NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. *Significant Accounting Policies* Central Securities Corporation (the Corporation) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The following is a summary of the significant accounting policies consistently followed by the Corporation in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles.

Security Valuation Marketable securities are valued at the last or closing sale price or, if unavailable, at the closing bid price. Investments in money market funds are valued at net asset value per share. Other short-term investments are valued at amortized cost, which approximates market value. Securities for which no ready market exists are valued at estimated fair value by the Board of Directors.

Federal Income Taxes It is the Corporation's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its stockholders. In addition, management has analyzed positions taken on the Corporation's tax returns and has determined that no provision for income taxes is required in the accompanying financial statements. The Corporation's Federal income tax returns for the current and previous three fiscal years remain subject to examination by the Internal Revenue Service.

Use of Estimates The preparation of the financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported. Actual results may differ from such estimates.

Other Security transactions are accounted for as of the trade date, and cost of securities sold is determined by specific identification. Dividend income and distributions to stockholders are recorded on the ex-dividend date. Interest income is accrued daily.

2. *Fair Value Measurements* The Corporation's investments are categorized below in three broad hierarchical levels based on market price observability as follows:

- *Level 1* Quoted prices in active markets for identical investments. The Corporation's Level 1 investments consist of securities listed on a national securities exchange and money market funds;
- *Level 2* Other significant observable data obtained from independent sources; for example quoted prices for similar investments or the use of models or other valuation methodologies such as amortized cost for certain short-term investments;
- *Level 3* Significant unobservable inputs including the Corporation's own assumptions based upon the best information available. Investments categorized as Level 3 include securities in which there is little, if any, market activity. The Corporation's Level 3 investments consist of The Plymouth Rock Company, Inc. and Aerogroup International, Inc.

The designated Level for a security is not necessarily an indication of the risk associated with investing in that security.

NOTES TO FINANCIAL STATEMENTS continued (unaudited)

The Corporation's investments as of June 30, 2010 are classified as follows:

<u>Valuation Inputs</u>	<u>Investments in Securities</u>
Level 1	\$ 335,540,521
Level 2	
Level 3	168,455,000
	<hr/>
Total	\$ 503,995,521
	<hr/>

No investments were transferred between Levels 1, 2 or 3 during the six months ended June 30, 2010. The following is a reconciliation of assets for which significant unobservable inputs (Level 3) were used in determining fair value:

Balance as of December 31, 2009	\$ 154,324,886
Net realized gains and change in unrealized appreciation of investments included in net increase in net assets resulting from operations	14,329,199
Sales	(199,085)
	<hr/>
Balance as of June 30, 2010	\$ 168,455,000
	<hr/>

The change in unrealized appreciation of Level 3 investments held at June 30, 2010 included in the above table was \$14,229,000.

The Corporation's Level 3 investments are valued by the Board of Directors. These valuations are primarily based on comparable company valuation analysis, a discounted future cash flow model and/or a review of independent appraisals. Consideration is also given to corporate governance, marketability, recent private transactions, company and industry outlooks and general market conditions. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

3. *Common Stock* The Corporation purchased 82,843 shares of its Common Stock in the first six months of 2010 at an average price of \$18.04 per share, representing an average discount from net asset value of 19.0%. It may from time to time purchase Common Stock in such amounts and at such prices as the Board of Directors deem advisable in the best interests of the stockholders. Purchases will only be made at less than net asset value per share, thereby increasing the net asset value of shares held by the remaining stockholders. Shares so acquired may be held as treasury stock available for stock distributions, or may be retired.

4. *Investment Transactions* The aggregate cost of securities purchased and the aggregate proceeds of securities sold during the six months ended June 30, 2010, excluding short-term investments, were \$21,997,789 and \$6,669,266, respectively.

As of June 30, 2010, based on cost for Federal income tax purposes, the aggregate gross unrealized appreciation and depreciation for all securities were \$248,235,161 and \$58,188,348, respectively.

Contributions to the plan are made at the discretion of the Board of Directors, and each participant's benefits vest after three years of employment. No contributions were made to the plan for the six months ended June 30, 2010.

6. *Affiliates* The Plymouth Rock Company, Inc. and GeoMet, Inc., are affiliates as defined in the Investment Company Act of 1940. REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF DIRECTORS AND STOCKHOLDERS OF
CENTRAL SECURITIES CORPORATION

We have reviewed the accompanying statement of assets and liabilities, including the statement of investments, of Central Securities Corporation as of June 30, 2010, and the related statements of operations, changes in net assets, cash flows and financial highlights for the six-month period ended June 30, 2010. These interim financial statements and financial highlights are the responsibility of Central Securities Corporation's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements and financial highlights referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended December 31, 2009 and financial highlights for each of the years in the five-year period ended December 31, 2009, and in our report dated February 2, 2010 we expressed an unqualified opinion on such statement of changes in net assets and financial highlights.
