### **Prospectus Supplement No. 1 to Prospectus dated November 24, 2003**

**\$511,015,000 Balance at Maturity of  
Senior Convertible Notes due 2033**

**5,877,490 shares of  
Common Stock**

We are supplementing our prospectus dated November 24, 2003, which we refer to as the base prospectus. References to the prospectus include the base prospectus and all supplements to the base prospectus, collectively.

You should read this prospectus supplement together with the base prospectus and all other supplements to the base prospectus. The base prospectus and all prospectus supplements are to be delivered with any prospectus supplement. Please see "Where You Can Find More Information" in the base prospectus for a listing of the documents incorporated and deemed to be incorporated by reference in the prospectus. This prospectus supplement is not complete without, and may not be delivered or utilized except in connection with, the base prospectus, including all amendments and supplements thereto. The terms of the convertible debentures are set forth in the base prospectus.

The prospectus relates to \$511,015,000 balance at maturity of Senior Convertible Notes due 2033 of American Financial Group, Inc. which were sold by American Financial Group during June 2003. The prospectus also relates to 5,877,490 shares of American Financial Group common stock issuable upon conversion of the notes held by selling securityholders, plus such additional indeterminate number of shares as may become issuable upon conversion of the notes by reason of adjustment to the conversion price in certain circumstances.

**Investing in the notes involves risks, see Risk Factors beginning on page 11 of the base prospectus.**

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is March \_\_, 2004

The information appearing under the section entitled "Selling Securityholders" in the prospectus is amended and restated by the information appearing below.

### **SELLING SECURITYHOLDERS**

The notes originally were issued by us and sold by Merrill Lynch, Pierce, Fenner & Smith Incorporated, UBS Securities LLC and Credit Suisse First Boston LLC, as the initial purchasers, in transactions exempt from the registration requirements of the Securities Act of 1933 to persons reasonably believed by the initial purchasers to be qualified institutional buyers.

The selling securityholders may offer all, some or none of the notes and the common stock.

## Edgar Filing: AMERICAN FINANCIAL GROUP INC - Form POS AM

The table below sets forth the name of each selling securityholder, the principal amounts of notes that may be offered by each selling securityholder under this prospectus and the number of shares of common stock into which the notes are convertible. The notes and the underlying common stock set forth below includes securities that may be sold by pledgees, donees, transferees or other successors in interest to the selling securityholders that receive such securities by pledge, gift, distribution or other non-sale related transfer from the named selling securityholders. The information is based on information provided to us by or on behalf of the selling securityholders on or prior to February 27, 2004.

The selling securityholders identified below may have sold, transferred or otherwise disposed of all or a portion of their notes or common stock since the date on which they provided this information in transactions exempt from the registration requirements of the Securities Act. Information about the selling securityholders may change from time to time. Any changed information will be set forth in prospectus supplements or post-effective amendments, as required.

Because the selling securityholders may offer all or some portion of the notes or the common stock into which the notes are convertible, we cannot estimate the amount of notes or common stock that may be held by the selling securityholders upon the completion of any sales. For information on the procedure for sales by selling securityholders, read the disclosure under the heading "Plan of Distribution" in the prospectus.

(1) No selling securityholder beneficially owns 1% or more of our outstanding common stock, and no selling securityholder will beneficially own 1% or more of our outstanding common stock after the offering of the common stock acquirable upon conversion of the notes.

(2) Assumes conversion of all of the selling securityholder's notes at a conversion rate of 11.5016 shares of common stock per \$1,000 aggregate principal amount of notes and a cash payment in lieu of the issuance of any fractional share interest. However, this conversion rate is subject to adjustment as described under Description of the Notes Conversion Rights in the base prospectus. As a result, the number of shares of common stock issuable upon conversion of the notes may increase or decrease in the future.

(3) Reflects rounding down of fractional shares of common stock issuable to each selling securityholder upon conversion of the notes.

(4) Such selling securityholder has represented to us that it is an affiliate of a broker-dealer. Based solely on written representations received from such selling securityholder, we understand that such entities acquired their notes or underlying common stock in the ordinary course of business and, at the time of the purchase of the notes or the underlying common stock, such selling securityholders had no agreements or understandings, directly or indirectly, with any person to distribute the notes or underlying common stock. To the extent that we become aware that such entities did not acquire their notes or underlying common stock in the ordinary course of business or did have such an agreement or understanding, we will file a post-effective amendment to the registration statement of which the prospectus forms a part to designate such affiliate as an underwriter within the meaning of the Securities Act.

(5) Table does not include information for selling securityholders that had not submitted information through February 27, 2004.

None of the selling securityholders listed above has, or within the past three years had, any position, office or any material relationship with us or any of our affiliates.

Only selling securityholders identified above who beneficially own the notes set forth opposite each such selling securityholder's name in the foregoing table on the effective date of the registration statement, of which this prospectus forms a part, may sell such securities pursuant to the registration statement. Prior to any use of this prospectus in connection with an offering of the notes or the underlying common stock by any holder not identified above, we will file a further post-effective amendment to the registration statement, of which this prospectus forms a part,

## Edgar Filing: AMERICAN FINANCIAL GROUP INC - Form POS AM

to set forth the name and aggregate amount of notes beneficially owned by the selling securityholder intending to sell such notes or the underlying common stock and the aggregate amount of notes or the number of shares of the underlying common stock to be offered. The prospectus, as supplemented, will also disclose whether any selling securityholder selling in connection with such prospectus has held any position or office with, has been employed by or otherwise has had a material relationship with us during the three years prior to the date of the prospectus if such information has not been disclosed herein.

##### Item 17. Undertakings.

(a) The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) under the Securities Act if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective Registration Statement.

## Edgar Filing: AMERICAN FINANCIAL GROUP INC - Form POS AM

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement;

*Provided, however,* that paragraphs (a)(1)(i) and (a)(1)(ii) above do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed by the Registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Registration Statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual reports pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

### SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this Post-Effective Amendment to Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized in the City of Cincinnati, State of Ohio, as of the 1st day of March, 2004.

**1. Basis of Presentation**

*Description of Business*

OSI Systems, Inc., together with its subsidiaries (the Company), is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications. The Company sells its products in diversified markets, including homeland security, healthcare, defense and aerospace.

The Company has three operating divisions: (i) Security, providing security inspection systems and related services; (ii) Healthcare, providing patient monitoring, diagnostic cardiology and anesthesia systems, and related services; and (iii) Optoelectronics and Manufacturing, providing specialized electronic components for the Security and Healthcare divisions as well as for applications in the defense and aerospace markets, among others.

