PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of the Corporation of proxies to be voted at the annual meeting of shareholders scheduled to be held on October 23, 2002, and at all adjournments thereof. Only shareholders of record at the close of business on August 30, 2002 will be entitled to vote. On that date, 118,024,557 Common Shares were outstanding and entitled to vote at the meeting, each share being entitled to one vote. This Proxy Statement and the form of proxy are being mailed to shareholders on or about September 23, 2002.

Shareholders of the Corporation have cumulative voting rights in the election of Directors if any shareholder gives notice in writing to the

## Edgar Filing: PARKER HANNIFIN CORP - Form DEF 14A

President or a Vice President or the Secretary of the Corporation not less than 48 hours before the time fixed for holding the meeting that cumulative voting at such election is desired and an announcement of the giving of such notice is made upon the convening of the meeting by the Chairman or the Secretary or by or on behalf of the shareholder giving such notice. In such event, each shareholder has the right to cumulate votes and give one nominee the number of votes equal to the number of Directors to be elected multiplied by the number of votes to which the shareholder is entitled, or to distribute votes on the same principle among two or more nominees, as the shareholder sees fit. In the event that voting at the election is cumulative, the persons named in the proxy will vote Common Shares represented by valid Board of Directors' proxies on a cumulative basis for the election of the nominees named below, allocating the votes of such Common Shares in accordance with their judgment.

### ELECTION OF DIRECTORS

The Directors of the class elected at each annual election hold office for terms of three years. The Board of Directors of the Corporation presently consists of 15 members divided equally into three classes. As permitted under the Corporation's Code of Regulations, Candy M. Obourn was elected to the Board of Directors in January 2002 to a term expiring in 2004 and Robert J. Kohlhepp was elected to the Board of Directors in July 2002 to a term expiring in 2003.

Shareholder approval is sought to elect William E. Kassling, Peter W. Likins, Wolfgang R. Schmitt and Debra L. Starnes, Directors whose terms of office expire in 2002, to the class whose term will expire in 2005. Paul C. Ely, Jr., a director since 1984, whose term expires in 2002, has elected to retire as of October 23, 2002. A plurality of the Common Shares voted in person or by proxy is required to elect a Director.

Should any nominee become unable to accept nomination or election, the proxies will be voted for the election of such other person as a Director as the Board of Directors may recommend. However, the Board of Directors has no reason to believe that this contingency will occur.

No Director of the Corporation is related to any other Director. During the fiscal year ended June 30, 2002, there were five meetings of the Corporation's Board of Directors. Each Director attended at least 75% of the meetings held by the Board of Directors and the Committees of the Board on which he or she served, except for Dr. Likins.

This Committee recommends to the Board of Directors the appointment of the independent certified public accountants for the fiscal year. will give appropriate consideration to qualified persons recommended by shareholders for nomination as Directors of the Corporation, provided that such recommendations are accompanied by information sufficient to enable the Committee to evaluate the qualifications of the nominee. Nominations should be sent to the attention of the Secretary of the Corporation.

Compensation of Directors. The Corporation compensates Directors, other than officers who are Directors, for their services. The annual retainer for such Directors is \$30,000. The fee for attending each Board and Committee meeting is \$1,500 for all such Directors other than Committee Chairmen, whose fee is \$2,000 for chairing committee meetings. Duane E. Collins, Chairman of the Board of Directors, receives an annual retainer of \$175,000, plus meeting fees, club memberships and the use of a leased automobile. Directors may elect to defer all or a portion of their fees under the Corporation's Deferred Compensation Plan for Directors or to elect to receive all or a portion of their fees in Common Shares of the Corporation pursuant to the Corporation's Non-Employee Directors' Stock Plan.

Each Director who was not a current or retired employee of the Corporation ("Non-Employee Director") was granted 700 stock options under the Non-Employee Directors Stock Option Plan in August 2001 at an option price equal to the then current fair market value of the Corporation's Common Shares. Such options have a ten-year term and vest 50% following one year of continued service as a Director and the remaining 50% following the second year of continued service as a Director.

Section 16(a) Beneficial Ownership Reporting Compliance. Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Corporation's executive officers, directors and beneficial owners of more than 10% of the Corporation's Common Shares to file initial stock ownership reports and reports of changes in ownership with the Securities and Exchange Commission and the New York Stock Exchange. SEC regulations require that the Corporation be furnished with copies of these reports. Based solely on a review of these reports and written representations from the executive officers and directors, the Corporation believes that there was compliance with all such filing requirements for the fiscal year ended June 30, 2002 with one exception. Claus Beneker, Vice President - Chief Technical Officer, filed a Form 4 to report two transactions one day late because of the delay associated with obtaining a renewal of his EDGAR electronic filing password, which had inadvertently expired.

