NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands, except per share data)
(Unaudited)

NOTE 1 BASIS OF PRESENTATION

The condensed consolidated financial information included herein is unaudited. Such information reflects all adjustments of a normal recurring nature, which are, in the opinion of Company management, necessary to present fairly the Company's consolidated financial position, results of operations and cash flows as of the dates and for the periods presented herein. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes set forth in the Company's Annual Report on Form 10-K for the fiscal year ended July 31, 2008 (2008 Form 10-K).

NOTE 2 ADOPTION OF NEW ACCOUNTING PRONOUNCEMENTS

Effective August 1, 2008, the Company adopted, on a prospective basis, certain required provisions of Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS No. 157). The provisions not yet adopted by the Company relate to non-financial assets and liabilities that are recognized or disclosed on a non-recurring basis, as permitted under FASB Staff Position No. 157-2, Effective Date of FASB Statement No. 157 (FSP FAS No. 157-2). Those remaining aspects of SFAS No. 157 for which the effective date was deferred by FSP FAS No. 157-2 are being evaluated by the Company and will be effective for the first quarter of fiscal 2010.

SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements; rather, it applies to all other accounting pronouncements that require or permit fair value, except for those pronouncements specifically excluded from its scope. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

SFAS No. 157 discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). The standard utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Use of observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Use of inputs other than quoted prices included in Level 1, which are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3: Use of inputs that are unobservable.

The following table presents, for each of these hierarchy levels, the Company's financial assets and liabilities that are measured at fair value on a recurring basis as of January 31, 2009:

	As of Jan. 31, 2009	Fair Value Measurements		
		Level 1	Level 2	Level 3
Financial assets carried at fair value				
Available-for-sale debt securities	\$52,171	\$52,171	\$	\$
Available-for-sale equity securities	5,489	5,489		
Derivative financial instruments	1,739		1,739	

Financial liabilities carried at fair value		
Derivative financial instruments	1,499	1,499
	6	

Table of Contents

PALL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands, except per share data)
(Unaudited)

The Company's available-for-sale securities are valued using quoted market prices and, as such, are classified within Level 1 of the fair value hierarchy.

The derivative financial instruments classified within Level 2 of the fair value hierarchy are comprised of an interest rate swap and foreign currency forward contracts. The fair value of the Company's outstanding interest rate swap contract was determined based upon a non-binding valuation from the counterparty that is corroborated by observable market data such as Japanese Yen interest rates and yield curves. The fair values of the Company's foreign currency forward contracts were valued using pricing models, with all significant inputs derived from or corroborated by observable market data such as yield curves, currency spot and forward rates and currency volatilities.

Effective August 1, 2008, the Company also adopted the provisions of SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115 (SFAS No. 159). SFAS No. 159 permits entities to elect to measure specified financial instruments and certain other items at fair value with changes in fair value recognized in earnings each reporting period. The Company has opted not to apply the fair value option to any of its financial assets or liabilities as of January 31, 2009.

NOTE 3 ACQUISITIONS

On September 2, 2008 (the Closing Date), the Company acquired 100% of the share capital and voting rights, on a fully diluted basis, of GeneSystems, SA (GeneSystems), a privately held French biotechnology company that has developed a patented approach to rapid microbiological detection equipment and disposables. On the Closing Date, the Company paid a cash purchase price of 25,000 Euros (\$36,265 U.S. dollar equivalent at the foreign exchange rate on the Closing Date), subject to a post closing working capital adjustment. In the second quarter, the Company paid the working capital adjustment of 289 Euros (\$382 equivalent).

In the event that French regulations relating to the monitoring of possible contamination of hot water systems and/or water cooling towers by legionella are amended by the second anniversary of the Closing Date, with effect within 12 months of such amendment, to either (i) make the use of Polymerase Chain Reaction technology mandatory for such monitoring in France or (ii) validate its use as the only or preferred method for such monitoring in France (the Legionella Regulation), a post closing payment equal to 11,500 Euros (less any indemnity related payments of up to 2,000 Euros) will also be paid. If the Legionella Regulation is published after the second anniversary of the Closing Date, but prior to the third anniversary of the Closing Date, and becomes effective within 12 months of publication, the sellers will be paid 5,000 Euros (less any indemnity related payments of up to 2,000 Euros).

The acquisition is accounted for using the purchase method of accounting in accordance with SFAS No. 141, Business Combinations (SFAS No.141). SFAS No. 141 requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

Table of Contents

PALL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands, except per share data)
(Unaudited)

The following table summarizes the final allocation of the purchase price to the assets acquired and liabilities assumed at the date of the acquisition:

Purchase price	\$ 36,647
Transaction costs	663
Total purchase price	37,310
Cash acquired	96
Total purchase price, net of cash acquired	37,214
Accounts receivable	909
Inventories	1,883
Other current assets	683
Property plant and equipment	491
In-process research and development	1,743
Intangible assets	16,618
Total assets and in-process research and development acquired	22,327
Accounts payable and other current liabilities	2,260
Other non-current liabilities	4,785
Total liabilities assumed	7,045
Goodwill	\$ 21,932

Based upon the valuation of in-process research and development, the Company recorded a charge to earnings of approximately \$1,743, which has been included in Restructuring and other charges, net (see Note 8, Restructuring and Other Charges, Net) for the six months ended January 31, 2009.

The amount of in-process research and development was determined by identifying research projects for which technological feasibility had not been established and for which no alternative future uses existed. As of the acquisition date, there was one project that met the above criteria. The project identified is targeted for the BioPharmaceuticals market. The value of the research project identified to be in-process was determined by estimating the future cash flows from the project once commercially feasible and discounting the net cash flows back to their present value. The key assumptions specifically underlying the valuation for purchased in-process research and development consist of an expected completion date for the in-process project, estimated costs to complete the project, revenue and expense projections, and discount rates based on the risks associated with the development life cycle of the in-process technology acquired. The weighted average discount rate used was approximately 40%. The project is expected to be completed by calendar year 2010.

Based upon the markets GeneSystems serves, the goodwill was assigned to the Company's Life Sciences segment. The goodwill is not tax deductible. Pro forma financial information has not been provided as it is not material. The

results of GeneSystems have been included in the results of operations of the Company since the date of acquisition.

NOTE 4 BALANCE SHEET DETAILS

The following tables provide details of selected balance sheet items:

	Jan. 31, 2009	July 31, 2008
Accounts receivable:		
Billed	\$ 457,112	\$ 572,262
Unbilled	56,368	55,746
Total	513,480	628,008
Less: Allowances for doubtful accounts	(11,198)	(10,929)
	\$ 502,282	\$ 617,079

Unbilled receivables principally relate to long-term contracts recorded under the percentage-of-completion method of accounting.

Table of Contents

PALL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

	Jan. 31, 2009	July 31, 2008
Inventories:		
Raw materials and components	\$ 131,606	\$ 138,146
Work-in-process	62,795	77,245
Finished goods	264,341	277,586
	\$ 458,742	\$ 492,977
	Jan. 31, 2009	July 31, 2008
Property, plant and equipment:		
Property, plant and equipment	\$ 1,413,079	\$ 1,496,121
Less: Accumulated depreciation and amortization	(789,551)	(833,136)
	\$ 623,528	\$ 662,985

NOTE 5 GOODWILL AND INTANGIBLE ASSETS

The following table presents goodwill, net of accumulated amortization recorded prior to adopting SFAS No. 142, Goodwill and Other Intangible Assets (SFAS No. 142), allocated by reportable segment, in accordance with SFAS No. 142.

	Jan. 31, 2009	July 31, 2008
Life Sciences	\$ 86,167	\$ 72,629
Industrial	189,208	193,264
	\$ 275,375	\$ 265,893

The change in the carrying amount of goodwill is primarily attributable to the acquisition of GeneSystems, SA, as discussed in Note 3, Acquisitions, partly offset by changes in foreign exchange rates used to translate the goodwill contained in the financial statements of foreign subsidiaries using the rates at each respective balance sheet date.

Intangible assets, net, consist of the following:

	Gross	Jan. 31, 2009 Accumulated Amortization	Net
Patents and unpatented technology	\$ 94,700	\$ 45,997	\$ 48,703
Trademarks	6,180	3,402	2,778
Other	17,111	2,212	14,899
	\$ 117,991	\$ 51,611	\$ 66,380

		July 31, 2008	
	Gross	Accumulated	Net
		Amortization	
Patents and unpatented technology	\$ 85,336	\$ 43,853	\$ 41,483
Trademarks	4,902	3,123	1,779
Other	5,058	2,116	2,942
	\$ 95,296	\$ 49,092	\$ 46,204

The change in the carrying amount of patents and unpatented technology is primarily attributable to the acquisition of GeneSystems, SA, as discussed in Note 3, Acquisitions. The change in the carrying amount of other intangibles is primarily related to the purchase of certain distribution rights to a customer base primarily related to the BioPharmaceuticals market.

Table of Contents

PALL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands, except per share data)
(Unaudited)

Amortization expense for intangible assets for the three and six months ended January 31, 2009 was \$2,260 and \$4,522, respectively. Amortization expense for intangible assets for the three and six months ended January 31, 2008 was \$1,988 and \$4,093, respectively. Amortization expense is estimated to be approximately \$4,941 for the remainder of fiscal year 2009, \$9,723 in fiscal year 2010, \$9,504 in fiscal year 2011, \$9,237 in fiscal year 2012, \$6,426 in fiscal year 2013 and \$5,483 in fiscal year 2014.

