AVX CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(in thousands, except per share data)

1. BASIS OF PRESENTATION

Our consolidated financial statements of AVX Corporation and its subsidiaries (“AVX” or the “Company”) include all accounts of the Company and its subsidiaries. All significant intercompany transactions and accounts have been eliminated. We have prepared the accompanying financial statements pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) for interim financial reporting. These consolidated financial statements are unaudited and, in the opinion of management, include all adjustments, consisting of normal recurring adjustments and accruals, necessary for the fair statement of the consolidated balance sheets, operating results, comprehensive income (loss), and cash flows for the periods presented. Operating results for the three and nine month periods ended December 31, 2013 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2014 due to cyclical and other factors. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted in accordance with the rules and regulations of the SEC. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013.

Critical Accounting Policies and Estimates:

We have identified the accounting policies and estimates that are critical to our business operations and understanding our results of operations. Those policies and estimates can be found in Note 1, “Summary of Significant Accounting Policies”, of the Notes to Consolidated Financial Statements and in “Critical Accounting Policies and Estimates”, in “Management's Discussion and Analysis of Financial Condition and Results of Operations” contained in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013. Accordingly, this Quarterly Report on Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended March 31, 2013. During the three and nine month periods ended December 31, 2013, there were no significant changes to any critical accounting policies or to the methodology used in determining estimates including those related to investment securities, revenue recognition, inventories, goodwill, intangible assets, property and equipment, income taxes, and contingencies.

During the third quarter of fiscal 2014, we determined there was an error in the calculation of deferred taxes on intangible assets pursuant to the acquisition of American Technical Ceramics (“ATC”) Corporation in September of 2007. Accordingly in the third quarter of fiscal 2014, we have recorded an out-of-period adjustment related to our calculation of deferred taxes relative to the fair values of intangible assets at that date resulting in an increase of \$12,240 to deferred income tax liabilities and a corresponding increase to goodwill. The change in goodwill would not have resulted in an impairment in a prior period. Management performed an evaluation under Staff Accounting

Bulletin No. 108 and concluded the effect of the adjustment was immaterial to the current year and prior years' financial statements as there was no impact on prior income statements, cash flows, or retained earnings and the adjustment was immaterial to our consolidated balance sheets.

New Accounting Standards:

In July 2012, the FASB issued ASU 2012-02, which is intended to reduce complexity and costs by allowing an entity the option to make a qualitative evaluation about the likelihood of impairment of indefinite-lived intangibles assets to determine whether it should perform a detailed annual impairment test to support the value of indefinite-lived intangible assets. The ASU is effective for fiscal years, and interim periods within those years beginning, after September 15, 2012, with early adoption permitted. We adopted the ASU effective April 1, 2013. The adoption did not have any material impact on our consolidated financial statements.

Table of Contents

In February 2013, the FASB issued ASU 2013-02, which is intended to improve the reporting of reclassifications out of accumulated other comprehensive income. Among other things, an entity is required to present, either parenthetically on the face of the financial statements or in the notes thereto, significant amounts reclassified from each component of accumulated other comprehensive income and the income statement line items affected by such reclassifications. The standard is effective for annual periods, and interim periods within those periods, beginning after December 15, 2012. We adopted the ASU effective April 1, 2013. The adoption did not have a material impact on our financial statements, as the ASU increases disclosure requirements but does not affect the recognition or measurement of amounts in the financial statements.

In July 2013, the FASB issued ASU No. 2013-11, "Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists". This topic provides guidance on whether an unrecognized tax benefit should be presented as a reduction to a deferred tax asset or as a separate liability. This topic is for annual and interim periods beginning after December 15, 2013, with early adoption allowed. Adoption of this guidance is not expected to have a significant impact on the determination or reporting of the Company's financial results.

We have reviewed other newly issued accounting pronouncements and concluded that they are either not applicable to our business or that no material effect is expected on our consolidated financial statements as a result of future adoption.

2. EARNINGS PER SHARE

Basic earnings per share are computed by dividing net earnings by the weighted average number of shares of common stock outstanding for the period. Diluted earnings per share are computed by dividing net earnings by the sum of (a) the weighted average number of shares of common stock outstanding during the period and (b) the dilutive effect of potential common stock equivalents during the period. Stock options are the only common stock equivalents currently used in our calculation and are computed using the treasury stock method.

The table below represents the basic and diluted weighted average number of shares of common stock and potential common stock equivalents:

	Three Months Ended		Nine Months Ended	
	December 31, 2012	December 31, 2013	December 31, 2012	December 31, 2013
Net income (loss)	\$ 19,864	\$ 31,434	\$ (88,882)	\$ 87,907
Computation of Basic EPS:				
	168,978	168,428	169,241	168,554

Weighted Average Shares Outstanding used in computing Basic
EPS

Basic earnings (loss) per share	\$ 0.12	\$ 0.19	\$ (0.53)	\$ 0.52
Computation of Diluted EPS:				
Weighted Average Shares Outstanding	168,978	168,428	169,241	168,554
Effect of stock options	16	272	-	180
Weighted Average Shares used in computing Diluted EPS (1)	168,994	168,700	169,241	168,734
Diluted income (loss) per share	\$ 0.12	\$ 0.19	\$ (0.53)	\$ 0.52

(1) Common stock equivalents not included in the computation of diluted earnings per share because the impact would have been antidilutive were 3,822 shares and 2,282 shares for the three months ended December 31, 2012 and 2013, respectively, and 3,862 and 3,051 for the nine months ended December 31, 2012 and 2013, respectively. In addition, 42 shares that would have been dilutive if we had income were excluded from the computation of diluted earnings per share due to the Company's net loss position for the nine months ended December 31, 2012.

Charges	2,901	7,872	6,624	16,532
Applications	(2,987)	(7,489)	(8,422)	(15,632)
Translation and other	9	(18)	(36)	14
Ending Balance	\$ 5,345	\$ 6,400	\$ 5,345	\$ 6,400

4. FAIR VALUE

Fair Value Hierarchy:

The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to value the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.

- Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Table of Contents

- Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

During the three and nine month periods ended December 31, 2012 and 2013, there have been no transfers of assets or liabilities between levels within the fair value hierarchy.

	Fair Value at March 31, 2013	Based on Quoted prices in active markets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)
Assets measured at fair value on a recurring basis:				
Assets held in the non-qualified deferred compensation program(1)	\$ 7,043	\$ 7,043	\$ -	\$ -
Foreign currency derivatives(2)	1,168	-	1,168	-
Total	\$ 8,211	\$ 7,043	\$ 1,168	\$ -

	Fair Value at March 31, 2013	Based on Quoted prices in active markets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)
Liabilities measured at fair value on a recurring basis:				
Obligation related to assets held in the non-qualified deferred compensation program(1)	\$ 7,043	\$ 7,043	\$ -	\$ -
Foreign currency derivatives(2)	2,446	-	2,446	-
Total	\$ 9,489	\$ 7,043	\$ 2,446	\$ -

Based on
Other

	Fair Value at December 31, 2013	Quoted prices in active markets (Level 1)	observable inputs (Level 2)	Unobservable inputs (Level 3)
Assets measured at fair value on a recurring basis:				
Assets held in the non-qualified deferred compensation program(1)	\$ 7,883	\$ 7,883	\$ -	\$ -
Foreign currency derivatives(2)	1,584	-	1,584	-
Total	\$ 9,467	\$ 7,883	\$ 1,584	\$ -

Table of Contents

	Fair Value at December 31, 2013	Based on Quoted prices in active markets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)
Liabilities measured at fair value on a recurring basis:				
Obligation related to assets held in the non-qualified deferred compensation program(1)	\$ 7,883	\$ 7,883	\$ -	\$ -
Foreign currency derivatives(2)	3,573	-	3,573	-
Total	\$ 11,456	\$ 7,883	\$ 3,573	\$ -

(1) The market value of the assets held in the trust for the non-qualified deferred compensation program is included as an asset and as a liability as the trust's assets are both assets of the Company and also a liability as they are available to general creditors in certain circumstances.

