Chairman's  
Letter to Shareholders

Dear Shareholders,

In recent months the positive atmosphere in financial markets has reflected efforts by central banks in the US and Europe to provide liquidity to the financial system and keep interest rates low. At the same time, future economic growth in these countries still faces serious headwinds in the form of high energy prices, uncertainties about potential political leadership changes and increasing pressure to reduce government spending regardless of its impact on the economy. Together with the continuing political tensions in the Middle East, investors have many reasons to remain cautious.

Though progress has been painfully slow, officials in Europe have taken important steps to address critical issues. The European Central Bank has provided vital liquidity to the banking system. Similarly, officials in the Euro area finally agreed to an enhanced "firewall" of funding to deal with financial crises in member countries. These steps, in addition to the completion of another round of financing for Greece, have eased credit conditions across the Continent. Several very significant challenges remain with the potential to derail the recent progress but European leaders have demonstrated political will and persistence in dealing with their problems.

In the US, strong corporate earnings and continued progress on job creation have contributed to a rebound in the equity market and many of the major stock market indexes are approaching their levels before the financial crisis. The Fed's commitment to an extended period of low interest rates is promoting economic growth, which remains moderate but steady and raises concerns about the future course of long term rates once the program ends. Pre-election maneuvering has added to the highly partisan atmosphere in the Congress. The end of the Bush-era tax cuts and implementation of the spending restrictions of the Budget Control act of 2011, both scheduled to take place at year-end loom closer with little progress being made to deal with them.

During the last year investors have experienced a sharp decline and a strong recovery in the equity markets. Experienced investment teams keep their eye on a longer time horizon and use their practiced investment disciplines to negotiate through market peaks and valleys to achieve long term goals for investors. Monitoring this process is an important consideration for the Fund Board as it oversees your Nuveen funds on your behalf.

As always, I encourage you to contact your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner  
Chairman of the Board  
April 20, 2012

Portfolio manager Scott Romans reviews economic and municipal market conditions at both the national and state levels, key investment strategies and the twelve-month performance of the Nuveen California Funds listed above. Scott, who joined Nuveen in 2000, has managed NCU, NAC, NVX, NZH, NKL and NKX since 2003 and NPC and NCL since 2005.

What factors affected the U.S. economic and municipal market environments during the twelve-month reporting period ended February 29, 2012?

During this period, the U.S. economy's progress toward recovery from recession remained modest. The Federal Reserve (Fed) maintained its efforts to improve the overall economic environment by continuing to hold the benchmark fed funds rate at the record low level of zero to 0.25% that it had established in December 2008. At its March 2012 meeting (shortly after the end of this reporting period), the central bank reaffirmed its opinion that economic conditions would likely warrant keeping this rate at "exceptionally low levels" at least through late 2014. The Fed also stated that it would continue its program to extend the average maturity of its holdings of U.S. Treasury securities by purchasing \$400 billion of these securities with maturities of six to thirty years and selling an equal amount of U.S. Treasury securities with maturities of three years or less. The goals of this program, which the Fed expects to complete by the end of June 2012, are to lower longer-term interest rates, support a stronger economic recovery, and help ensure that inflation remains at levels consistent with the Fed's mandates of maximum employment and price stability.

In the fourth quarter of 2011, the U.S. economy, as measured by the U.S. gross domestic product (GDP), grew at an annualized rate of 3.0%, the best growth number since the end of second quarter 2010 and the tenth consecutive quarter of positive growth. The Consumer Price Index (CPI) rose 2.9% year-over-year as of February 2012, while the core CPI (which excludes food and energy) increased 2.2% during the same period, edging above the Fed's unofficial objective of 2.0% or lower for this inflation measure. Labor market conditions have shown some signs of improvement, as national unemployment stood at 8.3% in February 2012, the lowest level in three years, down from 9.0% in February 2011. The housing market continued to be the major weak spot in the economy. For the twelve months ended January 2012 (most recent data available at the time this report was prepared), the average home price in the Standard & Poor's (S&P)/Case-Shiller Index of 20 major metropolitan areas lost 3.8%, as housing prices hit their lowest levels since early 2003. In addition, the U.S. economic picture continued to be clouded by concerns about the European debt crisis and efforts to reduce the federal deficit.

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio manager as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by a national rating agency.

Nuveen Investments 5

---

Municipal bond prices generally rallied over this period. Historically light issuance of new tax-exempt bonds served as a key driver of performance, as tight supply and strong demand combined to create favorable market conditions for municipal bonds. Concurrent with rising prices, yields declined across most maturities. The depressed level of municipal bond issuance was due in part to the continued impact of the taxable Build America Bonds (BAB) program. Even though the BAB program expired at the end of 2010, issuers had made extensive use of its favorable terms to issue almost \$190 billion in taxable BAB bonds during 2009 and 2010, representing approximately 25% of all municipal issuance during that period. Some borrowers accelerated issuance in order to take advantage of the program before its termination, fulfilling their capital program borrowing needs well into 2011 and 2012. This reduced the need for many borrowers to come to market with new tax-exempt issues during this period. The low level of municipal issuance during this period also reflected the current political distaste for additional borrowing by state and local governments and the prevalent atmosphere of municipal budget austerity.

Over the twelve months ended February 29, 2012, municipal bond issuance nationwide totaled \$307.4 billion, a decrease of 24% compared with issuance during the twelvemonth period ended February 28, 2011. During this period, demand for municipal bonds remained very strong, especially from individual investors.

How were the economic and market environments in California during this period?

The California economy has shown signs of gaining momentum, with job growth rebounding as increased demand for internet-based services and mobile device applications led to strengthening of the technology and other service sectors. This, in turn, produced improvement in the state's unemployment rate. As of February 2012, California's unemployment rate was 10.9%, its lowest level since April 2009, down from 12.0% in February 2011. However, housing, the primary driver of the state's most recent economic decline, remains a drag on the California economy, with foreclosures continuing to put downward pressure on prices. According to the S&P/Case-Shiller Index, home prices in San Diego, Los Angeles and San Francisco fell 5.3%, 5.4% and 5.9%, respectively, over the twelve months ended January 2012 (the most recent data available at the time this report was prepared). These rates compared with an average decline of 3.8% nationally for the same period. Statewide, home prices in California have lost almost 60% of their value since the peak in 2006. Overall, budget problems posed the largest threat to the state's economic outlook over the near term, as California continued to be burdened by persistent deficits and spending that outweighed the state's ability to generate revenues. However, the \$120.1 billion act remained structurally unbalanced, relying on revenue assumptions that, if not met, would trigger additional expenditure cuts. When those revenue assumptions were not realized, the state implemented almost \$1 billion in trigger cuts effective January 1, 2012, mainly affecting state universities, community colleges and human services. The \$137.3 billion budget proposal for fiscal 2013 closes an estimated \$9.2 billion gap and assumes additional revenues generated by a voter-approved, five-year temporary tax increase. The budget also calls for spending reductions mainly in the areas of welfare and child care for the poor. As of February 2012, California maintained credit ratings on its general obligation (GO) debt of A1, A-, and A-from Moody's Investors Service, S&P and Fitch, respectively. For the twelve months ended February 29, 2012, municipal issuance in California totaled \$38.5 billion, a

decrease of 33% from the previous twelve months. For this period, California was the second largest state issuer in the nation (behind New York), representing approximately 12.5% of total issuance nationwide.

What key strategies were used to manage the California Funds during this reporting period?

As previously discussed, municipal bond prices generally rallied nationally during this period, as the supply of tax-exempt bonds remained tight and yields continued to be relatively low. In this environment, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that had the potential to perform well over the long term and helped us keep our Funds fully invested.

Much of our investment activity during this period was opportunistic, with purchases driven by the timing of cash flows from called or maturing bonds. The Funds took advantage of attractive opportunities to add to their holdings in health care as well as California state GO bonds when they came to market in the fall of 2011. In addition, based on recent tobacco consumption data, NCU, NAC, NVX and NZH swapped some of their convertible zero-coupon tobacco holdings for tobacco bonds with better downside profiles in terms of credit outlook. These relative value swaps also benefited the Funds by maintaining yields and recognizing losses for tax purposes. (The insured Funds did not participate in the tobacco swaps because these four Funds cannot purchase sub-investment grade bonds.)

We also continued to actively add exposure to redevelopment agency (RDA) bonds, used to fund programs to improve deteriorated, blighted and economically depressed areas in California. In June 2011, two state bills amending the law that created RDAs were approved as part of cost-saving measures to close gaps in the California state budget. Assembly Bill (AB) 26 provided for the dissolution of all RDAs, while AB 27 would allow municipalities to keep their RDAs by committing to substantial community payments to the state. A lawsuit challenging the constitutionality of both bills was filed by an RDA lobbying group in July 2011. In late December 2011, the California Supreme Court ruled that AB 26 was constitutional and ordered the dissolution of all 400 RDAs in the state by February 1, 2012, creating successor agencies and oversight boards to manage obligations (e.g., contracts, bonds, leases) that were in place prior to the dissolution and take title to the RDAs' housing and other assets. However, the court struck down AB 27, concluding that the provisions that required community payments were not voluntary, and violated the state constitution. During this period, the uncertainty surrounding the fate of the state's RDAs caused spreads on RDA bonds to widen substantially and prompted RDAs to issue their remaining capacity of bonds. This resulted in heavy issuance of RDA bonds that came to market at attractive prices with higher coupons and very attractive structures, including 10-year call provisions. Consequently, we were able to add some exceptional bonds to our portfolios, purchasing new RDA bonds in the primary market during the first part of this period and buying additional RDA bonds, some of which were insured credits issued prior to 2008, in the secondary market during the last part of this period.

For the Funds with an insured mandate (NPC, NCL, NKL and NKX), finding appropriate insured municipal bonds, especially new insured issues, remained a challenge due to the continued severe decline in insured issuance. Over the past few years, most municipal bond insurers had their credit ratings downgraded, and only one insurer currently insures new municipal bonds. As a result, the supply of insured municipal securities has decreased dramatically. In 2011, issuance of new insured paper accounted for just over 5% of total municipal issuance (compared with a historical levels of 50%), down 43.5% from 2010. Even though NPC, NCL, NKL and NKX may now invest up to 20% of their net assets in uninsured investment-grade credits rated BBB- or higher, the combination of tight municipal supply, little insured issuance and relatively lower yields meant few attractive opportunities for these Funds during this period.

Cash for new purchases during this period was generated primarily by the proceeds from called and maturing bonds. An elevated number of bond calls provided a meaningful source of liquidity, which drove much of our activity as we worked to redeploy the proceeds to keep the Funds fully invested. In addition, we sold selected bonds with very short effective maturities on the occasions when we needed additional cash to take advantage of attractive opportunities.

