INVESTMENT OBJECTIVES & STRATEGY

The Chartwell Dividend and Income Fund's (the "Fund") primary investment objective is to seek high current income. Capital appreciation is a secondary objective. The Fund will seek to achieve its objectives by investing, under normal circumstances, at least 50% of its total assets in income generating equity securities, including dividend paying common stocks, convertible securities, preferred stocks and other equity-related securities. In addition, the Fund may invest the balance of its total assets in non-convertible debt securities, consisting primarily of corporate bonds. The Fund attempts to minimize individual security risk by diversifying across many industries and asset classes. The Fund is a closed-end management investment company which trades on the New York Stock Exchange under the symbol CWF.

COMMON STOCK

The Fund invests in the common stocks of utility companies, Real Estate Investment Trusts (REITs) and other industrial and financial companies as well as other equity securities. Both utilities and REITs tend to offer a premium dividend yield with steady growth that can lead to capital appreciation. Industrial and financial stocks are primarily purchased for capital appreciation based on the fundamental value of the underlying company.

HIGH-YIELD CORPORATE BONDS

High-yield bonds are non-investment grade corporate debt obligations rated "Ba1" or lower by Moody's Investors Service, Inc. or "BB+" or lower by Standard and Poor's Ratings Group; they typically have a higher risk level than investment-grade bonds. These securities have historically compensated investors with higher levels of income for that risk. Prices usually are less sensitive to interest rate fluctuations than higher rated bonds because of the high income levels. However, the prices of these bonds are more sensitive to changes in the economy.

CONVERTIBLE SECURITIES

The Fund can invest in both convertible preferred stock and convertible bonds. Both pay fixed rates of income, but because they can be converted into common stock, they are indirectly tied to the common stock's performance. As a result, convertible securities generally offer higher income than common stocks and an opportunity for price appreciation when the value of the underlying security rises. The Fund buys convertibles when the underlying common stock offers strong growth potential as well.

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

LETTER TO SHAREHOLDERS

During the six months ending May 31, 2005, the total market return of the Fund was 6.40% with dividends reinvested and the Net Asset Value (NAV) of the Fund advanced 1.90%. The equity and fixed income markets advanced moderately over these six months with the S&P 500 equity index and high yield corporate bonds (Merrill Lynch High Yield Cash Pay Index) returning 2.42% and 0.81%, respectively. Despite continued favorable economic growth, solid earnings, and reasonable valuations, the markets were stalled as worries about the direction of interest rates, oil prices, inflation, and a feared housing bubble weighed on investors' sentiment.

EQUITIES (60% of the portfolio)

Our current view of the equities market still leans to the positive. While economic growth has moderated somewhat, solid corporate earnings growth, reasonable equity valuations, low interest rates, and improved hiring activity suggest the economy is far from the cusp of experiencing a material slowdown. The Fed Chairman Alan Greenspan seems to back this view having noted in testimony before the Joint Economic Committee in June that the economy seems to be on "reasonably firm footing, and underlying inflation remains contained." At the same time, a moderate slowing in earnings growth combined with rising rates does not provide the basis for an overly bullish outlook. Based on such an outlook, we continue to believe the most likely path for the equity markets is for a total return that is close to the long-term annual average of mid to high single digits. As always, the outlook is not without risks. One of the biggest risks is that oil prices continue to rise and undermine economic growth. However, expectations for sustained high oil prices have, at least in part, been factored into the outlook.

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

combined to push prices lower. The price decline drove the yield on the market up 77 basis points from 7.46% to 8.23%. Conversely, after peaking in late March, the yield on the 10-year Treasury bond fell sharply to 4.01% at May 31st. These factors combined to cause the high yield market's spread over 10-year Treasury (i.e. risk premium) to widen 113 basis points (1.13%) to a new spread of 423 basis points (4.23%).

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

HOW DID THE FUND PERFORM DURING THE SIX MONTHS ENDING MAY 31, 2005?

[Bar Chart Omitted]
Plot points follow:

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

TOTAL RETURN
SIX MONTHS ENDED MAY 31, 2005

CWF Stock	CWF NAV	S&P 500	Merill Lynch High Yield Cash Bond Index
6.4%	1.9%	2.4%	0.8%

During the six months ending May 31, 2005, the Chartwell Dividend and Income Fund advanced 1.90% on a Net Asset Value basis (NAV) and 6.40% on a market basis, assuming reinvestment of dividends for both return calculations. In comparison, the S&P 500 Index advanced 2.42%, also including reinvested dividends, and the Merrill Lynch High Yield Cash Pay Index returned 0.81%.