Through its Security division, the Company designs, manufactures, markets and services security and inspection systems worldwide, and provides turnkey security screening solutions. The Security division's products are used to inspect baggage, cargo, vehicles and other objects for weapons, explosives, drugs and other contraband and to screen people. These products and services are also used for the safe, accurate and efficient verification of cargo manifests for the purpose of assessing duties and monitoring the export and import of controlled materials.

Through its Healthcare division, the Company designs, manufactures, markets and services patient monitoring, diagnostic cardiology and anesthesia delivery and ventilation systems worldwide primarily under the Spacelabs trade name. These products are used by care providers in critical care, emergency and perioperative areas within hospitals as well as physicians offices, medical clinics and ambulatory surgery centers.

Through its Optoelectronics and Manufacturing division, the Company designs, manufactures and markets optoelectronic devices and provides electronics manufacturing services worldwide for use in a broad range of applications, including aerospace and defense electronics, security and inspection systems, medical imaging and diagnostics, computed tomography (CT), telecommunications, office automation, computer peripherals and industrial automation. This division provides products and services to original equipment manufacturers as well as to the Company's own Security and Healthcare divisions.

*Basis of Presentation*

The condensed consolidated financial statements include the accounts of OSI Systems, Inc. and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. The condensed consolidated financial statements have been prepared by the Company, without audit, pursuant to interim financial reporting guidelines and the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. In the opinion of the Company's management, all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of the financial position and the results of operations for the periods presented have been included. These condensed consolidated financial statements and the accompanying notes should be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2009, filed with the Securities and Exchange Commission on August 28, 2009. The results of operations for the three months and six months ended December 31, 2009, are not necessarily indicative of the operating results to be expected for the full fiscal year or any future periods.

Table of Contents*Per Share Computations*

The Company computes basic earnings per share by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. The Company computes diluted earnings per share by dividing net income available to common shareholders by the sum of the weighted average number of common and dilutive potential common shares outstanding. Potential common shares consist of the shares issuable upon the exercise of stock options or warrants under the treasury stock method. Stock options and warrants to purchase a total of 1.1 million and 1.2 million shares of common stock for the three months and six months ended December 31, 2009, respectively, were not included in diluted earnings per share calculations because to do so would have been antidilutive. Stock options and warrants to purchase a total of 3.3 million and 2.5 million shares of common stock for the three months and six months ended December 31, 2008, were not included in diluted earnings per share calculations because to do so would have been antidilutive. The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share amounts):

*Fair Value of Financial Instruments*

The Company's financial instruments consist primarily of cash, marketable securities, accounts receivable, accounts payable and debt instruments. The carrying values of financial instruments, other than debt instruments, are representative of their fair values due to their

## Edgar Filing: AMERICAN FINANCIAL GROUP INC - Form POS AM

short-term maturities. The carrying values of the Company's long-term debt instruments are considered to approximate their fair values because the interest rates of these instruments are variable or comparable to current rates offered to the Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company has determined that all of its marketable securities fall into the Level 1 category, which values assets at the quoted prices in active markets for identical assets; while the Company's derivative instruments fall into the Level 2 category, which values assets and liabilities from observable inputs other than quoted market prices. As of December 31, 2009, the fair value of such assets was \$3.7 million, while at June 30, 2009, the fair value was \$2.9 million. There were no assets or liabilities for which Level 3 valuation techniques were used and there were no assets and liabilities measured at fair value on a non-recurring basis.

Table of Contents

*Derivative Instruments and Hedging Activity*

The Company's use of derivatives consists primarily of foreign exchange contracts and interest rate swap agreements. As of December 31, 2009, the Company had outstanding foreign currency forward contracts totaling \$7.3 million. In addition, to reduce the unpredictability of cash flows for interest payments related to variable, LIBOR-based debt, the Company has outstanding an interest rate swap agreement, under which the Company incurs interest expense based upon a fixed 1.69% rate index for a portion of its term loan. The interest rate swap matures in March 2012. Each of these derivative contracts is considered an effective cash flow hedge in its entirety. As a result, the net gains or losses on such derivative contracts have been reported as a component of other comprehensive income in the Consolidated Financial Statements and are reclassified into net earnings when the hedged transactions settle.

*Business Combinations*

On July 28, 2009, the Company completed the acquisition of certain assets and the assumption of certain liabilities of RAD Electronics, Inc. The acquired operations design and manufacture cable assemblies and printed circuit boards for original equipment manufacturers in the commercial electronics industry. The Company acquired accounts receivable, inventory, and fixed assets, as well as all of the patents, intellectual property and intangible assets used in the acquired operations, all in exchange for (i) a \$3.2 million cash payment at the closing of the transaction and (ii) additional consideration that may become payable over the next four years depending on the performance of the acquired operations. Under recently adopted guidelines for business combinations, the fair value of this contingent consideration was estimated to be \$5.8 million and was recorded at the time of the acquisition as an other long-term liability in the condensed consolidated financial statements. The final purchase price allocation and fair value of the contingent consideration was compiled with the assistance of a third-party valuation firm. The resulting contingent liability shall be assessed and adjusted, if necessary, throughout the contingency period with changes in fair value being recognized in the consolidated statement of operations. During the three months ended December 31, 2009, no adjustment to the contingent liability was required to be recorded. The acquisition of RAD Electronics, Inc. was not considered material to the balance sheet as of December 31, 2009 and consolidated statement of operations for the three and six months ended December 31, 2009.

*Recent Accounting Updates Not Yet Adopted*

In October 2009, the Financial Accounting Standards Board issued an accounting standards update amending revenue recognition requirements for multiple-deliverable revenue arrangements. This update provides guidance on separating the deliverables and on the method to measure and allocate arrangement consideration, particularly when the arrangement includes both products and services provided to the customers. The update is effective for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Early adoption is permitted. The Company has not yet adopted this update and is currently evaluating the impact it may have on its financial condition and results of operations.

Table of Contents**4. Borrowings**

The Company maintains a credit agreement with certain lenders allowing for initial borrowings of up to \$124.5 million. The credit agreement consists of a \$74.5 million, five-year, revolving credit facility (including a \$64.5 million sub-limit for letters-of-credit) and a \$50 million five-year term loan. Borrowings under the agreement bear interest at either (i) the London Interbank Offered Rate (LIBOR) plus between 2.00% and 2.50% or (ii) the bank's prime rate plus between 1.00% and 1.50%. The rates are determined based on the Company's consolidated leverage ratio. As of December 31, 2009, the effective, weighted-average interest rate under the credit agreement was 3.07%. The Company's borrowings under the credit agreement are guaranteed by substantially all of the Company's direct and indirect wholly-owned subsidiaries and are secured by substantially all of the Company's and its subsidiary guarantors' assets. The agreement contains various representations, warranties, affirmative, negative and financial covenants, and conditions of default customary for financing agreements of this type. As of December 31, 2009, \$34.0 million was outstanding under the term loan, while no debt was outstanding under the revolving credit facility, and \$31.1 million was outstanding under the letter-of-credit facility.

