**Leading Industry Analyst Positions Magic Software in Visionaries Quadrant in Four Quadrant Reports on Application Infrastructure**

**New Research Evaluates Magic Software s Completeness of Vision and Ability to Execute**

OR YEHUDA, ISRAEL; June 20, 2007 -- Magic Software Enterprises Ltd. (Nasdaq: MGIC), a leader in enterprise application development, deployment and integration technology, announced today that it has recently been positioned in the Visionaries Quadrant of four Gartner Magic Quadrants:

•

Application Infrastructure <sup>1</sup>

- 

Application Infrastructure for New Service-Oriented (SOA) Business Application Projects<sup>2</sup>

- 

Application Infrastructure for Composite-Application Projects <sup>3</sup>

- 

Application Infrastructure for Back-End Application Integration Projects <sup>4</sup>

Gartner has defined a new market for application infrastructure that reflects the convergence and overlap of many of the products available to support application development, deployment and execution. Gartner's Magic Quadrant for Application Infrastructure, 2Q07, analyzes the total application infrastructure market and the relevance of suppliers whose products might be used in a variety of project types. Gartner produced three additional Magic Quadrants which reflect a particular emphasis in terms of user objectives and assessment criteria.

We think our focus on SMBs and the ecosystems of SAP, Oracle's JD Edwards World and IBM's System i has certainly helped us both in terms of vision and market reach, commented Avigdor Luttinger, Magic Software's VP of Corporate Strategy.

David Assia, Chairman and acting CEO of Magic Software, added, "We believe the positioning of Magic Software by a leading technology analyst, such as Gartner, in the visionaries quadrant of all the four Gartner Quadrants on Application Infrastructure, confirms the success of our efforts to position Magic as a technology leader for today's business application development and integration projects, in particular in our target ecosystems.

### ***About the Magic Quadrant***

The Magic Quadrants are copyrighted 2007 by Gartner, Inc. and are reused with permission. The Magic Quadrant is a graphical representation of a marketplace at, and for, a specific time period. It depicts Gartner's analysis of how certain vendors measure against criteria for that marketplace, as defined by Gartner. Gartner does not endorse any vendor, product or service depicted in the Magic Quadrant, and does not advise technology users to select only those vendors placed in the "Leaders" quadrant. The Magic Quadrant is intended solely as a research tool, and is not meant to be a specific guide to action. Gartner disclaims all warranties, express or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose.

According to Gartner, the visionaries in this market have exhibited vision across a range of application infrastructure capabilities not necessarily with respect to all capabilities, but many of them. (Magic Quadrant for Application Infrastructure, 2Q07)

***About Magic Software Enterprises***

Magic Software Enterprises (NASDAQ: MGIC) has been a leader in enterprise application development, deployment and integration technology for more than two decades. The company's service-oriented (SOA) platforms are used by companies worldwide to develop, maintain, and deploy both legacy and new business solutions, while integrating these applications across both internal and external, heterogeneous environments. Magic Software's platform-independent methodology lets companies achieve agility by quickly assembling composite applications, allowing programmers to create services and architects and business analysts to orchestrate and reuse these services to enable business processes. Through partnerships with industry leaders such as IBM and SAP and more than 2500 ISVs worldwide, Magic Software technology is used by more than 1.5 million customers around the globe.

Magic Software is a subsidiary of the Formula Systems and Emblaze Group of companies.
