The accompanying Notes are an integral part of these Consolidated Financial Statements.

ACCENTURE LTD
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)
(Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited interim Consolidated Financial Statements of Accenture Ltd, a Bermuda company, and its controlled subsidiary companies (collectively, the Company) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for quarterly reports on Form 10-Q and do not include all of the information and note disclosures required by U.S. generally accepted accounting principles (U.S. GAAP) for complete financial statements. These Consolidated Financial Statements should therefore be read in conjunction with the Consolidated Financial Statements and Notes thereto for the fiscal year ended August 31, 2008 included in the Company's Annual Report on Form 10-K filed with the SEC on October 20, 2008. The accompanying unaudited interim Consolidated Financial Statements have been prepared in accordance with U.S. GAAP and reflect all adjustments of a normal, recurring nature that are, in the opinion of management, necessary for a fair presentation of results for these interim periods. The results of operations for the three and nine months ended May 31, 2009 are not necessarily indicative of the results that may be expected for the fiscal year ending August 31, 2009. Certain prior-period amounts have been reclassified to conform to the current-period presentation.

On May 26, 2009, the Company announced that its Board of Directors approved a proposed transaction in which a new parent company (Accenture plc, incorporated in Ireland) would be created for the Company (the Change of Incorporation). The Change of Incorporation is subject to approval by the Company's shareholders and will be voted on at shareholder meetings scheduled for August 5, 2009. If approved, the Company intends the Change of Incorporation to take effect on September 1, 2009. The Company will continue to report its financial results in U.S. dollars and under U.S. GAAP.

Allowances for Client Receivables and Unbilled Services

As of May 31, 2009 and August 31, 2008, total allowances for client receivables and unbilled services were \$110,602 and \$42,912, respectively. The increase was principally due to a \$75,008 bad debt provision, of which \$71,893 was recorded during the three months ended November 30, 2008, reflecting collectibility risks on outstanding receivables, in light of the current global economic downturn, particularly from clients in high-risk industries or with potential liquidity issues.

Recently Adopted Accounting Pronouncements

On December 1, 2008, the Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133* (SFAS 161). This Statement requires enhanced disclosures for derivative instruments and hedging activities about (i) how and why a company uses derivative instruments; (ii) how derivative instruments and related hedged items are accounted for under SFAS 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133) and its related interpretations; and (iii) how derivative instruments and related hedged items affect a company's financial position, financial performance and cash flows. The Company's adoption of SFAS 161 did not have a material impact on its Consolidated Financial Statements. For additional information, see Note 9 (Derivative Financial Instruments) to these Consolidated Financial Statements.

On September 1, 2008, the Company adopted the provisions of SFAS 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes a framework for measuring fair value under U.S. GAAP and expands disclosures about fair value measurements. In accordance with FASB Staff Position 157-2, *Effective Date of FASB Statement No. 157*, the Company elected to defer the adoption of the provisions of SFAS 157 for its non-financial assets and non-financial liabilities. Such assets and liabilities, which include the Company's Deferred contract costs, Property and equipment, net and Goodwill, will be subject to the provisions of SFAS 157 on September 1, 2009. The Company is currently assessing the potential impact that the adoption of SFAS 157 for its non-financial assets may have on its Consolidated Financial Statements. For additional information, see Note 10 (Fair Value Measurements) to these Consolidated Financial Statements.

Effective September 1, 2008, the Company adopted the year-end measurement date provision of SFAS 158, *Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 106, and*

ACCENTURE LTD
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)
(Unaudited)

132(R), using an approach generally known as the one measurement approach. The adoption of the provision had the following impact on the Company's Consolidated Balance Sheet: decreased Retained earnings by \$5,302; decreased Accumulated other comprehensive (loss) income by \$286; decreased Other non-current assets by \$2,736; and increased Retirement obligation by \$2,852.

2. EARNINGS PER SHARE

Basic and diluted earnings per share are calculated as follows:

Basic earnings per share

	Three Months Ended		Nine Months Ended	
	May 31,		May 31,	
	2009	2008	2009	2008
Net income available for Class A common shareholders	\$ 443,969	\$ 469,089	\$ 1,335,271	\$ 1,256,931
Basic weighted average Class A common shares	623,649,189	606,513,399	622,108,212	608,888,487
Basic earnings per share	\$ 0.71	\$ 0.77	\$ 2.15	\$ 2.06
Net income available for Class A common shareholders	\$ 443,969	\$ 469,089	\$ 1,335,271	\$ 1,256,931
Minority interest in Accenture SCA and Accenture Canada Holdings Inc. (1)	87,858	133,930	283,326	377,593
Net income per share calculation	\$ 531,827	\$ 603,019	\$ 1,618,597	\$ 1,634,524
Basic weighted average Class A common shares	623,649,189	606,513,399	622,108,212	608,888,487
Class A common shares issuable upon redemption/exchange of minority interest (1)	123,382,539	173,199,431	131,730,635	183,555,248
Diluted effect of employee compensation related to Class A common shares (2)	35,726,619	37,577,235	33,780,716	35,543,746
Diluted effect of employee share purchase plan related to Class A common shares	56,475	21,280	84,351	20,293
Weighted average Class A common shares	782,814,822	817,311,345	787,703,914	828,007,774
Diluted earnings per share (2)	\$ 0.68	\$ 0.74	\$ 2.05	\$ 1.97

(1)

Diluted earnings per share assumes the redemption and exchange of all Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares, respectively, for Accenture Ltd Class A common shares, on a one-for-one basis. The income effect does not take into account Minority interest other, since those shares are not redeemable or exchangeable for Accenture Ltd Class A common shares.

- (2) Fiscal 2008 diluted weighted average Accenture Ltd Class A common shares and earnings per share amounts have been restated to reflect the impact of the issuance of an immaterial number of additional restricted share units to holders of restricted

share units in connection with the payment of cash dividends.

3. INCOME TAXES

Effective Tax Rate

The Company's effective tax rates for the three months ended May 31, 2009 and 2008 were 28.2% and 30.8%, respectively. The Company's effective tax rates for the nine months ended May 31, 2009 and 2008 were 27.6% and 28.4%, respectively. The effective tax rate for the three months ended May 31, 2009 is lower than the effective tax rate for the three months ended May 31, 2008 primarily as a result of higher benefits related to final determinations of prior-year tax liabilities recorded during the third quarter of fiscal 2009. The effective tax rate for the nine months ended May 31, 2009 is lower than the effective tax rate for the nine months ended May 31, 2008 primarily as a result of lower expenses related to tax rate changes and other adjustments to prior-year tax liabilities recorded in the nine months ended May 31, 2009 compared with the nine months ended May 31, 2008.

4. REORGANIZATION (BENEFITS) COSTS

In fiscal 2001, the Company accrued reorganization liabilities in connection with its transition to a corporate structure. These liabilities included certain non-income tax liabilities, such as stamp taxes, as well as liabilities for certain individual income tax exposures related to the transfer of interests in certain entities to the Company as part of the reorganization. These primarily represent unusual and disproportionate individual income tax exposures assumed by certain, but not all, of the Company's shareholders and

ACCENTURE LTD
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)
(Unaudited)

partners in certain tax jurisdictions specifically related to the transfer of their partnership interests in certain entities to the Company as part of the reorganization. The Company identified certain shareholders and partners who may incur such unusual and disproportionate financial damage in certain jurisdictions. These include shareholders and partners who were subject to tax in their jurisdiction on items of income arising from the reorganization transaction that were not taxable for most other shareholders and partners. In addition, certain other shareholders and partners were subject to a different rate or amount of tax than other shareholders or partners in the same jurisdiction. When additional taxes are assessed on these shareholders or partners in connection with these transfers, the Company has made and intends to make payments to reimburse certain costs associated with the assessment either to the shareholder or partner, or to the taxing authority. The Company has recorded reorganization expense and the related liability where such liabilities are probable. Interest accruals are made to cover reimbursement of interest on such tax assessments. The Company's reorganization activity is as follows:

	Three Months Ended		Nine Months Ended	
	May 31,		May 31,	
	2009	2008	2009	2008
Reorganization liability, beginning of period	\$ 258,354	\$ 309,704	\$ 308,694	\$ 401,228
Final determinations (1)		(1,093)	(23,479)	(83,204)
Changes in estimates		1,093	7,297	83,204
Benefit recorded			(16,182)	
Interest expense accrued	3,176	4,355	9,454	18,489
Payments				(143,184)
Foreign currency translation adjustments	25,167	6,130	(15,269)	43,656
Reorganization liability, end of period	\$ 286,697	\$ 320,189	\$ 286,697	\$ 320,189

(1) Includes final agreements with tax authorities and expirations of statutes of limitations.

As of May 31, 2009, reorganization liabilities of \$277,054 were included in Other accrued liabilities because expirations of statutes of limitations or other final determinations could occur within 12 months, and reorganization liabilities of \$9,643 were included in Other non-current liabilities. Timing of the resolution of tax audits or the initiation of additional litigation and/or criminal tax proceedings may delay final resolution. Final resolution, through settlement, conclusion of legal proceedings or a tax authority's decision not to pursue a claim, will result in payment by the Company of amounts in settlement or judgment of these matters and/or recording of a reorganization benefit or cost in the Company's Consolidated Income Statement. It is possible the aggregate amount of such payments in connection with a resolution of all such proceedings could exceed the currently recorded amounts. As of May 31, 2009, only a small number of jurisdictions remain that have active audits/investigations or open statutes of limitations, and only one is significant. In that jurisdiction, current and former partners are engaged in a dispute with tax authorities in connection with the corporate reorganization in 2001. These individuals and the Company intend to vigorously defend their positions.