The Audit Committee is reviewing its charter and responsibilities in light of the Sarbanes-Oxley Act of 2002 and proposed corporate governance standards of the New York Stock Exchange.

## Edgar Filing: PARKER HANNIFIN CORP - Form DEF 14A

In fulfilling its responsibilities, the Audit Committee has reviewed and discussed the audited consolidated financial statements of the Corporation for the fiscal year ended June 30, 2002, with the Corporation's management and PricewaterhouseCoopers LLP ("PwC"), the Corporation's independent certified public accountants.

### COMPENSATION AND MANAGEMENT DEVELOPMENT COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation and Management Development Committee of the Board of Directors (the "Committee") has furnished the following report on executive compensation.

The Committee, which consists entirely of five outside non-employee Directors, has overall responsibility to:

- \* review the performance and long-term management potential of the executive officers of the Corporation; and
- \* review and fix the salaries and other compensation of the executive officers of the Corporation.

Following review and approval by the Committee, all issues pertaining to executive compensation are submitted to the full Board of Directors in conjunction with its approval and review of the Corporation's strategies and operating plans, thereby assuring that the Corporation's system of executive compensation is reasonable and appropriate, meets its stated purpose and effectively serves the interests of the shareholders and the Corporation.

The Corporation's executive compensation programs are designed to attract, retain and motivate key executives critical to the long-term success of the Corporation by remaining competitive with other multinational diversified manufacturing companies of similar size. Comparative compensation information

## Edgar Filing: PARKER HANNIFIN CORP - Form DEF 14A

is used by the Committee to establish competitive salary grade ranges at the market median for base pay, annual bonus and long-term compensation. The group of companies used for compensation comparison purposes is not identical to the S&P 500 Industrial Machinery Index, which is the peer group of companies included in the performance graph on page 14. Comparative compensation information is obtained by the Committee from independent surveys of numerous comparable manufacturers, which the Committee believes is important in order to establish competitive compensation ranges at the appropriate levels. On the other hand, the S&P 500 Industrial Machinery Index utilized in the performance graph contains data only with respect to a limited number of companies that are in businesses similar to the Corporation, which data is theoretically reflective of the stock performance of all industrial machinery manufacturers as a whole.

In addition to being competitive, the Corporation's executive compensation programs are also intended to reward executives commensurate with performance and attainment of pre-determined financial objectives. Accordingly, compensation of executive officers is directly and materially linked to both operating performance and increases in shareholder value, thus aligning the financial interests of the Corporation's executives with those of its shareholders.

Compensation for the Corporation's executives consists of three primary elements:

1. A base salary within a competitively established range. The specific base salary within the range is determined by experience, individual contributions and performance as measured against pre-established goals and objectives. Goals and objectives for each executive vary in accordance with each executive's responsibilities and are established by each executive's supervisor. In the case of the Chief Executive Officer, such goals and objectives are set by the Committee.
2. An annual cash incentive bonus that is comprised of two components:
  - a. An amount that is determined by the Corporation's pre-tax return on average assets as compared to the Corporation's annual plan established at the beginning of the fiscal year (the "Target Incentive Bonus"); and
  - b. An amount that is determined based on the return on division net assets for the divisions in each executive's individual operating unit (or the average return for all divisions for corporate staff executive officers) (the "RONA Bonus").

6

The target amounts of the annual cash incentive bonuses are established in such a manner that base salary plus the target bonuses will be within the competitively determined total annual compensation range mentioned above. Target annual cash incentive bonuses represent approximately 25-45% of total targeted annual compensation for the executive officers with operational profit and loss responsibility (including the Chief Executive Officer) and 20-40% of total targeted annual compensation for the other executive officers.

The Chief Executive Officer, with the approval of the Committee, also has the authority to establish additional annual incentive programs for operating executives. In fiscal year 2002, under a Volume Incentive Plan, operating group presidents had the opportunity to earn an additional bonus

## Edgar Filing: PARKER HANNIFIN CORP - Form DEF 14A

of 1% of base salary for each 1% of sales by which their group exceeded their previous year's sales by between 10% and 15%, and an additional bonus of 2% of base salary for each 1% of sales by which their group exceeded their previous year's sales by more than 15%; subject, however, to an overall maximum of 15% of the participant's base salary. Acquisitions may only account for up to 5% of the increase in sales. Also, sales growth above 15% resulted in additional payments under the Volume Incentive Plan only if the group exceeded corporate goals with respect to its return on sales and its assets/sales ratio.