NOTE 6 TREASURY STOCK

On November 15, 2006, the board of directors authorized an expenditure of \$250,000 to repurchase shares of the Company's common stock. On October 16, 2008, the board authorized an additional expenditure of \$350,000 to repurchase shares. The Company's shares may be purchased over time, as market and business conditions warrant. There is no time restriction on these authorizations. During the six months ended January 31, 2009, the Company purchased 2,139 shares in open-market transactions at an aggregate cost of \$64,884 with an average price per share of \$30.33. At January 31, 2009, approximately \$484,498 remained available to be expended under the current stock repurchase programs. Repurchased shares are held in treasury for use in connection with the Company's stock-based compensation plans and for general corporate purposes.

During the six months ended January 31, 2009, 465 shares were issued under the Company's stock-based compensation plans. At January 31, 2009, the Company held 10,391 treasury shares.

NOTE 7 CONTINGENCIES AND COMMITMENTS

With respect to the matters described below under the headings Federal Securities Class Actions, Shareholder Derivative Lawsuits and Other Proceedings, no liabilities or insurance recoveries have been reflected in the condensed consolidated financial statements as of January 31, 2009 as these amounts are not currently estimable.

Federal Securities Class Actions:

Four putative class action lawsuits were filed against the Company and certain members of its management team alleging violations of the federal securities laws relating to the Company's understatement of certain of its U.S. income tax payments and of its provision for income taxes in certain prior periods as described in Note 2, Audit Committee Inquiry and Restatement, to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended July 31, 2007 (2007 Form 10-K). These lawsuits were filed between August 14, 2007 and October 11, 2007 in the United States District Court for the Eastern District of New York. By Order dated May 28, 2008, the Court consolidated the cases under the caption *In re Pall Corp*, No. 07-CV-3359 (E.D.N.Y.) (JS) (ARL), appointed a lead plaintiff and ordered that the lead plaintiff file a consolidated amended complaint. The lead plaintiff filed its consolidated amended complaint on August 4, 2008. The lead plaintiff seeks to act as representative for a class consisting of purchasers of the Company's stock between April 20, 2007 and August 2, 2007, inclusive. The consolidated amended complaint names the Company and its current chief executive officer and chief financial officer as defendants and alleges violations of Section 10(b) and 20(a) of the Exchange Act, as amended, and Rule 10b-5 promulgated by the Securities and Exchange Commission (SEC). It alleges that the defendants violated these provisions of the federal securities laws by issuing materially false and misleading public statements about the Company's financial results and financial statements, including the Company's income tax liability, effective tax rate, internal controls and accounting practices. The plaintiffs seek unspecified compensatory damages, costs and expenses. The Company moved to dismiss the consolidated amended complaint on September 19, 2008 and filed its reply brief to the lead plaintiff's opposition to the Company's motion to dismiss on December 2, 2008. The motion is now fully briefed and before the court.

(Unaudited)

Shareholder Derivative Lawsuits:

On October 5, 2007, two plaintiffs filed identical derivative lawsuits in New York Supreme Court, Nassau County relating to the tax matter described above. These actions purport to bring claims on behalf of the Company based on allegations that certain current and former directors and officers of the Company breached their fiduciary duties by failing to evaluate and otherwise inform themselves about the Company's internal controls and financial reporting systems and procedures. In addition, plaintiffs allege that certain officers of the Company were unjustly enriched as a result of the Company's inaccurate financial results over fiscal years 1999-2006 and the first three quarters of fiscal year 2007. The complaints seek unspecified compensatory damages on behalf of Pall Corporation, disgorgement of defendants' salaries, bonuses, stock grants and stock options, equitable relief and costs and expenses. The Company, acting in its capacity as nominal defendant, moved to dismiss the complaints for failure to make a demand upon the Company's board of directors, which motions were granted on April 30 and May 2, 2008. On September 19, 2008, the same two plaintiffs filed a derivative lawsuit in New York Supreme Court, Nassau County, which was served on the Company on September 26, 2008 (the "September Derivative"). This action purports to bring claims on behalf of the Company based on allegations that certain current and former directors and officers of the Company breached their fiduciary duties and were unjustly enriched in connection with the tax matter. In addition, the plaintiffs allege that the Board's refusal of their demand to commence an action against the defendants was not made in good faith. The plaintiffs and the Company agreed to stay these proceedings pending resolution of the Company's motion to dismiss in the federal securities class action lawsuit.

On November 13, 2008, another shareholder filed a derivative lawsuit in New York Supreme Court, Nassau County, against certain current and former directors and officers of the Company, and against the Company, as nominal defendant, which was served on the Company on December 4, 2008. This action purports to bring similar claims as the September Derivative. The plaintiffs and the Company have agreed to an identical stay as in the September Derivative.

Other Proceedings:

The SEC and U.S. Attorney's Office for the Eastern District of New York are conducting investigations in connection with the tax matter described above. The Company is cooperating with these investigations.

Environmental Matters:

The Company's condensed consolidated balance sheet at January 31, 2009 includes liabilities for environmental matters of approximately \$13,642, which relate primarily to the previously reported environmental proceedings involving a Company subsidiary, Gelman Sciences Inc., pertaining to groundwater contamination. In the opinion of management, the Company is in substantial compliance with applicable environmental laws and its current accruals for environmental remediation are adequate. However, as regulatory standards under environmental laws are becoming increasingly stringent, there can be no assurance that future developments, additional information and experience gained will not cause the Company to incur material environmental liabilities or costs beyond those accrued in its condensed consolidated financial statements.

(1) Restructuring

Following the completion of the integration of the Filtration and Separations Group (FSG), which was acquired in fiscal year 2002, Company management began a much broader initiative to examine the overall structure of the Company and the manner in which it conducts business activities with the objective of increasing revenue growth and achieving cost reduction. This resulted in a series of restructuring activities, including the realignment of the overall business structure into vertically integrated businesses, which commenced at the end of fiscal year 2004, the Company's facilities rationalization initiative and European cost reduction initiative (EuroPall), which commenced in fiscal year 2006, and the Western Hemisphere cost reduction initiative (AmeriPall), which commenced in fiscal year 2007. In fiscal year 2009, the Company commenced the second phase of its European cost reduction initiative (EuroPall II). Furthermore, in the second quarter of fiscal year 2009 the Company commenced its plans to reduce its workforce globally in response to current economic conditions.

Three and Six Months Ended January 31, 2008 and January 31, 2009:

The Company continued its cost reduction initiatives as discussed above. As a result, the Company recorded severance liabilities for the termination of certain employees worldwide as well as other costs related to these initiatives.

The following table summarizes the activity related to restructuring liabilities that were recorded in the six months ended January 31, 2009 and in fiscal years 2008, 2007 and 2006:

	Severance	Lease Termination Liabilities & Other	Total

(a) Other changes primarily reflect translation impact.

(b) Reflects the reversal of excess restructuring reserves originally recorded in fiscal years 2008, 2007 and 2006.

(2) Other Charges/(Gains):

(a) Impairment of assets:

In the three months ended January 31, 2009, the Company recorded a charge of \$1,500 for the impairment of capitalized software development costs related to discontinued projects.

In the three months ended October 31, 2008, the Company recorded a charge of \$1,977 for the other-than-temporary diminution in value of certain equity and debt investment securities held by its benefits protection trust.

Table of Contents

PALL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands, except per share data)
(Unaudited)

(b) In-process research and development:

In the three months ended October 31, 2008, the Company recorded a charge of \$1,743 to write off in-process research and development acquired in the acquisition of GeneSystems, SA (refer to Note 3, Acquisitions, for further discussion of purchase accounting).

(c) Costs related to inquiry:

In the three and six months ended January 31, 2009, the Company recorded costs of \$234 and \$820, respectively, primarily comprised of legal and other professional fees related to matters that were under audit committee inquiry. In the three and six months ended January 31, 2008, the Company recorded costs of \$9,900 and \$13,666, respectively, primarily comprised of legal and other professional fees related to matters that were under audit committee inquiry. See Note 2, Audit Committee Inquiry and Restatement, to the consolidated financial statements included in the 2007 Form 10-K for a description of this inquiry.

(d) Environmental matters:

In the six months ended January 31, 2009, the Company increased its previously established environmental reserves by \$1,279, primarily related to environmental matters in Pinellas Park, Florida and Ann Arbor, Michigan. Such costs were partly offset by an insurance settlement of \$371 recorded in the three months ended January 31, 2009. In the three and six months ended January 31, 2008, the Company increased its previously established environmental reserves by \$317 and \$600, respectively, related to environmental matters in Ann Arbor, Michigan and Pinellas Park, Florida.

NOTE 9 INCOME TAXES

The Company's effective tax rate for the six months ended January 31, 2009 and January 31, 2008 was 31.1% and 33.5%, respectively. For the six months ended January 31, 2009, the effective tax rate varied from the U.S. federal statutory rate primarily due to the benefits of foreign operations and the retroactive extension of the federal research credit per the Emergency Economic Stabilization Act of 2008. For the six months ended January 31, 2008, the effective tax rate varied from the U.S. federal statutory rate primarily due to the net impact of foreign operations and a tax charge resulting from new tax legislation in Germany.

At January 31, 2009 and July 31, 2008, the Company had gross unrecognized tax benefits of \$233,073 and \$242,287, respectively. During the six month period ended January 31, 2009, the amount of unrecognized tax benefits decreased by \$18,039, primarily due to foreign currency translation adjustments, and increased by \$8,825 as a result of tax positions taken during the current period, resulting in a net decrease of \$9,214.

