Notes to the Unaudited Condensed Interim Consolidated Financial Statements

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for the publication in Argentina

1. The Group's business and general information

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA", "the Company", "Us" or "the Society") was founded in 1943 and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

As of September 30, 2014, the Group operates in six business segments. See Note 6 to the Consolidated Financial Statements as of June 30, 2014 for a description of such segments.

The group's real estate business operations are conducted primarily through IRSA and IRSA's principal subsidiary, Alto Palermo S.A. ("APSA"). Through APSA and IRSA, the Group owns, manages and develops shopping centers across Argentina, a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, and it entered the US real estate market in 2009, mainly through the acquisition of non-controlling interests in office buildings and hotels. Through IRSA or APSA, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these consolidated financial statements to denote investment, development and/or trading properties activities.

During fiscal year 2014, the Group made an investment in the Israeli market, through Dolphin, in IDB Development Corporation (IDBD) (an Israeli Company), of an initial interest of 26.65%. As of September 30, 2014, the equity interest in IDBD amounts to a non-diluted 28.99% and a fully-diluted 31.37%. IDBD is one of the Israeli biggest and most diversified investment groups, which is involved, through its subsidiaries, in several markets and industry, including real estate, retail, agribusiness insurance, telecommunications, etc.; controlling companies as: Clal Insurance (Insurance Company), Cellcom (Mobile phone services), Adama (Agrochemicals), Super-Sol (supermarket), PBC (Real Estate), among others. IDBD went public in Tel Aviv Exchange in May, 2014.

The activities of the Group's segment "Financial operations and others" is carried out mainly through Banco Hipotecario S.A. ("BHSA"), where we have a 29.77% interest (without considering treasury shares of our own). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the Buenos Aires Stock Exchange ("BASE"). Besides that, the Group has a 42.95% interest in Tarshop S.A ("Tarshop"), which main activities are credit card and loan origination transactions.

1. The Group's business and general information (Continued)

IRSA's shares are listed and traded on both the BASE and the New York Stock Exchange ("NYSE"). APISA's shares are listed and traded on both the BASE and the NASDAQ.

Cresud S.A.C.I.F y A. is our ultimate parent company and is a corporation incorporated and domiciled in Argentina. The address of its registered office is 877 Moreno St. Floor 23, Autonomous City of Buenos Aires, Argentina.

These Unaudited Condensed Interim Consolidated Financial Statements have been approved for issue by the Board of Directors on November 11, 2014.

2. Basis of preparation of the Unaudited Condensed Interim Consolidated Financial Statements

2.1. Basis of preparation

These Unaudited Condensed Interim Consolidated Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting". Furthermore, some additional issues were included as required by the Business Companies Act and/or regulations of the CNV, including supplementary information provided in the last paragraph of section 1, Chapter III, Title IV of General Ruling 622/13 of the CNV. Such information is included in the Notes to the Unaudited Condensed Consolidated Interim Financial Statements.

These Unaudited Condensed Interim Consolidated Financial Statements should be read together with the Annual Consolidated Financial Statements of the Group as of June 30, 2014 prepared in accordance with IFRS in force. These Unaudited Condensed Interim Consolidated Financial Statements are presented in thousands of Argentine Pesos.

These Unaudited Condensed Interim Consolidated Financial Statements corresponding to the three-month periods ended September 30, 2014 and 2013 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. The Company's three-month periods ended September 30, 2014 and 2013 results do not necessarily reflect the proportion of the Group's full-year results.

2.2. Significant accounting policies

The principal accounting policies applied in the presentation of these Unaudited Condensed Interim Consolidated Financial Statements are consistent with those applied in the preparation of the information under IFRS as of June 30, 2014, which are described in Note 2 of the Annual Consolidated Financial Statements.

2. Basis of preparation of the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Consolidated Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the Annual Consolidated Financial Statements for the year ended June 30, 2014, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

2.4. Comparative Information

Balance items as of September 30, 2013 and June 30, 2014 shown in these financial statements for comparative purposes arise from Consolidated Financial Statements then ended. Certain reclassifications have been made in order to present figures comparatively with those of this period.

During the last twelve months, the Argentine Peso devalued against the US\$ and other currencies by around 50%, which has an impact in comparative information presented in these Financial Statements, due mainly to the currency exposure of our income from offices rental, and our net assets and liabilities in foreign currency as detailed in Note 38.

3. Seasonal effects on operations

The operations of the Group's shopping centers are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and year-end holidays (December) when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations.

