FOR IMMEDIATE RELEASE

CGI Reports Solid Results in Third Quarter Fiscal 2003

Strong cash flow and improved margins

Montreal, July 29, 2003 - CGI Group Inc. (NYSE: GIB; TSX: GIB.A), a leading provider of end-to-end information technology ("IT") and business processing outsourcing ("BPO"), today reported unaudited results for the quarter ended June 30, 2003. All figures are in Canadian dollars unless otherwise indicated.

Third Quarter Financial Highlights

Revenue of \$734.0 million was 32.7% higher than revenue reported in the third quarter of fiscal 2002 and essentially flat compared with the second quarter.

Net earnings increased 29.0% to \$47.1 million from last year's third quarter net earnings, and were up 5.0% sequentially.

Basic and diluted earnings per share of \$0.12 were up over basic and diluted earnings per share of \$0.10 reported in the third quarter of fiscal 2002 and \$0.11 reported in the previous quarter. The net earnings margin increased to 6.4% from 6.1% in the second quarter.

Cash flow from operating activities was \$117.0 million; free cash flow was \$95.5 million.

CGI's business process outsourcing activities represented approximately 20% of total revenue.

New contract bookings, renewals and extensions totaled \$429.2 million in the quarter.

As a result of \$2 billion in bookings announced since the end of the third quarter, including \$1.5 billion attributable to BCE, CGI's backlog of signed contracts stands at \$12.5 billion, with a weighted average remaining contract term of 7.7 years.

The current pipeline of bids for large outsourcing contracts being reviewed by potential clients remains at \$5 billion.

Serge Godin, CGI's chairman and CEO said, "We are pleased with the results we achieved in the third quarter. Despite several tough markets, CGI has signed a good combination of new contracts, extensions and renewals with new and existing clients, while driving improved margins and strong cash flow. The strong bookings trend realized since the end of the third quarter with a total value of \$2 billion is a reflection of CGI's momentum and confirms our ability to dynamically transform our pipeline of bids into a firm backlog."

Third Quarter Results (See also: Q3 FY03 MD&A filed with Sedar & Edgar and available at www.cgi.com)

Revenue for the third quarter ended June 30, 2003 increased 32.7% to \$734.0 million, from \$553.4 million in the same quarter last year. The contribution of acquisitions made during the fiscal year, in particular INSpire, UAB and Cognicase, represented 30.2% year-over-year growth. Third quarter revenue, when compared to second quarter revenue of \$736.1 million, was impacted by approximately \$10.9 million as a result of the strong Canadian dollar and resulting exchange rates of reported foreign revenue. The Company's decision to shut down certain former Cognicase operations, or withdraw from unprofitable engagements entered into by the former Cognicase, also reduced revenue in the quarter by approximately \$4.4 million.

In the third quarter, revenue from long-term outsourcing contracts represented 71% of the Company's total revenue, while project oriented systems integration and consulting (SI&C) work represented 29%. Business Process Outsourcing services represented approximately 20% of total revenue. Geographically, clients in Canada represented 80% of revenue; clients in the US represented 16%; and clients in all other regions, 4%. Clients in the financial services sector represented 41% of revenue; clients in the telecom sector represented 19%; manufacturing, retail and distribution clients, 16%; government clients, 14%; utilities and services, 8%; and healthcare, 2%.

Earnings before interest and income taxes (EBIT) were \$80.6 million in the third quarter, up 29.1% over last year's third quarter EBIT of \$62.4 million and up 3.0% over second quarter EBIT of \$78.2 million. The EBIT margin was 11.0%, down slightly from 11.3% in last year's third quarter, but improved over the second quarter's EBIT margin of 10.6%. The sequential improvement in EBIT and the EBIT margin resulted from a combination of improved profitability in the US, European and BPS business units, greater economies of scale, including further synergies realized from the acquisition of Cognicase, as well as the continued focus on project and cost management.

Net earnings in the third quarter increased 29.0% to \$47.1 million, compared with \$36.5 million in the same quarter a year ago. Basic and diluted earnings per share increased to \$0.12 for the quarter, compared with \$0.10 reported in last year's third quarter and \$0.11 in the previous quarter. CGI's weighted average number of outstanding shares was up 5.6% compared with the third quarter of 2002 and up 1.1% sequentially. The net margin was 6.4%, compared with 6.6% in the third quarter of fiscal 2002, but up sequentially from 6.1% in the second quarter. The year-over-year difference is partly a result of higher interest expenses in the quarter associated with debt incurred for the acquisitions of UAB and Cognicase.