As of February 29, 2012, all of these Funds continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement. As part of our duration management strategies, NCL also used forward interest rate swaps to reduce price volatility risk to movements in U.S. interest rates relative to the Fund's benchmarks. The forward interest rate swaps were removed from NCL during the first half of this period as the Fund's duration approached our targeted range. Prior to their removal, these derivatives functioned as intended.

How did the Funds perform during the twelve-month period ended February 29, 2012?

Individual results for these Nuveen California Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Average Annual Total Returns on Common Share Net Asset Value  
For periods ended 2/29/12

	1-Year	5-Year	10-Year
<b>Uninsured Funds</b>			
NCU	25.65%	6.45%	6.66%
NAC	25.30%	5.66%	6.53%
NVX	22.90%	6.25%	6.69%
NZH	22.89%	4.66%	6.06%
Standard & Poor's (S&P) California Municipal Bond Index*	14.84%	5.17%	5.38%
Standard & Poor's (S&P) National Municipal Bond Index*	12.87%	5.19%	5.36%
Lipper California Municipal Debt Funds Classification Average*	25.87%	4.71%	6.17%

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the Performance Overview page for your Fund in this report.

8 Nuveen Investments

---

	1-Year	5-Year	10-Year
<b>Insured Funds</b>			
NPC	24.47%	6.31%	6.22%
NCL	25.33%	6.30%	6.24%
NKL	24.87%	6.59%	N/A
NKX	21.95%	5.18%	N/A
Standard & Poor's (S&P) California Municipal Bond Index*	14.84%	5.17%	5.38%
Standard & Poor's (S&P) Insured National Municipal Bond Index*	13.78%	5.24%	5.41%
Lipper Single-State Insured Municipal Debt Funds Classification Average*	21.81%	5.94%	6.06%

For the twelve months ended February 29, 2012, the total returns on common share net asset value (NAV) for all of these Funds exceeded the return for the Standard & Poor's (S&P) California Municipal Bond Index. The uninsured Funds also outperformed the S&P National Municipal Bond Index, while the insured Funds outperformed the Standard & Poor's (S&P) Insured National Municipal Bond Index. For this same period, NCU and NAC trailed the return for the Lipper California Municipal Debt Funds Classification Average by a narrow margin, while NVX and NZH also lagged the Lipper group. All four of the insured Funds exceeded the Lipper Single-State Insured Municipal Debt Funds Classification Average return.

Key management factors that influenced the Funds' returns during this period included duration and yield curve positioning, credit exposure and sector allocation. The use of leverage also was an important positive factor affecting the Funds' performance. Leverage is discussed in more detail later in this report.

During this period, municipal bonds with longer maturities generally outperformed those with shorter maturities. Overall, credits at the longest end of the municipal yield curve posted the strongest returns, while bonds at the shortest end produced the weakest results. The Funds' duration and yield curve positionings were the most important determinants of performance during this period. On the whole, NAC and NCL, which had the longest durations among the uninsured and insured Funds, respectively, were the most advantageously positioned in terms of duration and yield curve exposure. The performance of the remaining six Funds benefited in proportion to their allocations along the longer end of the yield curve.

Credit exposure also played a role in performance during these twelve months, as lower-rated bonds, especially those rated BBB, generally outperformed higher-quality bonds rated AAA and AA. This outperformance was due in part to the greater demand for lower-rated bonds as investors looked for investments offering higher yields. All four of the uninsured Funds benefited from their credit exposure during this period. However, in accordance with their investment policies, the insured Funds have not had the same opportunities to invest in lower-rated credits until recently, and they tended to be underweighted in bonds rated BBB and overweighted in bonds rated AAA and AA. This combination detracted from their performance for the period.

Holdings that generally made positive contributions to the Funds' returns during this period included zero coupon bonds, health care, industrial development revenue (IDR), transportation and special tax credits. Leasing and education bonds also outpaced the general municipal market for the period, while water and sewer credits just edged past the municipal market average. All of the uninsured Funds were overweighted in health care, which boosted their performance, as did their overall sector allocations.

In contrast, pre-refunded bonds, which are often backed by U.S. Treasury securities, were the poorest performing market segment during this period. The underperformance of these bonds can be attributed primarily to their shorter effective maturities and higher credit quality. As of February 29, 2012, NPC had the heaviest weighting in pre-refunded bonds among all eight of these Funds, which hampered its performance, while NCL had the smallest allocation to these bonds. Among the uninsured Funds, NVX and NZH had heavier weightings in pre-refunded bonds than NCU and NAC. The electric utilities, housing and resource recovery sectors and California state GOs also lagged the performance of the general municipal market for this period. All of these Funds were underweighted to varying degrees in the tax-supported sector, especially California state GOs, relative to the California market, which lessened the negative impact of these holdings. This underweighting was due to the fact that California state GOs comprise such a large portion of the tax-supported sector in California that it is impossible to match the market weighting in our portfolios.

In addition, NCU and NKX each held individual credits that impacted their performance during this period. In NCU, the Fund's holdings of Downey Regional Medical Center began the period as a distressed credit. Following an acquisition near the end of the period, the hospital bonds were refunded at par. NCU held a significant position in these credits, and their recovery benefited its performance. In NKX, the Fund's holdings of lease revenue bonds issued by the Stockton Public Finance Authority had a negative impact on the Fund's performance after news of the city of Stockton's financial problems became public and the city's credit ratings were cut. Stockton has now entered a new state-mandated mediation program where municipalities work with creditors to address fiscal challenges rather than declaring bankruptcy. It is also important to note that the Stockton lease revenue bonds are insured by National Public Finance Guarantee, which has stated that it will make payments on the bonds if there is any interruption in payments from the issuer.

#### APPROVED FUND MERGERS

After the close of this reporting period, the Funds' shareholders approved a series of reorganizations and changes to certain investment policies for the four Nuveen California insured closed-end Funds.

The approved changes to each Fund's investment policies were intended to increase the Funds' flexibility regarding the types of securities available for investment.

The investment policy changes are summarized as follows:

- Each Fund eliminated the investment policy requiring it, under normal circumstances, to invest at least 80 percent of its managed assets in municipal securities that are covered by insurance which currently guarantees the timely payment of principal and interest.
- Each Fund adopted a new investment policy requiring it, under normal circumstances, to invest at least 80 percent of its managed assets in municipal securities that pay interest exempt from federal and California income tax.

- Each Fund eliminated the old fundamental loan policy and adopted a new fundamental loan policy, which states that each Fund may not make loans, except as permitted by the Investment Company Act of 1940, as amended, and exemptive orders granted under the Investment Company Act of 1940, as amended.
- Each Fund will continue to invest substantially all (at least 80 percent) of its managed assets in investment grade quality municipal securities.
- Nuveen Insured California Tax-Free Advantage Municipal Fund (NKX) will continue its policy of investing, under normal circumstances, at least 80% of its assets in AMT-free municipal securities.

In addition shareholders approved the reorganization of the Funds as follows:

Acquired Funds	Acquiring Fund
<ul style="list-style-type: none"> <li>• Nuveen Insured California Premium Income Municipal Fund, Inc. (NPC)</li> <li>• Nuveen Insured California Premium Income Municipal Fund 2, Inc. (NCL)</li> <li>• Nuveen Insured California Dividend Advantage Municipal Fund (NKL)</li> </ul>	<p>Nuveen California AMT Free Municipal Income Fund (NKX)</p>

The reorganizations will be consummated before the opening of business on May 7, 2012. Upon the closing of the reorganizations, the Acquired Funds will transfer substantially all of their assets to the Acquiring Fund in exchange for common and preferred shares of the Acquiring Fund, and the assumption by the Acquiring Fund of the liabilities of the Acquired Funds. The Acquired Funds will then be liquidated, dissolved and terminated in accordance with their Declaration of Trust. The Acquiring Fund will change its name to Nuveen California AMT Free Municipal Income Fund (NKX).

Shareholders of the Acquired Funds will become shareholders of the Acquiring Fund. Holders of common shares will receive newly issued common shares of the Acquiring Fund, the aggregate net asset value of which will be equal to the aggregate net asset value of the common shares of the Acquired Funds held immediately prior to the reorganizations (including for this purpose fractional Acquiring Fund shares to which shareholders would be entitled). Fractional shares will be sold on the open market and shareholders will receive cash in lieu of such fractional shares. Holders of VRDP Shares of each Acquired Fund will receive on a one-for-one basis newly issued VRDP Shares of the Acquiring Fund, in exchange for VRDP Shares of the Acquired Fund held immediately prior to the reorganization, with such new Acquiring Fund VRDP Shares having substantially the same terms as the exchanged VRDP Shares of the Acquired Funds.

Fund Leverage and  
Other Information

IMPACT OF THE FUNDS' LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the return of the Funds relative to their benchmarks was the Funds' use of leverage. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share net asset value and common shareholder total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a Fund generally are rising. Leverage had a positive impact on the performance of the Funds over this reporting period.

THE FUNDS' REGULATORY LEVERAGE

As of February 29, 2012, each of the Funds has redeemed all of their outstanding auction rate preferred shares (ARPS) at liquidation value.

As of February 29, 2012, the Funds have issued and outstanding MuniFund Term Preferred (MTP) Shares and Variable Rate Demand Preferred (VRDP) Shares as shown in the accompanying tables.

MTP Shares

Fund	Series	MTP Shares Issued at Liquidation Value	Annual Interest Rate	NYSE Ticker
NCU	2015	\$ 35,250,000	2.00%	NCU PrC
NVX	2014	\$ 42,846,300	2.35%	NVX PrA
NVX	2015	\$ 55,000,000	2.05%	NVX PrC
NZH	2014	\$ 27,000,000	2.35%	NZH PrA
NZH	2014-1	\$ 46,294,500	2.25%	NZH PrB
NZH	2015	\$ 86,250,000	2.95%	NZH PrC

VRDP Shares

Fund	VRDP Shares Issued at Liquidation Value
NPC	\$ 42,700,000
NCL	\$ 74,000,000
NAC	\$ 136,200,000
NKL	\$ 104,400,000
NKX	\$ 35,500,000

(Refer to Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies and Footnote 4 – Fund Shares for further details on MTP and VRDP Shares.)

As of October 5, 2011, all 84 of the Nuveen closed-end municipal funds that had issued ARPS, approximately \$11.0 billion, have redeemed at liquidation value all of these shares.

For up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at: <http://www.nuveen.com/arps>.

