INFORMATION ABOUT VOTING

Who Can Vote

The only voting securities that we have outstanding are shares of our Common Stock. Our Board of Directors has fixed the close of business on Friday, November 25, 2016 as the record date for determination of shareholders entitled to notice of, and to vote at, the Annual Meeting (the Record Date). Only shareholders of record at the close of business on the Record Date are entitled to vote at the Annual Meeting. As of the Record Date, there were 13,793,499 shares of our Common Stock issued and outstanding. The holders of record of the shares of our Common Stock on the Record Date are entitled to cast one vote per share on each matter submitted to a vote at the Annual Meeting.

How You Can Vote

You may submit your proxy by mail, telephone, or the Internet. If you are submitting your proxy by mail, you should complete, sign, and date your proxy card and return it in the envelope provided. Sign your name exactly as it appears on the proxy card. If you plan to vote by telephone or the Internet, voting instructions are printed on your proxy card. If you hold your shares through an account with a brokerage firm, bank, or other nominee, please follow the instructions you receive from them to vote your shares. If you provide specific voting instructions, your shares will be voted as you have instructed. Proxy cards submitted by mail must be received by our voting tabulator no later than January 19, 2017 to be voted at the Annual Meeting. You may also vote in person at the Annual Meeting.

Voting by Proxy

Shares of Common Stock which are entitled to be voted at the Annual Meeting and which are represented by properly executed proxies will be voted in accordance with the instructions indicated on such proxies. If no instructions are indicated, such shares will be voted (i) FOR the election of each of the eight director nominees (Proposal No. 1); (ii) FOR the proposal regarding an advisory vote on executive compensation (Proposal No. 2); (iii) FOR the ratification of the appointment of Deloitte as our independent registered public accountants for the fiscal year ending August 31, 2017 (Proposal No. 3); and in the discretion of the proxy holders as to any other matters as may properly come before the Annual Meeting or at any adjournment or postponement thereof. It is not currently anticipated that any other matters will be presented at the Annual Meeting.

Voting at the Annual Meeting

You may vote in person by written ballot at the Annual Meeting. However, if your shares are held in the name of a broker, trust, bank, or other nominee, you must bring a legal proxy or other proof from that broker, trust, bank, or other nominee of your beneficial ownership of those shares as of the record date in order to vote at the Annual Meeting. If you vote by proxy and also attend the Annual Meeting, you do not need to vote again at the Annual Meeting.

Revocation of Proxies

A shareholder who has completed a proxy may revoke it at any time prior to its exercise at the Annual Meeting by returning a proxy bearing a later date, by filing with the Secretary of the Company, at the address set forth below, a written notice of revocation bearing a later date than the proxy being revoked, or by voting the Common Stock covered thereby in person at the Annual Meeting.

Vote Required

A majority of the votes entitled to be cast at the Annual Meeting is required for a quorum at the Annual Meeting. Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum for the transaction of business. Holders of common stock will vote as a single class.

Unless a nominee receives a greater number of votes “withheld” or “against” than votes “for” such nominee, the eight nominees receiving the highest number of affirmative votes of the shares entitled to be voted for them, up to the eight directors to be elected by those shares, will be elected as directors to serve until the next annual meeting of shareholders and until their successors are duly elected and qualified. Abstentions and broker non-votes will have no effect on the election of directors.

Approval of Proposal No. 2 requires that the number of votes cast in favor of the proposal exceeds the number of votes cast in opposition. Abstentions and broker non-votes will not have any effect on the outcome of this proposal.

The ratification of the appointment of Deloitte as our independent registered public accountants requires that the number of votes cast in favor of the proposal exceeds the number of votes cast in opposition. The Nominating and Governance Committee of the Board (the Nominating Committee) and the Board believe the skills, qualities, attributes, and experiences of its directors provide the Company with the business acumen and range of perspectives to engage each other and management to effectively address our evolving needs and represent the best interests of our shareholders. In addition, the Board firmly believes that the experience, attributes, and skills of any single director should not be viewed in isolation, but rather in the context of the experience, attributes, and skills that all director nominees bring to the Board as a whole, each of whom contributes to the function of an effective Board. Corporate Governance

FranklinCovey upholds a set of basic values and principles to guide our actions, and we are committed to maintaining the highest standards of business conduct and corporate governance. Our emphasis on corporate governance begins at the top, with our directors, who are elected by, and are accountable to you, our shareholders. This commitment to governance extends to our management team and to all of our employees. We have adopted a Code of Business Conduct and Ethics for our directors, officers, and senior financial officers that include the Chief Executive Officer (CEO) and Chief Financial Officer (CFO) and other members of our financial leadership

team. The Corporate Governance Guidelines and Code of Business Conduct and Ethics are available on our website at www.franklincovey.com. In addition, each of the Corporate Governance Guidelines and the Code of Business Conduct and Ethics are available in print free of charge to any shareholder by making a written request to Investor Relations, Franklin Covey Co., 2200 West Parkway Boulevard, Salt Lake City, Utah 84119-2331. The Code of Business Conduct and Ethics applies to all directors, officers, and employees of FranklinCovey.

A feature of our corporate governance is that our standing committees are comprised of independent directors, as discussed below. We believe this structure allows for a collective focus by the majority of our independent directors on the various complex matters that come before Board committees. The overlap inherent in this structure assists these independent directors in the execution of their responsibilities.

Board Oversight

Our Board is responsible for and committed to the independent oversight of the business and affairs of our Company, including financial performance, CEO performance, succession planning, strategy, risk management, and compensation. In carrying out this responsibility, our Board advises our CEO and other members of our senior management team to help drive success for our clients and long-term value creation for our shareholders.

Affirmative Determination Regarding Board Independence

The Board of Directors has determined each of the following directors to be an “independent director” under the listing standards of the New York Stock Exchange (NYSE): Anne H. Chow, Clayton M. Christensen, Michael Fung, Dennis G. Heiner, Donald J. McNamara, and E. Kay Stepp.

In assessing the independence of the directors, the Board of Directors determines whether or not any director has a material relationship with us (either directly, or as a partner, shareholder, or officer of an organization that has a relationship with us). The Board of Directors considers all relevant facts and circumstances in making independence determinations, including the director independence standards adopted by the Board of Directors and the existence of related party transactions as described in the section entitled “Certain Relationships and Related Transactions” found in this report.

Board Leadership Structure

Under our current leadership structure, we have a combined position of Chairman and CEO and an independent director serving as a Lead Independent Director. The Board of Directors does not have a policy on whether the roles of Chairman and CEO should be separate or combined. Our Board assesses these roles and deliberates the merits of its leadership structure to ensure that the most efficient and appropriate structure is in place. In addition, our Board has determined that if the Chairman is not an independent director, then there should also be a Lead Independent Director.

Our Board believes that combining the roles of Chairman and CEO is currently the most effective leadership structure for our Company. Combining these roles ensures that our Company has a single leader who speaks with one voice to our shareholders, clients, employees, regulators, other stakeholders, and to the broader public. Our current CEO, Mr. Whitman, has significant knowledge of, and experience in, our business, industry, operations, and risks, which affords him the insight necessary to guide discussions at Board meetings. Mr. Whitman also provides our Board with updates on significant business developments and other time-sensitive matters.

As CEO, Mr. Whitman is directly accountable to our Board and, through our Board, to our shareholders. His role as Chairman is both counterbalanced and enhanced by the overall independence of the Board and independent leadership provided by our Lead Independent Director, Mr. Heiner. Mr. Heiner, as Chairman of our Nominating and Governance Committee, was designated as the Lead Independent Director by our Board. Our independent directors may elect another independent director as Lead Independent Director at any time. Mr. Whitman and Mr. Heiner meet and speak frequently regarding our Board and our Company.

The Board of Director's Role in Risk Management Oversight

The Audit Committee of our Board of Directors has responsibility for the oversight of risk management, while our management team is responsible for the day-to-day risk management process. With the oversight of the Board of Directors, management has developed an enterprise risk management strategy, whereby management identifies the top individual risks that we face with respect to our business, operations, strategy, and other factors that were recognized after discussions with key business and functional leaders and reviews of external information. In addition to evaluating various key risks, management identifies ways to manage and mitigate such risks. During fiscal 2016, management met with the Audit Committee to discuss the identified risks and the efforts that are designed to mitigate and manage these risks. These risks are allocated to the various committees of the Board of Directors to allow the committees to examine a particular risk in detail and assess its potential impact to our operations. For example, the Audit Committee reviews compliance and risk management processes and practices related to accounting and financial reporting matters; the Nominating Committee reviews the risks related to succession planning and the independence of the Board of Directors; and the Organization and Compensation Committee (the Compensation Committee) reviews the risks related to our various compensation plans. In the event that a committee is allocated responsibility for examining and analyzing a specific risk, such committee reports on the relevant risk exposure during its regular reports to the entire Board of Directors.

As part of its responsibilities, the Compensation Committee periodically reviews our compensation policies and programs to ensure that the compensation programs offer appropriate performance incentives for employees, including executive officers, while mitigating excessive risk taking. We believe that our various compensation programs contain provisions that discourage excessive risk taking. These provisions include:

- An appropriate balance between annual cash compensation and equity compensation that may be earned over several years.
 - Metrics that are weighted between the achievement of overall financial goals and individual objectives.
- Stock ownership guidelines that encourage executive officers to accumulate meaningful levels of equity ownership, which align the interests of executives with those of long-term shareholders.

Based on a review of the nature of our operations by the Compensation Committee, we do not believe that any areas of the Company are incented to take excessive risks that would likely have a material adverse effect on our operations.