Several of the Company's foreign subsidiaries maintain bank lines-of-credit, denominated in local currencies, to meet short-term working capital requirements and for the issuance of letters-of-credit. As of December 31, 2009, \$17.7 million was outstanding under these letter-of-credit facilities, while no debt was outstanding. As of December 31, 2009, the total amount available under these credit facilities was \$10.3 million, with a total cash borrowing sub-limit of \$7.2 million.

In fiscal 2005, the Company entered into a bank loan of \$5.3 million to fund the acquisition of land and buildings in the U.K. The loan is payable over a 20-year period. The loan bears interest at British pound-based LIBOR plus 1.2%, payable on a quarterly basis. As of December 31, 2009, \$3.3 million remained outstanding under this loan at an interest rate of 1.8% per annum.

Long-term debt consisted of the following (in thousands):

	June 30, 2009	December 31, 2009
Five-year term loan due in fiscal 2013	\$ 42,763	\$ 33,998

For each of the three months ended December 31, 2008 and 2009, the Company made contributions of \$0.1 million to these defined benefit plans. For the six months ended December 31, 2008 and 2009, the Company made contributions of \$0.4 million and \$0.2 million, respectively, to these defined benefit plans.

In addition, the Company maintains various defined contribution plans. For each of the three months ended December 31, 2008 and 2009, the Company made contributions of \$0.7 million to these defined contribution plans. For each of the six months ended December 31, 2008 and 2009, the Company made contributions of \$1.5 million to these defined contribution plans.

**7. Commitments and Contingencies***Legal Proceedings*

The Company is involved in various claims and legal proceedings arising out of the ordinary course of business. In the Company's opinion after consultation with legal counsel, the ultimate disposition of such proceedings is not likely to have a material adverse effect on its financial position, future results of operations, or cash flows. The Company has not accrued for loss contingencies relating to such matters because the Company believes that, although unfavorable outcomes in the proceedings may be possible, they are not considered by management to be probable or reasonably estimable. If one or more of these matters are resolved in a manner adverse to the Company, the impact on the Company's results of operations, financial position and/or liquidity could be material.

*Contingent Acquisition Obligations*

## Edgar Filing: AMERICAN FINANCIAL GROUP INC - Form POS AM

Under the terms and conditions of the purchase agreements associated with the following acquisitions, the Company may be obligated to make additional payments.

In fiscal 2003, the Company purchased a minority equity interest in CXR Limited. In June 2004, the Company increased its equity interest to approximately 75% and in December 2004, the Company acquired the remaining 25%. As compensation to the selling shareholders for this remaining interest, the Company agreed to make certain royalty payments during the 18 years following the acquisition of this remaining interest. Royalty payments are based on the license of, or sales of products containing, technology owned by CXR Limited. As of December 31, 2009, no royalty payments had been earned.

In fiscal 2004, the Company acquired Advanced Research & Applications Corp. During the seven years following the acquisition, contingent consideration is payable based on net revenues of products developed prior to the acquisition, provided certain requirements are met. The contingent consideration is capped at \$30.0 million. As of December 31, no contingent consideration had been earned.

In fiscal 2006, the Company acquired InnerStep, B.S.E., Inc. During the seven years following the acquisition, contingent consideration is payable based on the profits of the business before interest and taxes, provided certain requirements are met. The contingent consideration is capped at \$6.0 million. As of December 31, 2009, no contingent consideration had been earned.

In fiscal 2009, the Company acquired S2 Global Inc., a company that offers turnkey security screening solutions in connection with the operation of security inspection products. Contingent consideration is payable based on net receipts generated from new business during the three years following the acquisition, provided certain requirements are met. The contingent consideration is capped at \$10.0 million. As of December 31, 2009, no contingent consideration had been earned.

During the first quarter of fiscal 2010, the Company acquired RAD Electronics, Inc. During the four years following the acquisition, contingent consideration is payable based on the performance of its operations. The contingent obligation is capped at \$14.4 million.

Table of Contents

The fair market value of contingent consideration estimated to be paid was recorded as a liability at the time of the acquisition and shall be assessed and adjusted, if necessary, throughout the contingency period in accordance with generally accepted accounting standards. As of December 31, 2009, the Company reported \$5.8 million as other long-term liabilities in the condensed consolidated financial statements.

*Environmental Contingencies*

The Company is subject to various environmental laws. The Company's practice is to ensure that Phase I environmental site assessments are conducted for each of its properties in the United States at which the Company manufactures products in order to identify, as of the date of such report, potential areas of environmental concern related to past and present activities or from nearby operations. In certain cases, the Company has conducted further environmental assessments consisting of soil and groundwater testing and other investigations deemed appropriate by independent environmental consultants.

During one investigation, the Company discovered soil and groundwater contamination at its Hawthorne, California facility. The Company filed the requisite reports concerning this problem with the appropriate environmental authorities in fiscal 2001. The Company has not yet received any response to such reports, and no agency action or litigation is presently pending or threatened. The Company's site was previously used by other companies for semiconductor manufacturing similar to that presently conducted on the site by us, and it is not presently known who is responsible for the contamination or, if required, the remediation. The groundwater contamination is a known regional problem, not limited to the Company's premises or its immediate surroundings.

The Company has also been informed of soil and groundwater evaluation efforts at a facility that its Ferson Technologies subsidiary previously leased in Ocean Springs, Mississippi. Ferson Technologies occupied the facility until October 2003. The Company believes that the owner and previous occupants of the facility have primary responsibility for any remediation that may be required and have an agreement with the facility's owner under which the owner is responsible for remediation of pre-existing conditions. However, as site evaluation efforts are still in progress, and may be for some time, the Company is unable at this time to ascertain whether Ferson Technologies bears any exposure for remediation costs under applicable environmental regulations.

The Company has not accrued for loss contingencies relating to the above environmental matters because it believes that, although unfavorable outcomes may be possible, they are not considered by the Company's management to be probable and reasonably estimable. If one or more of these matters are resolved in a manner adverse to the Company, the impact on the Company's results of operations, financial position and/or liquidity could be material.

*Product Warranties*

The Company offers its customers warranties on many of the products that it sells. These warranties typically provide for repairs and maintenance of the products if problems arise during a specified time period after original shipment. Concurrent with the sale of products, the Company records a provision for estimated warranty expenses with a corresponding increase in cost of goods sold. The Company periodically adjusts this provision based on historical and anticipated experience. The Company charges actual expenses of repairs under warranty, including parts and labor, to this provision when incurred.

