The registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act or until this Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said section 8(a), may determine.

Table of Contents

The information in this prospectus is not complete and may be changed. Neither we nor the selling stockholders may sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting offers to buy these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any state.

SUBJECT TO COMPLETION, DATED MAY 16, 2008

PROSPECTUS

11,755,806 Shares

LEAP WIRELESS INTERNATIONAL, INC.

Common Stock

This prospectus relates to up to 11,755,806 shares of our common stock, par value \$0.0001 per share, which may be offered for sale from time to time by the selling stockholders named in this prospectus. The shares of common stock may be sold at fixed prices, prevailing market prices at the times of sale, prices related to the prevailing market prices, varying prices determined at the times of sale or negotiated prices. The shares of common stock offered by this prospectus and any prospectus supplement may be offered by the selling stockholders directly to investors or to or through underwriters, dealers or other agents. We will not receive any of the proceeds from the sale of the shares of common stock sold by the selling stockholders. We will bear all expenses of the offering of common stock, except that the selling stockholders will pay any applicable underwriting fees, discounts or commissions and transfer taxes.

Leap common stock is listed for trading on the Nasdaq Global Select Market, under the symbol LEAP. On May 15, 2008, the last reported sale price of Leap common stock on the Nasdaq Global Select Market was \$60.03 per share.

Investing in Leap common stock involves risks. See Risk Factors beginning on page 5.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 2008

ABOUT THIS PROSPECTUS

This prospectus is part of a resale Registration Statement that we filed with the Securities and Exchange Commission, or SEC, using a shelf registration process. The selling stockholders may offer and sell, from time to time, an aggregate of up to 11,755,806 shares of Leap common stock under the prospectus. In some cases, the selling stockholders will also be required to provide a prospectus supplement containing specific information about the selling stockholders and the terms on which they are offering and selling Leap common stock. We may also add, update or change in a prospectus supplement any information contained in this prospectus. You should read this prospectus and any accompanying prospectus supplement, as well as any post-effective amendments to the Registration Statement of which this prospectus is a part and all documents incorporated by reference herein, together with the additional information described under Where You Can Find More Information before you make any investment decision.

You should rely only on the information contained or incorporated by reference in this prospectus. Neither we nor the selling stockholders have authorized anyone to provide you with information different from that contained or incorporated by reference in this prospectus or additional information. We are offering to sell, and seeking offers to buy, shares of Leap common stock only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or any sale of Leap common stock.

MARKET AND INDUSTRY DATA

This prospectus includes market and industry data and other statistical information, which are based on independent industry publications, government publications, reports by market research firms or other published independent

sources. Some data are also based on our internal estimates, which are derived from our review of internal surveys as well as independent sources. We have not independently verified this information, or any of the data or analyses underlying such information, and cannot assure you of its accuracy and completeness in any respect. As a result, you should be aware that market and industry data set forth herein, and estimates and beliefs based on such data, may not be reliable. Unless otherwise specified, information relating to population and potential customers, or POPs, is based on 2008 population estimates provided by Claritas Inc.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Except for the historical information contained and incorporated by reference herein, this prospectus and the documents incorporated by reference herein contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements reflect management's current forecast of certain aspects of our future. You can identify most forward-looking statements by forward-looking words such as believe, think, may, could, will, estimate, continue, anticipate, intend, seek, plan, expect, should, would and similar. Such statements are based on currently available operating, financial and competitive information and are subject to various risks, uncertainties and assumptions that could cause actual results to differ materially from those anticipated in or implied by our forward-looking statements. Such risks, uncertainties and assumptions include, among other things:

our ability to attract and retain customers in an extremely competitive marketplace;

changes in economic conditions, including interest rates, consumer credit conditions, unemployment and other macro-economic factors that could adversely affect the demand for the services we provide;

the impact of competitors' initiatives;

our ability to successfully implement product offerings and execute effectively on our planned coverage expansion, launches of markets we acquired in the Federal Communications Commission's, or FCC's, auction for Advanced Wireless Services, or Auction #66, expansion of our mobile broadband product offering and other strategic activities;

our ability to obtain roaming services from other carriers at cost-effective rates;

our ability to maintain effective internal control over financial reporting;

delays in our market expansion plans, including delays resulting from any difficulties in funding such expansion through our existing cash, cash generated from operations or additional capital, or delays by existing U.S. government and other private sector wireless operations in clearing the Advanced Wireless Services, or AWS, spectrum, some of which users are permitted to continue using the spectrum for several years;

our ability to attract, motivate and retain an experienced workforce;

our ability to comply with the covenants in our senior secured credit facilities, indenture and any future credit agreement, indenture or similar instrument;

failure of our network or information technology systems to perform according to expectations; and

other factors detailed in the section entitled "Risk Factors" commencing on page 5 of this prospectus.

All future written and oral forward-looking statements attributable to us or any persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained in this section or elsewhere in this prospectus. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect us. Except as required by law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks

and uncertainties, the forward-looking events and circumstances discussed in this prospectus and the documents incorporated by reference herein may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. Accordingly, users of this prospectus are cautioned not to place undue reliance on the forward-looking statements.

Table of Contents

PROSPECTUS SUMMARY

This summary highlights selected information from this prospectus and does not contain all the information that you should consider before buying shares in this offering. You should read the entire prospectus carefully, including all documents incorporated by reference herein, especially Risk Factors included herein and the financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on February 29, 2008 and our Quarterly Report on Form 10-Q for the three months ended March 31, 2008 filed with the SEC on May 12, 2008, before deciding to invest in shares of Leap common stock. As used in this prospectus, the terms we, our, ours and us refer to Leap Wireless International, Inc., a Delaware corporation, or Leap, and its wholly owned subsidiaries, unless the context suggests otherwise. Leap is a holding company and conducts operations only through its wholly owned subsidiary Cricket Communications, Inc., or Cricket, and Cricket's subsidiaries.

Overview of Our Business

We are a wireless communications carrier that offers digital wireless service in the U.S. under the Cricket® brand. Our Cricket service offers customers unlimited wireless service for a flat monthly rate without requiring a fixed-term contract or a credit check. Cricket service is offered by Cricket, a wholly owned subsidiary of Leap, and is also offered in Oregon by LCW Wireless Operations, LLC, or LCW Operations, a designated entity under FCC regulations. Cricket owns an indirect 73.3% non-controlling interest in LCW Operations through a 73.3% non-controlling interest in LCW Wireless, LLC, or LCW Wireless. Cricket also owns an 82.5% non-controlling interest in Denali Spectrum, LLC, or Denali, which purchased a wireless license in Auction #66 covering the upper mid-west portion of the U.S. as a designated entity through its wholly owned subsidiary, Denali Spectrum License, LLC, or Denali License. We consolidate our interests in LCW Wireless and Denali in accordance with Financial Accounting Standards Board Interpretation No., or FIN, 46(R), Consolidation of Variable Interest Entities, because these entities are variable interest entities and we will absorb a majority of their expected losses.

At March 31, 2008, Cricket service was offered in 23 states and had approximately 3.1 million customers. As of March 31, 2008, we, LCW Wireless License, LLC, or LCW License (a wholly owned subsidiary of LCW Operations), and Denali License owned wireless licenses covering an aggregate of approximately 186 million POPs (adjusted to eliminate duplication from overlapping licenses). The combined network footprint in our operating markets covered approximately 53 million POPs as of March 31, 2008, which includes incremental POPs attributed to ongoing footprint expansion. The licenses we and Denali License purchased in Auction #66, together with the existing licenses we own, provide 20 MHz of coverage and the opportunity to offer enhanced data services in almost all markets in which we currently operate or are building out, assuming Denali License were to make available to us certain of its spectrum.

In addition to the approximately 53 million POPs we covered as of March 31, 2008 with our combined network footprint, we estimate that we and Denali License hold licenses in markets that cover up to approximately 85 million additional POPs that are suitable for Cricket service. We recently launched our first Auction #66 markets in Oklahoma City, Las Vegas and southern Texas, and we and Denali License are currently building out additional Auction #66 markets that we intend to launch this year and in 2009. We also plan to continue to expand our network coverage and capacity in many of our existing markets, allowing us to offer our customers a larger local calling area. As part of our overall coverage expansion plans, we expect to increase our network coverage by approximately eight million additional POPs between January and June 2008. Looking ahead, we and Denali License expect to cover up to approximately 36 million additional POPs by the middle of 2009 and up to approximately 50 million additional POPs by the end of 2010 (in each case measured on a cumulative basis beginning January 2008). We and Denali License may also develop some of the licenses covering our additional POPs through partnerships with others.

Portions of the AWS spectrum that was auctioned in Auction #66 are currently used by U.S. federal government and/or incumbent commercial licensees. Several federal government agencies have cleared or developed plans to clear spectrum covered by licenses we and Denali License purchased in Auction #66 or have indicated that we and Denali License can operate on the spectrum without interfering with the agencies' current uses. As a result, we do not expect spectrum clearing issues to impact our near-term market launches. In other markets, we continue to work with one federal agency to ensure that the agency either relocates its spectrum use to

Table of Contents

alternative frequencies or confirms that we can operate on the spectrum without interfering with its current uses. If our efforts with this agency are not successful, the agency's continued use of the spectrum could delay the launch of certain markets.

We believe that our business model is scalable and can be expanded successfully into adjacent and new markets because we offer a differentiated service and an attractive value proposition to our customers at costs significantly lower than most of our competitors. We continue to seek additional opportunities to enhance our current market clusters and expand into new geographic markets by participating in FCC spectrum auctions, by acquiring spectrum and related assets from third parties, and/or by participating in new partnerships or joint ventures. We also expect to continue to look for opportunities to optimize the value of our spectrum portfolio. Because some of the licenses that we and Denali License hold include large regional areas covering both rural and metropolitan communities, we and Denali License may sell some of this spectrum and pursue the deployment of alternative products or services in portions of this spectrum.

We expect that we will continue to build out and launch new markets and pursue other strategic expansion activities for the next several years. We intend to be disciplined as we pursue these expansion efforts and to remain focused on our position as a low-cost leader in wireless telecommunications. We expect to achieve increased revenues and incur higher operating expenses as our existing business grows and as we build out and after we launch service in new markets. Large-scale construction projects for the build-out of our new markets will require significant capital expenditures and may suffer cost overruns. Any such significant capital expenditures or increased operating expenses would decrease earnings, operating income before depreciation and amortization, or OIBDA, and free cash flow for the periods in which we incur such costs. However, we are willing to incur such expenditures because we expect our expansion activities will be beneficial to our business and create additional value for our stockholders.

We believe that our business model is different from most other wireless companies. Our services primarily target market segments underserved by traditional communications companies: our customers tend to be younger, have lower incomes and include a greater percentage of ethnic minorities. We have designed the Cricket service to appeal to customers who value unlimited mobile calling with a predictable monthly bill and who make the majority of their calls from within Cricket service areas. Our internal customer surveys indicate that approximately 65% of our customers use our service as their sole phone service and approximately 90% as their primary phone service. For the three months ended March 31, 2008, our customers used our Cricket service for an average of approximately 1,500 minutes per month, which we believe was substantially above the U.S. wireless national carrier customer average.

The majority of wireless customers in the U.S. subscribe to post-pay services that may require credit approval and a contractual commitment from the subscriber for a period of at least one year, and include overage charges for call volumes in excess of a specified maximum. According to International Data Corporation, U.S. wireless penetration was approximately 80% at December 31, 2007. We believe that a large portion of the remaining growth potential in the U.S. wireless market consists of customers who are price-sensitive, who have lower credit scores or who prefer not to enter into fixed-term contracts. We believe our services appeal strongly to these customer segments. We believe that we are able to serve these customers and generate significant OIBDA because of our high-quality network and low customer acquisition and operating costs.

Our Business Strategy

Our business strategy is to (1) target market segments underserved by traditional communications companies, (2) continue to develop and evolve our product and service offerings, (3) build our brand awareness and improve the productivity of our distribution system, (4) maintain an industry-leading cost structure, (5) continue to expand our network coverage and capacity in our existing markets and (6) continue to develop and enhance our current market clusters and expand into new geographic markets.

Table of Contents

Corporate Information

Leap was formed as a Delaware corporation in 1998. Leap's shares began trading publicly in September 1998 and we launched our innovative Cricket service in March 1999. In April 2003, we filed voluntary petitions for relief under Chapter 11 in federal bankruptcy court. On August 16, 2004, our plan of reorganization became effective and we emerged from Chapter 11 bankruptcy. On that date, a new board of directors of Leap was appointed, Leap's previously existing stock, options and warrants were cancelled, and Leap issued 60 million shares of new Leap common stock for distribution to two classes of creditors. See Part I Item 1. Business Chapter 11 Proceedings Under the Bankruptcy Code in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on February 29, 2008 for additional information. On June 29, 2005, Leap's common stock became listed for trading on the Nasdaq National Market (now known as the Nasdaq Global Market) under the symbol LEAP. Effective July 1, 2006, Leap's common stock became listed for trading on the Nasdaq Global Select Market, also under the symbol LEAP. Leap conducts operations through its subsidiaries and has no independent operations or sources of operating revenue other than through dividends, if any, from its subsidiaries.