5. ACCUMULATED OTHER COMPREHENSIVE (LOSS) INCOME

The components of Accumulated other comprehensive (loss) income are as follows:

	May 31, 2009	August 31, 2008
Net unrealized (losses) gains on cash flow hedges, net of tax of \$(3,566) and \$4,959, respectively	\$ (2,103)	\$ 11,381
Net unrealized losses on marketable securities	(545)	(689)
Foreign currency translation adjustments, net of tax of \$2,412 and \$1,883, respectively	(126,643)	34,860
Pension and postretirement plans, net of tax of \$(27,244) and \$(25,324), respectively	(40,749)	(39,424)
Accumulated other comprehensive (loss) income	\$ (170,040)	\$ 6,128

The activity related to the change in net unrealized (losses) gains on cash flow hedges, net of tax, is as follows:

	May 31, 2009
Net unrealized gains on cash flow hedges, net of tax, beginning of period	\$ 11,381
Change in fair value, net of tax of \$(17,156)	(24,114)
Reclassification adjustments into earnings, net of tax of \$8,631	10,630
Net unrealized losses on cash flow hedges, net of tax, end of period	\$ (2,103)

Comprehensive income was as follows:

	May 31, 2009	May 31, 2008
Three months ended	\$ 650,936	\$ 475,054
Nine months ended	1,159,389	1,318,721

6. BUSINESS COMBINATIONS AND GOODWILL

The changes in the carrying amount of goodwill by reportable operating segment are as follows:

	August 31, 2008	Additions/ Adjustments	Foreign Currency Translation Adjustments	May 31, 2009
Communications & High Tech	\$ 163,386	\$ (2,676)	\$ (9,424)	\$ 151,286
Financial Services	143,380	47	(4,955)	138,472
Products	329,332	402	(10,898)	318,836
Public Service	134,895	70	(3,033)	131,932
Resources	68,964	737	(6,479)	63,222

Edgar Filing: ACCENTURE LTD - Form 10-Q

8. MATERIAL TRANSACTIONS AFFECTING SHAREHOLDERS' EQUITY

Share Purchase and Redemption Activity

The Board of Directors of Accenture Ltd has authorized funding for the Company's publicly announced open-market share purchase program for acquiring Accenture Ltd Class A common shares and for purchases and redemptions of Accenture Ltd Class A common shares, Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares held by the Company's current and former senior executives and their permitted transferees.

The Company's share purchase activity during the nine months ended May 31, 2009 was as follows:

	Accenture Ltd Class A		Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares		Total	
	Shares	Amount	Shares	Amount	Shares	Amount
Open-Market Share Purchases (1)	18,128,004	\$ 544,484		\$	18,128,004	\$ 544,484
Other Share Purchase Programs			22,179,369	698,160	22,179,369	698,160
Other purchases (2)	2,471,116	87,611			2,471,116	87,611
Total	20,599,120	\$ 632,095	22,179,369	\$ 698,160	42,778,489	\$ 1,330,255

(1) The Company conducts a publicly announced,

open-market
share purchase
program for
Accenture Ltd
Class A
common shares.
These shares are
held as treasury
shares by one or
more
subsidiaries of
Accenture Ltd
and may be
utilized to
provide for
select employee
benefits, such as
equity awards to
the Company's
employees.

- (2) During the nine

May 31, 2009,
as authorized
under the
Company's
various
employee equity
share plans, the
Company
acquired
Accenture Ltd
Class A
common shares
primarily via
share
withholding for
payroll tax
obligations due
from employees
and former
employees in
connection with
the delivery of
Accenture Ltd
Class A
common shares
under those
plans.

As of May 31, 2009, the Company's aggregate available authorization was \$1,260,314 for its publicly announced open-market share purchase program and the other share purchase programs.

Other Share Redemptions

During the nine months ended May 31, 2009, the Company issued 1,125,645 Accenture Ltd Class A common shares upon redemptions of an equivalent number of Accenture SCA Class I common shares pursuant to its registration statement on Form S-3 (the registration statement) filed on May 15, 2007. The registration statement allows the Company, at its option, to issue freely tradable Accenture Ltd Class A common shares in lieu of cash upon redemptions of Accenture SCA Class I common shares held by the Company's senior executives, former executives and their permitted transferees.

(Unaudited)

Dividend

On November 17, 2008, a cash dividend of \$0.50 per share was paid on Accenture Ltd Class A common shares to shareholders of record at the close of business on October 10, 2008, resulting in a cash outlay of \$307,701. On November 17, 2008, a cash dividend of \$0.50 per share was also paid on Accenture SCA Class I common shares and on Accenture Canada Holdings Inc. exchangeable shares, in each case to shareholders of record at the close of business on October 7, 2008, resulting in cash outlays of \$69,480 and \$1,265, respectively. The payment of the cash dividends also resulted in the issuance of an immaterial number of additional restricted share units to holders of restricted share units. Diluted weighted average Accenture Ltd Class A common share amounts have been restated for all periods presented to reflect this issuance.

9. DERIVATIVE FINANCIAL INSTRUMENTS

In the normal course of business, the Company uses derivative financial instruments to manage foreign currency exchange rate risk. Derivative transactions are governed by a uniform set of policies and procedures covering areas such as authorization, counterparty exposure and hedging practices. Positions are monitored using techniques such as market value and sensitivity analyses. The Company does not enter into derivative transactions for trading purposes.

Certain derivatives also give rise to credit risks from the possible non-performance by counterparties. Credit risk is generally limited to the fair value of those contracts that are favorable to the Company, and the maximum amount of loss due to credit risk, based on the gross fair value of all of the Company's derivative financial instruments, was approximately \$37,021 as of May 31, 2009. The Company has limited its credit risk by entering into derivative transactions only with highly-rated global financial institutions, limiting the amount of credit exposure with any one financial institution and conducting ongoing evaluation of the creditworthiness of the financial institutions with which it does business.

The Company also utilizes standard counterparty master agreements containing provisions for the netting of certain foreign currency transaction obligations and for set-off of certain obligations in the event of an insolvency of one of the parties to the transaction. These provisions may reduce the Company's potential overall loss resulting from the insolvency of a counterparty and reduce a counterparty's potential overall loss resulting from the insolvency of the Company. Additionally, these agreements contain early termination provisions triggered by adverse changes in a counterparty's credit rating, thereby enabling the Company to accelerate settlement of a transaction prior to its contractual maturity and potentially decrease the Company's realized loss on an open transaction. Similarly, a decrement in the Company's credit rating could trigger a counterparty's early termination rights, thereby enabling a counterparty to accelerate settlement of a transaction prior to its contractual maturity and potentially increase the Company's realized loss on an open transaction. The aggregate fair value of the Company's derivative instruments with credit-risk-related contingent features that are in a liability position as of May 31, 2009 was \$22,657.

The Company classifies cash flows from its derivative programs as cash flows from operating activities in the Consolidated Cash Flows Statement. The notional and fair values of all derivative instruments were as follows:

	May 31, 2009		August 31, 2008	
	Notional Value	Fair Value	Notional Value	Fair Value
Foreign currency forward contracts:				
To sell	\$ 271,773	\$ 262	\$ 211,230	\$ (163)
To buy	1,734,767	14,102	1,632,742	15,604

Cash Flow Hedges

Certain of the Company's subsidiaries are exposed to currency risk through their use of resources supplied by the Company's Global Delivery Network. To mitigate this risk, the Company uses foreign currency forward exchange

contracts to hedge the foreign exchange risk of the forecasted intercompany expenses denominated in foreign currencies for up to three years in the future. The Company has designated these derivatives as cash flow hedges in accordance with SFAS 133. As of May 31, 2009, the Company held no derivatives that were designated as fair value or net investment hedges.

In order for a derivative to qualify for hedge accounting, the derivative must be formally designated as a fair value, cash flow or net investment hedge by documenting the relationship between the derivative and the hedged item. The documentation should include a description of the hedging instrument, the hedge item, the risk being hedged, the Company's risk management objective and strategy

ACCENTURE LTD
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)
(Unaudited)

for undertaking the hedge, the method for assessing the effectiveness of the hedge and the method for measuring hedge ineffectiveness. Additionally, the hedge relationship must be expected to be highly effective at offsetting changes in either the fair value or cash flows of the hedged item at both inception of the hedge and on an ongoing basis. The Company assesses the ongoing effectiveness of its hedges in accordance with the Hypothetical Derivative Method as described in Derivative Implementation Group Issue No. G-7, *Cash Flow Hedges: Measuring the Ineffectiveness of a Cash Flow Hedge under Paragraph 30(b) When the Shortcut Method Is Not Applied*, and measures and records hedge ineffectiveness at the end of each fiscal quarter.

For a cash flow hedge, the effective portion of the change in estimated fair value of a hedging instrument is recorded in Accumulated other comprehensive (loss) income as a separate component of Shareholders' Equity and is reclassified into Cost of services in the Consolidated Income Statement during the period in which the hedged transaction is recognized. Amounts reclassified into Cost of services for the three and nine months ended May 31, 2009 were \$3,446 and \$10,630, respectively, net of taxes. The ineffective portion of the change in fair value of a cash flow hedge is recognized immediately in Other income (expense), net in the Consolidated Income Statement and for the three and nine months ended May 31, 2009 was not material. As of May 31, 2009, amounts related to derivatives designated as cash flow hedges and recorded in Accumulated other comprehensive (loss) income totaled \$(2,103), net of taxes, of which \$(2,160) is expected to be reclassified into earnings in the next 12 months. In addition, the Company did not discontinue any cash flow hedges during the nine months ended May 31, 2009.

The fair values of derivative instruments designated as cash flow hedges are recorded in the Consolidated Balance Sheet as follows:

	May 31, 2009
Assets	
Other current assets	\$ 8,132
Other non-current assets	6,117
Total	\$ 14,249
Liabilities	
Other accrued liabilities	\$ 13,965
Other non-current liabilities	5,953
Total	\$ 19,918

Other Derivatives

The Company also uses foreign currency forward exchange contracts, which have not been designated as hedges under SFAS 133, to hedge balance sheet exposures, such as intercompany loans. These instruments are generally short-term in nature, with typical maturities of less than one year, and are subject to fluctuations in foreign exchange rates. Realized gains or losses and changes in the estimated fair value of these derivatives are recorded in Other income (expense), net in the Consolidated Income Statement and were \$61,497 and \$19,916 for the three and nine months ended May 31, 2009, respectively.

The fair values of other derivative instruments are recorded in the Consolidated Balance Sheet as follows:

**May 31,
2009**

Other current assets	\$22,772
Other accrued liabilities	2,739

For additional information related to derivative financial instruments, see Note 5 (Accumulated Other Comprehensive (Loss) Income) and Note 10 (Fair Value Measurements) to these Consolidated Financial Statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)
(Unaudited)

10. FAIR VALUE MEASUREMENTS

SFAS 157 defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk, including the Company's own credit risk.

SFAS 157 establishes a three-level hierarchy of fair value measurements based on whether the inputs to those measurements are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. The fair-value hierarchy requires the use of observable market data when available and consists of the following levels:

Level 1 Quoted prices for identical instruments in active markets;

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets; and

Level 3 Valuations derived from valuation techniques in which one or more significant inputs are unobservable.

Short-term Investments and Investments

The Company's Short-term investments and Investments consist primarily of corporate notes. Fair values for corporate notes are based on prices obtained from independent third-party pricing services and are classified as Level 2. The third-party pricing services' fair values are model-derived valuations in which all significant inputs are observable in active markets. Inputs include recent sales, risk-free yield curves and prices of similarly rated bonds.

Derivative Financial Instruments

The Company's derivative financial instruments consist of deliverable and non-deliverable foreign currency forward exchange contracts. Fair values for derivative financial instruments are based on prices computed using third-party valuation models and are classified as Level 2. All of the significant inputs to the third-party valuation models are observable in active markets. Inputs include current market-based parameters such as forward rates, yield curves and credit default swap pricing.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The Company's financial assets and liabilities measured at fair value on a recurring basis as of May 31, 2009 are as follows:

	Level 1	Level 2	Level 3	Total
Assets				
Short-term investments	\$	\$ 9,459	\$	\$ 9,459
Investments		9,168		9,168
Derivative financial instruments		37,021		37,021
Total	\$	\$ 55,648	\$	\$ 55,648
Liabilities				
Derivative financial instruments	\$	\$ 22,657	\$	\$ 22,657

ACCENTURE LTD
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

11. COMMITMENTS AND CONTINGENCIES

Commitments and Guarantees

The Company has the right to purchase substantially all of the remaining outstanding shares of its Avanade Inc. subsidiary (Avanade) not owned by the Company at fair value if certain events occur. The Company may also be required to purchase substantially all of the remaining outstanding shares of Avanade at fair value if certain events occur.

Holders of Avanade common stock and options to purchase the stock have put rights that, under certain circumstances and conditions, require Avanade to redeem shares of its stock at fair value. Had the Company reflected the fair value of Avanade's redeemable common stock and the intrinsic value of the options on redeemable common stock (the Values) as of May 31, 2009 and August 31, 2008, the Company's Minority interest would have been \$703,282 and \$768,741, respectively. On September 1, 2009, upon adoption of SFAS 160 *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51*, the Company will be required to report any noncontrolling interests (previously referred to as minority interests) as a separate component of Consolidated Shareholders' Equity and record the Values within noncontrolling interests.

The Company has various agreements in which it may be obligated to indemnify other parties with respect to certain matters. Generally, these indemnification provisions are included in contracts arising in the normal course of business under which the Company customarily agrees to hold the indemnified party harmless against losses arising from a breach of representations related to such matters as title to assets sold, licensed or certain intellectual property rights and other matters. Payments by the Company under such indemnification clauses are generally conditioned on the other party making a claim. Such claims are typically subject to challenge by the Company and to dispute resolution procedures specified in the particular contract. Further, the Company's obligations under these agreements may be limited in terms of time and/or amount and, in some instances, the Company may have recourse against third parties for certain payments made by the Company. It is not possible to predict the maximum potential amount of future payments under these indemnification agreements due to the conditional nature of the Company's obligations and the unique facts of each particular agreement. Historically, the Company has not made any payments under these agreements that have been material individually or in the aggregate. As of May 31, 2009, management was not aware of any obligations arising under such indemnification contracts that would require material payments.

From time to time, the Company enters into contracts with clients whereby it has joint and several liability with other participants and/or third parties providing related services and products to clients. Under these arrangements, the Company and other parties may assume some responsibility to the client or a third party for the performance of others under the terms and conditions of the contract with or for the benefit of the client or in relation to the performance of certain contractual obligations. In some arrangements, the extent of the Company's obligations for the performance of others is not expressly specified. As of May 31, 2009, the Company estimates that it had assumed an aggregate potential liability of approximately \$1,416,000 to its clients for the performance of others under arrangements described in this paragraph. These contracts typically provide recourse provisions that would allow the Company to recover from the other parties all but approximately \$17,000 if the Company is obligated to make payments to the clients that are the consequence of a performance default by the other parties. The Company has assessed the current status of performance/payment risk related with certain contractual obligations and believes that any potential payments would be immaterial to the Consolidated Financial Statements, as a whole. To date, the Company has not been required to make any significant payments under any of the contracts described in this paragraph.

Legal Contingencies

As of May 31, 2009, the Company or its present personnel had been named as a defendant in various litigation matters. The Company and/or its personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of its business around the world. Based on the present status of these matters, management believes these matters will not ultimately have a material effect on the Company's

results of operations or financial condition.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended August 31, 2008, and with the information under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended August 31, 2008.

We use the terms Accenture, we, our Company, our and us in this report to refer to Accenture Ltd and its subsidiaries. All references to years, unless otherwise noted, refer to our fiscal year, which ends on August 31. For example, a reference to fiscal 2008 means the 12-month period that ended on August 31, 2008. All references to quarters, unless otherwise noted, refer to the quarters of our fiscal year.

Disclosure Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (the Exchange Act) relating to our operations, results of operations and other matters that are based on our current expectations, estimates, assumptions and projections. Words such as may, will, should, likely, anticipates, expects, intends, plans, projects, estimates and similar expressions are used to identify these forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Forward-looking statements are based upon assumptions as to future events that may not prove to be accurate. Actual outcomes and results may differ materially from what is expressed or forecast in these forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

Our results of operations could be adversely affected by economic and political conditions and the effects of these conditions on our clients' businesses and levels of business activity.

Our results of operations could be negatively affected if we cannot expand and develop our services and solutions in response to changes in technology and client demand.

The consulting, systems integration and technology, and outsourcing markets are highly competitive, and we might not be able to compete effectively.

Our work with government clients exposes us to additional risks inherent in the government contracting environment.

Our business could be adversely affected if our clients are not satisfied with our services.

We could be subject to liabilities if our subcontractors or the third parties with whom we partner cannot deliver their project contributions on time or at all.

Our results of operations could be adversely affected if our clients terminate their contracts with us on short notice.

Outsourcing services are a significant part of our business and subject us to operational and financial risk.

Our results of operations may be affected by the rate of growth in the use of technology in business and the type and level of technology spending by our clients.

Our profitability could suffer if we are not able to maintain favorable pricing rates.

Our profitability could suffer if we are not able to maintain favorable utilization rates.

Our business could be negatively affected if we incur legal liability in connection with providing our solutions and services.

If our pricing structures do not accurately anticipate the cost and complexity of performing our work, then our contracts could be unprofitable.

Many of our contracts utilize performance pricing that links some of our fees to the attainment of various performance or business targets. This could increase the variability of our revenues and margins.

Our alliance relationships may not be successful.

Our global operations are subject to complex risks, some of which might be beyond our control.

Our profitability could suffer if we are not able to control our costs.

If we are unable to attract, retain and motivate employees or efficiently utilize their skills, we might not be able to compete effectively and will not be able to grow our business.

If we are unable to collect our receivables or unbilled services, our results of operations and cash flows could be adversely affected.

Our services or solutions could infringe upon the intellectual property rights of others or we might lose our ability to utilize the intellectual property of others.

We have only a limited ability to protect our intellectual property rights, which are important to our success.

New tax legislation or interpretations could lead to an increase in our tax burden.

Negative publicity related to Bermuda companies could affect our relationships with our clients.

If we are unable to manage the organizational challenges associated with our size and expansion, we might be unable to achieve our business objectives.

We may not be successful at identifying, acquiring or integrating other businesses or technologies.

Consolidation in the industries that we serve could adversely affect our business.

Our ability to attract and retain business may depend on our reputation in the marketplace.

The share price of Accenture Ltd Class A common shares could be adversely affected from time to time by sales, or the anticipation of future sales, of Class A common shares held by our employees and former employees.

Our share price has fluctuated in the past and could continue to fluctuate, including in response to variability in revenues, operating results and profitability, and as a result our share price could be difficult to predict.

Our share price could be adversely affected if we are unable to maintain effective internal controls.

We are registered in Bermuda and a significant portion of our assets are located outside the United States. As a result, it might not be possible for shareholders to enforce civil liability provisions of the federal or state securities laws of the United States.

Bermuda law differs from the laws in effect in the United States and might afford less protection to shareholders.

We might be unable to access additional capital on favorable terms or at all. If we raise equity capital, it may dilute our shareholders' ownership interest in us.

For a more detailed discussion of these factors, see the information under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended August 31, 2008 and Item 1A, "Risk Factors" in this Form 10-Q. We undertake no obligation to update or revise any forward-looking statements.

Overview

Our results of operations are affected by economic conditions, including macroeconomic conditions, credit market conditions and levels of business confidence. Revenues are driven by the ability of our executives to secure new contracts and to deliver solutions and services that add value relevant to our clients' current needs and challenges. We add value to clients and drive revenues based on our ability to deliver market-leading service offerings and to deploy skilled teams of professionals quickly and on a global basis.

The current global economic downturn continues to be widespread and has led to economic contraction in many industries and geographies where we operate. It is also impacting the needs of our clients and the revenues in our consulting and outsourcing businesses. These changing demand patterns have had and will likely continue to have an adverse effect on our new contract bookings and revenues.

Revenues before reimbursements (net revenues) for the three months ended May 31, 2009 and 2008 were \$5.15 billion and \$6.10 billion, respectively, a decrease of 16% in U.S. dollars and 4% in local currency. Net revenues for the nine months ended May 31, 2009 and 2008 were \$16.43 billion and \$17.39 billion, respectively, a decrease of 6% in U.S. dollars and an increase of 3% in local currency.

