DIVIDEND REINVESTMENT PLANS

Each Fund offers an automatic dividend reinvestment program. If Fund shares are registered in your name and you are not already reinvesting dividends but would like to do so, contact the dividend plan agent, Mellon Investor Services, L.L.C., at 800 851-9677. You will be asked to put your request in writing. If you have shares registered in "street" name, contact your financial advisor or the broker/dealer holding the shares.

Under the current policies of Arizona Municipal Income Fund, Florida Insured Municipal Income Fund, Minnesota Municipal Income Fund I, and Minnesota Municipal Income Fund II, all distributions of net investment income and capital gains to common stock shareholders are automatically reinvested in additional shares unless shareholders elect to receive all dividends and other distributions in cash paid by check mailed directly to shareholders by the dividend plan agent. Under the current policies of Colorado Insured Municipal Income Fund and Minnesota Municipal Income Fund III, distributions of net investment income and capital gains to common shareholders will be paid in cash unless shareholders notify Mellon Investor Services, L.L.C. of their desire to participate in the dividend reinvestment program.

After each Fund declares a dividend or determines to make a capital gains distribution, the plan agent will, as agent for the participants, receive the cash payment and use it to buy shares in the open market on the American Stock Exchange. The Funds will not issue any new shares in connection with the plan. You can contact Mellon at:

MINNESOTA MUNICIPAL INCOME FUNDS I, II, and III

Q: WHAT KIND OF ENVIRONMENT FOR MUNICIPAL INVESTING DID

YOU ENCOUNTER IN MINNESOTA DURING THE REPORTING PERIOD?

A: Minnesota's economy continued to emerge from recession but generally remained in solid financial shape compared to most other states. The state benefited from a high degree of personal wealth, a diversified employment base, and low unemployment relative to the national average. These factors led credit-rating agency Standard & Poor's to maintain its AAA rating--the highest possible--on Minnesota's general obligation (GO) debt. In June 2003, however, Moody's, another leading credit rating institution, downgraded the state's GOs from Aaa to Aa1 with a stable outlook. Moody's cited Minnesota's deteriorating financial strength because of substantial spending commitments, a decrease in financial reserves, and overly optimistic revenue projections.

New municipal issuance in the state surpassed \$6.1 billion in 2003, representing a 14 percent drop from the prior year's total. In the first quarter of 2004, however, new supply in the state totaled \$1.2 billion, an 85 percent increase in issuance over the same time period a year earlier (Source: The Bond Buyer).

Q: HOW DID THE MINNESOTA MUNICIPAL INCOME FUNDS
PERFORM DURING THE FISCAL YEAR?

A: For the 12-month period ended March 31, 2004, Minnesota Municipal Income Funds I, II, and III returned +6.62%, +7.99%, and +7.43%*, respectively (all returns reflect shares at net asset value with distributions reinvested). For the same period, Minnesota Municipal Income Funds I, II, and III returned +13.86%, +16.87%, and +15.76%, respectively (all returns reflect shares at market price with distributions reinvested). All three Funds outperformed their national benchmark, the Lehman Brothers Municipal Bond Index, which gained +5.86%. The Funds' dividends from net investment income during the past 12 months were exempt from federal income and Minnesota state personal income taxes.+

We attribute much of the Funds' outperformance relative to the Lehman Brothers Municipal Bond Index to the presence of older bonds in the portfolio. We opted to hold onto these securities, issued during more favorable interest-rate environments, because they offered higher amounts of coupon income. In our view, selling these bonds would have passed along unwanted capital gains to our shareholders as well as lowered the Funds' overall yields.

Q: WHAT WAS YOUR STRATEGY IN MANAGING THE
MINNESOTA FUNDS?

A: With interest rates at historically low levels throughout the period, we anticipated an eventual rise in rates and continued to position the three Fund portfolios for such a scenario. Specifically, we kept the Funds' durations relatively modest to make the portfolios less vulnerable in the event rates increase (duration is a common measure of a bond or bond fund's sensitivity to interest rate changes; the longer the duration, the more sensitive the bond or bond fund is to changes in interest rates). The Funds' durations did naturally lengthen throughout the past 12 months as bonds matured from the portfolios and we were forced to reinvest the proceeds at lower prevailing yields. This activity was manageable throughout the period, however, and as of March 31, 2004, we believed the Funds were well-positioned for the possibility of higher interest rates that are likely to accompany continued economic growth.