4. Acquisitions and dispositions

For the three-month period ended as of September 30, 2014

Sale of investment properties

On July 7, 2014, IRSA signed the transfer deed for the sale of the 19th and 20th floors of the building Maipú 1300. The total price of the transaction was Ps. 24.7 million (US\$ 3.0 million). Such transaction generated a gain before tax of approximately Ps. 21.0 million.

On September 29, 2014, the Group through its subsidiary Rigby 183 LLC (“Rigby 183”), finalized the sale of the Madison 183 Building, located in the city of New York, United States, in the sum of US\$ 185 million, thus paying off the mortgage levied on the asset in the amount of US\$ 75 million.

Decreased shareholding in Avenida Inc.

Even though on July 18, 2014, the Group – through Torodur S.A. - had increased its share in Avenida Inc. by exercising the warrant held, the Group’s indirect holding was reduced to 23.01% as a result of the acquisition of 35.12% interest in the Company by a new investor in the amount of Ps. 120.9 million (US\$ 15 million).

6. Segment information (Continued)

Operating results of Joint ventures operations from Cyrsa S.A., Nuevo Puerto Santa Fe S.A. ("NPSF"), Puerto Retiro S.A., Baicom Networks S.A. and Quality Invest S.A. are presented under the method of proportionate consolidation. Under this method, the income/loss generated by joint businesses is reported in the income statements line-by-line, rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return, because the assets and income/loss generated by consolidated operations are similar to the assets and income/loss booked under the equity method. This is due to the fact that under the proportional consolidation method, revenues and expenses are reported separately, instead of offsetting and reporting them as a single item in the statement of income. Therefore, the proportional consolidation method is used by the Group's Executive Committee to assess and understand the return and the results of operations of the business as a whole. On the other hand, operating results of Entertainment Holding S.A. ("EHSA") joint venture is accounted for under the equity method. Management believes that, in this case, this method provides more adequate information for this type of investment, given its low materiality and considering it is a company without direct trade operations, where the main assets consists of an indirect interest of 25% of la Rural S.A..

The following tables present a reconciliation between the total results of segment operations and the results of operations as per the statements of income. The adjustments relate to the presentation of the results of operations of joint ventures accounted for under the equity method under IFRS and the non-elimination of the inter-segment transactions.

On the other hand, the purchase agreement provides that DN B.V. and ETH shall jointly and severally pay to creditors who participated in the restructuring arrangement indicated above the additional sum of NIS 100 million (equal approximately to US\$ 27.1 million at the exchange rate prevailing on September 30, 2014), in the event that IDBD executes the sale of its equity interest in the subsidiary Clal Insurance Enterprises Holdings Ltd. before December 31, 2014 and provided that: (i) the sale price shall not be lower than NIS 4,200 million (equal to approximately US\$ 1,140.4 million at the exchange rate prevailing on September 30, 2014) and (ii) the transaction is closed before June 30, 2015, provided that IDBD has received by the latter date a payment of at least NIS 1,344 million (gross) (equal to approximately US\$ 364.9 million at the exchange rate prevailing on September 30, 2014). As of the date of issuance of these financial statements, none of the mentioned conditions have been fulfilled.

On May 12, 2014, the shares of IDBD started to trade in the Tel Aviv Stock Exchange, Israel; as a result, all of the shares (including pledged shares) were held in trust at Bank Leumi Le-Israel to secure compliance with lock-up provisions of Chapter D of the Tel Aviv Stock Exchange Rules, whereby shares listed under an IPO (initial public offering) may not be freely disposed of for a term of 18 months, which are then released at a rate of 2.5% per month beginning on the fourth month of the IPO date.

Hence, in accordance with Tel Aviv Rules applicable as of September 30, 2014, 51,095,676 shares and 335,715 warrants of each of the Series 1, 2 and 3 were still subject to lock-up provisions under the terms described above.

On October 31, 2014 the Bank was notified of Ruling 685 dated October 29, 2014 issued by the Superintendency of Financial Entities and Exchange Offices in proceedings conducted pursuant to Financial Investigation Case Number 1320, whereby the Bank and its officers were charged with alleged infringements to rulings on assistance to Non-Financial Public Sector, excess credit risk exposure to non-financial public sector, excess collateralization, failure to comply with minimum capital requirements and objections to the accounting treatment afforded to the transaction “Cer Swap Linked to PG08 and External Debt”; and moreover, delays in communicating the appointment of new members of the board and to file documentation related to new members of the board designated by the Shareholders’ Meetings.

