Timberland Bancorp, Inc. and Subsidiary
Notes to Unaudited Condensed Consolidated Financial Statements

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation: The accompanying unaudited condensed consolidated financial statements for Timberland Bancorp, Inc. (“Company”) were prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with instructions for Form 10-Q and, therefore, do not include all disclosures necessary for a complete presentation of financial condition, results of operations, and cash flows in conformity with GAAP. However, all adjustments which are, in the opinion of management, necessary for a fair presentation of the interim condensed consolidated financial statements have been included. All such adjustments are of a normal recurring nature. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended September 30, 2013 (“2013 Form 10-K”). The unaudited condensed consolidated results of operations for the six months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the entire fiscal year ending September 30, 2014.

(b) Principles of Consolidation: The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Timberland Bank (“Bank”), and the Bank’s wholly-owned subsidiary, Timberland Service Corp. All significant intercompany transactions and balances have been eliminated in consolidation.

(c) Operating Segment: The Company has one reportable operating segment which is defined as community banking in western Washington under the operating name, “Timberland Bank.”

(d) The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(e) Certain prior period amounts have been reclassified to conform to the March 31, 2014 presentation with no change to net income or total shareholders’ equity previously reported.

(2) PREFERRED STOCK SOLD IN TROUBLED ASSET RELIEF PROGRAM (“TARP”) CAPITAL PURCHASE PROGRAM (“CPP”)

On December 23, 2008, the Company received \$16.64 million from the U.S. Treasury Department (“Treasury”) as a part of the Treasury’s CPP, which was established as part of the TARP. The Company sold 16,641 shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series A (“Series A Preferred Stock”), with a liquidation value of \$1,000 per share and a related warrant to purchase 370,899 shares of the Company’s common stock at an exercise price of \$6.73 per share (subject to anti-dilution adjustments) at any time through December 23, 2018. The Series A Preferred Stock paid a 5.0% dividend for the first five years, after which the rate was scheduled to increase to 9.0% if the preferred shares were not redeemed by the Company.

On November 13, 2012, the Company’s outstanding 16,641 shares of Series A Preferred Stock were sold by the Treasury as part of its efforts to manage and recover its investments under the TARP. While the sale of the shares of Series A Preferred Stock to new owners did not result in any proceeds to the Company and did not change the Company’s capital position or accounting for these securities, it did eliminate restrictions put in place by the Treasury on TARP recipients.

On June 12, 2013, the Treasury sold, to private investors, the warrant to purchase up to 370,899 shares of the Company's common stock. The sale of the warrant to new owners did not result in any proceeds to the Company and did not change the Company's capital position or accounting for the warrant.

During the year ended September 30, 2013 the Company purchased and retired 4,576 shares of its Series A Preferred Stock for \$4.32 million; a \$255,000 discount from the liquidation value. The discount from the liquidation value on the repurchased shares was recorded as an increase to retained earnings. On December 20, 2013, the Company redeemed the remaining 12,065 shares of its Series A Preferred Stock at the liquidation value of \$12.07 million.

(3) MBS AND OTHER INVESTMENTS

MBS and other investments have been classified according to management's intent and are as follows as of March 31, 2014 and September 30, 2013 (dollars in thousands):

| | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Estimated Fair Value |
|---------------------------|-------------------|------------------------------|-------------------------------|-------------------------|
| March 31, 2014 | | | | |
| Held to Maturity | | | | |
| MBS: | | | | |
| U.S. government agencies | \$1,098 | \$30 | \$(2) |) \$1,126 |
| Private label residential | 1,396 | 796 | (15) |) 2,177 |
| U.S. agency securities | 3,017 | 1 | (29) |) 2,989 |
| Total | \$5,511 | \$827 | \$(46) |) \$6,292 |
| Available for Sale | | | | |
| MBS: | | | | |
| U.S. government agencies | \$1,941 | \$104 | \$(2) |) \$2,043 |
| Mutual funds | 1,000 | — | (52) |) 948 |
| Total | \$2,941 | \$104 | \$(54) |) \$2,991 |
| September 30, 2013 | | | | |
| Held to Maturity | | | | |
| MBS: | | | | |
| U.S. government agencies | \$1,202 | \$31 | \$(2) |) \$1,231 |
| Private label residential | 1,521 | 781 | (15) |) 2,287 |
| U.S. agency securities | 14 | 1 | — |) 15 |
| Total | \$2,737 | \$813 | \$(17) |) \$3,533 |
| Available for Sale | | | | |
| MBS: | | | | |
| U.S. government agencies | \$2,144 | \$87 | \$(2) |) \$2,229 |
| Private label residential | 804 | 120 | (10) |) 914 |
| Mutual funds | 1,000 | — | (42) |) 958 |
| Total | \$3,948 | \$207 | \$(54) |) \$4,101 |

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

The following table summarizes the estimated fair value and gross unrealized losses for all securities and the length of time these unrealized losses existed as of March 31, 2014 (dollars in thousands):

| | Less Than 12 Months | | | 12 Months or Longer | | | Total | |

During the three months ended March 31, 2014 and 2013, the Company recorded net recoveries (OTTI) through earnings on residential MBS of \$89,000 and (\$25,000), respectively. During the six months ended March 31, 2014

and 2013, the Company recorded net recoveries (OTTI) through earnings of \$87,000 and (\$35,000) respectively. The Company provides for the bifurcation of OTTI into (i) amounts related to credit losses which are recognized through earnings, and (ii) amounts related to all other factors which are recognized as a component of other comprehensive income.

To determine the component of the gross OTTI related to credit losses, the Company compared the amortized cost basis of each OTTI security to the present value of its revised expected cash flows, discounted using its pre-impairment yield. The revised expected cash flow estimates for individual securities are based primarily on an analysis of default rates and prepayment speeds included in third-party analytic reports. Significant judgment by management is required in this analysis that includes, but is not limited to, assumptions regarding the collectability of principal and interest, net of related expenses, on the underlying loans.

The following table presents a summary of the significant inputs utilized to measure management's estimate of the credit loss component on OTTI securities as of March 31, 2014 and September 30, 2013:

| | Range Minimum | Maximum | Weighted Average | |
|--------------------------|------------------|---------|---------------------|---|
| March 31, 2014 | | | | |
| Constant prepayment rate | 6.00 | % 15.00 | % 9.13 | % |
| Collateral default rate | 0.45 | % 19.23 | % 6.96 | % |
| Loss severity rate | 12.54 | % 73.69 | % 47.76 | % |
| September 30, 2013 | | | | |
| Constant prepayment rate | 6.00 | % 15.00 | % 12.33 | % |
| Collateral default rate | 0.73 | % 22.53 | % 7.84 | % |
| Loss severity rate | 20.48 | % 75.02 | % 52.69 | % |

The following tables present the recoveries (OTTI) for the three and six months ended March 31, 2014 and 2013 (dollars in thousands):

| | Three Months Ended March 31, 2014 | | Three Months Ended March 31, 2013 | |
|---|--------------------------------------|-----------------------|--------------------------------------|-----------------------|
| | Held To Maturity | Available For Sale | Held To Maturity | Available For Sale |
| Total recoveries (OTTI) | \$89 | \$— | \$4 | \$— |
| Adjustment for portion recorded as (transferred from) other comprehensive income (loss) before taxes (1) | — | — | (29 |) — |
| Net recoveries (OTTI) recognized in earnings (2) | \$89 | \$— | \$(25 |) \$— |
| | | | | |
| | Six Months Ended March 31, 2014 | | Six Months Ended March 31, 2013 | |
| | Held To Maturity | Available For Sale | Held To Maturity | Available For Sale |
| Total recoveries (OTTI) | \$86 | \$— | \$(2 |) \$(1 |
| Adjustment for portion recorded as (transferred from) other comprehensive income (loss) before taxes (1) | 1 | — | (32 |) — |
| Net recoveries (OTTI) recognized in earnings (2) | \$87 | \$— | \$(34 |) \$(1 |

(1) Represents OTTI related to all other factors.