* Past performance is not a guarantee of future results.

+ A portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

When making new investments, we continued to emphasize public-power revenue bonds, which at period-end made up 25.97%, 6.69%, and 17.06% of portfolio assets in Minnesota Municipal Income Funds I, II, and III, respectively. Our focus was on basic utilities, which provide essential services such as electric generation, transmission, and distribution. Unlike some of their investor-owned counterparts, the public-power utilities we favored provided relatively stable revenue streams. We also liked that most bonds in this area are insured, giving the Funds an extra layer of security. Because there was a healthy supply of

public-power bonds during the period, we were able to add to our position in this sector.

We also favored the hospital sector during the period. Following a number of credit problems in the late 1990s and early 2000s, most hospitals have experienced improvements in their financial strength. Despite these improvements, we believe many hospital bonds are still trading at somewhat depressed levels, given the steady credit improvements made. Through careful research, we have sought to identify attractive value opportunities that we believe can offer higher yields with only a modest amount of additional risk. By contrast, continuing care retirement community (CCRC) bonds represented one area of the market that we de-emphasized. We had concerns about the issuers' ability to meet lofty occupancy-rate targets at these care facilities for seniors.

ARIZONA MUNICIPAL INCOME FUND

Q: HOW DID THE FUND PERFORM DURING THE PERIOD?

A: During the 12-month period ended March 31, 2004, the Fund returned +7.86%* (shares at net asset value with distributions reinvested). For the same period, Arizona Municipal Income Fund returned +14.64% (shares at market price with distributions reinvested). For the same period, the benchmark Lehman Brothers Municipal Bond Index rose +5.86%. The Fund's dividends from net investment income during the past 12 months were exempt from federal income and Arizona state personal income taxes.+ The Fund's performance includes two major components: tax-free dividend income as well as capital appreciation driven primarily by modestly declining interest rates during the period.

Q: CAN YOU DESCRIBE SOME ASPECTS OF THE ARIZONA MUNICIPAL BOND MARKET?

A: Over the past decade, growth has been driven by the high technology sector and the relatively inexpensive cost of land and housing, in comparison to Southern California. Standard & Poor's recently assigned an AA- rating to Arizona, reflecting the state's declining tax collections and its low, but increasing, debt burden.

Because of Arizona's reliance on the high technology industry, its economic recovery has lagged the nation as a whole. That has led to relatively high vacancies in commercial real estate projects, which in turn affected some bonds in the portfolio. In one instance, a Ginnie Mae bond issued to finance apartment complexes was called by the lender at par because vacancies in the project exceeded a certain level. On the positive side, a number of bonds were "advance refunded" by issuers seeking to take advantage of lower interest rates, which effectively shortens the bonds' maturity, increases credit quality, and boosts prices.

+ A portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

FLORIDA INSURED MUNICIPAL INCOME FUND

Q: WHAT KIND OF ENVIRONMENT FOR MUNICIPAL INVESTING DID YOU ENCOUNTER IN FLORIDA DURING THE REPORTING PERIOD?

A: Florida maintained a strong economy during the past 12 months, thanks in large part to the state's healthy tourism sector. Florida's unemployment rate remained stable and below the national average. Florida's revenues, accumulated primarily through sales taxes, were strong throughout the period, despite the national recession. The state enjoyed a revenue surplus for the 2003 fiscal year and was expected to see the same in 2004 (Source: Standard & Poor's). A strong financial reserve fund added to Florida's fiscal strength. At period end, the state's tax-secured general obligation debt had a credit rating of AA+ from Standard & Poor's and a comparable Aa2 rating from Moody's. Both ratings reflected the state's rising debt levels.

Florida, the nation's fifth-leading issuer of municipal debt in 2003, brought \$21 billion in new supply to market that year, representing a 14 percent increase over the prior year's total. Issuance tailed off dramatically during the first three months of 2004, however, as new supply fell more than 40 percent compared to the first three months of 2003 (Source: The Bond Buyer).