Such a ruling assessed a fine in the amount of Ps. 4.04 million to Banco Hipotecario S.A. and fines of diverse amounts to incumbent and former members of the Board, statutory auditors and managers.

The Bank, its incumbent and former directors, statutory auditors and managers intend to file an appeal against such decision with the National Court of Appeals in Administrative Litigation Matters.

The following amounts have been recognized in the statement of income:

	September 30, 2014	September 30, 2013
Rental and service income	688,439	544,050
Direct operating expenses	(284,463)	(240,945)
Gain from disposal of investment property	317,486	-

Properties under development mainly comprise works in Shopping Neuquén S.A. (Alto Comahue) and Arcos del Gourmet S.A. (Distrito Arcos). As of September 30, 2014 and June 30, 2014 works in Alto Comahue amount to Ps. 177,903 and Ps. 126,799, respectively. Works in Distrito Arcos as of September 30, 2014 and June 30, 2014 amount to Ps. 237,177 and Ps. 236,202, respectively.

As of September 30, 2014 contractual obligations mainly correspond to constructions regarding to both projects. In Alto Comahue contractual obligations amount to Ps. 205 million and the project is expected to be completed in March, 2015. In respect of Distrito Arcos, on December 10, 2013, the Judicial Branch confirmed an injunction order that suspends the opening of the shopping center on the grounds that it does not have certain governmental permits. Even though the construction has all regulatory permits in place, the Company is carrying out specific actions, has challenged the ruling, and has requested that the injunction be lifted and has reasonable expectations of a favorable result. On April 1, 2014, the government of the Autonomous City of Buenos Aires granted a new environmental clearing certificate.

On the other hand, in one of the two judicial processes (amparos – actions intended to protect constitutional rights) currently being heard, “Charlon, Marcelo Alejandro and others VS. GCBA on/ amparo”, the Court of Appeals referred to above confirmed the decision rendered by the lower court whereby the action was abated, as per notice served upon us on September 1, 2014. This means the process has concluded with the decision being favorable to us.

As to the other process entitled “Federación de Comercio e Industria de la Ciudad de Buenos Aires (FECOBA) and others vs. GCBA on amparo”, on August 29, 2014 the lower court rendered a decision rejecting the case.

This judgment was appealed and following the corresponding service of notices between the parties, the record of proceedings was submitted to the Court of Appeals in September 2014. Following the corresponding notification of the Court’s Prosecutor, the record of proceedings was docketed for a decision on October 8, 2014. No decision has yet been rendered by the Court as of the balance sheet date.

15. Financial instruments by category

Determination of fair values

IFRS 9 defines the fair value of a financial instrument as the amount for which an asset could be exchanged, or a financial liability settled, between knowledgeable, willing parties in an arm's length transaction. All financial instruments recognized at fair value are allocated to one of the valuation hierarchy levels of IFRS 7. This valuation hierarchy provides for three levels.

In the case of Level 1, valuation is based on quoted prices in active markets for identical financial assets or liabilities that the Group can refer to at the date of ended. A market is deemed active if transactions take place with sufficient frequency and in sufficient quantity for price information to be available on an ongoing basis. Since a quoted price in an active market is the most reliable indicator of fair value, this should always be used if available. The financial instruments the Group has allocated to this level mainly comprise equity investments, mutual funds and mortgage bonds for which quoted prices in active markets are available. In the case of securities, the Group allocates them to this level when either a stock market price is available or prices are provided by a price quotation on the basis of actual market transactions.

In the case of Level 2, fair value is determined by using valuation methods based on inputs directly or indirectly observable in the market. If the financial instrument concerned has a fixed contract period, the inputs used for valuation must be observable for the whole of this period. The financial instruments the Group has allocated to this level mainly comprise interest rate swaps and foreign currency contracts.

15. Financial instruments by category (Continued)

In the case of Level 3, the Group uses valuation techniques not based on inputs observable in the market. This is only permissible insofar as no market data are available. The inputs used reflect the Group's assumptions regarding the factors which market players would consider in their pricing. The Group uses the best available information for this, including internal company data. The Group has allocated to this level shares and warrants of Supertel and the call option of Arcos del Gourmet S.A. (with a fair value of zero at the end of the period).