BOARD OF DIRECTOR MEETINGS AND COMMITTEES

Overview

During the fiscal year ended August 31, 2016, there were four meetings held by our Board of Directors. All of the members of our Board of Directors were able to attend at least 75 percent of the Board and committee meetings for which they were entitled to participate, except for Clayton M. Christensen, who attended 50 percent of our Board meetings. Although we encourage Board members to attend our Annual Meeting, we do not have a formal policy regarding director attendance at our annual shareholder meetings. Seven members of our Board of Directors attended our most recent annual meeting of shareholders, which was held in January 2016.

Our Lead Independent Director plays an active role on our Board of Directors. Mr. Heiner reviews the agenda, schedule, and materials for each Board and Nominating Committee meeting and presides over executive sessions of the independent directors. Any independent director may call for an executive session and suggest agenda items for Board or committee meetings.

The Audit Committee

The Audit Committee functions on behalf of the Board of Directors in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and met eight times during fiscal 2016. The Audit Committee's primary functions are to:

- assist our Board in its oversight of our financial statements, legal and regulatory compliance, independent auditors' qualification, independence, and performance, internal audit function performance, and internal control over financial reporting;

- decide whether to appoint, retain, or terminate our independent auditors;
- pre-approve all audit, audit-related, tax, and other services, if any, to be provided by the independent auditors; and
 - prepare the Audit Committee Report.

The audit committee is chaired by Mr. Fung and each of the members of the Audit Committee is independent as described under NYSE rules and meets the enhanced independence standards established by Rule 10A-3 promulgated under the Exchange Act. The Board of Directors has determined that one of the Audit Committee members, Michael Fung, is an “audit committee financial expert” as defined in Item 407(d)(5)(ii) of Regulation S-K.

The Nominating Committee

The Corporate Governance and Nominating Committee (the Nominating Committee) is chaired by Mr. Heiner and met four times during the fiscal year ended August 31, 2016. The primary purposes of the Nominating Committee are to:

- recommend individuals for nomination, election, or appointment as members of our Board and its committees;
- oversee the evaluation of the performance of our Board and its committees and our management;
- ensure that our committees are comprised of qualified and experienced independent directors;
- review and concur in the succession plans for our CEO and other members of senior management; and
- take a leadership role in shaping our corporate governance, including developing, recommending to the Board, and reviewing on an ongoing basis the corporate governance principles and practices that apply to our Company.

In carrying out the responsibilities of the Nominating Committee, Mr. Heiner frequently met or had discussions with our CEO during the fiscal year. All of the members of the Nominating Committee are “independent” as defined under NYSE rules.

The Organization and Compensation Committee

We are in a business that relies heavily on our people for a competitive advantage. As a result, our Organization and Compensation Committee plays a pivotal role in enabling us to attract and retain the best talent for the growth and strategic needs of our Company.

The Compensation Committee is chaired by Ms. Stepp and regularly met without any employees present to discuss executive compensation matters, including Mr. Whitman’s compensation package, during fiscal 2016. The primary functions of the Compensation Committee are to:

- determine and approve the compensation of our CEO and other executive officers;
- review and make recommendations to the Board for any incentive compensation and equity-based plans that are subject to Board approval;
- assist our Board in its oversight of the development, implementation, and effectiveness of our policies and strategies relating to our human capital management, including recruiting, retention, career development and progression, diversity and employment practices;

- review management development plans and succession plans to ensure business continuity (other than that within the purview of the Nominating Committee); and
- provide risk oversight of all Company compensation plans.

The Compensation Committee met seven times during fiscal 2016. All of the Compensation Committee members are “independent” as defined under the NYSE enhanced independence standards. As described below in “Compensation Committee Interlocks and Insider Participation” and “Certain Relationships and Related Transactions,” none of the Compensation Committee members had any material business relationships with the Company.

The Compensation Committee administers all elements of our executive compensation program, including our stock-based long-term incentive plans. In consultation with the Compensation Committee, Mr. Whitman annually reviews and establishes compensation for the other Named Executive Officers (as defined below). The Compensation Committee reports quarterly to the full Board on decisions related to the executive compensation program.

Compensation Consultants

Within its charter, the Compensation Committee has the authority to engage the services of outside advisors, experts, and others to assist the committee. During fiscal 2016, the Compensation Committee engaged Mercer as compensation consultants. These compensation consultants provided information to the Compensation Committee regarding stock-based compensation plans, executive compensation, and director compensation that were used as components of the overall mix of information used to evaluate our compensation plans. The Compensation Committee reviewed its relationship with Mercer and has determined that its work has not raised any conflicts of interest. Further information regarding the role of these compensation consultants can be found in the Compensation Discussion and Analysis.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee was or is an officer or employee of the Company or any of our subsidiaries.

Director Nomination Process

As indicated above, the Nominating Committee of the Board of Directors oversees the director nomination process. The Nominating Committee is responsible for identifying and evaluating candidates for membership on the Board of Directors and recommending to the Board of Directors nominees to stand for election. Each candidate to serve on the Board of Directors must be able to fulfill the responsibilities for directors set out in the Corporate Governance Guidelines approved by the Board of Directors. These Corporate Governance Guidelines may be found on our website at www.franklincovey.com. In addition to the qualifications set forth in the Corporate Governance Guidelines, nominees for director will be selected on the basis of such attributes as their integrity, experience, achievements, judgment, intelligence, personal character, ability to make independent analytical inquiries, willingness to devote adequate time to Board duties, and the likelihood that he or she will be able to serve on the Board for a sustained period. In connection with the selection of nominees for director, consideration will be given to the Board’s overall balance of diversity of perspectives, backgrounds, and experiences. We believe it is important to have an appropriate mix of diversity for the optimal functionality of the Board of Directors. Although we do not have a formal diversity policy relating to the identification and evaluation of nominees for director, the Nominating Committee considers all of the criteria described above in identifying and selecting nominees and in the future may establish additional minimum criteria for nominees.

Although not an automatically disqualifying factor, the inability of a candidate to meet independence standards of the NYSE will weigh negatively in any assessment of a candidate's suitability.

The Nominating Committee intends to use a variety of means of identifying nominees for director, including outside search firms and recommendations from current Board members and from shareholders. In determining whether to nominate a candidate, the Nominating Committee will consider the current composition and capabilities of serving Board members, as well as additional capabilities considered necessary or desirable in light of existing Company needs and then assess the need for new or additional members to provide those capabilities.

Unless well known to one or more members of the Nominating Committee, normally at least one member of the Nominating Committee will interview a prospective candidate who is identified as having high potential to satisfy the expectations, requirements, qualities, and capabilities for Board membership.

Shareholder Nominations

The Nominating Committee, which is responsible for the nomination of candidates for appointment or election to the Board of Directors, will consider, but shall not be required to nominate, candidates recommended by our shareholders who beneficially own at the time of the recommendation not less than one percent of our outstanding stock (Qualifying Shareholders).

Generally speaking, the manner in which the Nominating Committee evaluates nominees for director recommended by a Qualifying Shareholder will be the same as for nominees from other nominating sources. However, the Nominating Committee will seek and consider information concerning the relationship between a Qualifying Shareholder's nominee and that Qualifying Shareholder to determine whether the nominee can effectively represent the interests of all shareholders.

Qualifying Shareholders wishing to make such recommendations to the Nominating Committee for its consideration may do so by submitting a written recommendation, including detailed information on the proposed candidate, including education, professional experience and expertise, via mail addressed as follows:

Under the Amended and Restated Shareholders Agreement dated March 8, 2005, between Knowledge Capital and the Company, we are obligated to nominate one designee of Knowledge Capital for election to the Board of Directors. Donald J. McNamara, a current member of our Board of Directors, is the designee of Knowledge Capital pursuant to this agreement. Upon the mutual agreement of the Company and Knowledge Capital, Robert A. Whitman, the Chairman of the Board of Directors, does not currently serve as a designee of Knowledge Capital. The Amended and Restated Shareholders Agreement also provides that we are obligated, if requested by Knowledge Capital, and to the extent permitted by law and applicable rules of the New York Stock Exchange, to ensure that at least one designee of Knowledge Capital is a member of all committees of the Board other than any special committee of directors formed as a result of any conflict of interest arising from any Knowledge Capital designee's relationship with Knowledge Capital. Knowledge Capital has not requested that its designee serve on any committees of the Board and Donald J. McNamara does not currently serve on any Board committees.

All such written communications will initially be received and processed by the office of the Corporate Secretary. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Review and Approval of Related Party Transactions

We review all relationships and transactions in which the Company and certain related persons, including our directors, Named Executive Officers, and their immediate family members, are participants, to determine whether such persons have a direct or indirect material interest. Our legal and accounting departments have responsibility for the development and implementation of processes and controls to obtain information from the directors and Named Executive Officers with respect to related party transactions and for then determining, based upon the facts and circumstances, whether the Company or a related party has a direct or indirect material interest in the transaction. As required under SEC rules, transactions that are determined to be directly or indirectly material to us or the related party are disclosed in our Proxy Statement. In addition, a disinterested majority of the full Board of Directors or Audit Committee reviews and approves any related party transaction that is required to be disclosed.