WHAT FACTORS CONTRIBUTED TO THE FUND'S PERFORMANCE?

[Bar Chart Omitted]
Plot points follow:

TOTAL RETURN
SIX MONTHS ENDED MAY 31, 2005

CWF Equities	CWF High Yield	S&P 500	Morgan Stanley REIT Index	Merrill Lynch High Yield Cash Bond Index
1.9%	-0.9%	2.4%	6.2%	0.8%

The equity portion of the Fund advanced 1.90% due to strong performance by several stocks, particularly in the Consumer Staples, Energy and Health Care sectors. Some of the best performing stocks in the Fund included ALTRIA GROUP (MO), ALLIANCE CAPITAL MANAGEMENT HOLDINGS (AC), HARTFORD FINANCIAL SERVICES GROUP (HIG), KERR-MCGEE (KMG) and CITIGROUP (C).

6

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2005

The high yield portion of the Fund underperformed the benchmark over the last six months largely due to overweights in Building Materials and Consumer Products and an underweight in interest rate sensitive BB-rated issues.

DID ANY COMMON STOCKS OR FIXED INCOME HOLDINGS WITHIN THE FUND UNDERPERFORM RELATIVE TO YOUR EXPECTATIONS?

Some of our Financial stocks underperformed during the period, including FRIEDMAN, BILLINGS RAMSEY GROUP (FBR), NEW CENTURY FINANCIAL (NEW), and BANK OF NEW YORK (BK). Shares in FRIEDMAN BILLINGS RAMSEY came under pressure when management announced a tempered earnings outlook for 2005 due to lower banking revenues. The stock was sold prior to the end of the current period. NEW CENTURY FINANCIAL shares also experienced softness due to weakness in earnings related

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

to margin compression. Higher than expected expenses and a higher loan loss provision outlook contributed to the weakness in BANK OF NEW YORK'S shares during the period.

[Bar Chart Omitted]
Plot points follow:

S&P 500 TOTAL RETURN BY SECTOR (SIX MONTHS ENDED MAY 31, 2005)	
Utilities	11.8
Energy	11.1
Health Care	9.6
Consumer Staples	5.9
Industrials	0.5
Financials	0.4
Information Technology	-1.3
Consumer Discretionary	-2.0
Telecommunication Services	-3.4
Materials	-4.8

Regarding the bond portfolio, the top performing industries for the first half of the year included Telecommunications and Energy, while the bonds of Paper and Automotive companies performed poorly on average. AUTOCAM, INTEGRATED ELECTRICAL SERVICES, and PLY GEM INDUSTRIES were some of the bonds that underperformed during the period.

In April/May, the rating agencies downgraded the debt of both FORD and GENERAL MOTORS (GM), two of the largest issuers of U.S. corporate debt. Moody's Investors Service currently has weak investment grade ratings on both FORD and GM, while Standard & Poor's rates FORD at BB+ and GM at BB. As a result of the downgrades, GM became the largest single issuer in the high yield benchmark

7

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2005

(approximately 6% of the market) on May 31st, while FORD remains in the investment grade index. The overhang from these downgrades weighed heavily on the credit markets, and put significant pressure on the bonds of automotive suppliers. We have conducted extensive credit analysis on FORD and GM, and at this point we have chosen not to invest in their capital structures. We continue to closely monitor credit developments at these two issuers, recognizing that changes in their credit outlooks, actual or perceived, will likely have an impact on the overall market if for no other reason than their sheer size.

Automotive	-9.5

WHAT CHANGES WERE MADE TO THE PORTFOLIO DURING THE PERIOD?

During the period, we added more higher-yielding, high-quality stocks to the portfolio, thereby raising the overall yield on our equity portfolio slightly. Some of the stocks we added include REGAL ENTERTAINMENT GROUP (RGC), ALASKA COMMUNICATIONS SYSTEMS GROUP (ALSK), and PACKAGING CORPORATION OF AMERICA (PKG). To fund these purchases, we sold some of our lower-yielding Technology stocks such as FLEXTRONICS INTERNATIONAL LIMITED (FLEX), LSI LOGIC (LSI), and MICROSOFT (MSFT).

Bond trading activity was relatively light during the period, though the fixed portion of the Fund did initiate new positions in Aztar and RELIANT ENERGY. AZTAR is a diversified operator of hotels and gaming facilities and RELIANT is a Houston-based utility. These purchases are consistent with our focus on B and BB-rated issuers with strong, stable cashflows and improving credit profiles. Top performers over the last six months included EURAMAX INTERNATIONAL, INTEGRATED ELECTRICAL SERVICES, MEDIACOM BROADBAND and CELANESE. Offsetting these winners, the Fund lost money in AUTOCAM, GENERAL NUTRITION and PLY GEM INDUSTRIES.