Q: HOW DID THE FLORIDA INSURED MUNICIPAL INCOME FUND PERFORM DURING THE FISCAL YEAR?

A: For the 12-month period ended March 31, 2004, Florida Insured Municipal Income Fund returned +5.59%* (shares at net asset value with distributions reinvested). For the same period, Florida Insured Municipal Income Fund returned +18.04% (shares at market price with distributions reinvested). During the same period, the benchmark Lehman Brothers Municipal Bond Index gained +5.86%. The Fund's dividends from net investment income during the year were exempt from federal income and Florida intangible personal property taxes.+

The Fund's return at net asset value, which underperformed the Lehman Brothers index, can be attributed to a short duration caused by having an overweighted position in pre-refunded bonds. While these bonds provide desirable yield to the portfolio, they do not benefit from price performance during a declining interest rate environment.

Q: WHAT WAS YOUR STRATEGY IN MANAGING THE FUND?

A: We made relatively few changes to the portfolio during the reporting period. With rates near historically low levels, we did not believe it was in the shareholders' best interest to sell the Fund's older bonds issued during a more attractive interest-rate environment. Doing so would have sacrificed yield as well as resulted in taxable capital gains that would have passed through to investors. With just over three percent of the Fund's assets maturing or called from the portfolio during the period, turnover was very modest. As we mentioned, this management strategy had a somewhat negative effect on the Fund's results during the period. As bonds get closer to maturity, they become less sensitive to declining interest rates. Since declining interest rates benefit bonds, the Fund was not as well positioned to benefit as rates fell. However, we believe that the portfolio's somewhat defensive stance will have a positive influence on performance if interest rates do ultimately increase, as expected.

COLORADO INSURED MUNICIPAL INCOME FUND

Q: WHAT STRATEGIES WERE IMPLEMENTED DURING THE PERIOD?

A: The Fund is managed very conservatively in terms of "duration," a measure of a bond fund's sensitivity to interest rate changes. The shorter the duration, the less the bond fund's price will increase for a given decline in interest rates. We maintained a shorter duration at a time when interest rates were declining, which we believed was a prudent decision given the strengthening economy. Typically, when the economy is recovering, interest rates rise as the demand for credit intensifies and investors demand higher returns to compensate for anticipated inflation.

In addition to its short duration, the Fund only holds AAA-rated insured bonds, the highest possible quality. Issuers include education (Colorado State University System), healthcare (North Colorado Medical Center), as well as a number of bonds financing housing, water, and other utility projects. The Fund contains no bonds that are subject to the alternative minimum tax (AMT), which is significant because an increasing number of taxpayers are subject to the AMT.

* Past performance is not a guarantee of future results.

+ A portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

3

Q: HOW DID THE FUND PERFORM DURING THE FISCAL YEAR?

A: During the 12-month period ended March 31, 2004, the Fund returned +8.05%* (shares at net asset value with distributions reinvested). For the same period, Colorado Municipal Income Fund returned +8.77% (shares at market price with distributions reinvested). For the same period, the benchmark Lehman Brothers Municipal Bond Index rose +5.86%. The Fund's dividends from net investment income during the past 12 months were exempt from federal income and Colorado state personal income taxes.+

The Fund's performance included two major components: tax-free dividend income as well as capital appreciation driven primarily by modestly declining interest rates during the period. Since there are no other closed-end Colorado municipal bond funds, the Lipper peer group to which it is compared is not truly an "apples-to-apples" comparison, but serves as a general peer group comparison.

* Past performance is not a guarantee of future results.

+ A portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

(1) As required, effective April 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies that require amortization of all premiums and discounts on debt securities. The effect of this change for the period ended March 31, 2002 was an increase in net investment income per share of \$0.006, a decrease in net realized and unrealized gain (loss) per share of \$0.006, and an increase in the ratio of net investment income to average net assets of 0.04%. Per share data and ratios for periods prior to April 1, 2001 have not been restated to reflect this change in accounting.

(2) Total investment return is calculated assuming a purchase of common stock on

the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

(3) Ratios do not reflect the effect of dividend payments to preferred shareholders.

(4) Ratio reflects total net investment income less dividends paid to preferred shareholders divided by average net assets applicable to common shareholders.