The Group's Finance Division has a team in place in charge of estimating valuation of financial assets required to be reported in the financial statements, including the fair value of Level-3 instruments. The team directly reports to the Chief Financial Officer (CFO).

The CFO and the valuation team discuss the valuation methods and results upon the acquisition of an asset and, if necessary, on a quarterly basis, in line with the Group's quarterly reports.

According to the Group's policy, transfers among the several categories of valuation tiers are recognized when occurred, or when there are changes in the prevailing circumstances requiring the transfer.

15. Financial instruments by category (Continued)

Upon initial recognition (January, 2012), the consideration paid for the Shares and Warrants of Supertel was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair values of these instruments exceeded the price of the transaction and were assessed using a valuation method that incorporates unobservable market data. Given the fact that the fair value of these instruments was estimated by applying the mentioned method, the Group did not recognize a gain of US\$ 7.9 million at the time of initial recognition. As of June 30, 2014, the fair value of the Warrants of Supertel determined using the mentioned technique was minor than the gain not recognized at the time of initial recognition; remaining thus the Warrants remain valued at an amount of zero.

According to Group estimates, all things being constant, a 10% decline in the price of the underlying assets of Shares and Warrants of Supertel (data observed in the market) of Level 3 as of September 30, 2014, would reduce pre-tax income by Ps. 35 million.

According to Group estimates, all things being constant, a 10% increase in the credit spread (data which is not observable in the market) of the Shares and Warrants of Supertel used in the valuation model applied to Level 3 financial instruments as of September 30, 2014, would reduce pre-tax income by Ps. 0.06 million. The rate used as of September 30, 2014 was 14.02%.

When no quoted prices in an active market are available, fair values (particularly with derivatives) are based on recognized valuation methods. The Group uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model	Pricing method	Parameters	Range

25. Taxes

The details of the provision for the Group's income tax, is as follows:

	September 30, 2014	September 30, 2013
Current income tax	261,384	(73,016)
Minimum Presumed Income tax (MPIT)	807	-
Deferred income tax	(85,860)	60,068
Income tax	176,331	(12,948)

The gross movement on the deferred income tax account is as follows:

	September 30, 2014	June 30, 2014
Beginning of the period / year	23,034	(310,700)
Cumulative translation adjustment	(1,233)	(17,948)
Reclassified to assets held for sale	(33,346)	33,346
Income tax expense and deferred income tax	85,860	318,336
End of period / year	74,315	23,034

The Group did not recognize deferred income tax assets of Ps. 23 million and Ps. 22.9 million as of September 30, 2014 and June 30, 2014, respectively. Although management believes that it will become profitable in the foreseeable future, as a result of the history of recent losses incurred during the development phase of the different Group's business operations and the lack of verifiable and objective evidence due to the limited operating history of the Group itself, the Board of Directors has determined that there is sufficient uncertainty as to the generation of sufficient income to utilize the losses within a reasonable timeframe, therefore, no deferred tax asset is recognized in relation to these losses.

Below is a reconciliation between income tax recognized and that which would result applying the prevailing tax rate on Profit before income tax for the three-month periods ended September 30, 2014 and 2013:

	September 30, 2014	September 30, 2013

39. Group of assets and liabilities held for sale

Assets and liabilities related to the operation of the building located in 183 Madison Av., NY, United States, owned by the subsidiary of the Group, Rigby 183 LLC, and that form part of the international business segment, have been reported in the balance sheet as of June 30, 2014 as available for sale as per the contract for the sale of the building entered into on May 16, 2014. The transaction is subject to compliance with certain conditions which were complied during September 2014. Once conditions are met, the company should leave the amount of US\$ 1 million in escrow for six months, because of possible latent defects.

Pursuant to IFRS 5, assets and liabilities available for sale have been valued at the lower of their book value or fair value less selling cost. Since fair value is higher than book value of the pool of assets available for sale including some goodwill related to the acquisition, no impairment has been recorded as of June 30, 2014.

The following table shows the main assets and liabilities available for sale:

Assets held for sale

	06.30.14
Investment properties	1,098,990
Intangible assets – Goodwill	77,086
Restricted assets	163,501
Trade and other receivables	17,990
Derivative financial instruments	299
Total	1,357,866

Liabilities directly associated with assets classified as held for sale

	06.30.14
Trade and other liabilities	170,245
Deferred income tax liabilities	33,346
Borrowings	603,021
Total	806,612

As indicated in note 3, on September 29, 2014, the sale of the Madison 183 Building was finalized in the amount of US\$ 185 million. Proceeds from the sale were Ps. 1,535 million, while associated costs amounted to Ps. 1,238 million, thus making a gain on the transaction of Ps. 296.5 million, included in the line item Gain / (loss) on sale of investment properties in the Statement of income.