**UPDATE ON LITIGATION REGARDING THE FUNDS’ REDEMPTION OF AUCTION RATE PREFERRED SHARES**

During 2011, certain funds (including NKX) were named in a consolidated complaint as nominal defendants in a putative shareholder derivative action captioned *Martin Safier, et al. v. Nuveen Asset Management, et al.* that was filed in the Circuit Court of Cook County, Illinois, Chancery Division (the “Cook County Chancery Court”) on February 18, 2011 (the “Complaint”). The Complaint, filed on behalf of purported holders of each fund’s common shares, also named Nuveen Fund Advisors, Inc. as a defendant, together with current and former Officers and interested Directors/Trustees of each of the funds (together with the nominal defendants, collectively, the “Defendants”). The Complaint contained allegations regarding breaches of fiduciary duties in connection with the redemption of auction rate preferred shares issued by the funds. The Defendants filed a motion to dismiss the suit and on December 16, 2011, the court granted that motion dismissing the Complaint. The plaintiffs failed to file an appeal of the court’s decision within the required time period, resulting in the final disposition of the suit.

**RISK CONSIDERATIONS**

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

**Investment and Market Risk.** An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the municipal securities owned by the Fund, which generally trade in the over-the-counter markets. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

**Price Risk.** Shares of closed-end investment companies like these Funds frequently trade at a discount to their NAV. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

**Leverage Risk.** Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful.

**Tax Risk.** The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

**Issuer Credit Risk.** This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

**Interest Rate Risk.** Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

**Reinvestment Risk.** If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

**Call Risk or Prepayment Risk.** Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

**Inverse Floater Risk.** The Funds invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Fund could lose more than its original principal investment.

Common Share Dividend  
and Price Information

## DISTRIBUTION INFORMATION

During the twelve-month reporting period ended February 29, 2012, NCL, NAC, NKL and NKX each had one monthly dividend increase, while the dividends of NPC, NCU, NVX and NZH remained stable throughout the reporting period.

Due to normal portfolio activity, common shareholders of the following Funds received capital gains and/or net ordinary income distributions in December 2011 as follows:

Fund	Long-Term Capital Gains (per share)	Short-Term Capital Gains and/or Ordinary Income (per share)
NPC	\$ 0.0780	\$ 0.0240
NCL	—	\$ 0.0118
NAC	—	\$ 0.0045
NKL	—	\$ 0.0053

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of February 29, 2012, all of the Funds in this report had positive UNII balances for both tax and financial reporting purposes.

## COMMON SHARE REPURCHASES AND PRICE INFORMATION

As of February 29, 2012, and since the inception of the Funds' repurchase program, the following Funds have cumulatively repurchased and retired common shares as shown in the accompanying table. Since the inception of the Fund's repurchase programs, NAC and NKX have not redeemed any of their outstanding common shares.

Fund	Common Shares Repurchased and Retired	% of Outstanding Common Shares
NPC	17,700	0.3%
NCL	55,700	0.4%
NCU	44,500	0.8%
NAC	—	—
NVX	50,700	0.3%
NZH	12,900	0.1%
NKL	32,700	0.2%
NKX	—	—

During the twelve-month reporting period, the Funds did not repurchase any of their outstanding common shares.

As of February 29, 2012, the Funds' common share prices were trading at (+) premiums or (-) discounts to their common share NAVs as shown in the accompanying table.

Fund	2/29/12 (+)Premium/(-)Discount	Twelve-Month Average (-)Discount
NPC	(+)1.07%	(-)2.41%
NCL	(+)2.54%	(-)2.14%
NCU	(-)1.05%	(-)5.57%
NAC	(+)1.82%	(-)3.08%
NVX	(+)0.58%	(-)3.20%
NZH	(+)3.16%	(-)2.08%
NKL	(+)2.50%	(-)1.01%
NKX	(+)2.24%	(-)5.56%

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this Fund's Performance Overview page.

- 1 Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 34.7%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

2

The Fund intends to invest at least 80% of its managed assets in municipal securities that are covered by insurance guaranteeing the timely payment of principal and interest. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Insurance for more information. At the end of the reporting period, 82% of the Fund’s total investments are invested in Insured securities.

- 3 Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor’s Group, Moody’s Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below-investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by a national rating agency.
- 4 Holdings are subject to change.
- 5 MBIA’s public finance subsidiary.
- 6 The Fund paid shareholders a net ordinary income distribution and a capital gains distribution in December 2011 of \$0.024 and \$0.078 per share.

Report of Independent  
Registered Public Accounting Firm

The Board of Directors/Trustees and Shareholders  
Nuveen Insured California Premium Income Municipal Fund, Inc.  
Nuveen Insured California Premium Income Municipal Fund 2, Inc.  
Nuveen California Premium Income Municipal Fund  
Nuveen California Dividend Advantage Municipal Fund  
Nuveen California Dividend Advantage Municipal Fund 2  
Nuveen California Dividend Advantage Municipal Fund 3  
Nuveen Insured California Dividend Advantage Municipal Fund  
Nuveen Insured California Tax-Free Advantage Municipal Fund

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Insured California Premium Income Municipal Fund, Inc., Nuveen Insured California Premium Income Municipal Fund 2, Inc., Nuveen California Premium Income Municipal Fund, Nuveen California Dividend Advantage Municipal Fund, Nuveen California Dividend Advantage Municipal Fund 2, Nuveen California Dividend Advantage Municipal Fund 3, Nuveen Insured California Dividend Advantage Municipal Fund, and Nuveen Insured California Tax-Free Advantage Municipal Fund (the "Funds") as of February 29, 2012, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of February 29, 2012, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Insured California Premium Income Municipal Fund, Inc., Nuveen Insured California Premium Income Municipal Fund 2, Inc., Nuveen California Premium Income Municipal Fund, Nuveen California Dividend Advantage Municipal Fund, Nuveen California Dividend Advantage Municipal Fund 2, Nuveen California Dividend Advantage Municipal Fund 3, Nuveen Insured California Dividend Advantage Municipal Fund, and Nuveen Insured California Tax-Free Advantage Municipal Fund at February 29, 2012, and the results of their operations and their cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

Chicago, Illinois

\$ 127,129	Total Investments (cost \$126,573,381) – 134.7%			138,048,126
	Variable Rate Demand Preferred Shares, at Liquidation Value – (41.7)% (6)			(42,700,000)
	Other Assets Less Liabilities – 7.0%			7,132,797
	Net Assets Applicable to Common Shares – 100%			\$ 102,480,923

The Fund intends to invest at least 80% of its net assets in municipal securities that are covered by insurance guaranteeing the timely payment of principal and interest. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Insurance for more information.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
  - (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
  - (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
  - (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
  - (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
  - (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 30.9%.
- N/R Not rated.  
(ETM) Escrowed to maturity.  
(IF) Inverse floating rate investment.

See accompanying notes to financial statements.

36,985	Total Water and Sewer			39,329,896
\$ 277,325	Total Investments (cost \$263,273,073) – 143.8%			280,025,460
	Floating Rate Obligations – (9.2)%			(17,880,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (38.0)% (6)			(74,000,000)
	Other Assets Less Liabilities – 3.4%			6,566,572
	Net Assets Applicable to Common Shares – 100%			\$ 194,712,032

The Fund intends to invest at least 80% of its net assets in municipal securities that are covered by insurance guaranteeing the timely payment of principal and interest. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Insurance for more information.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc.

(“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
  - (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
  - (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 26.4%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

	Floating Rate Obligations – (7.6)%				(6,650,000)
	MuniFund Term Preferred Shares, at Liquidation Value – (40.2)% (6)				(35,250,000)
	Other Assets Less Liabilities – 5.0%				4,361,582
	Net Assets Applicable to Common Shares – 100%				\$ 87,755,138

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (6) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 28.1%.
- N/R Not rated.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

29,415	Total Water and Sewer			33,647,123
\$ 567,811	Total Investments (cost \$484,363,905) – 146.2%			510,520,007
	Floating Rate Obligations – (8.2%)			(28,545,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (39.0)% (6)			(136,200,000)
	Other Assets Less Liabilities – 1.0%			3,427,835
	Net Assets Applicable to Common Shares – 100%			\$ 349,202,842

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a bond, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal

Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.

(5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

(6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 26.7%.

N/R Not rated.

WI/DD Purchased on a when-issued or delayed delivery basis.

(ETM) Escrowed to maturity.

(IF) Inverse floating rate investment.

(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

	Floating Rate Obligations – (5.0)%			(11,390,000)

MuniFund Term Preferred Shares, at Liquidation Value – (42.8)% (7)	(97,846,300)
Other Assets Less Liabilities – 3.5%	7,985,919
Net Assets Applicable to Common Shares – 100%	\$ 228,473,997

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
  - (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
  - (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
  - (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
  - (5) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a bond, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund’s Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund’s custodian to cease accruing additional income on the Fund’s records.
  - (6) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
  - (7) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 29.7%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

3,315	San Francisco City and County Public Utilities Commission, California, Clean Water Revenue Refunding Bonds, Series 2003A, 5.250%, 10/01/18 – NPMFG Insured		4/13 at 100.00	AA–	3,468,849
20,010	Total Water and Sewer				20,784,677
\$ 525,359	Total Investments (cost \$467,719,489) – 145.3%				488,106,122
	Floating Rate Obligations – (1.1)%				(3,845,000)
	MuniFund Term Preferred Shares, at Liquidation Value – (47.5)% (7)				(159,544,500)
	Other Assets Less Liabilities – 3.3%				11,113,734
	Net Assets Applicable to Common Shares – 100%				\$ 335,830,356

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (5) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a bond, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (6) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by

U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

(7) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 32.7%.

N/R Not rated.

WI/DD Purchased on a when-issued or delayed delivery basis.

(IF) Inverse floating rate investment.

(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

	Floating Rate Obligations – (3.0)%			(7,385,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (42.7)% (6)			(104,400,000)
	Other Assets Less Liabilities – 2.2%			5,403,877
	Net Assets Applicable to Common Shares – 100%			\$ 244,520,634

The Fund intends to invest at least 80% of its net assets in municipal securities that are covered by insurance guaranteeing the timely payment of principal and interest. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Insurance for more information.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's

or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
  - (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
  - (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 29.8%.
- N/R Not rated.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

	Net Assets Applicable to Common Shares – 100%			\$ 86,730,873

The Fund intends to invest at least 80% of its net assets in municipal securities that are covered by insurance guaranteeing the timely payment of principal and interest. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Insurance for more information.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
  - (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
  - (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
  - (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
  - (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
  - (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 28.7%.
- N/R Not rated.  
(IF) Inverse floating rate investment.

- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

- (a) The amounts shown are based on Common share equivalents.
- (b) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically

paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

(4.12)	(.32)	343,806	1.22	6.16	.83	6.54	23	

- (c) Ratios do not reflect the effect of dividend payments to Auction Rate Preferred shareholders, where applicable; Net Investment Income (Loss) ratios reflect income earned and expenses incurred on assets attributable to ARPS and/or MTP Shares, where applicable.
- (d) After expense reimbursement from the Adviser, where applicable. Ratios do not reflect the effect of custodian fee credits earned on the Fund's net cash on deposit with the custodian bank, where applicable. As of March 31, 2011 and September 30, 2011, the Adviser is no longer reimbursing California Dividend Advantage 2 (NVX) and California Dividend Advantage 3 (NZH), respectively, for any fees or expenses.
- (e) The expense ratios reflect, among other things, all interest expense and other costs related to MTP Shares and/or the interest expense deemed to have been paid by the Fund on the floating rate certificates issued by the special purpose trusts for the self-deposited inverse floaters held by the Fund, where applicable, both as described in Footnote 1 – General Information and Significant Accounting Policies, MuniFund Term Preferred Shares and Inverse Floating Rate Securities, respectively, as follows:

- (a) The amounts shown are based on Common share equivalents.
- (b) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.
- Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and

therefore may be different from the price used in the calculation. Total returns are not annualized.

Notes to  
Financial Statements

1. General Information and Significant Accounting Policies

General Information

The funds covered in this report and their corresponding Common share stock exchange symbols are Nuveen Insured California Premium Income Municipal Fund, Inc. (NPC), Nuveen Insured California Premium Income Municipal Fund 2, Inc. (NCL), Nuveen California Premium Income Municipal Fund (NCU), Nuveen California Dividend Advantage Municipal Fund (NAC), Nuveen California Dividend Advantage Municipal Fund 2 (NVX), Nuveen California Dividend Advantage Municipal Fund 3 (NZH), Nuveen Insured California Dividend Advantage Municipal Fund (NKL) and Nuveen Insured California Tax-Free Advantage Municipal Fund (NKX) (each a “Fund” and collectively, the “Funds”). Common shares of Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL) and California Dividend Advantage (NAC) are traded on the New York Stock Exchange (“NYSE”) while Common shares of California Premium Income (NCU), California Dividend Advantage 2 (NVX), California Dividend Advantage 3 (NZH), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) are traded on the NYSE Amex. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end registered investment companies.

Each Fund seeks to provide current income exempt from both regular federal and California state income taxes, and in the case of Insured California Tax-Free Advantage (NKX) the alternative minimum tax applicable to individuals, by investing primarily in a portfolio of municipal obligations issued by state and local government authorities within the state of California or certain U.S. territories.

Approved Fund Mergers

After the close of this reporting period, the Funds’ shareholders approved a series of reorganizations and changes to certain investment policies for Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX). The approved changes to each Fund’s investment policies were intended to increase the Funds’ flexibility regarding the types of securities available for investment.

The investment policy changes are as follows:

Each Fund eliminated the investment policy requiring it, under normal circumstances, to invest at least 80 percent of its managed assets in municipal securities that are covered by insurance which currently guarantees the timely payment of principal and interest.

Each Fund adopted a new investment policy requiring it, under normal circumstances, to invest at least 80 percent of its managed assets in municipal securities that pay interest exempt from federal and California income tax.

Each Fund eliminated the old fundamental loan policy and adopted a new fundamental loan policy, which states that each Fund may not make loans, except as permitted by the Investment Company Act of 1940, as amended, and exemptive orders granted under the Investment Company Act of 1940, as amended.

Each Fund will continue to invest substantially all (at least 80 percent) of its managed assets in investment grade quality municipal securities.

Nuveen Insured California Tax-Free Advantage Municipal Fund (NKX) will continue its policy of investing, under normal circumstances, at least 80% of its assets in AMT-free municipal securities.

In addition the shareholders approved the reorganization of the Funds as follows:

Acquired Funds	Acquiring Fund
Insured California Premium Income (NPC)	Nuveen California AMT Free
Insured California Premium Income 2 (NCL)	Municipal Income Fund (NKX)
Insured California Dividend Advantage (NKL)	

The reorganizations will be consummated before the opening of business on May 7, 2012. Upon the closing of the reorganizations, the Acquired Funds will transfer substantially all of their assets to the Acquiring Fund in exchange for common and preferred shares of the Acquiring Fund, and the assumption by the Acquiring Fund of the liabilities of the Acquired Funds. The Acquired Funds will then be liquidated, dissolved and terminated in accordance with their Declaration of Trust. The Acquiring Fund will change its name to Nuveen California AMT Free Municipal Income Fund (NKX).

Shareholders of the Acquired Funds will become shareholders of the Acquiring Fund. Holders of common shares will receive newly issued common shares of the Acquiring Fund, the aggregate net asset value of which will be equal to the aggregate net asset value of the common shares of the Acquired Funds held immediately prior to the reorganizations (including for this purpose fractional Acquiring Fund shares to which shareholders would be entitled). Fractional shares will be sold on the open market and shareholders will receive cash in lieu of such fractional shares. Holders of Variable Rate Demand Preferred (“VRDP”) Shares of each Acquired Fund will receive on a one-for-one basis newly issued VRDP Shares of the Acquiring Fund, in exchange for VRDP Shares of the Acquired Fund held immediately prior to the reorganization, with such new Acquiring Fund VRDP Shares having substantially the same terms as the exchanged VRDP Shares of the Acquired Funds.

#### Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).

#### Investment Valuation

Prices of municipal bonds and forward interest rate swap contracts are provided by a pricing service approved by the Funds’ Board of Directors/Trustees. These securities are generally classified as Level 2 for fair value measurement purposes. When price quotes are not readily available (which is usually the case for municipal bonds) the pricing service establishes a security’s fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity, provided by Nuveen Funds Advisors, Inc. (the “Adviser”), a wholly-owned subsidiary of Nuveen Investments, Inc. (“Nuveen”). These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds’ Board of Directors/Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund’s net asset value (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security’s fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds’ Board of Directors/Trustees or its designee.

Refer to Footnote 2 – Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

#### Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At February 29, 2012, California Premium Income (NCU), California Dividend Advantage (NAC), California Dividend Advantage 2 (NVX) and California Dividend Advantage 3 (NZH) had outstanding when-issued/delayed delivery purchase commitments of \$503,450, \$4,554,000, \$1,345,900 and \$1,999,800, respectively. There were no such outstanding purchase commitments in any of the other Funds.

#### Investment Income

Investment income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

#### Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

Notes to  
Financial Statements (continued)

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies (“RICs”). Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and California state income taxes, and in the case of Insured California Tax-Free Advantage (NKX) the alternative minimum tax applicable to individuals, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Auction Rate Preferred Shares

Each Fund is authorized to issue Auction Rate Preferred Shares (“ARPS”). As of February 28, 2011, Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL) and California Premium Income (NCU) redeemed all of their outstanding ARPS at liquidation value. As of August 31, 2008, Insured California Tax-Free Advantage (NKX) redeemed all of its outstanding ARPS at liquidation value. During the fiscal year ended February 29, 2012, California Dividend Advantage (NAC), California Dividend Advantage 2 (NVX), California Dividend Advantage 3 (NZH) and Insured California Dividend Advantage (NKL) had issued and outstanding ARPS, \$25,000 stated value per share, which approximates market value, as a means of effecting financial leverage. Each Fund’s ARPS were issued in one or more Series. The dividend rate paid by the Funds on each Series was determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and was payable at the end of each rate period.

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the ARPS issued by the Funds than there were offers to buy. This meant that these auctions “failed to clear,” and that many ARPS shareholders who wanted to sell their shares in these auctions were unable to do so. ARPS shareholders unable to sell their shares received distributions at the “maximum rate” applicable to failed auctions as calculated in accordance with the pre-established terms of the ARPS. As of February 29, 2012, each Fund redeemed all of their outstanding ARPS, at liquidation value, as follows:

Insured)	Insured)	California)	California)
California	California	Premium	Dividend

	Premium Income (NPC)	Premium Income 2 (NCL)	Income (NCU)	Advantage (NAC)
ARPS redeemed, at liquidation value	\$ 45,000,000	\$ 95,000,000	\$ 43,000,000	\$ 175,000,000
	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	Insured California Dividend Advantage (NKL)	Insured California Tax-Free Advantage (NKX)
ARPS redeemed, at liquidation value	\$ 110,000,000	\$ 187,000,000	\$ 118,000,000	\$ 45,000,000

During the fiscal year ended February 28, 2011, lawsuits pursuing claims made in a demand letter alleging that Insured California Tax-Free Advantage's (NKX) Board of Trustees breached its fiduciary duties related to the redemption at par of the Fund's ARPS, had been filed on behalf of shareholders of the Fund, against the Adviser, the Nuveen holding company, the majority owner of the holding company, the lone interested trustee, and current and former officers of the Fund. Nuveen and the other named defendants have filed a motion to dismiss the lawsuits, and on December 16, 2011, the court granted that motion dismissing the lawsuits. The plaintiffs failed to file an appeal of the court's decision within the required time period, resulting in the final disposition of the suit.