In our consulting business, net revenues for the three months ended May 31, 2009 and 2008 were \$2.95 billion and \$3.70 billion, respectively, a decrease of 20% in U.S. dollars and 9% in local currency. Consulting net revenues for the nine months ended May 31, 2009 and 2008 were \$9.64 billion and \$10.51 billion, respectively, a decrease of 8% in U.S. dollars and flat in local currency. Since January 2009, the global economic downturn has led to lower current demand for new consulting services. Many clients are focused on initiatives designed to deliver near- and medium-term cost savings and performance improvement and we are focused on helping them to drive programs to support these objectives. Some clients are exercising caution and seeking flexibility in launching new large consulting commitments and instead shifting to a more phased approach to contracting work. Certain clients are slowing the pace of on-going projects and/or deferring decisions to expand scope beyond current commitments. In addition, we are experiencing pricing pressures from some clients and in response are shifting to lower cost resources at reduced price levels.

In our outsourcing business, net revenues for the three months ended May 31, 2009 and 2008 were \$2.19 billion and \$2.40 billion, respectively, a decrease of 9% in U.S. dollars and an increase of 3% in local currency. Outsourcing net revenues for the nine months ended May 31, 2009 and 2008 were \$6.79 billion and \$6.88 billion, respectively, a decrease of 1% in U.S. dollars and an increase of 7% in local currency. In response to client requests for price concessions and more favorable contract terms, we are shifting to lower cost resources at a reduced price level, while protecting and/or improving our gross margin. In addition, we are experiencing a lower volume of scope expansions on existing contracts. Client consolidations and strategy changes have also resulted in more contract terminations and restructuring, primarily in the financial services industry. Despite these factors, which are impacting new bookings and revenue growth, overall outsourcing new bookings continue to be solid, as clients seek to reduce operating costs and achieve sustained operational improvement.

As we are a global company, our revenues are denominated in multiple currencies and may be significantly affected by currency exchange-rate fluctuations. During the majority of fiscal 2008, the U.S. dollar weakened against many currencies, resulting in favorable currency translation and greater reported U.S. dollar revenues. However, beginning in the fourth quarter of fiscal 2008, the U.S. dollar began to strengthen against many currencies. This trend has continued during the first three quarters of fiscal 2009 and resulted in an unfavorable currency translation and U.S. dollar revenue growth that was approximately 12% and 9% lower than our growth in local currency for the three and nine months ended May 31, 2009, respectively. Assuming that exchange rates stay within recent ranges for the remainder of fiscal 2009, we estimate the foreign-exchange impact on our full fiscal 2009 revenue growth will be approximately 8% lower growth in U.S. dollars, compared with our growth in local currency. In the future, if the U.S. dollar weakens against other currencies, our revenue growth in U.S. dollars may be higher.

The primary categories of operating expenses include cost of services, sales and marketing and general and administrative costs. Cost of services is primarily driven by the cost of client-service personnel, which consists mainly of compensation, sub-contractor and other personnel costs, and non-payroll outsourcing costs. Cost of services as a percentage of revenues is driven by the prices we obtain for our solutions and services, the utilization of our

client-service personnel and the level of non-payroll costs associated with the growth of new outsourcing contracts. Utilization represents the percentage of our professionals' time spent on billable consulting work. Utilization for the third quarter of fiscal 2009 was approximately 83%, flat with the second quarter of fiscal 2009 and in the range we expect. Utilization for the third quarter of fiscal 2008 was approximately 85%. Sales and marketing expense is driven primarily by compensation costs for business-development activities, the development of new service offerings and client-targeting, image-development and brand-recognition activities. General and administrative costs primarily include costs for non-client-facing personnel, information systems and office space, which we seek to manage, as a percentage of revenues, at levels consistent with or

lower than levels in prior-year periods. Operating expenses also may include reorganization costs and benefits, which may vary substantially from year to year.

Gross margin (Net revenues less Cost of services before reimbursable expenses as a percentage of Net revenues) for the three months ended May 31, 2009 and 2008 was 32.5% and 31.5%, respectively. Gross margin for the nine months ended May 31, 2009 and 2008 was 31.5% and 30.4%, respectively. The increase for both periods was driven by improved overall outsourcing contract profitability.

Our cost-management strategies include anticipating changes in demand for our services and executing cost-management initiatives. Particularly in light of the current economic environment, we continue to monitor and manage our costs closely. We aggressively plan and manage our payroll costs and take actions as needed to address changes in the anticipated demand for our services, given that payroll costs are the most significant portion of our operating expenses.

We monitor our current and projected future demand and have reduced our headcount to approximately 177,000 as of May 31, 2009, compared with more than 186,000 as of August 31, 2008. Annualized attrition, excluding involuntary terminations, for the third quarter of fiscal 2009 was 8%, compared to 16% in the third quarter of fiscal 2008. In addition, we evaluate voluntary attrition and have used increased involuntary terminations and reduced levels of new hiring as means to keep our supply of skills and resources in balance with client demand. Our margins could be adversely affected if we are unable to manage headcount, attrition and severance costs, recover increases in compensation and/or effectively assimilate and utilize new employees.

Sales and marketing and general and administrative costs as a percentage of net revenues for the three months ended May 31, 2009 and 2008 were 18.2% and 17.3%, respectively. Sales and marketing and general and administrative costs as a percentage of net revenues for the nine months ended May 31, 2009 and 2008 were 18.0% and 17.5%, respectively. The increase as a percentage of net revenues for the nine months ended May 31, 2009 was primarily due to an increase in the bad debt provision of \$75 million, or 0.5% of net revenues, of which \$72 million was recorded during the three months ended November 30, 2008. This reflects our best estimate of collectibility risks on outstanding receivables, in light of the current global economic downturn, particularly from clients in high risk industries or with potential liquidity issues. The increase for the three months ended May 31, 2009 was due to higher selling costs as a percentage of net revenues and general and administrative costs declining at a rate lower than that of our net revenues. We continue to review our cost structure and capabilities to position the Company for the future.

Operating income for the three months ended May 31, 2009 and 2008 was \$732 million and \$862 million, respectively. Operating margin (Operating income as a percentage of Net revenues) for the three months ended May 31, 2009 and 2008 was 14.2% and 14.1%, respectively. Operating income for the nine months ended May 31, 2009 and 2008 was \$2,224 million and \$2,227 million, respectively. Operating margin for the nine months ended May 31, 2009 and 2008 was 13.5% and 12.8%, respectively.

Our Operating income and Earnings per share are also affected by currency exchange-rate fluctuations on revenues and costs. Due to the significant strengthening of the U.S. dollar against many other currencies, this impact was unfavorable during the nine months ended May 31, 2009. Most of our costs are incurred in the same currency as the related revenues. Where practical, we also seek to manage foreign currency exposure for costs not incurred in the same currency as the related net revenues, by using currency protection provisions in our customer contracts and through our hedging programs. We estimate that the aggregate percentage impact of foreign exchange rates on our operating expenses is similar to that disclosed for Net revenues. For more information on our hedging programs, see Note 9 (Derivative Financial Instruments) to our Consolidated Financial Statements under Item 1, Financial Statements.

Bookings and Backlog

New contract bookings for the three months ended May 31, 2009 were \$6.57 billion, with consulting bookings of \$3.21 billion and outsourcing bookings of \$3.36 billion. New contract bookings for the nine months ended May 31, 2009 were \$18.36 billion, with consulting bookings of \$9.91 billion and outsourcing bookings of \$8.45 billion. As a percentage of our outsourcing bookings, we have recorded an increase in new contract bookings that include contract extensions, which will primarily result in revenues beyond fiscal 2010.

We provide information regarding our new contract bookings because we believe doing so provides useful trend information regarding changes in the volume of our new business over time. However, new bookings can vary significantly quarter to quarter depending particularly on the timing of the signing of a small number of large outsourcing contracts. Current consulting bookings reflect a trend of shorter contracts with more focused scope. Information regarding our new bookings is not comparable to, nor should it be substituted for, an analysis of our revenues over time. There are no third-party standards or requirements governing the

calculation of bookings. New contract bookings involve estimates and judgments regarding new contracts as well as renewals, extensions and additions to existing contracts. Subsequent terminations, extensions and other matters may affect the amount of bookings previously reported. New contract bookings are recorded using then existing currency exchange rates and are not subsequently adjusted for currency fluctuations.

The majority of our contracts are terminable by the client on short notice or without notice. Accordingly, we do not believe it is appropriate to characterize bookings attributable to these contracts as backlog. Normally, if a client terminates a project, the client remains obligated to pay for commitments we have made to third parties in connection with the project, services performed and reimbursable expenses incurred by us through the date of termination.

Critical Accounting Policies and Estimates

For a description of our critical accounting policies and estimates, see our Annual Report on Form 10-K for the year ended August 31, 2008.

Revenues by Segment/Operating Group

Our five reportable operating segments are our operating groups, which are Communications & High Tech, Financial Services, Products, Public Service and Resources. Operating groups are managed on the basis of net revenues because our management believes net revenues are a better indicator of operating group performance than revenues. In addition to reporting net revenues by operating group, we also report net revenues by two types of work: consulting and outsourcing, which represent the services sold by our operating groups. Consulting net revenues, which include management and technology consulting and systems integration, reflect a finite, distinct project or set of projects with a defined outcome and typically a defined set of specific deliverables. Outsourcing net revenues typically reflect ongoing, repeatable services or capabilities provided to transition, run and/or manage operations of client systems or business functions.

From time to time, our operating groups work together to sell and implement certain contracts. The resulting revenues and costs from these contracts may be apportioned among the participating operating groups. Generally, operating expenses for each operating group have similar characteristics and are subject to the same factors, pressures and challenges. However, the economic environment and its effects on the industries served by our operating groups affect revenues and operating expenses within our operating groups to differing degrees. The mix between consulting and outsourcing is not uniform among our operating groups. Local currency fluctuations also tend to affect our operating groups differently, depending on the geographic concentrations and locations of their businesses.

While we provide discussion about our results of operations below, we cannot measure how much of our revenue growth in a particular period is attributable to changes in price or volume. Management does not track standard measures of unit or rate volume. Instead, our measures of volume and price are extremely complex, as each of our services contracts is unique, reflecting a customized mix of specific services that does not fit into standard comparability measurements. Pricing for our services is a function of the nature of each service to be provided, the skills required and outcome sought, as well as estimated cost, risk, contract terms and other factors.

