DUANE READE INC. REPORTS FIRST QUARTER SALES AND EARNINGS RESULTS

New York, New York, April 21, 2004 -- Duane Reade Inc. (NYSE: DRD) today reported financial results for the first quarter ended March 27, 2004.

FIRST QUARTER RESULTS

Net sales increased 4.8% to \$349.6 million, compared with \$333.6 million in the same period last year. Pharmacy sales increased 10.2% and represented 45.3% of total sales, compared with 43.1% last year. Total same-store sales increased 1.6%. Pharmacy same-store sales increased 6.6% during the quarter and front-end same-store sales declined 2.3%, largely due to declining tobacco sales in metro New York City. Excluding tobacco sales, front-end same-store sales decreased by approximately 0.6%.

Net income was \$2.7 million, or \$0.11 per diluted share, excluding pre-tax transaction costs of \$1.1 million incurred in connection with the planned acquisition by Oak Hill Capital and pre-tax labor contingency expenses of \$1.1 million associated with a previously announced National Labor Relations Board administrative law judge recommendation. Including both the transaction costs and labor contingency expenses, net income was \$1.4 million, or \$0.06 per diluted share. Net income for the first quarter of 2003 was \$3.1 million, or \$0.13 per diluted share, including a pre-tax charge of \$0.1 million representing the early retirement premium on the redemption of higher cost debt.

Gross profit margin for the quarter was 21.7%, compared to 21.0% in the comparable prior year period, reflecting improved front-end selling margins and lower shrink losses.

Selling, general and administrative expenses for the quarter amounted to \$58.6 million, or 16.8% of sales, compared to \$53.6 million, or 16.1% of sales, in the same period last year. The increase as a percentage of sales is primarily attributable to higher legal and litigation related expenses associated with certain labor issues and the Company's efforts to recover its World Trade Center business interruption insurance claim, higher promotional and advertising expenses, severance costs associated with certain administrative staff reductions and higher insurance costs.

FIFO EBITDA for the quarter amounted to \$18.8 million, or 5.4% of sales, compared to \$18.6 million, or 5.6% of sales last year. Excluding the higher litigation and severance-related expenses, FIFO EBITDA in the current year amounted to \$19.7 million, or 5.6% of sales.

Cash flow from operating activities for the quarter was \$12.2 million, or 3.5% of sales, compared to \$3.7 million, or 1.1% of sales in the prior year's first quarter. The improved cash flow from operations was primarily attributable to reductions in inventory purchases versus the previous year.

During the quarter the Company opened three new stores and closed one store, compared to seven new stores opened and three stores closed in the year ago period. Pre-opening expenses for the three new locations were \$0.2 million, compared to \$0.4 million for the seven new stores in the prior year.

Commenting on the Company's performance, Anthony J. Cuti, Chairman of the Board and Chief Executive Officer, stated, "First quarter sales and profit were impacted by a sluggish regional economy, however, recent positive trends in some leading indicators may suggest a gradual improvement. Nevertheless, Duane Reade is continuing to work on initiatives to reduce costs and strengthen its

stores' market position through improved target marketing and strategic relocations. Also, we continue to pursue our announced acquisition by Oak Hill Capital. Our preliminary proxy statement relating to the acquisition was filed on March 19, 2004, and we expect to close the transaction by the end of June."

The Company will hold a conference call on Wednesday, April 21, 2004 at 10:00 AM Eastern Time to discuss financial results for the first quarter of 2004. A live webcast of the call will be accessible from the Investor Information section of the Duane Reade website (<http://www.duanereade.com>) and the call will be archived on the website until May 5, 2004. (1) As used in this report, EBITDA means earnings before interest, income taxes, depreciation, amortization, transaction expenses, debt extinguishment costs, extraordinary charges, non-recurring charges and other non-cash items (primarily deferred rents). We believe that EBITDA, as presented, represents a useful measure of assessing the performance of our operating activities, as it reflects our earnings trends without the impact of certain non-cash and unusual charges or income. EBITDA is also used by our creditors in assessing debt covenant compliance. We understand that, although security analysts frequently use EBITDA in the evaluation of companies, it is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation. EBITDA is not intended as an alternative to cash flow provided by operating activities as a measure of liquidity, as an alternative to net income as an indicator of our operating performance, nor as an alternative to any other measure of performance in conformity with generally accepted accounting principles. A reconciliation of EBITDA to both net income and cash flow provided by operating activities is provided on the following page of this release.