Our principal executive offices are located at 10307 Pacific Center Court, San Diego, California 92121 and our telephone number at that address is (858) 882-6000. Our principal websites are located at www.leapwireless.com, www.mycricket.com and www.jumpmobile.com. The information contained in, or that can be accessed through, our websites is not part of this prospectus.

Leap is a U.S. registered trademark of Leap, and a trademark application for the Leap logo is pending. Cricket, Jump, the Cricket K and Flex Bucket are U.S. registered trademarks of Cricket. In addition, the following are trademarks or service marks of Cricket: BridgePay, Cricket By Week, Cricket Choice, Cricket Connect, Cricket Nation and Cricket Wireless Internet Service.

Table of Contents

The Offering

Common stock offered by the selling stockholders	11,755,806 shares
Common stock outstanding before the offering	68,986,506 shares
Common stock outstanding after the offering	68,986,506 shares
Use of proceeds	We will not receive any proceeds from this offering.
Registration rights	We have agreed to use all reasonable efforts to keep the shelf Registration Statement, of which this prospectus forms a part, effective and current until the date that all of the shares of common stock covered by this prospectus may be freely traded without the effectiveness of such Registration Statement.
Trading	Our common stock is listed for trading on the Nasdaq Global Select Market under the symbol LEAP.
Risk factors	See Risk Factors and the other information contained and incorporated by reference in this prospectus for a discussion of the factors you should carefully consider before deciding to invest in Leap common stock.

The outstanding share information shown above is based on our shares outstanding as of May 2, 2008, and this information excludes:

600,000 shares of common stock issuable upon the exercise of outstanding warrants at an exercise price of \$16.83;

3,479,830 shares of common stock reserved for issuance upon the exercise of outstanding stock options at a weighted average exercise price of \$45.48;

732,439 shares of common stock available for future issuance under our Employee Stock Purchase Plan;

an aggregate of 2,341,225 shares of common stock available for future issuance under our 2004 Stock Option, Restricted Stock and Deferred Stock Unit Plan; and

shares reserved for potential issuance to CSM Wireless, LLC, or CSM. Leap has reserved five percent of its outstanding common stock, which was 3,449,325 shares as of May 2, 2008, for potential issuance to CSM upon the exercise of CSM's option to put its entire equity interest in LCW Wireless to Cricket. Subject to certain conditions and restrictions in our senior secured credit agreement, or Credit Agreement, we will be obligated to satisfy the put price in cash or in shares of Leap common stock, or a combination of cash and common stock, in our sole discretion. See Part I Item 1. Business Arrangements with LCW Wireless in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on February 29, 2008 for additional information.

Table of Contents

RISK FACTORS

You should carefully consider the risk factors set forth below, as well as the other information contained or incorporated by reference in this prospectus, before you decide to buy the common stock offered by this prospectus. The risks described below are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially and adversely affect our business operations. Any of the following risks could materially adversely affect our business, financial condition or results of operations. In such case, the market price of Leap common stock could decline, and you may lose all or part of your original investment.

Risks Related to Our Business and Industry

We Have Experienced Net Losses, and We May Not Be Profitable in the Future.

We experienced net losses of \$18.1 million for the three months ended March 31, 2008, \$75.9 million for the year ended December 31, 2007, \$24.4 million for the year ended December 31, 2006, \$6.1 million and \$43.1 million (excluding reorganization items, net) for the five months ended December 31, 2004 and the seven months ended July 31, 2004, respectively, \$597.4 million for the year ended December 31, 2003 and \$664.8 million for the year ended December 31, 2002. Although we had net income of \$30.7 million for the year ended December 31, 2005, we may not generate profits in the future on a consistent basis, or at all. Our strategic objectives depend, in part, on our ability to build out and launch networks associated with newly acquired FCC licenses, including the licenses that we and Denali License acquired in Auction #66, and we will experience higher operating expenses as we build out and after we launch our service in these new markets. If we fail to achieve consistent profitability, that failure could have a negative effect on our financial condition.

We May Not Be Successful in Increasing Our Customer Base Which Would Negatively Affect Our Business Plans and Financial Outlook.

Our growth on a quarter-by-quarter basis has varied substantially in the past. We believe that this uneven growth generally reflects seasonal trends in customer activity, promotional activity, competition in the wireless telecommunications market, our pace of new market launches, and varying national economic conditions. Our current business plans assume that we will increase our customer base over time, providing us with increased economies of scale. If we are unable to attract and retain a growing customer base, our current business plans and financial outlook may be harmed.

Our Business Could Be Adversely Affected By General Economic Conditions; If We Experience Low Rates of Customer Acquisition or High Rates of Customer Turnover, Our Ability to Become Profitable Will Decrease.

Our business could be adversely affected in a number of ways by general economic conditions, including interest rates, consumer credit conditions, unemployment and other macro-economic factors. Because we do not require customers to sign fixed-term contracts or pass a credit check, our service is available to a broader customer base than that served by many other wireless providers. As a result, during economic downturns or during periods of high gasoline prices, we may have greater difficulty in gaining new customers within this base for our services and some of our existing customers may be more likely to terminate service due to an inability to pay than the average industry customer. Recent disruptions in the sub-prime mortgage market may also affect our ability to gain new customers or the ability of our existing customers to pay for their service. In addition, our rate of customer acquisition and customer turnover may be affected by other factors, including the size of our calling areas, network performance and reliability

issues, our handset or service offerings (including the ability of customers to cost-effectively roam onto other wireless networks), customer care concerns, phone number portability, higher deactivation rates among less-tenured customers we gained as a result of our new market launches, and other competitive factors. We have also experienced an increasing trend of current customers upgrading their handset by buying a new phone, activating a new line of service, and letting their existing service lapse, which trend has resulted in a higher churn rate as these customers are counted as having disconnected service but have actually been retained. Our strategies to acquire new customers and address customer turnover may not be successful. A high rate of customer turnover or low rate of new customer acquisition would reduce revenues and increase the total marketing expenditures required to attract the minimum number of customers required to sustain our business plan which, in turn, could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

We Have Made Significant Investment, and Will Continue to Invest, in Joint Ventures That We Do Not Control.

In July 2006, we acquired a 72% non-controlling interest in LCW Wireless, which was awarded a wireless license for the Portland, Oregon market in Auction #58 and to which we contributed, among other things, two wireless licenses in Eugene and Salem, Oregon and related operating assets. In December 2006, we completed the replacement of certain network equipment of a subsidiary of LCW Wireless and, as a result, we now own a 73.3% non-controlling membership interest in LCW Wireless. In July 2006, we acquired an 82.5% non-controlling interest in Denali, an entity which participated in Auction #66. LCW Wireless and Denali acquired their wireless licenses as very small business designated entities under FCC regulations. Our participation in these joint ventures is structured as a non-controlling interest in order to comply with FCC rules and regulations. We have agreements with our joint venture partners in LCW Wireless and Denali, and we plan to have similar agreements in connection with any future designated entity joint venture arrangements we may enter into, which are intended to allow us to actively participate to a limited extent in the development of the business through the joint venture. However, these agreements do not provide us with control over the business strategy, financial goals, build-out plans or other operational aspects of any such joint venture. The FCC's rules restrict our ability to acquire controlling interests in such entities during the period that such entities must maintain their eligibility as a designated entity, as defined by the FCC. The entities or persons that control the joint ventures may have interests and goals that are inconsistent or different from ours which could result in the joint venture taking actions that negatively impact our business or financial condition. In addition, if any of the other members of a joint venture files for bankruptcy or otherwise fails to perform its obligations or does not manage the joint venture effectively, we may lose our equity investment in, and any present or future opportunity to acquire the assets (including wireless licenses) of, such entity.

The FCC has implemented further rule changes aimed at addressing alleged abuses of its designated entity program. While we do not believe that these recent rule changes materially affect our current joint ventures with LCW Wireless and Denali, the scope and applicability of these rule changes to such current designated entity structures remain in flux, and the changes remain subject to administrative and judicial review. In addition, we cannot predict how further rule changes or increased regulatory scrutiny by the FCC with respect to designated entity rules or structures will affect our current or future business ventures with designated entities or our participation with such entities in future FCC spectrum auctions.

We Face Increasing Competition Which Could Have a Material Adverse Effect on Demand for the Cricket Service.

The telecommunications industry is very competitive. In general, we compete with national facilities-based wireless providers and their prepaid affiliates or brands, local and regional carriers, non-facilities-based mobile virtual network operators, or MVNOs, voice-over-internet-protocol, or VoIP, service providers and traditional landline service providers, including telephone and cable companies.

Many of these competitors often have greater name and brand recognition, access to greater amounts of capital and established relationships with a larger base of current and potential customers. Because of their size and bargaining power, our larger competitors may be able to purchase equipment, supplies and services at lower prices than we can. For example, prior to the launch of a large market in 2006, disruptions by a competitor interfered with our indirect dealer relationships, reducing the number of dealers offering Cricket service during the initial weeks of launch. In addition, some of our competitors are able to offer their customers roaming services at lower rates. As consolidation in the industry creates even larger competitors, any purchasing advantages our competitors have, as well as their bargaining power as wholesale providers of roaming services, may increase. For example, in connection with the offering of our nationwide roaming service, we have encountered problems with certain large wireless carriers in negotiating terms for roaming arrangements that we believe are reasonable, and we believe that consolidation has contributed significantly to such carriers' control over the terms and conditions of wholesale roaming services.

These competitors may also offer potential customers more features and options in their service plans than those currently provided by Cricket, as well as new technologies and/or alternative delivery plans.

Table of Contents

Some of our competitors offer rate plans substantially similar to Cricket's service plans or products that customers may perceive to be similar to Cricket's service plans in markets in which we offer wireless service. For example, AT&T, Sprint Nextel, T-Mobile and Verizon Wireless have each begun to offer flat-rate unlimited service offerings. In addition, Sprint Nextel offers a flat-rate unlimited service offering under its Boost Unlimited brand, which is very similar to the Cricket service. Sprint Nextel has expanded and may further expand its Boost Unlimited service offering into certain markets in which we provide service and could further expand service into other markets in which we provide service or in which we plan to expand, and this service offering may present additional strong competition in markets in which our offerings overlap. The competitive pressures of the wireless telecommunications market have also caused other carriers to offer service plans with unlimited service offerings or large bundles of minutes of use at low prices, which are competing with the predictable and unlimited Cricket calling plans. Some competitors also offer prepaid wireless plans that are being advertised heavily to demographic segments in our current markets and in markets in which we may expand that are strongly represented in Cricket's customer base. For example, T-Mobile has introduced a FlexPay plan which permits customers to pay in advance for its post-pay plans and avoid overage charges, and an internet-based service upgrade which permits wireless customers to make unlimited local and long-distance calls from their home phone in place of a traditional landline phone service. These competitive offerings could adversely affect our ability to maintain our pricing and increase or maintain our market penetration and may have a material adverse effect on our financial results.

We may also face additional competition from new entrants in the wireless marketplace, many of whom may have significantly more resources than we do. The FCC is pursuing policies designed to increase the number of wireless licenses and spectrum available for the provision of wireless voice and data services in each of our markets. For example, the FCC has adopted rules that allow the partitioning, disaggregation or leasing of PCS and other wireless licenses, and continues to allocate and auction additional spectrum that can be used for wireless services, which may increase the number of our competitors. The FCC has also in recent years allowed satellite operators to use portions of their spectrum for ancillary terrestrial use, and also permitted the offering of broadband services over power lines. In addition, the auction and licensing of new spectrum, including the 700 MHz band licenses recently auctioned by the FCC, may result in new competitors and/or allow existing competitors to acquire additional spectrum, which could allow them to offer services that we may not technologically or cost effectively be able to offer with the licenses we hold or to which we have access.

Our ability to remain competitive will depend, in part, on our ability to anticipate and respond to various competitive factors and to keep our costs low.

Recent Disruptions in the Financial Markets Could Affect Our Ability to Obtain Debt or Equity Financing On Reasonable Terms (or At All), and Have Other Adverse Effects On Us.

We may wish to raise significant capital to finance business expansion activities and our ability to raise debt or equity capital in the public or private markets could be impaired by various factors. For example, U.S. credit markets have recently experienced significant dislocations and liquidity disruptions which have caused the spreads on prospective debt financings to widen considerably. These circumstances have materially impacted liquidity in the debt markets, making financing terms for borrowers less attractive, and in certain cases have resulted in the unavailability of certain types of debt financing. Continued uncertainty in the credit markets may negatively impact our ability to access additional debt financing or to refinance existing indebtedness on favorable terms (or at all). These events in the credit markets have also had an adverse effect on other financial markets in the U.S., which may make it more difficult or costly for us to raise capital through the issuance of common stock, preferred stock or other equity securities. If we require additional capital to fund or accelerate the pace of any of our business expansion efforts or other strategic activities and were unable to obtain such capital on terms that we found acceptable or at all, we would likely reduce our investments in expansion activities or slow the pace of expansion activities as necessary to match our capital

requirements to our available liquidity. Any of these risks could impair our ability to fund our operations or limit our ability to expand our business, which could have a material adverse effect on our financial results. In addition, we maintain investments in commercial paper and other short-term investments. Volatility and uncertainty in the financial markets has resulted in losses from a decline in the value of those investments, and may result in additional losses and difficulty in monetizing those investments in the future.

Table of Contents

We May Be Unable to Obtain the Roaming Services We Need From Other Carriers to Remain Competitive.