(2) Foreign currency derivatives in the form of forward contracts are included in accrued expenses in the consolidated balance sheets. Unrealized gains and losses on derivatives classified as cash flow hedges are recorded in other comprehensive income (loss). Gains and losses on derivatives not designated as hedges are recorded in other income.

Valuation Techniques:

The following describes valuation techniques used to appropriately value our assets held in the non-qualified deferred compensation plan and derivatives.

Assets held in the non-qualified deferred compensation plan

Assets valued using Level 1 inputs in the table above represent assets from our non-qualified deferred compensation program. The funds in the non-qualified deferred compensation program are valued based on the number of shares in the funds using a price per share traded in an active market.

Investments are considered to be impaired when a decline in fair value is judged to be other-than-temporary. If the cost of an investment exceeds its fair value, among other factors, we evaluate general market conditions, the duration and extent to which the fair value is less than cost, and whether or not we expect to recover the security's entire amortized cost basis. Once a decline in fair value is determined to be other-than-temporary, an impairment charge is recorded and a new cost basis in the investment is established.

Derivatives

We primarily use forward contracts, with maturities generally less than four months, designated as cash flow hedges to protect against the foreign currency exchange rate risks inherent in our forecasted transactions related to purchase commitments and sales, denominated in various currencies. We also use derivatives not designated as hedging instruments to hedge foreign currency balance sheet exposures. These derivatives are used to offset currency changes in the fair value of the hedged assets and liabilities. Fair values for all of our derivative financial instruments are valued by adjusting the market spot rate by forward points, based on the date of the contract. The spot rates and forward points used are an average rate from an actively traded market. At March 31, 2013 and December 31, 2013, all of our forward contracts are Level 2 measurements.

5. FINANCIAL INSTRUMENTS AND INVESTMENTS IN SECURITIES

At March 31, 2013 and December 31, 2013, we classified investments in debt securities and time deposits as held-to-maturity securities.

Our long-term and short-term investment securities are accounted for as held-to-maturity securities and are carried at amortized cost. We have the ability and intent to hold these investments until maturity. All income generated from the held-to-maturity securities investments are recorded as interest income.

Table of Contents

Investments in held-to-maturity securities, recorded at amortized cost, were as follows:

	March 31, 2013			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Short-term investments:				
Commercial paper	\$ 85,788	\$ -	\$ (69)	\$ 85,719
Corporate bonds	81,089	213	(4)	81,298

The amortized cost and estimated fair value of held-to-maturity investments at December 31, 2013, by contractual maturity, are shown below. The estimated fair value of these investments are based on valuation inputs that include benchmark yields, reported trades, broker and dealer quotes, issuer spreads, two-sided markets, benchmark securities bids, offers, and reference data, which are Level 2 inputs in the fair value hierarchy. Actual maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations without call or prepayment penalties.

Table of Contents

7. STOCK-BASED COMPENSATION

In April 2013, we granted 500 options to employees pursuant to the 2004 Stock Option Plan described in Note 10, “Stock Based Compensation,” of the Notes to Consolidated Financial Statements contained in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013. The weighted average grant date fair value per share and the weighted average exercise price per share for these options are \$2.15 and \$11.25, respectively.

In August 2013, we granted 75 options to directors pursuant to the 2004 Non-Employee Directors’ Stock Option Plan described in Note 10, “Stock Based Compensation,” of the Notes to Consolidated Financial Statements contained in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013. The weighted average grant date fair value per share and the weighted average exercise price per share for these options are \$2.91 and \$13.14, respectively.

There were 364 stock options exercised during the nine months ended December 31, 2013 with a total intrinsic value of \$581.

8. COMMITMENTS AND CONTINGENCIES

We have been identified by the United States Environmental Protection Agency (“EPA”), state governmental agencies, or other private parties as a potentially responsible party (“PRP”) under the Comprehensive Environmental Response, Compensation and Liability Act (“CERCLA”) or equivalent state or local laws for clean-up and response costs associated with certain sites at which remediation is required with respect to prior contamination. Because CERCLA has generally been construed to authorize joint and several liability, the EPA could seek to recover all clean-up costs from any one of the PRPs at a site despite the involvement of other PRPs. At certain sites, financially responsible PRPs other than AVX also are, or have been, involved in site investigation and clean-up activities. We believe that any liability resulting from these sites will be apportioned between AVX and other PRPs.

To resolve our liability at the sites at which the Company has been named a PRP, we have entered into various administrative orders and consent decrees with federal and state regulatory agencies governing the timing and nature of investigation and remediation. As is customary, the orders and decrees regarding sites where the PRPs are not themselves implementing the chosen remedy contain provisions allowing the EPA to reopen the agreement and seek additional amounts from settling PRPs in the event that certain contingencies occur, such as the discovery of significant new information about site conditions.

In 1991, in connection with a consent decree finally approved in 1992 (“1992 Consent Decree”), we paid \$66,000, plus interest, toward the environmental conditions at, and remediation of, New Bedford Harbor in the Commonwealth of Massachusetts (“the harbor”) in a settlement with the United States and the Commonwealth of Massachusetts (sometimes the “Governments”), subject to reopener provisions, including a reopener if certain remediation costs for the site exceed \$130,500.

On April 18, 2012, the EPA issued to the Company a Unilateral Administrative Order (the “UAO”) directing the Company to perform certain remedial actions for the harbor clean-up pursuant to the reopener provisions.

On October 10, 2012, the EPA, the United States, the Commonwealth of Massachusetts and AVX announced that they had reached a settlement with respect to the EPA’s ongoing clean-up of the harbor. That agreement is set forth in a Supplemental Consent Decree (“Supplemental CD”) that modifies certain provisions of the 1992 Consent Decree, including elimination of the Governments’ right to invoke any clean-up reopener provisions in the future. Under the terms of the settlement, AVX was obligated to pay \$366,250, plus interest computed from August 1, 2012, in three installments over a two-year period for use by the EPA and the Commonwealth to complete the clean-up of the harbor. The settlement also required the EPA to withdraw the UAO. The United States District Court approved the settlement and entered the Supplemental CD on September 19, 2013.

