BIGLARI HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
JULY 4, 2012
(In thousands, except share and per share data)

Note 1. General

The accompanying unaudited consolidated financial statements of Biglari Holdings Inc. (“we”, “us”, “our”, “Biglari Holdings”, or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In our opinion, all adjustments considered necessary to present fairly the results of the interim periods have been included and consist only of normal recurring adjustments. The results for the interim periods shown are not necessarily indicative of results for the entire fiscal years. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended September 28, 2011 and Quarterly Reports on Form 10-Q for the fiscal periods ended December 21, 2011 and April 11, 2012.

Biglari Holdings Inc. is a diversified holding company engaged in a number of diverse business activities. The Company is led by Sardar Biglari, Chairman and Chief Executive Officer of Biglari Holdings and its major operating subsidiaries. Our long-term objective is to maximize per-share intrinsic value of the Company. Our strategy is to reinvest cash generated from our operating subsidiaries into any investments with the objective of achieving high risk-adjusted returns. All major operating, investment, and capital allocation decisions are made for the Company and its subsidiaries by Sardar Biglari, Chairman and Chief Executive Officer.

Basis of Presentation and Consolidation

As of July 4, 2012, the consolidated financial statements include the accounts of (i) the Company, (ii) its wholly-owned subsidiaries Steak n Shake Operations, Inc. (“Steak n Shake”), Western Sizzlin Corporation (“Western”), and Biglari Capital Corp. (“Biglari Capital”), and (iii) investment related subsidiaries and limited partnerships (the “consolidated affiliated partnerships”). As a result of our acquisitions of Western and Biglari Capital during fiscal year 2010, we acquired financial interests in The Lion Fund, L.P. (the “Lion Fund”), Western Acquisitions, L.P., Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P., investment limited partnerships (collectively referred to as consolidated affiliated partnerships), for which we have a substantive controlling interest. During the first quarter of fiscal year 2011, Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P. were liquidated and the funds distributed to the partners. During the third quarter of fiscal year 2011, Western Mustang Holdings, L.L.C. sold its interests in Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P.

We consolidate entities in which we have a wholly-owned or controlling interest in the general partner. The consolidated affiliated partnerships’ assets and liabilities are consolidated on our balance sheet even though outside limited partners have majority ownership in all of the investment partnerships. We do not guarantee any of the liabilities of our subsidiaries that are serving as general partners to these consolidated affiliated partnerships. All intercompany accounts and transactions have been eliminated in consolidation.

Western’s and Biglari Capital’s June 30 quarter end for financial reporting purposes differs from the end of the Company’s fiscal quarter of July 4, 2012. There were no significant transactions in the intervening period.

Note 2. New Accounting Standards

In July 2012, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2012–02, Intangibles—Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. The revised standard is intended to reduce the cost and complexity of testing indefinite-lived intangible assets other than goodwill for impairment. It allows companies to perform a “qualitative” assessment to determine whether further impairment testing of indefinite-lived intangible assets is necessary, similar in approach to the goodwill impairment test. The amendments are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted. We do not expect the provisions of ASU 2012-02 to have a material effect on our financial position or results of operations.

In December 2011, the FASB ASU 2011–12, Comprehensive Income. The amendments in ASU 2011-12 superseded certain pending paragraphs in ASU 2011–05, Presentation of Comprehensive Income to effectively defer only those changes in ASU 2011–05 that related to the presentation of reclassification adjustments out of accumulated other comprehensive income. The requirement to report comprehensive income either in a single continuous financial statement or in two separate but consecutive financial statements will become effective in the first quarter of fiscal 2013. The adoption of ASU 2011–12 will not impact the measurement of net earnings or other comprehensive income.

Note 3. Earnings Per Share

Earnings per share of common stock is based on the weighted average number of shares outstanding during the year. For financial reporting purposes all common shares of the Company held by the consolidated affiliated partnerships are recorded in treasury stock on the consolidated balance sheet. For purposes of computing the weighted average common shares outstanding, the shares of treasury stock attributable to the unrelated limited partners of the consolidated affiliated partnerships — based on their proportional ownership during the period — are considered outstanding shares.

The following table presents a reconciliation of basic and diluted weighted average common shares.

	Twelve Weeks Ended		Forty Weeks Ended	
	July 4, 2012	July 6, 2011	July 4, 2012	July 6, 2011
Basic earnings per share:				
Weighted average common shares	1,334,339	1,331,434	1,333,880	1,328,666
Diluted earnings per share:				
Weighted average common shares	1,334,339	1,331,434	1,333,880	1,328,666
Dilutive effect of stock awards	3,199	4,819	3,319	8,185
Weighted average common and incremental shares	1,337,538	1,336,253	1,337,199	1,336,851
Number of share-based awards excluded from the calculation of earnings per share as the awards' exercise prices were greater than the average market price of the Company's common stock	705	963	705	963

Note 4. Investments

Investments consisted of the following:

	July 4, 2012	September 28, 2011
Cost	\$ 193,032	\$ 124,140
Gross unrealized gains	53,285	1,956
Gross unrealized losses	(626)	(10,775)
Fair value	\$ 245,691	\$ 115,321

On July 4, 2012, most of the Company's investments (along with gross unrealized gains) were concentrated in one security. Unrealized losses on marketable equity securities on July 4, 2012 have been in an unrealized loss for less than 12 months. A majority of the gross unrealized losses on September 28, 2011 related only to one investment. We consider several factors in determining other-than-temporary impairment losses, including the current and long-term business prospects of the issuers, the length of time and relative magnitude of the price decline, and our ability and intent to hold the investment until the price recovers.