(5) Excluding any accumulated but unpaid dividends.

(6) The average shares outstanding method has been applied for per share information.

(1) As required, effective April 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies that require amortization of all premiums and discounts on debt securities. The effect of this change for the period ended March 31, 2002 was an increase in net investment income per share of \$0.007, a decrease in net realized and unrealized gain (loss) per share of \$0.007, and an increase in the ratio of net investment income to average net assets of 0.04%. Per share data and ratios for periods prior to April 1, 2001 have not been restated to reflect this change in accounting.

(2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

(3) Ratios do not reflect the effect of dividend payments to preferred shareholders.

(4) Ratio reflects total net investment income less dividends paid to preferred shareholders divided by average net assets applicable to common shareholders.

(5) Excluding any accumulated but unpaid dividends.

(6) The average shares outstanding method has been applied for per share information.

DELAWARE INVESTMENTS CLOSED-END MUNICIPAL BOND FUNDS
March 31, 2004

NOTES

TO FINANCIAL STATEMENTS

Delaware Investments Minnesota Municipal Income Fund, Inc. ("Minnesota Municipal Fund"); Delaware Investments Minnesota Municipal Income Fund II, Inc. ("Minnesota Municipal Fund II"); Delaware Investments Minnesota Municipal Income Fund III, Inc. ("Minnesota Municipal Fund III"); Delaware Investments Arizona Municipal Income Fund, Inc. ("Arizona Municipal Fund"), and Delaware Investments Colorado Insured Municipal Income Fund, Inc. ("Colorado Insured Municipal Fund") are organized as Minnesota corporations and Delaware Investments Florida Insured Municipal Income Fund ("Florida Insured Municipal Fund") is organized as a Massachusetts Business Trust (each referred to as a "Fund" and collectively as the "Funds"). The Minnesota Municipal Fund II, Florida Insured Municipal Fund and Arizona Municipal Fund are diversified closed-end management investment companies and Minnesota Municipal Fund, Minnesota Municipal Fund III and Colorado Insured Municipal Fund are non-diversified closed-end management investment companies under the Investment Company Act of 1940, as amended. The Funds' shares trade on the American Stock Exchange.

The investment objective of each Fund is to provide current income exempt from federal income tax and from the personal income tax of its state, if any, consistent with the preservation of capital. Florida Insured Municipal Fund will generally seek investments that will enable its shares to be exempt from Florida's intangible personal property tax. Each Fund will seek to achieve its investment objective by investing substantially all of its net assets in investment grade, tax-exempt municipal obligations of its respective state.

1. SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies are in accordance with accounting principles generally accepted in the United States and are consistently followed by the Funds.

Security Valuation -- Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair

value as determined in good faith under the direction of the Funds' Board of Trustees/Directors.

Federal Income Taxes -- Each Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

Use of Estimates -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other -- Expenses common to all funds within the Delaware Investments Family of Funds are allocated amongst the Funds on the basis of average net assets. Management fees and other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date). Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Interest income is recorded on the accrual basis. Discounts and premiums are amortized to interest income over the lives of the respective securities. Each Fund declares and pays dividends from net investment income monthly and distributions from net realized gain on investments, if any, annually.

In order to satisfy certain distribution requirements of the Tax Reform Act of 1986, the Funds may declare special year-end dividend and capital gains distributions during November or December to shareholders of record on a date in such month. Such distributions, if received by shareholders by January 31, are deemed to have been paid by the Funds and received by shareholders on the earlier of the date paid or December 31 of the prior year.

Expenses Paid Indirectly -- Certain expenses of the Funds are paid through commission arrangements with brokers. In addition, the Funds may receive earnings credits from their custodian when positive cash balances are maintained, which are used to offset custody fees. The expenses paid under the above arrangements are included in their respective expense captions on the Statements of Operations with the corresponding expense offset shown as "expenses paid indirectly." The amounts of these expenses for the year ended March 31, 2004 were as follows:

	Minnesota Municipal Fund I	Minnesota Municipal Fund II	Minnesota Municipal Fund III	Arizona Municipal Fund	Florida Insur Municipal Fund
	-----	-----	-----	-----	-----
Pricing Reimbursements	\$1,427	\$4,069	\$992	\$1,701	\$1,424
Earnings Credits	2,170	4,947	1,900	2,911	1,750

2. INVESTMENT MANAGEMENT, ADMINISTRATION AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

In accordance with the terms of its respective investment management agreement, each Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.40% which is calculated daily based on the average daily net assets of each Fund, including assets attributable to any preferred stock that may be outstanding.