100 Nuveen Investments

MuniFund Term Preferred Shares

The following Funds have issued and outstanding MuniFund Term Preferred (“MTP”) Shares, with a \$10 stated (“par”) value per share. Proceeds from the issuance of MTP Shares, net of offering expenses, were used to redeem all, or a portion of, each Fund’s outstanding ARPS. Each Fund’s MTP Shares may be issued in one or more Series. Dividends on MTP Shares, which are recognized as interest expense for financial reporting purposes, are paid monthly at a fixed annual rate, subject to adjustments in certain circumstances. The MTP Shares trade on the NYSE. As of February 29, 2012, the number of MTP Shares outstanding, annual interest rate and NYSE “ticker” symbol for each Fund’s series of MTP Shares are as follows:

Series	California Premium Income (NCU)			California Dividend Advantage 2 (NVX)			California Dividend Advantage 3 (NZH)		
	Shares Outstanding	Annual Interest Rate	NYSE Ticker	Shares Outstanding	Annual Interest Rate	NYSE Ticker	Shares Outstanding	Annual Interest Rate	NYSE Ticker
Series 2015	35,250,000	2.00%	NCU Pr C						
Series:									
2014	42,846,300	2.35%	NVX Pr A	27,000,000	2.35%	NZH Pr A			
2014-1	—	—	—	46,294,500	2.25	NZH Pr B			
2015	55,000,000	2.05	NVX Pr C	86,250,000	2.95	NZH Pr C			

Each Fund is obligated to redeem its MTP Shares by the date as specified in its offering document (“Term Redemption Date”), unless earlier redeemed or repurchased by the Fund. MTP Shares are subject to optional and mandatory redemption in certain circumstances. MTP Shares will be subject to redemption at the option of each Fund (“Optional Redemption Date”), subject to a payment of premium for one year following the Optional Redemption Date (“Premium Expiration Date”), and at par thereafter. MTP Shares also will be subject to redemption, at the option of each Fund, at par in the event of certain changes in the credit rating of the MTP Shares. Each Fund may be obligated to redeem certain of the MTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for each Fund’s series of MTP Shares are as follows:

	California Premium Income (NCU) Series 2015	California Dividend Advantage 2 (NVX) Series 2014	California Dividend Advantage 2 (NVX) Series 2015	California Dividend Advantage 3 (NZH) Series 2014	California Dividend Advantage 3 (NZH) Series 2014-1	California Dividend Advantage 3 (NZH) Series 2015
Term Redemption Date	October 1, 2015	April 1, 2014	November 1, 2015	May 1, 2014	July 1, 2014	January 1, 2015
Optional Redemption Date	October 1, 2011	April 1, 2012	November 1, 2011	May 1, 2012	July 1, 2012	January 1, 2011

Premium Expiration Date	September 30, 2012	March 31, 2013	October 31, 2012	April 30, 2013	June 30, 2013	December 31, 2011
-------------------------	--------------------	----------------	------------------	----------------	---------------	-------------------

The average liquidation value of all MTP Shares outstanding for each Fund during the fiscal year ended February 29, 2012, was as follows:

	California Premium Income (NCU)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)
Average liquidation value of MTP Shares outstanding	\$ 35,250,000	\$ 94,479,248	\$ 144,226,510

For financial reporting purposes only, the liquidation value of MTP Shares is recorded as a liability on the Statement of Assets and Liabilities. Unpaid dividends on MTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities. Dividends paid on MTP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

Nuveen has agreed that net amounts earned by Nuveen as underwriter of each Fund's MTP Share offering would be credited to the Funds, and would be recorded as reductions of offering costs recognized by the Funds. During the fiscal year ended February 29, 2012, the net amounts earned by Nuveen for each fund were as follows:

	California Premium Income (NCU)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)
Net amounts earned by Nuveen	\$ 2,021	\$ 4,454	\$ 1,895

Nuveen Investments

101

Notes to  
Financial Statements (continued)

Variable Rate Demand Preferred Shares

The following Funds have issued and outstanding VRDP Shares, with a \$100,000 liquidation value per share. Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL), California Dividend Advantage (NAC), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) issued their VRDP Shares in a privately negotiated offering during March 2010, December 2010, June 2011, June 2011 and August 2008, respectively. Concurrent with renewing agreements with the liquidity provider for its VRDP Shares in June 2010, Insured Premium Income 2 (NPX) exchanged all its 2,190 Series 1 VRDP Shares for 2,190 Series 2 VRDP Shares. The principal difference in terms between Series 1 and Series 2 VRDP Shares is the requirement that the Fund redeem VRDP Shares owned by the liquidity provider if the VRDP Shares have been owned by the liquidity provider through six months of continuous, unsuccessful remarketing. Proceeds of each Fund's offering were used to redeem all, or a portion of, each Fund's outstanding ARPS. The VRDP Shares were offered to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. As of February 29, 2012, the number of VRDP Shares outstanding and maturity date for each Fund are as follows:

	Insured California Premium Income (NPC)	Insured California Premium Income 2 (NCL)	California Dividend Advantage (NAC)	Insured California Dividend Advantage (NKL)	Insured California Tax-Free Advantage (NKX)
Series	1	1	1	1	2
Shares outstanding	427	740	1,362	1,044	355
Maturity	March 1, 2040	December 1, 2040	June 1, 2041	June 1, 2041	June 1, 2040

VRDP Shares include a liquidity feature that allows VRDP shareholders to have their shares purchased by a liquidity provider with whom each Fund has contracted in the event that purchase orders for VRDP Shares in a remarketing are not sufficient in number to be matched with the sale orders in that remarketing. Each Fund is required to redeem any VRDP Shares that are still owned by the liquidity provider after six months of continuous, unsuccessful remarketing.

Dividends on the VRDP Shares (which are treated as interest payments for financial reporting purposes) are set weekly at a rate established by a remarketing agent; therefore, the market value of the VRDP Shares is expected to approximate its liquidation value. If remarketings for VRDP Shares are continuously unsuccessful for six months, the maximum rate is designed to escalate according to a specified schedule in order to enhance the remarketing agent's ability to successfully remarket the VRDP Shares.

Subject to certain conditions, VRDP Shares may be redeemed, in whole or in part, at any time at the option of each Fund. Each Fund may also redeem certain of the VRDP Shares if the Fund fails to maintain certain asset coverage requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends.

The average liquidation value outstanding and annualized dividend rate of VRDP Shares for each Fund during the fiscal year ended February 29, 2012, were as follows:

Insured California Premium	Insured California Premium	California Dividend	Insured California Dividend	Insured California Tax-Free
----------------------------------	----------------------------------	------------------------	-----------------------------------	-----------------------------------

	Income (NPC)	Income 2 (NCL)	Advantage (NAC)*	Advantage (NKL)*	Advantage (NKX)
Average liquidation value outstanding	\$ 42,700,000	\$ 74,000,000	\$ 136,200,000	\$ 104,400,000	\$ 35,500,000
Annualized dividend rate	0.32%	0.32%	0.28%	0.28%	0.27%

\* For the period June 28, 2011 (issuance date of shares) through February 29, 2012.

For financial reporting purposes only, the liquidation value of VRDP Shares is recognized as a liability on the Statement of Assets and Liabilities. Unpaid dividends on VRDP Shares are recognized as a component of “Interest payable” on the Statement of Assets and Liabilities. Dividends paid on the VRDP Shares are recognized as a component of “Interest expense and amortization of offering costs” on the Statement of Operations. In addition to interest expense, each Fund also pays a per annum liquidity fee to the liquidity provider, as well as a remarketing fee, which are recognized as “Fees on VRDP Shares” on the Statement of Operations.

#### Insurance

Since 2007, the financial status of most major municipal bond insurers has deteriorated substantially, and some insurers have gone out of business, rendering worthless the insurance policies they had written. Under normal circumstances, Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) invest at least 80% of their managed assets (as defined in Footnote 7 – Management Fees and Other Transactions with Affiliates) in municipal securities that are covered by insurance guaranteeing the timely payment of principal and interest. In addition, the municipal securities in which each Fund invests will be investment

grade at the time of purchase (including (i) bonds insured by investment grade insurers or are rated investment grade; (ii) unrated bonds that are judged to be investment grade by the Adviser; and (iii) escrowed bonds). Ratings below BBB by one or more national rating agencies are considered to be below investment grade.

Each insured municipal security is covered by Original Issue Insurance, Secondary Market Insurance or Portfolio Insurance. Assuming that the insurer remains creditworthy, the insurance feature of a municipal security guarantees the full payment of principal and interest when due through the life of an insured obligation. Such insurance does not guarantee the market value of the insured obligation or the value of the Fund's Common shares. Original Issue Insurance and Secondary Market Insurance remain in effect as long as the municipal securities covered thereby remain outstanding and the insurer remains in business, regardless of whether the Funds ultimately dispose of such municipal securities. Consequently, the market value of the municipal securities covered by Original Issue Insurance or Secondary Market Insurance may reflect value attributable to the insurance. Portfolio Insurance, in contrast, is effective only while the municipal securities are held by the Funds and is reflected as an expense over the term of the policy, when applicable. Accordingly, neither the prices used in determining the market value of the underlying municipal securities nor the Common share net asset value of the Funds include value, if any, attributable to the Portfolio Insurance. Each policy of the Portfolio Insurance does, however, give the Funds the right to obtain permanent insurance with respect to the municipal security covered by the Portfolio Insurance policy at the time of its sale.

#### Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as "(IF) – Inverse floating rate investment." An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as "(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction," with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in "Investment Income" the entire earnings of the underlying bond and the related interest paid to the holders of the short-term floating rate certificates as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

During the fiscal year ended February 29, 2012, each Fund invested in externally-deposited inverse floaters and/or self-deposited inverse floaters.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a “recourse trust” or “credit recovery swap”) (such agreements referred to herein as “Recourse Trusts”) with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund’s potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund’s inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as “Unrealized depreciation on Recourse Trusts” on the Statement of Assets and Liabilities. At February 29, 2012, each Fund’s maximum exposure to externally-deposited Recourse Trusts, was as follows:

	Insured California Premium Income (NPC)	Insured California Premium Income 2 (NCL)	California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	Insured California Dividend Advantage (NKL)	Insured California Tax-Free Advantage (NKX)
Maximum exposure to Recourse Trusts	\$ 9,780,000	\$ 9,515,000	\$ 6,510,000	\$ 3,590,000	\$ 16,210,000	\$ 48,960,000	\$ 7,700,000	\$ 2,905,000

Nuveen Investments

103

Notes to  
Financial Statements (continued)

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters for the following Funds during the fiscal year ended February 29, 2012, were as follows:

		Insured California Premium Income 2 (NCL)		California Premium Income (NCU)		California Dividend Advantage (NAC)
Average floating rate obligations outstanding	\$	17,880,000	\$	6,650,000	\$	28,545,000
Average annual interest rate and fees		0.59%		0.55%		0.60%

		California Dividend Advantage 2 (NVX)		California Dividend Advantage 3 (NZH)		Insured California Dividend Advantage (NKL)		Insured California Tax-Free Advantage (NKX)
Average floating rate obligations outstanding	\$	11,390,000	\$	3,845,000	\$	7,385,000	\$	3,360,000
Average annual interest rate and fees		0.61%		0.54%		0.61%		0.77%

#### Forward Swap Contracts

Each Fund is authorized to enter into forward interest rate swap contracts consistent with their investment objectives and policies to reduce, increase or otherwise alter its risk profile or to alter its portfolio characteristics (i.e. duration, yield curve positioning and credit quality).

Each Fund is subject to interest rate risk in the normal course of pursuing its investment objectives. Each Fund's use of forward interest rate swap transactions is intended to help the Fund manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Fund's interest rate sensitivity with that of the broader market. Forward interest rate swap transactions involve each Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of the Fund's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the swap's termination date increase or decrease. Forward interest rate swap contracts are valued daily. The net amount recorded on these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of "Unrealized appreciation or depreciation on forward swaps" with the change during the fiscal period recognized on the Statement of Operations as a component of "Change in net unrealized appreciation (depreciation) of forward swaps."