Cash provided by operating activities increased to \$117.0 million, compared with the second quarter when several one-time items contributed to the \$16.8 million required for operating activities. Notwithstanding the positive effect of \$36.7 million in tax credits received for E-Commerce Place, operating cash flow improved to more normalized levels in the quarter. These tax credits are accrued for throughout the year, but the payment is generally received in the third quarter.

CGI's balance sheet remains strong, giving the company plenty of flexibility to finance future growth from large contract wins and acquisitions. At June 30, 2003, CGI had cash and cash equivalents of \$126.6 million and a total credit facility available of \$223.4

million. CGI's debt decreased by \$18.1 million since March 31, 2003 and represents a debt to equity ratio of 17.8%.

Nine-month Highlights

For the first nine months of fiscal 2003 ended June 30, 2003, revenue increased 28.9% to \$2,059.1 million, from \$1,597.8 million in the corresponding period of fiscal 2002. EBIT for the first nine months of fiscal 2003 increased 27.6% to \$219.5 million from \$172.0 million in same period a year ago. Net earnings in the first nine months increased 28.5% to \$128.9 million compared to net earnings for the nine-month period ended June 30, 2002 of \$100.3 million. Finally, basic and diluted earnings per share of \$0.33, based on a 4.4% increase in weighted average number of outstanding shares, compared to \$0.27 for the same period one year ago.

Initiatives and Outlook

Based on results to date and current expectations, CGI is narrowing its guidance for fiscal 2003 and expects revenue of between \$2.75 and \$2.825 billion and earnings per share in the range of \$0.45 to \$0.46, representing year-over-year top and bottom line growth rates of 25%-28%. This guidance reflects recent actions taken relative to the acquisition of Cognicase, to protect bottom line performance at the short-term expense of modestly reducing the revenue run rate. In the third quarter these actions included the termination of unprofitable SI&C and IT outsourcing contracts, the sale of the engineering and construction activities in Saguenay, and the closing of the Company's Calgary-based accountant placement agency. This guidance is also based on what is known today about current market conditions and the fluctuation of currency exchange rates. It excludes the impact of other acquisitions or large outsourcing contracts contributing more than \$100 million per year in revenue.

Edgar Filing: CGI GROUP INC - Form 6-K

CGI will provide guidance for fiscal 2004 when reporting its fourth quarter results. Although still in the planning process for its fiscal year 2004, CGI expects to achieve double-digit organic growth in the next year and to outpace the average of its industry peers. This growth objective is before the effect of large acquisitions.

Mr. Godin added, "As evidenced by our improving margins and cash flow in the third quarter, CGI's business unit managers achieved further operational efficiencies in our integration of Cognicase. They also refocused on internal growth initiatives and the strong bookings recently announced reflect their initial efforts. With the recent announcement of our renewed partnership and amended Shareholders Agreement with BCE, the future of CGI's ownership and management is perfectly clear. CGI, our members and our clients can focus completely on achieving strong growth in all our markets, especially for large IT and business process outsourcing opportunities."

Notes to the Consolidated Financial Statements

For the nine months ended June 30, 2003

(tabular amounts only are in thousands of Canadian dollars, except share data) (unaudited)

Note 1 Summary of significant accounting policies

Interim Consolidated Financial Statements

The interim Consolidated Financial Statements for the three and nine months ended June 30, 2003 and 2002 are unaudited and include all adjustments that management of CGI Group Inc. (the Company) considers necessary for a fair presentation of the financial position, results of operations and cash flows.

The disclosure provided for these interim periods do not conform in all respects to the requirements of generally accepted accounting principles for the annual Consolidated Financial Statements; therefore, the interim Consolidated Financial Statements should be read in conjunction with the annual Consolidated Financial Statements of the Company for the year ended September 30, 2002. These interim Consolidated Financial Statements have been prepared using the same accounting policies and methods of their application as the annual Consolidated Financial Statements for the year ended September 30, 2002.

Certain comparative figures have been reclassified in order to conform to the current period presentation.

Recent accounting changes

In February 2003, the Canadian Institute of Chartered Accountants (CICA) issued Accounting Guideline 14, *Disclosure of Guarantees*, with effective date for financial statements of interim and annual periods beginning on or after January 1, 2003. This guideline provides guidance regarding the identification of guarantees and requires a guarantor to disclose the significant details of guarantees that have been given regardless of whether it will have to make payments under the guarantees. See Note 8 for disclosure of guarantees.

Edgar Filing: CGI GROUP INC - Form 6-K

The CICA issued Handbook Section 3475, *Disposal of Long-lived Assets and Discontinued Operations*, which applies to disposal activities initiated by an enterprise's commitment to a plan on or after May 1, 2003. The new section provides guidance on recognizing, measuring, presenting and disclosing long-lived assets to be disposed of and replaces the disposal provisions in Section 3475, *Discontinued Operations* and Section 3061, *Property, Plant and Equipment*.

The adoption of these requirements had no significant impact on the interim Consolidated Financial Statements.

Future accounting changes

The CICA issued Accounting Guideline 13, *Hedging Relationships*, which deals with the identification, documentation, designation and effectiveness of hedges and also the discontinuance of hedge accounting, but does not specify hedge accounting methods. This guidance will be applicable to hedge relationships in effect in fiscal years beginning on or after July 1, 2003.

The CICA issued Handbook Section 3110, *Asset Retirement Obligations*. The new standard focuses on the recognition and measurement of liabilities for obligations associated with the retirement of property, plant and equipment when those obligations result from the acquisition, construction, development or normal operation of the assets. The standard is effective for fiscal years beginning on or after January 1, 2004.

The CICA issued Handbook Section 3063, *Impairment of Long-lived Assets*, which comes into effect for fiscal years beginning on or after April 1, 2003. This section provides guidance on recognizing, measuring and disclosing the impairment of long-lived assets. It replaces the write-down provisions in Section 3061, *Property, Plant and Equipment*.

The Company is currently evaluating the impact of the adoption of these new standards and guidance, and therefore has not yet assessed their effect on the Company's future Consolidated Financial Statements.

Note 2 Financing Lease

On November 1, 2002, one of the Company's joint ventures, acting as the lessor, entered into a five-year lease agreement for the information system and technology assets, as part of an existing outsourcing contract with one of its major customers. This agreement was accounted for as a direct financing lease. The Company's portion of the net investment in this lease is \$47,333,000 and a corresponding amount has been recorded in accounts payable and accrued liabilities. As at June 30, 2003, \$18,964,000 represents the current portion included in prepaid expenses and other current assets and the remaining \$28,369,000 is included in contract costs and other long-term assets.

Note 3 Capital stock, stock options and warrants

Stock options Under a Stock option compensation plan for certain employees and directors of the Company and its subsidiaries, the Board of Directors may grant, at its discretion, options to purchase company stock to certain employees and directors of the Company and its subsidiaries. The exercise price is established by the Board of Directors but may not be lower than the average closing price for Class A subordinate shares over the five business days preceding the date of the grant. Options generally vest one to three years from the date of the grant and must be exercised within a 10-year period, except in the event of retirement, termination of employment or death.

Note 4 Investments in subsidiaries and joint venture

For all business acquisitions, the Company began recording the results of operations of the acquired entities as of their respective effective acquisition dates.

During the nine months ended June 30, 2003, the Company acquired all the assets of INSpire Insurance Solutions Inc., which provides claims and policy administration outsourcing services as well as software and consulting services, and all the outstanding shares of ProjExpert, a consulting company specializing in the implementation of Enterprise Resource Planning, on December 2, 2002 and January 1, 2003, respectively. Effective January 1, 2003, the Company acquired all the outstanding shares of Underwriters Adjustment Bureau Ltd. (UAB), a provider of claims management, underwriting and actuarial services for the property and casualty insurance industry. Furthermore, the Company acquired all the outstanding shares of Cornerstone Project Management Group Inc., a provider of project management and consulting services in the government, healthcare and financial services sectors on January 30, 2003 and increased its interest in one of its joint ventures.

The Company acquired on January 13, 2003 all outstanding shares of Cognicase Inc. (Cognicase). At the option of the holder, the Company offered for each share of Cognicase \$4.50 cash or 0.6311 Class A subordinate share of the Company, or a combination thereof. Cognicase provided solutions including the implementation of e-business solutions, ASP services, re-engineering of existing applications for e-business, technology configuration management, as well as project management and business process improvement consulting services.

In connection with these acquisitions, the Company has adopted certain plans to restructure and integrate the acquired businesses. Consequently, the Company established provisions related to leases for premises occupied by the acquired businesses, which the Company plans to vacate, as well as costs related to the planned termination of certain employees. The restructuring and integration plans involve costs related to the intended abandonment of redundant premises and severance costs related to the termination of employees performing functions already available through the Company's existing structure.