Investment gains/losses are recognized when investments are sold (as determined on a specific identification basis) or as otherwise required by U.S. GAAP. The timing of realized gains and losses from sales can have a material effect on periodic earnings. However, such realized gains or losses usually have little, if any, impact on total shareholders' equity because the investments are carried at fair value with any unrealized gains/losses included as a component of accumulated other comprehensive income within shareholders' equity on the consolidated balance sheet.

Gross realized losses on sales	\$—	\$(11) \$(384) \$(17

Note 5. Consolidated Affiliated Partnerships

Collectively, The Lion Fund L.P., Western Acquisitions, L.P., Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P. are referred to as consolidated affiliated partnerships of the Company. Investments held directly by the consolidated affiliated partnerships usually consist of domestic equity securities. Certain of the consolidated affiliated partnerships hold the Company's common stock as investments. Within our consolidated financial statements, we classify this common stock as treasury stock despite the shares being legally outstanding. As of July 4, 2012 and September 28, 2011, the consolidated affiliated partnerships held 205,743 shares of the Company's common stock (\$69,221 at cost).

Consolidated net earnings of the Company include the realized and unrealized appreciation and depreciation of the investments held by consolidated affiliated partnerships, other than realized and unrealized appreciation and depreciation of investments the consolidated affiliated partnerships hold in the Company's equity securities, which has been eliminated in consolidation.

In fiscal year 2010, Biglari Holdings invested a total of \$35,697 in the Lion Fund, both in the form of the acquisition of the general partner and as a direct limited partner investment. The fair value of these investments in the Lion Fund totaled \$49,650 as of the end of the fiscal 2012 third quarter. No amounts were invested in the year-to-date period in fiscal year 2012 or in fiscal year 2011. These investments in the Lion Fund do not appear explicitly in our consolidated balance sheet because of the requirement to consolidate fully the Lion Fund (inclusive of third party interests) in our financial statements. Further, the Lion Fund's portfolio holds significant interests in Biglari Holdings' common stock, which as described above is classified on our consolidated balance sheet as a reduction to shareholders' equity. Biglari Holdings' pro-rata ownership of its Company common stock through the Lion Fund was 98,339 shares of stock (with a fair value of \$37,997) based on Biglari Holdings' ownership interest in the Lion Fund as of the end of the fiscal 2012 third quarter.

During the first quarter of fiscal year 2011, Mustang Capital Partners I, L.P. and Mustang Capital Partners II, L.P. were liquidated and the funds distributed to the partners. The distribution of \$15,660, including \$1,421 of noncash distributions, is noted in the distributions to noncontrolling interests line in the reconciliation below.

During the third quarter of fiscal year 2011, Western Mustang Holdings, L.L.C. sold its interests in Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. As a result of the sale, the Company does not have involvement in the operations of Mustang Capital Management, L.L.C. and Mustang Capital Advisors, L.P. Although these entities meet the definition of "discontinued operations," as defined in FASB ASC paragraph 205-20-45-1, Reporting Discontinued Operations ("ASC paragraph 205-20-45-1"), we have not separated the results of operations because the amounts are immaterial to our consolidated financial numbers. Net earnings after tax related to the entities

were approximately \$1,544 and \$2,606 for the twelve and forty weeks ended July 6, 2011, including \$0 and \$1,246, respectively, that were attributable to noncontrolling interests.

The following table summarizes the cost and fair value of the investments held by the consolidated affiliated partnerships, other than holdings of the Company's equity securities:

	July 4, 2012	September 28, 2011
Equity securities:		
Cost	\$20,596	\$19,122
Fair value	\$23,190	\$18,783

Investments held by consolidated affiliated partnerships on the consolidated balance sheet include \$902 and \$0 of cash that is only available for use by the consolidated affiliated partnerships on July 4, 2012 and September 28, 2011, respectively.

Realized investment gains/losses arise when investments are sold (as determined on a specific identification basis). The net realized gains/losses from investments held by consolidated affiliated partnerships, other than holdings of the Company's equity securities, were as follows:

	Twelve Weeks Ended		Forty Weeks Ended	
	July 4, 2012	July 6, 2011	July 4, 2012	July 6, 2011
Net unrealized gains	\$401	\$482	\$2,782	\$861
Net realized gains from sale	\$100	\$749	\$1,685	\$3,316

The limited partners of each of the investment funds have the ability to redeem their capital upon certain occurrences; therefore, the ownership of the investment funds held by the limited partners is presented as redeemable noncontrolling interests of consolidated affiliated partnerships and measured at the greater of carrying value or fair value on the consolidated balance sheet. The maximum redemption amount of the redeemable noncontrolling interests as of July 4, 2012 was \$53,651.