Related Party Transactions

In fiscal 2009, we acquired the assets of CoveyLink Worldwide, LLC (CoveyLink). CoveyLink conducts seminars and training courses and provides consulting based upon the book *The Speed of Trust* by Stephen M.R. Covey, who is the brother of M. Sean Covey. Prior to the acquisition date, CoveyLink had granted us a non-exclusive license related to *The Speed of Trust* book and related training courses for which we paid CoveyLink specified royalties. As part of the CoveyLink acquisition, an amended and restated license of intellectual property was signed that granted us an exclusive, perpetual, worldwide, transferable, royalty-bearing license to use, reproduce, display, distribute, sell, prepare derivative works of, and perform the licensed material in any format or medium and through any market or distribution channel. The amount expensed for these royalties due to Stephen M.R. Covey under the amended and restated license agreement totaled \$1.4 million during the fiscal year ended August 31, 2016. In connection with the CoveyLink acquisition, we also signed a speaking services agreement that pays Stephen M.R. Covey a portion of the speaking revenues received for his presentations. During fiscal 2016, we expensed \$1.3 million for payment on these presentations.

We pay M. Sean Covey, who is also an officer of the Company, a percentage of the royalty proceeds received from the sales of certain books authored by him in addition to his salary. During the fiscal year ended August 31, 2016, we expensed \$0.3 million for these royalty payments.

We pay the estate of the late Dr. Stephen R. Covey a percentage of the royalty proceeds received from the sale of certain books that were authored by him. During fiscal 2016, we expensed \$0.1 million for royalties under these agreements. The late Dr. Stephen R. Covey is the father of M. Sean Covey.

In fiscal 2016, we employed Joshua M.R. Covey, who is the brother of M. Sean Covey, and paid him compensation totaling \$158,475. We also employ Dr. John Covey, an uncle of M. Sean Covey, and paid him compensation totaling \$136,997 during fiscal 2016.

We employ Curtis Bateman, who is Shawn D. Moon's brother-in-law, and paid him compensation totaling \$197,694 during fiscal 2016. McNamara, a member of our Board of Directors, also beneficially owns a partnership interest in Knowledge Capital. Knowledge Capital beneficially owns 2,812,805 shares of our Common Stock at October 31, 2016.

COMPENSATION DISCUSSION AND ANALYSIS

Our Compensation Committee, composed of three independent directors, determined the fiscal 2016 compensation for Robert A. Whitman, our Chief Executive Officer (CEO); Stephen D. Young, our Chief Financial Officer (CFO); M. Sean Covey, our Executive Vice President for Global Solutions and Partnerships; Shawn D. Moon, our Executive Vice President for Strategic Markets; and Paul S. Walker, our Executive Vice President for Global Sales and Delivery. We refer to these executives collectively as our Named Executive Officers, or NEOs. The material elements of our executive compensation programs and policies, including program objectives, reasons for paying each element and the specific amounts of our NEOs' compensation for fiscal 2016, are explained below. Following this description, you will find a series of tables containing more specific information about our NEOs compensation. We begin with an executive summary to provide a framework for analysis of this information.

Executive Summary

Our executive compensation paid to our NEOs for fiscal 2016 was directly linked to: (1) our operating performance, as measured by reported revenue and Adjusted EBITDA¹, (2) progress toward our major strategic objectives, and (3) continued focus on increasing shareholder value. We hold our NEOs accountable for our performance and for executing key strategies by tying a major portion of their compensation to the achievement of key annual and multi-year performance objectives. This accountability includes setting what we believe to be "stretch" goals. The achievement of these goals requires exceptional performance, especially when the external environment changes. This tight connection between financial performance and compensation means that in years when the targets are not fully achieved, our NEOs do not receive their total targeted cash compensation including their goal-targeted incentives. When performance meets or exceeds the goals that drive shareholder value however, our compensation program rewards our NEOs accordingly. In fiscal 2016, the magnitude of the Adjusted EBITDA contribution associated with the amounts the Company invoiced would have put the Company's performance within its originally targeted range. However, because a significantly higher-than-expected share of the amounts the Company invoiced during the year was recorded as Deferred Revenue, rather than as Revenue (as a result of: the success of the launch of the Company's new All Access Pass offering, and of a higher-than-expected renewal rate of our Education Division's intellectual property and coaching contracts), the amount of Adjusted EBITDA recognized in fiscal 2016 was lower than originally forecasted, and the NEOs did not receive their total targeted cash compensation.

Historical Context: Fiscal 2011-Fiscal 2015

Despite a challenging economy and an ongoing uncertain economic environment, our fiscal 2011 revenue grew \$23.9 million, or 17.5%, to \$160.8 million, and our fiscal 2011 Adjusted EBITDA grew 46.5%, from \$14.4 million in fiscal 2010 to \$21.2 million. Additionally, our Adjusted EBITDA as a percentage of revenue expanded from 10.5% in fiscal 2010 to 13.2% in fiscal 2011 driven by continued execution on our key operating and strategic initiatives.

The Company's positive momentum continued throughout fiscal 2012. Our fiscal 2012 revenue grew \$9.7 million, or 6.0%, to \$170.5 million, and our fiscal 2012 Adjusted EBITDA grew 27.9%, from \$21.2 million in fiscal 2011 to \$27.1 million in fiscal 2012. Additionally, our Adjusted EBITDA as a percentage of revenue expanded from 13.2% in fiscal 2011 to 15.9% in fiscal 2012, driven by continued execution on our key operating and strategic initiatives. As a result of our significant revenue growth and increased profitability in fiscal 2011 and fiscal 2012, our NEOs received the maximum payout of the short-term incentive and earned more of their long-term incentive equity awards.

In fiscal 2013, we exceeded overall Company performance targets which had been set for the year, including revenue growth (including the acquisition of NinetyFive 5) of \$20.5 million (+12.0%) to \$190.9 million, Adjusted EBITDA

growth of \$4.3 million (+16.1%) to \$31.4 million and operating income growth of \$4.0 million (+22.9%) to \$21.6 million. In addition, our Adjusted EBITDA margin (Adjusted EBITDA as a percentage of sales) expanded from 15.9% in fiscal 2012 to 16.4% in fiscal 2013.

1 Throughout this section, we refer to Adjusted EBITDA, a non-GAAP financial measure, which we believe is relevant to understanding our results of operations and compensation performance measures. See Appendix A attached to this proxy statement for a discussion of Adjusted EBITDA and a reconciliation of Adjusted EBITDA to GAAP Net Income for fiscal years 2011 to 2016.

During fiscal 2014, our revenue, profitability and operating margins again grew significantly compared to fiscal 2013, with revenue growth of \$14.2 million (+7.5%) to \$205.2 million, Adjusted EBITDA growth of \$3.0 million (+9.6%) to \$34.4 million and operating income growth of \$3.2 million (+14.6%) to \$24.8 million. Our Adjusted EBITDA margin expanded from 16.4% in fiscal 2013 to 16.8% in fiscal 2014.

In fiscal 2015, we achieved the seventh consecutive year of increased sales for our current business (subsequent to the sale of our products division in fiscal 2008), with revenue increasing \$4.8 million (+2.3%), even after \$5.2 million of negative impact from foreign exchange rates. However, the negative impact of foreign exchange and other factors resulted in a \$2.6 million (-7.4%) decrease in Adjusted EBITDA, and a decrease in our Adjusted EBITDA margin from 16.8% in fiscal 2014 to 15.2% in fiscal 2015.

Fiscal 2016 Performance

During fiscal 2016, we introduced the All Access Pass. The All Access Pass offers an intellectual property license to our clients that provides them with access to our world-class content, assessments, tools and videos through a web-based portal. The launch of the All Access Pass was well received by our existing and potential clients during fiscal 2016. However, based on the nature of All Access Pass sales and applicable accounting guidance for multiple element arrangements, we defer a portion of All Access Pass bookings and recognize the deferred portion over the life of the contract. For instance, during fiscal 2016, we invoiced \$23.2 million of All Access Pass contracts and related services, but recognized only \$15.9 million of this amount as sales. Approximately \$7.3 million of those invoiced contracts remained unrecognized at August 31, 2016 and will benefit future periods. This deferral of All Access Pass revenue had an unfavorable impact on our financial results in fiscal 2016 when compared with fiscal 2015 as the deferred revenues also have high gross margins which are also deferred, resulting in a substantial corresponding impact on our current period operating income. The higher-than-expected renewal rate of our intellectual property and coaching contracts in the Education Division (94% in fiscal 2016 versus just over 90% in fiscal 2015), resulted in an additional \$1.6 million increase in Deferred Revenue compared to that incurred in the Education Division in fiscal 2015.

Also contributing to the fiscal 2016 results was the impact of a large government contract from which we recognized \$3.9 million of operating income in fiscal 2015 that was not opened for renewal bids in fiscal 2016. As a result of our new business model with the All Access Pass, the higher-than-expected deferred revenue in the Education Division, and the non-repeat of the large government contract, our reported results were as follows:

- **Revenue:** The Company's fiscal 2016 revenue declined \$9.9 million (-4.7%) to \$200.1 million. Over the past two years, revenue declined from \$205.2 million to \$200.1 million, a decrease of \$5.1 million (-2.5%). Over the past three years, revenue grew from \$190.9 million to \$200.1 million, an increase of \$9.1 million (+4.8%).
- **Adjusted EBITDA:** The Company's Adjusted EBITDA decreased from \$31.9 million in fiscal 2015 to \$26.9 million in fiscal 2016, a decrease of 15.6% (with an additional \$7.5 million in Adjusted EBITDA Contribution embedded in the \$8.6 million increase in Deferred Revenue). Our Adjusted EBITDA decreased from \$34.4 million in fiscal 2014 to \$26.9 million in fiscal 2016 (excluding the increase in very high margin Deferred Revenue over that same period).
- **Operating Income:** Again, reflecting the \$8.6 million increase in high-gross margin Deferred Revenue, and the non-repeat of the large government agency contract, our operating income declined from \$19.5 million in fiscal 2015 to \$13.8 million in fiscal 2016, a decrease of \$5.7 million (-29.1%). Reflecting these same factors, our two-year operating income decreased from \$24.8 million in fiscal 2014 to \$13.8 million in fiscal 2016, a decrease of \$10.9 million (-44.1%).