We believe that our customers prefer that we offer roaming services that allow them to make calls automatically when they are outside of their Cricket service area. Many of our competitors have regional or national networks which enable them to offer automatic roaming services to their subscribers at a lower cost than we can offer. We do not have a national network, and we must pay fees to other carriers who provide roaming services to us. We currently have roaming agreements with several other carriers which allow our customers to roam on those carriers' networks. However, these roaming agreements generally cover voice but not data services and some of these agreements may be terminated on relatively short notice. In addition, we believe that the rates charged to us by some of these carriers are higher than the rates they charge to certain other roaming partners.

The FCC has adopted a report and order clarifying that commercial mobile radio service providers are required to provide automatic roaming for voice and SMS text-messaging services on just, reasonable and non-discriminatory terms. The FCC order, however, does not address roaming for data services nor does it provide or mandate any specific mechanism for determining the reasonableness of roaming rates for voice services, and so our ability to obtain roaming services from other carriers at attractive rates remains uncertain. In addition, the FCC order indicates that a host carrier is not required to provide roaming services to another carrier in areas in which that other carrier holds wireless licenses or usage rights that could be used to provide wireless services. Because we and Denali License hold a significant number of spectrum licenses for markets in which service has not yet been launched, we believe that this in-market roaming restriction could significantly and adversely affect our ability to receive roaming services in areas where we hold licenses. We and other wireless carriers have filed petitions with the FCC, asking that it reconsider this in-market exception to its roaming order. However, we can provide no assurances as to whether the FCC will reconsider this exception or the timeframe in which it might do so.

In light of the current FCC order, we cannot provide assurances that we will be able to continue to provide roaming services for our customers across the nation or that we will be able to provide such services on a cost-effective basis. We may be unable to enter into or maintain roaming arrangements for voice services at reasonable rates, including in areas in which we hold wireless licenses or have usage rights but have not yet constructed wireless facilities, and we may be unable to secure roaming arrangements for our data services. Our inability to obtain these roaming services on a cost-effective basis may limit our ability to compete effectively for wireless customers, which may increase our churn and decrease our revenues, which could materially adversely affect our business, financial condition and results of operations.

We Have Restated Our Prior Consolidated Financial Statements, Which Has Led to Additional Risks and Uncertainties, Including Shareholder Litigation.

As discussed in Note 2 to our consolidated financial statements included in Part II Item 8. Financial Statements and Supplementary Data of our Annual Report on Form 10-K, as amended, for the year ended December 31, 2006 filed with the SEC on December 26, 2007, we have restated our consolidated financial statements as of and for the years ended December 31, 2006 and 2005 (including interim periods therein), for the period from August 1, 2004 to December 31, 2004, and for the period from January 1, 2004 to July 31, 2004. In addition, we have restated our condensed consolidated financial statements as of and for the quarterly periods ended June 30, 2007 and March 31, 2007. The determination to restate these consolidated financial statements and quarterly condensed consolidated financial statements was made by Leap's Audit Committee upon management's recommendation following the identification of errors related to (i) the timing of recognition of certain service revenues prior to or subsequent to the period in which they were earned, (ii) the recognition of service revenues for certain customers that voluntarily disconnected service, (iii) the classification of certain components of service revenues, equipment revenues and operating expenses and (iv) the determination of a tax valuation allowance during the second quarter of 2007.

As a result of these events, we have become subject to a number of additional risks and uncertainties, including substantial unanticipated costs for accounting and legal fees in connection with or related to the restatement. In particular, three shareholder derivative actions have been filed, and we have also recently been named in a number of alleged securities class action lawsuits. The plaintiffs in these lawsuits may make additional claims, expand

Table of Contents

existing claims and/or expand the time periods covered by the complaints. Other plaintiffs may bring additional actions with other claims based on the restatement. We may incur substantial defense costs with respect to these claims, regardless of their outcome. Likewise, these claims might cause a diversion of our management's time and attention. If we do not prevail in any such actions, we could be required to pay substantial damages or settlement costs, which could materially adversely affect our business, financial condition and results of operations.

Our Business and Stock Price May Be Adversely Affected if Our Internal Controls Are Not Effective.

Section 404 of the Sarbanes-Oxley Act of 2002 requires companies to conduct a comprehensive evaluation of their internal control over financial reporting. To comply with this statute, we are required to document and test our internal control over financial reporting; our management is required to assess and issue a report concerning our internal control over financial reporting; and our independent registered public accounting firm is required to report on the effectiveness of our internal control over financial reporting.

As described in Part 1 Item 4. Controls and Procedures in our Quarterly Report on Form 10-Q for the three months ended March 31, 2008 filed with the SEC on May 12, 2008, our chief executive officer, or CEO, and chief financial officer, or CFO, concluded that our disclosure controls and procedures were not effective at the reasonable assurance level as of March 31, 2008. Currently, our CEO, S. Douglas Hutcheson, is also serving as acting CFO. The material weakness we have identified in our internal control over financial reporting related to the design of controls over the preparation and review of the account reconciliations and analysis of revenues, cost of revenue and deferred revenues, and ineffective testing of changes made to our revenue and billing systems in connection with the introduction or modification of service offerings.

We have taken and are taking actions to remediate this material weakness. In addition, management has developed and presented to the Audit Committee a plan and timetable for the implementation of remediation measures (to the extent not already implemented), and the committee intends to monitor such implementation. We believe that these actions will remediate the control deficiencies we have identified and strengthen our internal control over financial reporting.

We previously reported that certain material weaknesses in our internal control over financial reporting existed at various times during the period from September 30, 2004 through December 31, 2007. These material weaknesses included excessive turnover and inadequate staffing levels in our accounting, financial reporting and tax departments, weaknesses in the preparation of our income tax provision, and weaknesses in our application of lease-related accounting principles, fresh-start reporting oversight, and account reconciliation procedures.

Although we believe we are taking appropriate actions to remediate the control deficiencies we have identified and to strengthen our internal control over financial reporting, we cannot assure you that we will not discover other material weaknesses in the future. The existence of one or more material weaknesses could result in errors in our financial statements, and substantial costs and resources may be required to rectify these or other internal control deficiencies. If we cannot produce reliable financial reports, investors could lose confidence in our reported financial information, the market price of Leap's common stock could decline significantly, we may be unable to obtain additional financing to operate and expand our business, and our business and financial condition could be harmed.

Our Primary Business Strategy May Not Succeed in the Long Term.

A major element of our business strategy is to offer consumers service plans that allow unlimited calls from within a Cricket calling area for a flat monthly rate without entering into a fixed-term contract or passing a credit check. However, unlike national wireless carriers, we do not currently provide ubiquitous coverage across the U.S. or all major metropolitan centers, and instead have a smaller network footprint covering only the principal population

centers of our various markets. This strategy may not prove to be successful in the long term. Some companies that have offered this type of service in the past have been unsuccessful. From time to time, we also evaluate our service offerings and the demands of our target customers and may modify, change, adjust or discontinue our service offerings or offer new services. We cannot assure you that these service offerings will be successful or prove to be profitable.

Table of Contents

We Expect to Incur Substantial Costs in Connection With the Build-Out of Our New Markets, and Any Delays or Cost Increases in the Build-Out of Our New Markets Could Adversely Affect Our Business.

Our ability to achieve our strategic objectives will depend in part on the successful, timely and cost-effective build-out of the networks associated with newly acquired FCC licenses, including the licenses that we and Denali License acquired in Auction #66 and any licenses that we may acquire from third parties. Large-scale construction projects for the build-out of our new markets will require significant capital expenditures and may suffer cost overruns. In addition, we expect to incur higher operating expenses as our existing business grows and as we build out and after we launch service in new markets. Any such significant capital expenditures or increased operating expenses, including in connection with the build-out and launch of markets for the licenses that we and Denali License acquired in Auction #66, would decrease OIBDA and free cash flow for the periods in which we incur such costs. If we are unable to fund the build-out of these new markets with our existing cash and our cash generated from operations, we may be required to raise additional equity capital or incur further indebtedness, which we cannot guarantee would be available to us on acceptable terms, or at all. In addition, the build-out of the networks may be delayed or adversely affected by a variety of factors, uncertainties and contingencies, such as natural disasters, difficulties in obtaining zoning permits or other regulatory approvals, our relationships with our joint venture partners, and the timely performance by third parties of their contractual obligations to construct portions of the networks.

Portions of the AWS spectrum that was auctioned in Auction #66 are currently used by U.S. federal government and/or incumbent commercial licensees. FCC rules require winning bidders to avoid interfering with these existing users or to clear the incumbent users from the spectrum through specified relocation procedures. We and Denali License considered the estimated cost and time-frame required to clear the spectrum that we and Denali License purchased in Auction #66 while placing bids in the auction. However, the actual cost of clearing the spectrum may exceed our estimated costs. Furthermore, delays in the provision of federal funds to relocate government users, or difficulties in negotiating with incumbent government and commercial licensees, may extend the date by which the auctioned spectrum can be cleared of existing operations, and thus may also delay the date on which we can launch commercial services using such licensed spectrum. In addition, certain existing government operations have been using the spectrum for classified purposes. As a result, although the government has agreed to clear that spectrum to allow AWS licensees to utilize their spectrum in the affected areas, the government has only provided limited information to licensees about these classified uses, which has created additional uncertainty about the time at which such spectrum would be available for commercial use.

With respect to our Auction #66 markets, several federal government agencies have cleared or developed plans to clear spectrum covered by licenses we and Denali License purchased in Auction #66 or have indicated that we and Denali License can operate on the spectrum without interfering with the agencies' current uses. While we do not expect spectrum clearing issues to impact our near-term market launches, we continue to work with one federal agency in other markets to ensure that it either relocates its spectrum use to alternative frequencies or confirms that we can operate on the spectrum without interfering with its current uses. If our efforts with this agency are not successful, the agency's continued use of the spectrum could delay our launch of certain markets. In addition, to the extent that we or Denali License are operating on AWS spectrum and a federal government agency believes that our planned or ongoing operations interfere with its current uses, we may be required to immediately cease using the spectrum in that particular market for a period of time until the interference is resolved. Any temporary or extended shutdown of one of our or Denali License's wireless networks in a launched market could materially and adversely affect our competitive position and results of operations.

Any failure to complete the build-out of our new markets on budget or on time could delay the implementation of our clustering and strategic expansion strategies, and could have a material adverse effect on our business, results of operations and financial condition.

If We Are Unable to Manage Our Planned Growth, Our Operations Could Be Adversely Impacted.

We have experienced substantial growth in a relatively short period of time, and we expect to continue to experience growth in the future in our existing and new markets. The management of such growth will require, among other things, continued development of our financial and management controls and management

Table of Contents

information systems, stringent control of costs and handset inventories, diligent management of our network infrastructure and its growth, increased spending associated with marketing activities and acquisition of new customers, the ability to attract and retain qualified management personnel and the training of new personnel. In addition, continued growth will eventually require the expansion of our billing, customer care and sales systems and platforms, which will require additional capital expenditures and may divert the time and attention of management personnel who oversee any such expansion. Furthermore, the implementation of any such systems or platforms, including the transition to such systems or platforms from our existing infrastructure, could result in unpredictable technological or other difficulties. Failure to successfully manage our expected growth and development, to enhance our processes and management systems or to timely and adequately resolve any such difficulties could have a material adverse effect on our business, financial condition and results of operations.

Our Significant Indebtedness Could Adversely Affect Our Financial Health and Prevent Us From Fulfilling Our Obligations.

We have now and will continue to have a significant amount of indebtedness. As of March 31, 2008, our total outstanding indebtedness under our Credit Agreement was \$884.3 million, and we also had a \$200 million undrawn revolving credit facility (which forms part of our senior secured credit facility). Indebtedness under our senior secured credit facility bears interest at a variable rate, but we have entered into interest rate swap agreements with respect to \$355 million of our indebtedness. We have also issued \$1,100 million in unsecured senior notes due 2014. In addition, looking forward we may raise significant capital to finance business expansion activities, which could consist of debt financing from the public and/or private capital markets.

Our significant indebtedness could have material consequences. For example, it could:

make it more difficult for us to satisfy our debt obligations;

increase our vulnerability to general adverse economic and industry conditions;

impair our ability to obtain additional financing in the future for working capital needs, capital expenditures, building out our network, acquisitions and general corporate purposes;

require us to dedicate a substantial portion of our cash flows from operations to the payment of principal and interest on our indebtedness, thereby reducing the availability of our cash flows to fund working capital needs, capital expenditures, acquisitions and other general corporate purposes;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

place us at a disadvantage compared to our competitors that have less indebtedness; and

expose us to higher interest expense in the event of increases in interest rates because indebtedness under our senior secured credit facility bears interest at a variable rate.

Any of these risks could impair our ability to fund our operations or limit our ability to expand our business, which could have a material adverse effect on our business, financial condition and results of operations.

Despite Current Indebtedness Levels, We May Incur Substantially More Indebtedness. This Could Further Increase the Risks Associated With Our Leverage.

We may incur significant additional indebtedness in the future over time, as market conditions permit, to enable us to take advantage of business expansion activities. The terms of our senior unsecured indenture permit us, subject to specified limitations, to incur additional indebtedness, including secured indebtedness. In addition, our Credit Agreement permits us to incur additional indebtedness under various financial ratio tests.

