PROSPECTUS SUPPLEMENT SUMMARY

The following summary is qualified in its entirety by the more detailed information included elsewhere or incorporated by reference into this prospectus supplement or the accompanying prospectus. Because this is a summary, it may not contain all of the information that is important to you. You should read the entire prospectus supplement and the accompanying prospectus, including the section entitled "Risk Factors" and the documents incorporated by reference herein, including our financial statements and the notes to those financial statements contained in such documents, before making an investment decision. When used in this prospectus supplement, the terms we, us, our, and KCS refer to Kansas City Southern and our consolidated subsidiaries, unless specified otherwise.

KANSAS CITY SOUTHERN

Kansas City Southern, or KCS, a Delaware corporation, is a holding company with domestic and international rail operations in North America that are strategically focused on the growing north/south freight corridor connecting key commercial and industrial markets in the central United States with major industrial cities in Mexico. We had approximately 6,400 employees on December 31, 2008. The Kansas City Southern Railway Company, or KCSR, which was founded in 1887, is a U.S. Class I railroad. KCSR serves a tenstate region in the midwest and southeast regions of the United States and has the shortest north/south rail route between Kansas City, Missouri and several key ports along the Gulf of Mexico in Alabama, Louisiana, Mississippi, and Texas.

We control and own all of the stock of Kansas City Southern de México, S.A de C.V., or KCSM. Through its 50-year Concession from the Mexican government, or the Concession, which will expire in 2047 unless extended, KCSM operates a key commercial corridor of the Mexican railroad system and has as its core route the most strategic portion of the shortest, most direct rail passageway between Mexico City and Laredo, Texas. KCSM serves most of Mexico's principal industrial cities and three of its major seaports. KCSM's rail lines provide exclusive rail access to the United States and Mexico border crossing at Nuevo Laredo, Mexico, the largest rail freight interchange point between the United States and Mexico. Under the Concession, KCSM has the right to control and operate the southern half of the rail bridge at Laredo, Texas, which spans the Rio Grande River between the United States and Mexico.

We control and own all of the stock of Mexrail, Inc., or Mexrail, which, in turn, wholly owns The Texas Mexican Railway Company, or Tex-Mex. Tex-Mex operates a 157-mile rail line extending from Laredo, Texas to the port city of Corpus Christi, Texas, which connects the operations of KCSR with KCSM. Tex-Mex connects with KCSM at the United States/Mexico border at Laredo, Texas, and connects to KCSR through trackage rights at Beaumont, Texas. Through our ownership of Mexrail, we own the northern half of the rail bridge at Laredo, Texas. Laredo is a principal international gateway through which more than half of all rail and truck traffic between the United States and Mexico crosses the border. We also control the southern half of this bridge through our ownership of KCSM.

Our rail network (consisting of KCSR, KCSM and Tex-Mex) comprises approximately 6,000 miles of main and branch lines extending from the midwest and southeast portions of the United States south into Mexico and connects with other Class I railroads, providing shippers with an effective alternative to other railroad routes and giving direct access to Mexico and the southeast and southwest United States through less congested interchange hubs. Panama Canal Railway Company, or PCRC, a joint venture company owned equally by us and Mi-Jack Products, Inc., or Mi-Jack, was awarded a concession from the Republic of Panama to reconstruct and operate the Panama Canal Railway, a 47-mile railroad located adjacent to the Panama Canal that provides international container shipping companies with a railway transportation option in lieu of the Panama Canal. The concession was awarded in 1998 for an initial term of 25 years with an automatic renewal for an additional 25 year term. The Panama Canal Railway is a north-south railroad traversing the Isthmus of Panama between the Atlantic and Pacific Oceans. PCRC's subsidiary, Panarail Tourism Company, or Panarail, operates and promotes commuter and tourist passenger service over the Panama Canal Railway.

RISK FACTORS

An investment in our common stock is subject to risk. Our business, financial condition, and results of operations could be materially adversely affected by any of these risks. The trading price of our common stock could decline due to these risks, and you may lose all or part of your investment. This prospectus supplement, the accompanying prospectus, and the documents incorporated by reference herein also contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks described below and elsewhere in this prospectus supplement, the accompanying prospectus, and the documents incorporated by reference herein.

*Before you decide to invest in our common stock, you should consider the risk factors below as well as the risk factors described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and any risk factors set forth in our other filings with the SEC pursuant to the Exchange Act before making an investment decision. Please refer to *Incorporation of Documents By Reference* in this prospectus supplement and *Where You Can Find More Information* in the accompanying prospectus for discussions of these other filings.*

Risks Relating to our Common Stock and the Offering

The price of our common stock is volatile, which may cause the value of your investment to decline.

The market price of our common stock has experienced, and may continue to experience, significant volatility. Between January 1, 2008 and July 30, 2009, the trading price of our common stock on the New York Stock Exchange has ranged from a low of \$12.25 per share to a high of \$55.90 per share. Numerous factors, including many over which we have no control, may have a significant impact on the market price of our common stock. These risks include those described in this **Risk Factors** section and in the documents incorporated herein by reference (as updated in our future SEC filings incorporated by reference in this prospectus supplement) as well as, among other things:

quarterly variations in operating results;

operating results that vary from the expectations of management, securities analysts, ratings agencies and investors;

changes in expectations as to future financial performance, including financial estimates by securities analysts, ratings agencies and investors;

developments generally affecting the railroad industry;

announcements by us or our competitors of significant contracts, acquisitions, joint marketing relationships, joint ventures or capital commitments;

the assertion or resolution of significant claims or proceedings against us;

our dividend policy and restrictions on the payment of dividends contained in our credit agreement;

future sales of our equity or equity-linked securities;

new laws or regulations or new interpretations of existing laws or regulations applicable to our business and operations;

changes in the competitive landscape for our industry;

the issuance of common stock in payment of dividends on preferred stock or upon conversion of preferred stock; and

general domestic and international economic conditions including the availability of short- and long-term financing.