If recognized, \$147,881 and \$152,000 of the net unrecognized tax benefits would have reduced the effective tax rate at January 31, 2009 and July 31, 2008, respectively. The reduction in net unrecognized tax benefits was primarily due to foreign currency translation adjustments.

Based on recent discussions with various tax authorities, the Company believes it is reasonably possible that the gross amount of unrecognized tax benefits will decrease by approximately \$96,338 within the next twelve months. As a result, in the quarter ended October 31, 2008, the Company reclassified \$92,558 from non-current income tax liabilities to current tax liabilities and \$65,985 of non-current prepaid income tax included as a component of other non-current assets as of July 31, 2008 to other current assets as this amount could be utilized in the resolution of the unrecognized tax benefits.

Amortization of prior service cost	770	552	115	164	885	716
Recognized actuarial loss	528	934	631	2,200	1,159	3,134
Loss due to curtailments and settlements				7		7
Net periodic benefit cost	\$ 7,350	\$ 6,892	\$ 4,647	\$ 5,877	\$ 11,997	\$ 12,769

NOTE 11 STOCK-BASED PAYMENT

The Company applies the provisions of SFAS No. 123(R), Share-Based Payment, which establishes the accounting for employee stock-based awards. The Company currently has four stock-based employee and director compensation plans (Stock Option Plans, Management Stock Purchase Plan (MSPP), Employee Stock Purchase Plan (ESPP) and

Edgar Filing: PALL CORP - Form 10-Q

Restricted Stock Unit Plans), which are more fully described in Note 14, Common Stock, to the consolidated financial statements included in the 2008 Form 10-K.

The detailed components of stock-based compensation expense recorded in the condensed consolidated statements of earnings for the three and six months ended January 31, 2009 and January 31, 2008 are reflected in the table below.

	Three Months Ended		Six Months Ended	
	Jan.	Jan. 31,	Jan. 31,	Jan. 31,
	31,	2008	2009	2008
	2009

The following table illustrates the income tax effects related to stock-based compensation.

	Three Months Ended		Six Months Ended	
	Jan. 31, 2009	Jan. 31, 2008	Jan. 31, 2009	Jan. 31, 2008
Excess tax benefit in cash flows from financing activities	\$ 240	\$ 206	\$ 689	\$ 760
Tax benefit recognized related to total stock-based compensation expense	2,163	1,368	3,573	2,261
Actual tax benefit realized for tax deductions from option exercises of stock-based payment arrangements	389	630	1,697	1,927

Stock Options and ESPP

A summary of option activity for all stock option plans during the six months ended January 31, 2009 is presented below:

Stock Options	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at August 1, 2008	3,357	\$ 28.15		
Granted				
Exercised	(62)	22.82		
Forfeited or Expired	(3)	37.95		
Outstanding at October 31, 2008	3,292	28.24	4.5	\$ 8,641
Granted	545	26.15		
Exercised	(11)	18.99		
Forfeited or Expired	(4)	30.20		
Outstanding at January 31, 2009	3,822	\$ 27.96	4.6	\$ 8,064
Expected to vest at January 31, 2009	1,685	\$ 32.89	5.9	\$ 25
Exercisable at January 31, 2009	2,103	\$ 23.83	3.3	\$ 8,038

As of January 31, 2009, there was \$11,127 of total unrecognized compensation cost related to nonvested stock options, which is expected to be recognized over a weighted-average period of 3.0 years. The total intrinsic value of options exercised during the three and six months ended January 31, 2009 was \$72 and \$1,147, respectively. The total intrinsic value of options exercised during the three and six months ended January 31, 2008 was \$19 and \$412, respectively.

The ESPP enables participants to purchase shares of the Company's common stock through payroll deductions at a price equal to 85% of the lower of the market price at the beginning or end of each semi-annual stock purchase period. The semi-annual offering periods end in April and October. A total of 244 shares and 200 shares were issued under the ESPP during the semi-annual stock purchase periods ended October 31, 2008 and October 31, 2007, respectively. Shares for the current semi-annual stock purchase period will be purchased on April 30, 2009.

Table of Contents

PALL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands, except per share data)
(Unaudited)

The following weighted average assumptions were used in estimating the fair value of stock options granted during the three and six months ended January 31, 2009 and January 31, 2008:

	Three Months Ended		Six Months Ended	
	Jan. 31, 2009	Jan. 31, 2008	Jan. 31, 2009	Jan. 31, 2008
Stock Options				
Weighted average fair value at grant date	\$6.37	\$ 9.13	\$6.37	\$ 9.20
Valuation assumptions:				
Expected dividend yield	1.8%	1.7%	1.8%	1.7%
Expected volatility	31.0%	25.5%	31.0%	25.5%
Expected life (years)	5.0	5.0	5.0	5.0
Risk-free interest rate	1.6%	3.2%	1.6%	3.3%
ESPP				
Weighted average fair value at grant date	\$7.67	\$ 10.13	\$7.67	\$ 10.13
Valuation assumptions:				
Expected dividend yield	1.4%	1.2%	1.4%	1.2%
Expected volatility	50.3%	37.1%	50.3%	37.1%
Expected life (years)	1/2 year	1/2 year	1/2 year	1/2 year
Risk-free interest rate	1.1%	4.0%	1.1%	4.0%

The fair value of the options and ESPP shares granted is estimated using a Black-Scholes-Merton option-pricing formula and amortized to expense over the options' service periods. The Company has placed exclusive reliance on historical volatility in its estimate of expected volatility. The Company used a sequential period of historical data equal to the expected term (or expected life) of the options and ESPP shares granted using a simple average calculation based upon the daily closing prices of the aforementioned period.

The expected life (years) represents the period of time for which the options and ESPP shares granted are expected to be outstanding. This estimate was derived from historical share option exercise experience, which management believes provides the best estimate of the expected term.

MSPP

The purpose of the MSPP is to encourage key employees of the Company to increase their ownership of shares of the Company's common stock by providing such employees with an opportunity to elect to have portions of their total annual compensation paid in the form of restricted units, to make cash purchases of restricted units and to earn additional matching restricted units which vest over a three year period for matches prior to August 1, 2003 and vest over a four year period for matches made thereafter. Such restricted units aggregated 984 and 804 as of January 31, 2009 and January 31, 2008, respectively. As of January 31, 2009, there was \$8,667 of total unrecognized compensation cost related to nonvested restricted stock units granted under the MSPP, which is expected to be recognized over a weighted-average period of 3.0 years.

The following is a summary of MSPP activity during the three and six months ended January 31, 2009 and January 31, 2008:

	Three Months Ended		Six Months Ended	
	Jan. 31, 2009	Jan. 31, 2008	Jan. 31, 2009	Jan. 31, 2008

Edgar Filing: PALL CORP - Form 10-Q

Deferred compensation and cash contributions	\$516	\$445	\$4,757	\$3,089
Fair value of restricted stock units vested	\$943	\$271	\$1,612	\$1,022
Vested units distributed	70	50	142	140
	18

RSUs

A summary of restricted stock unit activity, related to employees, for the Pall Corporation 2005 Stock Compensation Plan (2005 Stock Plan) during the six months ended January 31, 2009, is presented below:

	Shares	Weighted-Average Grant-Date Fair Value
Nonvested at August 1, 2008	1,025	\$ 34.80
Granted	1	34.85
Vested	(13)	31.81
Forfeited	(6)	33.09
Nonvested at October 31, 2008	1,007	34.85
Granted	128	26.16
Vested	(46)	27.00
Forfeited	(4)	34.48
Nonvested at January 31, 2009	1,085	\$ 34.16

As of January 31, 2009, there was \$22,226 of total unrecognized compensation cost related to nonvested restricted stock units granted under the 2005 Stock Plan, which is expected to be recognized over a weighted-average period of 2.9 years.

Non-employee directors of the Company were granted in the aggregate 44 annual award units of restricted stock during the three and six months ended January 31, 2009, with a weighted-average fair market value of \$27.98 per share.

The Company uses treasury shares that have been repurchased through the Company's stock repurchase program to satisfy share award exercises.

NOTE 12 EARNINGS PER SHARE

The condensed consolidated statements of earnings present basic and diluted earnings per share. Basic earnings per share is determined by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share considers the potential effect of dilution on basic earnings per share assuming potentially dilutive shares that meet certain criteria, such as those issuable upon exercise of stock options, were outstanding. The treasury stock method reduces the dilutive effect of potentially dilutive securities as it assumes that cash proceeds (from the issuance of potentially dilutive securities) are used to buy back shares at the average share price during the period. Employee stock options and units aggregating 732 and 662 shares were not included in the computation of diluted shares for the three months ended January 31, 2009 and January 31, 2008, respectively, because their effect would have been antidilutive. For the six months ended January 31, 2009 and January 31, 2008, 549 and 673 antidilutive shares, respectively, were excluded. The following is a reconciliation between basic shares outstanding and diluted shares outstanding:

	Three Months Ended		Six Months Ended	
	Jan. 31, 2009	Jan. 31, 2008	Jan. 31, 2009	Jan. 31, 2008
Basic shares outstanding	118,428	123,372	118,931	123,256

Edgar Filing: PALL CORP - Form 10-Q

Effect of stock plans	785	1,200	990	1,193
Diluted shares outstanding	119,213	124,572	119,921	124,449

NOTE 14 SEGMENT INFORMATION

The Company's reportable segments as identified in accordance with the provisions of SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, which are also its operating segments, consist of the Company's two vertically integrated businesses, Life Sciences and Industrial.

The following table presents sales and operating profit by segment reconciled to earnings before income taxes, for the three and six months ended January 31, 2009 and January 31, 2008.

	Three Months Ended		Six Months Ended	
	Jan. 31, 2009	Jan. 31, 2008	Jan. 31, 2009	Jan. 31, 2008
SALES:				
Life Sciences	\$ 225,022	\$ 244,480	\$ 445,351	\$ 459,094
Industrial	318,274	381,267	675,967	727,660
Total	\$ 543,296	\$ 625,747	\$ 1,121,318	\$ 1,186,754
 OPERATING PROFIT:				
Life Sciences	\$ 48,602	\$ 48,153	\$ 90,470	\$ 87,936
Industrial	35,882	55,443	90,988	100,520

Earnings before income taxes	\$ 56,546	\$ 69,417	\$ 118,897	\$ 126,361

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.****Forward-Looking Statements and Risk Factors**

The following discussion should be read together with the accompanying condensed consolidated financial statements and notes thereto and other financial information in this Form 10-Q and in the Company's Annual Report on Form 10-K for the fiscal year ended July 31, 2008 (2008 Form 10-K). The discussion under the subheading "Review of Operating Segments" below is in local currency unless otherwise indicated. Company management considers local currency growth an important measure because by excluding the volatility of exchange rates, underlying volume change is clearer. Dollar amounts discussed below are in thousands, unless otherwise indicated, except per share dollar amounts. In addition, per share dollar amounts are discussed on a diluted basis.

The matters discussed in this Quarterly Report on Form 10-Q contain forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. All statements regarding future performance, earnings projections, earnings guidance, management's expectations about its future cash needs and effective tax rate, and other future events or developments are forward-looking statements. Forward-looking statements are those that use terms such as "anticipate," "should," "believe," "estimate," "expect," "intend," "plan," "predict," "potential" or similar expressions and are not historical facts. Forward-looking statements contained in this and other written and oral reports are based on current Company expectations and are subject to risks and uncertainties, which could cause actual results to differ materially. Such risks and uncertainties include, but are not limited to, those discussed in Part I, Item 1A, "Risk Factors" in the 2008 Form 10-K, and other reports the Company files with the Securities and Exchange Commission, including the impact of the current global recessionary environment and its likely depth and duration, the current credit market crisis, volatility in currency and energy costs and other macro economic challenges currently affecting the Company, our customers (including their cash flow and payment practices) and vendors, and the effectiveness of our initiatives to mitigate the impact of the current environment. The Company makes these statements as of the date of this disclosure and undertakes no obligation to update them.

Results of Operations*Review of Consolidated Results*

Sales in the quarter decreased 13.2% to \$543,296 from \$625,747 in the second quarter of fiscal year 2008. For the first six months of fiscal year 2009, sales decreased 5.5% compared to the same period of fiscal year 2008. Exchange rates reduced reported sales by \$38,013 and \$45,013 in the quarter and six months, respectively, primarily due to the strengthening of the U.S. dollar against the Euro, the British Pound and several Asian currencies, partly offset by the weakening of the U.S. dollar against the Japanese Yen. In local currency (i.e., had exchange rates not changed year over year), sales decreased 7.1% and 1.7% in the quarter and first six months, respectively. Increased pricing achieved in both the Life Sciences and Industrial segments contributed \$7,134 and \$10,607 to overall sales in the quarter and first six months, respectively. In the first quarter, the Company launched its Pricing Excellence initiative that is focused on optimizing prices and product margins by better defining the value equation to the benefit of the Company and its customers.

Life Sciences segment sales decreased 1.5% (in local currency) in the quarter, attributable to a decline in the Medical market. Sales in the BioPharmaceuticals market were flat. Life Sciences segment sales in the first six months increased 1.1% (in local currency), attributable to growth in the BioPharmaceuticals market partly offset by a decline in the Medical market. Industrial segment sales in the quarter decreased 10.7% (in local currency) reflecting a decline in the Energy, Water & Process Technologies (EWPT) and Microelectronics markets. The Aerospace & Transportation market was up slightly in the quarter. Industrial segment sales in the first six months decreased 3.5% (in local currency) reflecting a decline in the Microelectronics market partly offset by growth in the Aerospace & Transportation market. Sales in the EWPT market were flat in the first six months. Overall systems sales decreased 4% in the quarter as growth in the EWPT market was more than offset by declines in the BioPharmaceuticals, Aerospace & Transportation and Microelectronics markets. For the first six months, overall systems sales were flat as growth in the EWPT market was offset by declines in the BioPharmaceuticals, Aerospace & Transportation and Microelectronics markets. Systems sales represented 12.5% of total sales in the quarter, on par with the second quarter of fiscal year 2008. Systems sales in the first six months represented 11.4% of total sales compared to 11.5% in the

first six months of fiscal year 2008. For a detailed discussion of sales, refer to the section **Review of Operating Segments** below.

Table of Contents

Gross margin, as a percentage of sales, was 47.2% in the quarter compared to 46.1% in the second quarter of fiscal year 2008. For the first six months, gross margin, as a percentage of sales, was 47.8% compared to 46.3% in the first six months of fiscal year 2008. Improved pricing in both segments contributed approximately 70 and 50 basis points in margin in the quarter and first six months, respectively. The improvement in gross margin in the quarter and first six months also reflects the effects of the ongoing cost reduction and lean manufacturing initiatives. For a detailed discussion of gross margin by segment, refer to the section *Review of Operating Segments* below.

Selling, general and administrative (SG&A) expenses in the quarter decreased by \$11,761, or about 6.5% (flat in local currency). As a percentage of sales, SG&A expenses were 30.8% compared to 28.6% in the second quarter of fiscal year 2008. The increase in SG&A as a percentage of sales primarily reflects the impact of decreased sales quarter over quarter. For the first six months, SG&A expenses decreased by \$2,242 (an increase of approximately 3% in local currency). As a percentage of sales, SG&A expenses were 31% compared to 29.5% in the first six months of fiscal year 2008. The increase in SG&A as a percentage of sales primarily reflects the impact of decreased sales period over period, increased selling and marketing personnel-related costs as well as consulting costs, mainly related to the Company's Pricing Excellence initiative, partly offset by the impact of the Company's cost reduction initiatives. In fiscal year 2007, the Company launched the equivalent of its European cost reduction initiative (EuroPall) in the Western Hemisphere (AmeriPall). The majority of the savings related to AmeriPall are expected to have an impact later in fiscal year 2009 and beyond. In fiscal year 2009, the Company also began implementing the second phase of EuroPall (EuroPall II). Furthermore, in the second quarter of fiscal year 2009, the Company commenced plans to reduce its workforce globally in response to current economic conditions. Expected savings related to these workforce reduction plans will be realized in the second half of fiscal year 2009.

Research and development (R&D) expenses were \$17,419 in the quarter compared to \$18,092 in the second quarter of fiscal year 2008, a decrease of about 4% (an increase of approximately 1% in local currency). As a percentage of sales, R&D expenses were 3.2% compared to 2.9% in the second quarter of fiscal year 2008. For the first six months, R&D expenses were \$36,352 compared to \$34,987 in the first six months of fiscal year 2008, up about 4% (approximately 7% in local currency). As a percentage of sales, R&D expenses were 3.2% compared to 2.9% in the first six months of fiscal year 2008.

In the second quarter of fiscal year 2009, the Company recorded restructuring and other charges (ROTC) of \$8,747. ROTC in the quarter was primarily comprised of severance and other costs related to the Company's on-going cost reduction initiatives of \$7,384 and a charge of \$1,500 for the impairment of capitalized software development costs related to discontinued projects. Additionally, ROTC includes legal fees of \$234 related to matters that were under inquiry by the audit committee (see Note 2, Audit Committee Inquiry and Restatement, to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended July 31, 2007 (2007 Form 10-K)). Such charges were partly offset by an insurance settlement of \$371 related to an environmental matter. In the first six months of fiscal year 2009, the Company recorded ROTC of \$16,922, which was primarily comprised of severance and other costs related to the Company's on-going cost reduction initiatives of \$9,974, a charge of \$1,743 to write-off in-process R&D acquired in the acquisition of GeneSystems, SA (refer to Note 3, Acquisitions, for further discussion of purchase accounting), a charge of \$1,977 for the other-than-temporary diminution in value of certain equity and debt investment securities held by its benefits protection trust, a charge of \$1,500 for the impairment of capitalized software, and increases to previously established environmental reserves of \$1,279. Additionally, ROTC includes legal fees of \$820 related to matters that were under inquiry by the audit committee, as discussed above. Such charges were partly offset by an insurance settlement of \$371 related to an environmental matter.

In the second quarter of fiscal year 2008, the Company recorded ROTC of \$13,859. ROTC in the quarter was primarily comprised of legal and other professional fees related to matters that were under inquiry by the audit committee (see Note 2, Audit Committee Inquiry and Restatement, to the consolidated financial statements included in the Company's 2007 Form 10-K). Additionally, ROTC includes severance liabilities and other costs related to the Company's on-going cost reduction initiatives as well as an increase to a previously established environmental reserve. Such charges were partly offset by the reversal of excess restructuring reserves previously recorded in the consolidated statements of earnings in fiscal years 2005, 2006 and 2007. In the first six months of fiscal year 2008, the

Company recorded ROTC of \$22,628. ROTC in the six months was primarily comprised of legal and other professional fees related to matters under inquiry by the audit committee, as discussed above. Additionally, ROTC in the six months includes severance liabilities and other costs related to the Company's on-going cost reduction initiatives as well as an increase to a previously established environmental reserve. Such charges were partly offset by the reversal of excess restructuring reserves previously recorded in the consolidated statements of earnings in fiscal years 2005, 2006 and 2007.