(2) Represents net recoveries (OTTI) related to credit losses.

The following table presents a roll-forward of the credit loss component of held to maturity and available for sale debt securities that have been written down for OTTI with the credit loss component recognized in earnings and the remaining impairment loss related to all other factors recognized in other comprehensive income for the six months ended March 31, 2014 and 2013 (dollars in thousands):

| | Six Months Ended March 31, | |
|--|----------------------------|---------|
| | 2014 | 2013 |
| Beginning balance of credit loss | \$2,084 | \$2,703 |
| Additions: | | |
| Credit losses for which OTTI was not previously recognized | 2 | 5 |
| Additional increases to the amount related to credit loss for which OTTI was previously recognized | — | 30 |
| Subtractions: | | |
| Realized losses previously recorded as credit losses | (492 |) (384 |
| Recovery of prior credit loss | 87 | — |
| Ending balance of credit loss | \$1,681 | \$2,354 |

There was a \$32,000 realized loss on sale of securities for the three and six months ended March 31, 2014. There was no realized loss on sale of securities for the three and six months ended March 31, 2013. During the three months ended March 31, 2014, the Company recorded a net \$365,000 realized loss (as a result of the securities being deemed worthless) on 12 held to maturity residential MBS and five available for sale residential MBS, of which the entire amount had been recognized previously as a credit loss. During the six months ended March 31, 2014, the Company recorded a net \$405,000 realized loss (as a result of securities being deemed worthless) on 15 held to maturity residential MBS and six available for sale MBS, of which the entire amount had been recognized previously as a credit loss. During the three months ended March 31, 2013, the Company recorded a \$152,000 realized loss (as a result of the securities being deemed worthless) on 15 held to maturity residential MBS and six available for sale residential MBS, of which the entire amount had been recognized previously as a credit loss. During the six months ended March 31, 2013, the Company recorded a \$384,000 realized loss (as a result of securities being deemed worthless) on 17 held to maturity residential MBS and six available for sale MBS, of which the entire amount had been recognized previously as a credit loss.

The amortized cost of residential mortgage-backed and agency securities pledged as collateral for public fund deposits, federal treasury tax and loan deposits, FHLB collateral, retail repurchase agreements and other non-profit organization deposits totaled \$6.49 million and \$4.54 million at March 31, 2014 and September 30, 2013, respectively.

The contractual maturities of debt securities at March 31, 2014 were as follows (dollars in thousands). Expected maturities may differ from scheduled maturities as a result of the prepayment of principal or call provisions.

| | Held to Maturity | | Available for Sale | |
|----------------------------------|-------------------|----------------------------|--------------------|----------------------------|
| | Amortized Cost | Estimated Fair Value | Amortized Cost | Estimated Fair Value |
| Due within one year | \$— | \$— | \$— | \$— |
| Due after one year to five years | 20 | 21 | 24 | 23 |
| Due after five to ten years | 3,017 | 2,988 | 32 | 33 |
| Due after ten years | 2,474 | 3,283 | 1,885 | 1,987 |
| Total | \$5,511 | \$6,292 | \$1,941 | \$2,043 |

(4) GOODWILL

The Company performed its fiscal year 2013 goodwill impairment test during the quarter ended June 30, 2013 with the assistance of a third-party firm specializing in goodwill impairment valuations for financial institutions. The third-party analysis was conducted as of May 31, 2013 and the final adjusted conclusion received subsequent to September 30, 2013 was

15

that the fair value of goodwill as of May 31, 2013 was \$25.0 million, which exceeded the recorded value of \$5.7 million by 339% .

The goodwill impairment test involved a two-step process. Step one of the goodwill impairment test estimated the fair value of the reporting unit utilizing the allocation of corporate value approach, the income approach and the market approach in order to derive an enterprise value for the Company.

The allocation of corporate value approach applies the aggregate market value of the Company and divides it among the reporting units. The Company has a single reporting unit. The aggregate market value was based on the Company's common stock market price on May 31, 2013, adjusted for a control premium and the value of preferred stock (at its liquidation value). A key assumption in this approach is the control premium applied to the aggregate market value. A control premium is utilized as the value of a company from the perspective of a controlling interest and is generally higher than the widely quoted market price per share. The Company used an expected control premium of 30%, which was based on comparable transaction history.

The income approach uses a reporting unit's projection of estimated operating results and cash flows that are discounted using a rate that reflects current market conditions. The projection uses management's estimates of economic and market conditions over the projected period including growth rates in loans and deposits, estimates of future expected changes in net interest margins and cash expenditures. Key assumptions used by the Company in its discounted cash flow model (income approach) included an annual revenue growth rate that approximated 3.0% and a return on assets that ranged from 0.54% to 1.01% (average of 0.73%). In addition to the above projections of estimated operating results, key assumptions used to determine the fair value estimate under the income approach were the discount rate of 15.0% utilized for the Company's cash flow estimate and a terminal value of 1.25 times the ending book value of the reporting unit. The Company used a build-up approach in developing the discount rate that included an assessment of the risk free interest rate, the rate of return expected from publicly traded stocks based on an analysis of historical data, the industry the Company operates in and the size of the Company.

The market approach estimates the fair value by applying cash flow multiples to the reporting unit's operating performance. The multiples were derived from comparable publicly traded companies with operating and investment characteristics similar to those of the reporting unit. In applying the market approach method, the Company selected eight publicly traded institutions based on a variety of financial metrics (tangible equity, return on assets, return on equity, net interest margin, nonperforming assets, net charge-offs, and reserves for loan losses) and other relevant qualitative factors (geographical location, lines of business, risk profile, availability of financial information, etc.).

The Company calculated a fair value of its reporting unit of \$89 million using the corporate value approach, \$82 million using the income approach and \$96 million using the market approach. The concluded fair value based on the three methods under the step one test was \$87 million, with the most weighting given to the income approach. The results of the Company's step one test indicated that the reporting unit's fair value was less than its recorded value and therefore the Company performed a step two analysis.

The Company then calculated the implied fair value of its reporting unit under step two of the goodwill impairment test. Under this approach, the Company calculated the fair value for the assets and liabilities of the reporting unit. The calculated implied fair value of the Company's goodwill based on the final analysis exceeded the recorded value by \$19.3 million.

Under the step two process significant adjustments were made to determine the estimated fair value of the Company's loans receivable compared to its recorded value. The Company utilized a discounted cash flow approach and a comparable transaction approach to determine the fair value of its loans receivable.

The discounted cash flow approach was utilized to value performing loans with credit quality grades of pass. A key assumption in the discounted cash flow approach was determining an appropriate discount rate. In determining the discount rate for pass loans, the Company started with its contractual cash flows and its current lending rate for comparable loans and adjusted these for credit factors, estimated prepayments and liquidity premiums. Based on a final analysis of these factors, performing loans with credit quality grades of pass were discounted by 1%.

The comparable transaction approach using comparable loan sales was utilized for performing loans with credit quality grades of watch, special mention or substandard and for non-performing loans. In the comparable transaction approach a weighted average discount rate was used that approximated the discount for similar loan sales by the FDIC. A key assumption used by the Company in the comparable transaction approach was determining the appropriate discount rate to apply to each loan category. Performing loans with credit quality grades of watch, special mention or substandard were discounted by 25% and non-performing loans were discounted by 50%. These weighted average discount rates approximated the discount for similar

loan sales by the FDIC. Increases in the pricing for future reported loan sale transactions could have a significant impact on the implied fair value of goodwill under the step two process.

A significant amount of judgment is involved in determining if an indicator of goodwill impairment has occurred. Such indicators may include, among others; a significant decline in the expected future cash flows; a sustained, significant decline in the Company's stock price and market capitalization; a significant adverse change in legal factors or in the business climate; adverse assessment or action by a regulator; and unanticipated competition. Key assumptions used in the annual goodwill impairment test are highly judgmental and include: selection of comparable companies, amount of control premium, projected cash flows, discount rate applied to projected cash flows and method of estimating fair value of loans. Any change in these indicators or key assumptions could have a significant negative impact on the Company's financial condition, impact the goodwill impairment analysis or cause the Company to perform a goodwill impairment analysis more frequently than once per year.

As of September 30, 2013 and March 31, 2014, management believes that there have been no events or changes in the circumstances that would indicate a potential impairment of goodwill. No assurances can be given, however, that the Company will not record an impairment loss on goodwill in the future.

(5) LOANS RECEIVABLE AND ALLOWANCE FOR LOAN LOSSES

Loans receivable and loans held for sale consisted of the following at March 31, 2014 and September 30, 2013 (dollars in thousands):

| | March 31, 2014 | | September 30, 2013 | | |
|--|-------------------|---------|-----------------------|---------|---|
| | Amount | Percent | Amount | Percent | |
| Mortgage loans: | | | | | |
| One- to four-family (1) | \$ 100,985 | 17.2 | % \$ 104,298 | 18.0 | % |

Credit Quality Indicators

The Company uses credit risk grades which reflect the Company's assessment of a loan's risk or loss potential. The Company categorizes loans into risk grade categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information and current economic trends, among other factors such as the estimated fair value of the collateral. The Company uses the following definitions for credit risk ratings as part of the ongoing monitoring of the credit quality of its loan portfolio:

Pass: Pass loans are defined as those loans that meet acceptable quality underwriting standards.

Watch: Watch loans are defined as those loans that still exhibit acceptable quality, but have some concerns that justify greater attention. If these concerns are not corrected, a potential for further adverse categorization exists. These concerns could relate to a specific condition peculiar to the borrower, its industry segment or the general economic environment.

Special Mention: Special mention loans are defined as those loans deemed by management to have some potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in the deterioration of the payment prospects of the loan. Assets in this category do not expose the Company to sufficient risk to warrant a substandard classification.

Substandard: Substandard loans are defined as those loans that are inadequately protected by the current net worth and paying capacity of the obligor, or of the collateral pledged. Loans classified as substandard have a well-defined weakness or weaknesses that jeopardize the repayment of the debt. If the weakness or weaknesses are not corrected, there is the distinct possibility that some loss will be sustained.

Loss: Loans in this classification are considered uncollectible and of such little value that continuance as bankable assets is not warranted. This classification does not mean that the loan has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off this loan even though partial recovery may be realized in the future.

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

The following table lists the loan credit risk grades utilized by the Company that serve as credit quality indicators at March 31, 2014 and September 30, 2013 (dollars in thousands):

| March 31, 2014 | Loan Grades | | | | Total |

Impaired Loans

A loan is considered impaired when it is probable that the Company will be unable to collect all contractual principal and interest payments due in accordance with the original or modified terms of the loan agreement. Impaired loans are measured based on the estimated fair value of the collateral less estimated cost to sell if the loan is considered collateral dependent. Impaired loans that are not considered to be collateral dependent are measured based on the present value of expected future cash flows.

The categories of non-accrual loans and impaired loans overlap, although they are not coextensive. The Company considers all circumstances regarding the loan and borrower on an individual basis when determining whether an impaired loan should be placed on non-accrual status, such as the financial strength of the borrower, the estimated collateral value, reasons for the delay, payment record, the amount past due and the number of days past due.

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

The following is a summary of information related to impaired loans as of March 31, 2014 and for the three and six months then ended (in thousands):

| Home equity and second mortgage | 426 | 380 | | |
| Other | 12 | 5 | | |
| Commercial business loans | 106 | — | | |
| Total loans accounted for on a non-accrual basis | 12,649 | 13,610 | | |
| Accruing loans which are contractually past due 90 days or more | — | 436 | | |
| Total of non-accrual and 90 days past due loans | 12,649 | 14,046 | | |
| Non-accrual investment securities | 1,204 | 2,187 | | |
| OREO and other repossessed assets, net | 13,208 | 11,720 | | |
| Total non-performing assets (1) | \$27,061 | \$27,953 | | |
| Troubled debt restructured loans on accrual status (2) | \$17,284 | \$18,573 | | |
| Non-accrual and 90 days or more past due loans as a percentage of loans receivable | 2.24 | % 2.51 | | % |
| Non-accrual and 90 days or more past due loans as a percentage of total assets | 1.73 | % 1.88 | | % |
| Non-performing assets as a percentage of total assets | 3.69 | % 3.75 | | % |
| Loans receivable (3) | \$565,441 | \$559,240 | | |
| Total assets | \$732,417 | \$745,648 | | |

(1) Does not include troubled debt restructured loans on accrual status.

(2) Does not include troubled debt restructured loans totaling \$2.8 million and \$4.0 million reported as non-accrual loans at March 31, 2014 and September 30, 2013, respectively.

(3) Includes loans held for sale and before the allowance for loan losses.

Troubled debt restructured loans are loans for which the Company, for economic or legal reasons related to the borrower's financial condition, has granted a significant concession to the borrower that it would otherwise not

consider. The loan terms which have been modified or restructured due to a borrower's financial difficulty include but are not limited to: a reduction in the stated interest rate; an extension of the maturity at an interest rate below current market; a reduction in the face amount of

28

the debt; a reduction in the accrued interest; or re-aging, extensions, deferrals and renewals. Troubled debt restructured loans are considered impaired loans and are individually evaluated for impairment. Troubled debt restructured loans can be classified as either accrual or non-accrual. Troubled debt restructured loans are classified as non-performing loans unless they have been performing in accordance with their modified terms for a period of at least six months. The Company had \$20.10 million in troubled debt restructured loans included in impaired loans at March 31, 2014 and had no commitments to lend additional funds on these loans. The Company had \$22.60 million in troubled debt restructured loans included in impaired loans at September 30, 2013 and had \$1,000 in commitments to lend additional funds on these loans. The allowance for loan losses allocated to troubled debt restructured loans at March 31, 2014 and September 30, 2013 was \$1.80 million and \$2.37 million, respectively.

The following table sets forth information with respect to the Company's troubled debt restructured loans by interest accrual status as of March 31, 2014 and September 30, 2013 (dollars in thousands):

| | March 31, 2014 | | |
|--|--------------------|-------------|----------|
| | Accruing | Non-Accrual | Total |
| Mortgage loans: | | | |
| One- to four-family | \$2,659 | \$194 | \$2,853 |
| Multi-family | 4,024 | — | 4,024 |
| Commercial | 10,059 | 1,530 | 11,589 |
| Land | 243 | 936 | 1,179 |
| Consumer loans: | | | |
| Home equity and second mortgage | 299 | 152 | 451 |
| Total | \$17,284 | \$2,812 | \$20,096 |
| | | | |
| | September 30, 2013 | | |
| | Accruing | Non-Accrual | Total |
| Mortgage loans: | | | |
| One- to four-family | \$1,999 | \$198 | \$2,197 |
| Multi-family | 5,184 | — | 5,184 |
| Commercial | 10,160 | 1,574 | 11,734 |
| Construction – speculative one- to four-family | 687 | — | 687 |
| Construction – land development | — | 515 | 515 |
| Land | 244 | 1,564 | 1,808 |
| Consumer loans: | | | |
| Home equity and second mortgage | 299 | 180 | 479 |
| Total | \$18,573 | \$4,031 | \$22,604 |

There were no new troubled debt restructured loans during the six months ended March 31, 2014. The following table sets forth information with respect to the Company's troubled debt restructured loans by portfolio segment that occurred during the year ended September 30, 2013 (dollars in thousands):

| September 30, 2013 | Number of Contracts | Pre-Modification Outstanding Recorded Investment | Post- Modification Outstanding Recorded Investment | End of Period Balance |
|------------------------|------------------------|---|--|-----------------------------|
| One-to four-family (1) | 2 | \$ 353 | \$353 | \$350 |
| Commercial (2) | 2 | 2,327 | 2,327 | 2,318 |
| Total | 4 | \$ 2,680 | \$2,680 | \$2,668 |

(1) Modifications were a result of a combination of changes (i.e., a reduction in the stated interest rate and an extension of the maturity at an interest rate below current market).