Key Fiscal 2016 Compensation Decisions and Actions

The Compensation Committee made the following executive compensation decisions and took the following executive compensation actions for fiscal 2016:

Salaries:

- CEO's Salary: Mr. Whitman's salary remained at the same level as in fiscal 2015.

- Other NEO Salaries: Fiscal 2016 salaries for our other NEOs remained at the same levels as in fiscal 2015 with the exception of a slight increase for Steve Young, our CFO. This increase was based on market data.

Annual Incentive Payments: We set financial and strategic targets for fiscal 2016 at the beginning of the year that required the Company to achieve what we believed was an aggressive year-over-year increase in Adjusted EBITDA, as well as specific strategic goals, in order for each NEO to achieve 100% of his targeted annual incentive opportunity. An even higher year-over-year increase in Adjusted EBITDA was required in order for each NEO to achieve the maximum possible annual incentive of up to 200%. While one of our strategic goals was exceeded, we did not adjust our predetermined annual bonus payment criteria for the business changes discussed above. Accordingly, and in keeping with the Company's philosophy of paying for performance, our NEOs received only 15% payout of their targeted annual incentive opportunity, which payout was tied to achievement for the strategic goal that was exceeded, and nothing based on the revenue and Adjusted EBITDA metrics.

Long-Term Incentive Awards: Consistent with prior years, we developed a long-term performance-based equity award program in fiscal 2016. During fiscal 2016, we awarded performance-based restricted stock units (RSUs) to our executive team, including our NEOs, to encourage the achievement of continued extraordinary performance in the future. Consistent with prior years, seventy percent of the RSU award vests on achievement of what we believe to be aggressive rolling four-quarter Adjusted EBITDA targets, with the award opportunity divided equally into three tranches that vest subject to different levels of achievement. Thirty percent of this RSU award vests subject to the achievement of what we believe to be aggressive increased rolling four-quarter sales of specific, strategically important offerings, with the award opportunity also divided equally into three tranches that vest subject to different levels of achievement. Each of these six tranches will vest only if the applicable performance targets are achieved. If the performance targets are not achieved, then the awards are forfeited.

Shareholder-Minded Compensation Practices

The Compensation Committee reviews and considers the views of institutional shareholders and proxy advisory firms on corporate pay practices. In this regard, we reach out to key shareholders to solicit their views on executive compensation and consider the results on our annual "say-on-pay" voting. In order to maintain best practices for compensation, the Compensation Committee has implemented and maintained the following policies:

- Clawback Policy - The Board is empowered to require reimbursement of any annual incentive payment or long-term incentive payment made to an executive officer where: (1) the payment was predicated upon achieving certain financial results that were subsequently the subject of a substantial restatement of Company financial statements filed with the SEC; (2) the Board determines the executive engaged in misconduct that caused the need for the substantial restatement; and (3) a lower payment would have been made to the executive based upon the restated financial results. In such instance, the Company will seek to recover from the individual executive the amount by which the individual executive's incentive payments for the relevant period exceeded the lower payment that would have been made based on the restated financial results.

- Hedging Policy – Our directors and executive officers are prohibited from trading in publicly traded options, puts, calls or other derivative instruments related to Franklin Covey stock or debt. All other employees are discouraged from engaging in hedging transactions related to Company stock.
- No Repricing Without Shareholder Approval – Our equity plans expressly prohibit option repricing without shareholder approval.
 - No Excise Tax Gross-ups – Excise tax gross-ups for our NEOs are prohibited.

- **Stock Ownership Guidelines** – Our stock ownership guidelines require an ownership threshold of five times base salary for our CEO, three times base salary for our CFO and two times base salary for our other NEOs, with all NEOs targeted to reach these applicable thresholds within five years of the policy becoming applicable to the particular executive and from the date each executive first has shares awarded as part of their annual compensation. Shares awarded but not yet vested are included in calculating the required threshold. NEOs are prohibited from selling any shares until after these guidelines are met. In addition, a Board policy requires that each director who is not an employee of the Company must maintain beneficial ownership of the Company’s common stock and/or fully vested RSUs equal in value to at least four times the Board cash retainer at all times during his or her tenure on the Board. New directors have up to three years of service on the Board in which to meet this ownership requirement.
- **No Significant Perquisites** – No “corporate perquisites” such as country club memberships or automobile allowances are provided to our NEOs.
- **No Employment Agreements for NEOs and Limited Change-in-Control Benefits** – The Company does not enter into employment agreements with its NEOs, and has a change-in-control policy for its NEOs that provides for a potential Change-in-Control severance benefit of only one times total targeted annual cash compensation without any excise tax gross-ups.
- **Pay for Performance** - The performance-based awards we granted in fiscal 2016 were designed to incentivize even greater achievement levels in the Company’s future results of operations, and payout only if these operating improvements were achieved.
- **Efficient Share Utilization** - The Compensation Committee believes that the Company’s historical utilization of shares for compensation purposes has been relatively low and is expected to remain relatively low in the future.

Consideration of 2016 Say-On-Pay Voting Results

At our 2016 Annual Meeting, we held our annual advisory “say-on-pay” vote with respect to the compensation of our NEOs. Over 99% of the votes cast were in favor of the compensation of our NEOs. Our Board of Directors and the Compensation Committee considered and discussed this shareholder vote result during fiscal 2016 and, based in part on the level of shareholder support, determined not to make significant changes to the existing program for fiscal 2016. The Compensation Committee will, from time to time, continue to explore various executive pay and corporate governance changes to the extent appropriate in an effort to keep our executive compensation program aligned with best practices in our competitive market and the company’s particular circumstances, and expects to consider shareholder views in so doing. The Compensation Committee intends to continue holding say-on-pay votes with shareholders on an annual basis, and the next such vote is scheduled for the 2017 Annual Meeting.

Guiding Philosophy, Principles and Objectives of Our Executive Compensation Program

To fulfill our mission and implement our strategy, FranklinCovey must attract, motivate and retain highly qualified employees. We achieve this, in part, through a competitive performance-based total compensation program. We align our executives’ interests with those of our shareholders by tying almost all short- and long-term incentive compensation to the Company’s achievement of key measures of growth and profitability.

We believe variable, performance-based compensation should constitute a significant percentage of our executives’ overall potential compensation opportunity. All executive base, short-term incentive and long-term incentive pay compensation is market-based, and variable pay and long-term incentive pay is linked to, and designed to reward the

achievement of, specific performance targets.

The philosophy and objectives of our executive compensation program are reflected in the compensation principles listed below, which guide the Compensation Committee in its oversight of our compensation practices and plans. The specific objectives of our executive compensation program are to reward achievement of our strategic and annual business plans and to link a major portion of pay directly to performance. The key principles the Compensation Committee employs are to:

25

- Reflect Performance:** To align compensation with performance over both the short and long term, we establish multi-year objectives for the Company relating both to growth and to the achievement of strategic objectives. Annual performance targets are established in the context of these multi-year objectives, and for fiscal 2016 consisted primarily of goals for growth in revenue and Adjusted EBITDA. NEO pay levels for the year are determined by assessing the Company's level of achievement compared to these objectives. Since our NEOs have responsibility for our overall Company performance against these objectives, their compensation can vary, and has varied, significantly from year to year.
- Encourage Long-Term Company-Wide Focus:** We believe that compensation should encourage and reward both the achievement of annual objectives and longer-term Company-wide performance improvement. Our share price is a key indicator of performance and value received by our shareholders. Therefore, we utilize a performance-based RSU program to focus NEO efforts on long-term growth in shareholder value. We believe that paying a significant portion of variable compensation to our NEOs in the form of equity-based compensation that vests over a period of time, based on performance, also encourages a long-term, Company-wide focus. Value is realized through delivering results today, but in a way that builds the foundation for delivering even stronger results in the future. We believe that this practice will lead to our NEOs having a considerable investment in our shares over time. This investment in turn advances both a culture of teamwork and partnership, and encourages a stewardship mentality for the Company among our key leaders.
- Attract and Retain Talent:** We believe that we have a deep understanding of the importance of hiring and retaining the best people. Retention of talented employees is critical to successfully executing our business strategy. We seek to be what we refer to internally as "the workplace of choice for achievers with heart." Successful execution of our business strategy requires that our management team be in place, engaged and focusing their best energy and talents on achieving our business goals and strategies. For us, compensation is not just an overhead expense, it is a key component of the investments we make and costs we incur to generate our revenues. For our delivery consultants, a portion of this compensation cost is reflected as cost of goods sold. In determining the compensation of our NEOs and in reviewing the effectiveness of our compensation program for attracting and retaining talent, the Compensation Committee generally considers the competitive market for talent. We believe that our compensation programs should enable us to attract and retain talented people, and incentivize them to contribute their finest talents to achieving our objectives. We are pleased that our executive officers have an average tenure of over 19 years with our Company (ranging from 16 years on the low-end to 31 years on the high-end).

In addition to working to align our compensation programs with the achievement of objectives that drive shareholder value, the Compensation Committee also considers the consistency of our compensation programs and works to ensure that our variable compensation does not encourage imprudent risk-taking. We have determined that our Company's approach to the compensation process addresses shareholder concerns regarding prudence and pay-for-performance through a combination of:

- controls on the allocation and overall management of risk-taking;
- comprehensive profit and loss and other management information which provides ongoing performance feedback;
- rigorous, multi-party performance assessments and compensation decisions; and
- a Company-wide compensation structure that strives to meet industry best practice standards, including a business model that is based on compensating our associates in direct proportion to the revenue and profit-contribution they generate.

