In 2003:

- Consolidated sales of Stilnox(R)/Ambien(R)/Myslee(R) were 1,345 million euros, up 10.4% on a comparable basis.
In the United States, demand for Ambien(R) remained strong, with prescriptions up 13.4%(6), coupled with a favorable price effect. Invoiced sales of Ambien(R) grew only by 10.6% on a comparable basis due to the reduction in inventory levels(7) of approximately 0.8 months(8) on the full year.
In Japan, Myslee(R) became the class leader after two years from its launch.
- Consolidated sales of Plavix(R) totaled 1,325 million euros, up 37.4% on a comparable basis.
- Consolidated sales of Eloxatin(R) were 824 million euros, up 125.8% on a comparable basis. This strong growth reflects the continuing success of Eloxatin(R) in the United States, where sales reached 460 million euros. Outside the United States, sales of the product increased by 37.4% on a comparable basis to 364 million euros.
- Consolidated sales of Aprovel(R) reached 683 million euros, up 24.4% on a comparable basis.
- Consolidated sales of Xatral(R)/Uroxatral(R) rose by 24.7% on a comparable basis to 222 million euros. Uroxatral(R) was launched in the United States at the start of November, and its progress is in line with our expectations.

- (7) Inventory level expressed in months' sales
- (8) Internal estimates of inventories (wholesalers, hospitals, pharmacies...) as of December 31st 2003

Apart from the top 10 products, the rest of the portfolio generated sales of 2,628 million euros in 2003, a decline of 2.4% on a comparable basis. Notwithstanding the fall in sales of Ticlid(R) (replaced by Plavix(R)) and the virtual disappearance of sales of Corotrope(R)/Primacor(R) (since the introduction of generics in the United States in May 2002), sales of the other products in the portfolio rose 2.2%.

Pending additional indications, Arixtra(R), the sole synthetic product of its therapeutic class, achieved consolidated sales of 19 million euros.

2003 Developed Sales(9): up 20.4% on a Comparable Basis

In 2003, developed sales, which represent the worldwide market presence of Sanofi-Synthelabo products, reached 10,560 million euros, an increase of 20.4% on a comparable basis. Fourth-quarter developed sales rose by 28.7% on a comparable basis.

Explanatory notes:

All figures in this press release are in French GAAP.

In this press release, we refer to our historical sales as "reported" sales. In addition to reported sales, we also present and discuss two other non-GAAP indicators that we believe are useful measurement tools to explain changes in our reported sales:

Comparable sales: When we refer to the change in our sales on a "comparable" basis, we mean that we exclude the impact of exchange rate fluctuations and changes in Group structure (acquisitions and divestitures of entities and rights to products as well as change in the consolidation percentage for consolidated entities).

For any two periods, we exclude the impact of exchange rates by recalculating sales for the earlier period on the basis of exchange rates used in the later period.

We exclude the impact of acquisitions by including sales for a portion of the prior period equal to the portion of the current period during which we owned the entity or product rights based on sales information we receive from the party from whom we make the acquisition. Similarly, we exclude sales in the relevant portion of the prior period when we have sold an entity or rights to a product.

For a change in the consolidation percentage of a consolidated entity, the prior period is recalculated on the basis of the consolidation method used for the current period.

Reconciliation of 2002 reported-basis sales to 2002 comparable-basis sales

	In millions of euros
2002 reported-basis sales	7,448
Impact of changes in Group structure	-24
Impact of exchange rates	-460
2002 comparable-basis sales	6,964

Developed sales When we refer to "developed sales" of a product, we mean consolidated sales, excluding sales of products to our alliance partners, but including those that are made through our alliances and which are not included in our consolidated sales (with Bristol-Myers Squibb on Plavix (R) /Iscover (R) (clopidogrel) and Aprovel (R) /Avapro (R) /Karvea (R) (irbesartan), with Fujisawa on Stilnox (R) /Myslee (R) (zolpidem), and with Organon on Arixtra (R) (fondaparinux)). Our alliance partners provide us with information regarding their sales in order to allow us to calculate developed sales.

We believe that developed sales are useful measurement tool because they demonstrate trends in the overall presence of our products in the market.