(2) Modifications were a result of a reduction in the stated interest rate.

(6) NET INCOME PER COMMON SHARE

Basic net income per common share is computed by dividing net income to common shareholders by the weighted average number of common shares outstanding during the period, without considering any dilutive items. Diluted net income per common share is computed by dividing net income to common shareholders by the weighted average number of common shares and common stock equivalents for items that are dilutive, net of shares assumed to be repurchased using the treasury stock method at the average share price for the Company's common stock during the period. The dividend and related accretion for the amount of the Company's Series A Preferred Stock outstanding for the respective period was deducted from net income and the discount on the redemption of Series A Preferred Stock was added to net income in computing net income to common shareholders. Common stock equivalents arise from the assumed conversion of outstanding stock options and the outstanding warrant to purchase common stock. Shares owned by the Bank's ESOP that have not been allocated are not considered to be outstanding for the purpose of computing basic and diluted net income per common share. At March 31, 2014 and 2013, there were 189,881 and 227,154 shares, respectively, that had not been allocated under the Bank's ESOP.

Information regarding the calculation of basic and diluted net income per common share for the three and six months ended March 31, 2014 and 2013 is as follows (dollars in thousands, except per share amounts):

| | Three Months Ended March 31, | | Six Months Ended March 31, | |
|--|---|-----------|-------------------------------|-----------|
| | 2014 | 2013 | 2014 | 2013 |
| | (In thousands, except for per share data) | | | |
| Basic net income per common share computation | | | | |
| Numerator – net income | \$ 1,159 | \$ 1,278 | \$ 2,770 | \$ 2,986 |
| Preferred stock dividends | — | (207) | (136) | (408) |
| Preferred stock discount accretion | — | (126) | (70) | (189) |
| Discount on redemption of preferred stock | — | 255 | — | 255 |
| Net income to common shareholders | \$ 1,159 | \$ 1,200 | \$ 2,564 | \$ 2,644 |
| Denominator – weighted average common shares outstanding | 6,856,633 | 6,815,782 | 6,855,142 | 6,815,782 |
| Basic net income per common share | \$0.17 | \$0.18 | \$0.37 | \$0.39 |
| Diluted net income per common share computation | | | | |
| Numerator – net income | \$ 1,159 | \$ 1,278 | \$ 2,770 | \$ 2,986 |
| Preferred stock dividends | — | (207) | (136) | (408) |
| Preferred stock discount accretion | — | (126) | (70) | (189) |
| Discount on redemption of preferred stock | — | 255 | — | 255 |
| Net income to common shareholders | \$ 1,159 | \$ 1,200 | \$ 2,564 | \$ 2,644 |
| Denominator – weighted average common shares outstanding | 6,856,633 | 6,815,782 | 6,855,142 | 6,815,782 |
| Effect of dilutive stock options (1) | 40,149 | 15,538 | 34,815 | 10,324 |
| Effect of dilutive stock warrant | 137,197 | 58,184 | 115,920 | 28,773 |
| Weighted average common shares and common stock equivalents | 7,033,979 | 6,889,504 | 7,005,877 | 6,854,879 |
| Diluted net income per common share | \$0.16 | \$0.17 | \$0.37 | \$0.39 |

(1) For the three and six months ended March 31, 2014, average options to purchase 125,198 and 166,390 shares of common stock, respectively, were outstanding but not included in the computation of diluted net income per common share because their effect would have been anti-dilutive. For the three and six months ended March 31, 2013, options to purchase 166,390 and 168,455 shares of common stock, respectively, were outstanding but not included in the computation of diluted net income per common share because their effect would have been anti-dilutive.

(7) STOCK PLANS AND STOCK BASED COMPENSATION

Stock Option Plans

Under the Company's stock option plans (the 1999 Stock Option Plan and the 2003 Stock Option Plan), the Company was able to grant options for up to a combined total of 1,622,500 shares of common stock to employees, officers and directors. Shares issued may be purchased in the open market or may be issued from authorized and unissued shares. The exercise price of each option equals the fair market value of the Company's common stock on the date of grant. Generally, options vest in 20% annual installments on each of the five anniversaries from the date of the

grant. At March 31, 2014, there were no options for shares available for future grant under the 2003 Stock Option Plan or the 1999 Stock Option Plan.

Activity under the plans for the six months ended March 31, 2014 and 2013 is as follows:

| | Six Months Ended March 31, 2014 | | Six Months Ended March 31, 2013 | |
|--|------------------------------------|--|------------------------------------|--|
| | Shares | Weighted Average Exercise Price | Shares | Weighted Average Exercise Price |
| Options outstanding, beginning of period | 162,946 | \$6.96 | 195,626 | \$7.97 |
| Exercised | (3,600) | 4.65 | — | — |
| Granted | 135,000 | 9.29 | 29,000 | 6.00 |
| Forfeited | (65,946) | 9.97 | (56,680) | 9.52 |
| Options outstanding, end of period | 228,400 | \$7.50 | 167,946 | \$7.10 |
| Options exercisable, end of period | 38,400 | \$4.90 | 68,446 | \$9.55 |

The aggregate intrinsic value of options outstanding at March 31, 2014 was \$730,000.

At March 31, 2014, there were 190,000 unvested options with an aggregate grant date fair value of \$464,000, all of which the Company assumes will vest. The aggregate intrinsic value of unvested options at March 31, 2014 was \$507,000 . There were 14,600 options with an aggregate grant date fair value of \$26,000 that vested during the six months ended March 31, 2014.

At March 31, 2013, there were 99,500 unvested options with an aggregate grant date fair value of \$208,000 . There were 8,800 options with an aggregate grant date fair value of \$13,000 that vested during the six months ended March 31, 2013.

The Company uses the Black-Scholes option pricing model to estimate the fair value of stock-based awards with the weighted average assumptions noted in the following table. The risk-free interest rate is based on the U.S. Treasury rate of a similar term as the stock option at the particular grant date. The expected life is based on historical data, vesting terms and estimated exercise dates. The expected dividend yield is based on the most recent quarterly dividend on an annualized basis in effect at the time the options were granted, adjusted, if appropriate for management's expectations regarding future dividends. The expected volatility is based on historical volatility of the Company's stock price. There were 135,000 options granted during the six months ended March 31, 2014 with an aggregate grant date fair value of \$349,000. There were 29,000 options granted during the six months ended March 31, 2013 with an aggregate grant date fair value of \$69,000.

The weighted average assumptions used for options granted during the six months ended March 31, 2014 and 2013 were:

| | 2014 | | 2013 | |
|---------------------------------|--------|---|--------|---|
| Expected volatility | 39 | % | 45 | % |
| Expected term (in years) | 5 | | 5 | |
| Expected dividend yield | 2.51 | % | — | % |
| Risk free interest rate | 1.41 | % | 0.76 | % |
| Grant date fair value per share | \$2.59 | | \$2.37 | |

Stock Grant Plan

The Company adopted the MRDP in 1998 for the benefit of employees, officers and directors of the Company. The objective of the MRDP is to retain and attract personnel of experience and ability in key positions by providing them with a proprietary interest in the Company.

The MRDP allowed for the issuance to participants of up to 529,000 shares of the Company's common stock. Awards under the MRDP were made in the form of shares of common stock that are subject to restrictions on the transfer of ownership and are subject to a five-year vesting period. Compensation expense is the amount of the fair value of the common stock at the date of the grant to the plan participants and is recognized over a five-year vesting period, with 20% vesting on each of the five anniversaries from the date of the grant.

No MRDP shares were granted during the six months ended March 31, 2014 or 2013. At March 31, 2014, no shares were available for future awards under the MRDP.

At March 31, 2014, there were no unvested MRDP shares. There were 3,254 MRDP shares that vested during the six months ended March 31, 2014 with an aggregate grant date fair value of \$23,000.

At March 31, 2013, there were 3,848 unvested MRDP shares with an aggregated grant date fair value of \$28,000. There were 5,613 MRDP shares that vested during the six months ended March 31, 2013 with an aggregated grant date fair value of \$57,000. At March 31, 2013, no shares were available for future awards under the MRDP.

Expense for Stock Compensation Plans

Compensation expense for all stock-based plans were as follows:

| | Six Months Ended December 31, | | | |
|---|-------------------------------|-----------------|------------------|-----------------|
| | 2014 | | 2013 | |
| | (Dollars in thousands) | | | |
| | Stock Options | Stock Grants | Stock Options | Stock Grants |
| Compensation expense recognized in income | \$47 | \$2 | \$24 | \$22 |
| Related tax benefit recognized | \$— | \$— | \$8 | \$7 |

As of March 31, 2014, the compensation expense yet to be recognized for stock-based awards that have been awarded but not vested for the years ending September 30 is as follows (dollars in thousands):

| | Stock Options | Stock Grants | Total Awards |
|-------------------|------------------|-----------------|-----------------|
| Remainder of 2014 | \$56 | \$— | \$56 |
| 2015 | 106 | — | 106 |
| 2016 | 106 | — | 106 |
| 2017 | 98 | — | 98 |
| 2018 | 67 | — | 67 |
| 2019 | 9 | — | 9 |
| Total | \$442 | \$— | \$442 |

(8) FAIR VALUE MEASUREMENTS

GAAP requires disclosure of estimated fair values for financial instruments. Such estimates are subjective in nature, and significant judgment is required regarding the risk characteristics of various financial instruments at a discrete point in time. Therefore, such estimates could vary significantly if assumptions regarding uncertain factors were to change. In addition, as the Company normally intends to hold the majority of its financial instruments until maturity, it does not expect to realize many of the estimated amounts disclosed. The disclosures also do not include estimated fair value amounts for certain items which are not defined as financial instruments but which may have significant value. The Company does not believe that it would be practicable to estimate a representational fair value for these types of items as of March 31, 2014 and September 30, 2013. Because GAAP excludes certain items from fair value disclosure requirements, any aggregation of the fair value amounts presented would not represent the underlying value of the Company.

Accounting guidance regarding fair value measurements defines fair value and establishes a framework for measuring fair value in accordance with GAAP. Fair value is the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The following definitions describe the levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Significant observable inputs other than quoted prices included within Level 1, such as

33

quoted prices in markets that are not active, and inputs other than quoted prices that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions market participants would use in pricing an asset or liability based on the best information available in the circumstances.

The Company used the following methods and significant assumptions to estimate fair value on a recurring basis:

MBS and Other Investments Available for Sale

The estimated fair value of MBS and other investments are based upon the assumptions market participants would use in pricing the security. Such assumptions include quoted market prices (Level 1), market prices of similar securities or observable inputs (Level 2).

Mutual Funds

The estimated fair value of mutual funds are based upon quoted market price assumptions (Level 1).

The following table summarizes the balances of assets and liabilities measured at estimated fair value on a recurring basis at

March 31, 2014 (dollars in thousands):

| | Estimated Fair Value | | | Total |
|-------------------------------|----------------------|---------|---------|---------|
| | Level 1 | Level 2 | Level 3 | |
| Available for Sale Securities | | | | |
| MBS: | | | | |
| U.S. government agencies | \$— | \$2,043 | \$— | \$2,043 |
| Private label residential | — | — | — | — |
| Mutual funds | 948 | — | — | 948 |
| Total | \$948 | \$2,043 | \$— | \$2,991 |

There were no transfers among Level 1, Level 2 and Level 3 during the three and six months ended March 31, 2014.

The following table summarizes the balances of assets and liabilities measured at estimated fair value on a recurring basis at September 30, 2013 (dollars in thousands):

| | Estimated Fair Value | | | Total |
|-------------------------------|----------------------|---------|---------|---------|
| | Level 1 | Level 2 | Level 3 | |
| Available for Sale Securities | | | | |
| MBS: | | | | |
| U.S. government agencies | \$— | \$2,229 | \$— | \$2,229 |
| Private label residential | — | 914 | — | 914 |
| Mutual funds | 958 | — | — | 958 |
| Total | \$958 | \$3,143 | \$— | \$4,101 |

There were no transfers between Level 1, Level 2 and Level 3 during the year ended September 30, 2013.

The Company may be required, from time to time, to measure certain financial assets and financial liabilities at fair value on a nonrecurring basis in accordance with GAAP. These include assets that are measured at the lower of cost or market value that were recognized at fair value below cost at the end of the period.

The Company uses the following methods and significant assumptions to estimate fair value on a non-recurring basis:

Impaired Loans: A loan is considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. The specific reserve for collateral dependent impaired loans was based on the estimated fair value of the collateral less estimated costs to sell, if applicable. The estimated fair value of collateral was determined based primarily on appraisals. In some cases,

34

adjustments were made to the appraised values due to various factors including age of the appraisal, age of comparables included in the appraisal, and known changes in the market and in the collateral. Such adjustments may be significant and typically result in a Level 3 classification of the inputs for determining fair value. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

MBS and Other Investments Held to Maturity: The estimated fair value of MBS and other investments are based upon the assumptions market participants would use in pricing the security. Such assumptions include quoted market prices (Level 1), market prices of similar securities or observable inputs (Level 2) and unobservable inputs such as dealer quotes, discounted cash flows or similar techniques (Level 3).

OREO and Other Repossessed Assets, net: The Company's OREO and other repossessed assets are initially recorded at estimated fair value less estimated costs to sell. This amount becomes the property's new basis. Estimated fair value was generally determined by management based on a number of factors, including third-party appraisals of estimated fair value in an orderly sale. Estimated costs to sell were based on standard market factors. The valuation of OREO and other repossessed assets is subject to significant external and internal judgment (Level 3).

MSRs: The fair value of the MSRs was determined using a third-party model, which incorporates the expected life of the loans, estimated cost to service the loans, servicing fees received and other factors. The estimated fair value is calculated by stratifying the MSRs based on the predominant risk characteristics that include the underlying loan's interest rate, cash flows of the loan, origination date and term (Level 3).

The following table summarizes the balances of assets measured at estimated fair value on a non-recurring basis at March 31, 2014, and the total losses resulting from these estimated fair value adjustments for the six months ended March 31, 2014 (dollars in thousands):

| | Estimated Fair Value | | | Total Losses |
|--------------------------------------|----------------------|---------|----------|--------------|
| | Level 1 | Level 2 | Level 3 | |
| Impaired loans: | | | | |
| Mortgage Loans: | | | | |
| One-to four-family | \$— | \$— | \$4,140 | \$623 |
| Multi-family | — | — | 3,947 | — |
| Commercial | — | — | 7,005 | 463 |
| Land | — | — | 4,210 | 255 |
| Consumer loans: | | | | |
| Home equity and second mortgage | — | — | 290 | 28 |
| Total impaired loans (1) | — | — | 19,592 | 1,369 |
| MBS – held to maturity (2): | | | | |
| Private label residential | — | 16 | — | 2 |
| OREO and other repossessed items (3) | — | — | 13,208 | 376 |
| Total | \$— | \$16 | \$32,800 | \$1,747 |

(1) The loss represents charge-offs on collateral dependent loans for estimated fair value adjustments based on the estimated fair value of the collateral. Fair value is the recorded investment less the related allowance.

(2) The loss represents OTTI credit-related charges on held to maturity MBS.

The loss represents the results of management's periodic reviews of the recorded value to determine whether the (3) property continues to be recorded at the lower of its recorded book value or estimated fair value, net of estimated costs to sell.

The following table summarizes the balances of assets and liabilities measured at estimated fair value on a non-recurring basis at September 30, 2013 and the total losses resulting from these estimated fair value adjustments for the year ended September 30, 2013 (dollars in thousands):

| | Estimated Fair Value | | | Total Losses |
|---|----------------------|---------|----------|--------------|
| | Level 1 | Level 2 | Level 3 | |
| Impaired loans: | | | | |
| Mortgage Loans: | | | | |
| One-to four-family | \$— | \$— | \$3,042 | \$769 |
| Multi-family | — | — | 4,850 | — |
| Commercial | — | — | 12,868 | 667 |
| Construction – speculative one-to four-family | — | — | 599 | — |
| Land | — | — | 969 | 2,307 |
| Consumer loans: | | | | |
| Home equity and second mortgage | — | — | 242 | 184 |
| Total impaired loans (1) | — | — | 22,570 | 3,927 |
| MBS – held to maturity (2): | | | | |
| Private label residential | — | 83 | — | 45 |
| OREO and other repossessed items (3) | — | — | 11,720 | 2,064 |
| Total | \$— | \$83 | \$34,290 | \$6,036 |

(1) The loss represents charge-offs on collateral dependent loans for estimated fair value adjustments based on the estimated fair value of the collateral. Fair value is the recorded investment less the related allowance.

(2) The loss represents OTTI credit-related charges on held to maturity MBS.

The loss represents the results of management's periodic reviews of the recorded value to determine whether the (3) property continues to be recorded at the lower of its recorded book value or estimated fair value, net of estimated costs to sell.

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis as of March 31, 2014 (dollars in thousands):

| | Estimated Fair Value | Valuation Technique(s) | Unobservable Input(s) | Range |
|-----------------------------------|----------------------|------------------------|--|-------|
| Impaired loans | \$19,592 | Market approach | Appraised value of underlying collateral less selling costs | NA |
| OREO and other repossessed assets | \$13,208 | Market approach | Lower of appraised value or listing price less selling costs | NA |

The following methods and assumptions were used by the Company in estimating fair value of its other financial instruments:

Cash and Cash Equivalents: The estimated fair value of financial instruments that are short-term or re-price frequently and that have little or no risk are considered to have an estimated fair value equal to the recorded value.

CDs Held for Investment: The estimated fair value of financial instruments that are short-term or re-price frequently and that have little or no risk are considered to have an estimated fair value equal to the recorded value.

MBS and Other Investments: See descriptions above.

FHLB Stock: No ready market exists for this stock, and it has no quoted market value. However, redemption of this stock has historically been at par value. During the three months ended March 31, 2014, 1,011 shares of FHLB stock

were redeemed from the Company at par value. Accordingly, par value is deemed to be a reasonable estimate of fair value.

Loans Receivable, Net: The fair value of loans was estimated using a discounted cash flow analysis and comparable market statistics. A discounted cash flow analysis was used to estimate the fair value of loans graded pass. The fair

value of loans graded watch, special mention and substandard was estimated using comparable market statistics that approximated sales of similarly rated loans.

Loans Held for Sale: The estimated fair value is based on quoted market prices obtained from the Federal Home Loan Mortgage Corporation.

Accrued Interest: The recorded amount of accrued interest approximates the estimated fair value.

Deposits: The estimated fair value of deposits with no stated maturity date is included at the amount payable on demand. The estimated fair value of fixed maturity certificates of deposit is computed by discounting future cash flows using the rates currently offered by the Bank for deposits of similar remaining maturities.

FHLB Advances: The estimated fair value of FHLB advances is computed by discounting the future cash flows of the borrowings at a rate which approximates the current offering rate of the borrowings with a comparable remaining life.

Off-Balance-Sheet Instruments: Since the majority of the Company's off-balance-sheet instruments consist of variable-rate commitments, the Company has determined that they do not have a distinguishable estimated fair value.

The estimated fair values of financial instruments were as follows as of March 31, 2014 and September 30, 2013 (dollars in thousands):

| | March 31, 2014 | | | | |
|------------------------------|-----------------|----------|----------|---------|---------|

(9) RECENT ACCOUNTING PRONOUNCEMENTS

In July 2013, the FASB issued Accounting Standard Update ("ASU") No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exits. The guidance clarifies when it is appropriate for an unrecognized tax benefit, or portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset. ASU 2013-11 is effective prospectively for annual periods, and interim periods within those years, beginning after December 15, 2013. Adoption of ASU 2013-11 is not expected to have a material impact on the Company's condensed consolidated financial statements.

In January 2014, the FASB issued ASU No. 2014-04, Receivables - Troubled Debt Restructurings by Creditors. The guidance clarifies when an in substance repossession or foreclosure occurs, that is, when a creditor should be considered to have received physical possession of the residential real estate property collateralizing a consumer mortgage loan such that the loan should be derecognized and the real estate property recognized. ASU 2014-04 is effective for annual periods beginning after December 15, 2014, and interim periods within annual periods beginning after December 15, 2015. The guidance can be adopted using a modified retrospective transition method or a prospective transition method. Adoption of ASU 2014-04 is not expected to have a material impact on the Company's condensed consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

As used in this Form 10-Q, the terms "we," "our" and "Company" refer to Timberland Bancorp, Inc. and its consolidated subsidiaries, unless the context indicates otherwise. When we refer to "Bank" in this Form 10-Q, we are referring to Timberland Bank, a wholly-owned subsidiary of Timberland Bancorp, Inc. and the Bank's wholly-owned subsidiary, Timberland Service Corporation.

The following analysis discusses the material changes in the condensed consolidated financial condition and results of operations of the Company at and for the three and six months ended March 31, 2014. This analysis as well as other sections of this report contains certain “forward-looking statements.”

Certain matters discussed in this Quarterly Report on Form 10-Q may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 concerning our future operations. These statements relate to our

financial condition, results of operations, plans, objectives, future performance or business. Forward-looking statements are not statements of historical fact, are based on certain assumptions and often include the words “believes,” “expects,” “anticipates,” “estimates,” “forecasts,” “intends,” “plans,” “targets,” “potentially,” “probably,” “projects,” “outlook” expressions or future or conditional verbs such as “may,” “will,” “should,” “would” and “could.” Forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, assumptions and statements about future economic performance and projections of financial items. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated or implied by our forward-looking statements, including, but not limited to: the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs and changes in our allowance for loan losses and provision for loan losses that may be impacted by deterioration in the housing and commercial real estate markets which may lead to increased losses and non-performing assets in our loan portfolio, and may result in our allowance for loan losses not being adequate to cover actual losses, and require us to materially increase our loan loss reserves; changes in general economic conditions, either nationally or in our market areas; changes in the levels of general interest rates, and the relative differences between short and long term interest rates, deposit interest rates, our net interest margin and funding sources; fluctuations in the demand for loans, the number of unsold homes, land and other properties and fluctuations in real estate values in our market areas; secondary market conditions for loans and our ability to sell loans in the secondary market; results of examinations of us by the Board of Governors of the Federal Reserve System ("Federal Reserve") and of our bank subsidiary by the FDIC, the Washington State Department of Financial Institutions, Division of Banks or other regulatory authorities, including the possibility that any such regulatory authority may, among other things, institute an informal or formal enforcement action against us or our bank subsidiary which could require us to increase our allowance for loan losses, write-down assets, change our regulatory capital position or affect our ability to borrow funds or maintain or increase deposits or impose additional requirements and restrictions on us, any of which could adversely affect our liquidity and earnings; legislative or regulatory changes that adversely affect our business including changes in regulatory policies and principles, or the interpretation of regulatory capital or other rules, including as a result of Basel III; the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act and implementing regulations; our ability to attract and retain deposits; increases in premiums for deposit insurance; our ability to control operating costs and expenses; the use of estimates in determining fair value of certain of our assets, which estimates may prove to be incorrect and result in significant declines in valuation; difficulties in reducing risk associated with the loans on our consolidated balance sheet; staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our work force and potential associated charges; the failure or security breach of computer systems on which we depend; our ability to retain key members of our senior management team; costs and effects of litigation, including settlements and judgments; our ability to implement our business strategies; our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel we may acquire into our operations and our ability to realize related revenue synergies and cost savings within expected time frames and any goodwill charges related thereto; our ability to manage loan delinquency rates; increased competitive pressures among financial services companies; changes in consumer spending, borrowing and savings habits; the availability of resources to address changes in laws, rules, or regulations or to respond to regulatory actions; our ability to pay dividends on our common and preferred stock; adverse changes in the securities markets; inability of key third-party providers to perform their obligations to us; changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the FASB, including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods; the economic impact of war or any terrorist activities; other economic, competitive, governmental, regulatory, and technological factors affecting our operations; pricing, products and services; and other risks detailed in our reports filed with the Securities and Exchange Commission, including our 2013 Form 10-K.

Any of the forward-looking statements that we make in this Form 10-Q and in the other public statements we make are based upon management’s beliefs and assumptions at the time they are made. We do not undertake and specifically disclaim any obligation to publicly update or revise any forward-looking statements included in this report or to update the reasons why actual results could differ from those contained in such statements, whether as a result of

new information, future events or otherwise. We caution readers not to place undue reliance on any forward-looking statements. These risks could cause our actual results for fiscal 2014 and beyond to differ materially from those expressed in any forward-looking statements by, or on behalf of us, and could negatively affect the Company's financial condition and results of operations as well as its stock price performance.

Overview

Timberland Bancorp, Inc., a Washington corporation, is the holding company for Timberland Bank. The Bank opened for business in 1915 and serves consumers and businesses across Grays Harbor, Thurston, Pierce, King, Kitsap and Lewis counties, Washington with a full range of lending and deposit services through its 22 branches (including its main office in Hoquiam). At March 31, 2014, the Company had total assets of \$732.42 million and total shareholders' equity of \$80.02

million. The Company's business activities generally are limited to passive investment activities and oversight of its investment in the Bank. Accordingly, the information set forth in this report relates primarily to the Bank's operations.

The profitability of the Company's operations depends primarily on its net interest income after provision for loan losses. Net interest income is the difference between interest income, which is the income that the Company earns on interest-earning assets, which are primarily loans and investments, and interest expense, the amount the Company pays on its interest-bearing liabilities, which are primarily deposits and borrowings. Net interest income is affected by changes in the volume and mix of interest earning assets, interest earned on those assets, the volume and mix of interest bearing liabilities and interest paid on those interest bearing liabilities. Management strives to match the re-pricing characteristics of the interest earning assets and interest bearing liabilities to protect net interest income from changes in market interest rates and changes in the shape of the yield curve.

The provision for loan losses is dependent on changes in the loan portfolio and management's assessment of the collectability of the loan portfolio as well as prevailing economic and market conditions. The provision for loan losses reflects the amount that the Company believes is adequate to cover estimated credit losses in its loan portfolio.

Net income is also affected by non-interest income and non-interest expenses. For the three and six month period ended March 31, 2014, non-interest income consisted primarily of service charges on deposit accounts, gain on sale of loans, ATM and debit card interchange transaction fees, an increase in the cash surrender value of bank owned life insurance, a recovery of net OTTI losses and other operating income. Non-interest income is reduced by net OTTI losses on MBS and other investments and losses on the sale of MBS and other investments. Non-interest expenses consisted primarily of salaries and employee benefits, premises and equipment, advertising, ATM and debit card processing expenses, OREO and other repossessed asset expenses, postage and courier expenses, professional fees, deposit insurance premiums, other insurance premiums, state and local taxes, loan administration and foreclosure expenses, deposit operation expenses and data processing expenses and telecommunication expenses. Non-interest income and non-interest expenses are affected by the growth of our operations and growth in the number of loan and deposit accounts.

Results of operations may be affected significantly by general and local economic and competitive conditions, changes in market interest rates, governmental policies and actions of regulatory authorities.

The Bank is a community-oriented bank which has traditionally offered a variety of savings products to its retail customers while concentrating its lending activities on real estate mortgage loans. Lending activities have been focused primarily on the origination of loans secured by real estate, including residential construction loans, one- to four-family residential loans, multi-family loans, commercial real estate loans and land loans. The Bank originates adjustable-rate residential mortgage loans that do not qualify for sale in the secondary market. The Bank also originates commercial business loans.

Critical Accounting Policies and Estimates

The Company has identified several accounting policies that as a result of judgments, estimates and assumptions inherent in those policies, are critical to an understanding of the Company's Condensed Consolidated Financial Statements. Critical accounting policies and estimates are discussed in the Company's 2013 Form 10-K under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operation – Critical Accounting Policies and Estimates." That discussion highlights estimates the Company makes that involve uncertainty or potential for substantial change. There have not been any material changes in the Company's critical accounting policies and estimates as compared to the disclosure contained in the Company's 2013 Form 10-K.

Comparison of Financial Condition at March 31, 2014 and September 30, 2013

The Company's total assets decreased by \$13.23 million, or 1.8%, to \$732.42 million at March 31, 2014 from \$745.65 million at September 30, 2013. The decrease in total assets was primarily due to a decrease in total cash and cash equivalents, which was partially offset by increases in net loans receivable, MBS and other investments, OREO and other repossessed assets and CDs held for investment.

Net loans receivable increased by \$6.59 million, or 1.2%, to \$554.69 million at March 31, 2014 from \$548.10 million at September 30, 2013. The increase was primarily due to increases in commercial real estate loans, construction and land development loans, in particular custom and owner/builder loans, and commercial business loans. These increases were partially offset by decreases in multi-family loans, one-to four-family loans, land loans and consumer loans.

Total deposits decreased by \$3.89 million, or 0.6%, to \$604.37 million at March 31, 2014 from \$608.26 million at September 30, 2013. The decrease was primarily a result of decreases in certificates of deposit accounts and money market accounts balances, which was partially offset by increases in non-interest bearing accounts, N.O.W. checking accounts and savings accounts.

Shareholders' equity decreased by \$9.66 million, or 10.8%, to \$80.02 million at March 31, 2014 from \$89.69 million at September 30, 2013. The decrease in shareholders' equity was primarily a result of the redemption of 12,065 shares of Series A Preferred Stock and the payment of dividends on common stock. These decreases to shareholders' equity were partially offset by net income of \$2.77 million for the six months ended March 31, 2014.

A more detailed explanation of the changes in significant balance sheet categories follows:

Cash and Cash Equivalents and CDs Held for Investment: Cash and cash equivalents and CDs held for investment decreased by \$22.91 million, or 18.4%, to \$101.63 million at March 31, 2014 from \$124.54 million at September 30, 2013. The decrease was primarily due to a \$22.81 million, or 28.0%, decrease in interest-bearing deposits in banks and a \$1.44 million decrease in cash and due from financial institutions, which was partially offset by a \$1.34 million increase in CDs held for investment. The decrease in interest-bearing deposits in banks was primarily the result of the funding of the redemption of Series A Preferred Stock for \$12.07 million, a \$6.59 million increase in net loans receivable and a \$3.89 million decrease in total deposits.

MBS (Mortgage-backed Securities) and Other Investments: MBS and other investments increased by \$1.66 million, or 24.3%, to \$8.50 million at March 31, 2014 from \$6.84 million at September 30, 2013, primarily due to the purchase of \$3.0 million of U.S. government agency securities, which was partially offset by the sale of \$747,000 in private label residential MBS and scheduled amortization and prepayments on MBS. For additional information on MBS and other investments, see Note 3 of the Notes to Unaudited Condensed Consolidated Financial Statements contained in "Item 1, Financial Statements."

Loans: Net loans receivable increased by \$6.59 million, or 1.2%, to \$554.69 million at March 31, 2014 from \$548.10 million at September 30, 2013. The increase in the portfolio was primarily a result of a \$8.49 million increase in commercial real estate loans, a \$6.72 million increase in construction loans and a \$2.96 million increase in commercial business loans. These increases in net loans receivable were partially offset by a \$3.90 million decrease in multi-family loans, a \$3.31 million decrease in one-to four-family loans, a \$1.55 million decrease in land loans, a \$1.26 million decrease in consumer loans and a \$1.95 million increase in the undisbursed portion of construction loans in process.

Loan originations decreased \$25.11 million, or 22.8%, to \$84.88 million for the six months ended March 31, 2014 from \$110.0 million for the six months ended March 31, 2013. The Company continued to sell longer-term fixed rate loans for asset liability management purposes and to generate non-interest income. Sales of fixed rate one- to four-family mortgage loans decreased \$37.63 million, or 70.9%, to \$15.47 million for the six months ended March 31, 2014 compared to \$53.10 million for the six months ended March 31, 2013. The decrease in loan originations and loans sold was primarily due to a reduction of \$39.54 million in loans originated for sale as refinance demand for single family loans decreased.

For additional information, see Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements contained in "Item 1, Financial Statements."

Premises and Equipment: Premises and equipment increased by \$21,000, or 0.1%, to \$17.78 million at March 31, 2014 from \$17.76 million at September 30, 2013. The increase was primarily due to several remodeling projects at branch offices and several technology related initiatives.

OREO (Other Real Estate Owned): OREO and other repossessed assets increased by \$1.49 million, or 12.7%, to \$13.21 million at March 31, 2014 from \$11.72 million at September 30, 2013. The increase was primarily due to the addition of \$5.57 million in OREO properties and other repossessed assets which was partially offset by the disposition of 12 OREO properties totaling \$3.65 million and OREO fair value write-downs of \$376,000. At March 31, 2014, total OREO consisted of 55 individual properties. The properties consisted of 29 land parcels totaling \$5.45 million, six commercial real estate properties totaling \$3.51 million, 19 single-family homes totaling \$4.08 million and one multi-family property of \$170,000.

Goodwill and CDI: The recorded amount of goodwill of \$5.65 million at March 31, 2014 was unchanged from September 30, 2013. The recorded amount of the CDI decreased \$58,000, or 48.7%, to \$61,000 at March 31, 2014 from \$119,000 at September 30, 2013. The decrease was due to scheduled amortization of the CDI.

Deposits: Deposits decreased by \$3.89 million, or 0.6%, to \$604.37 million at March 31, 2014 from \$608.26 million at September 30, 2013. The decrease was primarily a result of a \$12.51 million decrease in certificates of deposit accounts and a \$4.46 million decrease in money market accounts. These decreases were partially offset by increases of \$7.95 million in non-interest bearing balances, a \$3.95 million in N.O.W. checking accounts and a \$1.19 million in savings accounts.

FHLB Advances: The Company has short- and long-term borrowing lines with the FHLB with total credit available on the lines equal to 25% of the Bank's total assets, limited by available collateral. Borrowings are considered short-term when the original maturity is less than one year. At March 31, 2014 FHLB advances and other borrowings consisted of long-term FHLB advances with scheduled maturities at various dates in fiscal 2017 and bear interest at rates ranging from 3.69% to 4.34%. A portion of these advances may be called by the FHLB at a date earlier than the scheduled maturity date. FHLB advances remained unchanged at \$45.00 million at March 31, 2014 and September 30, 2013.

Shareholders' Equity: Total shareholders' equity decreased by \$9.66 million, or 10.8%, to \$80.02 million at March 31, 2014 from \$89.69 million at September 30, 2013. The decrease was primarily due to the repurchase of 12,065 shares of Series A Preferred Stock, for \$12.07 million on December 20, 2013 and the payment of \$551,000 in dividends on the Company's common stock and preferred stock. These decreases to shareholders' equity were partially offset by net income of \$2.77 million for the six months ended March 31, 2014.

Comparison of Operating Results for the Three and Six Months Ended March 31, 2014 and 2013

Net income decreased \$119,000, or 9.3%, to \$1.16 million for the quarter ended March 31, 2014 from \$1.28 million for the quarter ended March 31, 2013. Net income to common shareholders, after adjusting for the preferred stock dividend, the preferred stock discount accretion and the discount on the redemption of preferred stock, decreased \$41,000 or 3.4%, to \$1.16 million for the quarter ended March 31, 2014 from \$1.20 million for the quarter ended March 31, 2013. Net income per diluted common share decreased \$0.01, or 5.8%, to \$0.16 for the quarter ended March 31, 2014 from \$0.17 for the quarter ended March 31, 2013. The decrease in net income was primarily due to decreased non-interest income and increased non-interest expense, which was partially offset by decreased provision for loan losses.

Net income decreased \$216,000, or 7.2%, to \$2.77 million for the six months ended March 31, 2014 from \$2.99 million for the six months ended March 31, 2013. Net income to common shareholders after adjusting for the preferred stock dividend, the preferred stock discount accretion and the discount on redemption of preferred stock, decreased \$80,000, or 3.0%, to \$2.56 million for the six months ended March 31, 2014 from \$2.64 million for the six months ended March 31, 2013. Net income per diluted common share decreased \$0.02, or 5.1%, to \$0.37 for the six months ended March 31, 2014 from \$0.39 for the six months ended March 31, 2013. The decrease in net income was primarily due to decreased non-interest income and increased non-interest expense, which was partially offset by decreased provision for loan losses.

A more detailed explanation of the income statement categories is presented below.

Net Interest Income: Net interest income remained virtually unchanged at \$6.44 million for each of the quarters ended March 31, 2014 and 2013. The net interest margin increased to 3.85% for the quarter ended March 31, 2014 from 3.83% from the quarter ended March 31, 2013 .

Total interest and dividend income decreased by \$140,000 or 1.9%, to \$7.41 million for the quarter ended March 31, 2014 from \$7.55 million for the quarter ended March 31, 2013 as the yield on interest bearing assets decreased to 4.43% from 4.49%. The decrease in the weighted average yield on interest-bearing assets was primarily a result of

decreased market rates for loans and adjustable rate loans repricing to lower current market interest rates. Total interest expense decreased by \$136,000 or 12.2%, to \$975,000 for the quarter ended March 31, 2014 from \$1.11 million for the quarter ended March 31, 2013 as the average rate paid on interest-bearing liabilities decreased to 0.72% for the quarter ended March 31, 2014 from 0.80% for the quarter ended March 31, 2013 and the average balance of interest-bearing liabilities declined \$13.68 million. The decrease in funding costs was primarily a result of CDs repricing at lower market rates and changes in the composition of the deposit base as the percentage of non-interest bearing and lower costing transaction accounts increased.

Net interest income increased by \$66,000, or 0.5%, to \$12.90 million for the six months ended March 31, 2014 from \$12.83 million for the six months ended March 31, 2013. The net interest margin for the six months ended March 31, 2014 increased slightly to 3.81% compared to 3.80% for the six months ended March 31, 2013.

Total interest and dividend income decreased by \$248,000, or 1.6%, to \$14.89 million for the six months ended March 31, 2014 from \$15.14 million for the six months ended March 31, 2013 as the yield on interest bearing assets decreased to 4.40% for the

six months ended March 31, 2014 from 4.49% for the six months ended March 31, 2013. Total interest expense decreased by \$314,000, or 13.6%, to \$2.00 million for the six months ended March 31, 2014 from \$2.31 million for the six months ended March 31, 2013 as the average rate paid on interest bearing liabilities decreased to 0.72% for the six months ended March 31, 2014 from 0.82% for the six months ended March 31, 2013 and the average balance of interest bearing liabilities decreased by \$9.78 million.

Average Balances, Interest and Average Yields/Cost

The following tables sets forth, for the periods indicated, information regarding average balances of assets and liabilities as well as the total dollar amounts of interest income from average interest-bearing assets and interest expense on average interest-bearing liabilities and average yields and costs. Such yields and costs for the periods indicated are derived by dividing income or expense by the average daily balance of assets or liabilities, respectively, for the periods presented. (Dollars in thousands)

| | Three Months Ended March 31, 2014 | | | 2013 | | | |
|--|--------------------------------------|---------------------------|----------------|--------------------|---------------------------|----------------|---|
