o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e -4(c))

ITEM 8.01 OTHER EVENTS.

On May 14, 2008 REGI US, INC. (“REGI”) filed a Current Report on Form 8-K pursuant to Item 8.01 regarding the entry into an agreement with a Fortune 1000 company (“Company”) to evaluate the RadMax® technology. The agreement covers the evaluation of RadMax® technology by the Company and REGI to determine if the RadMax® technology meets the Company’s requirements for certain commercial and military market applications.

REGI granted the Company an option for a period of 90 days after the completion of the evaluation period to execute a Letter of Intent to exclusively license REGI’s Rotary Engine IP on reasonable commercial terms for certain commercial and military markets.

REGI also granted the Company the option, for a period of 12 months after the completion of the evaluation period, to execute a Letter of Intent to non-exclusively license REGI's Rotary Engine IP on reasonable commercial terms for certain commercial and military markets.

On April 9, 2009 we announced that REGI and the Company amended the evaluation agreement, for the development of the diesel engine RadMax® solely to extend the termination date to December 31, 2009. The agreement previously terminated on April 30, 2009. The detail design of the RadMax® diesel engine application is under final review by our engineers, and the engineers of the Fortune 1000 Company.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

99.1 Press Release of REGI U.S., Inc. dated April 9, 2009.
