues accruing income on securities for which income has been deemed uncollectible and provides an estimate for losses on interest receivable. The securities have been identified in the accompanying Statement of Investments.

9. Fair Value Measurements

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

- Level 1 – quoted prices in active markets for identical financial instruments
- Level 2 – other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfers as of the date of the underlying event which caused the movement.

A summary of inputs used as of August 31, 2015, in valuing the Fund's assets carried at fair value, is as follows:

| | | Level 1 | | Level 2 | | Level 3 | | Total |
|---------------------------------------|----|------------|----|-------------|----|----------------|----|-------------|
| Assets: | | | | | | | | |
| Investments in Securities: | | | | | | | | |
| Equity Investments: ^a | | | | | | | | |
| Transportation | \$ | — | \$ | 374,497 | \$ | — | \$ | 374,497 |
| Other Equity Investments ^b | | 78,835,140 | | — | | — | | 78,835,140 |
| Corporate Bonds | | — | | 153,591,339 | | 413,680 | | 154,005,019 |
| Senior Floating Rate Interests | | — | | 744,654 | | — | | 744,654 |
| Escrows and Litigation Trusts | | — | | — | | — ^c | | — |
| Short Term Investments | | 1,958,705 | | — | | — | | 1,958,705 |
| Total Investments in Securities | \$ | 80,793,845 | \$ | 154,710,490 | \$ | 413,680 | \$ | 235,918,015 |

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

^aIncludes common and convertible preferred stocks.

^bFor detailed categories, see the accompanying Statement of Investments.

^cIncludes security determined to have no value at August 31, 2015.

A reconciliation of assets in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 financial instruments at the end of the year.

FRANKLIN UNIVERSAL TRUST
NOTES TO FINANCIAL STATEMENTS

10. New Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-03, Interest Imputation of Interest (Subtopic 835-30), Simplifying the Presentation of Debt Issuance Costs. The ASU changes the presentation of debt issuance costs in the Statement of Assets and Liabilities from presenting it as a deferred charge asset to a direct deduction from the carrying amount of the debt liability. The ASU is effective for annual reporting periods beginning after December 15, 2015 and interim periods within those fiscal years. Management has reviewed the requirements and believes the adoption of this ASU will not have a material impact on the financial statements.

11. Subsequent Events

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

FRANKLIN UNIVERSAL TRUST

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of Franklin Universal Trust

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations and of changes in net assets and of cash flows and the financial highlights present fairly, in all material respects, the financial position of Franklin Universal Trust (the Fund) at August 31, 2015, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at August 31, 2015 by correspondence with the custodian, transfer agent and brokers, provide a reasonable basis for our opinion.

Tax Information (unaudited)

Under Section 854(b)(1)(A) of the Internal Revenue Code (Code), the Fund hereby reports 26.23% of the ordinary income dividends as income qualifying for the dividends received deduction for the fiscal year ended August 31, 2015.

Under Section 854(b)(1)(B) of the Code, the Fund hereby reports the maximum amount allowable but no less than \$3,268,189 as qualified dividends for purposes of the maximum rate under Section 1(h)(11) of the Code for the fiscal year ended August 31, 2015. Distributions, including qualified dividend income, paid during calendar year 2015 will be reported to shareholders on Form 1099-DIV by mid-February 2016. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual income tax returns.

Under Section 871(k)(1)(C) of the Code, the Fund hereby reports the maximum amount allowable but no less than \$6,879,136 as interest related dividends for purposes of the tax imposed under Section 871(a)(1)(A) of the Code for the fiscal year ended August 31, 2015.

FRANKLIN UNIVERSAL TRUST

Dividend Reinvestment and Cash Purchase Plan

The Fund's Dividend Reinvestment and Cash Purchase Plan (Plan) offers you a prompt and simple way to reinvest dividends and capital gain distributions in shares of the Fund. The Plan also allows you to purchase additional shares of the Fund by making voluntary cash payments. American Stock Transfer & Trust Company, LLC (Plan Agent), P.O. Box 922, Wall Street Station, New York, NY 10269-0560, acts as your Plan Agent in administering the Plan.

You are automatically enrolled in the Plan unless you elect to receive dividends or distributions in cash. If you own shares in your own name, you should notify the Plan Agent, in writing, if you wish to receive dividends or distributions in cash.

