TIMET ANNOUNCES PRICE INCREASES

DENVER, COLORADO . . . May 4, 2001 . . . Titanium Metals Corporation ("TIMET") (NYSE: TIE) announced selling price increases on new orders for certain grades of commercially pure titanium and alloy titanium ingot, flatrolled, and forged products. These price increases will generally range from 3% to 15% on applicable products and reflect continued increases in certain manufacturing costs, including raw materials and energy, as well as the need to provide for increased capital investments. Additionally, TIMET will continue to reduce or eliminate current pricing discounts on certain products.

The price increases are effective immediately, but will not apply to certain industrial products or to orders under agreements with customers that include specific provisions governing selling prices. TIMET is currently accepting orders for delivery through the fourth quarter of this year. Except for obligations under existing firm agreements, orders for delivery after the fourth quarter will not be accepted until later this year.

Titanium Metals Corporation, headquartered in Denver, Colorado, is a leading worldwide integrated producer of titanium metal products. Information on TIMET is available on the World Wide Web at <http://www.timet.com/>.