### 3. Long-term incentive compensation that is comprised of two components:

- a. A long-term incentive plan ("LTIP") award that is based upon the Corporation's actual average return on equity for a three fiscal year period, payable in either restricted stock or as an account entry under the Corporation's Executive Deferral Plan ("EDP") in an amount equal to the value of such restricted stock. The amount of the LTIP award in shares is calculated by dividing a target LTIP dollar value (adjusted for risk of forfeiture) by the market price of the Corporation's Common Shares at the beginning of the three-year performance period. The target LTIP value is established by the Committee at the market median of comparative LTIP compensation.
- b. A stock option grant determined by utilizing the Black-Scholes valuation model to convert a target stock option dollar value (adjusted for risk of non-vesting) into the number of stock options to be granted. The target stock option value is established by the Committee at the market median of comparative stock option compensation. Stock options are granted with an exercise price equal to the fair market value of the Corporation's Common Shares on the day of grant, and grants historically had a ten-year term with one year vesting. Beginning in August 1999, grants have a ten-year term and vest 50% following one year of continued service and the remaining 50% following the second year of continued service from the date granted. The Corporation's Stock Option Deferral Plan permits executives to defer the recognition of gain upon the exercise of stock options under the Plan.

Incentive compensation for the Corporation's executives is significantly "at risk," based upon the financial performance of the Corporation. Indeed, more than one-half of each executive's targeted total compensation (including base salary, annual bonus, LTIP payouts and stock options) may fluctuate significantly from year to year because it is directly tied to business and individual performance.

Long-term incentive programs are designed to link the interests of the executives with those of the shareholders. LTIP awards focus on long-term return on equity and provide an incentive to increase the stock price during the three year performance period. Restricted stock awards build stock ownership and encourage a long-term focus on shareholder value, since the stock is restricted from being sold, transferred or assigned for a specified period. Stock option grants provide an incentive that aligns the executive's interests with those of the shareholders, since stock options will provide value to the executive only when the price of the Corporation's stock increases above the option grant price.

In August 1996, the Board of Directors, at the recommendation of the Committee, adopted stock ownership guidelines that are designed to encourage the accumulation and retention of the Corporation's Common Shares by its Directors, executive officers and other key executives. These guidelines, stated as a multiple of executives' base salaries and of Directors' annual retainer, are as follows: Chief Executive Officer and President: three times;

## Edgar Filing: PARKER HANNIFIN CORP - Form DEF 14A

Vice Presidents: two times; other executive officers and group presidents: one time; and non-management Directors: four times. The recommended time period for reaching the above guidelines is five years. The Chief Executive Officer reviews compliance with this policy with the Committee on an annual basis.

7

The Corporation's executive compensation philosophy is specifically evident in the compensation paid during the most recent fiscal year to Donald E. Washkewicz, the Corporation's Chief Executive Officer. Mr. Washkewicz's increase in base salary from fiscal 2001 to fiscal 2002 of 33.65% is reflective of his promotion to Chief Executive Officer. In addition, based on the Corporation's fiscal 2002 operating plan, Mr. Washkewicz was entitled to receive 100% of his Target Incentive Bonus of \$300,000 if the Corporation's actual pre-tax return on average assets, adjusted primarily for acquisitions and currency transactions, was 11.1%. A minimum payout of 15% of the Target Incentive Bonus was established at a 2.6% pre-tax return on average assets and a maximum payout of 150% of the Target Incentive Bonus was established at a 13.6% pre-tax return on average assets. During the fiscal year ended June 30, 2002, the Corporation's adjusted pre-tax return on average assets, further adjusted as described below, was 5.40% and each executive officer, including Mr. Washkewicz, received an amount equal to 25.8% of his Target Incentive Bonus, which is included in the "Bonus" column of the Summary Compensation Table on page 10.

Mr. Washkewicz's RONA Bonus was targeted at \$361,905 based upon an approximate 29.44% average return on division net assets. The average return on division net assets, adjusted as described below, was 19.07%, resulting in a RONA Bonus payment to Mr. Washkewicz of \$234,619, which is included in the "Bonus" column of the Summary Compensation Table on page 10. The other executive officers also received RONA Bonuses based upon the return on division net assets by their respective operating units (or the average return for all divisions for corporate staff executive officers).