If the Fund declares a dividend or capital gain distribution payable either in cash or in stock of the Fund and the market price of shares on the valuation date equals or exceeds the net asset value, the Fund will issue new shares to you at the higher of net asset value or 95% of the then current market price. Whenever the Fund declares a distribution from capital gains or an income dividend payable in either cash or shares, if the net asset value per share of the Fund's common stock exceeds the market price per share on the valuation date, the Plan Agent shall apply the amount of such dividend or distribution payable to participants to the purchase of shares (less their pro rata share of brokerage commissions incurred with respect to open market purchases in connection with the reinvestment of such dividend or distribution). If the price exceeds the net asset value before the Plan Agent has completed its purchases, the average purchase price may exceed the net asset value, resulting in fewer shares being acquired than if the Fund had issued new shares. All reinvestments are in full and fractional shares, carried to three decimal places. The Fund will not issue shares under the Plan at a price below net asset value.

The Plan permits you on a voluntary basis to submit in cash payments of not less than \$100 each up to a total of \$5,000 per month to purchase additional shares of the Fund. It is entirely up to you whether you wish to buy additional shares with voluntary cash payments, and you do not have to send in the same amount each time if you do. These payments should be made by check or money order payable to American Stock Transfer & Trust Company, LLC and sent to American Stock Transfer & Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560, Attn: Franklin Universal Trust.

Your cash payment will be aggregated with the payments of other participants and invested on your behalf by the Plan Agent in shares of the Fund that are purchased in the open market.

The Plan Agent will invest cash payments on approximately the 5th of each month in which no dividend or distribution is payable and, during each month in which a dividend or distribution is payable, will invest cash payments beginning on the dividend payment date. *Under no circumstances will interest be paid on your funds held by the Plan Agent.* Accordingly, you should send any voluntary cash payments you wish to make shortly before an investment date but in sufficient time to ensure that your payment will reach the Plan Agent not less than two business days before an investment date. Payments received less than two business days before an investment date will be invested during the next month or, if there are more than 30 days until the next investment date, will be returned to you. You may obtain a refund of any cash payment by written notice, if the Plan Agent receives the written notice not less than 48 hours before an investment date.

There is no direct charge to participants for reinvesting dividends and capital gain distributions, since the Plan Agent's fees are paid by the Fund. However, when shares are purchased in the open market, each participant will pay a pro rata portion of any brokerage commissions incurred. The Plan Agent will deduct a \$5.00 service fee from each of your voluntary cash payments.

The automatic reinvestment of dividends and capital gain distributions does not relieve you of any taxes which may be payable on dividends or distributions. In connection with the reinvestment of dividends and capital gain distributions, if the Fund issues new shares, shareholders receiving such shares generally will be treated as having a distribution equal to the market value of the shares received, and if shares are purchased on the open market, shareholders generally will be treated as having received a distribution equal to the cash distribution that would have been paid.

30 | Annual Report

franklintempleton.com

FRANKLIN UNIVERSAL TRUST

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund does not issue new shares in connection with voluntary cash payments. All investments are in full and fractional shares, carried to three decimal places. If the market price exceeds the net asset value at the time the Plan Agent purchases the additional shares, you will receive shares at a price greater than the net asset value.

You will receive a monthly account statement from the Plan Agent showing total dividends and capital gain distributions, date of investment, shares acquired and price per share, and total shares of record held by you and by the Plan Agent for you. You are entitled to vote all shares of record, including shares purchased for you by the Plan Agent, and, if you vote by proxy, your proxy will include all such shares.

As long as you participate in the Plan, the Plan Agent will hold the shares it has acquired for you in safekeeping, in its name or in the name of its nominee. This convenience provides added protection against loss, theft or inadvertent destruction of certificates. However, you may request that a certificate representing your Plan shares be issued to you.

You may withdraw from the Plan without penalty at any time by notifying the Plan Agent, in writing, at the address above. If you withdraw, you will receive, without charge, stock certificates issued in your name for all full shares. The Plan Agent will convert any fractional shares you hold at the time of your withdrawal to cash at current market price and send you a check for the proceeds.

If you hold shares in your own name, please address all notices, correspondence, questions, or other communications regarding the Plan to the Plan Agent at the address noted above. If your shares are not held in your name, you should contact your brokerage firm, bank, or other nominee for more information and to determine if your nominee will participate in the Plan on your behalf.