On October 18, 2013, the Company paid the initial settlement installment of \$133,350, plus accrued interest on the entire settlement amount through that date into a court-managed registry account. Following expiration of the time period for the appeal of the court’s approval of the settlement, such funds were disbursed to the various governments. In accordance with the terms of the Supplemental CD, AVX is obligated to pay \$110,817, plus interest, on September 19, 2014 and

Table of Contents

\$122,083, plus interest, on September 21, 2015. AVX has the option to prepay any portion of the remaining settlement balance at any time prior to the due dates of the remaining installments.

We had reserves of approximately \$380,354 and \$246,718 at March 31, 2013 and December 31, 2013, respectively, related to the various matters discussed above. These reserves are classified in the Consolidated Balance Sheets as \$147,454 and \$124,635 in accrued expenses at March 31, 2013 and December 31, 2013, respectively, and \$232,900 and \$122,083 in other non-current liabilities at March 31, 2013 and December 31, 2013, respectively. The amount recorded for identified contingent liabilities is based on estimates. Amounts recorded are reviewed periodically and adjusted to reflect additional legal and technical information that becomes available. Also, uncertainties about the status of laws, regulations, regulatory actions, technology, and information related to individual sites make it difficult to develop an estimate of the reasonably possible aggregate environmental remediation exposure. Therefore, these costs could differ from our current estimates.

On November 27, 2007, a suit was filed in the South Carolina State Court by certain individuals as a class action with respect to property adjacent to our Myrtle Beach, South Carolina factory, claiming property values have been negatively impacted by alleged migration of certain pollutants from our property. Based on our estimate of potential outcomes, we have accrued approximately \$350 with respect to this case as of December 31, 2013.

During fiscal 2010, AVX was named as a third party defendant in a case filed in Massachusetts Superior Court captioned DaRosa v. City of New Bedford. This case relates to a former disposal site in the City of New Bedford located at Parker Street. The City asserts that AVX, among others, contributed to that site. We intend to vigorously defend the claims that have been asserted in this lawsuit. In light of the foregoing, we are not able to estimate any amount of loss or range of loss. No accrual for costs has been recorded and the potential impact of this case on our financial position, results of operations, comprehensive income (loss), and cash flows cannot be determined at this time.

AVX has received a demand for approximately \$11,000 from the City of New Bedford arising from contamination at the City's New Bedford Railyard. AVX believes it has meritorious defenses and intends to vigorously defend the demand. In light of the foregoing, we are not able to estimate any amount of loss or range of loss. No accrual for costs has been recorded and the potential impact of this demand on our financial position, results of operations, comprehensive income (loss), and cash flows cannot be determined at this time.

We also operate on other sites that may have potential future environmental issues as a result of activities at sites during AVX's long history of manufacturing operations or prior to the start of operations by AVX. Even though we may have rights of indemnity for such environmental matters at certain sites, regulatory agencies in those jurisdictions may require us to address such issues. Once it becomes probable that we will incur costs in connection with remediation of a site and such costs can be reasonably estimated, we establish reserves or adjust our reserves for our projected share of these costs. A separate account receivable is recorded for any indemnified costs.

We are involved in disputes, warranty, and legal proceedings arising in the normal course of business. While we cannot predict the outcome of these disputes and proceedings, management believes, based upon a review with legal counsel, that none of these proceedings will have a material impact on our financial position, results of operations, comprehensive income (loss), or cash flows.

9. COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) represents changes in equity during a period except those resulting from investments by and distributions to shareholders. The specific components include net income (loss), pension liability and other post-retirement benefit adjustments, deferred gains and losses resulting from foreign currency translation adjustments, unrealized gains and losses on qualified foreign currency cash flow hedges.

Other comprehensive income (loss) includes the following components:

Table of Contents

	Three Months Ended			
	December 31, 2012		December 31, 2013	
	Pre-tax	Net of Tax	Pre-tax	Net of Tax
Foreign currency translation adjustment	\$ 6,027	\$ 6,027	\$ (6,035)	\$ (6,035)
Foreign currency cash flow hedges adjustment	(1,971)	(1,595)	(1,875)	(1,576)
Pension liability adjustment	811	584	1,490	1,073
Other comprehensive income (loss)	\$ 4,867	\$ 5,016	\$ (6,420)	\$ (6,538)

	Nine Months Ended			
	December 31, 2012		December 31, 2013	
	Pre-tax	Net of Tax	Pre-tax	Net of Tax
Foreign currency translation adjustment	\$ (2,270)	\$ (2,270)	\$ 3,526	\$ 3,526
Foreign currency cash flow hedges adjustment	(202)	(153)	(954)	(865)
Pension liability adjustment	1,976	1,423	4,079	2,937
Other comprehensive income (loss)	\$ (496)	\$ (1,000)	\$ 6,651	\$ 5,598

Amounts reclassified out of accumulated other comprehensive income (loss) into net income (loss) include those that pertain to the Company's pension and postretirement benefit plans and realized gains and losses on derivative instruments designated as cash flow hedges. Please see Note 12 for additional information related to the amortization of prior service cost and the recognized actuarial losses, which amounts are reclassified from accumulated other comprehensive income (loss) into net income (loss) and are included in selling, general and administrative expenses in the statement of operations during the three and nine month periods ended December 31, 2012 and 2013. Please see Note 13 for additional information related to realized gains and losses on derivative instruments reclassified from accumulated other comprehensive income (loss) into net income (loss) during the three and nine month periods ended December 31, 2012 and 2013.

10. ACQUISITIONS

On February 6, 2013, the Company acquired by merger all of the outstanding capital stock of the Tantalum Components Division of Nichicon Corporation ("Asia Tantalum") for \$86,000 in cash, subject to customary working capital adjustments. Asia Tantalum designs, develops, manufactures, and markets tantalum electronic components. Asia Tantalum's products are used in a broad range of commercial applications. The acquisition enhances our leadership position in the passive electronic component industry and provides further opportunities for expansion in the Asian region and tantalum component manufacturing efficiencies.

The Company has used the acquisition method of accounting to record the transaction in accordance with FASB Accounting Standards Codification Topic 805, "Business Combinations". In accordance with the acquisition method, the purchase price is allocated to the assets acquired and liabilities assumed based on their estimated fair values with the excess being allocated to goodwill. Factors that contributed to the recognition of goodwill include expected synergies and the trained workforce. The goodwill is not deductible for tax purposes.

As of December 31, 2013, the allocation of the purchase price was prepared based on estimates of fair values, as shown in the table below. The results of operations for Asia Tantalum since the acquisition date are included in the accompanying consolidated statement of operations since the acquisition date.

Table of Contents

Assets Acquired and Liabilities Assumed	
Accounts receivable	\$ 7,756
Inventory	15,100
Other current assets and liabilities	(2,136)
Working capital	20,720
Property and equipment	30,680
Pension liability	(1,912)
Total identified assets and liabilities	49,488
Purchase price	87,600
Goodwill	\$ 38,112

During the nine months ended December 31, 2013, the Company paid an additional \$1,600 to settle the working capital adjustment provisions of the purchase agreement, resulting in an increase in recorded goodwill during the period by the same amount.