The Funds have engaged Delaware Service Company, Inc., (DSC), an affiliate of DMC, to provide accounting and administration services which are based on average net assets and paid on a monthly basis, subject to certain minimums.

At March 31, 2004, the Funds had liabilities payable to affiliates as follows:

	Minnesota Municipal Fund I	Minnesota Municipal Fund II	Minnesota Municipal Fund III	Arizona Municipal Fund
	-----	-----	-----	-----
Investment management fee payable to DMC	\$19,871	\$57,410	\$13,992	\$24,023
Accounting, administration and other expenses payable to DSC	13,091	11,154	12,251	8,928
Other expenses payable to DMC and affiliates*	22,864	24,042	22,523	22,876

*DMC, as part of its administrative services, pays operating expenses on behalf of the Funds and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, registration fees, and trustees'/directors' fees.

Net assets	\$46,429,378	\$39,243,663

Post-October losses represent losses realized on investment transactions from November 1, 2003 through March 31, 2004 that, in accordance with federal income

Edgar Filing: DELAWARE INVESTMENTS MINNESOTA MUNICIPAL INCOME FUND III INC - Form N-CSR

tax regulations, the Funds have elected to defer and treat as having arisen in the following fiscal year.

For financial reporting purposes, capital accounts and distributions to shareholders are adjusted to reflect the tax character of permanent book/tax differences. For the year ended March 31, 2004, the Funds recorded the following permanent reclassifications. Reclassifications are primarily due to tax treatment of market discount on certain debt instruments and expiration of capital loss carry forwards. Results of operations and net assets were not affected by these reclassifications.

	Minnesota Municipal Fund -----	Minnesota Municipal Fund II -----
Undistributed net investment income	37,290	59,698

Accumulated realized gain (loss)	(14,007)	882

For federal income tax purposes, certain Funds had accumulated capital losses as of March 31, 2004, which may be carried forward and applied against future capital gains. Such capital loss carryforward amounts will expire as follows:

	2005 ----	2006 ----	2008 ----	2009 ----
Minnesota Municipal Fund II	\$73,298	\$132,129	\$437,162	\$175,804
Minnesota Municipal Fund III	455,666	6,539	56,856	153,308

5. CAPITAL STOCK

Pursuant to their articles of incorporation, Minnesota Municipal Fund, Minnesota Municipal Fund II, Minnesota Municipal Fund III, Arizona Municipal Fund and Colorado Insured Municipal Fund each have 200 million shares of \$0.01 par value common shares authorized. Florida Insured Municipal Fund has been authorized to issue an unlimited amount of \$0.01 par value common shares. The Funds did not repurchase any shares under the Share Repurchase Program during the year ending March 31, 2004. Shares issuable under the Fund's dividend reinvestment plan are purchased by the Fund's transfer agent, Mellon Investor Services, LLC, in the open market.

The Funds each have one million shares of \$0.01 par value preferred shares

authorized, except for Florida Insured Municipal Fund, which has an unlimited amount of \$0.01 par value preferred shares authorized. Under resolutions adopted by the Board of Directors/Trustees, Minnesota Municipal Fund is allowed to issue up to 400 preferred shares, of which the entire amount was issued on August 6, 1992. On May 14, 1993, Minnesota Municipal Fund II, Arizona Municipal Fund and Florida Insured Municipal Fund issued 1,200, 500 and 400 preferred shares, respectively. On December 10, 1993, Minnesota Municipal Fund III issued 300 preferred shares and on September 23, 1993, Colorado Insured Municipal Fund issued 800 preferred shares. The preferred shares of each Fund have a liquidation preference of \$50,000 per share plus an amount equal to accumulated but unpaid dividends.

5. CAPITAL STOCK (CONTINUED)

Dividends for the outstanding preferred shares of each Fund are cumulative at a rate established at the initial public offering and are typically reset every 28 days based on the results of an auction. Dividend rates (adjusted for any capital gain distributions) ranged during the year ended March 31, 2004 as follows:

Fund	Low		High
----	-----		-----
Minnesota Municipal Fund	0.89%	to	1.22%
Minnesota Municipal Fund II	0.75%	to	1.25%
Minnesota Municipal Fund III	0.80%	to	1.30%
Arizona Municipal Fund	0.82%	to	1.12%
Florida Insured Municipal Fund	0.80%	to	1.15%
Colorado Insured Municipal Fund	0.65%	to	1.17%

Salomon Smith Barney, Inc. and Merrill Lynch Pierce, Fenner & Smith Inc. (Colorado Insured Municipal Fund only), as the remarketing agents, receive an annual fee from each of the Funds of 0.25% of the average amount of preferred stock outstanding.

Under the 1940 Act, the Funds may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred stock is less than 200%. The preferred shares are redeemable at the option of the Funds, in whole or in part, on any dividend payment date at \$50,000 per share plus any accumulated but unpaid dividends whether or not declared. The preferred shares are also subject to mandatory redemption at \$50,000 per share plus any accumulated but unpaid dividends whether or not declared, if certain requirements relating to the composition of the assets and liabilities of each Fund are not satisfied. The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares are also entitled to elect two of each Fund's Directors. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares, and (b) take any action requiring a vote of security holders pursuant of Section 13(a) of the 1940 Act, including, among other things, changes in each of the Fund's subclassification as a closed-end investment company or changes in their fundamental investment restrictions.

6. CREDIT AND MARKET RISKS

The Funds concentrate their investments in securities issued by municipalities. The value of these investments may be adversely affected by new legislation within the state, regional or local economic conditions, and differing levels of supply and demand for municipal bonds. Many municipalities insure repayment for their obligations. Although bond insurance reduces the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its obligations. These securities have been identified in the Statements of Net Assets.

The Funds may invest in inverse floating rate securities ("inverse floaters"), a type of derivative tax-exempt obligation with floating or variable interest rates that move in the opposite direction of short-term interest rates, usually at an accelerated speed. Consequently, the market values of inverse floaters will generally be more volatile than other tax-exempt investments. Such securities are denoted on the Statements of Net Assets.

7. CONTRACTUAL OBLIGATIONS

The Funds enter into contracts that contain a variety of indemnifications. The Funds' maximum exposure under these arrangements is unknown. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

8. TAX INFORMATION (UNAUDITED)

The information set forth is for the Funds' fiscal year end as required by federal laws. Shareholders, however, must report distributions on a calendar year basis for income tax purposes, which may include distributions for portions of two fiscal years of a fund. Accordingly, the information needed by shareholders for income tax purposes was sent to them in early 2004. Please consult your tax advisor for proper treatment of this information.

For the year ended March 31, 2004, each Fund designates as long-term capital gains, ordinary income, and tax-exempt income distributions paid during the year as follows:

	Long-Term Capital Gains Distributions-15%(a)	Long-Term Capital Gains Distributions-20%	Ordinary Income Distributions
Minnesota Municipal Fund I	8%	27%	3%
Minnesota Municipal Fund II	--	--	1%
Minnesota Municipal Fund III	--	--	1%
Arizona Municipal Fund	5%	5%	5%
Florida Insured Municipal Fund	2%	3%	--
Colorado Insured Municipal Fund	2%	9%	1%

(a) For the year ended March 31, 2004, certain long-term capital gains distributions paid by the Funds may be subject to a maximum tax rate of 15%, as provided by the Jobs and Growth Tax Relief Reconciliation Act of 2003. Minnesota Municipal Income Fund, Arizona Municipal Income Fund, Florida Insured Municipal

Income Fund, and Colorado Insured Municipal Income Fund designated \$307,077, \$178,521, \$53,008, and \$115,296, respectively, to be taxed at a maximum rate of 15%. Complete information was computed and reported in conjunction with your 2003 Form 1099-DIV.

We have audited the accompanying statements of net assets of Delaware Investments Minnesota Municipal Income Fund, Inc., Delaware Investments Minnesota Municipal Income Fund II, Inc., Delaware Investments Minnesota Municipal Income Fund III, Inc., Delaware Investments Arizona Municipal Income Fund, Inc., Delaware Investments Florida Insured Municipal Income Fund, and Delaware Investments Colorado Insured Municipal Income Fund, Inc. (the "Funds") as of March 31, 2004, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of March 31, 2004, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the respective Funds at March 31, 2004, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States.

Item 2. Code of Ethics

The registrant has adopted a code of ethics that applies to the
registrant's principal executive officer, principal financial officer, principal
accounting officer or controller, or persons performing similar functions,
regardless of whether these individuals are employed by the registrant or a

third party. A copy of the registrant's Code of Business Ethics has been posted on Delaware Investments' internet website at www.delawareinvestments.com. Any amendments to the Code of Business Ethics, and information on any waiver from its provisions granted by the registrant, will also be posted on this website within five business days of such amendment or waiver and will remain on the website for at least 12 months.

Item 3. Audit Committee Financial Expert

The registrant's Board of Trustees/Directors has determined that each member of the registrant's Audit Committee is an audit committee financial expert, as defined below. For purposes of this item, an "audit committee financial expert" is a person who has the following attributes:

- a. An understanding of generally accepted accounting principles and financial statements;
- b. The ability to assess the general application of such principles in connection with the accounting for estimates, accruals, and reserves;
- c. Experience preparing, auditing, analyzing, or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant's financial statements, or experience actively supervising one or more persons engaged in such activities;
- d. An understanding of internal controls and procedures for financial reporting; and
- e. An understanding of audit committee functions.

An "audit committee financial expert" shall have acquired such attributes through:

- a. Education and experience as a principal financial officer, principal accounting officer, controller, public accountant, or auditor or experience in one or more positions that involve the performance of similar functions;
- b. Experience actively supervising a principal financial officer, principal accounting officer, controller, public accountant, auditor, or person performing similar functions;
- c. Experience overseeing or assessing the performance of companies or public accountants with respect to the preparation, auditing, or evaluation of financial statements; or
- d. Other relevant experience.

The registrant's Board of Trustees/Directors has also determined that each member of the registrant's Audit Committee is independent. In order to be "independent" for purposes of this item, the Audit Committee member may not: (i) other than in his or her capacity as a member of the Board of Trustees/Directors or any committee thereof, accept directly or indirectly any consulting, advisory or other compensatory fee from the issuer; or (ii) be an "interested person" of the registrant as defined in Section 2(a)(19) of the Investment Company Act of 1940.

The names of the audit committee financial experts on the registrant's Audit Committee are set forth below:

Ann R. Leven
Thomas F. Madison
Janet L. Yeomans(1)

Item 4. Principal Accountant Fees and Services

(a) Audit fees.

The aggregate fees billed for services provided to the Registrant by its independent auditors for the audit of the Registrant's annual financial statements and for services normally provided by the independent auditors in connection with statutory and regulatory filings or engagements were \$16,950 for the fiscal year ended March 31, 2004.

The aggregate fees billed for services provided to the Registrant by its independent auditors for the audit of the Registrant's annual financial statements and for services normally provided by the independent auditors in connection with statutory and regulatory filings or engagements were \$26,550 for the fiscal year ended March 31, 2003.

(1) The instructions to Form N-CSR require disclosure on the relevant experience of persons who qualify as audit committee financial experts based on "other relevant experience." The Board of Trustees/Directors has determined that Ms. Yeomans qualifies as an audit committee financial expert by virtue of her education and experience as the Treasurer of a large global corporation.

(b) Audit-related fees.

The aggregate fees billed by the Registrant's independent auditors for services relating to the performance of the audit of the Registrant's financial statements and not reported under paragraph (a) of this Item were \$9,900 for the fiscal year ended March 31, 2004. (e) The Registrant's Audit Committee has not established pre-approval policies and procedures as permitted by Rule 2-01(c)(7)(i)(B) of Regulation S-X.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the Registrant's independent auditors for services rendered to the Registrant and to its investment adviser(s) and other service providers under common control with the adviser(s) were \$166,625 and \$186,100 for the Registrant's fiscal years ended March 31, 2004 and March 31, 2003, respectively.

(h) In connection with its selection of the independent auditors, the Registrant's Audit Committee has considered the independent auditors' provision of non-audit services to the Registrant's investment adviser(s) and other service providers under common control with the adviser(s) that were not required to be pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X. The Audit Committee has determined that the independent auditors' provision of these services is compatible with maintaining the auditors' independence.

Item 5. Audit Committee of Listed Registrants

The registrant has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the registrant's Audit Committee are Ann R. Leven, Thomas F. Madison and Janet L. Yeomans.

Item 6. [Reserved]

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The registrant has formally delegated to its investment adviser(s) (including any sub-adviser) (the "Adviser") the ability to make all proxy voting decisions in relation to portfolio securities held by the registrant. If and when proxies need to be voted on behalf of the registrant, the Adviser will vote such proxies pursuant to its Proxy Voting Policies and Procedures (the "Procedures"). The Adviser has established a Proxy Voting Committee (the "Committee") which is responsible for overseeing the Adviser's proxy voting process for the registrant. One of the main responsibilities of the Committee is to review and approve the Procedures to ensure that the Procedures are designed to allow the Adviser to vote proxies in a manner consistent with the goal of voting in the best interests of the registrant.

In order to facilitate the actual process of voting proxies, the Adviser has contracted with Institutional Shareholder Services ("ISS") to analyze proxy statements on behalf of the registrant and other Adviser clients and vote proxies generally in accordance with the Procedures. The Committee is responsible for overseeing ISS's proxy voting activities. If a proxy has been voted for the registrant, ISS will create a record of the vote. Beginning no later than August 31, 2004, information (if any) regarding how the registrant voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge (i) through the registrant's website at <http://www.delawareinvestments.com>; and (ii) on the Commission's website at <http://www.sec.gov>.

The Procedures contain a general guideline that recommendations of company management on an issue (particularly routine issues) should be given a fair amount of weight in determining how proxy issues should be voted. However, the Adviser will normally vote against management's position when it runs counter to its specific Proxy Voting Guidelines (the "Guidelines"), and the Adviser will also vote against management's recommendation when it believes that such position is not in the best interests of the registrant.

As stated above, the Procedures also list specific Guidelines on how to vote proxies on behalf of the registrant. Some examples of the Guidelines are as follows: (i) generally vote for shareholder proposals asking that a majority or more of directors be independent; (ii) generally vote against proposals to require a supermajority shareholder vote; (iii) votes on mergers and acquisitions should be considered on a case-by-case basis, determining whether the transaction enhances shareholder value; (iv) generally vote against proposals to create a new class of common stock with superior voting rights; (v) generally vote re-incorporation proposals on a case-by-case basis; (vi) votes with respect to management compensation plans are generally determined on a case-by-case basis; (vii) generally vote for reports on the level of greenhouse gas emissions from a company's operations and products; and (viii) generally vote for proposals requesting the company to report on its policies and

practices related to social, environmental and economic sustainability.

Because the registrant has delegated proxy voting to the Adviser, the registrant is not expected to encounter any conflict of interest issues regarding proxy voting and therefore does not have procedures regarding this matter. However, the Adviser does have a section in its Procedures that addresses the possibility of conflicts of interest. Most proxies which the Adviser receives on behalf of the registrant are voted by ISS in accordance with the Procedures. Because almost all registrant proxies are voted by ISS pursuant to the pre-determined Procedures, it normally will not be necessary for the Adviser to make an actual determination of how to vote a particular proxy, thereby largely eliminating conflicts of interest for the Adviser during the proxy voting process. In the very limited instances where the Adviser is considering voting a proxy contrary to ISS's recommendation, the Committee will first assess the issue to see if there is any possible conflict of interest involving the Adviser or affiliated persons of the Adviser. If a member of the Committee has actual knowledge of a conflict of interest, the Committee will normally use another independent third party to do additional research on the particular proxy issue in order to make a recommendation to the Committee on how to vote the proxy in the best interests of the registrant. The Committee will then review the proxy voting materials and recommendation provided by ISS and the independent third party to determine how to vote the issue in a manner which the Committee believes is consistent with the Procedures and in the best interests of the registrant.

Item 8. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers
