Re: Toll Brothers, Inc. Proxy Statement for 2008 Annual Meeting of Stockholders

Dear Ms. Ho:

I am writing in response to your request for additional information regarding the method Toll Brothers, Inc. (the Company) intends to use to establish exchange ratios for the proposed option exchange program (Option Exchange Program), which is more fully described under Proposal Five Approval of Plan Amendments to Authorize a Stock Option Exchange Program for Employees other than Executive Officers and Directors contained in the Company's Proxy Statement for the 2008 Annual Meeting of Stockholders (the Proxy Statement).

As noted in the Proxy Statement, the Company intends for each new stock option issued under the Option Exchange Program to have a value that is equal to the value of the exchanged stock option. The Company intends to use the Black-Scholes option valuation method to determine the appropriate exchange ratios for the Option Exchange Program. The table below contains an illustration of what the exchange ratios would have been if the Option Exchange Program had been initiated on January 15, 2008, the Record Date for the Annual Meeting. The fair market value of the Company's common stock on that date was \$16.15, and options to acquire 2,849,600 shares would have been eligible for the exchange on that date.

	<b>Option Grant Date</b>			
	<b>12/20/2004</b>	<b>12/20/2005</b>	<b>12/20/2006</b>	<b>5/30/2007</b>
Exercise Price of Option	\$32.55	\$35.97	\$31.82	\$29.84
Expiration Date of Option	12/20/2014	12/20/2015	12/20/2016	5/30/2017
Remaining Term (months)	82	94	106	111
Options Exchanged	1,319,425	715,650	794,525	20,000
Options Issued	685,400	366,761	526,187	14,740
Conversion Ratio (surrendered : issued)	1.93:1	1.95:1	1.51:1	1.36:1

The exchange ratios were calculated assuming an expected volatility ranging from 50.60% to 51.41%, a risk-free rate of return ranging from 2.55% to 3.03%, and an expected dividend yield of 0.00%. The newly issued options will have a term equal to the remaining term of the exchanged options.

The actual exchange ratios that will be used for any exchange offer under the Option Exchange Program will vary based on the fair market value of the Company's common stock at the time of the exchange offer. The Executive Compensation Committee of the Company's Board of Directors will determine the appropriate exchange ratios for any exchange offer under the Option Exchange Program at the time of such offer, in accordance with the guidelines described in the Proxy Statement.

Please feel free to contact me with any questions regarding the foregoing.

Sincerely,

/s/ Mark K. Kessler