The Fund or the Plan Agent may amend or terminate the Plan. You will receive written notice at least 90 days before the effective date of termination or of any amendment. In the case of termination, you will receive written notice at least 90 days before the record date of any dividend or capital gain distribution by the Fund.

*We base the number of portfolios on each separate series of the U.S. registered investment companies within the Franklin Templeton Investments fund complex.

These portfolios have a common investment manager or affiliated investment managers.

**Gregory E. Johnson is considered to be an interested person of the Fund under the federal securities laws due to his position as an officer and director of Franklin Resources, Inc. (Resources), which is the parent company of the Fund's investment manager. Rupert H. Johnson, Jr. is considered to be an interested person of the Fund

under the federal securities laws due to his position as officer and director and major shareholder of Resources.

Note 1: Rupert H. Johnson, Jr. is the uncle of Gregory E. Johnson.

Note 2: Officer information is current as of the date of this report. It is possible that after this date, information about officers may change.

Note 3: Effective April 30, 2015, Sam Ginn ceased to be a trustee of the Fund.

The Sarbanes-Oxley Act of 2002 and Rules adopted by the Securities and Exchange Commission require the Fund to disclose whether the Fund's Audit

Committee includes at least one member who is an audit committee financial expert within the meaning of such Act and Rules. The Fund's Board has determined that there is at least one such financial expert on the Audit Committee and has designated John B. Wilson as its audit committee financial expert. The Board believes that Mr. Wilson qualifies as such an expert in view of his extensive business background and experience, including service as chief financial officer of Staples, Inc. from 1992 to 1996. Mr. Wilson has been a Member and Chairman of the Fund's Audit Committee since 2006. As a result of such background and experience, the Board believes that Mr. Wilson has acquired an understanding of generally accepted accounting principles

and financial statements, the general application of such principles in connection with the accounting estimates, accruals and reserves, and analyzing and evaluating financial statements that present a breadth and level of complexity of accounting issues generally comparable to those of the Fund, as well as an understanding of internal controls and procedures for financial reporting and an understanding of audit committee functions. Mr. Wilson is an independent Board member as that term is defined under the relevant Securities and Exchange Commission Rules and Releases or the listing standards applicable to the Fund.

Shareholder Information

Proxy Voting Policies and Procedures

The Fund's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Fund uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Fund's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Fund's proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

Quarterly Statement of Investments

The Fund files a complete statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year on Form N-Q. Shareholders may view the filed Form N-Q by visiting the Commission's website at sec.gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.

Item 2. Code of Ethics.

(a) The Registrant has adopted a code of ethics that applies to its principal executive officers and principal financial and accounting officer.

(c) N/A

(d) N/A

(f) Pursuant to Item 12(a)(1), the Registrant is attaching as an exhibit a copy of its code of ethics that applies to its principal executive officers and principal financial and accounting officer.

Item 3. Audit Committee Financial Expert.

(a)(1) The Registrant has an audit committee financial expert serving on its audit committee.

(2) The audit committee financial expert is John B. Wilson and he is "independent" as defined under the relevant Securities and Exchange Commission Rules and Releases.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

The aggregate fees paid to the principal accountant for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or for services that are normally provided by the principal accountant in connection with statutory and regulatory filings or engagements were \$43,993 for the fiscal year ended August 31, 2015 and \$41,928 for the fiscal year ended August 31, 2014.

(b) Audit-Related Fees

There were no fees paid to the principal accountant for assurance and related services rendered by the principal accountant to the registrant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of Item 4.

There were no fees paid to the principal accountant for assurance and related services rendered by the principal accountant to the registrant's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the registrant that are reasonably related to the performance of the audit of their financial statements.

(c) Tax Fees

There were no fees paid to the principal accountant for professional services rendered by the principal accountant to the registrant for tax compliance, tax advice and tax planning.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

The aggregate fees paid to the principal accountant for professional services rendered by the principal accountant to the registrant's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the registrant for tax compliance, tax advice and tax planning were \$0 for the fiscal year ended August 31, 2015 and \$3,830 for the fiscal year ended August 31, 2014. The services for which these fees were paid included technical tax consultation for withholding tax reporting for foreign governments and requirements on local country's self-certification forms.