11. SEGMENT AND GEOGRAPHIC INFORMATION

We have three reportable segments: Passive Components, KED Resale, and Interconnect. The Passive Components segment consists primarily of surface mount and leaded ceramic capacitors, RF thick and thin film components, surface mount and leaded tantalum capacitors, surface mount and leaded film capacitors, ceramic and film power capacitors, super capacitors, EMI filters (bolt in and surface mount), thick and thin film packages of multiple passive integrated components, varistors, thermistors, inductors, and resistive products. The KED Resale segment consists primarily of ceramic capacitors, frequency control devices, SAW devices, sensor products, RF modules, actuators, acoustic devices, and connectors produced by Kyocera and resold by AVX. The Interconnect segment consists primarily of automotive, telecom, and memory connectors manufactured by AVX Interconnect. Sales and operating results from these reportable segments are shown in the tables below. In addition, we have a corporate administration group consisting of finance and administrative activities and a separate research and development group.

We evaluate performance of our segments based upon sales and operating profit. There are no intersegment revenues. We allocate the costs of shared resources between segments based on each segment's usage of the shared resources. Cash, accounts receivable, investments in securities, and certain other assets, which are centrally managed, are not readily allocable to operating segments.

The tables below present information about reported segments:

Sales Revenue	Three Months Ended		Nine Months Ended	
	December 31, 2012	December 31, 2013	December 31, 2012	December 31, 2013

Total	\$ 339,875	\$ 346,211	\$ 1,053,852	\$ 1,091,375

12. PENSION PLANS

Net periodic pension cost for our defined benefit plans consisted of the following for the three and nine months ended December 31, 2012 and 2013:

	U.S. Plans Three Months Ended December 31, 2012		International Plans Three Months Ended December 31, 2012	
	December 31, 2012	December 31, 2013	December 31, 2012	December 31, 2013
Service cost	\$ 109	\$ 116	\$ 115	\$ 220
Interest cost	413	390	1,578	1,683
Expected return on plan assets	(539)	(545)	(1,554)	(1,743)
Amortization of prior service cost	2	-	-	5
Recognized actuarial loss	220	284	424	662
Net periodic pension cost	\$ 205	\$ 245	\$ 563	\$ 827

Table of Contents

	U.S. Plans		International Plans	
	Nine Months Ended		Nine Months Ended	
	December	December	December	December
	31, 2012	31, 2013	31, 2012	31, 2013
Service cost	\$ 326	\$ 348	\$ 345	\$ 651
Interest cost	1,239	1,170	4,733	4,902
Expected return on plan assets	(1,614)	(1,635)	(4,664)	(5,072)
Amortization of prior service cost	5	-	-	9
Recognized actuarial loss	660	852	1,273	1,925
Net periodic pension cost	\$ 616	\$ 735	\$ 1,687	\$ 2,415

Based on current actuarial computations, during the nine months ended December 31, 2013, we made contributions of \$5,535 to the international plans. We expect to make additional contributions of approximately \$1,900 to the international plans over the remainder of fiscal 2014. There were no contributions to the U.S. plans during the nine months ended December 31, 2013 and we do not anticipate making any contributions during the remainder of the fiscal year.

13. DERIVATIVE FINANCIAL INSTRUMENTS

We are exposed to foreign currency exchange rate fluctuations in the normal course of business and use derivative instruments (forward contracts) to hedge certain foreign currency exposures as part of the risk management strategy. The objective is to offset gains and losses resulting from these exposures with gains and losses on the forward contracts used to hedge them, thereby reducing volatility of earnings or protecting fair values of assets and liabilities. We do not enter into any trading or speculative positions with regard to derivative instruments.

We primarily use forward contracts, with maturities less than four months, designated as cash flow hedges to protect against the foreign currency exchange rate risks inherent in our forecasted transactions related to purchase commitments and sales, denominated in various currencies. These derivative instruments are designated and qualify as cash flow hedges.

The effectiveness of the cash flow hedges is determined by comparing the cumulative change in the fair value of the hedge contract with the cumulative change in the fair value of the hedged transaction, both of which are based on forward rates. The effective portion of the gain or loss on these cash flow hedges is initially recorded in accumulated other comprehensive income (loss) as a separate component of stockholders' equity. Once the hedged transaction is recognized, the gain or loss is recognized in our statement of operations. At March 31, 2013 and December 31, 2013, respectively, the following forward contracts were entered into to hedge against the volatility of foreign currency exchange rates for certain forecasted sales and purchases.

March 31, 2013

Fair Value of Derivative Instruments

Fair Value of Derivative Instruments

Asset Derivatives		Liability Derivatives	
Balance		Balance	
Sheet	Fair	Sheet	Fair
Caption	Value	Caption	Value

Foreign exchange contracts	Prepaid and other	\$ 1,247	Accrued expenses	\$ 3,134
----------------------------	-------------------	----------	------------------	----------

For these derivatives designated as hedging instruments, during the three and nine months ended December 31, 2013, net pretax gains (losses) of \$(3,326) and \$(4,330), respectively, were recognized in other comprehensive income (loss). In addition, during the three and nine months ended December 31, 2013, net pretax gains (losses) of \$(1,044) and \$(3,743), respectively, were reclassified from accumulated other comprehensive income into cost of sales (for hedging purchases), and net pretax gains (losses) of \$(374) and \$423, respectively, were reclassified from accumulated other comprehensive income into sales (for hedging sales) in the accompanying statement of operations.

Derivatives not designated as hedging instruments consist primarily of forwards used to hedge foreign currency balance sheet exposures representing hedging instruments used to offset foreign currency changes in the fair values of the underlying assets and liabilities. The gains and losses on these foreign currency forward contracts are recognized in other income in the same period as the remeasurement gains and losses of the related foreign currency denominated assets and liabilities and thus naturally offset these gains and losses. At March 31, 2013 and December 31, 2013, we had the following forward contracts that were entered into to hedge against these exposures.

March 31, 2013

Fair Value of Derivative Instruments

Asset Derivatives		Liability Derivatives

Balance		Balance	

Edgar Filing: AVX Corp - Form 10-Q

Sheet Caption	Fair Value	Sheet Caption	Fair Value
Foreign exchange contracts	Prepaid and other \$ 337	Accrued expenses	\$ 439

For these derivatives not designated as hedging instruments during the three and nine months ended December 31, 2013, gains (losses) of \$(817) and \$(3,377), respectively, on hedging contracts were recognized in other income, which offset the approximately \$(607) and \$(2,998), respectively, in exchange gains (losses) that were recognized in other income in the accompanying statement of operations.

At March 31, 2013 and December 31, 2013, we had outstanding foreign exchange contracts with notional amounts totaling \$187,670 and \$65,224, respectively, denominated primarily in euros, Czech korunas, British pounds, and Japanese yen.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains “forward-looking” information within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including statements regarding industry prospects and future results of operations or financial position made in this Quarterly Report on Form 10-Q are forward-looking. The forward-looking information may include, among other information, statements concerning our outlook for fiscal year 2014, overall volume and pricing trends, cost reduction and acquisition strategies and their anticipated results, and expectations for research and development and capital expenditures. There may also be other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. Forward-looking statements reflect management’s expectations and are inherently uncertain. The forward-looking information and statements in this report are subject to risks and uncertainties, including those discussed in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013, that could cause actual results to differ materially from those expressed in or implied by the information or statements herein. Forward-looking statements should be read in context with, and with the understanding of, the various other disclosures concerning the Company and its business made elsewhere in this quarterly report as well as other public reports filed by the Company with the SEC. You should not place undue reliance on any forward-looking statements as a prediction of actual results or developments.