Table of Contents

The details of ROTC for the three and six months ended January 31, 2009 and January 31, 2008 can be found in Note 8, Restructuring and Other Charges, Net, to the accompanying condensed consolidated financial statements.

The following table summarizes the activity related to restructuring liabilities that were recorded in the six months ended January 31, 2009 and in fiscal years 2008, 2007 and 2006:

Balance at Jan. 31, 2009	\$ 333	\$	\$ 333

(a) Other changes primarily reflect translation impact.

(b) Reflects the reversal of excess restructuring reserves originally recorded in fiscal years 2008, 2007 and 2006.

Earnings before interest and income taxes (EBIT) were \$63,099 in the quarter compared to \$77,480 in the second quarter of fiscal year 2008, reflecting the factors discussed above. As a percentage of sales, EBIT was 11.6% compared to 12.4% in the second quarter of fiscal year 2008. EBIT were \$134,876 in the first six months compared to \$142,145 in the first six months of fiscal year 2008, reflecting the factors discussed above. As a percentage of sales, EBIT was 12%, on par with the first six months of fiscal year 2008.

Net interest expense in the quarter decreased to \$6,553 from \$8,063 in the second quarter of fiscal year 2008. The reduction in net interest expense was primarily attributable to a decrease in interest expense, which was related to lower interest rates in the United States, and a reduced level of debt due to the repayment of higher interest bearing European debt. A decrease in interest income related to reduced cash balances and lower returns compared to the same period last year partly offset the above. For the first six months, net interest expense increased slightly to \$15,979 from \$15,784 in the first six months of fiscal year 2008 as a reduction in interest income was partially offset by a decrease in interest expense.

In the second quarter of fiscal year 2009, the Company's effective tax rate was 31.3% as compared to 30.9% in the second quarter of fiscal year 2008. For the first six months of fiscal year 2009, the Company's effective tax rate was 31.1% as compared to 33.5% in the same period of fiscal year 2008. For the three months ended January 31, 2009 and 2008, the effective tax rate varied from the U.S. federal statutory rate primarily due to the benefits of foreign operations. For the six months ended January 31, 2009, the effective tax rate varied from the U.S. federal statutory rate primarily due to the benefits of foreign operations and the retroactive extension of the federal research credit per the Emergency Economic Stabilization Act of 2008. For the six months ended January 31, 2008, the effective tax rate varied from the U.S. federal statutory rate primarily due to the net impact of foreign operations and a tax charge resulting from new tax legislation in Germany. The Company expects its effective tax rate to be 31.3% for the full fiscal year 2009, exclusive of the impact of discrete items in future periods. The actual effective tax rate for the full fiscal year 2009 may differ materially based on several factors including the geographical mix of earnings in tax jurisdictions, enacted tax laws, the timing and amount of foreign dividends, state and local taxes, the ratio of permanent items to pretax book income, and the implementation of various global tax strategies, as well as nonrecurring factors.

Table of Contents

Net earnings in the quarter were \$38,871, or 33 cents per share, compared with net earnings of \$47,988, or 39 cents per share in the second quarter of fiscal year 2008. In summary, the decline in net earnings dollars in the quarter reflects the decrease in EBIT and an increase in the effective tax rate partly offset by a decline in net interest expense. The decline in earnings per share in the quarter reflects the decrease in net earnings partly offset by the impact of reduced shares outstanding due to stock buybacks. Net earnings in the first six months were \$81,958, or 68 cents per share, compared with net earnings of \$84,090, or 68 cents per share in the first six months of fiscal year 2008. In summary, the decline in net earnings dollars in the first six months primarily reflects the decrease in EBIT partly offset by a decrease in the effective tax rate. Earnings per share in the first six months was flat compared to last year as a decrease in net earnings was offset by the impact of reduced shares outstanding due to stock buybacks. Company management estimates that foreign currency translation reduced net earnings by 3 cents per share in both the quarter and first six months. The acquisition of GeneSystems was dilutive to earnings by 1 cent and 3 cents per share in the quarter and first six months, respectively.

Review of Operating Segments

The following table presents sales and operating profit by segment, reconciled to earnings before income taxes, for the three and six months ended January 31, 2009 and January 31, 2008.

	Jan. 31,	%	Jan. 31,	%	%

(a) The BioPharmaceuticals market includes the Laboratory market previously reported in Medical. Prior year amounts conform to the current classification.

Life Sciences segment sales decreased 1.5% in the quarter compared to the second quarter of fiscal year 2008 and increased 1.1% in the first six months compared to the first six months of fiscal year 2008. Increased pricing (driven by the Biopharmaceuticals market) contributed \$3,057 and \$4,888 to overall sales in the quarter and first six months, respectively. Life Sciences represented approximately 41% and 40% of total sales in the quarter and first six months, respectively, compared to 39% in both the second quarter and first six months of fiscal year 2008.

Within Life Sciences, Medical market sales, which now excludes the Laboratory market and represented approximately 43% of Life Sciences sales, decreased 3.4% in the quarter. This decline was attributable to a decrease in Blood Filtration (-9.9%), the largest market served by Medical, partly tempered by sales growth in the Original Equipment Manufacturer (OEM) (+5.2%) market. Sales in the Hospital market were flat as increased sales in the Western Hemisphere were offset by a decrease in sales in Asia. For the first six months, Medical market sales decreased 2.2% from the comparable period in fiscal year 2008. The decline in Medical sales for the first six months was attributable to a decrease in Blood Filtration (-9.3%), partly mitigated by sales growth in the OEM (+6.3%) and Hospital (+3.2%) markets. The decline in the Blood Filtration market for the quarter and first six months primarily relates to decreased volume to several large customers in the Western Hemisphere and decreased volume in several countries in Europe. The growth in OEM sales in both periods was primarily driven by strong sales across Europe. The growth in Hospital sales in the quarter and first six months in the Western Hemisphere was primarily driven by

increased Aquasafe filter sales related to a Legionella outbreak in the United States and increased breathing and IV filter sales as a result of seasonal influenza.

Sales in the quarter in the BioPharmaceuticals market, which now includes the Laboratory market previously reported in Medical, were flat compared to the second quarter of fiscal year 2008. By geography, growth in Europe (+4%), the Company's largest geographic BioPharmaceuticals market, and in Asia (+8.7%), was offset by a decline in the Western Hemisphere (-11.9%). Within BioPharmaceuticals, growth in the Laboratory market of 10.1% was offset by a decline in the Pharmaceuticals market (formerly named BioPharmaceuticals market) of 1.7%. The growth in Laboratory sales was driven by double-digit growth in Europe and Asia. Sales in the Western Hemisphere were up slightly, reflecting signs of a slowdown in the United States, related to the economy. In Europe, growth was driven by strong sales in Germany and France as well as expansion into Eastern European countries. Key products driving growth in Europe are life sciences research products as well as products for analytical sample preparation. In Asia, growth was strongest in China and India, reflecting the results of the Company's investments in the region to take advantage of expanding market opportunities. The decline in Pharmaceuticals sales reflects a decrease of systems sales of 25.5% partly offset by growth in consumables sales of 2.7%. The decrease in systems sales was related to a slowdown in the Western Hemisphere combined with the impact of strong sales in the second quarter of fiscal year 2008. Growth in Europe related to ongoing investment in new manufacturing capacity for biological drugs partly mitigated the impact. The growth in consumables sales reflects increases in Europe and Asia partly offset by a decline in the Western Hemisphere. Key drivers of consumables growth are the Company's virus removal filters for plasma derived therapeutics and vaccines. Increased adoption of the Company's single-use processing technologies by customers is also driving growth.

Table of Contents

For the first six months, sales in the BioPharmaceuticals market increased 3.8% compared to the first six months of fiscal year 2008. By geography, growth in Europe (+7.1%) and in Asia (+9.2%) was partly offset by a decline in the Western Hemisphere (-5.2%). Within BioPharmaceuticals, sales in the Laboratory market grew 18.3% while sales in the Pharmaceuticals market grew 1.5%. The growth in Laboratory sales for the first six months reflects strong growth in all geographies. The growth in Europe and Asia reflect the same factors evident in the quarter. In the Western Hemisphere, sales growth was strong in the first quarter, however, in the second quarter sales began to slow as discussed above. The growth in Pharmaceuticals sales for the first six months reflects growth in consumables sales of 3.2% partly offset by a decrease of systems sales of 9.9%. The growth in consumables sales was driven by Europe and Asia, reflecting the same factors evident in the quarter. Consumables sales in the Western Hemisphere were flat. The decrease in systems sales was related to a slowdown in the Western Hemisphere partly offset by growth in Europe as discussed above.