8

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

HOW DID THE FUND TRADE RELATIVE TO ITS NET ASSET VALUE (NAV) DURING THE 6-MONTH PERIOD?

As of May 31, 2005, the Fund was trading at a closing price of \$10.16, a premium of 17.7% to its Net Asset Value of \$8.63. At the start of the period on November 30, 2004, the Fund was trading at a closing price of \$10.03, a premium of 11.9%

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

to its NAV of \$8.96. Throughout the period, the Fund traded between \$8.25 and \$10.68 and between a 6.8% premium and a 20.6% premium.

WHAT IS YOUR CURRENT OUTLOOK FOR THE EQUITY AND FIXED INCOME MARKETS?

We believe the most likely intermediate outlook for the equity market resembles the long-term annual average of 8-10% total return. Current expectations seem to factor in rising interest rates, combined with a slowing rate of growth for both the economy and corporate earnings. While this combination does not imply the market has significant downside risk, at this time it may suggest a modest opportunity for near-term capital appreciation. However, an outlook that emphasizes only interest rates and slower growth ignores current stock market valuation. The underlying constructive case for equities reflects stock valuations that are not stretched. Thus, the combination of 5-10% corporate earnings growth for the remainder of 2005, low (albeit rising) interest rates and

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

reasonable valuation provides the foundation for further advances in equity prices. One of the biggest single risks to this outlook is the market's changing expectations for inflation and subsequent further unanticipated Federal Reserve policy initiatives.

In spite of difficult technical conditions recently, our outlook for the high yield market is constructive. Default rates are expected to remain low by historical standards as bank lending, the principal source of operating liquidity for most high yield issuers, remains widely available and relatively cheap. Generally speaking, high yield credit trends have been improving. Financial leverage (defined as debt divided by cash flow) has declined and the ratio of rating agency upgrades to downgrades has improved and remains above one-to-one. With the economy continuing to experience modest growth, we expect the high yield bond market to deliver absolute returns in line with the market coupon over the next six months. As always, our mission for the fixed income portion of the fund is to provide a consistent level of high income. To this end, Chartwell continues to employ a bottom up approach, where rigorous fundamental credit research drives the investment process.

 CHARTWELL

 CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

As of May 31, 2005, the percentage of the Fund's total investments held in equities and fixed income was 59% and 40%, respectively.

Regarding the equity outlook, the market may continue to favor high-yielding equities given the low level of interest rates. In addition to a favorable tax treatment for qualified dividends, slower earnings growth relative to last year should focus investor attention on total return investing. In this environment, the dividend return becomes more important to many investors. The largest sector position in the Fund is in financial stocks given their high yields and attractive valuations. The Fund also has a large position in the Energy sector given the continued favorable worldwide supply and demand outlook. The Fund has little or no weight in the Technology, Industrials and Consumer Discretionary sectors, as these are areas with less attractive valuations and lower dividend yields.

[Pie Chart Omitted]
Plot points follow:

FUND EQUITY ALLOCATION (as of May 31, 2005)

Cash	1.0%
Fixed Income	40%
Equities	59%
Basic Materials	2.7%
Consumer Discretionary	1.6%
Consumer Staples	7.8%
Energy	7.9%

Industrials	0.9%
Health Care	0.0%
REITS	8.9%
Technology	0.0%
Telecommunications	
Services	5.8%
Utilities	3.2%

The bond side of the Fund is currently overweighted in cyclically sensitive B rated securities, which we believe will benefit from continued economic growth and are generally less sensitive to interest rates (relative to BB's). Our team continues to employ bottom up, fundamental research in our investment decisions, recognizing that solid credit analysis is the key driver of relative performance in high yield.

DEFINITION OF THE COMPARATIVE INDICES

S&P 500 INDEX is an unmanaged capitalization-weighted index of 500 stocks

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

MERRILL LYNCH HIGH YIELD CASH PAY INDEX is an unmanaged index of corporate bonds that pay cash coupons, meet a minimum size threshold, and have a Merrill Lynch composite rating lower than BBB3.

MORGAN STANLEY REIT INDEX is an unmanaged total-return index comprised of the most actively traded real estate investment trusts and is designed to be a measure of real estate equity performance.