Any forward-looking statements by the Company are intended to speak only as of the date thereof. We do not intend to update or revise any forward-looking statement contained in this quarterly report to reflect new events or circumstances unless and to the extent required by applicable law. All forward-looking statements contained in this quarterly report constitute “forward-looking statements” within the meaning of Section 21E of the United States Securities Exchange Act of 1934 and, to the extent it may be applicable by way of incorporation of statements contained in this quarterly report by reference or otherwise, Section 27A of the United States Securities Act of 1933, each of which establishes a safe-harbor from private actions for forward-looking statements as defined in those statutes.

Critical Accounting Policies and Estimates

“Management’s Discussion and Analysis of Financial Condition and Results of Operations” is based upon our unaudited Consolidated Financial Statements and Notes thereto, which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of

revenues and expenses during the reported periods. On an ongoing basis, management evaluates its estimates and judgments, including those related to investment securities, revenue recognition, inventories, property and equipment, goodwill, intangible assets, income taxes, and contingencies. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. There can be no assurance that actual results will not differ from those estimates.

We have identified the accounting policies and estimates that are critical to our business operations and understanding the Company's results of operations. Those policies and estimates can be found in Note 1, "Summary of Significant Accounting Policies", of the Notes to Consolidated Financial Statements and in "Critical Accounting Policies and Estimates", in "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013 and in Note 1, "Critical Accounting Policies and Estimates", in the Notes to Consolidated Financial Statements in this Form 10-Q. Accordingly, this Quarterly Report on Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended March 31, 2013. During the three and nine month periods ended December 31, 2013, there were no significant changes to any critical accounting policies, judgments involved in applying those policies, or the methodology used in determining estimates with respect to those related to investment securities, revenue recognition, inventories, goodwill, intangible assets, property and equipment, income taxes, and contingencies.

Table of Contents

During the third quarter of fiscal 2014, we determined there was an error in the calculation of deferred taxes on intangible assets pursuant to the acquisition of American Technical Ceramics (“ATC”) Corporation in September of 2007. Accordingly in the third quarter of fiscal 2014, we have recorded an out-of-period adjustment related to our calculation of deferred taxes relative to the fair values of intangible assets at that date resulting in an increase of \$12,240 to deferred income tax liabilities and a corresponding increase to goodwill. The change in goodwill would not have resulted in an impairment in a prior period. Management performed an evaluation under Staff Accounting Bulletin No. 108 and concluded the effect of the adjustment was immaterial to the current year and prior years’ financial statements as there was no impact on prior income statements, cash flows, or retained earnings and the adjustment was immaterial to our consolidated balance sheets.

Business Overview

AVX is a leading worldwide manufacturer and supplier of a broad line of passive electronic components. Virtually all types of electronic devices use our passive component products to store, filter, or regulate electric energy. We also manufacture and supply high-quality electronic connectors and interconnect systems for use in electronic products.

We have manufacturing, sales, and distribution facilities located throughout the world, which are divided into three main geographic regions: the Americas, Asia, and Europe. AVX is organized into five main product groups with three reportable segments: Passive Components, KED Resale, and Interconnect. The Passive Components segment consists primarily of surface mount and leaded ceramic capacitors, RF thick and thin film components, surface mount and leaded tantalum capacitors, surface mount and leaded film capacitors, ceramic and film power capacitors, super capacitors, EMI filters (bolt in and surface mount), thick and thin film packages of multiple passive integrated components, varistors, thermistors, inductors, and resistive products. The KED Resale segment consists primarily of ceramic capacitors, frequency control devices, SAW devices, sensor products, RF modules, actuators, acoustic devices, and connectors produced by Kyocera and resold by AVX. The Interconnect segment consists of automotive, telecom, and memory connectors manufactured by AVX Interconnect and KCP Resale connector products.

Our customers are multi-national original equipment manufacturers, or OEMs, independent electronic component distributors, and electronic manufacturing service providers, or EMSs. We market our products through our own direct sales force and independent manufacturers’ representatives, based upon market characteristics and demands. We coordinate our sales, marketing, and manufacturing organizations by strategic customer account and globally by region.

We sell our products to customers in a broad array of industries, such as telecommunications, information technology hardware, automotive electronics, medical devices and instrumentation, industrial instrumentation, defense and aerospace electronic systems, and consumer electronics.

Results of Operations - Three Months Ended December 31, 2013 and 2012

Our net income for the quarter ended December 31, 2013 was \$31.4 million, or \$0.19 per share, compared to net income of \$19.9 million, or \$0.12 per share, for the quarter ended December 31, 2012.

(in thousands, except per share data)	Three Months Ended	
	December 31, 2012	December 31, 2013
Net sales	\$ 339,875	\$ 346,211
Gross profit	62,417	67,766
Operating income (loss)	33,232	35,573
Net income (loss)	19,864	31,434
Diluted earnings (loss) per share	\$ 0.12	\$ 0.19

Net sales in the three months ended December 31, 2013 increased \$6.3 million, or 1.9%, to \$346.2 million compared to \$339.9 million in the three months ended December 31, 2012. This increase is primarily a result of the incremental sales attributable to our acquisition of Asia Tantalum, which was acquired in February of 2013. Compared to the same period last year, supply chain inventory levels were minimized as product manufacturers managed component purchases in light of uncertain end-market demand and economic conditions. Overall sales prices for our commodity components declined

Table of Contents

moderately this quarter when compared to the same quarter in the prior year resulting from increased competitive pricing pressure.

The table below represents product group revenues for the quarters ended December 31, 2012 and December 31, 2013.

Sales Revenue \$(000's)	Three Months Ended	
	December 31, 2012	December 31, 2013
Ceramic Components	\$ 42,889	\$ 50,227
Tantalum Components	76,828	96,270
Advanced Components	83,069	86,605
Total Passive Components	202,786	233,102
KDP and KCD Resale	87,658	59,835
KCP Resale	18,548	17,969
Total KED Resale	106,206	77,804
AVX Interconnect	30,883	35,305
Total Revenue	\$ 339,875	\$ 346,211

Passive Component sales increased \$30.3 million, or 14.9%, to \$233.1 million in the three months ended December 31, 2013 from \$202.8 million during the same quarter last year, as a result of increased demand for electronic components in the markets we serve. The sales increase in Passive Components reflects the overall increased unit demand for electronics across global markets as customers introduced new and more sophisticated end-market products. The impact of the Asia Tantalum acquisition, which was completed in February of 2013, accounted for \$11.8 million of the increased sales of our tantalum products. The increase in sales of Ceramic Components reflects a higher volume of unit sales resulting partially from an increase in the sale of higher capacitance components compared to the same quarter last year, partially offset by lower selling prices.

