COMPAGNIE GENERALE DE GEOPHYSIQUE
Third quarter 2005 results
Operating result of 13M up 25%
Strong growth of backlog at 756M\$
Excellent market perspectives for Q4 2005 and 2006

Paris, November 10, 2005

Compagnie Generale de Geophysique (ISIN: 0000120164 NYSE: GGY) published today its unaudited consolidated results for the third quarter of 2005.

Pursuant to European regulation n°1606 dated July 19, 2002, the consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and its interpretations adopted by the International Accounting Standards Board (IASB). They include comparative information for the period of 2004 using the same standards.

Q3 2005 highlights:

Third quarter 2005 Group revenues of Euros 216.7 million, up 30% compared to the third quarter of 2004.

Group operating profit of Euros 13.0 million compared to Euros 10.4 million in Q3 2004.

Geophysical Services operating profit of Euros 2.5 million.

Sercel record quarterly revenues of USD 118 million with operating margin close to 20%.

Group net income of Euros 5.8 million before specific financial charge compared to a net profit of Euros 4.2 million in Q3 2004.

Specific financial charge of Euros 23.3 million related to the IFRS accounting treatment of the convertible bond, as communicated by the Group on October 17, 2005, leading to a negative net result of Euros 17.5 million.

Record Group backlog of USD 756 million as of November 1st 2005, a 74% year on year increase.

Comments and Perspectives :

CGG Chairman & CEO, Robert BRUNCK, commented: *The Company activity did strengthen during the third quarter with Sercel's sales at a record high and a sustained market demand in all the Geophysical Services segments. Our offshore fleet operating during the summer principally in North Sea had to face exceptionally bad weather conditions, which had a negative impact on our operational marine performance. However, the outlook for the fourth quarter 2005 remains excellent for both Sercel and Geophysical Services and we are confident that we will reach our 2005 operating profit target. Our backlog is at a record level and is of excellent quality. During the last industry convention in Houston, Sercel has launched the 428 XL its new generation of land acquisition systems and its new marine solid streamer, the Sentinel, for which several orders have already been received. The integration process of Exploration Resources is developing in line with expectations. The CGG Group is thus in a good position to reap the benefits of the favourable market conditions we see ahead of us in 2006 and later.*

Net Result :

The Group net result for the third quarter of 2005 was a loss of Euros 17.5 million compared to a net income of Euros 4.2 million for the third quarter of 2004.

Not including the Euros 23.3 million specific financial charge related to the IFRS accounting treatment of the convertible bond (variance on derivative of the convertible bonds), as communicated by the Group on October 17, 2005, the net result for the third quarter 2005 is a profit Euros 5.8 million.

The Group net result at the end of September 2005 was a loss of Euros 29.5 million compared to a net income of Euros 0.7 million for the same period last year.

Not including the Euros 38.0 million specific financial charge related to the IFRS accounting treatment of the convertible bond (variance on derivative of the convertible bonds), the net result at the end of September 2005 is a profit of Euros 8.5 million.

These specific financial charges have no effect on the Group operating result, or on cash flows.

Table of Contents**Group net result**

Millions Euros IFRS	End of September		Q3	
	2005	2004	2005	2004
Net income before variance on derivative of CB	8,5	0,7	5,8	4,2
Variance on derivative of the convertible bonds (CB)	(38.0)	0.0	(23.3)	0.0
Net income (loss)	(29,5)	0,7	(17,5)	4,2

Operating Result Before Depreciation and Amortization :

The Operating Result Before Depreciation and Amortization, ORBDA, previously denominated Adjusted EBITDA in our former financial reports, is defined as operating income (loss) excluding non-recurring revenues (expenses) plus depreciation, amortization and additions (deductions) to valuation allowances of assets and add-back of dividends received from equity companies.

The notion of ORBDA serves as a reference for CGG debt covenants and is consequently communicated for that purpose.

The ORBDA for the third quarter of 2005 was at Euros 49.4 million, representing 22.7% of revenues and a 23% increase year on year.

The ORBDA at the end of September 2005 was at Euros 146.4 million, representing 24% of the revenues and up 24% year on year.