12

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

UTILIZATION OF LEVERAGE

The Chartwell Dividend and Income Fund has utilized leverage through the issuance of commercial paper. As of May 31, 2005, the Fund had \$55 million in leverage outstanding (out of \$60 million available) in the form of commercial paper rated A1/P1 by Moody's Investors Service, Inc./Standard & Poor's Ratings Group. These ratings should enhance the marketability and reduce the interest costs associated with the issuance of the commercial paper. However, it must be noted that the utilization of leverage involves the risk of lower portfolio returns if the cost of leverage is higher than the resulting yields on assets or if the Fund experiences capital losses in excess of the yield spread, if any. Therefore, the addition of leverage also increases the potential volatility of the Fund. The Fund has the ability to leverage to a maximum of 33% of the Fund's gross assets.

The Fund utilizes leveraging to seek to enhance the yield and NAV of its common stock. However, these objectives cannot be achieved in all interest rate environments. To leverage, the Fund issues commercial paper, which is issued at a discount equivalent to short-term interest rates, and invests the proceeds in long-term securities. The interest earned on these investments is paid to common stock shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV of the Fund's common stock. However, in order to benefit common stock shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit common stock shareholders. IF EITHER OF THESE CONDITIONS CHANGE, THEN THE RISKS OF LEVERAGING WILL BEGIN TO OUTWEIGH THE BENEFITS.

To illustrate these concepts, assume a fund's common stock capitalization of \$100 million and the issuance of commercial paper for an additional \$50 million, creating a total value of \$150 million available for investment in long-term securities. If prevailing short-term interest rates are approximately 3% and long-term interest rates are approximately 6%, the yield curve has a strongly positive slope. The fund pays a discount on the \$50 million of commercial paper based on the lower short-term interest rates. At the same time, the fund's total

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

portfolio of \$150 million earns the income based on long-term interest rates.

In this case, the discount paid to commercial paper holders is significantly lower than the income earned on the fund's long-term investments, and therefore the common stock shareholders are the beneficiaries of the incremental yield. However, IF SHORT-TERM INTEREST RATES RISE, narrowing the differential between short-term and long-term interest rates, THE INCREMENTAL YIELD PICK-UP ON THE COMMON STOCK WILL BE REDUCED OR ELIMINATED COMPLETELY. At the same time, the market value on the fund's common stock (that is, its price as listed on the New York Stock Exchange), may, as a result, decline. Furthermore, IF LONG-TERM INTEREST RATES RISE, THE COMMON STOCK'S NAV WILL REFLECT THE FULL DECLINE IN THE PRICE OF THE PORTFOLIO'S INVESTMENTS, SINCE THE VALUE OF THE FUND'S COMMERCIAL PAPER DOES NOT FLUCTUATE. In addition to the decline in net asset value, the market value of the fund's common stock may also decline.

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

Chartwell Dividend and Income Fund, Inc. (the "Fund") was incorporated under the laws of the State of Maryland on April 6, 1998 and is registered under the Investment Company Act of 1940 as amended, (the "Act"), as a closed-end, diversified management investment company. The Fund had no operations until June 17, 1998 when it sold 6,667 shares of Common Stock for \$100,005 to Chartwell Investment Partners, L.P. (the "Manager"). Investment operations commenced on June 29, 1998. The Fund's primary investment objective is to seek high current income. Capital appreciation is a secondary objective.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

USE OF ESTIMATES: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

SECURITY VALUATION: Investment securities of the Fund that are listed on a securities exchange, except for debt securities, and for which market quotations are readily available, are valued at the last quoted sales price at the close of trading on the New York Stock Exchange (normally 4:00 p.m., Eastern Time). Investment securities of the Fund that are quoted on the NASDAQ market system are valued at the official closing price, or if there is none, at the last sales price. If there is no reported sale, these securities and unlisted securities for which market quotations are not readily available are valued at last bid price. Debt securities are priced based upon valuations provided by independent, third-party pricing agents, if available. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Debt obligations with remaining maturities of sixty days or less may be valued at their amortized cost, which approximates market value.

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

Prices for most securities held in the Fund are provided daily by recognized independent pricing agents. If a security price cannot be obtained from an independent, third-party pricing agent, the Fund seeks to obtain a bid price from at least one independent broker. Short-term investments having a maturity of less than sixty days are valued at amortized

31

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

cost, which approximates market value. All securities and assets for which quotations are not readily available, of which there were none as of May 31, 2005, are valued in accordance with Fair Value Procedures established by the Board of Directors (the "Board"). The Fund's Fair Value Procedures are implemented through a Fair Value Committee (the "Committee") designated by the Fund's Board. Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include, among other things: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; or the security's primary pricing source is not able or willing to provide a price. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee.