Based on the Corporation's average return on equity, adjusted as described below, of 12.96% for the three fiscal years ended June 30, 2002, Mr. Washkewicz and the other executive officers received a payment under the 2000-01-02 LTIP in the form of either restricted shares and/or contributions to their EDP accounts in an amount equal to the value of the restricted shares earned, as reported in the "LTIP Payouts" column of the Summary Compensation Table on page 10. Such payment represents 87% of the target payment that would have been achieved had the Corporation achieved its return on equity goal of 14% during such period.

During fiscal year 2002, Mr. Washkewicz and the other executive officers also received a long-term incentive award as described in the LTIP Table on page 12 and a stock option grant as reported in the Option Grants Table on page 11. The Committee approved special one-time grants to Messrs. Washkewicz, Hiemstra and Myslenski and Nickolas W. Vande Steeg equal to twice the number of options each would normally receive at his grade level. These special grants not only reflected Mr. Washkewicz's promotion to Chief Executive Officer, Mr. Hiemstra's promotion to Executive Vice President - Finance and Administration and Mr. Myslenski's and Mr. Vande Steeg's promotions to Corporate Vice President and Operating Officer, but also reflected the Committee's desire to provide significant additional incentive to these new members of the Office of the Chief Executive to increase the Corporation's share price.

8

Edgar Filing: PARKER HANNIFIN CORP - Form DEF 14A

Fiscal year 2002 was a challenging year for the Corporation's management due to the recessionary economic climate, exacerbated by the events of September 11. The Corporation's disappointing results are reflected in the lower levels of incentive compensation paid to the Corporation's executives. During fiscal year 2002, the Corporation recorded charges of approximately \$53.8 million to reduce the book value of certain long-term assets, including goodwill. Consistent with past practice, the Committee unanimously approved the principle that these non-cash charges against earnings would not have an effect on the Corporation's annual and long-term incentive compensation plans. Accordingly, the Corporation's actual return on average assets, return on division net assets and return on equity were adjusted for purposes of determining compensation payable under such plans. This adjustment resulted in the payment of approximately \$700,000 to the Corporation's executives and approximately 3,500 other employees. The Committee also determined that this decision would not constitute a precedent and that the impact of future long-term asset impairments on executive incentive plans would be considered on a case-by-case basis.

The Omnibus Budget Reconciliation Act of 1993 includes potential limitations on the deductibility of compensation in excess of \$1 million paid to the Corporation's Chief Executive Officer and four other highest paid executive officers. The Committee has taken the necessary actions to ensure the deductibility of compensation paid by the Corporation to such individuals.

### Pension Plan Table

The following table summarizes the estimated annual benefits payable upon retirement to the executive officers identified in the Summary Compensation Table on page 10:

Remuneration	Years of Service 15 or more

1,200,000	660,000
1,400,000	770,000
1,600,000	880,000

The foregoing table sets forth the straight-life annuity payable under the Corporation's Supplemental Executive Retirement Benefits Program (the "Program") at the normal retirement age of 65. The years of service under the Program for each of the executive officers identified in the Summary Compensation Table on page 10, at their respective retirement dates, will be as follows: Mr. Washkewicz, 43 years; Mr. Sullivan, 44 years; Mr. Hiemstra, 25 years; Mr. Myslenski, 43 years; and Mr. Hayes, 34 years. The Program provides an annual benefit based upon the average of the participant's three highest years of cash compensation (Salary, RONA Bonus and Target Incentive Bonus) with the Corporation. Benefits payable under the Program are based on calendar year compensation. If the benefits were to be payable to each named participant based on retirement as of June 30, 2002, the average of the three highest calendar years of cash compensation included in determining benefits under the Program for each of the named participants would be as follows: Mr. Washkewicz, \$719,994; Mr. Sullivan, \$1,055,563; Mr. Hiemstra, \$693,716; Mr. Myslenski, \$583,798; and Mr. Hayes, \$654,190. Benefits are subject to reduction for payments received under the Corporations Retirement Plan plus 50% of primary social security benefits.