The following table presents changes in warranty provisions (in thousands):

	Three Months Ended December 31,				Six Months Ended December 31,			
		2008		2009		2008		2009
Balance at beginning of period	\$	10,705	\$	9,507	\$	11,597	\$	10,106

Balance at end of period	\$	9,708	\$	10,170	\$	9,708	\$	10,170

## 8. Income Taxes

The provision for income taxes is determined using an effective tax rate that is subject to fluctuations during the year as new information is obtained. The assumptions used to estimate the annual effective tax rate includes factors such as the mix of pre-tax earnings in the various tax jurisdictions in which the Company operates, valuation allowances against deferred tax assets, increases or decreases in uncertain tax positions, utilization of research and development tax credits, and changes in or the interpretation of tax laws in jurisdictions where the Company conducts business. The Company recognizes deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of its assets and liabilities along with net operating loss and tax credit carryovers. The Company records a valuation allowance against its deferred tax assets to reduce the net carrying value to an amount that it believes is more likely than not to be realized. When the Company establishes or reduces the valuation allowance

Table of Contents

against its deferred tax assets, the provision for income taxes will increase or decrease, respectively, in the period such determination is made.

**9. Segment Information**

The Company operates in three identifiable industry segments: (i) Security, providing security and inspection systems, and turnkey security screening solutions; (ii) Healthcare, providing patient monitoring, diagnostic cardiology and anesthesia systems; and (iii) Optoelectronics and Manufacturing, providing specialized electronic components for affiliated end-products divisions, as well as for applications in the healthcare, defense and aerospace markets, among others. The Company also has a Corporate segment that includes executive compensation and certain other general and administrative expenses. Interest expense and certain expenses related to legal, audit and other professional service fees, are not allocated to industry segments. Both the Security and Healthcare divisions comprise primarily end-product businesses whereas the Optoelectronics and Manufacturing division comprises businesses that primarily supply components and subsystems to original equipment manufacturers, including to the businesses of the Security and Healthcare divisions. All intersegment sales are eliminated in consolidation.

(1) Eliminations within operating income primarily reflect the change in the elimination of intercompany profit in inventory not-yet-realized; while the eliminations in assets reflect the amount of intercompany profits in inventory as of the balance sheet date. Such intercompany profit will be realized when inventory is shipped to the external customers of the Security and Healthcare divisions.

**Cautionary Statement**

*Certain statements contained in this quarterly report on Form 10-Q that are not related to historical results, including, without limitation, statements regarding our business strategy, objectives and future financial position, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and involve risks and uncertainties. These forward-looking statements may be identified by the use of forward-looking terms such as anticipate, believe, expect, may, could, likely to, should, or will, or by discussions of strategy that involve predictions which are based upon a number of future conditions that ultimately may prove to be inaccurate. Statements in this quarterly report on Form 10-Q that are forward-looking are based on current expectations and actual results may differ materially. Forward-looking statements involve numerous risks and uncertainties described in this quarterly report on Form 10-Q, our Annual Report on Form 10-K and other documents previously filed or hereafter filed by us from time to time with the Securities and Exchange Commission. Such factors, of course, do not include all factors that might affect our business and financial condition. Although we believe that the assumptions upon which our forward-looking statements are based are reasonable, such assumptions could prove to be inaccurate and actual results could differ materially from those expressed in or implied by the forward-looking statements. All forward-looking statements contained in this quarterly report on Form 10-Q are qualified in their entirety by this statement. We undertake no obligation other than as may be required under securities laws to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.*

**Critical Accounting Policies and Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions and select accounting policies that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Our critical accounting policies are detailed in our Annual Report on Form 10-K for the year ended June 30, 2009.

**Recent Accounting Pronouncements**

We describe recent accounting pronouncements in Item 1 Condensed Consolidated Financial Statements Notes to Condensed Consolidated Financial Statements.

**Executive Summary**

We are a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications. We sell our products and provide related services in diversified markets, including homeland security, healthcare, defense and aerospace. We have three operating divisions: (i) Security; (ii) Healthcare; and (iii) Optoelectronics and Manufacturing.

*Security Division.* Through our Security division, we design, manufacture, market and service security and inspection systems, and provide turnkey security screening solutions worldwide for sale primarily to U.S. federal, state and local government agencies as well as to foreign customers. These products and services are used to inspect baggage, cargo, vehicles and other objects for weapons, explosives, drugs and other contraband as well as to screen people. Revenues from our Security division accounted for 37% and 41% of our total consolidated revenues for the six months ended December 31, 2009 and 2008, respectively.

Following the September 11, 2001 terrorist attacks, worldwide spending for the development and acquisition of security and inspection systems increased in response to the attacks and has continued at high levels. This spending has had a favorable impact on our business. However, future levels of such spending could decrease as a result of changing budgetary priorities or could shift to products or services that we do not provide. Additionally, competition for contracts with government agencies has become more intense in recent years as new competitors and technologies have entered this market.

*Healthcare Division.* Through our Healthcare division, we design, manufacture, market and service patient monitoring, diagnostic cardiology and anesthesia systems for sale primarily to hospitals and medical centers. Our products monitor patients in critical, emergency and perioperative care areas of the hospital and provide such information, through wired and wireless networks, to physicians and nurses who may be at the patient's bedside, in another area of the hospital or even outside the hospital. Revenues from our Healthcare division accounted for 37% of our total consolidated revenues for the six months ended December 31, 2009 and 2008, respectively.

The healthcare markets in which we operate are highly competitive. We believe that our customers choose among competing products on the basis of product performance, functionality, value and service. We also believe that the worldwide economic slowdown has caused some hospitals and healthcare providers to delay purchases of our products and services. During this period of uncertainty, we anticipate lower sales of patient monitoring, diagnostic cardiology and anesthesia systems products than we have historically experienced, resulting in a negative impact on our sales. We cannot predict when the markets will recover and therefore when this

Table of Contents

period of delayed and diminished purchasing will end. A prolonged delay could have a material adverse effect on our business, financial condition and results of operations.

*Optoelectronics and Manufacturing Division.* Through our Optoelectronics and Manufacturing division, we design, manufacture and market optoelectronic devices and value-added manufacturing services worldwide for use in a broad range of applications, including aerospace and defense electronics, security and inspection systems, medical imaging and diagnostics, computed tomography, fiber optics, telecommunications, gaming, office automation, computer peripherals and industrial automation. We also provide our optoelectronic devices and value-added manufacturing services to our own Security and Healthcare divisions. External revenues from our Optoelectronics and Manufacturing division accounted for 26% and 22% of our total consolidated revenues for the six months ended December 31, 2009 and 2008, respectively.

*Consolidated Results.* For the three months ended December 31, 2009, we reported an operating profit of \$10.8 million, as compared to an operating profit of \$7.2 million for the comparable prior-year period, which represents a 49% improvement over our prior-year performance, even though our revenue decreased by 5%. This improvement was driven by a \$2.0 million improvement in gross profit as a result of a 3.2% improvement in gross margin due to changes in product mix and manufacturing cost reductions, and was also driven by a \$1.1 million reduction in selling, general and administrative (SG&A) expenses. In addition to operational improvements, the reduced manufacturing costs and SG&A expenses resulted from the cost containment initiatives we have undertaken throughout the Company with particular emphasis in our Healthcare division. In addition, non-recurring restructuring charges decreased by \$2.2 during the three months ended December 31, 2009. These improvements were partially offset by an increased investment in research and development (R&D) expenses of \$1.7 million in support of new product introductions in both our Security and Healthcare divisions.

For the six months ended December 31, 2009, we reported an operating profit of \$15.0 million, as compared to an operating profit of \$8.3 million for the comparable prior-year period, which represents an 81% improvement over our prior-year performance. This \$6.7 million improvement was primarily due to a \$6.4 million reduction in SG&A expenses, as a result of our ongoing cost containment initiatives and due to reduced restructuring activities during the six months ended December 31, 2009, as compared to the comparable prior-year period. In addition, for the six months ended December 31, 2009, R&D expenses were \$0.5 million lower than in the comparable prior-year period. The significant reduction in operating expenses and lower restructuring charges were partially offset by a \$3.3 million, or 3%, decrease in gross profit, resulting primarily from a 7% revenue decrease during the six months ended December 31, 2009, as compared to the comparable prior-year period.

**Results of Operations**

Total revenues	\$ 159.0	100%	\$ 150.6	100%	\$ (8.4)	(5)%

Net revenues for the three months ended December 31, 2009, decreased \$8.4 million, or 5%, to \$150.6 million, from \$159.0 million for the comparable prior-year period.

Revenues for the Security division for the three months ended December 31, 2009, decreased \$8.0 million, or 12%, to \$59.1 million, from \$67.1 million for the comparable prior-year period. The decrease was due to a 17% decrease in equipment sales, partially offset by a \$1.5 million, or 13%, increase in revenue related to contracts to service such equipment. The decrease in equipment sales was due to timing of shipments as bookings during the quarter of \$77.1 million exceeded sales during the quarter by 30% and bookings during the comparable prior-year period by 36%. Increased bookings during the quarter were driven by increased demand for checked baggage screening systems, people screening systems and our cargo inspection equipment. The increase in service revenue was due to the growing installed equipment base, from which we derive service revenues as warranty periods expire.

Revenues for the Healthcare division for the three months ended December 31, 2009, decreased \$2.7 million, or 5%, to \$57.0 million, from \$59.7 million for the comparable prior-year period. We believe this decrease was primarily due to the general economic downturn and the uncertainty of healthcare reform legislation which resulted in curtailed spending by U.S. hospitals.

Table of Contents

Revenues for the Optoelectronics and Manufacturing division for the three months ended December 31, 2009, decreased by \$1.0 million, or 2%, to \$43.7 million, from \$44.7 million for the comparable prior-year period. Total revenues for the three months ended December 31, 2009, include external sales of \$34.5 million, compared to \$32.2 million in the comparable prior-year period. This \$2.3 million increase was primarily due to sales orders from a defense-industry related customer in our contract manufacturing business. The \$3.3 million decrease in intersegment sales resulted from lower sales to both our Security and Healthcare divisions, which is consistent with the decrease in revenues experienced by each of these divisions. Such intersegment sales are eliminated in consolidation.

**Gross Profit**

(in millions)	Q2 2009	% of Net Sales	Q2 2010	% of Net Sales
Gross profit	\$ 54.4	34.2%	\$ 56.4	37.4%

Gross profit increased \$2.0 million, or 4%, to \$56.4 million for the three months ended December 31, 2009, from \$54.4 million for the comparable prior-year period, even though revenue decreased by 5%. The gross margin increased to 37.4%, from 34.2% over the comparable prior-year period. This increase was primarily attributable to manufacturing efficiencies gained through facility consolidation and operational improvement initiatives, and due to the favorable product mix of sales.

**Operating Expenses**

(in millions)	Q2 2009	% of Net Sales	Q2 2010	% of Net Sales	\$ Change	% Change
Selling, general and administrative	\$ 35.7	22.4%	\$ 34.6	23.0%	(1.1)	(3)%

Total operating expenses	\$ 47.2	29.6%	\$ 45.6	30.3%	(1.5)	(3)%

**Selling, general and administrative expenses.** Selling, general and administrative expenses consist primarily of compensation paid to sales, marketing and administrative personnel, professional service fees and marketing expenses. For the three months ended December 31, 2009, SG&A expenses decreased by \$1.1 million, or 3%, to \$34.6 million, from \$35.7 million for the comparable prior-year period. This reduction in spending was a result of cost containment initiatives undertaken throughout the Company to better leverage our cost structure.

**Research and development.** Research and Development expenses include research related to new product development and product enhancement expenditures. For the three months ended December 31, 2009, such expenses increased \$1.8 million, or 21%, to \$10.4 million, from \$8.6 million for the comparable prior-year period. As a percentage of revenues, R&D expenses were 6.9% for the three months ended December 31, 2009, compared to 5.4% for the comparable prior-year period. This increase in R&D expenses for the three month period ended December 31, 2009, resulted from an increase in R&D investment in our Security and Healthcare divisions in support of new product introductions.

**Restructuring and other charges.** In response to the challenging worldwide economic conditions, we continued to optimize our cost structure and consolidate facilities during the second quarter of fiscal 2010. In conjunction with these efforts, we incurred restructuring charges of \$0.2 million in our Healthcare division and \$0.4 million in our Optoelectronics and Manufacturing division for facility closure and employee severance during the three months ended December 31, 2009, as compared to incurring total restructuring charges of \$2.8 million for the comparable prior-year period when more aggressive activity was initiated.

**Other Income and Expenses**

(in millions)	Q2 2009	% of Net Sales	Q2 2010	% of Net Sales	\$ Change	% Change
Interest and other expense, net	\$ 0.9	0.6%	\$ 0.8	0.5%	\$ (0.1)	(11)%

**Interest and other expense, net.** For the three months ended December 31, 2009, interest and other expense, net, decreased due to lower, market-driven interest rates on our outstanding borrowings as well as to lower levels of borrowing as a result of the generation of positive cash flow from operations.

Table of Contents

**Income taxes.** For the three months ended December 31, 2009, our income tax provision was \$3.1 million, compared to an income tax provision of \$2.2 million for the comparable prior-year period. Our effective tax rate for the three months ended December 31, 2009 was 30.6%, compared to 34.4% in the comparable prior-year period. Our provision for income taxes is dependent on the mix of income from U.S. and foreign locations due to tax rate differences among such countries as well as due to the impact of permanent taxable differences.

**Net Revenues**

The table below and the discussion that follows are based upon the way in which we analyze our business. See Note 9 to the condensed consolidated financial statements for additional information about our business segments.

(in millions)	YTD Q2 2009	% of Net Sales	YTD Q2 2010	% of Net Sales	\$ Change	% Change

Total revenues	\$ 307.2	100%	\$ 284.4	100%	\$ (22.8)	(7)%

Net revenues for the six months ended December 31, 2009, decreased \$22.8 million, or 7%, to \$284.4 million from \$307.2 million for the comparable prior-year period.

Revenues for the Security division for the six months ended December 31, 2009, decreased \$19.4 million or 15%, to \$106.4 million, from \$125.8 million for the comparable prior-year period. The change was attributable to a 20% decrease in equipment sales, due in part to the timing of shipments, partially offset by a 4% increase in revenue related to contracts to service such equipment. The decrease in equipment sales was due to timing of shipments as bookings during the six months ended December 31, 2009 of \$153.9 million exceeded sales during the period by 45% and bookings during the comparable prior-year period by 9%. Increased bookings during the period were driven by increased demand for checked baggage screening systems and people screening systems. The increase in service revenue was due to the growing installed equipment base, from which we derive service revenues as warranty periods expire.

Revenues for the Healthcare division for the six months ended December 31, 2009, decreased \$10.5 million, or 9%, to \$104.0 million, from \$114.5 million for the comparable prior-year period. The decrease was primarily due to: (i) a \$3.0 million decrease in patient monitoring revenues; (ii) a \$3.7 million decrease in our anesthesia equipment sales revenue; and (iii) a \$3.5 million decrease in the revenues of other product lines such as ambulatory blood pressure monitors and pulse oximeters. We believe these decreases were primarily due to the general economic downturn and the uncertainty of healthcare reform legislation which resulted in curtailed spending by U.S. hospitals.

## Edgar Filing: AMERICAN FINANCIAL GROUP INC - Form POS AM

Revenues for the Optoelectronics and Manufacturing division for the six months ended December 31, 2009, were virtually unchanged at \$89.5 million as compared to \$89.6 million for the comparable prior-year period. Total revenues for the six months ended December 31, 2009, include external sales of \$74.0 million, compared to \$66.9 million in the comparable prior-year period. This \$7.1 million increase was primarily due to sales orders from a defense-industry related customer in our contract manufacturing business. The \$7.2 million decrease in intersegment sales from \$22.7 million to \$15.5 million resulted from lower sales to both our Healthcare and Security divisions, which is directionally consistent with the decrease in revenues experienced by our Security and Healthcare divisions. Such intersegment sales are eliminated in consolidation.

### Gross Profit

(in millions)	YTD Q2 2009	% of Net Sales	YTD Q2 2010	% of Net Sales
Gross profit	\$ 104.1	33.9%	\$ 100.8	35.4%

Gross profit decreased \$3.3 million, or 3%, to \$100.8 million for the six months ended December 31, 2009, from \$104.1 million for the comparable prior-year period. The change in gross profit is primarily the result of a 7% decrease in total revenues, which was partially offset by an improvement in our gross margin of 1.5%. The increase in gross margin was primarily attributable to manufacturing efficiencies gained through facility consolidation and cost-cutting activities and due to a favorable product mix of sales.

Table of Contents**Operating Expenses**

(in millions)	YTD Q2 2009	% of Net Sales	YTD Q2 2010	% of Net Sales	\$ Change	% Change
Selling, general and administrative	\$ 73.3	23.9%	\$ 66.8	23.5%	\$ (6.5)	(9)%

Total operating expenses	\$ 95.8	31.2%	\$ 85.7	30.1%	\$ (10.1)	(11)%

**Selling, general and administrative expenses.** For the six months ended December 31, 2009, SG&A expenses decreased by \$6.5 million, or 9%, to \$66.8 million, from \$73.3 million for the comparable prior-year period. This reduction in spending was a result of our ongoing company-wide cost containment initiatives and due to restructuring activities that were most heavily focused on our Healthcare division.

**Research and development.** R&D expenses include research related to new product development and product enhancement expenditures. For the six months ended December 31, 2009, such expenses decreased \$0.6 million, or 3%, to \$18.3 million, from \$18.9 million for the comparable prior-year period. As a percentage of revenues, research and development expenses were 6.4% for the six months ended December 31, 2009, compared to 6.1% for the comparable prior-year period. The decrease in R&D expenses for the six month period ended December 31, 2009, was primarily attributable to increased government funded R&D programs.

**Restructuring and other charges.** In response to the worldwide economic downturn, we initiated an aggressive cost-cutting plan in the first half of fiscal 2009 to reduce our fixed cost structure. During the six months ended December 31, 2009, we continued this effort to further increase our operating efficiencies. In conjunction with these efforts, we incurred restructuring charges of \$0.2 million in our Healthcare division and \$0.4 million in our Optoelectronics and Manufacturing division for facility closure and employee severance during the six months ended December 31, 2009, as compared to incurring restructuring charges of \$3.6 million for the comparable prior-year period when more aggressive activity was initiated.

**Other Income and Expenses**

(in millions)	YTD Q2 2009	% of Net Sales	YTD Q2 2010	% of Net Sales	\$ Change	% Change
Interest and other expense, net	\$ 1.7	0.6%	\$ 1.4	0.5%	\$ (0.3)	(18)%

**Interest and other expense, net.** For the six months ended December 31, 2009, interest and other expense, net decreased by \$0.3 million, to \$1.4 million from \$1.7 million for the comparable prior-year period, primarily due to lower, market-driven interest rates on our outstanding borrowings as well as lower levels of borrowing as a result of the generation of positive cash flow from operations.

**Income taxes.** For the six months ended December 31, 2009, our income tax provision was \$4.1 million, compared to \$2.3 million for the comparable prior-year period. Our effective tax rate for the six months ended December 31, 2009, was 30.5%, compared to 34.4% in the comparable prior-year period. Our provision for income taxes is dependent on the mix of income from U.S. and foreign locations due to tax rate

differences among such countries as well as due to the impact of permanent taxable differences.

**Liquidity and Capital Resources**

To date, we have financed our operations primarily through cash flow from operations, proceeds from equity issuances and our credit facilities. Cash and cash equivalents totaled \$27.6 million at December 31, 2009, an increase of \$2.4 million from \$25.2 million at June 30, 2009. The changes in our working capital and cash and cash equivalent balances during the six months ended are described below.