(d) All Other Fees

The aggregate fees paid to the principal accountant for products and services rendered by the principal accountant to the registrant, other than the services reported in paragraphs (a)-(c) of Item 4 were \$0 for the fiscal year ended August 31, 2015 and \$61 for the fiscal year ended August 31, 2014. The services for which these fees were paid included review of materials provided to the fund Board in connection with the investment management contract renewal process.

The aggregate fees paid to the principal accountant for products and services rendered by the principal accountant to the registrant's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the registrant, other than the services reported in paragraphs (a)-(c) of Item 4 were \$378,983 for the fiscal year ended August 31, 2015 and \$159,675 for the fiscal year ended August 31, 2014. The services for which these fees were paid included review of materials provided to the fund Board in connection with the investment management contract renewal process and derivatives assessments. Also, includes review of system processes related to fixed income securities.

(e) (1) The registrant's audit committee is directly responsible for approving the services to be provided by the auditors, including:

(i) pre-approval of all audit and audit related services;

(ii) pre-approval of all non-audit related services to be provided to the Fund by the auditors;

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

(iii) pre-approval of all non-audit related services to be provided to the registrant by the auditors to the registrant's investment adviser or to any entity that controls, is controlled by or is under common control with the registrant's investment adviser and that provides ongoing services to the registrant where the non-audit services relate directly to the operations or financial reporting of the registrant; and

(iv) establishment by the audit committee, if deemed necessary or appropriate, as an alternative to committee pre-approval of services to be provided by the auditors, as required by paragraphs (ii) and (iii) above, of policies and procedures to permit such services to be pre-approved by other means, such as through establishment of guidelines or by action of a designated member or members of the committee; provided the policies and procedures are detailed as to the particular service and the committee is informed of each service and such policies and procedures do not include delegation of audit committee responsibilities, as contemplated under the Securities Exchange Act of 1934, to management; subject, in the case of (ii) through (iv), to any waivers, exceptions or exemptions that may be available under applicable law or rules.

(e) (2) None of the services provided to the registrant described in paragraphs (b)-(d) of Item 4 were approved by the audit committee pursuant to paragraph (c) (7) (i) (C) of Rule 2-01 of regulation S-X.

(f) No disclosures are required by this Item 4(f).

(g) The aggregate non-audit fees paid to the principal accountant for services rendered by the principal accountant to the registrant and the registrant's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the registrant were \$378,983 for the fiscal year ended August 31, 2015 and \$163,566 for the fiscal year ended August 31, 2014.

(h) The registrant's audit committee of the board has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c) (7) (ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants.

Members of the Audit Committee are: Mary C. Choksi, J. Michael Luttig, Larry D. Thompson and John B. Wilson.

Item 6. Schedule of Investments.

N/A

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The board of trustees of the Fund has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's investment manager Franklin Advisers, Inc. in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the investment manager.

The investment manager has delegated its administrative duties with respect to the voting of proxies for equity securities to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the investment manager's instructions and/or policies. The investment manager votes proxies solely in the best interests of the Fund and its shareholders.

To assist it in analyzing proxies, the investment manager subscribes to Institutional Shareholder Services, Inc. (ISS), an unaffiliated third-party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, vote execution services, ballot reconciliation services, recordkeeping and vote disclosure services. In addition, the investment manager subscribes to Glass, Lewis & Co., LLC (Glass Lewis), an unaffiliated third-party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies, as well as a limited subscription to its international research. Also, the investment manager has a supplemental subscription to Egan Jones Proxy Services (Egan Jones), an unaffiliated third party proxy advisory firm, to receive analyses and vote recommendations. Although analyses provided by ISS, Glass Lewis, Egan Jones, or another independent third party proxy service provider (each a "Proxy Service") are thoroughly reviewed and considered in making a final voting decision, the investment manager does not consider recommendations from a Proxy Service or any third party to be determinative of the investment manager's ultimate decision. Rather, the investment manager exercises its independent judgment in making voting decisions. As a matter of policy, the officers, directors/trustees and employees of the investment manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. Efforts are made to resolve all conflicts in the best interests of the investment manager's clients. Material conflicts of interest are identified by the Proxy Group based upon analyses of client, distributor, broker-dealer and vendor lists, information periodically gathered from directors and officers, and information derived from other sources, including public filings. In situations where a material conflict of interest is identified, the Proxy Group may vote consistent with the voting recommendation of a Proxy Service; or send the proxy directly to the Fund's board or a committee of the board with the investment manager's recommendation regarding the vote for approval.