If new indebtedness is added to our current levels of indebtedness, the related risks that we now face could intensify. Furthermore, the subsequent build-out of the networks covered by the licenses we acquired in Auction #66 may significantly reduce our free cash flow, increasing the risk that we may not be able to service our indebtedness.

Table of Contents

To Service Our Indebtedness and Fund Our Working Capital and Capital Expenditures, We Will Require a Significant Amount of Cash. Our Ability to Generate Cash Depends on Many Factors Beyond Our Control.

Our ability to make payments on our indebtedness will depend upon our future operating performance and on our ability to generate cash flow in the future, which are subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. We cannot assure you that our business will generate sufficient cash flow from operations, or that future borrowings, including borrowings under our revolving credit facility, will be available to us in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs, or at all. If the cash flow from our operating activities is insufficient, we may take actions, such as delaying or reducing capital expenditures (including expenditures to build out our newly acquired wireless licenses), attempting to restructure or refinance our indebtedness prior to maturity, selling assets or operations or seeking additional equity capital. Any or all of these actions may be insufficient to allow us to service our debt obligations. Further, we may be unable to take any of these actions on commercially reasonable terms, or at all.

We May Be Unable to Refinance Our Indebtedness.

We may need to refinance all or a portion of our indebtedness before maturity. We cannot assure you that we will be able to refinance any of our indebtedness, including under our senior unsecured indenture or our Credit Agreement, on commercially reasonable terms, or at all. There can be no assurance that we will be able to obtain sufficient funds to enable us to repay or refinance our debt obligations on commercially reasonable terms, or at all.

Covenants in Our Indenture and Credit Agreement and Other Credit Agreements or Indentures That We May Enter Into in the Future May Limit Our Ability To Operate Our Business.

Our senior unsecured indenture and Credit Agreement contain covenants that restrict the ability of Leap, Cricket and the subsidiary guarantors to make distributions or other payments to our investors or creditors until we satisfy certain financial tests or other criteria. In addition, the indenture and our Credit Agreement include covenants restricting, among other things, the ability of Leap, Cricket and their restricted subsidiaries to:

incur additional indebtedness;

create liens or other encumbrances;

place limitations on distributions from restricted subsidiaries;

pay dividends, make investments, prepay subordinated indebtedness or make other restricted payments;

issue or sell capital stock of restricted subsidiaries;

issue guarantees;

sell or otherwise dispose of all or substantially all of our assets;

enter into transactions with affiliates; and

make acquisitions or merge or consolidate with another entity.

Under our Credit Agreement, we must also comply with, among other things, financial covenants with respect to a maximum consolidated senior secured leverage ratio and, if a revolving credit loan or uncollateralized letter of credit

is outstanding or requested, with respect to a minimum consolidated interest coverage ratio, a maximum consolidated leverage ratio and a minimum consolidated fixed charge coverage ratio. The Credit Agreement includes a \$200 million revolving credit facility, which was undrawn as of March 31, 2008. The business expansion efforts we are pursuing in 2008 and 2009 will decrease our consolidated fixed charge coverage ratio and could prevent us from borrowing under the revolving credit facility for several quarters, depending on the scope and pace of our expansion efforts. We do not intend, however, to pursue business expansion activities that would prevent us from borrowing under the revolving credit facility unless we believe we have sufficient liquidity to support the operating and capital requirements for our business and any such expansion activities without drawing on the revolving credit facility.

Table of Contents

The restrictions in our Credit Agreement could also limit our ability to make borrowings, obtain debt financing, repurchase stock, refinance or pay principal or interest on our outstanding indebtedness, complete acquisitions for cash or debt or react to changes in our operating environment. Any credit agreement or indenture that we may enter into in the future may have similar restrictions.

Our Credit Agreement also prohibits the occurrence of a change of control, which includes the acquisition of beneficial ownership of 35% or more of Leap's equity securities, a change in a majority of the members of Leap's board of directors that is not approved by the board and the occurrence of a change of control under any of our other credit instruments. Under our indenture, if a change of control occurs (which includes the acquisition of beneficial ownership of 35% or more of Leap's equity securities, a sale of all or substantially all of the assets of Leap and its restricted subsidiaries and a change in a majority of the members of Leap's board of directors that is not approved by the board), each holder of the notes may require Cricket to repurchase all of such holder's notes at a purchase price equal to 101% of the principal amount of the notes, plus accrued and unpaid interest.

If we default under our indenture or our Credit Agreement because of a covenant breach or otherwise, all outstanding amounts thereunder could become immediately due and payable. Our failure to timely file our Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2007 constituted a default under our Credit Agreement and indenture, and the restatement of certain of our historical consolidated financial information (as described in Note 2 to our consolidated financial statements included in Part II Item 8. Financial Statements and Supplementary Data of our Annual Report on Form 10-K, as amended, for the year ended December 31, 2006 filed with the SEC on December 26, 2007) may have constituted a default under our Credit Agreement. Although we were able to obtain limited waivers under our Credit Agreement with respect to these events, we cannot assure you that we will be able to obtain a waiver in the future should a default occur. We cannot assure you that we would have sufficient funds to repay all of the outstanding amounts under our indenture or our Credit Agreement, and any acceleration of amounts outstanding would have a material adverse effect on our liquidity and financial condition.

Rises in Interest Rates Could Adversely Affect Our Financial Condition.

An increase in prevailing interest rates would have an immediate effect on the interest rates charged on our variable rate debt, which rise and fall upon changes in interest rates. As of March 31, 2008, approximately 28% of our debt was variable rate debt, after considering the effect of our interest rate swap agreements. If prevailing interest rates or other factors result in higher interest rates on our variable rate debt, the increased interest expense would adversely affect our cash flow and our ability to service our debt.

A Majority of Our Assets Consists of Goodwill and Other Intangible Assets.

As of March 31, 2008, 51.9% of our assets consisted of goodwill and other intangibles, including wireless licenses. The value of our assets, and in particular, our intangible assets, will depend on market conditions, the availability of buyers and similar factors. By their nature, our intangible assets may not have a readily ascertainable market value or may not be saleable or, if saleable, there may be substantial delays in their liquidation. For example, prior FCC approval is required in order for us to sell, or for any remedies to be exercised by our lenders with respect to, our wireless licenses, and obtaining such approval could result in significant delays and reduce the proceeds obtained from the sale or other disposition of our wireless licenses.

The Wireless Industry is Experiencing Rapid Technological Change, and We May Lose Customers If We Fail to Keep Up With These Changes.

The wireless communications industry is experiencing significant technological change, as evidenced by the ongoing improvements in the capacity and quality of digital technology, the development and commercial acceptance of

wireless data services, shorter development cycles for new products and enhancements and changes in end-user requirements and preferences. In the future, competitors may seek to provide competing wireless telecommunications service through the use of developing technologies such as Wi-Fi, WiMax, and VoIP. The cost of implementing or competing against future technological innovations may be prohibitive to us, and we may lose customers if we fail to keep up with these changes.

Table of Contents

For example, we have expended a substantial amount of capital to upgrade our network with CDMA2000® 1xEV-DO, or EvDO, technology to offer advanced data services. However, if such upgrades, technologies or services do not become commercially acceptable, our revenues and competitive position could be materially and adversely affected. We cannot assure you that there will be widespread demand for advanced data services or that this demand will develop at a level that will allow us to earn a reasonable return on our investment.

In addition, CDMA2000 infrastructure networks could become less popular in the future, which could raise the cost to us of equipment and handsets that use that technology relative to the cost of handsets and equipment that utilize other technologies.

The Loss of Key Personnel and Difficulty Attracting and Retaining Qualified Personnel Could Harm Our Business.

We believe our success depends heavily on the contributions of our employees and on attracting, motivating and retaining our officers and other management and technical personnel. We do not, however, generally provide employment contracts to our employees. If we are unable to attract and retain the qualified employees that we need, our business may be harmed.

We have experienced higher than normal employee turnover in the past, in part because of our bankruptcy, including turnover of individuals at the most senior management levels. In addition, our business is managed by a small number of key executive officers, including our CEO, S. Douglas Hutcheson. During September 2007, Amin Khalifa resigned as our executive vice president and CFO and the board of directors appointed Mr. Hutcheson to serve as acting CFO until we find a successor to Mr. Khalifa. During February 2008, Grant Burton, who had served as chief accounting officer and controller since June 2005, assumed a new role as vice president, financial systems and processes, and the board of directors appointed Steven R. Martin, a consultant to the company, to serve as acting chief accounting officer. In addition, Jeffrey Nachbor joined us as our senior vice president, financial operations in April 2008. We may have difficulty attracting and retaining key personnel in future periods, particularly if we were to experience poor operating or financial performance. The loss of key individuals in the future may have a material adverse impact on our ability to effectively manage and operate our business.

Risks Associated With Wireless Handsets Could Pose Product Liability, Health and Safety Risks That Could Adversely Affect Our Business.

We do not manufacture handsets or other equipment sold by us and generally rely on our suppliers to provide us with safe equipment. Our suppliers are required by applicable law to manufacture their handsets to meet certain governmentally imposed safety criteria. However, even if the handsets we sell meet the regulatory safety criteria, we could be held liable with the equipment manufacturers and suppliers for any harm caused by products we sell if such products are later found to have design or manufacturing defects. We generally have indemnification agreements with the manufacturers who supply us with handsets to protect us from direct losses associated with product liability, but we cannot guarantee that we will be fully protected against all losses associated with a product that is found to be defective.

Media reports have suggested that the use of wireless handsets may be linked to various health concerns, including cancer, and may interfere with various electronic medical devices, including hearing aids and pacemakers. Certain class action lawsuits have been filed in the industry claiming damages for alleged health problems arising from the use of wireless handsets. In addition, interest groups have requested that the FCC investigate claims that wireless technologies pose health concerns and cause interference with airbags, hearing aids and other medical devices. The media has also reported incidents of handset battery malfunction, including reports of batteries that have overheated. Malfunctions have caused at least one major handset manufacturer to recall certain batteries used in its handsets,

including batteries in a handset sold by Cricket and other wireless providers. Concerns over radio frequency emissions and defective products may discourage the use of wireless handsets, which could decrease demand for our services.

Concerns over possible safety risks could decrease the demand for our services. For example, in the beginning of 2008, a technical defect was discovered in one of our manufacturer's handsets which appeared to prevent a portion of 911 calls from being heard by the operator. After learning of the defect, we instructed our retail locations to temporarily cease selling the handsets, notified our customers of the matter and directed them to bring their

Table of Contents

handsets into our retail locations to receive correcting software. If one or more Cricket customers were harmed by a defective product provided to us by a manufacturer and subsequently sold in connection with our services, our ability to add and maintain customers for Cricket service could be materially adversely affected by negative public reactions.

There also are some safety risks associated with the use of wireless handsets while driving. Concerns over these safety risks and the effect of any legislation that has been and may be adopted in response to these risks could limit our ability to sell our wireless service.

We Rely Heavily on Third Parties to Provide Specialized Services; a Failure by Such Parties to Provide the Agreed Upon Services Could Materially Adversely Affect Our Business, Results of Operations and Financial Condition.

We depend heavily on suppliers and contractors with specialized expertise in order for us to efficiently operate our business. In the past, our suppliers, contractors and third-party retailers have not always performed at the levels we expect or at the levels required by their contracts. If key suppliers, contractors or third-party retailers fail to comply with their contracts, fail to meet our performance expectations or refuse or are unable to supply us in the future, our business could be severely disrupted. Generally, there are multiple sources for the types of products we purchase. However, some suppliers, including software suppliers, are the exclusive sources of their specific products. Because of the costs and time lags that can be associated with transitioning from one supplier to another, our business could be substantially disrupted if we were required to replace the products or services of one or more major suppliers with products or services from another source, especially if the replacement became necessary on short notice. Any such disruption could have a material adverse affect on our business, results of operations and financial condition.

System Failures Could Result in Higher Churn, Reduced Revenue and Increased Costs, and Could Harm Our Reputation.

Our technical infrastructure (including our network infrastructure and ancillary functions supporting our network such as service activation, billing and customer care) is vulnerable to damage or interruption from technology failures, power loss, floods, windstorms, fires, human error, terrorism, intentional wrongdoing, or similar events. Unanticipated problems at our facilities, system failures, hardware or software failures, computer viruses or hacker attacks could affect the quality of our services and cause network service interruptions. In addition, we are in the process of upgrading some of our internal network systems, and we cannot assure you that we will not experience delays or interruptions while we transition our data and existing systems onto our new systems. Any failure in or interruption of systems that we or third parties maintain to support ancillary functions, such as billing, customer care and financial reporting, could materially impact our ability to timely and accurately record, process and report information important to our business. If any of the above events were to occur, we could experience higher churn, reduced revenues and increased costs, any of which could harm our reputation and have a material adverse effect on our business.

To accommodate expected growth in our business, management has been considering replacing our customer billing and activation system, which we license from a third party. The vendor who licenses the software to us and provides certain billing services to us has a contract with us through 2010. The vendor has developed a new billing product and has introduced that product in a limited number of markets operated by another wireless carrier. The vendor was working to adapt the new billing product for our use, but we are now unlikely to use this product because the vendor has announced that it intends to exit the billing business. The vendor is currently exploring alternative exit strategies, including selling its business to a third party. If the vendor or its successor does not provide us with an improved billing system in the future, we might choose to terminate our contract for convenience and purchase billing services from a different vendor if we believed it was necessary to do so to meet the requirements of our business. In such an event, we may owe substantial termination fees.

Table of Contents

We May Not Be Successful in Protecting and Enforcing Our Intellectual Property Rights.

We rely on a combination of patent, service mark, trademark, and trade secret laws and contractual restrictions to establish and protect our proprietary rights, all of which only offer limited protection. We endeavor to enter into agreements with our employees and contractors and agreements with parties with whom we do business in order to limit access to and disclosure of our proprietary information. Despite our efforts, the steps we have taken to protect our intellectual property may not prevent the misappropriation of our proprietary rights. Moreover, others may independently develop processes and technologies that are competitive to ours. The enforcement of our intellectual property rights may depend on any legal actions that we undertake against such infringers being successful, but we cannot be sure that any such actions will be successful, even when our rights have been infringed.

We cannot assure you that our pending, or any future, patent applications will be granted, that any existing or future patents will not be challenged, invalidated or circumvented, that any existing or future patents will be enforceable, or that the rights granted under any patent that may issue will provide competitive advantages to us. For example, see Part II Item 1. Legal Proceedings of our Quarterly Report on Form 10-Q for the three months ended March 31, 2008 filed with the SEC on May 12, 2008 for a description of our patent litigation with MetroPCS Communications, Inc., or MetroPCS, and other affiliated entities. We intend to vigorously defend against the matters brought by the MetroPCS entities. Due to the complex nature of the legal and factual issues involved, however, the outcome of these matters is not presently determinable. If the MetroPCS entities were to prevail in any of these matters, it could have a material adverse effect on our business, financial condition and results of operations.

In addition to these outstanding matters, we cannot assure you that any trademark or service mark registrations will be issued with respect to pending or future applications or that any registered trademarks or service marks will be enforceable or provide adequate protection of our brands. Our inability to secure trademark or service mark protection with respect to our brands could have a material adverse effect on our business, financial condition and results of operations.

We and Our Suppliers May Be Subject to Claims of Infringement Regarding Telecommunications Technologies That Are Protected By Patents and Other Intellectual Property Rights.

Telecommunications technologies are protected by a wide array of patents and other intellectual property rights. As a result, third parties may assert infringement claims against us or our suppliers from time to time based on our or their general business operations, the equipment, software or services that we or they use or provide, or the specific operation of our wireless networks. For example, see Part II Item 1. Legal Proceedings of our Quarterly Report on Form 10-Q for the three months ended March 31, 2008 filed with the SEC on May 12, 2008 for a description of certain patent infringement lawsuits that have been brought against us.

We generally have indemnification agreements with the manufacturers, licensors and suppliers who provide us with the equipment, software and technology that we use in our business to protect us against possible infringement claims, but we cannot guarantee that we will be fully protected against all losses associated with infringement claims. Our suppliers may be subject to infringement claims that could prevent or make it more expensive for them to supply us with the products and services we require to run our business. For example, we purchase certain CDMA handsets that incorporate EvDO chipsets manufactured by Qualcomm Incorporated, or Qualcomm, which are the subject of patent infringement actions brought by Broadcom Corporation in separate proceedings before the United States International Trade Commission, or ITC, and the United States District Court for the Central District of California. Both the ITC and District Court have issued orders in their proceedings that prevent or limit Qualcomm's ability, subject to various conditions and timelines, to sell, import or support the infringing chips, and restrict third parties from importing the handsets that incorporate the chips. Although these orders are currently on appeal and the ITC order is stayed as to certain third parties (including most of our handset suppliers), these patent infringement actions could have the effect

of slowing or limiting our ability to introduce and offer EvDO handsets and devices to our customers. Moreover, we may be subject to claims that products, software and services provided by different vendors which we combine to offer our services may infringe the rights of third parties, and we may not have any indemnification from our vendors for these claims. Whether or not an infringement claim against us or a supplier was valid or successful, it could adversely affect our business by diverting management

Table of Contents

attention, involving us in costly and time-consuming litigation, requiring us to enter into royalty or licensing agreements (which may not be available on acceptable terms, or at all) or requiring us to redesign our business operations or systems to avoid claims of infringement. In addition, infringement claims against our suppliers could also require us to purchase products and services at higher prices or from different suppliers and could adversely affect our business by delaying our ability to offer certain products and services to our customers.

Regulation by Government Agencies May Increase Our Costs of Providing Service or Require Us to Change Our Services.

The FCC regulates the licensing, construction, modification, operation, ownership, sale and interconnection of wireless communications systems, as do some state and local regulatory agencies. We cannot assure you that the FCC or any state or local agencies having jurisdiction over our business will not adopt regulations or take other enforcement or other actions that would adversely affect our business, impose new costs or require changes in current or planned operations. For example, in 2007 the FCC released an order implementing certain recommendations of an independent panel reviewing the impact of Hurricane Katrina on communications networks, which requires that wireless carriers provide emergency back-up power sources for their equipment and facilities, including up to 24 hours of emergency power for mobile switch offices and up to eight hours for cell site locations. In order for us to comply with the new requirements should they become effective, we may need to purchase additional equipment, obtain additional state and local permits, authorizations and approvals or incur additional operating expenses, and such costs could be material. In addition, state regulatory agencies are increasingly focused on the quality of service and support that wireless carriers provide to their customers and several agencies have proposed or enacted new and potentially burdensome regulations in this area.

In addition, we cannot assure you that the Communications Act of 1934, as amended, or the Communications Act, from which the FCC obtains its authority, will not be further amended in a manner that could be adverse to us. The FCC recently implemented rule changes and sought comment on further rule changes focused on addressing alleged abuses of its designated entity program, which gives certain categories of small businesses preferential treatment in FCC spectrum auctions based on size. In that proceeding, the FCC has re-affirmed its goals of ensuring that only legitimate small businesses benefit from the program, and that such small businesses are not controlled or manipulated by larger wireless carriers or other investors that do not meet the small business qualification tests. We cannot predict the degree to which rule changes or increased regulatory scrutiny that may follow from this proceeding will affect our current or future business ventures or our participation in future FCC spectrum auctions.

Under existing law, no more than 20% of an FCC licensee's capital stock may be owned, directly or indirectly, or voted by non-U.S. citizens or their representatives, by a foreign government or its representatives or by a foreign corporation. If an FCC licensee is controlled by another entity (as is the case with Leap's ownership and control of subsidiaries that hold FCC licenses), up to 25% of that entity's capital stock may be owned or voted by non-U.S. citizens or their representatives, by a foreign government or its representatives or by a foreign corporation. Foreign ownership above the 25% holding company level may be allowed if the FCC finds such higher levels consistent with the public interest. The FCC has ruled that higher levels of foreign ownership, even up to 100%, are presumptively consistent with the public interest with respect to investors from certain nations. If our foreign ownership were to exceed the permitted level, the FCC could revoke our wireless licenses, which would have a material adverse effect on our business, financial condition and results of operations. Although we could seek a declaratory ruling from the FCC allowing the foreign ownership or could take other actions to reduce our foreign ownership percentage in order to avoid the loss of our licenses, we cannot assure you that we would be able to obtain such a ruling or that any other actions we may take would be successful.

Our operations are subject to various other regulations, including those regulations promulgated by the Federal Trade Commission, the Federal Aviation Administration, the Environmental Protection Agency, the Occupational Safety and

Health Administration and state and local regulatory agencies and legislative bodies. Adverse decisions or regulations of these regulatory bodies could negatively impact our operations and costs of doing business. Because of our smaller size, governmental regulations and orders can significantly increase our costs and affect our competitive position compared to other larger telecommunications providers. We are unable to predict the scope, pace or financial impact of regulations and other policy changes that could be adopted by the various governmental entities that oversee portions of our business.

Table of Contents

If Call Volume Under Our Cricket Service Exceeds Our Expectations, Our Costs of Providing Service Could Increase, Which Could Have a Material Adverse Effect on Our Competitive Position.

Cricket customers generally use their handsets for an average of approximately 1,500 minutes per month, and some markets experience substantially higher call volumes. Our Cricket service plans bundle certain features, long distance and unlimited service in Cricket calling areas for a fixed monthly fee to more effectively compete with other telecommunications providers. If customers exceed expected usage, we could face capacity problems and our costs of providing the services could increase. Although we own less spectrum in many of our markets than our competitors, we seek to design our network to accommodate our expected high call volume, and we consistently assess and try to implement technological improvements to increase the efficiency of our wireless spectrum. However, if future wireless use by Cricket customers exceeds the capacity of our network, service quality may suffer. We may be forced to raise the price of Cricket service to reduce volume or otherwise limit the number of new customers, or incur substantial capital expenditures to improve network capacity or quality.

We May Be Unable to Acquire Additional Spectrum in the Future at a Reasonable Cost or on a Timely Basis.

Because we offer unlimited calling services for a fixed fee, our customers' average minutes of use per month is substantially above the U.S. wireless customer average. We intend to meet this demand by utilizing spectrally efficient technologies. Despite our recent spectrum purchases, there may come a point where we need to acquire additional spectrum in order to maintain an acceptable grade of service or provide new services to meet increasing customer demands. We also intend to acquire additional spectrum in order to enter new strategic markets. However, we cannot assure you that we will be able to acquire additional spectrum at auction or in the after-market at a reasonable cost or that additional spectrum would be made available by the FCC on a timely basis. If such additional spectrum is not available to us when required or at a reasonable cost, our results of operations could be adversely affected.

Our Wireless Licenses are Subject to Renewal, and May Be Revoked in the Event that We Violate Applicable Laws.

Our existing wireless licenses are subject to renewal upon the expiration of the 10-year or 15-year period for which they are granted, which renewal period commenced for some of our PCS wireless licenses in 2006. The FCC will award a renewal expectancy to a wireless licensee that timely files a renewal application, has provided substantial service during its past license term and has substantially complied with applicable FCC rules and policies and the Communications Act. The FCC has routinely renewed wireless licenses in the past. However, the Communications Act provides that licenses may be revoked for cause and license renewal applications denied if the FCC determines that a renewal would not serve the public interest. FCC rules provide that applications competing with a license renewal application may be considered in comparative hearings, and establish the qualifications for competing applications and the standards to be applied in hearings. We cannot assure you that the FCC will renew our wireless licenses upon their expiration.

Future Declines in the Fair Value of Our Wireless Licenses Could Result in Future Impairment Charges.

As of March 31, 2008, the carrying value of our wireless licenses and those of Denali License and LCW License was approximately \$1.9 billion. During the years ended December 31, 2007, 2006 and 2005, we recorded impairment charges of \$1.0 million, \$7.9 million and \$12.0 million, respectively.

The market values of wireless licenses have varied dramatically over the last several years, and may vary significantly in the future. In particular, valuation swings could occur if:

consolidation in the wireless industry allows or requires carriers to sell significant portions of their wireless spectrum holdings;

a sudden large sale of spectrum by one or more wireless providers occurs; or
market prices decline as a result of the sale prices in FCC auctions.

Table of Contents

In addition, the price of wireless licenses could decline as a result of the FCC's pursuit of policies designed to increase the number of wireless licenses available in each of our markets. For example, the FCC has recently auctioned additional spectrum in the 1700 MHz to 2100 MHz band in Auction #66 and the 700 MHz band in Auction #73, and has announced that it intends to auction additional spectrum in the 2.5 GHz band. If the market value of wireless licenses were to decline significantly, the value of our wireless licenses could be subject to non-cash impairment charges.

We assess potential impairments to our indefinite-lived intangible assets, including wireless licenses, annually and when there is evidence that events or changes in circumstances indicate that an impairment condition may exist. We conduct our annual tests for impairment of our wireless licenses during the third quarter of each year. Estimates of the fair value of our wireless licenses are based primarily on available market prices, including successful bid prices in FCC auctions and selling prices observed in wireless license transactions, pricing trends among historical wireless license transactions, our spectrum holdings within a given market relative to other carriers' holdings and qualitative demographic and economic information concerning the areas that comprise our markets. A significant impairment loss could have a material adverse effect on our operating income and on the carrying value of our wireless licenses on our balance sheet.

Declines in Our Operating Performance Could Ultimately Result in an Impairment of Our Indefinite-Lived Assets, Including Goodwill, or Our Long-Lived Assets, Including Property and Equipment.

We assess potential impairments to our long-lived assets, including property and equipment and certain intangible assets, when there is evidence that events or changes in circumstances indicate that the carrying value may not be recoverable. We assess potential impairments to indefinite-lived intangible assets, including goodwill and wireless licenses, annually and when there is evidence that events or changes in circumstances indicate that an impairment condition may exist. If we do not achieve our planned operating results, this may ultimately result in a non-cash impairment charge related to our long-lived and/or our indefinite-lived intangible assets. A significant impairment loss could have a material adverse effect on our operating results and on the carrying value of our goodwill or wireless licenses and/or our long-lived assets on our balance sheet.

We May Incur Higher Than Anticipated Inter-carrier Compensation Costs.

When our customers use our service to call customers of other carriers, we are required under the current inter-carrier compensation scheme to pay the carrier that serves the called party. Similarly, when a customer of another carrier calls one of our customers, that carrier is required to pay us. While in most cases we have been successful in negotiating agreements with other carriers that impose reasonable reciprocal compensation arrangements, some carriers have claimed a right to unilaterally impose what we believe to be unreasonably high charges on us. The FCC is actively considering possible regulatory approaches to address this situation but we cannot assure you that the FCC rulings will be beneficial to us. An adverse ruling or FCC inaction could result in carriers successfully collecting higher inter-carrier fees from us, which could adversely affect our business.

The FCC also is considering making various significant changes to the inter-carrier compensation scheme to which we are subject. We cannot predict with any certainty the likely outcome of this FCC proceeding. Some of the alternatives that are under active consideration by the FCC could severely increase the interconnection costs we pay. If we are unable to cost-effectively provide our products and services to customers, our competitive position and business prospects could be materially adversely affected.

If We Experience High Rates of Credit Card, Subscription or Dealer Fraud, Our Ability to Generate Cash Flow Will Decrease.

Our operating costs can increase substantially as a result of customer credit card, subscription or dealer fraud. We have implemented a number of strategies and processes to detect and prevent efforts to defraud us, and we believe that our efforts have substantially reduced the types of fraud we have identified. However, if our strategies are not successful in detecting and controlling fraud in the future, the resulting loss of revenue or increased expenses could have a material adverse impact on our financial condition and results of operations.

Table of Contents

Risks Related to this Offering and Ownership of Our Common Stock

Our Stock Price May Be Volatile, and You May Lose All or Some of Your Investment.

The trading prices of the securities of telecommunications companies have been highly volatile. Accordingly, the trading price of Leap common stock has been, and is likely to be, subject to wide fluctuations. Factors affecting the trading price of Leap common stock may include, among other things:

variations in our operating results or those of our competitors;

announcements of technological innovations, new services or service enhancements, strategic alliances or significant agreements by us or by our competitors;

entry of new competitors into our markets;

significant developments with respect to our intellectual property or related litigation;

the announcements and bidding of auctions for new spectrum;

recruitment or departure of key personnel;

changes in the estimates of our operating results or changes in recommendations by any securities analysts that elect to follow Leap common stock;

any default under our Credit Agreement or our indenture because of a covenant breach or otherwise; and

market conditions in our industry and the economy as a whole.

We May Elect To Raise Additional Equity Capital Which May Dilute Existing Stockholders.

We may raise significant capital to finance business expansion activities, which could consist of debt, convertible debt and/or equity financing from the public and/or private capital markets. To the extent that we elect to raise convertible debt or equity capital, this financing may not be available in sufficient amounts or on terms acceptable to us and may be dilutive to existing stockholders. In addition, these sales could reduce the trading price of Leap's common stock and impede our ability to raise future capital. If we required additional financing in the capital markets to take advantage of business expansion activities or to accelerate our pace of new market launches and could not obtain such financing on terms we found acceptable, we would likely reduce our investment in expansion activities or slow the pace of expansion activities to match our capital requirements to our available liquidity.

Your Ownership Interest in Leap Will Be Diluted Upon Issuance of Shares We Have Reserved for Future Issuances, and Future Issuances or Sales of Such Shares May Adversely Affect The Market Price of Leap's Common Stock.

As of May 2, 2008, 68,986,506 shares of Leap common stock were issued and outstanding, and 7,153,494 additional shares of Leap common stock were reserved for issuance, including 5,821,055 shares reserved for issuance upon exercise of awards granted or available for grant under Leap's 2004 Stock Option, Restricted Stock and Deferred Stock Unit Plan, as amended, 732,439 shares reserved for issuance under Leap's Employee Stock Purchase Plan, and 600,000 shares reserved for issuance upon exercise of outstanding warrants.

In addition, Leap has reserved five percent of its outstanding shares, which represented 3,449,325 shares of common stock as of May 2, 2008, for potential issuance to CSM upon the exercise of CSM's option to put its entire equity interest in LCW Wireless to Cricket. CSM's put right generally expires on July 1, 2014. Under the amended and restated limited liability company agreement with CSM and WLPCS, the purchase price for CSM's equity interest is calculated on a pro rata basis using either the appraised value of LCW Wireless or a multiple of Leap's enterprise value divided by its adjusted earnings before interest, taxes, depreciation and amortization, or EBITDA, and applied to LCW Wireless' adjusted EBITDA to impute an enterprise value and equity value for LCW Wireless. Cricket may satisfy the put price either in cash or in Leap common stock, or a combination thereof, as determined by Cricket in its discretion. However, the covenants in the Credit Agreement do not permit Cricket to satisfy any substantial portion of its put obligations to CSM in cash. If Cricket elects to satisfy its put obligations to CSM with

Table of Contents

Leap common stock, the obligations of the parties are conditioned upon the block of Leap common stock issuable to CSM not constituting more than five percent of Leap's outstanding common stock at the time of issuance. Dilution of the outstanding number of shares of Leap's common stock could adversely affect prevailing market prices for Leap's common stock.

We have agreed to prepare and file a resale shelf registration statement for any shares of Leap common stock issued to CSM in connection with the put, and to use our reasonable efforts to cause such registration statement to be declared effective by the SEC. In addition, we have registered all shares of common stock that we may issue under our stock option, restricted stock and deferred stock unit plan and under our employee stock purchase plan. When we issue shares under these stock plans, they can be freely sold in the public market. If any of Leap's stockholders cause a large number of securities to be sold in the public market, these sales could reduce the trading price of Leap's common stock. These sales also could impede our ability to raise future capital.

Our Directors and Affiliated Entities Have Substantial Influence over Our Affairs, and Our Ownership Is Highly Concentrated. Sales of a Significant Number of Shares by Large Stockholders May Adversely Affect the Market Price of Leap Common Stock.

Our directors and entities affiliated with them beneficially owned in the aggregate approximately 23.0% of Leap common stock as of May 2, 2008. Moreover, our four largest stockholders and entities affiliated with them beneficially owned in the aggregate approximately 59.5% of Leap common stock as of May 2, 2008. These stockholders have the ability to exert substantial influence over all matters requiring approval by our stockholders. These stockholders will be able to influence the election and removal of directors and any merger, consolidation or sale of all or substantially all of Leap's assets and other matters. This concentration of ownership could have the effect of delaying, deferring or preventing a change in control or impeding a merger or consolidation, takeover or other business combination.

Our resale shelf registration statement, as amended, of which this prospectus forms a part, registers for resale 11,755,806 shares of Leap common stock held by entities affiliated with one of our directors, or approximately 17.0% of Leap's outstanding common stock as of May 2, 2008. We are unable to predict the potential effect that sales into the market of any material portion of such shares, or any of the other shares held by our other large stockholders and entities affiliated with them, may have on the then-prevailing market price of Leap common stock. If any of Leap's stockholders cause a large number of securities to be sold in the public market, these sales could reduce the trading price of Leap common stock. These sales could also impede our ability to raise future capital.

Provisions in Our Amended and Restated Certificate of Incorporation and Bylaws or Delaware Law, and Provisions in Our Credit Agreement and Indenture, Might Discourage, Delay or Prevent a Change in Control of Our Company or Changes in Our Management and, Therefore, Depress The Trading Price of Our Common Stock.

Our amended and restated certificate of incorporation and bylaws contain provisions that could depress the trading price of Leap common stock by acting to discourage, delay or prevent a change in control of our company or changes in our management that our stockholders may deem advantageous. These provisions:

require super-majority voting to amend some provisions in our amended and restated certificate of incorporation and bylaws;

authorize the issuance of blank check preferred stock that our board of directors could issue to increase the number of outstanding shares to discourage a takeover attempt;

prohibit stockholder action by written consent, and require that all stockholder actions be taken at a meeting of our stockholders;

provide that the board of directors is expressly authorized to make, alter or repeal our bylaws; and

establish advance notice requirements for nominations for elections to our board or for proposing matters that can be acted upon by stockholders at stockholder meetings.

Table of Contents

We are also subject to Section 203 of the Delaware General Corporation Law, which generally prohibits a Delaware corporation from engaging in any of a broad range of business combinations with any interested stockholder for a period of three years following the date on which the stockholder became an interested stockholder and which may discourage, delay or prevent a change in control of our company.

In addition, our Credit Agreement also prohibits the occurrence of a change of control and, under our indenture, if a change of control occurs, each holder of the notes may require Cricket to repurchase all of such holder's notes at a purchase price equal to 101% of the principal amount of the notes, plus accrued and unpaid interest. See Part 1 Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources of our Quarterly Report on Form 10-Q for the three months ended March 31, 2008 filed with the SEC on May 12, 2008.

Table of Contents**USE OF PROCEEDS**

We will not receive any of the proceeds from the sale of the shares by the selling stockholders.

PRICE RANGE OF LEAP COMMON STOCK

Our common stock traded on the OTC Bulletin Board until August 16, 2004 under the symbol LWINQ. When we emerged from our Chapter 11 proceedings on August 16, 2004, all of our formerly outstanding common stock was cancelled in accordance with our plan of reorganization and our former common stockholders ceased to have any ownership interest in us. The new shares of our common stock issued under our plan of reorganization traded on the OTC Bulletin Board under the symbol LEAP. Commencing on June 29, 2005, our common stock became listed for trading on the Nasdaq National Market (now known as the Nasdaq Global Market) under the symbol LEAP. Commencing on July 1, 2006, our common stock became listed for trading on the Nasdaq Global Select Market, also under the symbol LEAP.

The following table sets forth the high and low closing prices per share of our common stock for the quarterly periods indicated, which correspond to our quarterly fiscal periods for financial reporting purposes. Through June 30, 2006, prices for our common stock are sales prices on the Nasdaq National Market. On and after July 1, 2006, prices for our common stock are sales prices on the Nasdaq Global Select Market.

	High(\$)	Low(\$)
Calendar Year 2006		
First Quarter	43.89	34.87
Second Quarter	47.41	39.84
Third Quarter	48.18	40.87
Fourth Quarter	61.37	47.26
Calendar Year 2007		
First Quarter	68.24	58.00
Second Quarter	87.46	66.84
Third Quarter	98.33	54.47
Fourth Quarter	83.74	32.01
Calendar Year 2008		
First Quarter	49.76	36.24
Second Quarter through May 15, 2008	60.03	47.89

On May 15, 2008, the last reported sale price of Leap's common stock on the Nasdaq Global Select Market was \$60.03 per share. As of May 2, 2008, there were 68,896,506 shares of common stock outstanding held by approximately 257 holders of record.

DIVIDEND POLICY

Leap has never paid or declared any cash dividends on its common stock and we do not anticipate paying any cash dividends on Leap common stock in the foreseeable future. The terms of our Credit Agreement and the indenture governing our unsecured senior notes restrict our ability to declare or pay dividends. We intend to retain future earnings, if any, to fund our growth. Any future payment of dividends to our stockholders will depend on decisions

that will be made by our board of directors and will depend on then existing conditions, including our financial condition, contractual restrictions, capital requirements and business prospects.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS
AND MANAGEMENT**

The following table contains information about the beneficial ownership of our common stock as of May 2, 2008 for:

each stockholder known by us to beneficially own more than 5% of our common stock;

each of our directors;

each of our named executive officers; and

all directors and executive officers as a group.

The percentage of ownership indicated in the following table is based on 68,986,506 shares of common stock outstanding on May 2, 2008.

Information with respect to beneficial ownership has been furnished by each director and officer, and with respect to beneficial owners of more than 5% of our common stock, by Schedules 13D and 13G, filed with the SEC by them. Beneficial ownership is determined in accordance with the rules of the SEC. Except as indicated by footnote and subject to community property laws where applicable, to our knowledge, the persons named in the table below have sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock subject to options or warrants held by that person that are currently exercisable or will become exercisable within 60 days after May 2, 2008 are deemed outstanding, while such shares are not deemed outstanding for purposes of computing percentage ownership of any other person.

5% Stockholders, Directors and Officers(1)	Number of Shares	Percent of Total

Also includes 21,236 shares issuable upon exercise of vested stock options.
- (12) Includes (a) restricted stock awards for 30,000 shares, of which 7,500 shares will vest on February 28, 2010, 7,500 shares will vest on February 28, 2011, and 15,000 shares will vest on February 29, 2012, (b) restricted stock awards for 13,070 shares which vest on October 26, 2010, subject to certain conditions and accelerated vesting, and (c) restricted stock awards for 6,000 shares which vest on December 20, 2010, as described under Compensation Discussion and Analysis 2007 Equity Awards at Fiscal Year-End and Compensation Discussion and Analysis Severance and Change in Control Arrangements. Also includes 142,880 shares issuable upon exercise of vested stock options.
- (13) Includes (a) restricted stock awards for 15,000 shares, of which 5,000 shares will vest on March 1, 2009 and 10,000 shares will vest on March 1, 2010, and (b) restricted stock awards for 3,000 shares which vest on December 20, 2010, as described under Compensation Discussion and Analysis 2007 Equity Awards at Fiscal Year-End and Compensation Discussion and Analysis Severance and Change in Control Arrangements. Also includes 22,387 shares issuable upon exercise of vested stock options.

Table of Contents**SELLING STOCKHOLDERS**

The following table provides the name of each selling stockholder and the number of shares of our common stock offered by each selling stockholder under this prospectus. The information regarding shares beneficially owned after the offering assumes the sale of all shares offered by the selling stockholders.

The selling stockholders do not have any position, office or other material relationship with us or any of our affiliates, nor have they had any position, office or material relationship with us or any of our affiliates within the past three years, except for those listed in the footnotes to the following table or under Compensation Committee Interlocks And Insider Participation included in our Definitive Proxy Statement on Schedule 14A filed with the SEC on April 23, 2008. The number of shares beneficially owned by each stockholder and each stockholder's percentage ownership prior to the offering is based on their outstanding shares of common stock as of May 2, 2008. The percentage of ownership indicated in the following table is based on 68,986,506 shares of common stock outstanding on May 2, 2008.

Information with respect to beneficial ownership has been furnished by each selling stockholder. Beneficial ownership is determined in accordance with the rules of the SEC. Except as indicated by footnote and subject to community property laws where applicable, to our knowledge, the persons named in the table below have sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them.

	Number of Shares Beneficially Owned Prior to Offering	Number of Shares Being Offered	Beneficial Ownership		
			Number of Beneficially Owned After Offering	Percentage of Shares Beneficially Owned	
				Before Offering	After Offering
Selling Stockholders:					
MHR Institutional Partners II LP(1)	3,340,378	3,340,378	-0-	4.8%	0%
MHR Institutional Partners IIA LP(1)	8,415,428	8,415,428	-0-	12.2%	0%
Total	11,755,806	11,755,806	-0-	17.0%	0%

- (1) MHR Institutional Advisors II LLC (Institutional Advisors) is the general partner of MHR Institutional Partners II LP and MHR Institutional Partners IIA LP. MHR Fund Management LLC (Fund Management) has entered into an investment management agreement with MHR Institutional Partners II LP and MHR Institutional Partners IIA LP. Dr. Mark H. Rachesky is the managing member of Institutional Advisors and Fund Management, and in such capacity, he exercises voting control over the Leap common stock held by these selling stockholders. Dr. Rachesky also serves as chairman of the board of directors of Leap. Each of Dr. Rachesky, Fund Management and Institutional Advisors may be deemed to be the beneficial owner of these securities. Dr. Rachesky disclaims beneficial ownership of these securities.

Table of Contents

PLAN OF DISTRIBUTION

The selling stockholders, or their pledgees, donees, transferees, or any of their successors in interest selling shares received from a named selling stockholder as a gift, partnership distribution or other non-sale-related transfer after the date of this prospectus (all of whom may be selling stockholders), may sell the securities from time to time on any stock exchange or automated interdealer quotation system on which the securities are listed, in the over-the-counter market, in privately negotiated transactions or otherwise, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at prices otherwise negotiated. The selling stockholders may sell the securities by one or more of the following methods, without limitation:

- (a) block trades in which the broker or dealer so engaged will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- (b) purchases by a broker or dealer as principal and resale by the broker or dealer for its own account pursuant to this prospectus;
- (c) an exchange distribution in accordance with the rules of any stock exchange on which the securities are listed;
- (d) ordinary brokerage transactions and transactions in which the broker solicits purchases;
- (e) privately negotiated transactions;
- (f) short sales;
- (g) through the writing of options on the securities, whether or not the options are listed on an options exchange;
- (h) through the distribution of the securities by any selling stockholder to its partners, members or stockholders;
- (i) one or more underwritten offerings on a firm commitment or best efforts basis; and
- (j) any combination of any of these methods of sale.

The selling stockholders may also transfer the securities by gift. We do not know of any arrangements by the selling stockholders for the sale of any of the securities.

The selling stockholders may engage brokers and dealers, and any brokers or dealers may arrange for other brokers or dealers to participate in effecting sales of the securities. These brokers, dealers or underwriters may act as principals, or as an agent of a selling stockholder. Broker-dealers may agree with a selling stockholder to sell a specified number of the securities at a stipulated price per security. If the broker-dealer is unable to sell securities acting as agent for a selling stockholder, it may purchase as principal any unsold securities at the stipulated price. Broker-dealers who acquire securities as principals may thereafter resell the securities from time to time in transactions on any stock exchange or automated interdealer quotation system on which the securities are then listed, at prices and on terms then prevailing at the time of sale, at prices related to the then-current market price or in negotiated transactions. Broker-dealers may use block transactions and sales to and through broker-dealers, including transactions of the nature described above. The selling stockholders may also sell the securities in accordance with Rule 144 under the Securities Act, rather than pursuant to this prospectus, regardless of whether the securities are covered by this prospectus.

From time to time, one or more of the selling stockholders may pledge, hypothecate or grant a security interest in some or all of the securities owned by them. The pledgees, secured parties or persons to whom the securities have been hypothecated will, upon foreclosure in the event of default, be deemed to be selling stockholders. As and when a selling stockholder takes such actions, the number of securities offered under this prospectus on behalf of such selling stockholder will decrease. The plan of distribution for that selling stockholder's securities will otherwise remain unchanged. In addition, a selling stockholder may, from time to time, sell the securities short, and, in those instances, this prospectus may be delivered in connection with the short sales and the securities offered under this prospectus may be used to cover short sales.

Table of Contents

To the extent required under the Securities Act, the aggregate amount of selling stockholders' securities being offered and the terms of the offering, the names of any agents, brokers, dealers or underwriters and any applicable commission with respect to a particular offer will be set forth in an accompanying prospectus supplement. Any underwriters, dealers, brokers or agents participating in the distribution of the securities may receive compensation in the form of underwriting discounts, concessions, commissions or fees from a selling stockholder and/or purchasers of selling stockholders' securities for whom they may act (which compensation as to a particular broker-dealer might be in excess of customary commissions).

The selling stockholders and any underwriters, brokers, dealers or agents that participate in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act, and any discounts, concessions, commissions or fees received by them and any profit on the resale of the securities sold by them may be deemed to be underwriting discounts and commissions.

A selling stockholder may enter into hedging transactions with broker-dealers and the broker-dealers may engage in short sales of the securities in the course of hedging the positions they assume with that selling stockholder, including, without limitation, in connection with distributions of the securities by those broker-dealers. A selling stockholder may enter into option or other transactions with broker-dealers that involve the delivery of the securities offered hereby to the broker-dealers, who may then resell or otherwise transfer those securities. A selling stockholder may also loan or pledge the securities offered hereby to a broker-dealer and the broker-dealer may sell the securities offered hereby so loaned or upon a default may sell or otherwise transfer the pledged securities offered hereby.

A selling stockholder may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by the selling stockholder or borrowed from the selling stockholder or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from the selling stockholder in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment).

The selling stockholders and other persons participating in the sale or distribution of the securities will be subject to applicable provisions of the Securities Exchange Act of 1934, or the Exchange Act, and the rules and regulations thereunder, including Regulation M. This regulation may limit the timing of purchases and sales of any of the securities by the selling stockholders and any other person. The anti-manipulation rules under the Exchange Act may apply to sales of securities in the market and to the activities of the selling stockholders and their affiliates. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of the securities to engage in market-making activities with respect to the particular securities being distributed for a period of up to five business days before the distribution. These restrictions may affect the marketability of the securities and the ability of any person or entity to engage in market-making activities with respect to the securities.

We have agreed to indemnify in certain circumstances the selling stockholders and any brokers, dealers and agents (who may be deemed to be underwriters), if any, of the securities covered by the registration statement, against certain liabilities, including liabilities under the Securities Act. The selling stockholders have agreed to indemnify us in certain circumstances against certain liabilities, including liabilities under the Securities Act.

The securities offered hereby were originally issued to the selling stockholders pursuant to an exemption from the registration requirements of the Securities Act. We agreed to register the securities under the Securities Act and to keep the Registration Statement of which this prospectus is a part effective for a specified period of time. We have

agreed to pay all expenses in connection with this offering, including the fees and expenses of counsel to the selling stockholders, but not including underwriting discounts, concessions, commissions or fees of the selling stockholders.

We will not receive any proceeds from sales of any securities by the selling stockholders.

We cannot assure you that the selling stockholders will sell all or any portion of the securities offered hereby.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

Leap's authorized capital stock consists of 160,000,000 shares of common stock, \$0.0001 par value per share, and 10,000,000 shares of preferred stock, \$0.0001 par value per share.

The following summary of the rights of Leap's common stock and preferred stock is not complete and is qualified in its entirety by reference to our amended and restated certificate of incorporation and amended and restated bylaws, copies of which are filed as exhibits to Leap's Registration Statement on Form S-1, as amended, of which this prospectus forms a part.

Common Stock

As of May 2, 2008, there were 68,986,506 shares of common stock outstanding.

As of May 2, 2008, there were warrants outstanding to purchase 600,000 shares of Leap's common stock.

As of May 2, 2008, Leap had approximately 257 record holders of Leap's common stock.

Voting Rights

Holders of Leap's common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. The holders of common stock are not entitled to cumulative voting rights with respect to the election of directors, which means that the holders of a majority of the shares voted can elect all of the directors then standing for election.

Dividends

Subject to limitations under Delaware law and preferences that may apply to any outstanding shares of preferred stock, holders of Leap's common stock are entitled to receive ratably such dividends or other distribution, if any, as may be declared by Leap's board of directors out of funds legally available therefor.

Liquidation

In the event of our liquidation, dissolution or winding up, holders of Leap's common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to the liquidation preference of any outstanding preferred stock.

Rights and Preferences

The common stock has no preemptive, conversion or other rights to subscribe for additional securities. There are no redemption or sinking fund provisions applicable to Leap's common stock. The rights, preferences and privileges of holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that Leap may designate and issue in the future.

Fully Paid and Non-assessable

All outstanding shares of Leap's common stock are, validly issued, fully paid and non-assessable.

Preferred Stock

Leap's board of directors is authorized, subject to the limits imposed by the Delaware General Corporation Law, to issue up to 10,000,000 shares of preferred stock in one or more series, to establish from time to time the number of shares to be included in each series, to fix the rights, preferences and privileges of the shares of each wholly unissued series and any of its qualifications, limitations and restrictions. Leap's board of directors can also increase or decrease the number of shares of any series, but not below the number of shares of that series then outstanding, without any further vote or action by Leap's stockholders.

Leap's board of directors may authorize the issuance of preferred stock with voting or conversion rights that adversely affect the voting power or other rights of Leap's common stockholders. The issuance of preferred stock,

Table of Contents

while providing flexibility in connection with possible acquisitions, financings and other corporate purposes, could have the effect of delaying, deferring or preventing our change in control and may cause the market price of Leap's common stock to decline or impair the voting and other rights of the holders of Leap's common stock. We have no current plans to issue any shares of preferred stock. At May 2, 2008, Leap had no shares of preferred stock outstanding.

Warrants

As of May 2, 2008, there were warrants outstanding to purchase 600,000 shares of our capital stock. The warrants expire on March 23, 2009. These warrants have an exercise price of \$16.83 per share and contain customary anti-dilution and net-issuance provisions.

Registration Rights Agreement with the Selling Holders

Under a registration rights agreement, as amended, certain of Leap's stockholders have the right to require us to register their shares with the SEC so that those shares may be publicly resold, or to include their shares in any registration statement we file as follows:

Demand Registration Rights

At any time after June 30, 2005, any holder who is a party to the registration rights agreement and who holds a minimum of 15% of the common stock covered by the registration rights agreement, has the right to demand that we file a registration statement covering the resale of its common stock, subject to a maximum of three such demands in the aggregate for all holders and to other specified exceptions. The underwriters of any such offering will have the right to limit the number of shares to be offered except that if the limit is imposed, then only shares held by holders who are parties to the registration rights agreement will be included in such offering and the number of shares to be included in such offering will be allocated pro rata among those same parties. In addition, while we are in registration, we generally will not be required to take any action to effect a demand registration.

Piggyback Registration Rights

If we register any securities for public sale, stockholders with registration rights will have the right to include their shares in the registration statement. The underwriters of any underwritten offering will have the right to limit the number of such shares to be included in the registration statement, except, in any underwritten offering that is not a demand registration, the number of shares held by these stockholders cannot be reduced to less than 50% of the total number of securities that are included in such registration statement.

Shelf Registration Rights

Not later than June 30, 2005, we were required to file with the SEC a resale shelf registration statement covering all shares of common stock held by these stockholders to be offered to the public on a delayed or continuous basis, subject to specified exceptions. We have filed a resale shelf Registration Statement, of which this prospectus forms a part, pursuant to this registration rights agreement. We are required to use reasonable efforts to keep this Registration Statement continuously effective until (a) all shares of common stock registered pursuant to the Registration Statement have been sold; (b) such shares of common stock have been sold or transferred in accordance with the provisions of Rule 144 promulgated under the Securities Act; (c) such shares of common stock are sold or transferred (other than in a transaction under (a) or (b) above) by these stockholders in a transaction in which the rights under this registration rights agreement are not assigned; (d) such shares of common stock are no longer outstanding; or (e) such shares of common stock may be sold or transferred by these stockholders or beneficial owners of such shares pursuant

to Rule 144(k).

Expenses of Registration

Other than underwriting fees, discounts and commissions, we will pay all reasonable expenses relating to piggyback registrations and all reasonable expenses relating to demand registrations.

Table of Contents

Expiration of Registration Rights

The registration rights described above will terminate for a particular holder when (a) all shares of common stock registered pursuant to the resale shelf Registration Statement, of which this prospectus forms a part, have been sold; (b) such shares of common stock have been sold or transferred in accordance with the provisions of Rule 144 promulgated under the Securities Act; (c) such shares of common stock are sold or transferred (other than in a transaction under (a) or (b) above) by these stockholders in a transaction in which the rights under this registration rights agreement are not assigned; (d) such shares of common stock are no longer outstanding; or (e) such shares of common stock may be sold or transferred by these stockholders or beneficial owners of such shares pursuant to Rule 144(k).

Registration Rights Granted to CSM in Connection with LCW Wireless Transaction

Leap has reserved five percent of its outstanding shares, which was 3,449,325 shares as of May 2, 2008, for potential issuance to CSM upon the exercise of CSM's option to put its entire equity interest in LCW Wireless to Cricket. CSM's put right generally expires on July 1, 2014. Under the LCW Wireless Limited Liability Company Agreement, the purchase price for CSM's equity interest is calculated on a pro rata basis using either the appraised value of LCW Wireless or a multiple of Leap's enterprise value divided by its adjusted EBITDA and applied to LCW Wireless adjusted EBITDA to impute an enterprise value and equity value for LCW Wireless. Cricket may satisfy the put price either in cash or in Leap common stock, or a combination thereof, as determined by Cricket in its discretion. However, the covenants in the Credit Agreement do not permit Cricket to satisfy any substantial portion of its put obligations to CSM in cash. If Cricket satisfies its put obligations to CSM with Leap common stock, the obligations of the parties are conditioned upon the block of Leap common stock issuable to CSM not constituting more than five percent of Leap's outstanding common stock at the time of issuance.

We have agreed to prepare and file a resale shelf registration statement for any shares of Leap common stock that may be issued to CSM upon the exercise of CSM's option to put its entire equity interest in LCW Wireless to Cricket. See Part I Item 1. Business Arrangements with LCW Wireless in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on February 29, 2008 for additional information. Such resale shelf registration statement will cover these shares of common stock held by CSM to be offered to the public on a delayed or continuous basis, subject to specified exceptions. We will be required to keep such resale shelf registration statement effective with the SEC until (a) all such shares of common stock registered pursuant to the registration statement have been resold; or (b) all such shares of common stock may be sold or transferred pursuant to Rule 144. Other than underwriting fees, discounts and commissions, the fees and disbursements of counsel retained by CSM and transfer taxes, if any, we will pay all reasonable expenses incident to the registration of such shares.

Anti-takeover Effects of Delaware Law and Provisions of Our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws

Delaware Takeover Statute

We are subject to Section 203 of the Delaware General Corporation Law. This statute regulating corporate takeovers prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for three years following the date that the stockholder became an interested stockholder, unless:

prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding (a) shares owned by persons who are directors and also officers and (b) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

Table of Contents

on or subsequent to the date of the transaction, the business combination is approved by the board and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 662/3% of the outstanding voting stock which is not owned by the interested stockholder.

Section 203 defines a business combination to include:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, transfer, pledge or other disposition involving the interested stockholder of 10% or more of the assets of the corporation;

subject to exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by the entity or person.

Amended and Restated Certificate of Incorporation and Amended and Restated Bylaw Provisions

Provisions of Leap's amended and restated certificate of incorporation and amended and restated bylaws, may have the effect of making it more difficult for a third-party to acquire, or discourage a third-party from attempting to acquire, control of our company by means of a tender offer, a proxy contest or otherwise. These provisions may also make the removal of incumbent officers and directors more difficult. These provisions are intended to discourage certain types of coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of Leap to first negotiate with us. These provisions could also limit the price that investors might be willing to pay for shares of Leap's common stock. These provisions may make it more difficult for stockholders to take specific corporate actions and could have the effect of delaying or preventing a change in control of Leap. The amendment of any of these anti-takeover provisions would require approval by holders of at least 662/3% of our outstanding common stock entitled to vote on such amendment.

In particular, Leap's certificate of incorporation and bylaws as amended and restated, provide for the following:

No Written Consent of Stockholders

Any action to be taken by Leap's stockholders must be effected at a duly called annual or special meeting and may not be effected by written consent.

Special Meetings of Stockholders

Special meetings of Leap's stockholders may be called only by the chairman of the board of directors, the chief executive officer or president, or a majority of the members of the board of directors.

Advance Notice Requirement

Stockholder proposals to be brought before an annual meeting of Leap's stockholders must comply with advance notice procedures. These advance notice procedures require timely notice and apply in several situations, including stockholder proposals relating to the nominations of persons for election to the board of directors. Generally, to be timely, notice must be received at our principal executive offices not less than 70 days nor more than 90 days prior to the first anniversary date of the annual meeting for the preceding year.

Amendment of Bylaws and Certificate of Incorporation

The approval of not less than 66²/₃% of the outstanding shares of Leap's capital stock entitled to vote is required to amend the provisions of Leap's amended and restated bylaws by stockholder action, or to amend provisions of Leap's amended and restated certificate of incorporation described in this section or that are described in Compensation Discussion & Analysis Indemnification of Directors and Executive Officers and Limitation on Liability in our Definitive Proxy Statement on Schedule 14A filed with the SEC on April 23, 2008. These provisions make it more difficult to circumvent the anti-takeover provisions of Leap's certificate of incorporation and our bylaws.

Table of Contents

Issuance of Undesignated Preferred Stock

Leap's board of directors is authorized to issue, without further action by the stockholders, up to 10,000,000 shares of preferred stock with rights and preferences, including voting rights, designated from time to time by the board of directors. The existence of authorized but unissued shares of preferred stock enables Leap's board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise.

Credit Agreement and Indenture

Our Credit Agreement prohibits the occurrence of a change of control and, under our indenture, if a change of control occurs, each holder of the notes may require Cricket to repurchase all of such holder's notes at a purchase price equal to 101% of the principal amount of the notes, plus accrued and unpaid interest. See Part I Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources in our Quarterly Report on Form 10-Q for the three months ended March 31, 2008 filed with the SEC on May 12, 2008 for additional information.

Transfer Agent and Registrar

The transfer agent and registrar for Leap's common stock is Mellon Bank Investor Services, LLC.

Nasdaq Global Select Market

Leap's common stock is listed for trading on the Nasdaq Global Select Market under the symbol LEAP.

LEGAL MATTERS

The validity of the shares of common stock offered by this prospectus has been passed upon for us by Latham & Watkins LLP, San Diego, California.

EXPERTS

The consolidated financial statements of Leap and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial Reporting) incorporated in this prospectus by reference to the Annual Report on Form 10-K of Leap for the year ended December 31, 2007 have been so incorporated in reliance on the report (which contains an adverse opinion on the effectiveness of internal control over financial reporting) of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

**LIMITATION ON LIABILITY AND DISCLOSURE OF COMMISSION POSITION ON
INDEMNIFICATION FOR SECURITIES ACT LIABILITIES**

Our certificate of incorporation and bylaws provide that we will indemnify our directors and officers, and may indemnify our employees and other agents, to the fullest extent permitted by the Delaware General Corporation Law. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the reporting, proxy and information requirements of the Exchange Act, as amended, and file annual, quarterly and special reports, proxy statements and other information with the SEC. You may read and copy any reports, proxy statements and other information we file at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. You may also access filed documents at the SEC's web site at www.sec.gov, as well as on our website, www.leapwireless.com. The information contained in, or that can be accessed through, our website is not part of this prospectus.

INCORPORATION OF DOCUMENTS BY REFERENCE

The SEC allows us to incorporate by reference certain of our publicly filed documents into this prospectus, which means that important information included in such publicly filed documents is considered part of this prospectus. The documents we incorporate by reference into this prospectus are:

Our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on February 29, 2008.

Our Quarterly Report on Form 10-Q for the three months ended March 31, 2008 filed with the SEC on May 12, 2008.

Our Current Report on Form 8-K dated February 20, 2008 filed with the SEC on February 26, 2008.

Our Current Report on Form 8-K dated February 27, 2008 filed with the SEC on February 27, 2008.

Our Current Report on Form 8-K dated March 10, 2008 filed with the SEC on March 14, 2008.

Our Definitive Proxy Statement on Schedule 14A filed with the SEC on April 23, 2008.

Any statement contained in a document incorporated by reference in this prospectus will be deemed to be modified or superseded for the purposes of this prospectus to the extent that a later statement contained herein or in any other document incorporated by reference in this prospectus modifies or supersedes the earlier statement. Any statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this prospectus.

We will provide at no cost to each person, including any beneficial owner, to whom this prospectus is delivered, upon oral or written request of such person, a copy of any or all of the reports or documents that have been incorporated by reference in this prospectus, but not delivered with the prospectus. Requests for such copies should be directed to:

Amy Wakeham
Leap Wireless International, Inc.
10307 Pacific Center Court
San Diego, California 92121
(858) 882-6000

These documents may also be accessed through our website at www.leapwireless.com or as described under "Where You Can Find More Information" above. The information contained in, or that can be accessed through, our websites is not part of this prospectus.

Table of Contents

LEAP WIRELESS INTERNATIONAL, INC.

Table of Contents**PART II****INFORMATION NOT REQUIRED IN PROSPECTUS****ITEM 13. *Other Expenses of Issuance and Distribution.***

The following table sets forth the costs and expenses, other than the underwriting discount, payable by the registrant in connection with the sale of common stock being registered. All amounts are estimates except for the SEC registration fee:

SEC registration fee	\$ 55,383
Printing and engraving expenses	14,000*
Legal fees and expenses	80,000*
Accounting fees and expenses	105,000*
Miscellaneous	15,617
Total	\$ 270,000

* Includes estimated printing and engraving expenses, legal fees and expenses, and accounting fees and expenses for the original Registration Statement on Form S-1 filed with the SEC on June 30, 2005, the Post-Effective Amendment No. 1 to Registration Statement on Form S-1 filed with the SEC on April 14, 2006, the Post-Effective Amendment No. 2 on Form S-3 to Registration Statement on Form S-1 filed with the SEC on September 5, 2006, the Post-Effective Amendment No. 3 on Form S-1 to Registration Statement on Form S-3 filed with the SEC on March 28, 2008, and this Post-Effective Amendment No. 4 to Registration Statement on Form S-1.

ITEM 14. *Indemnification of Directors and Executive Officers and Limitation on Liability.*

As permitted by Section 102 of the Delaware General Corporation Law, Leap has adopted provisions in its amended and restated certificate of incorporation and amended and restated bylaws that limit or eliminate the personal liability of Leap's directors for a breach of their fiduciary duty of care as a director. The duty of care generally requires that, when acting on behalf of the corporation, directors exercise an informed business judgment based on all material information reasonably available to them. Consequently, a director will not be personally liable to Leap or its stockholders for monetary damages or breach of fiduciary duty as a director, except for liability for:

- any breach of the director's duty of loyalty to Leap or its stockholders;
- any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- any act related to unlawful stock repurchases, redemptions or other distributions or payment of dividends; or
- any transaction from which the director derived an improper personal benefit.

These limitations of liability do not affect the availability of equitable remedies such as injunctive relief or rescission. Leap's amended and restated certificate of incorporation also authorizes Leap to indemnify its officers, directors and other agents to the fullest extent permitted under Delaware law.

As permitted by Section 145 of the Delaware General Corporation Law, Leap's amended and restated bylaws provide that:

Leap may indemnify its directors, officers, and employees to the fullest extent permitted by the Delaware General Corporation Law, subject to limited exceptions;

Leap may advance expenses to its directors, officers and employees in connection with a legal proceeding to the fullest extent permitted by the Delaware General Corporation Law, subject to limited exceptions; and

the rights provided in Leap's amended and restated bylaws are not exclusive.

Leap's amended and restated certificate of incorporation and amended and restated bylaws provide for the indemnification provisions described above. In addition, we have entered into separate indemnification agreements

Table of Contents

with our directors and officers which may be broader than the specific indemnification provisions contained in the Delaware General Corporation Law. These indemnification agreements may require us, among other things, to indemnify our officers and directors against liabilities that may arise by reason of their status or service as directors or officers, other than liabilities arising from willful misconduct. These indemnification agreements also may require us to advance any expenses incurred by the directors or officers as a result of any proceeding against them as to which they could be indemnified. In addition, we have purchased policies of directors and officers liability insurance that insure our directors and officers against the cost of defense, settlement or payment of a judgment in some circumstances. These indemnification provisions and the indemnification agreements may be sufficiently broad to permit indemnification of our officers and directors for liabilities, including reimbursement of expenses incurred, arising under the Securities Act.

Certain of our current and former officers and directors have been named as defendants in multiple lawsuits and several of these defendants have indemnification agreements with us. We are also a defendant in some of these lawsuits. See Part II Item 1. Legal Proceedings in our Quarterly Report on Form 10-Q for the three months ended March 31, 2008 filed with the SEC on May 12, 2008 for additional information.

ITEM 15. *Recent Sales of Unregistered Securities.*

None.

ITEM 16. *Exhibits and Financial Statement Schedules.*

No financial statement schedules are provided because the information called for is not applicable or is shown in the financial statements or notes thereto.

Table of Contents

ITEM 17. *Undertakings.*

We hereby undertake:

1. To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in the volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective Registration Statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement.

2. That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

We hereby undertake that, for purposes of determining liability under the Securities Act to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness.

Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by one of our directors, officers or controlling persons in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered hereunder, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
