-

Item 2.02.

Results of Operations and Financial Condition.

On November 17, 2009, Wilhelmina International, Inc. (the “Company”) issued a press release announcing its financial results for the three and nine months ended September 30, 2009 and other financial information. A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

The press release contains information regarding Adjusted EBITDA. Adjusted EBITDA is computed as operating income (loss) before depreciation and amortization, corporate overhead at the holding company level, and transaction costs related to the Company’s acquisition of Wilhelmina International Ltd. and affiliated companies (completed on February 13, 2009). Adjusted EBITDA is a non-GAAP financial measure, defined as a numerical measure of financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with United States generally accepted accounting principles (“GAAP”) in a company’s statements of operations, balance sheets or statements of cash flows. Pursuant to the requirements of Regulation G, the Company provided a reconciliation of this non-GAAP financial measure to the most directly comparable GAAP financial measure.

Although Adjusted EBITDA represents a non-GAAP financial measure, the Company considers Adjusted EBITDA to be a key operating metric of the Company’s business, and uses Adjusted EBITDA in its planning and budgeting processes and to monitor and evaluate its financial and operating results. The Company believes that Adjusted EBITDA is useful to investors because it provides an analysis of financial and operating results using the same measure that the Company uses in evaluating itself. The Company believes that Adjusted EBITDA also provides stockholders and potential investors with a means to evaluate the Company’s financial and operating results against other companies within the Company’s industry. However, the Company’s calculation of Adjusted EBITDA may not be consistent with the calculation of this measure by other companies in the Company’s industry.

Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered as an alternative to operating income (loss) as an indicator of the Company’s operating performance or cash flows from operating activities, as a measure of liquidity or any other measure of performance derived in accordance with GAAP.

Item 7.01.

Regulation FD Disclosure.

The information contained in Item 2.02 of this Form 8-K is incorporated herein by reference.

The information furnished in this Form 8-K shall not be considered “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liability of such section, nor shall it be incorporated by reference into future filings by the Company under the Securities Act of 1933, as amended, or under the Exchange Act unless the Company expressly sets forth in such future filing that such information is to be considered “filed” or incorporated by reference therein.

Item 9.01. Financial Statements and Exhibits.