(in millions)	June 30, 2009	December 31, 2009	% Change
Working capital	\$ 187.6	\$ 191.1	2%
Cash and cash equivalents	25.2	27.6	10%

Table of Contents

*Working Capital.* Working capital increased primarily due to: (i) a \$13.3 million decrease in accounts payable; (ii) a \$6.7 million increase in accounts receivable; (iii) a \$4.4 million decrease in accrued payroll and employee benefits; (iv) a \$4.0 million reduction in our bank lines of credit; (v) a \$2.4 million increase in cash and cash equivalents and (vi) a \$1.5 million increase short term deferred tax assets. These increases to working capital were partially offset by: (i) a \$21.9 million decrease in inventory, as a result of inventory reduction initiatives in all three divisions and (ii) a \$9.4 million increase in advances by customers primarily in our Security division.

(in millions)	YTD Q2		YTD Q2		\$ Change
	2009	2009	2010	2010	
Cash provided by operating activities	\$	33.1	\$	23.4	\$ (9.7)
Cash used in investing activities		(6.9)		(11.3)	(4.4)
Cash used in financing activities		(11.9)		(10.4)	1.5

*Cash Provided by Operating Activities.* Cash flows from operating activities can fluctuate significantly from period to period, as net income, tax timing differences, and other items can significantly impact cash flows. Net cash provided by operations for the six months ended December 31, 2009 was \$23.4 million, a decrease of \$9.7 million from the \$33.1 million provided in the comparable prior-year period. This reduction in net cash provided was partially due to: (i) decreases in accounts payable of \$32.3 million; (ii) an \$18.0 million increase in accounts receivable and (iii) a \$3.5 million reduction in deferred revenue. These reductions in net cash provided were partially offset by an increase in our net income of \$2.6 million for the six months ended December 31, 2009, after giving consideration to non-cash operating items including depreciation and amortization, stock-based compensation, deferred taxes and provision for losses on accounts receivable, among others, for both periods. Other sources of operating cash in the current year as compared to fiscal 2009 include: (i) a \$33.9 million increase in net cash as a result of decreased inventory and (ii) an increase in net cash provided of \$7.4 million from prepaid expenses and other current assets.

*Cash Used in Investing Activities.* Net cash used in investing activities was \$11.3 million for the six months ended December 31, 2009, compared to \$6.9 million for the six months ended December 31, 2008. During the six months ended December 31, 2009, we invested \$6.9 million in capital expenditures as compared to \$5.2 million during the comparable prior-year period. During the six months ended December 31, 2009, we also paid \$3.2 million to acquire RAD Electronics, Inc. There were no acquisitions in the prior-year period.

*Cash Used in Financing Activities.* Net cash used in financing activities was \$10.4 million for the six months ended December 31, 2009, compared to \$11.9 million for the six months ended December 31, 2008. During the six months ended December 31, 2009, we paid down our revolving lines of credit by \$4.0 million and our other debt and capital leases by \$9.8 million. We received \$3.4 million in proceeds from the exercise of stock options and the purchase of stock under our employee stock purchase plan which partially offset the debt payments. In the prior-year period, we used \$7.2 million in cash to repurchase 600,000 shares of our common stock and we paid down our revolving lines of credit by \$3.0 million and our other debt and capital leases by \$3.4 million. We received \$1.7 million in proceeds from the exercise of stock options and the purchase of stock under our employee stock purchase plan in the prior period.

**Borrowings**

We maintain a credit agreement with certain lenders allowing for borrowings of up to \$124.5 million. The credit agreement consists of a \$74.5 million, five-year, revolving credit facility (including a \$64.5 million sub-limit for letters-of-credit) and a \$50 million five-year term loan. Borrowings under the agreement bear interest at either (i) the London Interbank Offered Rate (LIBOR) plus between 2.00% and 2.50% or (ii) the bank's prime rate plus between 1.00% and 1.50%. The rates are determined based on our consolidated leverage ratio. As of December 31, 2009, the effective, weighted-average interest rate under the credit agreement was 3.07%. Our borrowings under the credit agreement are

## Edgar Filing: AMERICAN FINANCIAL GROUP INC - Form POS AM

guaranteed by substantially all of our direct and indirect wholly-owned subsidiaries and are secured by substantially all of our assets and the assets of our subsidiary guarantors. The agreement contains various representations, warranties, affirmative, negative and financial covenants, and conditions of default customary for financing agreements of this type. As of December 31, 2009, \$34.0 million was outstanding under the term loan, while no debt was outstanding under the revolving credit facility, and \$31.1 million was outstanding under the letter-of-credit facility.

Several of our foreign subsidiaries maintain bank lines-of-credit, denominated in local currencies, to meet short-term working capital requirements and for the issuance of letters-of-credit. As of December 31, 2009, \$17.7 million was outstanding under these letter-of-credit facilities, while no debt was outstanding. As of December 31, 2009, the total amount available under these credit facilities was \$10.3 million, with a total cash borrowing sub-limit of \$7.2 million.

Table of Contents

In December 2004, we entered into a bank loan of \$5.3 million to fund the acquisition of land and buildings in the U.K. The loan is payable over a 20-year period. The loan bears interest at British pound-based LIBOR plus 1.2%, payable on a quarterly basis. As of December 31, 2009, \$3.3 million remained outstanding under this loan at an interest rate of 1.8% per annum.

Our long-term debt consisted of the following:

	June 30, 2009	December 31, 2009
Five-year term loan due in fiscal 2013	\$ 42,763	\$ 33,998
Twenty-year term loan due in fiscal 2025	3,533	3,309
Capital leases	1,354	1,021
Other	710	182
	48,360	38,510
Less current portion of long-term debt	8,557	7,572
Long-term portion of debt	\$ 39,803	\$ 30,938

We anticipate that existing cash borrowing arrangements and future access to capital markets should be sufficient to meet our cash requirements for the foreseeable future. However, our future capital requirements and the adequacy of available funds will depend on many factors, including cash flows from operations, future business acquisitions, litigation, stock repurchases and levels of research and development spending.

**Stock Repurchase Program**

Our Board of Directors has authorized a stock repurchase program under which we can repurchase up to 3,000,000 shares of our common stock. During the three months ended December 31, 2009, we did not repurchase any shares under this program, and 711,205 shares were available for additional repurchase under the program as of December 31, 2009.

**Dividend Policy**

We have never paid cash dividends on our common stock and have no plans to do so in the foreseeable future.

**Contractual Obligations**

Under the terms and conditions of the purchase agreements associated with the following acquisitions, we may be obligated to make additional payments:

In August 2002, we purchased a minority equity interest in CXR Limited. In June 2004, we increased our equity interest to approximately 75% and in December 2004, we acquired the remaining 25%. As compensation to the selling shareholders for this remaining interest, we agreed to make certain royalty payments during the 18 years following the acquisition of its remaining interest. Royalty payments are based on the license of, or sales of products containing technology owned by CXR Limited. As of December 31, 2009, no royalty payments had been earned.