Where a material conflict of interest has been identified, but the items on which the investment manager's vote recommendations differ from a Proxy Service and relate specifically to (1) shareholder proposals regarding social or environmental issues, (2) "Other Business" without describing the matters that might be considered, or (3) items the investment manager wishes to vote in opposition to the recommendations of an issuer's management, the Proxy Group may defer to the vote recommendations of the investment manager rather than sending the proxy directly to the Fund's board or a board committee for approval.

To avoid certain potential conflicts of interest, the investment manager will employ echo voting, if possible, in the following instances: (1) when the Fund invests in an underlying fund in reliance on any one of Sections 12(d) (1) (E), (F), or (G) of the 1940 Act, the rules thereunder, or pursuant to a SEC exemptive order thereunder; (2) when the Fund invests uninvested cash in affiliated money market funds pursuant to the rules under the 1940 Act or any

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

exemptive orders thereunder ("cash sweep arrangement"); or (3) when required pursuant to the Fund's governing documents or applicable law. Echo voting means that the investment manager will vote the shares in the same proportion as the vote of all of the other holders of the underlying fund's shares.

The recommendation of management on any issue is a factor that the investment manager considers in determining how proxies should be voted. However, the investment manager does not consider recommendations from management to be determinative of the investment manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the investment manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

Investment manager's proxy voting policies and principles The investment manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the investment manager cannot anticipate all future situations. In all cases, each proxy and proposal will be considered based on the relevant facts and circumstances on a case-by-case basis.

Board of directors. The investment manager supports an independent, diverse board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The investment manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The investment manager will consider withholding votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the investment manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance. The investment manager generally will support non-binding shareholder proposals to require a majority vote standard for the election of directors; however, if these proposals are binding, the investment manager will give careful review on a case-by-case basis of the potential ramifications of such implementation.

In the event of a contested election, the investment manager will review a number of factors in making a decision including management's track record, the company's financial performance, qualifications of candidates on both slates, and the strategic plan of the dissidents.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

Ratification of auditors of portfolio companies. The investment manager will closely scrutinize the independence, role and performance of auditors. On a case-by-case basis, the investment manager will examine proposals relating to non-audit relationships and non-audit fees. The investment manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of a lack of independence, accounting irregularities or negligence. The investment manager may also consider whether the ratification of auditors has been approved by an appropriate audit committee that meets applicable composition and independence requirements.

Management and director compensation. A company's equity-based compensation plan should be in alignment with the shareholders' long-term interests. The investment manager believes that executive compensation should be directly linked to the performance of the company. The investment manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The investment manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The investment manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the investment manager will generally oppose "golden parachutes" that are considered to be excessive. The investment manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders.

The investment manager will review non-binding say-on-pay proposals on a case-by-case basis, and will generally vote in favor of such proposals unless compensation is misaligned with performance and/or shareholders' interests, the company has not provided reasonably clear disclosure regarding its compensation practices, or there are concerns with the company's remuneration practices.

Anti-takeover mechanisms and related issues. The investment manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. However, as with all proxy issues, the investment manager conducts an independent review of each anti-takeover proposal. On occasion, the investment manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The investment manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. In addition, the investment manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The investment manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The investment manager generally supports "fair price" provisions and confidential voting. The investment manager will review a company's proposal to reincorporate to a

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

different state or country on a case-by-case basis taking into consideration financial benefits such as tax treatment as well as comparing corporate governance provisions and general business laws that may result from the change in domicile.

Changes to capital structure. The investment manager realizes that a company's financing decisions have a significant impact on its shareholders, particularly when they involve the issuance of additional shares of common or preferred stock or the assumption of additional debt. The investment manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase. The investment manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The investment manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable. The investment manager will review proposals seeking preemptive rights on a case-by-case basis.

Mergers and corporate restructuring. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether they would be beneficial to shareholders. The investment manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring proposals are also subject to a thorough examination on a case-by-case basis.