Our compensation framework seeks to achieve balance between risk and reward. Our executive team is involved in identifying relevant risks and performance metrics for our business. We create a cadence of accountability within our organization through continuous evaluation and measurement of performance compared to what we refer to internally as our “Wildly Important Goals” of achieving profitable growth, meeting strategic objectives and building

a winning culture. Based on the considerations discussed above, in connection with its compensation decisions for fiscal 2016, our Compensation Committee concluded that our Company's compensation program and policies are structured such that they do not encourage imprudent risk-taking, and that there are no risks arising from such programs and policies that are reasonably likely to have a material adverse effect on the Company.

2016 Executive Compensation Program

Our fiscal 2016 executive compensation program incorporated five main elements:

- Base salary;
- Short-term performance-based variable pay plan;
- Long-term incentive equity awards in the form of ongoing performance-based RSUs;
- Other benefits (primarily insurance, as discussed below) are generally available to all employees on similar terms, except as specifically described below; and
- Severance and change-in-control benefits which are substantially the same for our NEOs as they are for other employees.

Analysis of Fiscal 2016 Compensation Decisions and Actions

Fiscal 2016 Executive Compensation Determination Process

The Compensation Committee determined the form and amount of fixed compensation and established specific performance metrics for determining year-end variable compensation to be awarded to our NEOs for fiscal 2016. In so doing, our Compensation Committee considered (1) our financial performance over the prior year and past several years and expectations for fiscal 2016, (2) the individual and collective performance of our NEOs relative to the achievement of metric-based strategic objectives related to growth in our key practice areas, and (3) in connection with our goal of attracting and retaining the best talent, a general understanding of market compensation practices. In particular, the Compensation Committee reviewed the following financial metrics and related growth rates in connection with making its key compensation decisions:

- Revenue;
- Adjusted EBITDA and Operating Income; and
- Multi-year increases in Operating Income, Adjusted EBITDA and specific revenue targets.

Management Input Regarding Compensation Decisions: Our Compensation Committee meets in executive session to discuss the performance of our CEO and each of the other NEOs. Our CEO submitted year-end variable compensation calculations (certified by our CFO) to the Committee for our other NEOs. These calculations and recommendations precisely followed the payout guidelines established for incentive compensation relating to financial performance.

Market Assessment: Our Compensation Committee evaluates our existing NEO compensation program against market practices. In so doing, the Committee asked Mercer, the Committee's current compensation consulting firm, to assess our compensation program for the NEOs, identify considerations that could inform compensation decisions for fiscal 2016 and advise as to current market practices, trends and plan designs related to executive compensation. In connection with its work, Mercer reviewed data from its own research and databases. This information was used primarily as supplemental data to assist the Compensation Committee in understanding current market practices related to executive compensation, and not for specific or mathematical benchmarking. In its assessment of our compensation program for our NEOs, Mercer confirmed that the amounts of compensation are consistent with market compensation for similar-sized and comparable professional services and content companies, and that the program has been aligned with and is sensitive to corporate performance. Further, Mercer advised that the compensation program contains features that reinforce significant alignment with shareholders and a long-term focus, and blends subjective assessment and policies in a way that addresses known and perceived risks.

The Compensation Committee has assessed Mercer's independence, as required under NYSE rules. The Compensation Committee has also considered and assessed all relevant factors, including those required by the SEC that could give rise to a potential conflict of interest with respect to Mercer during fiscal 2016. Based on this review, the Compensation Committee did not identify any conflict of interest raised by the work performed by Mercer.

In making executive compensation decisions for fiscal 2016, the Compensation Committee considered our business objectives and how executive compensation could and should drive desired performance toward achieving them. The Compensation Committee also took into consideration the specific business opportunities and challenges facing the Company as compared to those of known competitors and similar sized companies. However, the Compensation Committee did not specifically benchmark elements of compensation when making its fiscal 2016 executive compensation decisions. Finally, the Compensation Committee considered the past performance of our NEOs, including performance against previous individual and corporate objectives, expected contribution to future corporate objectives and whether the NEOs' performance was achieved consistent with our governing values. The Compensation Committee made final judgments regarding the appropriate compensation level for each NEO based on these additional inputs.

The following peer group was again adopted for fiscal 2016. These companies were selected based on size, industry and types of professional services offered. Annual revenues for this peer group (which is one of several factors considered when selecting a peer group) range from \$182 million to \$930 million. Since our fiscal 2016 revenues totaled \$200.1 million, we believe this peer group is appropriate for comparison purposes. This peer group is one of many tools used by the Compensation Committee for assessing executive compensation; we do not specifically benchmark pay to that of the peer group. The peer group companies for fiscal 2016 were:

- The Advisory Board Company
 - Callidus Software Inc.
 - CEB Inc.
 - Exponent Inc.
- GP Strategies Corporation
 - The Hackett Group, Inc.
 - Healthstream, Inc.
- Huron Consulting Group Inc.
- Information Services Group, Inc.
 - RCM Technologies, Inc.
 - Resources Connection Inc.

Decisions on Key Elements of Fiscal 2016 Executive Compensation

Total Compensation: In addition to the specific elements of compensation discussed below, we consider the total compensation provided our NEOs and establish annual targets for them. Based on considerations as described above, the Compensation Committee established fiscal 2016 total compensation targets of approximately \$2.1 million for our CEO and approximately \$761,125, on average, for our other NEOs, in each case assuming achievement of targeted results under our performance-based variable pay plan. The calculation excludes book royalty payments made to Mr. Sean Covey as noted in the Fiscal 2016 Summary Compensation Table.

Base Salaries: The Compensation Committee annually reviews market data and may increase base salaries in the future to remain at competitive levels. However, the Committee continues to emphasize performance based variable pay as the means by which executives may increase their total compensation. As described above, we did not increase base salaries for any of our NEOs, with the exception of a slight increase for Steve Young, our CFO.

Annual Performance-Based Variable Pay – Financial Objectives: In fiscal 2016, the performance-based variable pay plan for our NEOs included two components for the payout calculation: (1) the annual financial performance of the Company (70% of payout) and (2) metric-based executive team performance objectives (30% of payout). The target variable performance payout opportunities for our NEOs were determined by the Committee based on the consideration described above as follows: \$525,000 for Mr. Whitman; \$215,000 for Mr. Young and \$200,000 for

each of Mr. Covey, Mr. Moon and Mr. Walker. The performance-based variable pay plan reinforces our strong pay-for-performance philosophy and rewards the achievement of specific stretch business and financial goals achieved during the fiscal year.

Consistent with our practice of setting what we believe are aggressive performance goals for our NEOs, the financial performance threshold necessary for NEO's to earn 100% of their targeted short-term incentive payout opportunity for financial performance in fiscal 2016 was \$35 million of Adjusted EBITDA. During fiscal 2016, the Compensation Committee decided to exclude the impact of foreign exchange on the calculation of short-term incentive pay given that any adverse or positive effect of foreign currency rate fluctuation is outside management's control. Excluding the approximately \$7.5 million in Adjusted EBITDA contribution embedded in the \$8.6 million increase in Deferred Revenue during the year (described below), the Company's Adjusted EBITDA in fiscal 2016 was \$26.9 million, including \$0.9 million of negative foreign exchange impact. Accordingly, because the Company did not achieve the threshold of financial performance, no payout was made for this component of the fiscal 2016 annual incentive. As further described below, our NEOs each received a payout of approximately 15% of targeted annual incentive pay for the metric-based executive team performance objectives, based on the degree of achievement of the specified strategic objectives.

Deferred Revenue Recognition: As previously described, during 2016, the Company's mix of revenue from certain businesses changed meaningfully as a result of the introduction of the All Access Pass, and the higher-than-expected renewal rate for intellectual property and coaching contracts in the Company's Education Division. The accounting rules applicable to some of the new business invoiced required that a portion of the revenue not be recognized in the year of sale, but rather be deferred to the following year, 2017. As a result of the deferral, the EBITDA target for the incentive plan in 2016 was not met. The Compensation Committee appropriately did not change the plan and therefore, no incentive was paid. Inasmuch as the Company and shareholders have already received, or will receive the benefit from the deferred revenue, and since the new incentive plan for 2017 does not provide for any compensation benefit from those deferred sales, subsequent to year-end fiscal 2016, the Compensation Committee determined it appropriate to provide a one-time incentive opportunity and payout for the Adjusted EBITDA contribution which was embedded in the 2016 revenue which was deferred into 2017. For fiscal 2017, the Adjusted EBITDA targets used for incentive plans will be based on an apples-to-apples "amounts invoiced," such that the revenue used in calculating Adjusted EBITDA will match with the year of sale.

Fiscal 2016 Annual Performance-Based Variable Pay Percentages

The following table shows the potential payouts based on the degree of attainment of the fiscal 2016 Adjusted EBITDA target, assuming attainment of the specified Performance Objectives. The Adjusted EBITDA amounts shown in the table below reflect the performance-based variable pay opportunities available to our NEO's for fiscal 2016, excluding the impact of foreign exchange rates and the change of STIP expense.

Name	Adjusted EBITDA less than \$31.9 million and not meeting Performance Objectives	Pro-rata share of 70% financial performance metric for achieving Adjusted EBITDA as calculated if > \$31.9 million and < \$35 million and meeting Performance Objectives	Targeted EBITDA of \$35 million and meeting Performance Objectives	Adjusted > \$35 million and < \$38.2 million in and meeting Performance Objectives	Pro-rata share of total target opportunity for achieving Adjusted EBITDA as calculated if equal to or greater than \$38.2 million in 2016 and meeting Performance Objectives
Robert A. Whitman	0%	Pro-rata calculation	100%	Pro-rata calculation	200%
Stephen D. Young	0%	Pro-rata calculation	100%	Pro-rata calculation	200%
M. Sean Covey	0%	Pro-rata calculation	100%	Pro-rata calculation	200%
Shawn D. Moon	0%	Pro-rata calculation	100%	Pro-rata calculation	200%
Paul S. Walker	0%	Pro-rata calculation	100%	Pro-rata calculation	200%

As discussed above, no amounts were paid based on these metrics for fiscal 2016.

Annual Performance-Based Variable Pay - Executive Team Performance Objectives: As described above, 70% of short-term incentives was based on achievement of specific Adjusted EBITDA targets. An additional 30% of targeted short-term incentive compensation for our NEOs depended on the achievement of specific metric-based performance objectives related to the achievement of key strategic milestones. These milestones were determined at the beginning of fiscal 2016. Because these goals were strategic in nature, and we believe that disclosing specifics could cause potential competitive harm, they are not disclosed.

However, these objectives were individually weighted based on difficulty and on the effort required to achieve the goal, with most goals weighted between 30% and 40% of this portion of the short-term variable pay award. We

believe that the goals established for each NEO were “stretch” goals tied to achieving our annual plan in support of the Company’s long-term strategy. Each goal was typically linked to what we refer to internally as our “Wildly Important Goals” that are cascaded throughout the Company, and progress toward each of these goals was tracked regularly. For NEOs to receive the maximum payout on this portion of their incentive, they had to meet each one of these aggressive goals, including achieving \$35 million in Adjusted EBITDA. For fiscal 2016, NEOs were paid a significantly reduced portion of their short-term variable pay tied to these executive team performance objectives since target levels of performance for each objective were not attained.

Equity Compensation

Equity Awards Generally: We believe that the granting of long-term awards over the years has created strong alignment of interest between NEOs and shareholders, as reflected in our strong financial performance from fiscal 2010 through fiscal 2016, which would have been even stronger in common currency over that period. The same program and philosophy was reflected in our use of equity awards in fiscal 2016.

Long-Term Incentive Plan (LTIP) – Performance-Based Equity Grants: In fiscal 2005, the Compensation Committee adopted a long-term incentive strategy using performance-based shares as a component of total targeted compensation. The LTIP was established as a performance incentive for senior management, including our NEOs, to achieve specific financial objectives included in our long-term financial plan. A significant portion of our NEOs’

total targeted compensation is in the form of RSU awards that vest solely upon the achievement of these key financial objectives over a period of years. Descriptions of the LTIP awards currently outstanding, each of which has a six-year life, are as follows:

- **Fiscal 2016 LTIP Award** - During fiscal 2016, the Compensation Committee granted a new performance-based RSU award for our executive officers and additional members of senior management. The dollar value of fiscal 2016 LTIP award share units granted to NEOs was equal to the dollar value awarded to NEOs in fiscal 2015; however, due to the decrease in the Company's share price, the actual number of shares increased from the previous year since the dollar value of the award divided by the share price on the grant date equals the number of share units awarded. A total of 231,276 shares may be awarded under the RSUs to the participants based on six individual vesting conditions that are divided into two performance measures: (1) trailing four-quarter Adjusted EBITDA and (2) increased sales of the Organization Development Suite (OD Suite) of offerings. The OD Suite is defined as Leadership, Productivity and Trust Practice sales. Multi-year Adjusted EBITDA targets for this award (excluding the impact of FX and STIP) are \$36.0 million, \$40.0 million and \$44.0 million (70% of the award shares), and the targets related to increased sales of the OD Practice Sales \$107.0 million, \$116.0 million and \$125.0 million (30% of the award shares). All tranches of this award remain unvested.
- **Fiscal 2015 LTIP Award** - During fiscal 2015, the Compensation Committee granted a new performance-based award for our executive officers and certain members of senior management. A total of 112,464 shares may be awarded to the participants based on six individual vesting conditions that are divided into two performance measures: (1) trailing four-quarter Adjusted EBITDA and (2) increased sales of the OD Suite of offerings. Multi-year Adjusted EBITDA targets for this award are \$39.6 million, \$45.5 million and \$52.3 million (70% of the award shares), and the targets related to increased sales of the OD Suite are \$107.0 million, \$118.0 million and \$130.0 million (30% of the award shares). As of August 31, 2016, all tranches of this award remain unvested.
- **Fiscal 2014 LTIP Award** – During fiscal 2014, the Compensation Committee approved the grant of new performance-based RSU awards to our NEOs involving a total of 89,418 shares. The awards are subject to six individual vesting conditions that are divided into two performance measures: (1) trailing four-quarter Adjusted EBITDA and (2) trailing four-quarter increased sales of courses related to The 7 Habits of Highly Effective People. Multi-year Adjusted EBITDA targets for this award are \$37.0 million, \$43.0 million and \$49.0 million (70% of the award shares), and the targets related to increased sales of The 7 Habits of Highly Effective People courses are \$5.0 million, \$10.0 million and \$12.5 million (30% of the award shares). As of August 31, 2016, participants had vested in the first two tranches of 8,942 shares (each), based on the achievement of \$5.0 and \$10.0 million of increased sales of The 7 Habits of Highly Effective People courses. All other tranches of this award remain unvested.
- **Fiscal 2013 LTIP Award** – During fiscal 2013, the Compensation Committee granted performance-based RSU awards to the CEO, CFO and one other executive officer involving a total of 68,085 shares. The award is subject to six individual vesting conditions that are divided into two performance measures, Adjusted EBITDA and Productivity Practice sales. Multi-year Adjusted EBITDA targets for this award are \$33.0 million, \$40.0 million and \$47.0 million (70% of the award shares) and Productivity Practice sales targets are \$23.5 million, \$26.5 million, and \$29.5 million (30% of the award shares), each over a rolling four-quarter period. As of August 31, 2016, participants had vested in the first tranche of 15,887 shares related to Adjusted EBITDA and the first tranche of 6,808 shares related to Productivity Practice sales. All other tranches of this award remain unvested.
- **Fiscal 2012 LTIP Award** – During fiscal 2012, the Compensation Committee granted performance-based RSU awards to the CEO, CFO and one other executive officer similar to the fiscal 2013 award described above, involving a total

of 106,101 shares. The award is subject to six individual vesting conditions that are divided into two performance measures, Adjusted EBITDA and Productivity Practice sales. Adjusted EBITDA targets for this award are \$26.0 million, \$33.0 million and \$40.0 million (70% of the award shares) and Productivity Practice sales targets are \$20.5 million, \$23.5 million and \$26.5 million (30% of the award shares), each over a rolling four-quarter period. As of August 31, 2016, participants had vested in the first two tranches of 24,757 shares related to Adjusted EBITDA and the first two tranches of 10,610 shares related to Productivity Practice sales. The other two tranches of this award remain unvested.

We believe that our RSU programs align a significant portion of our executive compensation with increasing value to our shareholders. For further information regarding our LTIP awards and other share-based compensation instruments, please refer to the notes to our financial statements found in our Annual Report on Form 10-K for the fiscal year ended August 31, 2016.

Stock Options: The 631,250 stock options outstanding as of August 31, 2016 are from fiscal 2010 and fiscal 2011 stock option grants to the CEO and CFO. These options vested in the second quarter of 2013 and were related to achieving specific stock price objectives for the extinguishment of the management stock loan program, which resulted in 3.3 million shares coming back into the Company's treasury. These options were vested and exercisable as of August 31, 2016.

Qualified Retirement Benefits: Each of our NEOs participates in the Franklin Covey 401(k) plan, which is our tax-qualified retirement plan available to all eligible U.S. employees. We match participant contributions dollar for dollar the first 1% of salary contributed to the 401(k) plan and 50 cents on the dollar for the next 4% of salary contributed. Our match for executives is the same match received by all associates who participate in the 401(k) plan. Contributions to the 401(k) plan from highly compensated employees are currently limited to a maximum of 7% of compensation, subject to statutory limits.

Other Benefits: The Compensation Committee evaluated the market competitiveness of the executive benefit package to determine the most critical and essential benefits necessary to retain executives. Based on information on benefits from Mercer, the Compensation Committee determined to include executive life insurance for specific NEOs. In addition, the Company agreed to provide our CEO with supplemental disability insurance after he voluntarily terminated his employment agreement with the Company, and in consideration of the years during which our CEO received no compensation. Our Compensation Committee was provided with the estimated value of these items (which value is included in the Fiscal 2016 Summary Compensation Table below), and determined, as in prior years, that these amounts were not material in determining our NEOs' fiscal 2016 compensation.

- **Term Life Insurance:** Franklin Covey provides a portable 20-year term life policy for the CEO and CFO. The coverage amount is 2.5 times each executive's target cash compensation (base salary + target annual incentive).
- **Supplemental Disability Insurance:** We provide our CEO with long-term disability insurance which, combined with our current group policy, provides, in aggregate, monthly long-term disability benefits equal to 75% of his fiscal 2016 target cash compensation. Executives and other highly compensated associates may purchase voluntary supplemental disability insurance at their own expense.

Consistent with the spirit of partnership at Franklin Covey, no club memberships, automobiles or similar "corporate perquisites" are provided to NEOs, and we do not allow reimbursement for those costs.

We maintain a number of other broad-based employee benefit plans in which, consistent with our values, our NEOs participate on the same terms as other employees who meet the eligibility requirements, subject to any legal limitations on amounts that may be contributed to or benefits payable under the plans. These benefits include:

- **Our High Deductible Health Plans and Health Savings Accounts** administered pursuant to Sections 125 and 223 of the Internal Revenue Code of 1986, as amended (the Code).
- **Our Employee Stock Purchase Plan** implemented and administered pursuant to Section 423 of the Code.

Severance Policy: We have implemented a severance policy to establish, in advance, the appropriate treatment for terminated executives and to ensure market competitiveness. The severance policy uses the same benefit formula for our NEOs as it uses for all of our employees. We do not gross-up severance payments to compensate for taxes. For

more information about the terms of the severance policy, see the section below entitled “Executive Compensation – Potential Payments Upon Termination or Change-in-Control.”

Employment Agreements and Change-in-Control Severance Agreements: We do not have employment agreements with any of our NEOs, but are a party to change-in-control severance agreements with each of our NEOs. These agreements are designed to retain our NEOs in the event a change-in-control transaction is proposed. In such situations, the change-in-control benefit may alleviate some of the financial and career concerns often associated with a change-in-control, and enable our NEOs to focus on the proposed transaction. For more information about the terms of these change-in-control severance agreements, see the section below entitled “Executive Compensation – Potential Payments Upon Termination or Change-in-Control.”

Section 162(m): Section 162(m) of the Code imposes a \$1.0 million limit on the amount that a public company such as ours may deduct for compensation paid to the company’s principal executive officer or any of the company’s three other most highly compensated executive officers, other than the company’s chief financial officer, who are employed as of the end of the year. This limitation does not apply to compensation that meets the requirements under Section 162(m) of the Code for “qualified performance-based” compensation (in other words, compensation paid only if, among other requirements, the individual’s performance meets pre-established objective goals based on performance criteria approved by shareholders). Even if the Compensation Committee intends to grant compensation that qualifies as “performance-based” compensation for purposes of Section 162(m) of the Code, we cannot guarantee that such compensation will so qualify or ultimately will be deductible. Although the Compensation Committee may take actions intended to limit the impact of Section 162(m) of the Code, the Compensation Committee also believes that the tax deduction is only one of several relevant considerations in setting compensation. The Compensation Committee believes that the tax deduction limitation should not be permitted to compromise our ability to design and maintain executive compensation arrangements that will attract, retain, motivate and reward the executive talent to compete successfully. Accordingly, achieving the desired flexibility in the design and delivery of compensation may result in compensation that in certain cases is not deductible for federal income tax purposes.

Stock Ownership Guidelines: We have adopted stock ownership guidelines that require an ownership threshold of five times base salary for our CEO, three times base salary for our CFO and two times base salary for our other NEOs, with all NEO’s targeted to reach these applicable thresholds within five years of the policy becoming applicable to the particular executive and from the date each executive first has shares awarded as part of their annual compensation. Shares awarded but not yet vested are included in calculating the required threshold. The Compensation Committee annually reviews executives’ progress toward meeting these guidelines. Currently, the stock ownership of each of our CEO, our CFO, Sean Covey and Shawn Moon meets or exceeds the applicable thresholds. Mr. Walker is working towards meeting his ownership threshold within the allotted time.

The amounts reported in the “Salary” column for fiscal 2016 represent base salaries paid to each NEO in fiscal 2016. The salaries of our NEOs remained constant in fiscal 2016 except for Mr. Young, whose salary increased from \$320,000 to \$350,000.

Stock Awards

The amounts reported in the “Stock Awards” column for fiscal 2016 represent the aggregate grant date fair value (computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, or ASC Topic 718), based on the probable outcome of any applicable performance conditions, excluding the effect of estimated forfeitures, for the RSUs granted to NEOs as LTIP awards. For further information regarding these stock awards and the assumptions made in their valuation, refer to Note 10, Stock-Based Compensation Plans, to our consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended August 31, 2016.

Non-Equity Incentive Plan Compensation

The amounts reported in the “Non-Equity Incentive Plan Compensation” column for fiscal 2016 represent the amounts paid to each NEO under the Company’s Performance-Based Variable Pay Plan, which is discussed above in the section entitled “Compensation Discussion and Analysis – Analysis of Fiscal 2016 Compensation Decisions and Actions.” Payouts are based on achieving objectives established annually and meeting annual financial targets. Incentive amounts were approved by the Compensation Committee and were paid following the conclusion of the fiscal year.

Fiscal 2016 Pension Benefits and Nonqualified Deferred Compensation

We do not offer any pension plans. The NQDC plan was frozen to new contributions as of January 1, 2005. Effective August 15, 2005, NQDC balances invested in our stock are distributable to participants only in the form of shares of our stock. None of the NEOs participate in the NQDC plan.

Potential Payments Upon Termination or Change-in-Control

Severance Benefits

Our NEOs are subject to the same general (non-change-in-control) severance policies as for all Franklin Covey employees. Under our severance policy, employees including NEOs, who terminate involuntarily without cause receive a lump-sum payment equal to one week's salary for every \$10,000 of their annual total targeted cash compensation. Additionally, we pay COBRA medical and dental premiums for the term of the severance period. As a condition to receipt of severance benefits, the NEO must agree to abide by specific non-compete, non-solicitation and confidentiality requirements. The target total severance payment equals the target annual cash compensation plus target COBRA premiums for the severance period. The COBRA benefits are generally limited to 18 months for all NEOs. The amounts below assume that each NEO incurred a qualifying termination of employment on August 31, 2016 (the last business day of fiscal 2016).

Estimated Severance Amounts as of August 31, 2016

Name	Year	Target Total Severance Payment (\$)	Base Salary (\$)	Target Annual STIP (\$)	Target Annual Cash Compensation (\$)	Target COBRA Premiums (\$)

Mr. Walker	2016	517,082	300,000	200,000	499,702	17,380

Change-in-Control Severance Benefits

The Company has entered into a change-in-control severance agreement with each NEO. Under the terms of the agreements, upon the occurrence of a change in control, each executive officer is entitled to a lump severance payment equal to one times his current annual total targeted cash compensation, plus reimbursement of premiums to secure medical benefit continuation coverage for a period of one year. The target total severance payment equals the target annual cash compensation plus target COBRA premiums for the severance period. There are no excise tax gross-up provided under the agreements. The amounts below assume that each NEO incurred a qualifying termination of employment on August 31, 2016.

OVERVIEW OF PROPOSALS

This Proxy Statement includes three proposals requiring shareholder action. Proposal No. 1 requests the election of eight directors to the Board. Proposal No. 2 requests an advisory vote on executive compensation. Proposal No. 3 requests the ratification of Deloitte & Touche, LLP as our independent registered public accounting firm for fiscal 2017. Each of these proposals is discussed in more detail in the pages that follow.

PROPOSAL NO. 1 Election of Directors

At the Annual Meeting, eight directors are to be elected to serve until the next annual meeting of shareholders and until their successors shall be duly elected and qualified. Our director nominees have a great diversity of experiences and bring to our Board a wide variety of skills, qualifications, and viewpoints that strengthen their ability to carry out their oversight role on behalf of our shareholders. They have developed their skills and gained experience across a broad range of industries and disciplines in both established and growth markets. The biographies contained in the section of this Proxy Statement entitled, “Nominees for Election to the Board of Directors” describe the many areas of individual expertise that each director nominee brings to our board.

Unless the shareholder indicates otherwise, each proxy will be voted in favor of the eight nominees listed below. Each of the nominees is currently serving as a Director of the Company. If any of the nominees should be unavailable to serve, which is not now anticipated, the proxies solicited hereby will be voted for such other persons as shall be designated by the present Board of Directors.

Vote Required

The eight nominees receiving the highest number of affirmative votes of the shares entitled to be voted for them, up to the eight directors to be elected by those shares, will be elected as directors to serve until the next annual meeting of shareholders and until their successors are duly elected and qualified. Abstentions and broker non-votes will have no effect on the election of directors.

Pursuant to the Company’s bylaws, any nominee for director who receives a greater number of votes “withheld” or “against” from his or her election than votes “for” his or her election shall immediately offer to tender his or her resignation following certification of such shareholder vote. The Nominating Committee shall promptly consider the director’s resignation offer and make a recommendation to the Board of Directors on whether to accept or reject the offer. The Board of Directors shall act on the recommendation of the Nominating Committee and publicly disclose its decision within 90 days following certification of the shareholder vote.

Recommendation of the Board

The Board of Directors recommends that shareholders vote FOR the election of Anne H. Chow, Clayton M. Christensen, Michael Fung, Dennis G. Heiner, Donald J. McNamara, Joel C. Peterson, E. Kay Stepp, and Robert A. Whitman.

PROPOSAL NO. 2
Advisory Vote on Executive Compensation

In accordance with the requirements of Section 14A of the Exchange Act (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act) and the related rules of the SEC, the Company is providing its shareholders with the opportunity to cast an advisory vote on executive compensation as described below. We believe that it is appropriate to seek the views of shareholders on the design and effectiveness of our executive compensation program.

The overall goal of our executive compensation program is to attract, motivate, and retain a talented and creative team of executives who will provide leadership for our success in dynamic and competitive markets. The Company seeks to accomplish this goal in a way that rewards performance and that is aligned with shareholders' long-term interests. We believe that our executive compensation program, which utilizes both short-term cash awards and long-term equity awards, satisfies this goal and is strongly aligned with the long-term interest of our shareholders.

The Compensation Discussion and Analysis, as presented within this Proxy Statement, describes the Company's executive compensation program and the decisions made by the Compensation Committee during fiscal 2016 in more detail. We believe that the compensation program for the Named Executive Officers is instrumental in helping the Company achieve financial goals. Please refer to the information contained in the Compensation Discussion and Analysis as you consider this proposal.

In fiscal 2016, we introduced the All Access Pass (AAP), which is an innovative new electronic delivery system that provides clients access to a broad variety of our offerings, including video segments and participant manuals, over a contracted period. Applicable accounting guidance requires that a portion of each AAP contract be deferred over the life of the arrangement. Consequently, the transition to the AAP business model had a significant impact on our financial statements during fiscal 2016, as net sales totaled \$200.1 million, compared with \$209.9 million in fiscal 2015. Deferred revenue on our balance sheet, which has a high percentage flow through to operating income, increased \$8.1 million compared with fiscal 2015. Our cash flows from operating activities increased 25 percent to \$32.7 million in fiscal 2016 compared with \$26.2 million in fiscal 2015. Because we invoice AAP contracts at the inception of the arrangement, we do not expect that the AAP business model will have an adverse impact on our cash flows in future periods. During fiscal 2016, we returned over \$43 million of cash to our shareholders through the purchase of outstanding shares of our common stock. Despite these favorable metrics, the Company's operating income levels were less-than-anticipated, due to the deferral of a significant amount of revenue, for the full pay out of short-term incentive plan bonuses. Executive compensation levels during fiscal 2016 were adjusted accordingly.

We are asking the shareholders to vote on the following resolution:

RESOLVED, that the shareholders hereby approve the compensation of the Company's Named Executive Officers, as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables, and narrative disclosure.

As an advisory vote, this proposal is not binding upon the Company. However, the Compensation Committee, which is responsible for designing and administering our executive compensation program, values the opinions expressed by shareholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for the Named Executive Officers. We currently intend to include a shareholder advisory vote on our executive compensation program each year at our annual meeting of shareholders.

Vote Required

Approval of Proposal No. 2 requires that the number of votes cast in favor of the proposal exceeds the number of votes cast in opposition. Abstentions and broker non-votes will not have any effect on the outcome of this proposal.

Recommendation of the Board

The Board recommends that shareholders vote FOR Proposal No. 2.

PROPOSAL NO. 3

Ratification of Appointment of Independent Registered Public Accounting Firm

The Audit Committee has selected the independent registered public accounting firm Deloitte & Touche, LLP to audit our financial statements for fiscal 2017. Deloitte began serving as our independent registered public accounting firm in the third quarter of fiscal 2016. Prior to this appointment, Ernst & Young, LLP (Ernst & Young) served as our independent registered public accounting firm since fiscal 2011.

During fiscal 2016, the Audit Committee completed the process it undertook in accordance with its previously announced policy to review the appointment of our independent registered public accounting firm every five years. Pursuant to this policy, the Audit Committee conducted a competitive process to select a firm to serve as the Company's independent registered public accounting firm for the remainder of fiscal 2016 and in future periods.

As a result of this process and following careful deliberation, the Audit Committee engaged Deloitte & Touche, LLP as the Company's independent registered public accounting firm for the remainder of the fiscal year ended August 31, 2016, and dismissed Ernst & Young from that role on April 20, 2016.

During the fiscal years ended August 31, 2014 and 2015, and in the subsequent interim period through April 20, 2016, there were (i) no disagreements between the Company and Ernst & Young on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure and (ii) no "reportable events" as that term is defined in Item 304(a)(1)(v) of Regulation S-K.

The audit reports of Ernst & Young on the Company's financial statements for the fiscal years ended August 31, 2015 and 2014 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principles. The audit reports of Ernst & Young on the effectiveness of internal control over financial reporting as of August 31, 2015 and 2014 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principles.

The Company provided Ernst & Young with a copy of the disclosures it made in a Current Report on Form 8-K (the Report) prior to the time the Report was filed with the SEC. The Company requested that Ernst & Young furnish a letter addressed to the SEC stating whether or not it agrees with the statements made therein. A copy of Ernst & Young's letter dated April 26, 2016 was attached as exhibit 16.1 to the Report.

In its decision to engage Deloitte, the Audit Committee reviewed auditor independence and all existing relationships with Deloitte, and concluded that Deloitte has no relationships with the Company that would impair its independence. During the fiscal years ended August 31, 2015 or August 31, 2014, and in the subsequent interim period through February 27, 2016, neither the Company nor anyone acting on its behalf consulted with Deloitte on any of the matters or events set forth in Item 304(a)(2) of Regulation S-K.

The Board of Directors anticipates that one or more representatives of Deloitte will be present at the Annual Meeting and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Principal Accountant Fees

The following table shows the fees accrued or paid to our independent registered public accounting firms for the fiscal years ended August 31, 2016 and 2015:

	Deloitte Fiscal 2016	Ernst & Young Fiscal 2016	Fiscal 2015
Audit Fees(1)	\$ 540,901	\$	\$ 795,000
Audit-Related Fees(2)	-	-	-
Tax Fees(3)	-	40,098	36,500
All Other Fees	-	-	-
	\$ 540,901	\$ 235,098	\$ 832,165

(1) Audit fees represent fees and expenses for professional services provided in connection with the audit of our consolidated financial statements and the effectiveness of internal controls over financial reporting found in the Annual Report on Form 10-K and reviews of our financial statements contained in Quarterly Reports on Form 10-Q, procedures related to registration statements, accounting consultations on actual transactions, and audit services provided in connection with other statutory filings.

(2) Audit-Related Fees primarily consisted of accounting consultation on proposed transactions.

(3) Tax Fees consisted primarily of fees and expenses for services related to tax compliance, tax planning, and tax consulting.

The Audit Committee pre-approves all services to be performed by our independent registered public accountants and subsequently reviews the actual fees and expenses paid to them. All of the audit-related and non-audit services provided by our independent registered public accounting firms during the fiscal years ended August 31, 2016 and 2015 were pre-approved by the Audit Committee. The Audit Committee has determined that the fees paid for non-audit services are compatible with maintaining independence as our independent registered public accountants.

Vote Required

The ratification of the appointment of Deloitte & Touche, LLP as our independent registered public accountants requires that the number of votes cast in favor of the proposal exceeds the number of votes cast in opposition. Abstentions and broker non-votes will not have any effect on the outcome of this proposal.

Board Recommendation

The Board recommends that shareholders vote FOR the appointment of Deloitte & Touche, LLP as the Company's independent registered public accountants.

OTHER MATTERS

As of the date of this Proxy Statement, the Board of Directors knows of no other matters to be presented for action at the meeting. However, if any further business should properly come before the meeting, the persons named as proxies in the accompanying form of proxy will vote on such business in accordance with their best judgment.

PROPOSALS OF SHAREHOLDERS

Requirements for Shareholder Proposals to be Considered for Inclusion in Our Proxy Materials

Shareholders may present proposals for inclusion in our proxy statement and form of proxy for the annual meeting of shareholders to be held in calendar year 2018, provided that such proposals must be received by us, at our executive offices (2200 West Parkway Boulevard, Salt Lake City, Utah 84119-2331) no later than August 22, 2017, provided that this date may be changed in the event that the date of the annual meeting of shareholders to be held in calendar year 2018 is changed by more than 30 days from the date of the annual meeting of shareholders to be held in calendar year 2017. Such proposals must also comply with the requirements as to form and substance established by the SEC if such proposals are to be included in our proxy statement and form of proxy.

Requirements for Shareholder Proposals to be Brought Before the Annual Meeting

Our bylaws provide that, except in the case of proposals made in accordance with Rule 14a-8, for shareholder nominations to the Board of Directors or to other proposals to be considered at an annual meeting of shareholders, the shareholder must have given timely notice thereof in writing to the Secretary of Franklin Covey not less than 60 nor more than 90 calendar days prior to the anniversary of the date of the immediately preceding annual meeting. To be timely for the annual meeting of shareholders to be held in calendar year 2018, a shareholder's notice must be delivered or mailed to, and received by, our Secretary at our executive offices (2200 West Parkway Boulevard, Salt Lake City, Utah 84119-2331) between October 22, 2017 and November 21, 2017. However, in the event that the annual meeting is called for a date that is not within 30 calendar days of the anniversary of the date on which the immediately preceding annual meeting of shareholders was called, to be timely, notice by the shareholder must be so received not earlier than the close of business on the 90th day prior to such annual meeting and not later than the close of business on the later of either (i) the 60th day prior to such annual meeting, or (ii) the close of business on the tenth day following the day on which notice of the date of the meeting was mailed or public disclosure of the date of the meeting was made by the Company, whichever occurs first. In no event will the public announcement of an adjournment of an annual meeting of shareholders commence a new time period for the giving of a shareholder's notice as provided above. A shareholder's notice to our Secretary must set forth the information required by our bylaws with respect to each matter the shareholder proposes to bring before the annual meeting.

Pursuant to rules adopted by the SEC, if a shareholder intends to propose any matter for a vote at our annual meeting to be held in calendar year 2018 but fails to notify us of that intention prior to November 3, 2017, then a proxy solicited by the Board of Directors may be voted on that matter in the discretion of the proxy holder, provided that this date may be changed in the event that the date of the annual meeting of shareholders to be held in calendar year 2018 is changed by more than 30 days from the date of the annual meeting of shareholders to be held in calendar year 2017.

ADJUSTED EBITDA RECONCILIATION TO NET INCOME

For fiscal 2011 to fiscal 2016, Adjusted EBITDA means net income or loss from operations excluding the impact of interest expense, income tax expense, amortization, depreciation, share-based compensation expense and non-recurring items. The Company references this non-GAAP financial measure in its disclosure and decision making because it provides supplemental information that facilitates consistent internal comparisons to the historical operating performance of prior periods and the Company believes it provides investors with greater transparency to evaluate operational activities and financial results.