Results of Operations for the Three Months Ended May 31, 2009 Compared to the Three Months Ended May 31, 2008

Net revenues (by operating group, geographic region and type of work) and reimbursements were as follows:

	Three Months Ended May 31, 2009		Percent Decrease US\$	Percent Increase (Decrease) Local Currency	Percent of Total Net Revenues for the Three Months Ended May 31, 2009

Net Revenues

Our business has been affected by the continuing global economic downturn, as many clients continue to delay new large consulting commitments, slow the pace of on-going projects and reduce requests for incremental projects. As a result, all of our operating groups experienced either a decline in or lower growth in consulting revenues in local currency, and most of our operating groups experienced lower growth in outsourcing revenues in local currency during the three months ended May 31, 2009, compared with the three months ended May 31, 2008.

The following net revenues by operating group commentary discusses local currency net revenues changes for the three months ended May 31, 2009 compared to the three months ended May 31, 2008:

Communications & High Tech net revenues decreased 5% in local currency. Consulting revenues declined 15% in local currency, primarily due to substantial declines across all industry groups in the Americas region and in Electronics & High Tech and Media & Entertainment in the EMEA region, while the Asia Pacific region was relatively flat in the quarter. Outsourcing revenues increased 7% in local currency, primarily driven by growth across all industry groups in the Americas and Asia Pacific regions and in Electronics & High Tech in the EMEA region. This growth was partially offset by an outsourcing decline in Communications in the EMEA region.

Financial Services net revenues decreased 9% in local currency. Consulting revenues declined 13% in local currency, primarily due to declines in Banking in the EMEA region and, to a lesser extent, in Insurance and Capital Markets in the Americas region. These declines were partially offset by consulting growth in Banking in the Americas region. Outsourcing revenues declined 2% in local currency, primarily due to declines in Capital Markets in the Americas region and in Insurance in the EMEA region. These declines were partially offset by outsourcing growth in Insurance in the Americas and Asia Pacific

regions. Client consolidations and strategy changes in the financial services industry have resulted in some outsourcing contract terminations, which have had a negative impact on our revenues.

Products net revenues decreased 8% in local currency. Consulting revenues declined 16% in local currency, primarily due to significant declines in the Americas region across all industry groups except Consumer Goods & Services and in the EMEA region across all industry groups except Retail. Outsourcing revenues increased 5% in local currency, primarily driven by growth in Consumer Goods & Services across all geographic regions and in Retail in the EMEA region, partially offset by a decline in Retail in the Americas region.

Public Service net revenues increased 8% in local currency. Consulting revenues increased 12% in local currency, primarily driven by growth in the Americas region, partially offset by a decline in the EMEA region. Outsourcing revenues increased 2% in local currency, primarily driven by growth in the EMEA region, partially offset by a decline in the Americas region.

Resources net revenues increased 1% in local currency. Consulting revenues decreased 1% in local currency, primarily due to declines in Utilities in the Americas region, in Chemicals, Energy and Natural Resources in the EMEA region and in Energy in the Asia Pacific region. These declines were largely offset by consulting growth in Utilities in the EMEA region, in Natural Resources and Utilities in the Asia Pacific region and in Energy in the Americas region. Outsourcing revenues increased 4% in local currency, driven by growth in Utilities in the EMEA region.

In the Americas region, we recorded net revenues of \$2,265 million for the three months ended May 31, 2009, compared with \$2,527 million for the three months ended May 31, 2008, a decrease of 10% in U.S. dollars and 6% in local currency. We experienced declines in local currency in the United States and Canada, partially offset by strong growth in Brazil.

In the EMEA region, we recorded net revenues of \$2,342 million for the three months ended May 31, 2009, compared with \$3,032 million for the three months ended May 31, 2008, a decrease of 23% in U.S. dollars and 5% in local currency. In general, we experienced declines in local currency across much of the EMEA region, particularly in the United Kingdom, Spain, Switzerland and Sweden. These declines were offset by strong growth in Germany and the Netherlands.

In the Asia Pacific region, we recorded net revenues of \$539 million for the three months ended May 31, 2009, compared with \$543 million for the three months ended May 31, 2008, a decrease of 1% in U.S. dollars and an increase of 10% in local currency. Growth in local currency was principally driven by our business in Singapore, Australia and Japan.

Operating Expenses

Operating expenses for the three months ended May 31, 2009 were \$4,805 million, a decrease of \$926 million, or 16%, from the three months ended May 31, 2008, and decreased as a percentage of revenues to 86.8% from 86.9% during this period. Operating expenses before reimbursable expenses for the three months ended May 31, 2009 were \$4,413 million, a decrease of \$827 million, or 16%, from the three months ended May 31, 2008, and decreased as a percentage of net revenues to 85.8% from 85.9% during this period.

Cost of Services

Cost of services for the three months ended May 31, 2009 was \$3,867 million, a decrease of \$804 million, or 17%, from the three months ended May 31, 2008, and decreased as a percentage of revenues to 69.8% from 70.8% during this period. Cost of services before reimbursable expenses for the three months ended May 31, 2009 was \$3,474 million, a decrease of \$705 million, or 17%, from the three months ended May 31, 2008, and decreased as a percentage of net revenues to 67.5% from 68.5% during this period. Gross margin for the three months ended May 31, 2009 increased to 32.5% from 31.5% over this period. The increase in gross margin was driven by improved outsourcing contract profitability.

Sales and Marketing

Sales and marketing expense for the three months ended May 31, 2009 was \$525 million, a decrease of \$81 million, or 13%, from the three months ended May 31, 2008, and increased as a percentage of net revenues to

10.2% from 9.9% over this period. This slight increase was primarily due to higher selling costs as a percentage of net revenues.

General and Administrative Costs

General and administrative costs for the three months ended May 31, 2009 were \$411 million, a decrease of \$40 million, or 9%, from the three months ended May 31, 2008, and increased as a percentage of net revenues to 8.0% from 7.4% over this period. This increase was primarily due to these costs declining at a rate lower than that of our net revenues.

Operating Income and Operating Margin

Operating income for the three months ended May 31, 2009 was \$732 million, a decrease of \$130 million, or 15%, from the three months ended May 31, 2008, and increased as percentage of net revenues to 14.2% from 14.1% over this period. Operating income and operating margin for each of the operating groups was as follows:

	Three Months Ended May 31,		2008		Increase (Decrease)
	2009	Operating Margin	Operating Income	Operating Margin	
			(in millions)		
Communications & High Tech	\$ 173	15%	\$ 161	12%	\$ 12
Financial Services	134	13	190	15	(56)
Products	189	14	253	16	(64)
Public Service	99	13	99	13	
Resources	137	15	159	15	(22)
Total	\$ 732	14.2%	\$ 862	14.1%	\$ (130)

While we have seen our net revenues contract, due to both the current global economic downturn and significant foreign-exchange rate fluctuations, we have improved our gross margins by focusing on contract profitability, particularly in our outsourcing business. This improvement was partially offset by higher selling costs as a percentage of net revenues and also general and administrative costs, which declined at a rate lower than that of our net revenues. During the three months ended May 31, 2009, we estimate that the aggregate percentage impact of foreign exchange rates on our operating income is similar to that disclosed for net revenues. The operating group commentary below provides additional insight into operating group performance and operating margin for the three months ended May 31, 2009, compared to the three months ended May 31, 2008, exclusive of foreign-exchange rate impact.

Communications & High Tech operating income increased due to improved outsourcing and consulting contract margins and lower year-over-year impacts related to delivery inefficiencies on a consulting contract, partially offset by consulting revenue declines.

Financial Services operating income decreased, primarily due to consulting and outsourcing revenue declines and a lower proportion of high-margin consulting work, partially offset by improved outsourcing and consulting contract margins.

Products operating income decreased due to consulting revenue declines and higher selling costs as a percentage of net revenues, partially offset by improved outsourcing contract margins.

Public Service operating income was flat compared with fiscal 2008 and there were no significant drivers impacting operating income, other than foreign-exchange impact.

Resources operating income was flat compared with fiscal 2008 as improved outsourcing contract margins were offset by higher selling costs as a percentage of net revenues.

Interest Income

Interest income for the three months ended May 31, 2009 was \$9 million, a decrease of \$15 million, or 64%, from the three months ended May 31, 2008. The decrease was primarily due to lower interest rates.

Other Income, net

Other income, net for the three months ended May 31, 2009 was \$11 million, an increase of \$14 million over the three months ended May 31, 2008. The increase was primarily driven by an increase in net foreign currency exchange gains.

Provision for Income Taxes

The effective tax rates for the three months ended May 31, 2009 and 2008 were 28.2% and 30.8%, respectively. The effective tax rate for the three months ended May 31, 2009 is lower than the effective tax rate for the three months ended May 31, 2008 primarily as a result of higher benefits related to final determinations of prior-year tax liabilities recorded during the third quarter of fiscal 2009.

Our provision for income taxes is based on many factors and subject to volatility year to year. We expect the fiscal 2009 annual effective tax rate to be in the range of 27% to 29%. The fiscal 2008 annual effective tax rate was 29.3%.

Minority Interest

Minority interest for the three months ended May 31, 2009 was \$93 million, a decrease of \$46 million, or 33%, from the three months ended May 31, 2008. The decrease was due to a reduction in the Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares average minority ownership interest to 17% for the three months ended May 31, 2009 from 22% for the three months ended May 31, 2008 and a decrease in Income before minority interest of \$71 million.

Earnings Per Share

Diluted earnings per share were \$0.68 for the three months ended May 31, 2009, compared with \$0.74 for the three months ended May 31, 2008. The \$0.06 decline in our earnings per share was driven by the following: Decreases of \$0.09 from unfavorable foreign currency exchange rates and \$0.02 from declines in revenues and operating income in local currency. These decreases were partially offset by \$0.03 from lower weighted average shares outstanding and \$0.02 from a lower effective tax rate, compared with the three months ended May 31, 2008. For information regarding our earnings per share calculations, see Note 2 (Earnings Per Share) to our Consolidated Financial Statements under Item 1, Financial Statements.