Environmental and social issues. The investment manager considers environmental and social issues alongside traditional financial measures to provide a more comprehensive view of the value, risk and return potential of an investment. Companies may face significant financial, legal and reputational risks resulting from poor environmental and social practices, or negligent oversight of environmental or social issues. Franklin Templeton's "Responsible Investment Principles and Policies" describes the investment manager's approach to consideration of environmental, social and governance issues within the investment manager's processes and ownership practices.

In the investment manager's experience, those companies that are managed well are often effective in dealing with the relevant environmental and social issues that pertain to their business. As such, the investment manager will generally give management discretion with regard to environmental and social issues. However, in cases where management and the board have not demonstrated adequate efforts to mitigate material environmental or social risks, have engaged in inappropriate or illegal conduct, or have failed to adequately address current or emergent risks that threaten shareholder value, the investment manager may choose to support well-crafted shareholder proposals that serve to promote or protect shareholder value. This may include seeking appropriate disclosure regarding material environmental and social issues. The investment manager will review shareholder proposals on a case-by-case basis

and may support those that serve to enhance value or mitigate risk, are drafted appropriately, and do not disrupt the course of business or require a disproportionate or inappropriate use of company resources.

The investment manager will consider supporting a shareholder proposal seeking disclosure and greater board oversight of lobbying and corporate political contributions if the investment manager believes that there is evidence of inadequate oversight by the company's board, if the company's current disclosure is significantly deficient, or if the disclosure is notably lacking in comparison to the company's peers.

Governance matters. The investment manager generally supports the right of shareholders to call special meetings and act by written consent. However, the investment manager will review such shareholder proposals on a case-by-case basis in an effort to ensure that such proposals do not disrupt the course of business or require a disproportionate or inappropriate use of company resources. The investment manager will consider on a case-by-case basis any well-drafted and reasonable proposals for proxy access considering such factors as the size of the company, ownership thresholds and holding periods, responsiveness of management, intentions of the shareholder proponent, company performance, and shareholder base.

Global corporate governance. Many of the tenets discussed above are applied to the investment manager's proxy voting decisions for international investments. However, the investment manager must be flexible in these worldwide markets. Principles of good corporate governance may vary by country, given the constraints of a country's laws and acceptable practices in the markets. As a result, it is on occasion difficult to apply a consistent set of governance practices to all issuers. As experienced money managers, the investment manager's analysts are skilled in understanding the complexities of the regions in which they specialize and are trained to analyze proxy issues germane to their regions.

The investment manager will generally attempt to process every proxy it receives for all domestic and foreign securities. However, there may be situations in which the investment manager may be unable to vote a proxy, or may choose not to vote a proxy, such as where: (i) a proxy ballot was not received from the custodian bank; (ii) a meeting notice was received too late; (iii) there are fees imposed upon the exercise of a vote and it is determined that such fees outweigh the benefit of voting; (iv) there are legal encumbrances to voting, including blocking restrictions in certain markets that preclude the ability to dispose of a security if the investment manager votes a proxy or where the investment manager is prohibited from voting by applicable law or other regulatory or market requirements, including but not limited to, effective Powers of Attorney; (v) the investment manager held shares on the record date but has sold them prior to the meeting date; (vi) a proxy voting service is not offered by the custodian in the market; (vii) the investment manager believes it is not in the best interest of the Fund or its shareholders to vote the proxy for any other reason not enumerated herein; or (viii) a security is subject to a securities lending or similar program that has transferred legal title to the security to another person.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

In some foreign jurisdictions, even if the investment manager uses reasonable efforts to vote a proxy on behalf of the Fund, such vote or proxy may be rejected because of (a) operational or procedural issues experienced by one or more third parties involved in voting proxies in such jurisdictions; (b) changes in the process or agenda for the meeting by the issuer for which the investment manager does not have sufficient notice; or (c) the exercise by the issuer of its discretion to reject the vote of the investment manager. In addition, despite the best efforts of the Proxy Group and its agents, there may be situations where the investment manager's votes are not received, or properly tabulated, by an issuer or the issuer's agent.

The investment manager or its affiliates may, on behalf of one or more of the proprietary registered investment companies advised by the investment manager or its affiliates, determine to use its best efforts to recall any security on loan where the investment manager or its affiliates (a) learn of a vote on a material event that may affect a security on loan and (b) determine that it is in the best interests of such proprietary registered investment companies to recall the security for voting purposes.

