NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE PERIOD ENDED MARCH 31, 2016

(in thousands except share and per share amounts)

(unaudited)

Note 1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions and regulations of the Securities and Exchange Commission to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

This report should be read together with the Company's Annual Report on Form 10-K for the year ended December 31, 2015, including the audited consolidated financial statements and footnotes therein.

Management believes that the unaudited financial statements include all adjustments, consisting of normal recurring accruals, necessary to fairly state the financial position and results of operations as of March 31, 2016 and for the three-month period then ended in accordance with accounting principles generally accepted in the United States of America. The results of interim periods may not be indicative of results to be expected for the year.

Nature of Business

Electro-Sensors, Inc. manufactures and markets a complete line of monitoring and control systems for a variety of industrial machinery. The Company uses leading-edge technology to continuously improve its products and make them easier to use, with the ultimate goal of manufacturing the industry-preferred product for every market served. The Company sells these products through an internal sales staff, manufacturers' representatives, and distributors to a wide variety of industries that use the products in a variety of applications to monitor process machinery operations. The Company markets its products to customers located throughout the United States, Canada, Latin America,

Europe, and Asia.

Fair Value Measurements

The carrying value of cash equivalents, treasury bills, trade receivables, accounts payable, and other financial working capital items approximate fair value at March 31, 2016 and December 31, 2015, due to the short maturity nature of these instruments.

Stock-Based Compensation

The Company records compensation expense for stock options based on the estimated fair value of the options on the date of grant using the Black-Scholes-Merton (“BSM”) option pricing model. The Company uses historical data, among other factors, to estimate the expected price volatility, the expected option life, and the expected forfeiture rate. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for the estimated life of the option.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Significant estimates, including the underlying assumptions, consist of economic lives of long-lived assets, realizability of trade receivables, valuation of deferred tax assets/liabilities, inventory, investments, contingent earn-out, and stock compensation expense. It is at least reasonably possible that these estimates may change in the near term.

Equity Securities	0	0	0	0	0
Liabilities:					
Contingent earn-out	455	455	0	0	455

The fair value of the money market funds, commercial paper and treasury bills is based on quoted market prices in an active market. The available-for-sale security is a limited-marketable company. There is an insignificant market for the limited-marketable company and the Company has determined the value based on financial and other factors, which are considered level 3 inputs in the fair value hierarchy. Management estimated the probability of meeting the revenue targets over the measurement period to determine the fair value of the contingent earn-out, which is considered a level 3 input in the fair value hierarchy.

Note 4. Note Payable

The note payable consists of the following:

	December 31, 2015
Note payable to seller	\$ 400
Payable in annual installments of principal of \$400. The note was paid off in February 2016. This note is non-interest bearing and unsecured.	
Less: Discount of note payable listed above	(10)
Net note payable	390
Less: Current maturities	390
Note Payable – Long Term	\$ 0

Note 5. Stock-Based Compensation

During the first quarter of 2016, the Company granted its Chief Executive Officer options to purchase 50,000 shares of common stock. The options were priced at fair market value and vested 20% on the grant date, with an additional 20% vesting on the first four anniversaries of the grant date. The options expire ten years from the date of grant.

The assumptions made in estimating the fair value of the options on the grant date based upon the BSM option-pricing model for the quarter ended March 31, 2016 are as follows:

Dividend Yield	0.00%
Expected Volatility	36.17%
Risk Free Interest Rate	1.31%
Expected Life	6 Years

As of March 31, 2016, there was approximately \$143 of unrecognized compensation expense. The Company expects to recognize this expense over the next four years.

Note 6. Segment Information

As of January 1, 2016, the Company has one reportable operating segment: Production Monitoring. During the first quarter of 2015, the Company had two reportable operating segments: Production Monitoring and Investments. The Production Monitoring Division manufactures and markets a complete line of production monitoring equipment. ESI Investment Company held investments in marketable and non-marketable securities.

The accounting policies of the segments are the same as those described in Note 1 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. In evaluating segment performance, management focuses on sales and income before income taxes. The Company had no inter-segment sales.

The following is financial information relating to the continuing operating segments:

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding our expectations, beliefs, intentions or strategies regarding the future. Forward-looking statements include, but are not limited to, statements relating to our marketing efforts or our efforts to accelerate growth; our business development activities; our efforts to maintain or reduce production costs; our expected use of cash on hand; our cash requirements; and the sufficiency of our cash flows. We consider any statement that is not based solely upon historical facts, including our strategies for the future and the outcome of events that have not yet occurred, as a forward-looking statement.

All forward-looking statements in this document are based on information available to us as of the date of this Form 10-Q, and we assume no obligation to update any of these forward-looking statements, other than as required by law. Our actual results could differ materially from those in these forward-looking statements. The forward-looking statements we make in this Quarterly Report are subject to certain risks and uncertainties that could cause future results to differ materially from our recent results or those projected in the forward-looking statements, including the accuracy of management’s assumptions with respect to industry trends, fluctuations in industry conditions, the accuracy of management’s assumptions regarding expenses and our cash needs and those listed under the heading “Cautionary Statements” under “Item 1—Business,” in our Annual Report on Form 10-K for the year ended December 31, 2015.

CRITICAL ACCOUNTING ESTIMATES

The preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make decisions based upon estimates, assumptions, and factors it considers relevant to the circumstances. These decisions include the selection of applicable accounting principles and the use of judgment in their application, and affect reported amounts and disclosures. Changes in economic conditions or other business circumstances may affect the outcomes of management’s estimates and assumptions. An in-depth description of our accounting estimates can be found in the interim financial statements included in this report and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. No new estimates exist other than those discussed in our Annual Report.