In January 2004, we acquired Advanced Research & Applications Corp. During the seven years following the acquisition, contingent consideration is payable based on its net revenues, provided certain requirements are met. The contingent consideration is capped at \$30.0 million. As of December 31, 2009, no contingent consideration had been earned.

In July 2005, we acquired certain assets of InnerStep, B.S.E., Inc. During the seven years following the acquisition, contingent consideration is payable based on the profits of the business before interest and taxes, provided certain requirements are met. The contingent consideration is capped at \$6.0 million. As of December 31, 2009, no contingent consideration had been earned.

In fiscal 2009, we acquired S2 Global, Inc., which offers turnkey security screening solutions in connection with the operation of security inspection products. Contingent consideration is payable based on net receipts generated from new business during the three years following the acquisition, provided certain requirements are met. The contingent consideration is capped at \$10.0 million. As of December 31, 2009, no contingent consideration had been earned.

During the first quarter of fiscal 2010, we acquired RAD Electronics, Inc. During the four years following the acquisition, contingent consideration is payable based on the performance of its operations. The contingent obligation is capped at \$14.4 million. Consistent with new accounting guidelines for acquisitions completed after January 1, 2009, the fair market value of contingent consideration deemed more-likely-than-not to be paid is recorded as a liability at the time of the acquisition. As a result, \$5.8 million is recorded as other long-term liabilities in the condensed consolidated financial statements as of December 31, 2009.

**Off Balance Sheet Arrangements**

As of December 31, 2009, we did not have any significant off balance sheet arrangements as defined in Item 303(a)(4) of Regulation S-K.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

For the six months ended December 31, 2009, no material changes occurred with respect to market risk as disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2009.

**Market Risk**

We are exposed to certain market risks, which are inherent in our financial instruments and arise from transactions entered into in the normal course of business. We may enter into derivative financial instrument transactions in order to manage or reduce market risk in connection with specific foreign-currency-denominated transactions. We do not enter into derivative financial instrument transactions for speculative purposes.

We are subject to interest rate risk on our short-term borrowings under our bank lines of credit. Borrowings under these lines of credit do not give rise to significant interest rate risk because these borrowings have short maturities and are borrowed at variable interest rates. Historically, we have not experienced material gains or losses due to interest rate changes.

**Foreign Currency**

We maintain the accounts of our operations in each of the following countries in the following currencies: Finland (Euros), France (Euros), Singapore (Singapore dollars and U.S. dollars), Malaysia (Malaysian ringgits), United Kingdom (U.K. pounds), Norway (Norwegian kroners), India (Indian rupees), Indonesia (Indonesian rupiah), Hong Kong (Hong Kong dollars), China (Chinese renminbi), Canada (Canadian dollars), Australia (Australian dollars) and Cyprus (Cypriot pounds). Foreign currency financial statements are translated into U.S. dollars at period-end rates, with the exception of revenues, costs and expenses, which are translated at average rates during the reporting period. We include gains and losses resulting from foreign currency transactions in income, while we exclude those resulting from translation of financial statements from income and include them as a component of accumulated other comprehensive income (AOCI). Transaction gains and losses, which were included in our condensed consolidated statement of operations, amounted losses of approximately \$0.5 million and \$0.2 million during the three months ended December 31, 2009 and 2008, respectively. For the six months ended December 31, 2009, we incurred losses of \$0.6 million as compared to gains of \$0.6 million for the comparable prior-year period. Furthermore, a 10% appreciation of the U.S. dollar relative to each of the local currencies would have resulted in a net increase in our operating income of approximately \$2 million in the second quarter of fiscal 2010. Conversely, a 10% depreciation of the U.S. dollar relative to each of the local currencies would have resulted in a net decrease in our operating income of approximately \$2 million in the second quarter of fiscal 2010.

### **Use of Derivatives**

Our use of derivatives consists primarily of foreign exchange contracts and interest rate swap agreements. As discussed in Note 1 to the condensed consolidated financial statements, as of December 31, 2009, we had outstanding foreign currency forward contracts and an interest rate swap agreement, which were considered effective cash flow hedges in their entirety. As a result, the net gains on such derivative contracts have been reported as a component of other comprehensive income in the condensed consolidated financial statements and will be reclassified into net earnings when the hedged transactions settle.

### **Importance of International Markets**

International markets provide us with significant growth opportunities. However, the following events, among others, could adversely affect our financial results in subsequent periods: periodic or prolonged economic downturns in different regions of the world, changes in trade policies, tariffs and other laws and wars and other forms of political instability. We continue to perform ongoing credit evaluations of our customers financial condition and, if deemed necessary, we require advance payments for sales. We monitor economic and currency conditions around the world to evaluate whether there may be any significant effect on our international sales in the future. Due to our overseas investments and the necessity of dealing in local currencies in many foreign business transactions, we are at risk with respect to foreign currency fluctuations.

### **Inflation**

We do not believe that inflation had a material impact on our results of operations during the three and six months ended December 31, 2009.

**Interest Rate Risk**

We classify all highly liquid investments with maturity of three months or less as cash equivalents and record them in the balance sheet at fair value.

**Item 4. Controls and Procedures**

*(a) Evaluation of Disclosure Controls and Procedures*

As of December 31, 2009, the end of the period covered by this report, our management, including our Chief Executive Officer and our Chief Financial Officer, reviewed and evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended). Such disclosure controls and procedures are designed to ensure that material information we must disclose in this report is recorded, processed, summarized and filed or submitted on a timely basis. Based upon that evaluation our management, Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of December 31, 2009.

*(b) Changes in Internal Control over Financial Reporting*

There were no changes in the Company's internal control over financial reporting during the second quarter of fiscal 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings**

We are involved in various claims and legal proceedings which have been previously disclosed in our quarterly and annual reports. The results of such legal proceedings cannot be predicted with certainty. Should we fail to prevail in any of these legal matters or should several of these legal matters be resolved against us in the same reporting period, the operating results of a particular reporting period could be materially adversely affected.

## Edgar Filing: AMERICAN FINANCIAL GROUP INC - Form POS AM

We are also involved in various other claims and legal proceedings arising out of the ordinary course of business which have not been previously disclosed in our quarterly and annual reports. In our opinion, after consultation with legal counsel, the ultimate disposition of such proceedings will not have a material adverse effect on our financial position, future results of operations or cash flows.

### **Item 1A. Risk Factors**

The discussion of our business and operations in this Quarterly Report on form 10-Q should be read together with the risk factors contained in our Annual Report on Form 10-K for the fiscal year ended June 30, 2009, filed with the Securities and Exchange Commission, which describe various risks and uncertainties to which we are or may become subject.