Results of Operations for the Nine Months Ended May 31, 2009 Compared to the Nine Months Ended May 31, 2008

Net revenues (by operating group, geographic region and type of work) and reimbursements were as follows:

	Nine Months Ended May 31, 2009 2008 (in millions)		Percent Increase (Decrease) US\$	Percent Increase (Decrease) Local Currency	Percent of Total Net Revenues for the Nine Months Ended May 31,

Net Revenues

Since January 2009, our business has been affected by the continuing global economic downturn, as many clients continue to delay new large consulting commitments, slow the pace of on-going projects and reduce requests for incremental projects. As a result, most of our operating groups experienced either a decline in or lower growth in consulting revenues in local currency and most of our operating groups experienced lower growth in outsourcing revenues in local currency during the nine months ended May 31, 2009, compared with the nine months ended May 31, 2008.

The following net revenues by operating group commentary discusses local currency net revenues changes for the nine months ended May 31, 2009 compared to the nine months ended May 31, 2008:

Communications & High Tech net revenues decreased 1% in local currency. Consulting revenues declined 6% in local currency due to declines across all industry groups in the Americas and EMEA regions. These declines were partially offset by consulting growth across all industry groups in the Asia Pacific region. Outsourcing revenues increased 6% in local currency, primarily driven by growth across all industry groups in the Asia Pacific region and in Electronics & High Tech and Media & Entertainment in the EMEA region.

Financial Services net revenues decreased 4% in local currency. Consulting revenues declined 10% in local currency, primarily due to declines in Banking in the EMEA region and, to a lesser extent, in Insurance and Capital Markets in the Americas region. These declines were partially offset by consulting growth in Banking in the Americas region and in Capital Markets in the EMEA region. Outsourcing revenues increased 6% in local currency, primarily driven by growth in Banking in the EMEA region and in Insurance in the Americas and Asia Pacific regions, partially offset by declines in Capital Markets in the Americas region. Client consolidations and strategy changes in the financial services industry have resulted in a number of

outsourcing contract terminations, which have had a negative impact on our revenues.

Products net revenues increased 2% in local currency. Consulting revenues declined 4% in local currency, primarily due to declines in Retail in the Americas and Asia Pacific regions and in the EMEA region in Consumer Goods & Services, Automotive and Transportation & Travel Services. These declines were partially offset by consulting growth in Consumer Goods & Services and Health & Life Sciences in the Americas and Asia Pacific regions and in Retail in the EMEA region. Outsourcing revenues increased 11% in local currency, primarily driven by growth in Consumer Goods & Services and Health & Life Sciences across all geographic regions and in Transportation & Travel Services in the EMEA region.

Public Service net revenues increased 10% in local currency. Consulting revenues increased 14% in local currency, primarily driven by growth in the Americas region. Outsourcing revenues increased 3% in local currency, primarily driven by growth in the EMEA region, partially offset by a decline in the Americas region.

Resources net revenues increased 11% in local currency. Consulting revenues increased 12% in local currency, primarily driven by growth in Utilities in the EMEA region, in Natural Resources across all geographic regions and in Energy and Chemicals in the Americas region, partially offset by a decline in Chemicals in the EMEA region. Outsourcing revenues increased 9% in local currency, primarily driven by growth in Utilities in the EMEA and Americas regions.

In the Americas region, we recorded net revenues of \$7,139 million for the nine months ended May 31, 2009, compared with \$7,169 million for the nine months ended May 31, 2008, flat in U.S. dollars and an increase of 3% in local currency. Growth in local currency was driven by strong growth in Brazil and a moderate increase in the United States, partially offset by a decline in Canada.

In the EMEA region, we recorded net revenues of \$7,629 million for the nine months ended May 31, 2009, compared with \$8,706 million for the nine months ended May 31, 2008, a decrease of 12% in U.S. dollars and flat in local currency. In general, growth moderated across the EMEA region, driven by declines in local currency in the United Kingdom, Switzerland, Ireland, Spain and Sweden. These declines were offset by strong growth in local currency in the Netherlands, Denmark, Norway and South Africa and solid growth in Germany.

In the Asia Pacific region, we recorded net revenues of \$1,662 million for the nine months ended May 31, 2009, compared with \$1,512 million for the nine months ended May 31, 2008, an increase of 10% in U.S. dollars and 15% in local currency. Growth in local currency was principally driven by our business in Australia, Japan and Singapore.

Operating Expenses

Operating expenses for the nine months ended May 31, 2009 were \$15,441 million, a decrease of \$1,085 million, or 7%, from the nine months ended May 31, 2008, and decreased as a percentage of revenues to 87.4% from 88.1% during this period. Operating expenses before reimbursable expenses for the nine months ended May 31, 2009 were \$14,207 million, a decrease of \$954 million, or 6%, from the nine months ended May 31, 2008, and decreased as a percentage of net revenues to 86.5% from 87.2% during this period.

Cost of Services

Cost of services for the nine months ended May 31, 2009 was \$12,485 million, a decrease of \$987 million, or 7%, from the nine months ended May 31, 2008, and decreased as a percentage of revenues to 70.7% from 71.8% during this period. Cost of services before reimbursable expenses for the nine months ended May 31, 2009 was \$11,250 million, a decrease of \$856 million, or 7%, from the nine months ended May 31, 2008, and decreased as a percentage of Net revenues to 68.5% from 69.6% during this period. Gross margin for the nine months ended May 31, 2009 increased to 31.5% from 30.4% over this period. The increase in gross margin was driven by improved overall contract profitability, particularly in outsourcing, including absorption of annual compensation increases that were effective September 1, 2008.

Sales and Marketing

Sales and marketing expense for the nine months ended May 31, 2009 was \$1,607 million, a decrease of \$58 million, or 3%, from the nine months ended May 31, 2008, and increased as a percentage of net revenues to 9.8% from 9.6% over this period.

General and Administrative Costs

General and administrative costs for the nine months ended May 31, 2009 were \$1,356 million, a decrease of \$15 million, or 1%, from the nine months ended May 31, 2008, and increased as a percentage of net revenues to 8.2% from 7.9% over this period. The increase as a percentage of net revenues was primarily due to an increase in the bad debt provision of \$75 million, or 0.5% of net revenues, reflecting our best estimate of collectibility risks on outstanding receivables, in light of the current global economic downturn.

Operating Income and Operating Margin

Operating income for the nine months ended May 31, 2009 was \$2,224 million, a decrease of \$2 million, or flat compared with the nine months ended May 31, 2008, and increased as percentage of net revenues to 13.5% from 12.8% over this period. Operating income and operating margin for each of the operating groups was as follows:

	Nine Months Ended May 31,				Increase (Decrease) (1)
	2009		2008		
	Operating Income	Operating Margin	Operating Income	Operating Margin	
	(in millions)				
Communications & High Tech	\$ 504	14%	\$ 474	12%	\$ 30
Financial Services	388	12	512	14	(124)
Products	594	14	634	14	(40)
Public Service	290	13	190	9	100
Resources	448	15	417	14	31
Total (1)	\$ 2,224	13.5%	\$ 2,227	12.8%	\$ (2)

(1) May not total due to rounding.

While we have seen our net revenues contract, due to both the current global economic downturn and significant foreign-exchange rate fluctuations, we have improved our gross margins by focusing on contract profitability, particularly in our outsourcing business. This improvement was partially offset by higher selling costs as a percentage of net revenues. In addition, each operating group recorded a portion of the \$75 million bad debt provision. See General and Administrative Costs. During the nine months ended May 31, 2009, we estimate that the aggregate percentage impact of foreign-exchange rates on our operating income is similar to that disclosed for net revenues. The operating group commentary below provides additional insight into operating group performance and operating margin for the nine months ended May 31, 2009, compared to the nine months ended May 31, 2008, exclusive of foreign-exchange rate and bad debt provision impacts.

Communications & High Tech operating income increased due to improved outsourcing contract margins. In addition, the nine months ended May 31, 2008 reflected the impact of delivery inefficiencies on a small number of consulting contracts.

Financial Services operating income decreased, primarily due to consulting revenue declines, a lower proportion of high-margin consulting work and higher selling costs as a percentage of net revenues, partially offset by improved outsourcing and consulting contract margins.

Edgar Filing: ACCENTURE LTD - Form 10-Q

Products operating income was flat compared to fiscal 2008, as consulting revenue declines were offset by improved outsourcing contract margins.

Public Service operating income increased due to resolution of a contract termination and improved delivery efficiencies compared with the nine months ended May 31, 2008 and consulting revenue growth.

Resources operating income increased due to strong revenue growth and improved outsourcing and consulting contract margins.

Interest Income

Interest income for the nine months ended May 31, 2009 was \$42 million, a decrease of \$44 million, or 51%, from the nine months ended May 31, 2008. The decrease was primarily due to lower interest rates.

Other Expense, net

Other expense, net for the nine months ended May 31, 2009 was \$2 million, an increase of \$2 million over the nine months ended May 31, 2008.

Provision for Income Taxes

The effective tax rates for the nine months ended May 31, 2009 and 2008 were 27.6% and 28.4%, respectively. The effective tax rate for the nine months ended May 31, 2009 is lower than the effective tax rate for the nine months ended May 31, 2008 primarily as a result of lower expenses related to tax rate changes and other adjustments to prior-year tax liabilities recorded in the nine months ended May 31, 2009 as compared with the nine months ended May 31, 2008.

Our provision for income taxes is based on many factors and subject to volatility year to year. We expect the fiscal 2009 annual effective tax rate to be in the range of 27% to 29%. The fiscal 2008 annual effective tax rate was 29.3%.

Minority Interest

Minority interest for the nine months ended May 31, 2009 was \$297 million, a decrease of \$93 million, or 24%, from the nine months ended May 31, 2008. The decrease was primarily due to a reduction in the Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares average minority ownership interest to 17% for the nine months ended May 31, 2009 from 23% for the nine months ended May 31, 2008.

Earnings Per Share

Diluted earnings per share were \$2.05 for the nine months ended May 31, 2009, compared with \$1.97 for the nine months ended May 31, 2008. The \$0.08 increase in our earnings per share was primarily the result of the following: Increases of \$0.15 from growth in revenues and operating income in local currency, \$0.10 from lower weighted average shares outstanding and \$0.02 from a lower effective tax rate. These increases were partially offset by \$0.16 from unfavorable foreign currency exchange rates, compared with the nine months ended May 31, 2008, and \$0.03 from other items, including reorganization benefits and non operating items. For information regarding our earnings per share calculations, see Note 2 (Earnings Per Share) to our Consolidated Financial Statements under Item 1, Financial Statements.

