TOTAL NET ASSETS - 100.00% \$91,896,375

Percentages are stated as a percent of net assets.

- (a) Non-income producing security.
 - (b) Fair valued security. The total market value of this security was \$2,261,794, representing 2.46% of net assets.
 - (c) Illiquid security. The total value of this security was \$2,261,794, representing 2.46% of net assets.
 - (d) Effective yield based on the purchase price. The calculation assumes the security is held to maturity.
 - (e) The rate shown represents the 7-day yield at October 31, 2016.
- * Principal amount in Mexican pesos.
-

The cost basis of investments for federal income tax purposes at October 31, 2016 was as follows:

Cost of investments**	\$86,915,873
Gross unrealized appreciation	7,185,650
Gross unrealized depreciation	(1,584,962)
Net unrealized appreciation	\$5,600,688

**Because tax adjustments are calculated annually at the end of the Fund's fiscal year, the above table does not reflect tax adjustments for the current fiscal year. For the previous fiscal year's federal income tax information, please refer to the Notes to Financial Statements section of the Fund's most recent annual report.

Significant accounting policies are as follows:

Portfolio Valuation: Investments are stated at value. Listed equity securities are

valued at the closing price on the exchange or market on which the security is primarily traded (the “Primary Market”) at the valuation time. If the security did not trade on the Primary Market, it shall be valued at the closing price on another comparable exchange where it trades at the valuation time. If there are no such closing prices, the security shall be valued at the mean between the most recent highest bid and lowest ask prices at the valuation time.

Investments in short-term debt securities having a maturity of 60 days or less are valued at amortized cost if their

term to maturity from the date of purchase was less than 60 days, or by amortizing their value on the 61st day prior to maturity if their term to maturity from the date of purchase when acquired by the Fund was more than 60 days. Other assets and securities for which no quotations are readily available will be valued in good faith at fair value using methods determined by the Board of Directors. These methods include, but are not limited to, the fundamental analytical data relating to the investment; the nature and duration of restrictions in the market in which they are traded (including the

time needed to dispose of the security, methods of soliciting offers and mechanics of transfer); the evaluation of the forces which influence the market in which these securities may be purchased or sold, including the economic outlook and the condition of the industry in which the issuer participates. The Fund has a Valuation Committee comprised of independent directors which oversees the valuation of portfolio securities.

The Valuation Committee of the Fund shall meet to consider any fair valuations. This consideration includes reviewing various factors set forth in the pricing procedures adopted by the Board of Directors and other factors as warranted. In considering a fair value determination, factors that may be considered, among others include; the type and structure of the security; unusual events or circumstances relating to the security's issuer; general market conditions; prior day's valuation; fundamental analytical data; size of the holding; cost of the security on the date of purchase; trading activity and prices of similar securities or financial instruments.

FAIR
VALUE
MEASUREMENTS

The Fund follows the FASB ASC Topic 820 hierarchy, under which various inputs are used in determining the value of the Fund's investments.

The basis of the hierarchy is dependent upon various "inputs" used to determine the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for directly or indirectly. These inputs may include quoted prices for the

identical instrument
on an inactive
market, prices for
directly or indirectly.

These inputs may
include quoted
prices for the
identical instrument
on an inactive
market, prices for
similar instruments,
interest rates,
prepayment speeds,
credit risks, yield
curves, default rates
and similar data.

Level 3 –

Unobservable inputs
for the asset or
liability, to the
extent relevant
observable inputs are
not available,
representing the
company's own
assumptions about
the assumptions a
market participant
would use in valuing
the asset or liability ,
and would be based
on the best
information
available.

The availability of
observable inputs
can vary from
security to security
and is affected by a
wide variety of
factors, including,
for example, the type
of security, whether
the security is new
and not yet
established in the
marketplace, the
liquidity of the
markets, and other
characteristics

particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market the determination of fair value requires more judgment.

Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

Edgar Filing: MEXICO EQUITY & INCOME FUND INC - Form N-Q

The following is a summary of the inputs used to value the Fund's investments carried at fair value as of October 31, 2016:

	Level 1*	Level 2*	Level 3**	Total
Equity				
Airlines	\$2,336,423	\$-	\$-	\$2,336,423

activities
during the
period ended
October 31,
2016.

Level 3
Reconciliation
Disclosure

Following is a
reconciliation
of Level 3
assets for
which
significant
unobservable
inputs were
used to
determine fair
value.

<u>Description</u>	Investments in Securities
Balance as of July 31, 2016	\$2,494,332
Acquisition/Purchase	-
Sales	-
Realized gain	-
Change in unrealized appreciation (depreciation)	(232,538)
Balance as of October 31, 2016	\$2,261,794

The following table presents additional information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of October 31, 2016:

	Fair Value October 31, 2016	Valuation Methodologies Market Comparables/ Sum of the Parts Valuation	Unobservable Input ⁽¹⁾ Liquidity Discount	Impact to Valuation from an Increase in Input ⁽²⁾ Decrease
Capital Development Certificates	\$2,261,794			

In determining certain of these inputs, management evaluates a variety of factors including economic conditions, foreign exchange rates, industry and market developments, market valuations of comparable companies and company specific developments.

This column represents the directional change in the fair value of the Level 3 investment that would result from increases to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

Item 2. Controls and Procedures.

The Registrant's President and Chief Financial Officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the "1940 Act")) (17 CFR 270.30a-3(c)) are effective as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rule 13a-15(b) or Rule 15d 15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(d)).

There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3. Exhibits.

Separate certifications for each principal executive officer and principal financial officer of the Registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)). Filed herewith.