Each Fund may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Net realized gains and losses during the fiscal period are recognized on the Statement of Operations as a component of "Net realized gain (loss) from forward swaps." Each Fund intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk

of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination.

During the fiscal year ended February 29, 2012, Insured California Premium Income 2 (NCL) entered into forward interest rate swap contracts to broadly reduce the sensitivity of the Fund to movements in U.S. interest rates. The average notional amount of forward interest rate swap contracts outstanding during the fiscal year ended February 29, 2012 was as follows:

		Insured California Premium Income 2 (NCL)
Average notional amount of forward interest rate swap contracts outstanding*	\$	2,300,000

\* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

Refer to Footnote 3 – Derivative Instruments and Hedging Activities for further details on forward swap contract activity.

#### Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund’s exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and

Liabilities. Futures contracts, when applicable, expose a Fund to minimal counterparty credit risk as they are exchange traded and the exchange’s clearinghouse, which is counterparty to all exchange traded futures, guarantees the futures contracts against default.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

#### Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

#### Offering Costs

Costs incurred by the Funds in connection with their offerings of MTP Shares or VRDP Shares were recorded as a deferred charge, which are being amortized over the life of the shares. Each Fund’s amortized deferred charges are recognized as a component of “Interest expense and amortization of offering costs” on the Statement of Operations. Each Fund’s offering costs incurred were as follows:

		California Premium Income (NCU)		California Dividend Advantage 2 (NVX)		California Dividend Advantage 3 (NZH)
MTP Shares offering costs	\$	868,750	\$	2,055,579	\$	3,269,931

		Insured California Premium Income (NPC)		Insured California Premium Income 2 (NCL)		Insured California Dividend Advantage (NKL)		Insured California Tax-Free Advantage (NKX)		
VRDP Shares offering costs	\$	857,000	\$	627,000	\$	650,000	\$	580,000	\$	530,000

#### Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund’s cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

#### Indemnifications

Under the Funds’ organizational documents, their officers and directors/trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the

Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

#### 2. Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions

Nuveen Investments

---

Notes to  
Financial Statements (continued)

market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

- Level 1 Quoted prices in active markets for identical securities.  
 Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).  
 Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of February 29, 2012:

Insured California Premium Income (NPC)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$ —	\$ 138,048,126	\$ —	\$ 138,048,126
Insured California Premium Income 2 (NCL)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$ —	\$ 280,025,460	\$ —	\$ 280,025,460
California Premium Income (NCU)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$ —	\$ 125,293,556	\$ —	\$ 125,293,556
California Dividend Advantage (NAC)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$ —	\$ 510,520,007	\$ —	\$ 510,520,007
California Dividend Advantage 2 (NVX)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$ —	\$ 329,724,378	\$ —	\$ 329,724,378
California Dividend Advantage 3 (NZH)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$ —	\$ 488,106,122	\$ —	\$ 488,106,122
Insured California Dividend Advantage (NKL)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$ —	\$ 350,901,757	\$ —	\$ 350,901,757
Insured California Tax-Free Advantage (NKX)	Level 1	Level 2	Level 3	Total

## Investments:

Municipal Bonds	\$	—\$ 123,860,171	\$	—\$ 123,860,171
-----------------	----	-----------------	----	-----------------

The following is a reconciliation of the following Fund's Level 3 investments held at the beginning and end of the measurement period:

	California Premium Income (NCU) Level 3 Municipal Bonds	California Dividend Advantage (NAC) Level 3 Municipal Bonds	California Dividend Advantage 2 (NVX) Level 3 Municipal Bonds	California Dividend Advantage 3 (NZH) Level 3 Municipal Bonds
Balance at the beginning of period	\$ 2,746,970	\$ 1,229,601	\$ 766,086	\$ 1,261,789
Gains (losses):				
Net realized gains (losses)	—	—	—	—
Net change in unrealized appreciation (depreciation)	690,857	(610,913)	(380,621)	(626,905)
Purchases at cost	—	—	—	—
Sales at proceeds	(690,000)	(7,431)	(4,629)	(7,625)
Net discounts (premiums)	—	—	—	—
Transfers in to	—	—	—	—
Transfers out of	(2,747,827)	(611,257)	(380,836)	(627,259)
Balance at the end of period	\$ —	\$ —	\$ —	\$ —
Change in net unrealized appreciation (depreciation) during the period of Level 3 securities held as of February 29, 2012	\$ —	\$ —	\$ —	\$ —

During the fiscal year ended February 29, 2012, the Funds recognized no significant transfers to or from Level 1 or Level 2. Transfers in and/or out of Level 3 are shown using end of period values.

### 3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. For additional information on the derivative instruments in which each Fund was invested during and at the end of the reporting period, refer to the Portfolios of Investments, Financial Statements and Footnote 1 - General Information and Significant Accounting Policies.

The following tables present the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized for the fiscal year ended February 29, 2012, on derivative instruments, as well as the primary risk exposure associated with each.

		Insured California Premium Income 2 (NCL)
Net Realized Gain (Loss) from Forward Swaps		
Risk Exposure		
Interest Rate	\$	(346,971)

		Insured California Premium Income 2 (NCL)
Change in Net Unrealized Appreciation (Depreciation) of Forward Swaps		
Risk Exposure		
Interest Rate	\$	15,872

Purchases	\$ 36,098,754	\$ 81,633,691	\$ 43,559,316	\$ 7,965,183
Sales and maturities	38,147,419	83,209,836	46,057,683	7,893,115

6. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At February 29, 2012, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives), as determined on a federal income tax basis, were as follows:

Insured California Premium Income	Insured California Premium Income 2	California Premium Income	California Dividend Advantage
--	--	---------------------------------	-------------------------------------

	(NPC)	(NCL)	(NCU)	(NAC)
Cost of investments	\$ 126,528,290	\$ 245,024,969	\$ 108,875,141	\$ 455,349,270
Gross unrealized:				
Appreciation	\$ 11,907,834	\$ 17,458,674	\$ 10,350,251	\$ 39,816,855
Depreciation	(387,998)	(338,616)	(586,753)	(13,189,771)
Net unrealized appreciation (depreciation) of investments	\$ 11,519,836	\$ 17,120,058	\$ 9,763,498	\$ 26,627,084

110 Nuveen Investments

---

	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	Insured California Dividend Advantage (NKL)	Insured California Tax-Free Advantage (NKX)
Cost of investments	\$ 300,581,480	\$ 463,612,399	\$ 320,549,062	\$ 116,755,749
Gross unrealized:				
Appreciation	\$ 24,871,158	\$ 30,783,299	\$ 27,128,588	\$ 6,269,924
Depreciation	(7,115,399)	(10,134,576)	(4,160,520)	(2,523,009)
Net unrealized appreciation (depreciation) of investments	\$ 17,755,759	\$ 20,648,723	\$ 22,968,068	\$ 3,746,915

Permanent differences, primarily due to expiration of capital loss carryforwards, federal taxes paid, taxable market discount, nondeductible offering costs and nondeductible reorganization expenses, resulted in reclassifications among the Funds' components of Common share net assets at February 29, 2012, the Funds' tax year end, as follows:

	Insured California Premium Income (NPC)	Insured California Premium Income 2 (NCL)	California Premium Income (NCU)	California Dividend Advantage (NAC)
Paid-in-surplus	\$ (394,792)	\$ (313,044)	\$ (168,169)	\$ (12,769)
Undistributed (Over-distribution of) net investment income	326,653	303,083	163,997	(69,999)
Accumulated net realized gain (loss)	68,139	9,961	4,172	82,768

	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	Insured California Dividend Advantage (NKL)	Insured California Tax-Free Advantage (NKX)
Paid-in-surplus	\$ (490,135)	\$ (1,066,267)	\$ (29,745)	\$ (152,353)
Undistributed (Over-distribution of) net investment income	487,003	730,602	(53,141)	148,013
Accumulated net realized gain (loss)	3,132	335,665	82,886	4,340

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains at February 29, 2012, the Funds' tax year end, were as follows:

	Insured California Premium Income (NPC)	Insured California Premium Income 2 (NCL)	California Premium Income (NCU)	California Dividend Advantage (NAC)
Undistributed net tax-exempt income *	\$ 1,963,940	\$ 3,870,061	\$ 1,798,508	\$ 8,081,307

Distributions from net ordinary income

\*\* — — — —

Distributions from net long-term capital gains

— — — —

\*\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

\*\*\* The Funds hereby designate these amounts paid during the fiscal year ended February 29, 2012, as Exempt Interest Dividends.

\*\*\*\* The Funds designated as a long-term capital gain dividend, pursuant to the Internal Revenue Code Section 852(b)(3), the amount necessary to reduce earnings and profits of the Funds related to net capital gain to zero for the tax year ended February 29, 2012.

At February 29, 2012, the Funds' tax year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	Insured California Premium Income 2 (NCL)	California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	Insured California Tax-Free Advantage (NKX)
Expiration:						
February 29, 2016	\$ —	\$ —	\$ —	\$ —	3,869,938	\$ —
February 28, 2017	—	59,969	10,106,897	—	4,536,999	451,000
February 28, 2018	1,035,810	881,108	731,149	705,843	10,646,251	530,894
February 28, 2019	—	—	—	—	1,340,157	—
Total	\$ 1,035,810	\$ 941,077	\$ 10,838,046	\$ 705,843	\$ 20,393,345	\$ 981,894

During the Funds' tax year ended February 29, 2012, the following Funds utilized capital loss carryforwards as follows:

		Insured California Premium Income 2 (NCL)		Insured California Dividend Advantage (NKL)		Insured California Tax-Free Advantage (NKX)
Utilized capital loss carryforwards	\$	408,471	\$	1,350,995	\$	34,298

At February 29, 2012, the Funds' tax year end, \$323,840 of California Dividend Advantage 3's (NZH) capital loss carryforward expired.