The following is a reconciliation of the redeemable noncontrolling interests in the consolidated affiliated partnerships.

	Forty Weeks Ended	
	July 4, 2012	July 6, 2011
Carrying value at beginning of period	\$45,252	\$62,245
Contributions from noncontrolling interests	1,534	1,018
Distributions to noncontrolling interests	(154)	(17,274)
Incentive fee	(36)	(2,510)
Income allocation	2,387	2,559
Adjustment to redeemable noncontrolling interest to reflect maximum redemption value	4,668	4,271
Carrying value at end of period	\$53,651	\$50,309

The Company, through its ownership of Biglari Capital and Western Investments Inc., is entitled to an incentive fee to the extent investment performance of the consolidated affiliated partnerships exceeds specified hurdle rates. Any such fee is included in net earnings attributable to the Company in the period in which the fee is earned.

Biglari Capital, the general partner of the Lion Fund, earned a \$36 incentive reallocation fee at December 31, 2011. At December 31, 2010, Biglari Capital earned a \$5,199 incentive reallocation fee; however, \$2,689 was eliminated, for that amount represents the Company's fee as a limited partner, uncharged because the Company owns the general partner. The remaining \$2,510 is an incentive fee that was charged and reallocated from outside limited partners of the Lion Fund. The incentive fee is assessed only once a year, on December 31, and no predictability of such earnings exists because the Lion Fund's annual performance is unpredictable.

Net earnings attributable to the Company only includes the Company's share of earnings and losses related to its investments in the consolidated affiliated partnerships; all other earnings or losses from the consolidated affiliated partnerships are allocated to the redeemable noncontrolling interests.

Note 6. Assets Held for Sale

Assets held for sale are composed of the following:

	July 4, 2012	September 28, 2011
Land and buildings	\$5,274	\$6,262
Improvements	469	608
Total assets held for sale	\$5,743	\$6,870

The July 4, 2012 balance included the following assets: one office building, four restaurants, and seven parcels of land. The Company expects to sell these properties within one year of their classification as assets held for sale. For any of these properties that are unsold within one year, we expect to reclassify them as other long-term assets.

Note 9. Goodwill and Other Intangibles

Goodwill

Goodwill consists of the excess of the purchase price over the fair value of the net assets acquired in connection with business acquisitions. There was no change to the carrying value of goodwill from September 28, 2011.

We are required to assess goodwill and any indefinite-lived intangible assets for impairment annually, or more frequently if circumstances indicate impairment may have occurred. The analysis of potential impairment of goodwill requires a two-step approach. The first step is the estimation of fair value of each reporting unit. If step one indicates that impairment potentially exists, the second step is performed to measure the amount of impairment, if any. Goodwill impairment exists when the estimated fair value of goodwill is less than its carrying value.

During the quarter ended September 28, 2011, we performed our annual assessment of the recoverability of our goodwill related to four reporting units related to our Steak n Shake operations. During the second quarter of fiscal year 2012, we performed our annual assessment of our recoverability of goodwill related to two reporting units related to our Western operations. The valuation methodology and underlying financial information included in our determination of fair value require significant judgments to be made by management. We use both market and income approaches to derive fair value. The judgments in these two approaches include, but are not limited to, comparable market multiples, long-term projections of future financial performance, and the selection of appropriate discount rates used to determine the present value of future cash flows. Changes in such estimates or the application of alternative assumptions could produce significantly different results.

Other Intangibles

Other intangibles are composed of the following:

	July 4, 2012			September 28, 2011		
	Gross carrying amount	Accumulated amortization	Total	Gross carrying amount	Accumulated amortization	Total
Right to operate	\$1,480	\$ (1,208)	\$272	\$1,480	\$ (1,117)	\$363

BIGLARI HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)
JULY 4, 2012
(In thousands, except share and per share data)

Intangible assets subject to amortization consist of franchise agreements acquired in connection with the acquisition of Western, a right to operate and favorable leases acquired in connection with prior acquisitions and are being amortized over their estimated weighted average useful lives ranging from eight to twelve years.

Amortization expense for the twelve weeks ended July 4, 2012 and July 6, 2011 was \$169 and \$186, respectively. Amortization expense for the forty weeks ended July 4, 2012 and July 6, 2011 was \$533 and \$567, respectively. Total annual amortization expense for each of the next five years will approximate \$625.

Intangible assets with indefinite lives consist of a trade name acquired in connection with the acquisition of Western and reacquired franchise rights acquired in connection with previous acquisitions.

Note 10. Other Assets

Other assets primarily include capitalized software, non-qualified plan investments, non-current portion of capitalized loan acquisition costs, and a note receivable.

Note 11. Borrowings

There were no material changes in our borrowings from September 28, 2011.

Steak n Shake's Credit Facility includes customary affirmative and negative covenants and events of default, as well as financial covenants relating to a maximum total leverage ratio and a minimum consolidated fixed charge coverage ratio.

Steak n Shake was in compliance with all covenants under the Credit Facility as of July 4, 2012.

Note 12. Other Long-term Liabilities

Other long-term liabilities include deferred rent expense, non-qualified plan obligations, deferred gain on sale-leaseback transactions, uncertain tax positions, and deferred compensation.

Note 13. Income Taxes

In determining the quarterly provision for income taxes, the Company uses an estimated annual effective tax rate which is based on expected annual income, statutory tax rates, and available tax planning opportunities in the various jurisdictions in which the Company operates. Unusual or infrequently occurring items are separately recognized in the quarter in which they occur.

Our effective income tax rate for the forty weeks ended July 4, 2012 was 25.1%, compared to the effective income tax rate of 27.1% in the same period in the prior year. The decrease in the tax rate is primarily attributable to dividends received from equity investments, which are taxed at lower rates than is the income derived from wholly owned businesses. Moreover, the reserves related to unrecognized tax benefits were released because of the expiration of statutes of limitations.

As of July 4, 2012 and September 28, 2011, we had approximately \$865 and \$1,750, respectively, of unrecognized tax benefits, which are included in other long-term liabilities in the consolidated balance sheet.

Note 14. Commitments and Contingencies

We are involved in various legal proceedings and have certain unresolved claims pending. We believe, based on examination of these matters and experiences to date, that the ultimate liability, if any, in excess of amounts already provided in the consolidated financial statements is not likely to have a material effect on our results of operations, financial position or cash flows.

Note 15. Fair Value of Financial Assets and Liabilities

The fair value framework as established in ASC paragraph 820-10-50-2 requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair values, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.
- Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The following methods and assumptions were used to determine the fair value of each class of the following assets and liabilities recorded at fair value in the consolidated balance sheet.

Cash equivalents: Cash equivalents primarily consist of money market funds. Money market funds that are carried at fair value, based on quoted market prices, are classified within Level 1 of the fair value hierarchy. All other cash equivalents carried at fair value based on observable inputs for which a quoted market price is not available are classified within Level 2 of the fair value hierarchy. Consolidated affiliated partnerships did not hold cash equivalents on July 4, 2012 and September 28, 2011.

Equity securities: The Company's investments in equity securities are carried at fair value, based on quoted market prices, and are classified within Level 1 of the fair value hierarchy.

Non-qualified deferred compensation plan investments: The assets of the Company's Non-Qualified Savings Plan are set up in a rabbi trust. They represent mutual funds that are carried at fair value, based on quoted market prices, and are classified within Level 1 of the fair value hierarchy.

Investment held by consolidated affiliated partnership: Investments of \$193 as of July 4, 2012 and September 28, 2011 have been classified within Level 3 of the fair value hierarchy and represent a private security.

Investment derivatives and interest rate swaps: Investment derivatives and interest rate swaps are marked to market each reporting period with fair value based on readily available market quotes, and are classified within Level 2 of the fair value hierarchy. Interest rate swaps on July 4, 2012 and September 28, 2011 represent the mark to market adjustment for Steak n Shake's interest rate swap.

The fair values of financial assets and liabilities were as follows:

For the year-to-date period in fiscal year 2012, we had no significant fair value adjustments applicable to items that are subject to non-recurring fair value measurement after the initial measurement date.

Note 16. Related Party Transactions

Mr. Biglari, along with his affiliates, and certain directors of the Company make investments in the Lion Fund (other than the amounts invested by the Company), which are not subject to special profits, interest allocations, or incentive allocations. However, Mr. Biglari does not pay an incentive allocation fee as a limited partner in the Lion Fund. As of July 4, 2012 and September 28, 2011, the total fair value of these investments was approximately \$2,576 and \$1,997, respectively.

The earnings presentation was adjusted from the prior year to show interest expense, excluding interest allocated to operating businesses, as a reconciliation of segments to consolidated amounts in order to more accurately reflect the earnings before and after tax of the restaurant operations.

Biglari Capital, the general partner of the Lion Fund, earned a \$36 incentive reallocation fee at December 31, 2011. At December 31, 2010, Biglari Capital earned a \$5,199 incentive reallocation fee; however, \$2,689 was eliminated, for that amount represents the Company's fee as a limited partner, which was uncharged because the Company owns the general partner. The remaining \$2,510 is an incentive fee that was charged and reallocated from outside limited partners of the Lion Fund. The incentive fee is assessed only once a year, on December 31, and no predictability of such earnings exists because the Lion Fund annual performance is unpredictable.

ITEM 2.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(In thousands, except share and per share data)

Biglari Holdings Inc. (“Biglari Holdings” or the “Company”) is a diversified holding company engaged in a number of diverse business activities. The Company is led by Sardar Biglari, Chairman and Chief Executive Officer of Biglari Holdings, Steak n Shake Operations, Inc. (“Steak n Shake”), Western Sizzlin Corporation (“Western”), and Biglari Capital Corp. (“Biglari Capital”). The Company’s long-term objective is to maximize per-share intrinsic value of the Company. The Company’s strategy is to reinvest cash generated from its operating subsidiaries into any investments with the objective of achieving high risk-adjusted returns. All major operating, investment, and capital allocation decisions are made for the Company and its subsidiaries by Sardar Biglari, Chairman and Chief Executive Officer.

In the following discussion, the term “same-store sales” refers to the sales of only those units open at least 18 months as of the beginning of the current period being discussed and which remained open through the end of the period.

Investment gains/losses in any given period will vary; therefore, for analytical purposes, management measures operating performance by analyzing earnings before realized and unrealized investment gains/losses.

Twelve Weeks Ended July 4, 2012

We recorded net earnings attributable to Biglari Holdings Inc. of \$4,853 for the third quarter of 2012, as compared with net earnings attributable to Biglari Holdings Inc. of \$8,676 in the third quarter of 2011.

Forty Weeks Ended July 4, 2012

We recorded net earnings attributable to Biglari Holdings Inc. of \$18,176 for the current year-to-date period, as compared with net earnings attributable to Biglari Holdings Inc. of \$23,784 in the same period of 2011.

As of July 4, 2012, the total number of company-operated and franchised restaurants was 588 as follows:

	Company-operated	Franchised	Total
Steak n Shake	414	82	496
Western	5	87	92
Total	419	169	588

In the third quarter of 2012, Steak n Shake opened four franchised units and closed one. During the current year-to-date period, Steak n Shake opened seven franchised units and one company-operated unit but closed one franchised unit. During the third quarter of 2012, one Western Sizzlin franchised unit was closed, and no franchised units were opened. For the current year-to-date period, five Western Sizzlin franchised units were closed and three franchised units were opened.

Critical Accounting Policies

Management’s discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. Certain accounting policies require management to make estimates and judgments concerning transactions that will be settled several years in the future. Amounts recognized in our financial statements from such estimates are necessarily based on numerous assumptions involving varying and potentially significant degrees of judgment and uncertainty. Accordingly, the amounts currently reflected in our financial statements will likely increase or decrease in the future as additional information becomes available. There have been no material changes to the critical accounting policies previously disclosed in our Annual Report on Form 10-K for the year ended September 28,

2011.

Net Sales

In the third quarter of 2012, net sales increased 3.1% from \$166,893 to \$172,128 primarily because of the performance of our Restaurant Operations, mainly through the increase in Steak n Shake's same-store sales. Steak n Shake's same-store sales increased 2.9% during the third quarter of 2012. The increase in same-store sales resulted from an increment in customer traffic of 2.2%.

Franchise fees increased 19.9% during the third quarter of 2012. The number of franchised units was 169 on July 4, 2012 as compared to 164 on July 6, 2011. The increase in franchise fees is primarily attributable to the openings of franchised units in the third quarter of 2012 compared to the absence of openings in the third quarter of 2011. Furthermore, franchisee sales were higher in the third quarter of 2012 as compared with the third quarter of 2011.

Costs and Expenses

Cost of sales was \$49,812 or 28.9% of net sales, compared with \$48,144 or 28.8% of net sales in the third quarter of 2011. The increase in expenses created primarily by inflationary pressures on commodities was offset by the benefit of certain cost-saving initiatives.

Restaurant operating costs were \$81,326 or 47.2% of net sales compared to \$78,317 or 46.9% of net sales in the third quarter of 2011. Restaurant operating costs were higher because of changes in the state unemployment tax rates, higher staffing in our stores, and unfavorable development of prior-year cases in workers compensation and general liability.

General and administrative expenses increased from \$12,082 or 7.1% of total net revenues in the third quarter of 2011 to \$15,006 or 8.5% of total net revenues because of our significant efforts to franchise the Steak n Shake concept, higher incentive compensation costs, and an increase in legal and professional expenses.

Marketing expense was \$11,666 or 6.6% of total net revenues versus \$10,031 or 5.9% of total net revenues in the third quarter of 2011, principally attributable to an increase in marketing efforts and higher production costs associated with our television commercials.

Other operating income decreased to \$149 compared to \$1,659 for the third quarter of 2011. The decrease primarily related to the change in value of a purchase obligation of \$1,558 which was relieved upon the sale of Mustang Capital Management L.L.C. and Mustang Capital Advisors, L.P in the third quarter of 2011.

Other Income (Expenses)

We recorded interest, dividend and other investment income of \$1,003 mostly through accruing dividends pertinent to one investment versus \$86 recorded in the third quarter of 2011.

Interest expense increased from \$602 for the third quarter of 2011 to \$1,812 for the current quarter. The increase primarily pertained to the interest on Steak n Shake's credit facility. The outstanding debt on the Steak n Shake credit facility on July 4, 2012 was \$116,750, which included the revolver. The interest rate on the Steak n Shake credit facility increased from 1.8% on July 6, 2011 to a blended rate of 5.3% on July 4, 2012. The total outstanding debt for the Company on July 4, 2012 was \$119,179 compared to \$42,599 on July 6, 2011.

Income tax expense decreased from an expense of \$1,836 in the third quarter of 2011 to a benefit of \$17 for the current quarter. The decrease in the tax expense is primarily attributable to dividends received from equity investments, which are taxed at lower rates than is the income derived from wholly owned businesses. Moreover, the reserves related to unrecognized tax benefits were released because of the expiration of statutes of limitations.

Biglari Holdings Investment Gains

We recorded net realized investment gains of \$227 for the current quarter related to dispositions of marketable equity securities compared to \$1,433 in the third quarter of 2011. We also recorded \$499 of investment losses related to the change in fair value of derivatives during the third quarter of 2011. We directly hold these investments, not our consolidated affiliated partnerships.

Consolidated Affiliated Partnerships Investment Gains

In the third quarter of 2012, investment gains of consolidated affiliated partnerships decreased from \$1,231 to \$501. We recorded a net realized gain of \$100 for the current quarter related to dispositions of investments held by our consolidated affiliated partnerships, plus an unrealized net investment gain of \$401 for a total of \$501. These totals were offset by \$150 connected to earnings attributable to redeemable noncontrolling interests. During the third quarter of 2011, we recorded a net realized gain of \$749 related to dispositions of investments held by our consolidated affiliated partnerships as well as an unrealized net investment gain of \$482 for a total of \$1,231. However, these amounts were offset by \$639 related to earnings attributable to redeemable noncontrolling interests.

Index

Comparison of Forty Weeks Ended July 4, 2012 to Forty Weeks Ended July 6, 2011

Net Earnings Attributable to Biglari Holdings Inc.

We recorded net earnings attributable to Biglari Holdings Inc. of \$18,176, or \$13.59 per diluted share, for the current year-to-date period, as compared with net earnings attributable to Biglari Holdings Inc. of \$23,784, or \$17.79 per diluted share, for the same period of 2011.

Net Sales

Net sales increased 4.6% from \$527,848 to \$552,002 primarily because of the performance of our Restaurant Operations, through the growth in Steak n Shake's same-store sales. Steak n Shake's same-store sales increased 4.4%. The increase in same-store sales resulted from an increment in customer traffic of 4.4%.

Franchise fees increased 12.6% largely because of higher franchisee sales. Restaurant Operations opened ten franchised units and closed six franchised ones during the 2012 year-to-date period. However, Restaurant Operations opened four franchised units during the prior year's comparable period.

Costs and Expenses

Cost of sales was \$158,508 or 28.7% of net sales, compared with \$146,967 or 27.8% of net sales in the same period of 2011. This increase in percentage of net sales was created primarily by inflationary pressures on commodities.

Restaurant operating costs were \$258,096 or 46.8% of net sales compared to \$253,646 or 48.1% of net sales in the same period of 2011. Restaurant operating costs were increased by changes in the state unemployment tax rates, higher staffing in our stores, and unfavorable development of prior-year cases in workers compensation and general liability. These increases in costs were offset by the implementation of several operating initiatives, which have generated higher productivity and labor efficiency.

General and administrative expenses increased from \$37,691 or 7.0% of total net revenues in the prior year-to-date period of 2011 to \$48,118 or 8.5% of total net revenues because of our efforts to franchise the Steak n Shake concept, higher incentive compensation costs and an increase in legal and professional services.

Marketing expense for the current year-to-date period was \$31,943 or 5.6% of total net revenues versus \$29,762 or 5.5% of total net revenues in the same period of 2011, primarily attributable to an increase in marketing efforts and higher production costs associated with our television commercials.

Other operating income for the current year-to-date period was \$793 compared to \$894 for the same period of 2011. Other operating income for the prior year-to-date period included \$1,558 related to the change in value of a purchase obligation which was relieved upon the sale of Mustang Capital Management, L.L.C and Mustang Capital Advisors, L.P. in the third quarter of 2011.

Other Income (Expenses)

We recorded interest, dividend and other investment income of \$2,405 mostly through accruing dividends pertinent to one investment versus \$239 recorded in the same period of 2011.

Interest expense increased from \$2,034 from the prior year-to-date period to \$6,200 for the 2012 year-to-date period. The increase primarily pertained to the interest on Steak n Shake's credit facility. The outstanding debt on the Steak n Shake credit facility on July 4, 2012 was \$116,750, which included the revolving credit line. The interest rate on the Steak n Shake credit facility increased from 1.8% on July 6, 2011 to a blended rate of 5.3% on July 4, 2012. The total outstanding debt for the Company on July 4, 2012 was \$119,179 compared to \$42,599 on July 6, 2011.

Our effective income tax rate for the forty weeks ended July 4, 2012 was 25.1%, compared with our effective income tax rate of 27.1% in the same period in the prior year. The decrease in the tax rate is primarily attributable to dividends received from equity investments, which are taxed at lower rates than is the income derived from wholly owned businesses.

Index

Biglari Holdings Investment Gains

We recorded net realized investment gains of \$4,200 for the current year-to-date period related to dispositions of marketable equity securities. We recorded \$4,677 of net realized gains on investments and \$292 of investment losses related to the change in fair value of derivatives and dispositions during the same period of 2011. We directly hold these investments, not our consolidated affiliated partnerships.

Consolidated Affiliated Partnerships Investment Gains

In the current year-to-date period, investment gains of consolidated affiliated partnerships increased 6.9% from \$4,177 to \$4,467. We recorded a net realized gain of \$1,685 for the current year-to-date period related to dispositions of investments held by our consolidated affiliated partnerships, plus an unrealized net investment gain of \$2,782 for a total of \$4,467. We also received an incentive fee of \$36. These totals were offset by \$2,387 connected to earnings attributable to redeemable noncontrolling interests. During the same period of 2011, we recorded a net realized gain of \$3,316 related to dispositions of investments held by our consolidated affiliated partnerships as well as an unrealized net investment gain of \$861 for a total of \$4,177. We also received an incentive fee of \$2,510. However, these amounts were offset by \$2,559 related to earnings attributable to redeemable noncontrolling interests.

Consolidated Affiliated Partnerships

Investments held directly by the consolidated affiliated partnerships usually consist of domestic equity securities. Certain of the consolidated affiliated partnerships hold the Company's common stock as investments. In our consolidated financial statements, we classify this common stock as treasury stock despite the shares being legally outstanding. As of July 4, 2012 and September 28, 2011, the consolidated affiliated partnerships held 205,743 shares of the Company's common stock (\$69,221 at cost).

In fiscal year 2010, Biglari Holdings invested a total of \$35,697 in the Lion Fund, both in the form of the acquisition of the general partner and as a direct limited partner investment. The fair value of these investments in the Lion Fund totaled \$49,650 as of the end of the fiscal 2012 third quarter. These investments in the Lion Fund do not appear explicitly in our consolidated balance sheet because of the requirement to consolidate fully the Lion Fund (inclusive of third party interests) in our financial statements. Further, the Lion Fund's portfolio holds a significant interest in Biglari Holdings' common stock, which is classified on our consolidated balance sheet as a reduction to shareholders' equity. Biglari Holdings' pro-rata ownership of its Company common stock through the Lion Fund was 98,339 shares of stock (with a fair value of \$37,997) based on Biglari Holdings' ownership interest in the Lion Fund as of the end of the fiscal 2012 third quarter.

Liquidity and Capital Resources

We generated \$34,656 in cash flows from operations during the current year-to-date period as compared to \$49,820 during the same period of 2011. In part, the decrease resulted from the investment activities of the consolidated affiliated partnerships, including a \$6,016 decrease in the change in the due from broker and cash equivalents balance held by the consolidated affiliated partnerships. Additionally, net purchases and sales activities of the consolidated affiliated partnerships reduced from \$2,544 to \$60 during the same period of 2011.

Net cash used in investing activities during the current year-to-date period was \$76,221 compared to \$65,743 during the same period of 2011. The decline primarily resulted from a \$12,500 decrease in the change in the due from broker balance compared to the same period of 2011. Additionally, reduced sales of investments partially offset a smaller decrease in purchases of investments during the current year-to-date period of 2012.

Net cash used in financing activities during the current year-to-date period was \$10,951 compared to net cash used in financing activities of \$14,319 during the same period of 2011. Net cash used in financing activities during the current year primarily related to principal payments on Steak n Shake's credit facility, which were issued during the fourth quarter of 2011. Cash used for financing during 2011 primarily resulted from the consolidated affiliated

partnerships' distributions to noncontrolling interests.

Our balance sheet continues to maintain significant liquidity. We intend to meet the working capital needs of our operating subsidiaries principally through anticipated cash flows generated from operations, existing credit facilities and the sale of excess properties and investments. We continually review available financing alternatives.

Steak n Shake Credit Facility

Steak n Shake's Credit Facility includes customary affirmative and negative covenants and events of default as well as financial covenants relating to a maximum total leverage ratio and a minimum consolidated fixed charge coverage ratio.

Steak n Shake was in compliance with all financial covenants under the Credit Facility as of July 4, 2012.

New Accounting Standards

Refer to Note 2 in our Notes to Consolidated Financial Statements within Item 1 of Part I of this Quarterly Report on Form 10-Q.

Effects of Governmental Regulations and Inflation

Most employees are paid hourly rates related to federal and state minimum wage laws. Any increase in the legal minimum wage would directly increase the Company's operating costs. The Company is also subject to various federal, state and local laws related to zoning, land use, safety standards, working conditions, and accessibility standards. Any changes in these laws that require improvements to its restaurants would increase operating costs. In addition, the Company is subject to franchise registration requirements and certain related federal and state laws regarding franchise operations. Any changes in these laws could affect its ability to attract and retain franchisees.

Inflation in food, labor, fringe benefits, energy costs, transportation costs, and other operating costs also directly affect our restaurant operations.

Risks Associated with Forward-Looking Statements

This report includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In general, forward-looking statements include estimates of future revenues, cash flows, capital expenditures, or other financial items, and assumptions underlying any of the foregoing. Forward-looking statements reflect management's current expectations regarding future events and use words such as "anticipate," "believe," "expect," "may," and other similar terminology. A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. Investors should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. These forward-looking statements are all based on currently available operating, financial, and competitive information and are subject to various risks and uncertainties. Our actual future results and trends may differ materially depending on a variety of factors, many beyond our control, including, but not limited to:

- the ability of the restaurant operations to increase store traffic on a profitable basis;
- competition in the restaurant industry for customers, staff, locations, and new products;
 - disruptions in the overall economy and the financial markets;
- the Company's ability to comply with the restrictions and covenants to its debt agreements;
- declines in the market price of our common stock, which could adversely affect our goodwill impairment analysis;
 - the potential to recognize additional impairment charges on our long-lived assets;
- fluctuations in food commodity and energy prices and the availability of food commodities;
 - the ability of our franchisees to operate profitable restaurants;
 - the poor performance or closing of even a small number of restaurants;
 - changes in customer preferences, tastes, and dietary habits;
- changes in minimum wage rates and the availability and cost of qualified personnel;
 - harsh weather conditions or losses due to casualties;
 - unfavorable publicity relating to food safety or food-borne illness;
- exposure to liabilities related to the ownership and leasing of significant amounts of real estate;
 - our ability to comply with existing and future governmental regulations;
- our ability to adequately protect our trademarks, service marks, and other components of our brand;
 - changes in market prices of our investments; and
- other risks identified in the periodic reports we file with the Securities and Exchange Commission.

Accordingly, such forward-looking statements do not purport to be predictions of future events or circumstances and may not be realized. Additional risks and uncertainties not currently known to us or that are currently deemed immaterial may also become important factors that may harm our business, financial condition, results of operations

or cash flows. We assume no obligation to update forward-looking statements except as required in our periodic reports.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our investments are generally concentrated in common stocks. On July 4, 2012, most of our investments are in the common stock of one entity. A significant decline in the general stock market or in the price of major investments may produce a large decrease in our consolidated shareholders' equity and under certain circumstances may require the recognition of losses in the consolidated statement of earnings. Decreases in values of equity investments can have a material adverse effect on our consolidated shareholders' equity.

On July 4, 2012 interest on the term loan under Steak n Shake's Credit Facility was based on a base rate or Eurodollar rate plus an applicable margin of 3.5% and 4.5%, respectively. Interest on the revolver under Steak n Shake's Credit Facility was based on a base rate or Eurodollar rate plus an applicable margin ranging from 2.0% to 2.5% and 3.0% to 3.5%, respectively, based on Steak n Shake's total leverage ratio. On July 4, 2012, a hypothetical 100 basis point increase in short-term interest rates would have an impact of approximately \$724 on our annual net earnings. In February 2011, in connection with the issuance of the term loan under Steak n Shake's previous credit facility, Steak n Shake entered into an interest rate swap agreement with the lender for a notional amount of \$20,000, which effectively fixed the interest rate on the term loan at 3.25% through its maturity. The fair value of the interest rate swap was a loss of \$356 on July 4, 2012.

We do not have exposure to foreign currency exchange rate fluctuations, as we do not transact business in international markets and are not a party to any material non-U.S. dollar denominated contracts.

ITEM 4. CONTROLS AND PROCEDURES

Based on an evaluation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15 (e)), our Chief Executive Officer and Controller have concluded that our disclosure controls and procedures were effective as of July 4, 2012.

There have been no changes in our internal control over financial reporting that occurred during the quarter ended July 4, 2012 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1A. RISK FACTORS

An investment in the common stock of any company involves a degree of risk. Investors should consider carefully the risks and uncertainties described in the Company's Annual Report on Form 10-K filed with the SEC, and those other risks described elsewhere in this report, before deciding whether to purchase our common stock. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also become important factors that may harm the Company's business, financial condition, and results of operations. The occurrence of risk factors could harm the Company's business, financial condition, and results of operations. The trading price of the Company's common stock could decline due to any of these risks and uncertainties, and stockholders may lose part or all of their investment.

There have been no material changes in the risk factors described in the Company's Annual Report on Form 10-K for the year ended September 28, 2011.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth the purchases made during the quarter ended July 4, 2012 by or on behalf of the Company or an affiliated purchaser of shares of our common stock registered pursuant to Section 12 of the Exchange Act:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
April 12 through May 9	19	\$ 408.71	—	—
May 10 through June 6	—	—	—	—
June 7 through July 4	—	—	—	—
Total	19	\$ 408.71	—	—

The shares indicated consist of shares tendered by employees to the Company during the quarter ended July 4, 2012 to pay for the taxes on the exercise of non-qualified stock options. The price paid for shares repurchased by the Company is based on the closing share price over the five day period prior to the transaction.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES
