ITEM 5. OTHER EVENTS

On May 3, 2001, Exelon Corporation (the "Company") announced that it agreed to sell \$500 million of 6 3/4% Senior Notes due 2011 (the "Senior Notes"). The Senior Notes bear interest at 6 3/4% per annum, mature on May 1, 2011 and are redeemable at the option of the Company at any time at par and a make-whole premium, with accrued interest to the redemption date.

The net proceeds of the Senior Notes will be used by the Company to partially refinance a term loan due October 12, 2001. In October 2000, the Company obtained a \$1.25 billion term loan to finance the cash consideration paid to former holders of Unicom Corporation common stock in connection with the merger of Unicom Corporation and PECO Energy Company and to finance the purchase of the Company's 49.9% interest in Sithe Energies in December 2000.

The Senior Notes were offered pursuant to the Company's existing shelf registration of up to \$1.5 billion of debt securities. Certain financial information set forth below not previously included in the Company's reports

under the Securities Exchange Act of 1934 was included in the Prospectus, dated May 1, 2001, or the Prospectus Supplement, dated May 3, 2001, relating to the Senior Notes.

### RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the historical ratio of earnings to fixed charges for each of the periods indicated.

YEARS ENDED DECEMBER 31,				
1996	1997	1998	1999	2000
3.29	2.71	3.60	3.39*	2.57*

-----  
\*Corrected amount.

The ratios of earnings to fixed charges represent, on a pre-tax basis, the number of times earnings cover fixed charges. Earnings consist of net income plus fixed charges and taxes based on our income. Fixed charges consist of interest on funded indebtedness, other interest, amortization of net gain on reacquired debt and net discount on debt and the interest portion of all rentals charged to income. For the purposes of calculating these ratios, income from continuing operations (1) for 2000 does not include the extraordinary charge against income of \$6 million (\$4 million net of income taxes) or the cumulative effect of a change in accounting principle which increased income \$40 million (\$24 million net of income taxes), (2) for 1999 does not include the extraordinary charge against income of \$62 million (\$37 million net of income taxes), (3) for 1998 does not include the extraordinary charge against income of \$33 million (\$20 million net of income taxes) and (4) for 1997 does not include the extraordinary charge against income of \$3.1 billion (\$1.8 billion net of income taxes). The ratio of earnings to fixed charges reflects operations of Unicom Corporation (the former parent of ComEd) since October 20, 2000, the date of the merger.

The following table sets forth the pro forma ratio of earnings to fixed charges for each of the periods indicated. The pro forma ratios give effect to the merger with Unicom Corporation as if it occurred on January 1, 1999 and 2000, respectively.
