1. Roadnet Technologies and Magic Software Cooperate to Deliver Integrated Transportation Management Solutions

PRESS RELEASE

Roadnet Technologies and Magic Software Cooperate to Deliver Integrated Transportation Management Solutions

Laguna Hills, Calif., USA, August 08, 2011 Magic Software Enterprises Inc., a subsidiary of Magic Software Enterprises Ltd. (NASDAQ: MGIC), a global provider of mobile and cloud-enabled application and business integration platforms, today announced a technology and marketing cooperation agreement with Roadnet Technologies Inc., formerly known as UPS Logistics Technologies.

Roadnet Technologies and Magic Software will cooperate to provide integration to the Roadnet Transportation Suite using Magic Software's iBOLT business integration platform. Roadnet provides optimized street-level route plans, real-time wireless dispatch and GPS, and strategic territory planning and analysis for companies of all sizes in multiple industries.

We were impressed that Magic Software offers the iBOLT integration platform with more than 50 adapters, wizards, services and methods, enabling us to create continuous business processes between Roadnet and other enterprise applications and systems," said Len Kennedy, Chief Executive Officer of Roadnet Technologies. This agreement is good news for customers and partners of Roadnet Technologies and Magic Software who are looking to better integrate business processes for transportation management—a matter of great importance as more companies seek ways to improve fuel efficiency, reduce operational costs, and create greener business practices.

iBOLT is a business integration platform that quickly and cost-effectively integrates enterprise software applications running on diverse databases, operating systems, and platforms.

Implementing a wide range of certified and optimized connectors and adaptors, iBOLT can integrate a wide range of leading ERP, CRM, SCM, accounting, and other enterprise systems such as SAP, Salesforce.com, Oracle JD Edwards, Lotus Notes, Microsoft Office, IBM i (AS/400), HL7, Google Apps, and many more. iBOLT is used in hundreds of integration projects worldwide, including in manufacturing and distribution companies such as Vishay Intertechnology, adidas Canada, and Optik.

We look forward to providing iBOLT integration for Roadnet Technologies' fleet management systems," said Regev Yativ, President and CEO of Magic Software Enterprises Americas. Roadnet Technologies has more than two decades of experience in improving operations for thousands of companies so this cooperation represents an opportunity to offer our solutions to a large installed base of customers.

About Roadnet Technologies Inc.

With headquarters in Baltimore, Roadnet provides transportation management for 190,000 vehicles through 3,400 installations worldwide, representing a variety of industries. Specific transportation management applications provide street-level route plans, real-time wireless dispatch and GPS and strategic territory planning. Customers use the technology and tools for effective fuel management and driver productivity. For more information, visit www.roadnet.com.