For Cognicase, the components of the integration liabilities assumed and included in the preliminary allocation of purchase price to the net assets acquired are as follows:

	Acquisition and integration liabilities	Paid as at June 30, 2003	Balance remaining as at June 30, 2003
Consolidation and closure of facilities	\$ 38,605	\$ 2,648	\$ 35,957

⁽²⁾ The value of the shares issued as consideration for the business acquisition was determined using the weighted-average closing share price on the TSX for the period of 10 days before the terms of the business combination were agreed to and announced.

⁽³⁾ The value of the shares issued as consideration for the business acquisition was determined using the average closing share price on the TSX over a reasonable period before and after the date the terms of the business combination were agreed to and announced.

During the three-month period ended June 30, 2003, the Company revised the amount of the purchase price of Cognicase allocated to the estimated fair value of contract costs and other long-term assets, future income tax liabilities, goodwill and balance of purchase price; contract costs and other long-term assets, future income tax liabilities and long-term debt decreased by \$55,000,000, \$18,439,000 and \$1,080,000, respectively, whereas goodwill increased by \$35,481,000.

Edgar Filing: CGI GROUP INC - Form 6-K

Also during the quarter ended June 30, 2003, the Company sold two subsidiaries previously owned by Cognicase for an aggregate cash consideration of \$126,000.

In addition, during the nine-month period ended June 30, 2003, the Company finalized the purchase price allocations and made adjustments relating to certain business acquisitions completed in the last 12 months resulting in a net decrease of goodwill, integration liabilities, future income tax assets and cash consideration of \$514,000, \$1,918,000, \$721,000 and \$683,000, respectively.

Note 7 Segmented information

Effective October 1, 2002, the Company changed its organizational structure. The Company has four strategic business units (SBU) as follows: Canada, Europe, US and Business process services (BPS). The mission of these units is as follows:

The Canada SBU provides a full-range of IT services, including systems integration, consulting and outsourcing, to clients located primarily in Canada. However, its professionals and facilities also serve US and foreign-based clients as an integral part of the Company's offshore and near-shore delivery model. The Company's services to financial cooperatives are delivered on a North American basis and accordingly, the business related to the Company's US accounts is reported as part of the Canadian operations.

The US SBU provides end-to-end IT services, including systems integration, consulting, application maintenance and development outsourcing (Tier 2 & 3).

The Europe SBU provides IT services, including consulting, systems integration and outsourcing, to European clients.

The BPS SBU provides a full spectrum of business process outsourcing services to its North American client base. Its services include business processing for insurance companies, certain pay services, document management services, finance and administration as well as healthcare and government business process services.

As of October 1, 2002, the Company began to evaluate each SBU's performance under this structure. Comparative segmented information has been restated to reflect the new segmentation basis.

Notes to the Consolidated Financial Statements

For the nine months ended June 30, 2003

*(tabular amounts only are in thousands of Canadian dollars, except share data) (unaudited)***Note 8 Guarantees**

In the normal course of business, the Company enters into agreements that may provide for indemnification and guarantees to counterparties in transactions such as consulting and outsourcing services, business divestitures, lease agreements and financial obligations. These indemnification undertakings and guarantees may require the Company to compensate counterparties for costs and losses incurred as a result of various events, including breaches of representations and warranties, intellectual property right infringement, claims that may arise while providing services, or as a result of litigation that may be suffered by counterparties.

The Company enters into outsourcing and consulting contracts as well as into operating leases that include indemnification clauses which require the Company to compensate its clients or counterparties for costs incurred as a result of litigation claims or damages suffered by the clients or counterparties. The term and nature of these indemnifications vary based upon the agreement, which often provides no limit. Consequently, the Company is unable to make a reasonable estimate of the maximum potential amounts that the Company could be required to pay to its clients or counterparties. Historically, the Company has not been obligated to make significant payments under these indemnification clauses.

The Company has divested certain of its businesses. In connection with such divestitures, there may be lawsuits, claims and proceedings instituted against the Company related to the period that the businesses were owned by the Company or pursuant to indemnifications or guarantees provided by the Company in connection with the respective transactions. The estimated maximum potential amount of future payments under these obligations can not be determined. The Company does not expect that any sum it may have to pay in connection with these guarantees will have a materially adverse effect on its Consolidated Financial Statements.