Shareholders may view the complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301-1923, Attention: Proxy Group. Copies of the Fund's proxy voting records are available online at franklintempleton.com and posted on the SEC website at www.sec.gov. The proxy voting records are updated each year by August 31 to reflect the most recent 12-month period ended June 30.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) As of October 26, 2015, the portfolio managers of the Fund is as follows:

CHRISTOPHER J. MOLUMPY CFA, *Director and Executive Vice President of Advisers*

Mr. Molumphy has been a portfolio manager of the Fund since 1991. He has primary responsibility for the investments of the Fund. Mr. Molumphy has final authority over all aspects of the Fund's investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio risk assessment, and the management of daily cash balances in accordance with anticipated management requirements. The degree to which he may perform these functions, and the nature of these functions, may change from time to time. He joined Franklin Templeton Investments in 1988.

GLENN I. VOYLES CFA, *Vice President of Advisers*

Mr. Voyles has been a manager of the Fund since 1999, providing research and advice on the purchases and sales of individual securities, and portfolio risk

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

assessment for the global income component of the Fund. He joined Franklin Templeton Investments in 1993.

CFA and Chartered Financial Analyst are trademarks owned by CFA Institute.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

(a) (2) This section reflects information about the portfolio managers as of the fiscal year ended August 31, 2015.

The following table shows the number of other accounts managed by each portfolio manager and the total assets in the accounts managed within each category:

| Name | Number of Other Registered Investment Companies Managed ¹ | Assets of Other Registered Investment Companies Managed (x \$1 million) ¹ | Number of Other Pooled Investment Vehicles Managed ¹ | Assets of Other Pooled Investment Vehicles Managed (x \$1 million) ¹ | Number of Other Accounts Managed ¹ | Assets of Other Accounts Managed (x \$1 million) ¹ |
|-------------------------|--|--|---|---|---|---|
| Christopher J. Molumphy | 9 | 25,295.6 | 5 | 3,286.3 | 3 | 259.7 |
| Glenn I. Voyles | 2 | 6,103.0 | 3 | 211.3 | 9 | 1,069.4 |

1. The various pooled investment vehicles and accounts listed are managed by a team of investment professionals. Accordingly, the individual managers listed would not be solely responsible for managing such listed amounts.

Portfolio managers that provide investment services to the Fund may also provide services to a variety of other investment products, including other funds, institutional accounts and private accounts. The advisory fees for some of such other products and accounts may be different than that charged to the Fund and may include performance based compensation (as noted, in the chart above, if any). This may result in fees that are higher (or lower) than the advisory fees paid by the Fund. As a matter of policy, each fund or account is managed solely for the benefit of the beneficial owners thereof. As discussed

below, the separation of the trading execution function from the portfolio management function and the application of objectively based trade allocation procedures help to mitigate potential conflicts of interest that may arise as a result of the portfolio managers managing accounts with different advisory fees.

Conflicts. The management of multiple funds, including the Fund, and accounts may also give rise to potential conflicts of interest if the funds and other accounts have different objectives, benchmarks, time horizons, and fees as the portfolio manager must allocate his or her time and investment ideas across multiple funds and accounts. The investment manager seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio managers focus on a particular investment discipline. Most other accounts managed by a portfolio manager are managed using the same investment strategies that are used in connection with the management of the Fund. Accordingly, portfolio holdings, position sizes, and industry and sector exposures tend to be similar across similar portfolios, which may minimize the potential for conflicts of interest. As noted above, the separate management of the trade execution and valuation functions from the portfolio management process also helps to reduce potential conflicts of interest. However, securities selected for funds or accounts other than the Fund may outperform the securities selected for the Fund. Moreover, if a portfolio manager identifies a limited investment opportunity that may be suitable for more than one fund or other account, the Fund may not be able to take full advantage of that opportunity due to an allocation of that opportunity across all eligible funds and other accounts. The investment manager seeks to manage such potential conflicts by using procedures intended to provide a fair allocation of buy and sell opportunities among funds and other accounts.

The structure of a portfolio manager's compensation may give rise to potential conflicts of interest. A portfolio manager's base pay and bonus tend to increase with additional and more complex responsibilities that include increased assets under management. As such, there may be an indirect relationship between a portfolio manager's marketing or sales efforts and his or her bonus.

