#### ITEM 1. FINANCIAL STATEMENTS

In the opinion of management, the accompanying unaudited financial statements included in this Form 10-QSB reflect all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year.

6

SCORE ONE, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
JUNE 30, 2001

BASIS OF PRESENTATION  
-----

The accompanying unaudited interim financial statements have been prepared in accordance with Form 10QSB instructions and, in the opinion of management, include all normal adjustments considered necessary to present fairly the financial position as of June 30, 2001 and the results of operations for the three and six months ended June 30, 2001 and 2000. These results have been determined on the basis of generally accepted accounting principles and practices and applied consistently with those used in the preparation of the Company's audited financial statements and notes for the seven months ended December 31, 2000. On January 23, 2001, the Company elected to change its fiscal year end from May 31 to December 31.

Certain information and footnote disclosures normally included in the financial statements presented in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that the accompanying unaudited interim financial statements be read in conjunction with the financial statements and notes thereto incorporated by reference in the Company's 2000 Annual Report on Form 10KSB.

7

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS.

The following discussion should be read in conjunction with, and is qualified in its entirety by reference to the consolidated financial statements and notes thereto, included as part of this quarterly report.

NATURE OF THE COMPANY'S PRESENT OPERATIONS

The success of the Company's proposed plan of operation will depend to a great extent on the operations, financial condition, and management of its subsidiary Advanced Technology International Holdings Limited ("ATIH"). The Company cannot ensure that it will be a commercially or economically viable business operation. It will face all of the risks inherent in a new business, the majority of which are beyond the control of the management of both the Company and ATIH.

RESULTS OF OPERATIONS

The following table shows the selected consolidated income statement data of the Company and its subsidiaries for the three-month period and six-month period ended June 30, 2001 and June 30, 2000. The data should be read in conjunction with, and is qualified in its entirety by reference to, the consolidated financial statements and the notes thereto included as part of this quarterly report:

REVENUE AND GROSS PROFIT MARGIN

Total revenue for the three-month period ended June 30, 2001 increased by US\$2.3 million or 45.8% to US\$7.2 million, compared to US\$4.9 million for the corresponding period in year 2000. During the three-month period ended June 30, 2001, the Company has continued to shift its focus on high margin flexible PCBs, which are expected to be the main stream of the PCB industry for telecommunication products. The Company also provides value-added services to its clients, the circuit-on-board service, to improve its gross profit margin in this highly competitive industry. Due to this adjustment, the total revenue for the three-month period ended June 30, 2001 increased accordingly, as compared to the same corresponding period in 2000 when the Company concentrated mainly on the traditional phenol based single and double-sided PCBs.

Total revenue for the six-month period ended June 30, 2001 increased by US\$3.1 million or 31.3% to US\$12.8 million, compared to US\$9.8 million for the corresponding period in 2000. The increase was primarily the results of shifting its focus on high margin products and on providing value-added services, rather than concentrating on comparatively low margin traditional PCB products.

The increase in average gross profit margin from 26.1% for the three-month period ended June 30, 2000 to 28.0% in year 2001 was the result of the entrance into higher profit margin PCBs market and providing additional value-added services to the clients during last two quarters. Lower production cost as a result of bulk purchases of raw material at comparatively cheaper prices was

## Edgar Filing: SCORE ONE INC - Form 10QSB

also contributed to the increase in gross profit margin.

### OTHER INCOME/(EXPENSES)

Other expenses during the three-month period ended June 30, 2001 were US\$180,000, compared to other income of US\$2,000 for the same corresponding period in 2000. During the six-month period ended June 30, 2001, other expenses were US\$168,000, compared to other income of US\$2,000 for the corresponding period in year 2000. The majority of other expenses was the result of the accounting treatment of amortization of goodwill resulting from the acquisition of asset in Shanghai during the three-month period ended June 30, 2001.

### INTEREST (FINANCIAL) EXPENSES

Interest expenses during the three-month period and six-month period ended June 30, 2001 were US\$29,000 and \$34,000, compared to none for the same corresponding periods in year 2000. Interest expenses incurred during the said period were the result of interests and bank charges spent on maintaining the revolving over-draft banking facilities for the provision of working capital flexibility. The Company maintained no outside debt and did not have any interest expense on long-term debt facilities.

9

### SELLING EXPENSES

Selling expenses increased by approximately US\$21,000 or 175.0% to US\$33,000 for the three-month period ended June 30, 2001 and increased by approximately US\$37,000 or 217.6% to US\$54,000 for the six-month period ended June 30, 2000. The increase in laboratory testing and transportation related costs contributed to the majority of the increase in selling expenses for the past two quarters.

### GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses increase by approximately US\$194,000 or 106.6% to US\$376,000 for the three-month period ended June 30, 2001 from US\$182,000 for the same corresponding period in year 2000. The following events occurred during the three-month period ended June 30, 2001 contributed to the majority of the overall increase in general and administrative expenses:

1. Provision of Business Tax - The provision of business tax in the amount of US\$107,000 was recorded during the three-month period ended June 30, 2001, compared to none for the same corresponding period in year 2000. This provision was made for a wholly owned British Virgin Islands' subsidiary of the Company.
2. Auditors' Fee - This fee increased by approximately US\$20,000 for the three-month period ended June 30, 2001 as compared to the corresponding period in year 2000. This was the result of additional fees spent on independent auditor's work for the review of quarterly reports during the period. The Company has changed its accounting policy to reflect such fees on a quarterly basis in year 2001 rather than to show a year-end one-time entry/adjustment as in year 2000.
3. Staff Salaries and Allowances and Directors' Remuneration - During the three-month period ended June 30, 2001, a total of US\$117,000 was recorded, an increase of US\$50,000 over the same corresponding period

## Edgar Filing: SCORE ONE INC - Form 10QSB

in year 2000. The Company has changed its accounting policy to reflect directors' remuneration on a quarterly basis in year 2001 rather than to show a year-end one-time entry/adjustment as in year 2000.

General and administrative expenses increase by approximately US\$254,000 or 57.2% to US\$698,000 for the six-month period ended June 30, 2000 from US\$444,000 for the same corresponding period in year 2000. The following events occurred during the six-month period ended June 30, 2001 contributed to the majority of the overall increase in general and administrative expenses:

1. Provision of Business Tax - The provision of business tax in the amount of US\$107,000 was recorded during the six-month period ended June 30, 2001, compared to none for the same corresponding period in year 2000. This provision was made for a wholly owned British Virgin Islands' subsidiary of the Company.

10

2. Staff Salaries and Allowances and Directors' Remuneration - During the six-month period ended June 30, 2001, a total of US\$226,000 was recorded, an increase of US\$54,000 over the same corresponding period in year 2000. The Company has changed its accounting policy to reflect directors' remuneration on a quarterly basis in year 2001 rather than to show a year-end one-time entry/adjustment as in year 2000.
3. Loss on Exchange - During the six-month period ended June 30, 2001, a total of US\$35,000 was recorded as loss on exchange, compared to none for the same corresponding period in year 2000. This loss was the result of using a high exchange rate (US\$/HK\$) of 7.8 rather than 7.75 to better reflect the current exchange rate market situation in the region.

### INCOME TAXES

The increase in income taxes was the result of the increase in income before income taxes. Under the Hong Kong Tax Authority's Departmental Interpretation and Practice Notes, a company based in Hong Kong, but with substantially all of its manufacturing operations located in the PRC conducted under a processing agreement with a PRC company, can enjoy profit appointment under which 50% of its manufacturing profit is subject to Hong Kong profit taxed. Therefore, the effective tax rate of the Company is approximately 8% p.a. Such tax concession is granted based on an annual application by the Company.

### NET INCOME AND EARNINGS PER SHARE

For the three-month period ended June 30, 2001, income before extraordinary gain increased by US\$195,000 or 19.7% to US\$1.2 million, compared to US\$990,000 for the corresponding period in year 2000. For the six-month period ended June 30, 2001, income before extraordinary gain increased by US\$229,000 or 10.8% to US\$2.4 million, compared to US\$2.1 million for the same period in year 2000. The increase was the result of increase in demand for higher margin PCBs of the consumer electronics and telecommunication products, lower production costs and addition of value-added services .

Earnings per share before extraordinary gain for the three-month period ended June 30, 2001 increased approximately by US\$0.01 or 25% to US\$0.06, as

## Edgar Filing: SCORE ONE INC - Form 10QSB

compared to US\$0.05 for the corresponding period in year 2000. For the six-month period ended June 30, 2001, earning per shares increased approximately by US\$0.01 or 7.1% to US\$0.12 over US\$0.11 for the same period in year 2000.

### EXTRAORDINARY GAIN ON DISPOSAL

An extraordinary gain on disposal in the amount of US\$4 million was the result from the proceeds of a placement of shares of a newly formed indirect subsidiary of the Company. These proceeds were then used to pay for the acquisition of, through an intermediate British Virgin Islands' holding corporation, the ultimate assets of Jiang Yin Kaicheng Copper Clad Laminated

11

Co., Ltd., a wholly foreign owned enterprise established in the PRC whose principal activities are the manufacture and sale of copper clad laminated sheets. The extraordinary gain is classified as a capital gain and not subject to any tax liability under Hong Kong Inland Revenue Ordinance. As a result of the extraordinary gain on disposal, net income available to Common Stockholders increased, thereby increasing earnings per share for the three and six month period ended June 30, 2001 to \$0.26 and \$0.32, respectively.

### LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents were US\$402,000 as of June 30, 2001. This represents an increase of US\$162,000 as compared with the cash balance as of December 31, 2000. The increase was primarily due to cash provided by operating activities, which was partially offset by capital spending for purchase of an operating subsidiary and equipment and repayment of short-term overdraft banking facilities.

Management believes that the level of financial resources is a significant competitive factor in the PCB industry and accordingly may choose at any time to raise additional capital through debt or equity financing to strengthen its financial position, facilitate growth and provide the Company with additional flexibility to take advantage of business opportunities.

## PART II

ITEM 1 LEGAL PROCEEDINGS. NONE

ITEM 2 CHANGES IN SECURITIES AND USE OF PROCEEDS. NONE

ITEM 3 DEFAULTS UPON SENIOR SECURITIES. NONE