CASH AND CASH EQUIVALENTS: Idle cash is swept into a money market fund at Wachovia Bank, N.A., (the "Custodian"), and is classified as cash on the Statement of Assets and Liabilities. Amounts so invested are generally available on the same business day.

WRITTEN OPTIONS: When the Fund writes a covered call option, an amount equal to the premium received by the Fund is included in the Fund's Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written.

When a covered written call option expires on its stipulated expiration date, or if the Fund enters into a closing purchase transaction, the Fund will realize a gain (or loss if the cost of the closing purchase transaction exceeds the premium received when the call option was written) without regard to any unrealized gain or loss on the underlying security, and the liability related to such option will be extinguished. When a covered written call option is exercised, the Fund will realize a gain or loss from the sale of the underlying security and the proceeds of the sale are increased by the premium originally received. The Fund, as writer of an option, has no control over whether the underlying securities may be sold (called) and as a result bears the market risk of an unfavorable change in the price of the securities underlying the written option.

DIVIDENDS AND DISTRIBUTIONS: The Fund will declare and pay dividends to shareholders on a monthly basis. Net long-term capital gains, if any, in excess of capital loss carryforwards are distributed to shareholders annually. Dividends from net investment income and capital gain distributions, if any, are

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

determined in accordance with U.S. Federal income tax regulations, which may differ from generally accepted accounting principles. Dividends and distributions, if any, to shareholders are recorded on the ex-dividend date.

32

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

The Fund currently intends to distribute a monthly fixed amount to shareholders. The Fund's final distribution for each calendar year may exceed that amount, however, to the extent necessary for the Fund to have distributed all of its net investment company taxable income and net capital gains recognized during the year, if any. If, for any calendar year, the total distributions exceed current and accumulated earnings and profit, the excess, distributed from the Fund's assets, will generally be treated as a tax-free return of capital and will result in a reduction in the shareholder's basis. The Board reserves the right to change the aforementioned dividend policy from time to time.

SECURITIES PURCHASED ON A WHEN-ISSUED BASIS: Delivery and payment for securities that have been purchased by the Fund on a forward commitment or when-issued basis can take place up to a month or more after the transaction date. The purchase of securities on a when-issued or forward commitment basis may increase the volatility of the Fund's net asset value if the Fund makes such investments while remaining substantially fully invested.

BORROWINGS: The Fund issues short-term commercial paper at a discount from par. The discount is amortized to interest expense over the life of the commercial paper using the straight-line method.

ILLIQUID SECURITIES: A security is considered illiquid if it cannot be sold or disposed of in the ordinary course of business within seven days or less for its approximate carrying value on the books of the Fund. Valuations of illiquid securities may differ significantly from the values that would have been used had an active market value for these securities existed.

SECURITY TRANSACTIONS AND INVESTMENT INCOME: Security transactions are recorded on the trade date. Realized gains and losses on sales of securities are calculated on the identified cost basis.

Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The Fund accretes original issue discount on securities using the effective interest method.

NOTE 2. INVESTMENT MANAGEMENT, ADMINISTRATION, CUSTODIAN AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an investment management agreement with the Manager. The Manager manages the Fund's portfolio and makes investment decisions. For these services, the Fund pays the Manager a monthly fee at an annual rate of 0.95% of the Fund's Managed Assets. "Managed Assets" are the average weekly value of the Fund's total assets minus the sum of the Fund's liabilities, excluding debt related to leveraging, short-term debt and the aggregate

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

liquidation preference of any outstanding preferred stock. The

33

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

Manager has agreed to limit the investment management fee paid to it by the Fund to 0.85% of the Fund's Managed Assets. This waiver is voluntary and may be changed at any time.

The Fund has entered into an administration agreement with SEI Investments Global Funds Services (the "Administrator"). Under such agreement, the Administrator performs or arranges for the performance of certain administrative services necessary for the operation of the Fund. For these services, the Fund pays a fee to the Administrator based on the Fund's Managed Assets according to the following rates: 0.10% on the first \$250 million of such Managed Assets and 0.09% on such Managed Assets in excess of \$250 million, subject to a minimum annual fee of \$180,000, which includes fees under this agreement and fees received by the Administrator from the Chartwell U.S. Equity and Chartwell Small Cap Value Funds. The allocation of the minimum will be assessed based upon Managed Assets of the Fund and net assets of the Chartwell U.S. Equity and Chartwell Small Cap Value Funds.