Upon the sale, the Company deposited Ps. 8.7 million under escrow to cover for potential additional costs that may arise in relation to the transaction, which amount is accounted for under Restricted assets.

40. Subsequent events

- On October 8, 2014, the Group through IRSA signed the transfer deed for the sale of the 22nd and 23th floors of the building Bouchard 551. The total price of the transaction was Ps. 168.7 million. Such transaction generated a gain before tax of approximately Ps. 151.4 million.
- On October 17, 2014, Rigby 183 LLC reduced its capital stock by distributing among existing shareholders, proportionally to their shareholdings, the gain made on the sale of the Madison building. To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements attached of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statements of financial position as of September 30, 2014, and the unaudited condensed interim consolidated statement of income and comprehensive income for the three-month period ended September 30, 2014 and the unaudited condensed interim consolidated statement of changes in shareholders’ equity and unaudited condensed interim consolidated statement of cash flows for the three-month period ended September 30, 2014 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2014 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of the International Accounting Standard No. 34.

1. General information and company's business

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA" or the "Company") was founded in 1943, primarily engaged in managing real estate holdings in Argentina since 1991.

IRSA is a corporation incorporated and domiciled in Argentina. The registered office is Bolívar 108, 1st Floor, Autonomous City of Buenos Aires, Argentina.

The Company owns, manages and develops a portfolio of office and other rental properties in Buenos Aires. In addition, IRSA through its subsidiaries, associates and joint ventures manages and develops shopping centers and branded hotels across Argentina, and also office properties in the United States of America and Israel.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on November 11, 2014.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1. Basis of preparation

The Unaudited Condensed Interim Financial Statements have been prepared in accordance with the Technical Resolution No. 26 of the Argentine Federation of Professional Councils of Economic Science ("FACPCE", as per its Spanish acronym) and with IAS 34 "Interim Financial Reporting". Furthermore, some additional issues were included as required by the Business Companies Act and/or regulations of the CNV, including supplementary information provided in the last paragraph of section 1, Chapter III, Title IV of General Ruling 622/13 of the CNV. Such information is included in the Notes to these Unaudited Condensed Interim Separate Financial Statements according to IFRS.

These Financial Statements should be read together with the annual separate financial statements of the Company as of June 30, 2014 prepared in accordance with the Technical Resolution No. 26. These Unaudited Condensed Interim Separate Financial Statements are presented in Argentine Pesos.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

These Condensed Interim Separate Financial Statements corresponding to the three-month periods ended September 30, 2014 and 2013 have not been audited. The Company's Management believes they include all necessary adjustments to fairly present the results of each period. The Company's three-month periods ended September 30, 2014 and 2013 results do not necessarily reflect the proportion of the Company's full-year results.

2.2. Significant accounting policies

The principal accounting policies adopted for the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the preparation of the information under RT 26 as of June 30, 2014, and are based on those IFRS in force as of June 30, 2014 (except for the accounting of investments in subsidiaries, associates and joint ventures, which are accounted for under the equity method as required in RT 26). In addition, the most significant accounting policies are described in the Annual Separate Financial Statements.

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimates and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the main significant judgments made by Management in applying the Company's accounting policies and the major sources of uncertainty were the same that the Company used in the preparation of financial statements as of and for the fiscal year ended June 30, 2014, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

2.4. Comparative Information

Balance items as of September 30, 2013 and June 30, 2014 shown in these financial statements for comparative purposes arise from financial statements then ended. Certain reclassifications have been made in order to present figures comparatively with those of this period.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

During the last twelve months, the Argentine Peso devalued against the US\$ and other currencies by around 50%, which has an impact in comparative information presented in these Financial Statements, mainly due to the currency exposure of our income from offices rental, and our net assets and liabilities in foreign currency as detailed in Note 34.

3. Acquisitions and disposals

See acquisitions and disposals made by the Company for the three-month period ended September 30, 2014 in Note 4 to the Unaudited Condensed Interim Consolidated Financial Statements.