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the "Act") was enacted, which changed various technical rules governing the tax treatment of RICs. The changes are generally effective for taxable years beginning after the date of enactment. One of the more prominent changes addresses capital loss carryforwards. Under the Act, each Fund will be permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

The Act also contains several provisions aimed at preserving the character of distributions made by a fiscal year RIC during the portion of its taxable year ending after October 31 or December 31, reducing the circumstances under which a RIC might be required to file amended Forms 1099 to restate previously reported distributions. Capital losses incurred that will be carried forward under the provisions of the Act are as follows:

		California Premium Income (NCU)		California Dividend Advantage (NAC)		California Dividend Advantage 2 (NVX)		California Dividend Advantage 3 (NZH)
Post-enactment losses								
Short-term	\$	—	\$	—	\$	—	\$	—
Long-term		1,569		5,081,879		345,491		1,853,006

The Funds have elected to defer losses incurred from November 1, 2011 through February 29, 2012, the Funds' tax year end, in accordance with federal income tax rules. These losses are treated as having arisen on the first day of the following fiscal year. The following Funds have elected to defer losses as follows:

		California Premium Income (NCU)		California Dividend Advantage (NAC)		California Dividend Advantage 2 (NVX)		California Dividend Advantage 3 (NZH)
Post-October capital losses	\$	72,731	\$	2,438,655	\$	808,072	\$	3,922,013
Late-year ordinary losses		—		—		—		—

## 7. Management Fees and Other Transactions with Affiliates

Each Fund's management fee consists of two components – a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

Notes to  
Financial Statements (continued)

The annual fund-level fee for each Fund, payable monthly, is calculated according to the following schedules:

Average Daily Managed Assets*	Insured California Premium Income (NPC)	Insured California Premium Income 2 (NCL)	California Premium Income (NCU)	Fund-Level Fee Rate
	For the first \$125 million			
For the next \$125 million				.4375
For the next \$250 million				.4250
For the next \$500 million				.4125
For the next \$1 billion				.4000
For the next \$3 billion				.3875
For managed assets over \$5 billion				.3750

Average Daily Managed Assets*	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	Insured California Dividend Advantage (NKL)	Insured California Tax-Free Advantage (NKX)	Fund-Level Fee Rate
	For the first \$125 million					
For the next \$125 million						.4375
For the next \$250 million						.4250
For the next \$500 million						.4125
For the next \$1 billion						.4000
For managed assets over \$2 billion						.3750

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Complex-Level Managed Asset Breakpoint Level*	Effective Rate at Breakpoint Level
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961
\$63 billion	.1931
\$66 billion	.1900
\$71 billion	.1851
\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

\*

For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen Funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen Funds and assets in excess of \$2 billion added to the Nuveen Fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of February 29, 2012, the complex-level fee rate for these Funds was .1724%.

114 Nuveen Investments

---

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser is responsible for each Fund's overall investment strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Nuveen Asset Management, LLC (the "Sub-Adviser"), a wholly-owned subsidiary of the Adviser, under which the Sub-Adviser manages the investment portfolios of the Funds. The Sub-Adviser is compensated for its services to the Funds from the management fees paid to the Adviser.

The Funds pay no compensation directly to those of its directors/trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent directors/trustees that enables directors/trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

For the first ten years of California Dividend Advantage 2's (NVX) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily managed assets, for fees and expenses in the amounts and for the time periods set forth below:

Year Ending March 31,		Year Ending March 31,	
2001*	.30%	2007	.25%
2002	.30	2008	.20
2003	.30	2009	.15
2004	.30	2010	.10
2005	.30	2011	.05
2006	.30		

\* From the commencement of operations.

The Adviser has not agreed to reimburse California Dividend Advantage 2 (NVX) for any portion of its fees and expenses beyond March 31, 2011. For the first ten years of California Dividend Advantage 3's (NZH) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily managed assets, for fees and expenses in the amounts and for the time periods set forth below:

Year Ending September 30,		Year Ending September 30,	
2001*	.30%	2007	.25%
2002	.30	2008	.20
2003	.30	2009	.15
2004	.30	2010	.10
2005	.30	2011	.05
2006	.30		

\* From the commencement of operations.

The Adviser has not agreed to reimburse California Dividend Advantage 3 (NZH) for any portion of its fees and expenses beyond September 30, 2011.

For the first ten years of Insured California Dividend Advantage's (NKL) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily managed assets, for fees and expenses in the amounts and for the

time periods set forth below:

Year Ending March 31,		Year Ending March 31,	
2002*	.30%	2008	.25%
2003	.30	2009	.20
2004	.30	2010	.15
2005	.30	2011	.10
2006	.30	2012	.05
2007	.30		

\* From the commencement of operations.

The Adviser has not agreed to reimburse Insured California Dividend Advantage (NKL) for any portion of its fees and expenses beyond March 31, 2012.

8. New Accounting Pronouncements

Fair Value Measurements and Disclosures

On May 12, 2011, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standards Update (“ASU”) No. 2011-04 (“ASU No. 2011-04”) modifying Topic 820, Fair Value Measurements and Disclosures. At the same time, the International Accounting Standards Board (“IASB”) issued International Financial Reporting Standard (“IFRS”) 13, Fair Value Measurement. The objective of the FASB and IASB is convergence of their guidance on fair value measurements and disclosures. Specifically, ASU No. 2011-04 requires reporting entities to disclose i) the amounts of any transfers between Level 1 and Level 2 and the reasons for the transfers and ii) for Level 3 fair value measurements, a) quantitative information about significant unobservable inputs used, b) a description of the valuation processes used by the reporting entity and c) a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs if a change in those inputs might result in a significantly higher or lower fair value measurement. The effective date of ASU No. 2011-04 is for interim and annual periods beginning after December 15, 2011. At this time, management is evaluating the implications of this guidance and the impact it will have to the financial statement amounts and footnote disclosures, if any.

## Board Members &amp; Officers (Unaudited)

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the board members of the Funds. The number of board members of the Funds is currently set at ten. None of the board members who are not “interested” persons of the Funds (referred to herein as “independent board members”) has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the board members and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

Name, Birthdate & Address	Position(s) Held with the Funds	Year First Elected or Appointed and Term(1)	Principal Occupation(s) including other Directorships During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Board Member
---------------------------------	---------------------------------------	---	---	--

- (1) For California Premium Income (NCU), California Dividend Advantage (NAC), California Dividend Advantage 2 (NVX), California Dividend Advantage 3 (NZH), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX), the Board of Trustees is divided into three classes, Class I, Class II, and Class III, with each being elected to serve until the third succeeding annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed, except two board members are elected by the holders of Preferred Shares to serve until the next annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed. For Insured California Premium Income (NPC) and Insured California Premium Income 2 (NCL), the Board Members serve a one year term to serve until the next annual meeting or until their successors shall have been duly elected and qualified. The year first elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
- (2) Mr. Amboian is an interested trustee because of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
- (3) Officers serve one year terms through August of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Reinvest Automatically,  
Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Automatic Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may

exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

#### Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

#### Call today to start reinvesting distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Glossary of Terms  
Used in this Report

**Auction Rate Bond:** An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have “failed,” with current holders receiving a formula-based interest rate until the next scheduled auction.

**Average Annual Total Return:** This is a commonly used method to express an investment’s performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment’s actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**Average Effective Maturity:** The market-value-weighted average of the effective maturity dates of the individual securities including cash. In the case of a bond that has been advance-refunded to a call date, the effective maturity is the date on which the bond is scheduled to be redeemed using the proceeds of an escrow account. In most other cases the effective maturity is the stated maturity date of the security.

**Effective Leverage:** Effective leverage is a Fund’s effective economic leverage, and includes both regulatory leverage (see below) and the leverage effects of certain derivative investments in the Fund’s portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage.

**Inverse Floating Rate Securities:** Inverse floating rate securities, also known as inverse floaters or tender option bonds (TOBs), are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond’s par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an “inverse floater”) to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates’ holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond’s downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond’s value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.

**Leverage:** Using borrowed money to invest in securities or other assets, seeking to increase the return of an investment or portfolio.

**Leverage-Adjusted Duration:** Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

**Lipper California Municipal Debt Funds Classification Average:** Calculated using the returns of all closed-end funds in this category for each period as follows: 1-year, 7 funds; 5-year, 7 funds; and 10-year, 4 funds. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges. The Lipper average is not available for direct investment.

**Lipper Single-State Insured Municipal Debt Funds Classification Average:** Calculated using the returns of all closed-end funds in this category for each period as follows: 1-year, 44 funds; 5-year, 44 funds; and 10-year, 24 funds. Lipper returns account for the effects of management fees and assume reinvestment of dividends, but do not reflect any applicable sales charges. The Lipper average is not available for direct investment.

**Market Yield (also known as Dividend Yield or Current Yield):** An investment's current annualized dividend divided by its current market price.

**Net Asset Value (NAV):** The net market value of all securities held in a portfolio.

**Net Asset Value (NAV) Per Share:** The market value of one share of a mutual fund or closed-end fund. For a Fund, the NAV is calculated daily by taking the Fund's total assets (securities, cash, and accrued earnings), subtracting the Fund's liabilities, and dividing by the number of shares outstanding.

**Pre-Refunding:** Pre-Refunding, also known as advanced refundings or refinancings, is a procedure used by state and local governments to refinance municipal bonds to lower interest expenses. The issuer sells new bonds with a lower yield and uses the proceeds to buy U.S. Treasury securities, the interest from which is used to make payments on the higher-yielding bonds. Because of this collateral, pre-refunding generally raises a bond's credit rating and thus its value.

**Regulatory Leverage:** Regulatory leverage consists of preferred shares issued by or borrowings of a fund. Both of these are part of a Fund's capital structure. Regulatory leverage is sometimes referred to as "40 Act Leverage" and is subject to asset coverage limits set in the Investment Company Act of 1940.

**Standard & Poor's (S&P) California Municipal Bond Index:** An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment California municipal bond market, respectively. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. It is not possible to invest directly in an index.

Glossary of Terms  
Used in this Report (continued)

**Standard & Poor's (S&P) Insured National Municipal Bond Index:** An unleveraged, market value-weighted index designed to measure the performance of the insured segment of the U.S. municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. It is not possible to invest directly in an index.

**Standard & Poor's (S&P) National Municipal Bond Index:** An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade U.S. municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. It is not possible to invest directly in an index.

**Taxable-Equivalent Yield:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

**Zero Coupon Bond:** A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

Quarterly Portfolio of Investments and Proxy Voting Information

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how each Fund voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, and (iii) a description of the policies and procedures that each Fund used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's

website at [www.nuveen.com](http://www.nuveen.com).

You may also obtain this and other Fund information directly from the Securities and Exchange Commission (SEC). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to [publicinfo@sec.gov](mailto:publicinfo@sec.gov) or by writing to the SEC's Public References Section at 100 F Street NE, Washington, D.C. 20549.