Life Sciences gross margins increased 160 basis points to 51.2% from 49.6% in the second quarter of fiscal year 2008. The improvement in gross margins was principally driven by improved pricing that contributed approximately 70 basis points in margin and a shift in product mix to a lower percentage of systems sales (about 5.4% of total Life Sciences sales compared to 7.3% in the second quarter of fiscal year 2008), partly offset by the impact of inflation on manufacturing costs. For the first six months, Life Sciences gross margins increased 100 basis points to 51.6% from 50.6% in the first six months of fiscal year 2008. The improvement in gross margins was principally driven by improved pricing that contributed approximately 50 basis points in margin and a shift in product mix to a lower percentage of systems sales (about 5.6% of total Life Sciences sales compared to 6.4% in the first six months of fiscal year 2008), partly offset by the impact of inflation on manufacturing costs.

SG&A expenses decreased by \$5,896, or about 9% (about 2¹/₂% in local currency), compared to the second quarter of fiscal year 2008. The decrease in SG&A reflects a reduction in selling costs and the impact of the Company's cost reduction initiatives. SG&A as a percentage of sales decreased to 25.4% from 25.8% in the second quarter of fiscal year 2008. The improvement in SG&A as a percentage of sales reflects the impact of the Company's cost reduction initiatives. For the first six months, SG&A expenses decreased by \$5,259, or about 4% (flat in local currency), compared to the first six months of fiscal year 2008. SG&A as a percentage of sales for the first six months decreased to 26.8% from 27.2% in the same period last year also reflecting cost reduction initiatives.

R&D expenses were \$9,614 compared to \$10,208 in the second quarter of fiscal year 2008, a decrease of about 6% (an increase of 2% in local currency). As a percentage of sales, R&D expenses were 4.3% compared to 4.2% in the second quarter of fiscal year 2008. For the first six months, R&D expenses were \$19,881 compared to \$19,826 in the first six months of fiscal year 2008 (6% increase in local currency). As a percentage of sales, R&D expenses were 4.5% compared to 4.3% in the first six months of fiscal year 2008. Increased spending in the quarter and first six months primarily reflects investments in the BioPharmaceuticals market, including spending at GeneSystems, which was acquired on September 2, 2008.

Operating profit dollars in the quarter increased about 1% to \$48,602 and operating margin improved to 21.6% from 19.7% in the second quarter of fiscal year 2008 despite the decrease in revenues, largely due to the significant improvement in gross margin as well as the other factors discussed above. For the first six months, operating profit dollars increased about 3% to \$90,470 and operating margin improved to 20.3% from 19.2% in the first six months of fiscal year 2008, reflecting the factors discussed above.

Industrial:

Presented below are summary Statements of Operating Profit for the Industrial segment for the three and six months ended January 31, 2009 and January 31, 2008.

			% of		% of

Table of Contents

Industrial segment sales in the quarter decreased 10.7% from the second quarter of fiscal year 2008, as growth in the Aerospace & Transportation market was offset by declines in the EWPT and Microelectronics markets. For the first six months, Industrial segment sales decreased 3.5% over the same period of fiscal year 2008 as growth in the Aerospace & Transportation market was offset by a decrease in the Microelectronics market. Sales in the EWPT market, the Company's largest Industrial market, were flat for the first six months. Increased pricing (largely driven by the EWPT and Aerospace & Transportation markets) contributed \$4,077 and \$5,719 to overall sales in the quarter and first six months, respectively. Industrial systems sales increased 2.4% in the quarter compared to the second quarter of fiscal year 2008. The Food & Beverage, Energy and Municipal Water markets reported within EWPT were the key contributors to the growth in systems sales in the quarter. Industrial consumables sales decreased 13.4%, reflecting declines in all markets with the exception of Military within the Aerospace & Transportation market. For the first six months, Industrial systems sales increased 3.4% compared to the first six months of fiscal year 2008. The Food & Beverage and Municipal Water markets reported within EWPT were the key contributors to the growth in systems sales in the period. Industrial consumables sales decreased 5.1%, reflecting declines in all markets with the exception of Energy, within the EWPT market, and Military, within the Aerospace & Transportation market. Industrial represented approximately 59% and 60% of total sales in the quarter and first six months, respectively, compared to 61% in both the second quarter and first six months of fiscal year 2008.

EWPT market sales, which account for about 60% of the Industrial segment, decreased 6.3%, with sales in all markets down compared to the second quarter of fiscal year 2008, with the exception of Municipal Water which was flat. The largest decline was seen in the Industrial Manufacturing market which is the most susceptible to macroeconomic pressures. For the first six months, EWPT market sales were flat as a decline in the Industrial Manufacturing market offset modest growth in all of the other markets.

Municipal Water sales were flat compared to the second quarter of fiscal year 2008 as systems growth in the Western Hemisphere, the Company's largest geographic Municipal Water market, was offset by decreases in Europe and Asia. For the first six months, Municipal Water sales increased 3.6%, driven by growth in the Western Hemisphere partly offset by decreases in Europe and Asia. The sales growth in the Western Hemisphere in the quarter and first six months was primarily attributable to surface water treatment projects driven by government regulations, solutions for which the Company is strategically situated to provide. The decrease in sales in Asia was attributable to timing of systems projects and tough comparables against the same periods last year (which included a large project in Australia). The decline in Europe primarily relates to a slowdown of projects in Eastern Europe due to economic conditions in the region.

Sales in the energy-related market decreased 1.6% in the quarter, as growth in systems sales were more than offset by a decrease in consumables sales. The increase in systems sales reflects growth in Europe and Asia in the Fuels and Chemicals market partly offset by a decline in the Western Hemisphere (Power Generation and Fuels and Chemicals markets). The decline in consumables sales was mainly attributable to Europe in the Fuels and Chemicals market due to a downturn in the plastics and fine chemicals sectors partly offset by growth in the Power Generation market (all geographies contributing). For the first six months, sales in the energy-related market increased 1.2%, as growth in consumables more than offset the decrease in systems sales. The increase in consumables sales reflects growth in the Power Generation market (all geographies contributing) partly offset by a decline in the Fuels and Chemicals market in Europe primarily due to a downturn in the plastics and fine chemicals sectors as discussed above. The decrease in systems sales was attributable to the Western Hemisphere (Power Generation and Fuels and Chemicals markets) and reflects tough comparables against a strong first six months of fiscal year 2008. Systems sales in Europe and Asia increased in the first six months in both the Power Generation and Fuels and Chemicals markets, partly mitigating the decline in the Western Hemisphere. Market opportunities and growth drivers in the energy-related market continue to be alternative energy projects and investments in power generation infrastructure.

Food and Beverage sales were flat in the quarter as growth in systems sales of 20.2% (attributable to the Western Hemisphere and Asia) was offset by a decline in consumables of 5.1% (attributable to Europe). Sales in Europe, the Company's largest geographic Food & Beverage market, were down 11.2%. The decline in Europe reflects decreased sales in Eastern Europe due to poor economic conditions in the region, a slowdown in the fine wine sector and a general slowing in capital projects. In Asia, sales increased 15.7%, attributable to the overall growth in this region in

various countries. In the Western Hemisphere, sales increased 33%, reflecting strong systems sales growth, while consumables sales were flat. Food and Beverage sales in the first six months increased 5.5%, reflecting growth in systems sales of 61.2% (all geographies contributing) partly offset by a decline in consumables of 3.4% (attributable to Europe). Sales in Europe were down 3.7% reflecting the factors discussed above. In Asia, sales increased 17.6%, attributable to the overall growth in this region. In the Western Hemisphere, sales increased 38.7%. Growth in both the Western Hemisphere and Asia was driven by strong systems sales growth accompanied by modest growth in consumables. These two regions also benefitted from expanded market share.

Table of Contents

Sales in the Industrial Manufacturing market decreased 23.2% and 12.5% in the quarter and first six months, respectively. All geographies reported decreased sales in the quarter and first six months compared to the prior periods. Sales growth was negatively impacted by the global macroeconomic environment, particularly in the steel, automotive, mining, metals and paper sectors.

Aerospace & Transportation sales increased 1.3% in the quarter with growth in Military sales of 12.9%, partly offset by decreases in the Commercial Aerospace and Transportation markets of 4.9% and 11.1%, respectively. The growth in Military sales was primarily driven by CH-47 helicopter product shipments to the Army, increased OEM platform builds in the Western Hemisphere and sales growth in spares in Europe (primarily the United Kingdom and France) and Africa (Centrisep project). The decrease in the Commercial portion of this market primarily reflects a decrease in aftermarket sales in the Western Hemisphere and Europe partly related to airlines taking planes out of service. The decrease in the Transportation market primarily reflects decreased sales to the construction and truck industries in Europe. In the first six months, Aerospace & Transportation sales increased 6.5% driven by growth in Military sales of 24.4%. Sales in the Commercial Aerospace and Transportation markets were down 6.2% and 5.9%, respectively. The growth in Military sales in the first six months reflects the same factors evident in the quarter. The decrease in the Commercial portion of this market primarily reflects a decrease in aftermarket sales in the Western Hemisphere, while the decline in the Transportation market primarily reflects decreased sales in Europe (as discussed above).

Microelectronics sales decreased 34.7% and 21.3% in the quarter and first six months, respectively, reflecting decreases in all geographies. Overall, the sales decreases reflect the growing weakness in the semiconductor and consumer electronics markets related to the global economic environment.

Industrial gross margins increased 50 basis points to 44.3% from 43.8% in the second quarter of fiscal year 2008. The increase in gross margins reflects improved pricing, which contributed about 70 basis points in margin, and the effects of the ongoing cost reduction and lean manufacturing initiatives, which offset inflation of manufacturing costs. Furthermore, the increase in gross margins in the quarter reflect an improvement in systems margins compared to last year. These positive factors were partly offset by a shift in product mix to a higher percentage of systems sales (about 17.5% of total Industrial sales compared to 15.9% in the second quarter of fiscal year 2008). For the first six months, Industrial gross margins increased 170 basis points to 45.3% from 43.6% in the first six months of fiscal year 2008. The increase in gross margins reflects improved pricing, which contributed about 50 basis points in margin, and the effects of the ongoing cost reduction and lean manufacturing initiatives, which offset inflation of manufacturing costs. Furthermore, the increase in gross margins in the first six months reflects an improvement in systems margins compared to last year. These positive factors were partly offset by a shift in product mix to a higher percentage of systems sales (about 15.2% of total Industrial sales compared to 14.8% in the first six months of fiscal year 2008).

SG&A expenses decreased by \$6,246, or 6% (flat in local currency), compared to the second quarter of fiscal year 2008. SG&A expenses as a percentage of sales was 30.6% compared to 27.2% in the second quarter of fiscal year 2008, primarily attributable to the decline in sales in the quarter. For the first six months, SG&A expenses decreased by \$2,960, or 1¹/₂% (an increase of 2% in local currency), compared to the same period last year. The increase in SG&A reflects an increase in selling, distribution and marketing related costs. SG&A expenses as a percentage of sales was 29.4% compared to 27.7% in the first six months of fiscal year 2008 reflecting the decline in sales.

R&D expenses decreased 1% (flat in local currency) to \$7,805 from \$7,884 in the second quarter of fiscal year 2008. As a percentage of sales, R&D expenses were 2.5% compared to 2.1% in the second quarter of fiscal year 2008. For the first six months, R&D expenses increased about 8¹/₂% (almost 9% in local currency) to \$16,471 compared to \$15,161 in the first six months of fiscal year 2008. As a percentage of sales, R&D expenses were 2.4% compared to 2.1% in the first six months of fiscal year 2008. Increased spending in dollars in the first six months reflects investments in new technologies across various markets within Industrial.

As a result of the above factors, operating profit dollars decreased 35% to \$35,882 and operating margin decreased to 11.3% from 14.5% in the second quarter of fiscal year 2008. For the first six months, operating profit dollars decreased about 9¹/₂% to \$90,988 and operating margin decreased to 13.5% from 13.8% in the first six months of fiscal year 2008.

Table of Contents**Corporate:**

Corporate expenses in the quarter increased by \$381 or approximately 3% to \$12,638 from \$12,257 in the second quarter of fiscal year 2008. Corporate expenses in the first six months of fiscal year 2009 increased by \$5,977 or 25% to \$29,660 from \$23,683 in the first six months of fiscal year 2008. The increase in Corporate expenses primarily reflects increased consulting costs related to the Company's pricing initiative, timing of costs associated with the production of the Company's annual report and proxy statement, foreign currency transaction losses and increased payroll related to additions to Corporate staff.

Liquidity and Capital Resources

Non-cash working capital, which is defined as working capital excluding cash and cash equivalents, notes receivable, notes payable and the current portion of long-term debt, was approximately \$628,900 at January 31, 2009 as compared with \$660,000 at July 31, 2008. Based on discussions with various tax authorities, the Company believes it is reasonably possible that the gross amount of unrecognized tax benefits will decrease by approximately \$96,338 within the next 12 months. As a result, the Company has reclassified \$92,558 from non-current income tax liabilities to current tax liabilities. In addition, the Company reclassified \$65,985 of non-current prepaid income tax included in other non-current assets as of July 31, 2008 to other current assets as of January 31, 2009 as this amount could be utilized in the resolution of the unrecognized tax benefits. These reclassifications reduced non-cash working capital by \$26,573 compared to July 31, 2008.

The Company's balance sheet is affected by spot exchange rates used to translate local currency amounts into U.S. dollars. In comparing spot exchange rates at January 31, 2009 to those at July 31, 2008, the Euro and the British Pound have weakened against the U.S. dollar, while the Japanese Yen has strengthened against the U.S. dollar. The effect of foreign exchange decreased non-cash working capital by \$77,647, including net inventory, net accounts receivable and other current assets by \$47,319, \$60,860 and \$11,363, respectively, as compared to July 31, 2008. Additionally, foreign exchange decreased accounts payable and other current liabilities by \$37,797 and current income tax payable by \$4,098.

Net cash provided by operating activities in the first six months of fiscal year 2009 was \$61,893 as compared to net cash used by operating activities of \$74,905 in the first six months of fiscal year 2008, an increase of \$136,798. Net cash used by operating activities in the first six months of fiscal year 2008 reflected a tax payment of \$135,000 to the Internal Revenue Service. Excluding this item net cash provided by operating activities increased \$1,798.

Accounts receivable days sales outstanding (DSO) for the quarter ended January 31, 2009 was 83 days, on par with the quarter ended January 31, 2008, including the impact of exchange rates. Excluding the impact of exchange rates, DSO was 85 days. Inventory turns were 2.6 for the four quarters ended January 31, 2009 on par with the four quarters ended January 31, 2008.

Free cash flow, which is defined as net cash provided by operating activities less capital expenditures, was \$3,506 in the first six months of fiscal year 2009, as compared with \$(127,586) in the first six months of fiscal year 2008. The increase in free cash flow reflects the increase in net cash provided by operating activities as discussed above partly offset by an increase in capital expenditures. Company management believes this measure is important because it is a key element of its planning. The Company utilizes free cash flow as one way to measure its current and future financial performance. The following table reconciles free cash flow to net cash provided by operating activities.

	Jan. 31, 2009	Jan. 31, 2008
Net cash provided/(used) by operating activities	\$ 61,893	\$ (74,905)
Less capital expenditures	58,387	52,681
Free cash flow	\$ 3,506	\$ (127,586)

Overall, net debt (debt net of cash and cash equivalents) as a percentage of total capitalization (net debt plus equity) was 31% at January 31, 2009 as compared to 22.1% at July 31, 2008. Net debt increased by approximately

\$132,100 compared with July 31, 2008, comprised of a decrease in cash and cash equivalents of \$200,000 partly offset by a decrease in gross debt of \$85,800. Significant uses of cash in the six months included the acquisition of GeneSystems (\$37,214), the repurchases of stock (\$64,884) and the repayment of foreign debt (approximately \$150,000), bearing higher rates than U.S. borrowing rates. The impact of foreign exchange rates increased net debt by about \$17,900. The Company was in compliance with all financial covenants of its various debt agreements as of January 31, 2009.

Table of Contents

The Company utilizes cash flow generated from operations and its revolving credit facility to meet its short-term liquidity needs. Company management considers its existing lines of credit, along with the cash typically generated from operations, to be sufficient to meet its short-term liquidity needs.

Capital expenditures were \$58,387 in the first six months of fiscal year 2009 (\$32,100 expended in the current quarter). Depreciation expense was \$19,646 and \$40,311 in the quarter and six months, respectively. Amortization expense was \$2,325 and \$4,655 in the quarter and six months, respectively.

On November 15, 2006, the board of directors authorized an expenditure of \$250,000 to repurchase shares of the Company's common stock. At July 31, 2008 there was \$199,382 available to be expended under this authorization. On October 16, 2008, the board authorized an additional expenditure of \$350,000 to repurchase shares. The Company repurchased stock of \$64,884 in the first six months of fiscal year 2009 and as such there was \$484,498 remaining at January 31, 2009 under the current stock repurchase programs. Net proceeds from stock plans were \$7,185 in the first six months of fiscal year 2009.

The Company increased its quarterly dividend by 8% from 12 cents to 13 cents per share, effective with the dividend declared on March 12, 2008. In the first six months of fiscal year 2009, the Company paid dividends of \$30,814, an increase of about 5% compared to the first six months of fiscal year 2008. The Company increased its quarterly dividend by 11.5% from 13 cents to 14.5 cents per share, effective with the dividend declared on January 22, 2009.

Recently Issued Accounting Pronouncements

Effective August 1, 2008, the Company adopted, on a prospective basis, certain required provisions of Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS No. 157). The provisions not yet adopted by the Company relate to non-financial assets and liabilities that are recognized or disclosed on a non-recurring basis, as permitted under FASB Staff Position No. 157-2, Effective Date of FASB Statement No. 157 (FSP FAS No. 157-2). Those remaining aspects of SFAS No. 157 for which the effective date was deferred by FSP FAS No. 157-2 are being evaluated by the Company and will be effective for the first quarter of fiscal year 2010.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations (SFAS No. 141(R)). SFAS No. 141(R) establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree, recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) is effective for the Company beginning with fiscal year 2010.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of Accounting Research Bulletin No. 51 (SFAS No. 160). SFAS No. 160 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interest, changes in a parent's ownership interest, and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. SFAS No. 160 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. SFAS No. 160 is effective for the Company beginning with fiscal year 2010.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities to provide enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for the Company beginning with its third quarter of fiscal year 2009.

In April 2008, the FASB issued FASB Staff Position (FSP) No. FAS 142-3, Determination of the Useful Life of Intangible Assets (FSP No. 142-3). FSP No. 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, Goodwill and Other Intangible Assets. FSP No. 142-3 is effective for the Company beginning with fiscal

year 2010. The Company is in the process of assessing the effect FSP No. 142-3 may have on its consolidated financial statements.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There is no material change in the market risk information disclosed in Item 7A of the 2008 Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES.

There are some changes which, taken together, are expected to have a favorable impact on the Company's controls over a multi-year period. There are a number of significant business improvement initiatives designed to improve processes and enhance customer and supplier relationships and opportunities. These include information systems upgrades and integrations that are in various phases of planning or implementation and contemplate enhancements of ongoing activities to support the growth of the Company's financial shared service capabilities and standardization of its financial systems. The Company is employing a project management and phased implementation approach that will provide continued monitoring and assessment in order to maintain the effectiveness of internal control over financial reporting during and subsequent to implementation of these initiatives.

In connection with the business improvement initiatives discussed above, during the second quarter of fiscal year 2009, certain subsidiaries in the Western Hemisphere commenced utilizing a modified procurement-to-payment process, which includes a new procurement-to-payment system.

Except as noted above, there have been no changes in the Company's internal control over financial reporting during the second quarter of fiscal year 2009 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's chief executive officer and chief financial officer, of the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended. Based on this evaluation, the chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures are effective.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS.****(In thousands)**

As previously disclosed in the 2008 Form 10-K, the Company is subject to various regulatory proceedings and litigation relating to various environmental matters and to the tax matters described in Note 2, Audit Committee Inquiry and Restatement, to the 2007 Form 10-K. The information provided below updates and should be read in conjunction with the discussion of these proceedings in Part I Item 3 Legal Proceedings in the 2008 Form 10-K. Reference is also made to Note 7, Contingencies and Commitments, to the accompanying condensed consolidated financial statements.

Federal Securities Class Actions:

Four putative class action lawsuits were filed against the Company and certain members of its management team alleging violations of the federal securities laws relating to the Company's understatement of certain of its U.S. income tax payments and of its provision for income taxes in certain prior periods as described in Note 2, Audit Committee Inquiry and Restatement, to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended July 31, 2007 (2007 Form 10-K). These lawsuits were filed between August 14, 2007 and October 11, 2007 in the United States District Court for the Eastern District of New York. By Order dated May 28, 2008, the Court consolidated the cases under the caption *In re Pall Corp*, No. 07-CV-3359 (E.D.N.Y.) (JS) (ARL), appointed a lead plaintiff and ordered that the lead plaintiff file a consolidated amended complaint. The lead plaintiff filed its consolidated amended complaint on August 4, 2008. The lead plaintiff seeks to act as representative for a class consisting of purchasers of the Company's stock between April 20, 2007 and August 2, 2007, inclusive. The consolidated amended complaint names the Company and its current chief executive officer and chief financial officer as defendants and alleges violations of Section 10(b) and 20(a) of the Exchange Act, as amended, and Rule 10b-5 promulgated by the Securities and Exchange Commission (SEC). It alleges that the defendants violated these provisions of the federal securities laws by issuing materially false and misleading public statements about the Company's financial results and financial statements, including the Company's income tax liability, effective tax rate, internal controls and accounting practices. The plaintiffs seek unspecified compensatory damages, costs and expenses. The Company moved to dismiss the consolidated amended complaint on September 19, 2008 and filed its reply brief to the lead plaintiff's opposition to the Company's motion to dismiss on December 2, 2008. The motion is now fully briefed and before the court.

Shareholder Derivative Lawsuits:

On October 5, 2007, two plaintiffs filed identical derivative lawsuits in New York Supreme Court, Nassau County relating to the tax matter described above. These actions purport to bring claims on behalf of the Company based on allegations that certain current and former directors and officers of the Company breached their fiduciary duties by failing to evaluate and otherwise inform themselves about the Company's internal controls and financial reporting systems and procedures. In addition, plaintiffs allege that certain officers of the Company were unjustly enriched as a result of the Company's inaccurate financial results over fiscal years 1999-2006 and the first three quarters of fiscal year 2007. The complaints seek unspecified compensatory damages on behalf of Pall Corporation, disgorgement of defendants' salaries, bonuses, stock grants and stock options, equitable relief and costs and expenses. The Company, acting in its capacity as nominal defendant, moved to dismiss the complaints for failure to make a demand upon the Company's board of directors, which motions were granted on April 30 and May 2, 2008. On September 19, 2008, the same two plaintiffs filed a derivative lawsuit in New York Supreme Court, Nassau County, which was served on the Company on September 26, 2008 (the September Derivative). This action purports to bring claims on behalf of the Company based on allegations that certain current and former directors and officers of the Company breached their fiduciary duties and were unjustly enriched in connection with the tax matter. In addition, the plaintiffs allege that the Board's refusal of their demand to commence an action against the defendants was not made in good faith. The plaintiffs and the Company agreed to stay these proceedings pending resolution of the Company's motion to dismiss in the federal securities class action lawsuit.

On November 13, 2008, another shareholder filed a derivative lawsuit in New York Supreme Court, Nassau County, against certain current and former directors and officers of the Company, and against the Company, as

nominal defendant, which was served on the Company on December 4, 2008. This action purports to bring similar claims as the September Derivative. The plaintiffs and the Company have agreed to an identical stay as in the September Derivative.

Table of Contents**Other Proceedings:**

The SEC and U.S. Attorney's Office for the Eastern District of New York are conducting investigations in connection with the tax matter described above. The Company is cooperating with these investigations.

Environmental Matters:

The Company's condensed consolidated balance sheet at January 31, 2009 includes liabilities for environmental matters of approximately \$13,642, which relate primarily to the previously reported environmental proceedings involving a Company subsidiary, Gelman Sciences Inc., pertaining to groundwater contamination. In the opinion of management, the Company is in substantial compliance with applicable environmental laws and its current accruals for environmental remediation are adequate. However, as regulatory standards under environmental laws are becoming increasingly stringent, there can be no assurance that future developments, additional information and experience gained will not cause the Company to incur material environmental liabilities or costs beyond those accrued in its condensed consolidated financial statements.

ITEM 1A. RISK FACTORS.

There is no material change in the risk factors reported in Item 1A of the 2008 Form 10-K. This report contains certain forward-looking statements which reflect management's expectations regarding future events and operating performance and speak only as of the date hereof. These statements are subject to risks and uncertainties, which could cause actual results to differ materially. For a description of these risks see Management's Discussion and Analysis of Financial Condition and Results of Operations Forward-Looking Statements and Risk Factors.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

- (a) During the period covered by this report, the Company did not sell any of its equity securities that were not registered under the Securities Act of 1933, as amended.
- (b) Not applicable.
- (c) The following table provides information with respect to purchases made by or on behalf of the Company or any affiliated purchaser of shares of the Company's common stock.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	(In thousands, except per share data)	
			Total Number of Shares Purchased as Part of Announced Plans or Programs (1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (1)
November 1, 2008 to November 30, 2008		\$		\$ 499,488
December 1, 2008 to December 31, 2008	515	\$ 26.24	515	\$ 485,979
January 1, 2009 to January 31, 2009	56	\$ 26.42	56	\$ 484,498
Total	571	\$ 26.26	571	

- (1) On November 15, 2006, the board authorized an

expenditure of \$250,000 to repurchase shares of the Company's common stock. On October 21, 2008, the board authorized an additional expenditure of \$350,000 to repurchase shares. The Company's shares may be purchased over time, as market and business conditions warrant. There is no time restriction on these authorizations. During the six months ended January 31, 2009, the Company purchased 2,139 shares in open-market transactions at an aggregate cost of \$64,884, with an average price per share of \$30.33. At January 31, 2009, approximately \$484,498 remained available under the current stock repurchase programs. Repurchased shares are held in treasury for

use in connection with the Company's stock-based compensation plans and for general corporate purposes.

During the six months ended January 31, 2009, one share was traded in by an employee in payment of a stock option exercise at a price of \$39.84 per share and an aggregate cost of \$13.

Table of Contents**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.**

- (a) The Annual Meeting of Shareholders of the Company was held on November 19, 2008.
- (b) Not required. Proxies for the meeting were solicited pursuant to Regulation 14 under the Securities Exchange Act of 1934, as amended. There was no solicitation in opposition to management's director nominees as listed in the proxy statement, and all of management's nominees were elected.
- (c) The matters voted upon and the results of the voting were as follows:

Proposal I Election of Directors

Holders of 95,423,978 shares of common stock voted either in person or by proxy for the election of seven directors. The number of votes cast for each nominee were as indicated below:

Director	Total vote for each director	Total vote withheld for each director
Cheryl W. Grisé	94,293,681	1,130,297
Ulric S. Haynes, Jr.	92,780,231	2,643,747
Ronald L. Hoffman	95,114,534	309,444
Edwin W. Martin, Jr.	92,768,875	2,655,103
Katharine L. Plourde	93,265,884	2,158,094
Heywood Shelley	92,617,128	2,806,850
Edward Travaglianti	94,811,775	612,203

Directors whose terms of office continue past the Annual Meeting of Shareholders are: Daniel J. Carroll, Jr., Eric Krasnoff, Dennis N. Longstreet and Edward L. Snyder.

Proposal II Ratification of the Appointment of KPMG LLP as Independent Registered Public Accounting Firm for Fiscal Year 2009

The proposal was approved as follows:

Shares For	Shares Against	Abstain
93,050,378	2,178,272	195,328

Proposal III Amendment to the Management Stock Purchase Plan

The proposal was approved as follows:

Shares For	Shares Against	Abstain	Nonvotes
75,622,413	1,700,242	251,136	17,850,187

Proposal IV Amendment to the 2005 Stock Compensation Plan

The proposal was approved as follows:

Shares For	Shares Against	Abstain	Nonvotes
69,292,756	8,034,473	246,562	17,850,187

- (d) Not applicable.