Table of Contents

The following paragraphs discuss the Company's performance for the three months ended March 31, 2016 and 2015.

RESULTS OF OPERATIONS (in thousands)

Net Sales

Net sales for the 2016 first quarter decreased \$169, or 9.0%, when compared to the same period in 2015. This decrease in sales was primarily due to lower sales in the southwestern US and international regions, which declined 34% and 46% respectively. The decreases were primarily the result of customers delaying capital purchases during the quarter due to challenging macroeconomic conditions in the markets we serve. This weakness was partially offset by 25% growth in the north central and northwestern US regions, largely driven by sales of our sensor and switch products. The company experienced growth within the grain and bulk material handling markets when compared to the same period of 2015.

Gross Profit

Gross profit for the 2016 first quarter decreased \$128, or 12.1%, from \$1,062 to \$934. Gross margin, as a percentage of net sales, for the three months ended March 31, 2016 was 54.4%, versus 56.3% for the same period in 2015. The slight decrease in gross margin percentage was due to a change in product mix and lower capacity utilization.

Operating Expenses

Total operating expenses increased \$53, or 5.2%, for the 2016 fiscal quarter compared to the same period of 2015. As a percentage of net sales, operating expenses increased to 63.0% in the 2016 three-month period compared to 54.6% in the same period for 2015. Part of the percentage increase reflects the fact that fiscal 2016 first quarter sales decreased from fiscal 2015 first quarter sales.

Selling and marketing costs increased \$20, or 4.9%, for fiscal 2016 first quarter when compared to the same period in 2015, and increased as a percentage of net sales to 24.9% from 21.6%. The dollar increase was due to increased travel and system demonstrations to potential customers.

General and administrative costs increased \$76, or 18.7%, for fiscal 2016 first quarter compared to the same period in 2015, and increased as a percentage of net sales to 28.1% from 21.5%. The dollar increase was due to higher wages and benefit expense due to additional personnel, legal and professional fees, and stock compensation expense due to an option granted to the Chief Executive Officer in February 2016. The increase is partially offset by a decrease in depreciation expense.

Research and development costs decreased \$43, or 19.9%, for fiscal 2016 first quarter compared to the same period in 2015, and decreased as a percentage of net sales to 10.0% from 11.5%. The decrease in research and development costs was the result of lower wages and benefits due to reduced staffing levels in 2016 and costs incurred in 2015 related to lab testing fees for the HazardPRO product line.

Non-Operating Income (Expense)

Non-operating income decreased by \$802 for fiscal 2016 first quarter compared to the same period for 2015. This decrease was due to the liquidation of shares in Rudolph Technologies, Inc. in the second quarter of 2016. During the 2015 first quarter, we sold 73,583 shares of Rudolph Technologies, Inc. stock and recognized gain on the sales of \$815.

Income (Loss) Before Income Taxes

Loss before income taxes was \$135 for the 2016 first quarter, a decrease of \$983, or 115.9%, when compared to income before income taxes of \$848 for the quarter ended March 31, 2015.

The decrease was the result of lower 2016 sales and no gain on sale of available-for-sale securities recognized in 2016. During the first quarter of 2015, we recognized \$815 of gain on sale of available-for-sale securities (see “Non-Operating Income (Expense)”).

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents were \$505 at March 31, 2016 and \$569 at December 31, 2015. The decrease was mainly from investing activities, as the Company did not have any sales of available-for-sale securities during 2016.

Cash used in operating activities was \$70 and \$199 for the three months ended March 31, 2016 and 2015, respectively. The \$129 decrease in cash used in operating activities was mainly due to the 2016 smaller increase in trade receivables and decrease in inventories, partially offset by a decrease in accrued income taxes. The increase in trade receivables is due to increased sales in the first quarter of 2016 compared to the fourth quarter of 2015. The decrease in inventories is primarily due to our lower purchases of inventory in the 2015 fourth quarter and 2016 first quarter, compared to the respective prior year periods. The decrease in accrued income taxes was due to lower taxable income due to the liquidation of shares in Rudolph Technologies, Inc. in the first quarter of 2015.

Cash generated from investing activities was \$396 and \$1,021 for the three months ended March 31, 2016 and 2015, respectively. During the three months ended March 31, 2016 and 2015, the Company had net proceeds of Treasury Bills with a maturity date of more than three months of \$396 and \$201, respectively. We generated \$825 in proceeds on the sale of available-for-sale securities during the 2015 first quarter.

Cash used in financing activities was \$390 and \$381 for the first quarters of 2016 and 2015, respectively. During the three months ended March 31, 2016 and 2015, we paid \$390 and \$381 on the long-term debt owed to Harvest Engineering, Inc. ("Harvest") for the technology purchased in February 2014. As of March 31, 2016, the note payable to Harvest has been paid in full.

Our ongoing cash requirements will be primarily for capital expenditures, contingent earn-out, research and development, and working capital. Management believes that cash on hand and any cash from operations will be sufficient to meet our cash requirements through at least the next 12 months.

Off-balance Sheet Arrangements

As of March 31, 2016, the Company had no off-balance sheet arrangements or transactions.

Future Business Development Activities

The Company continues to seek growth opportunities, both internally through the Company's existing portfolio of products, technologies and markets, as well as externally through technology partnerships or related-product acquisitions. Although the Company is continuing to explore these external opportunities, it currently has no agreements or understandings with any third parties.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of the Company's management, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act") were effective as of March 31, 2016 to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the first quarter of 2016, which were identified in connection with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