Certain officers and/or directors of the Fund are officers and/or directors of the Manager. The Fund pays each director, who is not an "affiliated person" as defined in the Act, a fee of \$6,000 per year, plus \$1,000 per year for audit committee members and an additional fee of \$250 per year for the chairman of the audit committee.

For the six months ended May 31, 2005, the Fund incurred a legal expense of \$62,069 for services provided by Drinker Biddle & Reath LLP, counsel for the Fund. A partner of the firm is an officer of the Fund.

Wachovia Bank, N.A. serves as the custodian for the Fund. The Custodian plays no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

NOTE 3. PURCHASE AND SALES OF INVESTMENTS

For the six months ended May 31, 2005, purchases and sales of investments, excluding short-term investments, totaled \$88,097,577 and \$92,973,372, respectively.

The following table summarizes the Fund's call options written for the six months ended May 31, 2005.

	NUMBER OF CONTRACTS	PREMIUMS
	-----	-----
Options outstanding, November 30, 2004	9,094	\$ 675,382
Options written	43,660	3,804,592

34

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

NOTE 4. COMMERCIAL PAPER

As of May 31, 2005, \$55,000,000 of commercial paper was outstanding with an amortized cost of \$54,859,796. The average discount rate of commercial paper outstanding at May 31, 2005, was 3.10%. The average daily balance of commercial paper outstanding for the six months ended May 31, 2005, was \$54,835,884 at a weighted average discount rate of 1.73%. The maximum face amount of commercial paper outstanding at any time during the six months ended May 31, 2005, was \$55,000,000. In conjunction with the issuance of the commercial paper, the Fund has entered into a line of credit arrangement with a bank for \$30,000,000. Interest on borrowing is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.30% per annum on the unused balance. There were no borrowings under this arrangement during the six months ended May 31, 2005.

NOTE 5. CAPITAL STOCK

There are 100,000,000 shares of \$0.01 par value common stock authorized. Of the 16,613,668 shares of common stock outstanding at May 31, 2005, the Manager owned 14,267 shares.

For the six months ended May 31, 2005, and the year ended November 30, 2004, the Fund issued 87,331 and 200,822 shares, respectively, in connection with the Fund's dividend reinvestment plan.

NOTE 6. MARKET AND CREDIT RISKS

The Fund may invest in high-yielding fixed-income securities, which carry ratings of BB or lower by S&P and/or Ba1 or lower by Moody's. Investments in these higher-yielding securities may be accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower-rated securities may be more susceptible to adverse economic and competitive industry conditions than investment-grade securities. The Fund may invest up to 15% of its total assets in illiquid securities and other securities which may not be readily marketable. In addition, the Fund may purchase securities sold in reliance of Rule 144A of the Securities Act of 1933. The relative illiquidity of some of the Fund's portfolio securities may adversely affect the ability of the Fund to dispose of such securities in a timely manner and at a fair price at times when it might be necessary or advantageous for the Fund to liquidate portfolio securities.

NOTE 7. FEDERAL TAX INFORMATION

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

It is the Fund's intention to continue to meet the requirements under Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders. Therefore, no provision for Federal income tax or excise tax is required.

35

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2005

The tax character of dividends and distributions paid during the last two fiscal years were as follows:

	ORDINARY INCOME	RETURN OF CAPITAL	TOTALS
	-----	-----	-----
2004	\$16,413,496	\$ --	\$16,413,496
2003	9,929,830	6,254,835	16,184,665

As of November 30, 2004, the components of Accumulated Losses were as follows:

Capital loss carryforwards	\$(65,180,426)
Net unrealized appreciation	15,053,830
Other temporary differences	(252,161)

Total accumulated losses	\$(50,378,757)
	=====

The following summarizes the capital loss carryforwards as of November 30, 2004. These capital loss carryforwards are available to offset future net capital gains.

EXPIRING IN FISCAL YEAR	AMOUNT
-----	-----
2008	\$ 7,962,268
2009	25,913,206
2010	30,533,344
2011	771,608

Total capital loss carryforwards	\$65,180,426
	=====

The Federal tax cost as well as the aggregate gross unrealized appreciation and depreciation on investments held by the Fund at May 31, 2005, were as follows:

Federal Tax Cost	\$184,694,614

Aggregate Gross Unrealized Appreciation	17,078,804
Aggregate Gross Unrealized Depreciation	(5,409,549)

Net Unrealized Appreciation	\$ 11,669,255

June 1, 2005	June 21, 2005	June 23, 2005	June 30, 2005	\$0.0833

36

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

AUTOMATIC DIVIDEND REINVESTMENT PLAN (UNAUDITED)