Finally, the management of personal accounts by a portfolio manager may give rise to potential conflicts of interest. While the funds and the manager have adopted a code of ethics which they believe contains provisions reasonably necessary to prevent a wide range of prohibited activities by portfolio managers and others with respect to their personal trading activities, there can be no assurance that the code of ethics addresses all individual conduct that could result in conflicts of interest.

The manager and the Fund have adopted certain compliance procedures that are designed to address these, and other, types of conflicts. However, there is no guarantee that such procedures will detect each and every situation where a conflict arises.

Compensation. The investment manager seeks to maintain a compensation program that is competitively positioned to attract, retain and motivate top-quality investment professionals. Portfolio managers receive a base salary, a cash incentive bonus opportunity, an equity compensation opportunity, and a benefits package. Portfolio manager compensation is reviewed annually and the level of compensation is based on individual performance, the salary range for a portfolio manager's level of responsibility and Franklin Templeton guidelines. Portfolio managers are provided no financial incentive to favor one fund or account over another. Each portfolio manager's compensation consists of the following three elements:

Base salary Each portfolio manager is paid a base salary.

Annual bonus Annual bonuses are structured to align the interests of the portfolio manager with those of the Fund's shareholders. Each portfolio manager is eligible to receive an annual bonus. Bonuses generally are split between cash (50% to 65%) and restricted shares of Resources stock (17.5% to 25%) and mutual fund shares (17.5% to 25%). The deferred equity-based compensation is

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

intended to build a vested interest of the portfolio manager in the financial performance of both Resources and mutual funds advised by the investment manager. The bonus plan is intended to provide a competitive level of annual bonus compensation that is tied to the portfolio manager achieving consistently strong investment performance, which aligns the financial incentives of the portfolio manager and Fund shareholders. The Chief Investment Officer of the investment manager and/or other officers of the investment manager, with responsibility for the Fund, have discretion in the granting of annual bonuses to portfolio managers in accordance with Franklin Templeton guidelines. The following factors are generally used in determining bonuses under the plan:

- *Investment performance.* Primary consideration is given to the historic investment performance of all accounts managed by the portfolio manager over the 1, 3 and 5 preceding years measured against risk benchmarks developed by the fixed income management team. The pre-tax performance of each fund managed is measured relative to a relevant peer group and/or applicable benchmark as appropriate.
- *Non-investment performance.* The more qualitative contributions of the portfolio manager to the investment manager's business and the investment management team, including business knowledge, productivity, customer service, creativity, and contribution to team goals, are evaluated in determining the amount of any bonus award.
- *Responsibilities.* The characteristics and complexity of funds managed by the portfolio manager are factored in the investment manager's appraisal.

Additional long-term equity-based compensation Portfolio managers may also be awarded restricted shares or units of Resources stock or restricted shares or units of one or more mutual funds. Awards of such deferred equity-based compensation typically vest over time, so as to create incentives to retain key talent.

Portfolio managers also participate in benefit plans and programs available generally to all employees of the investment manager.

Ownership of Fund shares. The investment manager has a policy of encouraging portfolio managers to invest in the funds they manage. Exceptions arise when, for example, a fund is closed to new investors or when tax considerations or jurisdictional constraints cause such an investment to be inappropriate for the portfolio manager. The following is the dollar range of Fund shares beneficially owned by the portfolio manager (such amounts may change from time to time):

Dollar Range of Fund Shares
Beneficially Owned

| Portfolio Manager | Dollar Range of Fund Shares Beneficially Owned |
|-------------------------|--|
| Christopher J. Molumphy | None |
| Glenn I. Voyles | None |

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers. N/A

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that would require disclosure herein.

Item 11. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) Changes in Internal Controls. There have been no changes in the Registrant's internal controls or in other factors that could materially affect the internal controls over financial reporting subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.

Item 12. Exhibits.

(a) (1) Code of Ethics

(a) (2) Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 of Laura F. Fergerson, Chief Executive Officer - Finance and Administration, and Gaston Gardey, Chief Financial Officer and Chief Accounting Officer

(b) Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 of Laura F. Fergerson, Chief Executive Officer - Finance and Administration, and Gaston Gardey, Chief Financial Officer and Chief Accounting Officer

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