KDP and KCD Resale sales decreased \$27.8 million, or 31.7%, to \$59.8 million in the three months ended December 31, 2013 compared to \$87.7 million during the same period last year. When compared to the same period last year, the decrease during the quarter ended December 31, 2013 is primarily attributable to lower sales to telecommunications and computer manufacturers as they changed design specifications and managed supply chain inventory levels in response to consumer demand trends and new product introduction cycles.

Total connector sales, including AVX Interconnect manufactured and KCP Resale connectors, increased \$3.8 million, or 7.8%, to \$53.3 million in the three months ended December 31, 2013 compared to \$49.4 million during the same period last year. This increase was primarily attributable to stronger demand in the automotive sector reflective of the increased electronic content in new automobile designs.

Our sales to independent electronic distributor customers represented 45.4% of total sales for the three months ended December 31, 2013, compared to 40.3% for the three months ended December 31, 2012. Overall, distributor activity increased 14.8% when compared to the same period last year. This increase is reflective of their customer demand improvements. Our sales to distributor customers involve specific ship and debit and stock rotation programs for which sales allowances are recorded as reductions in sales. Such allowance charges were \$9.6 million, or 6.1% of gross sales to distributor customers, for the three months ended December 31, 2013 and \$8.7 million, or 6.4% of gross sales to distributor customers, for the three months ended December 31, 2012. This increase in activity is reflective of higher sales to our distribution customers. Applications under such programs for the quarters ended December 31, 2013 and 2012 were approximately \$8.6 million and \$8.5 million, respectively.

Table of Contents

Geographically, compared to the same period last year, sales increases in Europe and the Americas were offset by sales declines in Asia primarily as a result of lower KED Resale product demand in the telecommunications markets. Sales in the Asian market decreased to 44.4% of total sales while sales in the Americas and Europe increased to 28.7% and 26.9% of total sales, respectively. This compares to 47.8%, 27.1%, and 25.1% of total sales for the Asian, American, and European regions in the same period last year, respectively. The movement of the U.S. dollar against certain foreign currencies resulted in an unfavorable impact on sales of approximately \$3.6 million when compared to the same period last year.

Gross profit in the three months ended December 31, 2013 was 19.6% of sales, or \$67.8 million, compared to a gross profit margin of 18.4%, or \$62.4 million, in the three months ended December 31, 2012. The increase in gross profit is primarily attributable to an improved product mix of higher margin value added products in addition to a lower proportion of commodity and KED Resale product sales. We continue to focus on spending controls and cost reductions in light of the global demand for electronic components. Costs due to currency movement of the U.S. dollar against certain foreign currencies were favorably impacted in the current quarter by approximately \$7.8 million when compared to the same quarter last year.

Selling, general and administrative expenses in the three months ended December 31, 2013 were \$32.2 million, or 9.3% of net sales, compared to \$29.2 million, or 8.6% of net sales, in the three months ended December 31, 2012.

The overall increase in selling, general and administrative expenses is primarily due to higher legal and consulting expenses as well as higher selling expenses resulting from the increased level of sales.

As a result of the factors set forth above, income from operations was \$35.6 million in the three months ended December 31, 2013 compared to \$33.2 million in the three months ended December 31, 2012.

Our effective tax rate for the three months ended December 31, 2013 was 15.5% compared to 42.6% for the three months ended December 31, 2012. The lower effective rate for the three month period ended December 31, 2013 is primarily due to a favorable impact relating to the release of certain reserves for uncertain tax positions due to the expiration of periods allowed for the audit of certain prior year income tax returns. Excluding such discrete items recorded in the period, the effective tax rate would have been 28.5% compared to an effective rate, without discrete items as discussed below, of 34.0% for the same period in the prior year. This decrease is primarily a result of a higher proportion of income in lower tax rate jurisdictions in the period ended December 31, 2013. For the three month period ended December 31, 2012, the higher effective rate is primarily due to the effects of the environmental charge recognized in fiscal 2013 related to the New Bedford Harbor Superfund Site in Massachusetts discussed in "Liquidity and Capital Resources" below and in Note 8 to the Consolidated Financial Statements contained in this Quarterly Report on Form 10-Q, and the expected loss of a U.S. federal tax deduction for fiscal 2013 due to projected annual taxable income limitations. Excluding discrete items recorded in the three month period ended December 31, 2012, the effective tax rate would have been 34.0%.

As a result of the factors discussed above, net income for the three month period ended December 31, 2013 was \$31.4 million compared to \$19.9 million for the same three month period last year.

Results of Operations - Nine Months Ended December 31, 2013 and 2012

Our net income for the nine month period ended December 31, 2013 was \$87.9 million, or \$0.52 per share, compared to net loss of \$(88.9) million, or \$(0.53) per share, for the nine month period ended December 31, 2012. The net loss for the nine month period ended December 31, 2012 includes an environmental charge of \$266.3 million related to environmental issues at the New Bedford Harbor Superfund site in Massachusetts discussed in “Liquidity and Capital Resources” below and in Note 8 to the Consolidated Financial Statements contained in this Quarterly Report on Form 10-Q.

Table of Contents

	(in thousands, except per share data) Nine Months Ended	
	December 31, 2012	December 31, 2013
Net sales	\$ 1,053,852	\$ 1,091,375
Gross profit	200,300	207,563
Operating income (loss)	(154,498)	116,174
Net income (loss)	(88,882)	87,907
Diluted earnings (loss) per share	\$ (0.53)	\$ 0.52

Net sales in the nine months ended December 31, 2013 increased \$37.5 million, or 3.6%, to \$1,091.4 million compared to \$1,053.9 million in the nine months ended December 31, 2012. This increase is primarily a result of incremental sales attributable to our acquisition of Asia Tantalum, which was completed in February of 2013. Compared to the same period last year, supply chain inventory levels were minimized as product manufacturers managed component purchases in light of uncertain end-market demand and economic uncertainty. Overall sales prices for our commodity components declined moderately over the nine month period when compared to the same nine month period in the prior year resulting from increased competitive pricing pressure.

The table below represents product group revenues for the nine month periods ended December 31, 2012 and December 31, 2013.

Sales Revenue \$(000's)	Nine Months Ended	
	December 31, 2012	December 31, 2013
Ceramic Components	\$ 127,112	\$ 144,814
Tantalum Components	243,751	295,452
Advanced Components	260,028	264,711
Total Passive Components	630,891	704,977
KDP and KCD Resale	281,539	234,736
KCP Resale	47,738	49,072
Total KED Resale	329,277	283,808
AVX Interconnect	93,684	102,590
Total Revenue	\$ 1,053,852	\$ 1,091,375

Passive Component sales increased \$74.1 million, or 11.7%, to \$705.0 million in the nine months ended December 31, 2013 from \$630.9 million during the same period last year, as we saw increases in many of the markets that we serve, particularly in the automotive sector and component sales related to higher-end smart phones, tablet devices and telecommunications hardware. The impact of the Asia Tantalum acquisition, which was completed in February of 2013, accounted for \$40.3 million of increased sales of our tantalum products. The increase in sales of Ceramic Components reflects a higher volume of unit sales resulting partially from an increase in the sale of higher capacitance components compared to the same quarter last year, partially offset by lower selling prices.

KDP and KCD Resale sales decreased \$46.8 million, or 16.6%, to \$234.7 million in the nine months ended December 31, 2013 compared to \$281.5 million during the same period last year. When compared to the same period last year, the decrease during the nine months ended December 31, 2013 is primarily attributable to lower sales to telecommunications and computer manufacturers as they changed design specifications and managed supply chain inventory levels in response to consumer demand trends and new product introduction cycles.

Total connector sales, including AVX Interconnect manufactured and KCP Resale connectors, increased \$10.2 million, or 7.2%, to \$151.7 million in the nine months ended December 31, 2013 compared to \$141.4 million during the same period last year. This increase was primarily attributable to stronger demand in the automotive sector reflective of the increased electronic content in today's automobiles.

Table of Contents

Our sales to independent electronic distributor customers represented 41.5% of total sales for the nine months ended December 31, 2013, compared to 39.3% for the nine months ended December 31, 2012. Overall, distributor activity increased 9.4% when compared to the same period last year. This increase is reflective of their customer demand improvements. Our sales to distributor customers involve specific ship and debit and stock rotation programs for which sales allowances are recorded as reductions in sales. Such allowance charges were \$30.8 million, or 6.8% of gross sales to distributor customers, for the nine months ended December 31, 2013 and \$25.8 million, or 6.2% of gross sales to distributor customers, for the nine months ended December 31, 2012. This increase in activity is reflective of increased sales to our distribution. Applications under such programs for the nine month periods ended December 31, 2013 and 2012 were approximately \$29.1 million and \$25.5 million, respectively.

Geographically, compared to the same period last year, sales increased in all regions tracking the overall global macroeconomic conditions. Sales in the Asian market reflect, in part, the increased sales due to the Asia Tantalum acquisition offset by lower KED Resale product sales in the telecommunications markets. Asian market sales decreased to 46.5% of total sales while sales in the Americas and Europe increased to 28.0% and 25.5% of total sales, respectively. This compares to 47.8%, 27.4%, and 24.8% of total sales for the Asian, American, and European regions in the same period last year, respectively. The movement of the U.S. dollar against certain foreign currencies resulted in an unfavorable impact on sales of approximately \$21.8 million when compared to the same period last year.

Gross profit in the nine months ended December 31, 2013 was 19.0% of sales, or \$207.6 million, compared to a gross profit margin of 19.0%, or \$200.3 million, in the nine months ended December 31, 2012. Gross profit is in line with prior year which is primarily attributable to an improved product mix of higher margin components coupled with a lower proportion of commodity and KED Resale products partially offset by lower selling prices. Costs due to currency movement of the U.S. dollar against certain foreign currencies were favorably impacted in the current nine month period by approximately \$36.8 million when compared to the same three month period last year.

Selling, general and administrative expenses in the nine months ended December 31, 2013 were \$91.4 million, or 8.4% of net sales, compared to \$88.5 million, or 8.4% of net sales, in the nine months ended December 31, 2012. The overall increase in selling, general and administrative expenses is primarily due to higher selling expenses due to increased sales and higher legal and consulting fees when compared to the same period last year.

Income (loss) from operations was \$116.2 million in the nine months ended December 31, 2013 compared to \$(154.5) million in the nine months ended December 31, 2012. This increase is a result of the factors set forth above and the recognition of a \$266.3 million charge related to remediation issues at the New Bedford Harbor Superfund site in Massachusetts during the nine months ended December 31, 2012.

Our effective tax rate for the nine month period ended December 31, 2013 was 26.2%, compared to 40.6% for the same period last year. The lower effective rate for the nine month period ended December 31, 2013 is primarily due to a favorable impact relating to the release of certain reserves for uncertain tax positions due to the expiration of tax

periods allowed for the audit of certain prior year income tax returns. Excluding such discrete items recorded in the period, the effective tax rate would have been 29.6%. For the nine month period ended December 31, 2012, the higher effective rate is primarily due to the effects of the environmental charge recognized in fiscal 2013 related to the New Bedford Harbor Superfund Site in Massachusetts discussed in “Liquidity and Capital Resources” below and in Note 8 to the Consolidated Financial Statements contained in this Quarterly Report on Form 10-Q, and the expected loss of a U.S. federal tax deduction for fiscal 2013 due to projected annual taxable income limitations. Excluding discrete items recorded in the nine month period ended December 31, 2012 the effective tax rate would have been 29.5%.

As a result of the factors discussed above, net income (loss) for the nine month period ended December 31, 2013 was \$87.9 million compared to \$(88.9) million for the same nine month period last year.

Table of Contents

Outlook

Near-Term:

With uncertain global geopolitical and economic conditions, it is difficult to quantify expectations for the remainder of fiscal 2014. Near-term results for us will depend on the impact of the overall global geopolitical and economic conditions and their impact on telecommunications, information technology hardware, automotive, consumer electronics, and other electronic markets. Looking ahead, visibility is low and forecasting is a challenge in this uncertain and volatile market. We expect to see typical pricing pressure in the markets we serve due to competitive activity. In response to anticipated market conditions, we expect to continue to focus on cost management and product line rationalization to maximize earnings potential. We also continue to focus on process improvements and enhanced production capabilities in conjunction with our focus on the sales of value-added electronic components to support today's advanced electronic devices. If current global geopolitical and economic conditions worsen, the overall impact on our customers as well as end user demand for electronic products could have a significant adverse impact on our near-term results.

Long-Term:

Although there is uncertainty in the near-term market as a result of the current global geopolitical and economic conditions, we continue to see opportunities for long-term growth and profitability improvement due to: (a) a projected increase in the long-term worldwide demand for more sophisticated electronic devices, which require electronic components such as the ones we sell, (b) cost reductions and improvements in our production processes, and (c) opportunities for growth in our Advanced Component and Interconnect product lines due to advances in component design and our production capabilities. We have fostered our financial health and the strength of our balance sheet. We remain confident that our strategies will enable our continued long-term success.

Liquidity and Capital Resources

Liquidity needs arise primarily from working capital requirements, dividend payments, capital expenditures, and acquisitions. Historically, we have satisfied our liquidity requirements through funds from operations and investment income from cash, cash equivalents, and investments in securities. As of December 31, 2013, we had a current ratio of 6.2 to 1, \$985.1 million of cash, cash equivalents, and short-term and long-term investments in securities, \$2,018.7 million of stockholders' equity, and no debt.

Net cash used in operating activities was \$(11.2) million in the nine months ended December 31, 2013 compared to \$148.6 million of cash provided by operating activities in the nine months ended December 31, 2012. The decrease in operating cash flow compared to the same period last year was primarily the result of the \$133.4 million installment payment, plus interest, related to the New Bedford harbor settlement, as discussed below and in Note 8, "Commitments and Contingencies," in our Notes to Consolidated Financial Statements contained in the Quarterly Report on Form 10-Q, as well as higher inventory levels and other net increases in working capital requirements resulting from the higher volume of sales and related production.