"Change in Control" Severance Agreements with Officers. The Corporation has entered into separate agreements (collectively the "Agreements") with Messrs. Washkewicz, Sullivan, Hiemstra, Myslenski and Hayes that are designed to retain the executives and provide for continuity of management in the event of any actual or threatened change in the control of the Corporation. Each Agreement only becomes operative upon a "Change in Control" of the Corporation, as that term is defined in the Agreements, and the subsequent termination of the employment of the executive pursuant to the terms of the Agreement. A Change in Control of the Corporation shall be deemed to have occurred if and when: (i) subject to certain exceptions, any "person" (as such term is used in Sections

Each Agreement provides that, if the employment of the executive is terminated during the three years following a Change in Control of the Corporation, either by the Corporation without "Cause" (as defined in the Agreements) or by the executive for "Good Reason" (as defined in the Agreements and described below), the executive shall be entitled to receive (a) pro rata salary and bonus for the year of termination of employment; (b) severance pay equal to three times the executive's annual salary and bonus; (c) continuation of welfare benefits (e.g., medical, life insurance, disability coverage) for a period of three years; (d) to the extent not previously received, all amounts previously deferred under the Corporation's non-qualified income deferral plans together with a "make whole" amount designed to compensate the executive for the lost opportunity to continue to defer receipt of such income (and the earnings thereon) pursuant to elections made under the Executive Deferral Plan ("EDP"); and (e) a "gross-up" payment to offset the effect, if any, of the excise tax imposed by Section 4999 of the Internal Revenue Code. "Good Reason" for termination of employment by the executive includes, without limitation, diminution in duties, reduction in compensation or benefits or relocation. In addition, termination of employment by the executive for any or no reason during the 180-day period beginning on the 91st day after the Change in Control shall constitute Good Reason.

A Change in Control of the Corporation also has an effect under other executive compensation plans of the Corporation, as follows: (1) any outstanding unvested stock option held by an executive vests immediately upon a Change in Control; (2) any outstanding unvested shares of restricted stock issued or unvested EDP amounts credited to an executive pursuant to the Corporation's Long Term Incentive Plans ("LTIP") vest immediately in the event of a Change in Control; (3) any outstanding LTIP award to an executive will be paid in full in cash upon a Change in Control, at the target amount or on the basis of corporate financial performance to the date of the Change in Control, whichever is greater; (4) upon a Change in Control, all amounts previously deferred by the executive under the EDP, together with the "make whole" amount (described in subsection (d) of the preceding paragraph), will be paid to the executive; (5) upon a Change in Control, all shares the receipt of which were

previously deferred by the executive under the Stock Option Deferral Plan will be issued to the executive; and (6) upon a Change in Control, each participant under the Corporation's Supplemental Executive Retirement Benefits Program (the "Program") will receive three additional years of age and service credit under the Program and will receive a lump-sum payment equal to the present value of the participant's vested benefit under the Program.

### GENERAL

The Board of Directors knows of no other matters which will be presented at the meeting. However, if any other matters properly come before the meeting or any adjournment, the person or persons voting the proxies will vote in accordance with their best judgment on such matters.

The Corporation will bear the expense of preparing, printing and mailing this Proxy Statement. In addition to solicitation by mail, officers and other employees of the Corporation may solicit the return of proxies. The Corporation will request banks, brokers and other custodians, nominees and fiduciaries to send proxy material to beneficial owners of Common Shares. The Corporation will, upon request, reimburse them for their expenses in so doing. The Corporation has retained Georgeson Shareholder Communications Inc., 88 Pine Street, Wall Street Plaza, 30th Floor, New York, New York, to assist in the solicitation of proxies at an anticipated cost of \$14,000, plus disbursements.

You are urged to vote your proxy promptly by internet, telephone or mail by following the instructions on the enclosed proxy card in order to make certain your shares will be voted at the meeting. Common Shares represented by properly executed proxies will be voted in accordance with any specification made thereon and, if no specification is made, will be voted in favor of the election of the four nominees for Directors in the class whose three-year term of office will expire in 2005; and in favor of the appointment of PricewaterhouseCoopers LLP as independent certified public accountants for the fiscal year ending June 30, 2003. Abstentions and broker non-votes are counted in determining the votes present at a meeting. Consequently, an abstention or a broker non-vote has the same effect as a vote against a proposal which requires the affirmative vote of a certain number of Common Shares, as each abstention or broker non-vote would be one less vote in favor of a proposal. You may revoke your proxy at any time prior to the close of voting at the Annual Meeting by giving notice to the Corporation in writing, in open meeting, or by internet or telephone as set forth on the proxy card, without affecting any vote previously taken. However, your mere presence at the meeting will not operate to revoke your proxy.

The Annual Report of the Corporation, including financial statements for the fiscal year ended June 30, 2002, is being mailed to shareholders with this Proxy Statement.