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim separate financial statements attached of IRSA Inversiones y Representaciones Sociedad Anónima (hereinafter “the Company”) which included the unaudited condensed interim separate statements of financial position as of September 30, 2014, and the unaudited condensed interim separate statements of income and comprehensive income for the three-month period ended September 30, 2014 and the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the three-month period ended September 30, 2014 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2014 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial Reporting Standards (IFRS) and, especially, from the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34) approved by the International Accounting Standard Board (IASB) and used for the preparation of the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima with its subsidiaries as to the aspects mentioned in note 2.2 to the unaudited condensed interim separate financial statements attached. Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph “Scope of our review”.

Free translation from the original prepared in Spanish for publication in Argentina

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and separate statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences for separate financial statements of a parent company.

For the first quarter of the fiscal year the Company's Operating Income and EBITDA grew by 179.4% and 140.3%, respectively, mainly due to higher sales of investment properties, including the sale of the Madison 183 building in the City of New York, and the sale of two office floors of the Maipú 1300 Building.

Net Income for the first 3-month period of fiscal year 2015 was ARS 135.8 million, compared to ARS 35.3 million in the same period of 2014.

III. Offices and Other

The A+ office market of the City of Buenos Aires remains robust. Although USD rental prices per square meter decreased compared to the previous year, demand for premium commercial spaces continues to be firm, whereas rental prices remain stable, averaging USD 26 per square meter. Vacancy rose slightly this year, to 10% in the City of Buenos Aires, 2 percentage points above the figure recorded last year.

Evolution of A+ offices' profitability in the City of Buenos Aires

Revenues from the Offices segment increased by 35.1% in the first quarter of fiscal year 2015 mainly due to higher rental income resulting from the devaluation of the exchange rate in January 2014 and an occupancy rate that was 1.2 percentage points higher than in the first quarter of 2014, explained by a higher occupancy rate in Edificio República and Juana Manso.

It should be highlighted that the portfolio's gross leaseable area dropped by 7.4% to 121,380 square meters as a result of the sale of certain floors in "Bouchard Plaza", "El Rulero" and "Maipú 1300" buildings during the period.

Summary as of September 30, 2014

XI. Brief comment on prospects for the next period

We have started fiscal year 2015 with good results in our main lines of business. The shopping center and office portfolios have remained at maximum occupancy levels and revenues have grown at the same pace as in 2014. Our investments outside Argentina have had efficient operating ratios and attractive appreciation levels, as shown by the recent sale of the Madison 183 building in the City of New York. We expect to maintain and even improve the performance of all our assets during fiscal year 2015.

As concerns the projects underway, during this fiscal year we expect to open two new shopping centers, reaching a portfolio of 15 shopping centers. On the one hand, “Distrito Arcos”, which will be an Outlet center with a variety of premium brands in an open-air environment that will add approximately 14,000 square meters of gross leaseable area and 65 stores to APSA’s portfolio. On the other hand, we will progress in the development of our next shopping center, “Alto Comahue”, in the City of Neuquén, the opening of which is planned for fiscal year 2015. This project, much longed-for by the local population, will be the company’s first shopping center in the Argentine Patagonian region, and we believe that in light of the significant economic growth experienced by Neuquén in the past years, this project will be as successful as the rest of the shopping centers managed by APSA in other locations in the interior of Argentina.

Apart from progressing in the new developments, we expect to continue working towards optimizing the performance of our current shopping centers through improvements that allow us to take best advantage of their GLA potential and to furnish them with increased functionality and appeal for the benefit of consumers and retailers alike.

During this year we will vigorously continue to foster marketing actions, events and promotions in our shopping centers, as they have proved to be highly effective in terms of sales and have been eagerly endorsed by the public.

In the office segment, during the first quarter of 2015 we maintained occupancy and USD/sqm rental levels. We hope to reach full occupancy and to close the best possible lease agreements during the rest of the year, attracting new firms wishing to relocate to our premium spaces. We plan to continue our strategy of selling selected non-strategic assets in our portfolio for attractive prices, and we are deciding on the most suitable timing for launching the “Catalinas Norte” project, to be erected in one of the most highly priced lands in the City of Buenos Aires, in the area of Catalinas.

Our investments outside Argentina have continued to show very attractive levels of return. The recent sale of the Madison building for USD 185 million is proof of this. We will continue to search for opportunistic investments in top-quality assets for attractive prices and with capital structures with optimization potential.

We believe that IRSA has the financial soundness, managerial expertise and long track record in the Argentine real estate industry required to face the challenges that may arise in 2015 and to take advantage of all the opportunities that the market may offer.