Purchases of property and equipment were \$18.1 million in the nine month period ended December 31, 2013 compared to \$34.3 million in the nine month period ended December 31, 2012. Expenditures in the prior year included investments in connection with the expansion of interconnect manufacturing operations in the Czech Republic. We continue to make strategic investments in our advanced passive component and interconnect product lines and expect to incur capital expenditures of approximately \$25 million in fiscal 2014. The actual amount of capital expenditures will depend upon the outlook for electronic component demand and equipment needs.

Table of Contents

The majority of our funding is internally generated through operations and investment income from cash, cash equivalents, and investments in securities. Since March 31, 2013, there have been no material changes in our contractual obligations or commitments for the acquisition or construction of plant and equipment or future minimum lease commitments under noncancellable operating leases. Based on our financial condition as of December 31, 2013, we believe that cash on hand and cash expected to be generated from operating activities and investment income from cash, cash equivalents, and investments in securities will be sufficient to satisfy our anticipated financing needs for working capital, capital expenditures, environmental clean-up costs, funding the remaining New Bedford Harbor settlement, research, development and engineering expenses, acquisitions of businesses, and any dividend payments or stock repurchases to be made during the year. Changes in demand may have an impact on our future cash requirements; however, changes in those requirements are mitigated by our ability to adjust manufacturing capabilities to meet increases or decreases in customer demand. We do not anticipate any significant changes in our ability to generate or meet our liquidity needs in the long-term.

From time to time we enter into delivery contracts with selected suppliers for certain precious metals used in our production processes. The delivery contracts represent routine purchase orders for delivery within three months and payment is due upon receipt. As of December 31, 2013, we did not have any significant delivery contracts outstanding.

We are involved in disputes, warranty, and legal proceedings arising in the normal course of business. While we cannot predict the outcome of these proceedings, we believe, based upon our review with legal counsel, that none of these proceedings will have a material impact on our financial position, results of operations, comprehensive income (loss), or cash flows. However, we cannot be certain if the eventual outcome and any adverse result in these or other matters that may arise from time to time may harm our financial position, results of operations, comprehensive income (loss), or cash flows.

In 1991, in connection with a consent decree finally approved in 1992 (“1992 Consent Decree”), we paid \$66.0 million, plus interest, toward the environmental conditions at, and remediation of, New Bedford Harbor in the Commonwealth of Massachusetts (the “harbor”) in a settlement with the United States and the Commonwealth of Massachusetts (sometimes the “Governments”), subject to reopener provisions, including a reopener if certain remediation costs for the site exceed \$130.5 million.

On April 18, 2012, the EPA issued to the Company a Unilateral Administrative Order (the “UAO”) directing the Company to perform certain remedial actions for the harbor pursuant to the reopener provisions.

On October 10, 2012, the EPA, the United States, the Commonwealth of Massachusetts and AVX announced that they had reached a settlement with respect to the EPA’s ongoing clean-up of the harbor. That agreement is set forth in a Supplemental Consent Decree (“Supplemental CD”) that modifies certain provisions of the 1992 Consent Decree, including elimination of the Governments’ right to invoke any clean-up reopener provisions in the future. Under the terms of the settlement, AVX was obligated to pay \$366.3 million, plus interest computed from August 1, 2012, in

three installments over a two-year period for use by the EPA and the Commonwealth to complete the clean-up of the harbor. The settlement also required the EPA to withdraw the UAO. The United States District Court (the “Court”) approved the settlement and entered the Supplemental CD on September 19, 2013.

On October 18, 2013, the Company paid the initial settlement payment of \$133.4 million, plus accrued interest on the entire settlement amount through that date into a court-managed registry account. Following expiration of the time period for the appeal of the court’s approval of the settlement, such funds were disbursed to the various governments.

In accordance with the terms of the Supplemental CD, AVX is obligated to pay \$110.8 million, plus interest, on September 19, 2014 and \$122.1 million, plus interest, on September 21, 2015. AVX has the option to prepay any portion of the remaining settlement balance at any time prior to the due dates of the remaining installments.

We have also been named as a potentially responsible party in state and federal administrative proceedings seeking contribution for costs associated with the correction and remediation of environmental conditions at various other waste disposal and operating sites. In addition, we operate on sites that may have potential future environmental issues as a result of activities at sites during AVX’s long history of manufacturing operations or prior to the start of operations by AVX. Even though we may have rights of indemnity for such environmental matters at certain sites, regulatory agencies in those jurisdictions may require us to address such issues. Once it becomes probable that we will incur costs in connection with remediation of a site and such costs can be reasonably estimated, we establish reserves or adjust our

Table of Contents

reserves for our projected share of these costs. A separate account receivable is recorded for any indemnified costs. Our environmental reserves are not discounted and do not reflect any possible future insurance recoveries, which are not expected to be significant, but do reflect a reasonable estimate of cost sharing at multiple party sites or indemnification of our liability by a third party.

New Accounting Standards

Information related to new Statement of Financial Accounting Standards and Financial Accounting Standards Board Staff Positions that we have recently adopted or are currently reviewing can be found in Note 1, “Summary of Significant Accounting Policies,” of the Notes to Consolidated Financial Statements and in “Critical Accounting Policies and Estimates” in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” contained in the Annual Report on Form 10-K for the fiscal year ended March 31, 2013. Accordingly, this Quarterly Report on Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended March 31, 2013.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our sales are denominated in various foreign currencies in addition to the U.S. dollar. Certain manufacturing and operating costs denominated in local currencies are incurred in Europe, Asia, Mexico, and Central and South America. Additionally, certain purchases of resale products from Kyocera are denominated in Yen. As a result, fluctuations in currency exchange rates affect our operating results and cash flow. In order to minimize the effect of movements in currency exchange rates, we periodically enter into forward exchange contracts to hedge external and intercompany foreign currency transactions. We do not hold or issue derivative financial instruments for speculative purposes. Accordingly, we have hedging commitments to cover a portion of our exchange risk on purchases, operating expenses, and sales. There have been no material net changes in our exposure to foreign currency exchange rate as reflected in Part II, Item 7A “Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013. See Note 13 of our Notes to Consolidated Financial Statements contained in this Quarterly Report on Form 10-Q for further discussion of derivative financial instruments.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered in this report, we carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures.

In addition, there were no changes in our internal control over financial reporting during the first three quarters of fiscal 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II: OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Please refer to Part I Item 3, “Legal Proceedings,” in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013. In addition, see Note 8, “Commitments and Contingencies,” in our Notes to Consolidated Financial Statements in Part I, Item 1 to this Form 10-Q for a discussion of our involvement as a potentially responsible party at certain environmental remediation sites.

ITEM 1A. RISK FACTORS

Please refer to Part I, Item 1A., Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013 for information regarding factors that could affect our results of operations, financial condition, and liquidity. For an update of risk factors relating to our potential environmental liabilities as described under the caption “Changes in our environmental liability and compliance obligations may adversely impact our operations” in the Annual Report Risk Factors, see Note 8, “Commitments and Contingencies,” in our Notes to Consolidated Financial Statements in Part I, Item 1 to this Form 10-Q.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities
