PRESS RELEASE

**TELECOM ITALIA SUCCESSFULLY COMPLETES THE LAUNCH OF A MULTI-TRANCHE BOND FOR A TOTAL OF 2 BILLION DOLLARS**

**The transaction lengthens the average debt maturity**

**And further diversifies the investor base**

*Milan, 29 May 2008*

Telecom Italia announces that Telecom Italia Capital SA successfully completed the launch of a multi-tranche bond issue for a total of USD 2 billion.

The issue is part of the process of refinancing maturing debt and of diversifying the investor base. This operation, in particular, further lengthens the average life of debt, managing once more to obtain credit with extra-long maturities.

Today's bond issue was split into two fixed-rate tranches, a 10-year and a 30-year, which is a combination not achievable on the Euro market.

Details are:

10-year fixed rate tranche

Issuer: Telecom Italia Capital S.A.

Guarantor: Telecom Italia S.p.A.

Amount: USD 1,000 million

Settlement date: 4 June 2008

Maturity: 4 June 2018

Coupon: 6.999%

Issue price: 100%

Redemption price: 100%

The effective yield to maturity of the 10 year fixed rate is 6.999% per year, which corresponds to a yield of 300 basis points above the corresponding US Treasury bond.

30-year fixed-rate tranche:

Issuer: Telecom Italia Capital S.A.

Guarantor: Telecom Italia S.p.A.

Amount: USD 1,000 million

Settlement date: 4 June 2008

Maturity: 4 June 2038

Coupon: 7.721%

Issue price: 100%

Redemption price: 100%

The effective yield to maturity of the 30 year fixed rate is 7.721% per year, which corresponds to a yield of 305 basis points above the corresponding US Treasury bond.

The bonds will be issued under the 10 billion US dollar Shelf Registration program filed in August 2005 with the SEC and will be listed on the Luxembourg Stock Exchange.

*This press release does not constitute a solicitation to invest, nor can the sale of these bonds take place in jurisdictions in which their offer, solicitation or sale is not legal, or in other words, with methods or limits different to those allowed by the applicable regulations.*

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependent on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;

- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage to its fixed and wireless networks to offset declines in its traditional fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally and shifts in usage pattern;

- the level of demand for telecommunications services, particularly wireless telecommunication services in the maturing Italian market and for new higher value added products and services such as broadband;

- the ability of the Telecom Italia Group to successfully implement its reorganization;

- the success of Telecom Italia's customer loyalty and retention programs and the impact of such programs on revenues;

- the impact of regulatory decisions and changes in the regulatory environment, including implementation of recently adopted EU directives in Italy;

- the impact of economic development generally on the international business of the Telecom Italia Group and on its foreign investments and capital expenditures;

## Edgar Filing: TELECOM ITALIA S P A - Form 6-K

- the continuing impact of rapid or "disruptive" changes in technologies;
- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;
- the impact of fluctuations in currency exchange and interest rates;
- Telecom Italia's ability to successfully implement its strategy over the 2008-2010 period;
- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;
- Telecom Italia's ability to successfully implement its internet and broadband strategy;
- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made and continues to make in Brazil and in Europe on broadband;
- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and
- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Such factors should also be considered together with risk factors included in Telecom Italia Group's Annual Report on Form 20-F for 2005. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the Group will achieve its projected results.