Pursuant to the Fund's Automatic Dividend Reinvestment Plan (the "Plan"), unless a shareholder otherwise elects, all dividend and capital gains distributions will be automatically reinvested in additional shares of common stock of the Fund by PFPC, Inc., as agent for shareholders in administering the Plan (the "Plan Agent"). Shareholders who elect not to participate in the Plan will receive all dividends and distributions in cash, paid by check mailed directly to the shareholder of record (or, if the shares are held in street or other nominee name, then to such nominee) by PFPC, Inc., as dividend paying agent. Such participants may elect not to participate in the Plan and to receive all distributions of dividends and capital gains in cash by sending written instructions to PFPC, Inc., as dividend paying agent, at the address set forth below.

Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by written notice if received by the Plan Agent not less than ten days prior to any dividend record date. Otherwise such termination will be effective with respect to any subsequently declared dividend or distribution.

Whenever the Fund declares a distribution, an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common stock. The shares will be acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized shares of common stock from the Fund or (ii) by purchase of outstanding shares of common stock on the open market on the NYSE or elsewhere. If on the payment date of the dividend, the net asset value per share of the common stock is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participant. The number of newly issued shares of common stock to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value (such condition being referred to herein as "market discount"), the

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases.

In the event of a market discount on the dividend payment date, the Plan Agent will have until the last business day before the next date on which the shares trade on the "ex-dividend" basis or in no event more than 30 days after the dividend payment date to invest the dividend amount in shares acquired in open-market purchases. If, before the Plan Agent has completed its open-market

37

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

purchases, the market price of a share of common stock exceeds the net asset value per share, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund's shares, resulting in the acquisition of fewer shares than if the dividend had been paid in newly issued shares on the dividend payment date. The Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to market premium during the purchase period, the Plan Agent will cease making open-market purchases and will invest the uninvested portion of the dividend amount in newly issued shares at the close of business on the last purchase date.

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Plan Agent on behalf of the Plan participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held pursuant to the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gain distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with reinvestment of dividends.

The automatic reinvestment of dividends and distributions will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such dividends.

Shareholders participating in the Plan may receive benefits not available to shareholders not participating in the Plan. If the market price plus commissions of the Fund's shares is above the net asset value, participants in the Plan will receive shares of the Fund at less than they could otherwise purchase them and

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

will have shares with a cash value greater than the value of any cash distribution they would have received on their shares. If the market price plus commissions is below the net asset value, participants will receive distributions in shares with a net asset value greater than the value of any cash distribution

38

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

they would have received on their shares. However, there may be insufficient shares available in the market to make distributions in shares at prices below the net asset value. Also, since the Fund does not redeem its shares, the price on resale may be more or less than the net asset value.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence concerning the Plan should be directed to the Plan Agent at PFPC, Inc., P.O. Box 43027, Providence, RI 02940-3027, Attn: Closed-End Department.

FEDERAL TAX INFORMATION (UNAUDITED)

Information for Federal income tax purposes is presented as an aid to shareholders in reporting the dividend distributions for the six months ended May 31, 2004.

ADDITIONAL INFORMATION (UNAUDITED)

During the period, there have been no material changes in the Fund's investment objective or fundamental policies that have not been approved by the shareholders. There have been no changes in the Fund's charter or By-Laws that would delay or prevent a change in control of the Fund which have not been approved by the shareholders. There have been no changes in the principal risk factors associated with investment in the Fund.

EFFECTS OF LEVERAGE (UNAUDITED)

Leverage of \$60 million in commercial paper was initially sold by the Fund on July 28, 1999. Through May 31, 2005, interest paid on the commercial paper ranged from 2.50% to 3.25%. As of May 31, 2005, the Fund had \$30 million outstanding at 2.97% per annum maturing on June 2, 2005, and \$25 million at 3.25% per annum maturing on August 3, 2005. All interest rates include fees due to the broker-dealer. The Fund must experience an annual return of 0.83% to cover interest payments on the commercial paper.

The following table explains the potential effects of leverage on the equity returns of common shareholders:

Assumed return on portfolio

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

(net of expenses)	-10.00%	-5.00%	0.00%	5.00%	10.00%
Corresponding return to common stockholder	-14.93%	-8.03%	-1.14%	5.76%	12.76%

39

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

Assumes \$145 million assets attributable to common shareholders; \$55 million aggregate leverage with an average interest rate of 3.00%. All figures appearing above are hypothetical returns generated to assist investors in understanding the effects of leverage. Actual returns may be greater or less than those appearing in the table.

HOW TO OBTAIN A COPY OF THE FUND'S QUARTERLY SCHEDULE OF PORTFOLIO HOLDINGS

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q within sixty days after the end of the period. The Fund's Forms N-Q are available on the Commission's website at <http://www.sec.gov>, and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

HOW TO OBTAIN A COPY OF THE FUND'S PROXY VOTING POLICIES

A description of the policies and procedures that are used by the Fund's investment adviser to vote proxies relating to the Fund's portfolio securities as well as information relating to how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available (i) without charge, upon request, by calling the Fund toll-free at (866) 585-6552; (ii) on the Fund's website at www.chartwellip.com; and (iii) on the SEC's website at <http://www.sec.gov>.

NEW YORK STOCK EXCHANGE CERTIFICATION

The Fund's President has certified to the New York Stock Exchange that, as of May 19, 2004 he was not aware of any violation by the Fund of the applicable NYSE Corporate Governance listing standards. In addition, the Fund has filed certifications of its principal executive officer and principal financial officer as exhibits to its reports on Form N-CSR filed with the Securities and Exchange Commission relating to the quality of the disclosures contained in such reports.

CHARTWELL BOARD CONSIDERATIONS RELATING TO THE ADVISORY CONTRACT RENEWAL
(UNAUDITED)

The Board of Directors (the "Board") of the Fund determined on April 20, 2005 whether to renew the Advisory Agreement with Chartwell Investment Partners, LP ("Chartwell Partners") (the "Agreement"). Prior to making its determination, the Board received detailed information from Chartwell Partners, including, among other things, information provided by Lipper, Inc. ("Lipper") comparing the performance of the Fund for the one, two, three, four and five year periods ended February 28, 2005 to the performance of an income and preferred stock universe selected by Lipper and a leveraged high yield universe selected by Lipper at the request of Chartwell Partners; advisory fee and other expense information for the Fund as compared to these peer groups; and information provided by Chartwell Partners responsive to requests by the Fund's independent counsel for certain information to assist the Board in its considerations. In addition, the Board reviewed a memorandum from its independent counsel detailing the Board's duties and responsibilities in considering renewal of the Agreement.

In reaching its decision to renew the Agreement, the Board, including a majority of the Directors who are not interested persons under the Investment Company Act of 1940 (the "Independent Directors"), considered, among other things: (i) the nature, extent and quality of Chartwell Partners' services provided to the Fund; (ii) the experience and qualifications of the portfolio management team; (iii) its investment philosophy and process; (iv) Chartwell Partners' assets under management, client descriptions and performance record for each of its investment strategies; (v) its soft dollar commission, broker selection, best execution and trade allocation policies; (vi) current advisory fee arrangements with the Fund and its other clients; (vii) Lipper information comparing the Fund's performance, advisory fee and expense ratio to that of its peer groups; (viii) Chartwell Partners' financial information and profitability analysis related to providing advisory services to the Fund, including the commission arrangement with Merrill Lynch; (ix) any compensation and other possible benefits to Chartwell Partners arising from its advisory and other relationships with the Fund; and (x) the extent to which economies of scale are relevant to the Fund. The Board noted, in particular, Chartwell Partners' recent efforts to reduce expenses by waiving fees and renegotiating contracts with service providers.

During the course of its deliberations, the Board, including a majority of Independent Directors, reached the following conclusions, among others, regarding Chartwell Partners and the Agreement: the Fund's actual advisory fee is above average in comparison to that of the more comparable Lipper peer group provided to the Board and reflective of the bifurcated investment style of the Fund; Chartwell Partners' fees for managing the Fund are reasonable as compared to fees it charges for managing assets for other clients and reflective of the bifurcated investment style of the Fund; the Fund's expense ratio is generally competitive with that of the more comparable Lipper expense group provided to

Edgar Filing: CHARTWELL DIVIDEND & INCOME FUND INC - Form N-CSRS

CHARTWELL DIVIDEND AND INCOME FUND, INC.

MAY 31, 2005

the Board; the Fund's performance is generally competitive with that of the more comparable Lipper performance universe provided to the Board; the nature, extent and quality of services provided by Chartwell Partners in advising the Fund was satisfactory; the profits earned by Chartwell Partners seemed reasonable; and the benefits derived by Chartwell Partners from managing the Fund, including its use of soft dollars and the way it selects brokers, seemed reasonable. The Independent Directors discussed economies-of-scale, but noted that asset growth to achieve such economies was unlikely for a closed-end fund such as the Fund.

Based on the factors considered, the Board, including a majority of the Independent Directors, concluded that it was appropriate to renew the Agreement.