Liquidity and Capital Resources

Our primary sources of liquidity are cash flows from operations, debt capacity available under various credit facilities and available cash reserves. We may also be able to raise additional funds through public or private debt or equity financings in order to:

take advantage of opportunities, including more rapid expansion;

acquire other businesses or technologies;

develop new services and solutions;

respond to competitive pressures; or

facilitate purchases, redemptions and exchanges of Accenture shares.

As of May 31, 2009, cash and cash equivalents of \$4 billion combined with \$5 million of liquid fixed-income securities that are classified as investments on our Consolidated Balance Sheet totaled \$4 billion, compared with \$3.6 billion as of August 31, 2008, an increase of approximately \$400 million.

Cash flows from operating, investing and financing activities, as reflected in the Consolidated Cash Flows Statements, are summarized in the following table:

	Nine Months Ended May 31, 2009	2008 (in millions)	Change
Net cash provided by (used in):			
Operating activities (1)	\$ 2,113	\$ 1,773	\$ 341
Investing activities (1)	(150)	(198)	49
Financing activities (1)	(1,387)	(1,637)	250
Effect of exchange rate changes on cash and cash equivalents	(177)	75	(252)
Net increase in cash and cash equivalents (1)	\$ 400	\$ 12	\$ 388

(1) May not total due to rounding.

Operating Activities. The \$341 million increase in cash provided by operating activities was primarily due to higher net income, a decrease in net client balances (receivables from clients, current and non-current unbilled services and deferred revenues) compared with the same period in fiscal 2008 and other changes in operating assets and liabilities. Cash used in operating activities for the nine months ended May 31, 2008 also reflected a payment of \$143 million to settle tax audits related to reorganization liabilities.

Investing Activities. The \$49 million decrease in cash used was primarily due to a decrease in spending on business acquisitions and lower spending on property and equipment, partially offset by a decrease in net proceeds from maturities and sales of available-for-sale investments.

Financing Activities. The \$250 million decrease in cash used was primarily due to a decrease in net purchases of common shares, partially offset by an increase in cash dividends paid. For additional information, see Note 8 (Material Transactions Affecting Shareholders' Equity) to our Consolidated Financial Statements under Item 1, Financial Statements.

We believe that our available cash balances and the cash flows expected to be generated from operations will be sufficient to satisfy our current and planned working capital and investment needs for the next twelve months. We also believe that our longer-term working capital and other general corporate funding requirements will be satisfied

through cash flows from operations and, to the extent necessary, from our borrowing facilities and future financial market activities.

Borrowing Facilities

As of May 31, 2009, we had the following borrowing facilities and related borrowings, including the issuance of letters of credit, for general working capital purposes:

	Facility Amount	Borrowings Under Facilities
	(in millions)	
Syndicated loan facility	\$ 1,200	\$
Separate bilateral, uncommitted, unsecured multicurrency revolving credit facilities	350	
Local guaranteed and non-guaranteed lines of credit	162	
Total	\$ 1,712	\$

Under the borrowing facilities described above, we had an aggregate of \$166 million of letters of credit outstanding as of May 31, 2009. In addition, we had total outstanding debt of \$2 million as of May 31, 2009.

Share Purchases and Redemptions

The Board of Directors of Accenture Ltd has authorized funding for our publicly announced open-market share purchase program for acquiring Accenture Ltd Class A common shares and for purchases and redemptions of Accenture Ltd Class A common shares, Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares held by our current and former senior executives and their permitted transferees.

Our share purchase activity during the nine months ended May 31, 2009 was as follows:

	Accenture Ltd Class A		Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares		Total	
	Common Shares Shares	Amount	Shares	Amount	Shares	Amount
	(in millions, except share amounts)					
Open-Market Share Purchases (1)	18,128,004	\$ 544		\$	18,128,004	\$ 544
Other Share Purchase Programs			22,179,369	698	22,179,369	698
Other purchases (2)	2,471,116	88			2,471,116	88
Total	20,599,120	\$ 632	22,179,369	\$ 698	42,778,489	\$ 1,330

- (1) We conduct a publicly announced, open-market share purchase program for Accenture Ltd Class A

common shares. These shares are held as treasury shares by one or more subsidiaries of Accenture Ltd and may be utilized to provide for select employee benefits, such as equity awards to our employees.

- (2) During the nine months ended May 31, 2009, as authorized under our various employee equity share plans, we acquired Accenture Ltd Class A common shares primarily via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture Ltd Class A common shares under those plans.

As of May 31, 2009, our aggregate available authorization was \$1,260 million for our publicly announced open-market share purchase program and the other share purchase programs.

Other Share Redemptions

During the nine months ended May 31, 2009, we issued 1,125,645 Accenture Ltd Class A common shares upon redemptions of an equivalent number of Accenture SCA Class I common shares pursuant to our registration statement on Form S-3 (the registration statement) filed on May 15, 2007. The registration statement allows us, at our option, to issue freely tradable Accenture Ltd Class A common shares in lieu of cash upon redemptions of Accenture SCA Class I common shares held by our senior executives, former executives and their permitted transferees.

For a complete description of all share purchase and redemption activity for the third quarter of fiscal 2009, see Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds.

Waiver of Certain Transfer Restrictions

Accenture Ltd and Accenture SCA have enacted various waivers of certain transfer restrictions applicable to current and former senior executives (covered persons) who hold Accenture Ltd Class A common shares or Accenture SCA Class I common shares received at the time of the initial public offering of Accenture Ltd Class A common shares in July 2001 (covered shares). As a result, covered shares that would otherwise not have become available for transfer until July 24, 2009 have become transferable by the holders on an accelerated basis.

The following table shows the total number of covered shares held by active employees and their permitted transferees that are scheduled to be released from transfer restrictions during the fourth quarter of fiscal 2009. This table reflects all waivers granted to date and further assumes that any covered persons who are active employees as of May 31, 2009 remain actively employed through June 1, 2009.

Total number of Accenture Ltd Class A common shares, Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares that are scheduled to become available for transfer after giving effect to waivers (millions of shares)

Off-Balance Sheet Arrangements

We have various agreements by which we may be obligated to indemnify the other party with respect to certain matters. Generally, these indemnification provisions are included in contracts arising in the normal course of business under which we customarily agree to hold the indemnified party harmless against losses arising from a breach of representations related to such matters as title to assets sold, licensed or certain intellectual property rights and other

matters. Payments by us under such indemnification clauses are generally conditioned on the other party making a claim. Such claims are generally subject to challenge by us and dispute resolution procedures specified in the particular contract. Furthermore, our obligations under these arrangements may be limited in terms of time and/or amount and, in some instances, we may have recourse against third parties for certain payments made by us. It is not possible to predict the maximum potential amount of future payments under these indemnification agreements due to the conditional nature of our obligations and the unique facts of each particular agreement. Historically, we have not made any payments under these agreements that have been material individually or in the aggregate. As of May 31, 2009, we were not aware of any obligations under such indemnification agreements that would require material payments.

From time to time, we enter into contracts with clients whereby we have joint and several liability with other participants and/or third parties providing related services and products to clients. Under these arrangements, we and other parties may assume some responsibility to the client or a third party for the performance of others under the terms and conditions of the contract with or for the benefit of the client or in relation to the performance of certain contractual obligations. To date, we have not been required to make any significant payments under any of the contracts described in this paragraph. For further discussion of these transactions, see Note 11 (Commitments and Contingencies) to our Consolidated Financial Statements under Item 1, Financial Statements.

Recently Adopted Accounting Pronouncements

In March 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133* (SFAS 161). This Statement requires enhanced disclosures for derivative instruments and hedging activities about (i) how and why a company uses derivative instruments, (ii) how derivative instruments and related hedged items are accounted for under SFAS 133, *Accounting for Derivative Instruments and Hedging Activities* and its related interpretations, and (iii) how derivative instruments and related hedged items affect a company's financial position, financial performance and cash flows. On December 1, 2008, we adopted the provisions of SFAS 161 and it did not have a material impact on our Consolidated Financial Statements. For additional information, see Note 9 (Derivative Financial Instruments) to our Consolidated Financial Statements under Item 1, Financial Statements.

On September 1, 2008, we adopted the provisions of SFAS 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes a framework for measuring fair value under U.S. generally accepted accounting principles and expands disclosures about fair value measurements. In accordance with FASB Staff Position 157-2, *Effective Date of FASB Statement No. 157*, we elected to defer the adoption of the provisions of SFAS 157 for our non-financial assets and non-financial liabilities. Such assets and liabilities, which include our Deferred contract costs, Property and equipment, net and Goodwill, will be subject to the provisions of SFAS 157 on September 1, 2009. We are currently assessing the potential impact the adoption of SFAS 157 for non-financial assets may have on our Consolidated Financial Statements. For additional information, see Note 10 (Fair Value Measurements) to our Consolidated Financial Statements under Item 1, Financial Statements.

Effective September 1, 2008, we adopted the year-end measurement date provision of SFAS 158, *Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 106, and 132(R)*, using an approach generally known as the one measurement approach. The adoption of the provision had the following impact on our Consolidated Balance Sheet: decreased Retained earnings by \$5.3 million, decreased Accumulated other comprehensive (loss) income by \$0.3 million, decreased Other non-current assets by \$2.7 million and increased Retirement obligation by \$2.9 million.

New Accounting Pronouncements

In December 2007, the FASB issued SFAS 141 (revised 2007), *Business Combinations* (SFAS 141R), which is a revision of SFAS 141, *Business Combinations*. SFAS 141R establishes principles and requirements for: recognizing and measuring the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree; recognizing and measuring the goodwill acquired in the business combination or a gain from a bargain purchase; expensing acquisition related costs as incurred; and determining what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. We will adopt the provisions of SFAS 141R for acquisitions that occur on or after September 1, 2009. The impact of SFAS 141R on our Consolidated Financial Statements will depend on the size and nature of any acquisitions on or after September 1, 2009.

In December 2007, the FASB issued SFAS 160, *Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51* (SFAS 160). SFAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary (previously referred to as minority interests). Upon adoption of SFAS 160 on September 1, 2009, we will be required to report any noncontrolling interests as a separate component of Consolidated Shareholders' Equity.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

During the nine months ended May 31, 2009, there were no material changes in our market risk exposure. For a discussion of our market risk associated with foreign currency risk, interest rate risk and equity price risk as of August 31, 2008, see *Quantitative and Qualitative Disclosures about Market Risk* in Part II, Item 7A, of our Annual Report on Form 10-K for the year ended August 31, 2008.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, of the effectiveness of our disclosure controls and procedures

(as defined in Rule 13a-15(e))

under the Exchange Act) as of the end of the period covered by this report.

Based on that evaluation, the chief executive officer and the chief financial officer of Accenture Ltd have concluded that, as of the end of the period covered by this report, Accenture Ltd's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There has been no change in Accenture Ltd's internal control over financial reporting that occurred during the third quarter of fiscal 2009 that has materially affected, or is reasonably likely to materially affect, Accenture Ltd's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in a number of judicial and arbitration proceedings concerning matters arising in the ordinary course of our business. We and/or our personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of our business around the world. We do not expect that any of these matters, individually or in the aggregate, will have a material impact on our results of operations or financial condition.

As previously reported, in September 2007, the State of Connecticut filed an action in State Superior Court in Hartford against Accenture arising out of an alleged data security breach. The action arose in connection with work we undertook for the State of Connecticut's Office of the Comptroller (the Core-CT Project), during which Accenture properly came into the possession of confidential information, including personally identifiable information, concerning Connecticut citizens. The complaint alleges that some of the information was subsequently placed on a server maintained by the State of Ohio by Accenture employees who were transferred from the Core-CT Project to a similar project for the State of Ohio, and that a back-up tape from the Ohio server containing some of the information was stolen in June 2007 from an Ohio state employee. The State of Connecticut claims that Accenture breached its contract with the Connecticut Comptroller's office and also asserts negligence and the unauthorized taking of information by Accenture. The complaint seeks injunctive relief and damages, including restitution of some unspecified portion of the amount paid to Accenture pursuant to the Core-CT Project contract. During the investigation of this matter, it was discovered that confidential information belonging to several other Accenture clients appeared on the Ohio server, and Accenture has notified the affected clients. Although these events represent a breach of Accenture's internal policies on data security, we have no evidence that any individual has been harmed as a result. Accenture is committed to maintaining the security of its clients' data and has conducted an internal investigation to ensure the integrity of all confidential data, including personally identifiable information, in its possession. Accenture is continuing to take proactive remedial measures to reinforce adherence to its data protection policies. In addition to the Connecticut suit, it is possible that other affected parties could bring similar lawsuits or proceedings. We do not believe these matters will have a material impact on our results of operations or financial condition.

As previously reported, in April 2007, the U.S. Department of Justice (the DOJ) intervened in a civil qui tam action previously filed under seal by two private individuals in the U.S. District Court for the Eastern District of Arkansas against Accenture and several of its indirect subsidiaries. The complaint as amended alleges that, in connection with work we undertook for the U.S. federal government, we received payments, resale revenue or other benefits as a result of, or otherwise acted improperly in connection with, alliance agreements we maintain with technology vendors and others in violation of our contracts with the U.S. government and/or applicable law or regulations. Similar suits were brought against other companies in our industry. The suit alleges that these amounts and relationships were not disclosed to the government in violation of the Federal False Claims Act and the Anti-Kickback Act, among other statutes. The DOJ complaint seeks various remedies including treble damages, statutory penalties and disgorgement of profits. While the complaint does not allege damages with specificity, the amount sought by the DOJ will depend on the theories it pursues, and could be significant. The suit could lead to other related proceedings and actions by various agencies of the U.S. government, including potential suspension or debarment, or criminal, proceedings. The DOJ is currently conducting an additional investigation regarding certain of the alleged conduct and relationships at issue in the suit and we are cooperating with the DOJ in that investigation. We intend to defend such matters

vigorously and do not believe they will have a material impact on our results of operations or financial condition.

As previously reported in July 2003, we became aware of an incident of possible noncompliance with the Foreign Corrupt Practices Act and/or with Accenture's internal controls in connection with certain of our operations in the Middle East. In 2003, we voluntarily reported the incident to the appropriate authorities in the United States promptly after its discovery. Shortly thereafter, the

SEC advised us it would be undertaking an informal investigation of this incident, and the DOJ indicated it would also conduct a review. Since that time, there have been no further developments. We do not believe that this incident will have any material impact on our results of operations or financial condition.

We currently maintain the types and amounts of insurance customary in the industries and countries in which we operate, including coverage for professional liability, general liability and management liability. We consider our insurance coverage to be adequate both as to the risks and amounts for the businesses we conduct.

ITEM 1A. RISK FACTORS

For a discussion of our potential risks and uncertainties, see the information under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended August 31, 2008 and Item 1A, "Risk Factors" in our Form 10-Q for the quarterly period ended November 30, 2008. Other than as noted in our Form 10-Q for the quarterly period ended November 30, 2008, there have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the year ended August 31, 2008.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**Purchases and redemptions of Accenture Ltd Class A common shares and Class X common shares**

The following table provides information relating to our purchases of Accenture Ltd Class A common shares and redemptions of Accenture Ltd Class X common shares during the third quarter of fiscal 2009.

Period	Total Number of Shares Purchased	Average Price Paid per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares that May Yet Be Purchased Under Publicly Announced Plans or Programs (3) (in millions)
March 1, 2009 – March 31, 2009				
Class A common shares	226,397	\$ 27.79	200,000	\$ 1,529
Class X common shares	495,295	\$ 0.0000225		
April 1, 2009 – April 30, 2009				
Class A common shares	3,919,600	\$ 27.47	3,912,204	\$ 1,369
Class X common shares	1,614,317	\$ 0.0000225		
May 1, 2009 – May 31, 2009				
Class A common shares	176,274	\$ 29.62	3,600	\$ 1,260
Class X common shares	3,423,667	\$ 0.0000225		
Total				
Class A common shares (2)(4)	4,322,271	\$ 27.57	4,115,804	
Class X common shares (5)	5,533,279	\$ 0.0000225		

(1) Average price per share reflects the total cash outlay for the period, divided by the number of shares acquired, including those acquired by purchase and any acquired by means of employee share forfeiture.

(2) Since August 2001, the Board of Directors of

Accenture Ltd has authorized and periodically confirmed a publicly announced open-market share purchase program for acquiring Accenture Ltd Class A common shares. During the third quarter of fiscal 2009, we repurchased 4,115,804 Accenture Ltd Class A common shares under this program for an aggregate purchase price of \$113 million. The open-market purchase program does not have an expiration date.

- (3) As of May 31, 2009, our aggregate available authorization for share purchases and redemptions was \$1,260 million, which management has the discretion to use for either our publicly announced open-market share purchase program or the

other share purchase programs. To date, the Board of Directors of Accenture Ltd has authorized an aggregate of \$11.1 billion for purchases and redemptions of Accenture Ltd Class A common shares, Accenture SCA Class I common shares or Accenture Canada Holdings Inc. exchangeable shares.

- (4) During the third quarter of fiscal 2009, we acquired 206,467 Accenture Ltd Class A common shares in transactions unrelated to publicly announced share plans or programs. These transactions consisted of acquisitions of Accenture Ltd Class A common shares via share withholding for payroll tax obligations due from employees and former employees in connection with

the delivery of
Accenture Ltd
Class A
common shares
under our
various
employee equity
share plans, as
well as any
outstanding
shares forfeited
by employees or
former
employees
during the
quarter.

- (5) During the third
quarter of fiscal
2009, we
redeemed
5,533,279
Accenture Ltd
Class X
common shares
pursuant to our
bye-laws.
Accenture Ltd
Class X
common shares
are redeemable
at their par
value of
\$0.0000225 per
share.

Purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares

The following table provides additional information relating to our purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares during the third quarter of fiscal 2009. We believe that the following table and footnotes provide useful information regarding the share purchase and redemption activity of Accenture. Generally, purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares reduce shares outstanding for purposes of computing diluted earnings per share.

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under Publicly Announced Plans or Programs
<u>Accenture SCA</u>				
March 1, 2009 – March 31, 2009				
Class I common shares	110,422	\$ 27.69		
April 1, 2009 – April 30, 2009				
Class I common shares	1,813,970	\$ 28.16		
May 1, 2009 – May 31, 2009				
Class I common shares	3,657,215	\$ 29.67		
Total				
Class I common shares (3)	5,581,607	\$ 29.14		
<u>Accenture Canada Holdings Inc.</u>				
March 1, 2009 – March 31, 2009				
Exchangeable shares		\$		
April 1, 2009 – April 30, 2009				
Exchangeable shares	48,186	\$ 27.98		
May 1, 2009 – May 31, 2009				
Exchangeable shares	10,864	\$ 29.60		
Total				
Exchangeable shares (3)	59,050	\$ 28.28		

(1) During the third quarter of fiscal 2009, we acquired a total of 5,581,607 Accenture SCA Class I common shares and 59,050 Accenture

Canada Holdings Inc. exchangeable shares from current and former senior executives and their permitted transferees. This includes acquisitions by means of redemption or purchase, or employee share forfeiture, as applicable.

- (2) Average price per share reflects the total cash outlay for the period, divided by the number of shares acquired, including those acquired by purchase and any acquired by means of employee share forfeiture.
- (3) As of May 31, 2009, our aggregate available authorization for share purchases and redemptions was \$1,260 million, which management has the discretion to use for either our publicly announced open-market share purchase

program or the other share purchase programs. To date, the Board of Directors of Accenture Ltd has authorized an aggregate of \$11.1 billion for purchases and redemptions of Accenture Ltd Class A common shares, Accenture SCA Class I common shares or Accenture Canada Holdings Inc. exchangeable shares.

Purchases and redemptions of Accenture SCA Class II and Class III common shares

Transactions involving Accenture SCA Class II and Class III common shares consist exclusively of inter-company transactions undertaken to facilitate other corporate purposes. These inter-company transactions do not affect shares outstanding for purposes of computing earnings per share reflected in our Consolidated Financial Statements under Item 1, Financial Statements.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.