#### CEO Certification Disclosure

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

#### Common and Preferred Share Information

Each Fund intends to repurchase and/or redeem shares of its own common and/or auction rate preferred stock in the future at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds repurchased and/or redeemed shares of their common and/or auction rate preferred stock as shown in the accompanying table.

Fund	Common Shares Repurchased	Preferred Shares Redeemed
NPC	—	—
NCL	—	—
NCU	—	—
NAC	—	5,421
NVX	—	1,598
NZH	—	2,780
NKL	—	4,150
NKX	—	—

Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

Nuveen Investments:

## ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at [www.nuveen.com/CEF/Shareholder](http://www.nuveen.com/CEF/Shareholder). (To view the code, click on Fund Governance and then click on Code of Conduct.)

## ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees ("Board") determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Carole E. Stone, who is "independent" for purposes of Item 3 of Form N-CSR.

Ms. Stone served for five years as Director of the New York State Division of the Budget. As part of her role as Director, Ms. Stone was actively involved in overseeing the development of the State's operating, local assistance and capital budgets, its financial plan and related documents; overseeing the development of the State's bond-related disclosure documents and certifying that they fairly presented the State's financial position; reviewing audits of various State and local agencies and programs; and coordinating the State's system of internal audit and control. Prior to serving as Director, Ms. Stone worked as a budget analyst/examiner with increasing levels of responsibility over a 30 year period, including approximately five years as Deputy Budget Director. Ms. Stone has also served as Chair of the New York State Racing Association Oversight Board, as Chair of the Public Authorities Control Board, as a Commissioner on the New York State Commission on Public Authority Reform and as a member of the Boards of Directors of several New York State public authorities. These positions have involved overseeing operations and finances of certain entities and assessing the adequacy of project/entity financing and financial reporting. Currently, Ms. Stone is on the Board of Directors of CBOE Holdings, Inc., of the Chicago Board Options Exchange, and of C2 Options Exchange. Ms. Stone's position on the boards of these entities and as a member of both CBOE Holdings' Audit Committee and its Finance Committee has involved, among other things, the oversight of audits, audit plans and preparation of financial statements.

## ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

### Nuveen Insured California Premium Income Municipal Fund 2, Inc.

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

### SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

Fiscal Year Ended	Audit Fees	Audit-Related		Tax Fees	All Other	
	Billed	Fees		Billed to	Fees	
	to Fund 1	Fund 2	Fund 3	Billed to	Fund 4	
February 29, 2012	\$21,200	\$ 0	\$0	\$0	\$0	
Percentage approved pursuant to pre-approval exception	0	% 0	% 0	% 0	% 0	%
February 28, 2011	\$18,200	\$ 0	\$0	\$3,400		
Percentage approved pursuant to pre-approval exception	0	% 0	% 0	% 0	% 0	%

1 "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

2 "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under "Audit Fees".

3 "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.

4 "All Other Fees" are the aggregate fees billed for products and services for agreed upon procedures engagements performed for leveraged funds.

#### SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Fund Advisors, Inc. (formerly Nuveen Asset Management) (the "Adviser" or "NFA"), and any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

Fiscal Year Ended	Audit-Related Fees Billed to Adviser and Affiliated Fund Service Providers	Tax Fees Billed to Adviser and Affiliated Fund Service Providers	All Other Fees Billed to Adviser and Affiliated Fund Service Providers	
February 29, 2012	\$	0 \$	0 \$	0
Percentage approved pursuant to pre-approval exception		0%	0%	0%
February 28, 2011	\$	0 \$	0 \$	0
Percentage approved pursuant to pre-approval exception		0%	0%	0%

#### NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the pre-approval exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Fiscal Year Ended	Total Non-Audit Fees Billed to Fund	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (engagements related directly to the operations and financial reporting of the Fund)	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (all other engagements)	Total
February 29, 2012	\$ 0	\$ 0	\$ 0	\$ 0
February 28, 2011	\$ 3,400	\$ 0	\$ 0	\$ 3,400

"Non-Audit Fees billed to Fund" for both fiscal year ends represent "Tax Fees" and "All Other Fees" billed to Fund in their respective amounts from the previous table.

**Audit Committee Pre-Approval Policies and Procedures.** Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee

at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Terence J. Toth, William J. Schneider, Carole E. Stone and David J. Kundert.

ITEM 6. SCHEDULE OF INVESTMENTS.

a) See Portfolio of Investments in Item 1.

b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Nuveen Fund Advisors, Inc. (“Adviser”) is the registrant’s investment adviser. The Adviser is responsible for the on-going monitoring of the Fund’s investment portfolio, managing the Fund’s business affairs and providing certain clerical, bookkeeping and administrative services. The Adviser has engaged Nuveen Asset Management, LLC (“Sub-Adviser”) as Sub-Adviser to provide discretionary investment advisory services. As part of these services, the Adviser has delegated to the Sub-Adviser the full responsibility for proxy voting on securities held in the registrant’s portfolio and related duties in accordance with the Sub-Adviser's policy and procedures. The Adviser periodically monitors the Sub-Adviser's voting to ensure that it is carrying out its duties. The Sub-Adviser’s proxy voting policies and procedures are attached to this filing as an exhibit and incorporated herein by reference.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Nuveen Fund Advisors, Inc. is the registrant’s investment adviser (also referred to as the “Adviser”). The Adviser is responsible for the selection and on-going monitoring of the Fund’s investment portfolio, managing the Fund’s business affairs and providing certain clerical, bookkeeping and administrative services. The Adviser has engaged Nuveen Asset Management, LLC (“Nuveen Asset Management” or “Sub-Adviser”) as Sub-Adviser to provide discretionary investment advisory services. The following section provides information on the portfolio manager at the Sub-Adviser:

The Portfolio Manager

The following individual has primary responsibility for the day-to-day implementation of the registrant’s investment strategies:

Name	Fund
Scott R. Romans	Nuveen Insured California Premium Income Municipal Fund 2, Inc.

Other Accounts Managed. In addition to managing the registrant, the portfolio manager is also primarily responsible for the day-to-day portfolio management of the following accounts:

Portfolio Manager	Type of Account Managed	Number of Accounts	Assets*
Scott R. Romans	Registered Investment Company	31	\$6.52 billion
	Other Pooled Investment Vehicles	0	\$0

Other Accounts 2 \$1.026 million

\* Assets are as of February 29, 2012. None of the assets in these accounts are subject to an advisory fee based on performance.

#### POTENTIAL MATERIAL CONFLICTS OF INTEREST

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one account. More specifically, portfolio managers who manage multiple accounts are presented a number of potential conflicts, including, among others, those discussed below.

The management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of each account. Nuveen Asset Management seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio managers focus on a particular investment discipline. Most accounts managed by a portfolio manager in a particular investment strategy are managed using the same investment models.

If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one account, an account may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible accounts. To deal with these situations, Nuveen Asset Management has adopted procedures for allocating limited opportunities across multiple accounts.

With respect to many of its clients' accounts, Nuveen Asset Management determines which broker to use to execute transaction orders, consistent with its duty to seek best execution of the transaction. However, with respect to certain other accounts, Nuveen Asset Management may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular broker. In these cases, Nuveen Asset Management may place separate, non-simultaneous, transactions for a Fund and other accounts which may temporarily affect the market price of the security or the execution of the transaction, or both, to the detriment of the Fund or the other accounts.

Some clients are subject to different regulations. As a consequence of this difference in regulatory requirements, some clients may not be permitted to engage in all the investment techniques or transactions or to engage in these transactions to the same extent as the other accounts managed by the portfolio manager. Finally, the appearance of a conflict of interest may arise where Nuveen Asset Management has an incentive, such as a performance-based management fee, which relates to the management of some accounts, with respect to which a portfolio manager has day-to-day management responsibilities.

Nuveen Asset Management has adopted certain compliance procedures which are designed to address these types of conflicts common among investment managers. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

Item 8(a)(3).

#### FUND MANAGER COMPENSATION

Portfolio manager compensation consists primarily of base pay, an annual cash bonus and long term incentive payments.

Base pay. Base pay is determined based upon an analysis of the portfolio manager's general performance, experience, and market levels of base pay for such position.

Annual cash bonus. The Fund's portfolio managers are eligible for an annual cash bonus based on investment performance, qualitative evaluation and financial performance of Nuveen Asset Management.

A portion of each portfolio manager’s annual cash bonus is based on the Fund’s investment performance, generally measured over the past one- and three or five-year periods unless the portfolio manager’s tenure is shorter. Investment performance for the Fund generally is determined by evaluating the Fund’s performance relative to its benchmark(s) and/or Lipper industry peer group.

A portion of the cash bonus is based on a qualitative evaluation made by each portfolio manager’s supervisor taking into consideration a number of factors, including the portfolio manager’s team collaboration, expense management, support of personnel responsible for asset growth, and his or her compliance with Nuveen Asset Management’s policies and procedures.

The final factor influencing a portfolio manager’s cash bonus is the financial performance of Nuveen Asset Management based on its operating earnings.

Long-term incentive compensation. Certain key employees of Nuveen Investments and its affiliates, including certain portfolio managers, have received equity interests in the parent company of Nuveen Investments. In addition, certain key employees of Nuveen Asset Management, including certain portfolio managers, have received profits interests in Nuveen Asset Management which entitle their holders to participate in the firm’s growth over time.

There are generally no differences between the methods used to determine compensation with respect to the Fund and the Other Accounts shown in the table above.

Beneficial Ownership of Securities. As of February 29, 2012 the portfolio manager beneficially owned the following dollar range of equity securities issued by the Registrant and other Nuveen Funds managed by Nuveen Asset Management’s municipal investment team.

Name of Portfolio Manager	Fund	Dollar range of equity securities beneficially owned in Fund	Dollar range of equity securities beneficially owned in the remainder of Nuveen funds managed by Nuveen Asset Management’s municipal investment team
Scott R. Romans	Nuveen Insured California Premium Income Municipal Fund 2, Inc.	\$0	\$0

**PORTFOLIO MANAGER BIO:**

Scott R. Romans, PhD, Senior Vice President of Nuveen Asset Management, joined Nuveen Investments in 2000 as a senior analyst in the education sector. In 2003, he was assigned management responsibility for several closed- and open-ended municipal bond funds most of which are state funds covering California and other western states. Currently, he manages investments for 32 Nuveen-sponsored investment companies. He holds an undergraduate degree from the University of Pennsylvania and an MA and PhD from the University of Chicago.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at [www.nuveen.com/CEF/Shareholder](http://www.nuveen.com/CEF/Shareholder) and there were no amendments during the period covered by this report. (To view the code, click on Fund Governance and then Code of Conduct.)
- (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.
- (a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