In addition, the stock market in recent years and particularly since mid-2008 has experienced extreme price and trading volume fluctuations that often have been unrelated or disproportionate to the operating performance of individual companies. These broad market fluctuations may adversely affect the price of our common stock, regardless of our operating performance. Furthermore, stockholders may initiate securities class action lawsuits if the market price of our stock drops significantly, which may cause us to incur substantial costs and could divert the

S-4

time and attention of our management. As a result of these factors, among others, the value of your investment may decline, and you may be unable to resell your shares of our common stock at or above the offering price.

We may issue additional shares of common stock, preferred stock or securities convertible into equity securities and thereby materially and adversely affect the price of our common stock. Hedging activities may depress the trading price of our common stock.

Any future issuances of equity securities, including upon conversion of existing or future issuances of convertible securities, could dilute your interests and could substantially decrease the trading price of our common stock. We are not restricted from issuing additional common stock and have no obligation to consider your interests for any reason. We cannot predict the size or future issuances or sales of our common stock or the effect, if any, that such issuances or sales, including those made pursuant to the sales agreement, may have on the market price for our common stock. Further, market conditions could require us to accept less favorable terms for the issuance of our securities in the future. The issuance and sale of substantial amounts of common stock may materially and adversely affect the price of our common stock. We may issue equity securities in the future for a number of reasons, including financing our operations and business strategy, to adjust our ratio of debt to equity, to satisfy our obligations upon the exercise of outstanding stock options or for other reasons. As of June 30, 2009, there were:

9,187,958 shares of our common stock issued or reserved for issuance under our 1991 Amended and Restated Stock Option and Performance Award Plan, our 2008 Stock Option and Performance Award Plan and our Employee Stock Purchase Plan;

1,798,165 shares of common stock held by executive officers and directors outside those plans; and

6,999,826 shares of our common stock reserved for issuance upon conversion of the outstanding shares of our convertible preferred stock.

In addition, if our board of directors decides to issue preferred stock in the future that has a preference over our common stock with respect to the payment of dividends or upon our liquidation, dissolution or winding up, or if we issue preferred stock with voting rights that dilute the voting power of our common stock, the market price of our common stock could decrease.

Resales of our common stock in the public market following the offering may cause its market price to fall.

We are issuing 1,125,308 shares of our common stock in connection with this offering. The issuance of these new shares could have the effect of depressing the market price for shares of our common stock.

We may invest or spend the proceeds in this offering in ways with which you may not agree and in ways that may not earn a profit.

We intend to use the net proceeds from this offering for general corporate purposes. We will retain broad discretion over the use of the proceeds from this offering. You may not agree with the ways we decide to use these proceeds, and our use of the proceeds may not yield any profits.

USE OF PROCEEDS

We currently intend to use the net proceeds from the sale of the common stock offered hereby for general corporate purposes, which may include the repayment of indebtedness, financing of capital expenditures or funding of potential acquisitions or other business transactions.

As we announced previously, on April 27, 2009 we entered into an ATM Equity Offering(SM) Sales Agreement with Bank of America Merrill Lynch, Pierce, Fenner & Smith, Incorporated pursuant to which they have acted as the our sales agent with respect to an offering and sale, at any time and from time to time of our common stock. Through July 31, 2009, we have sold an aggregate of 3,204,900 shares and received net proceeds of \$51,442,603 pursuant to that agreement. We expect to receive net proceeds of approximately \$22,471,160 from the sale of shares in this offering, after deducting our estimated offering expenses. We currently intend to use the net proceeds from those sales for general corporate purposes.

Our management will retain broad discretion over the use of proceeds, and we may ultimately use the proceeds for different purposes than what we currently intend. Pending any ultimate use of any portion of the proceeds from this offering, we intend to invest the net proceeds in short-term, interest-bearing instruments such as U.S. government securities and municipal bonds.

DESCRIPTION OF KCS COMMON STOCK

The description of our common stock set forth below is not complete and is qualified by reference to our restated certificate of incorporation and bylaws. Copies of our restated certificate of incorporation and bylaws are available from us upon request and have also been filed with the SEC. See [Additional Information](#) and [Incorporation of Documents by Reference](#).

Authorized Capital Stock

Under our restated certificate of incorporation, we are authorized to issue (i) 400,000,000 shares of common stock, par value \$0.01 per share, (ii) 840,000 shares of 4% Noncumulative, Preferred Stock, par value \$25.00 per share (4% Preferred Stock), and (iii) 2,000,000 shares of New Series Preferred Stock, par value \$1.00 per share (New Series Preferred Stock), of which 150,000 shares are designated as New Series Preferred Stock, Series A (Series A Preferred Stock), 1,000,000 shares are designated as Series B Convertible Preferred Stock (Series B Preferred Stock), 400,000 shares are designated as 4.25% Redeemable Cumulative Convertible Perpetual Preferred Stock, Series C (Series C Preferred Stock) and 210,000 shares are designated as ~~4~~5% Cumulative Convertible Perpetual Preferred Stock, Series D (Series D Preferred Stock). As of June 30, 2009, 94,873,978 shares of common stock were issued and outstanding, 242,170 shares of 4% Preferred Stock were issued and outstanding, 209,995 shares of Series D Preferred Stock were issued and outstanding and no other shares of New Series Preferred Stock were outstanding. The issued and outstanding shares of common stock, 4% Preferred Stock, and Series D Preferred Stock are duly authorized, validly issued, fully paid and non-assessable. Our common stock and 4% Preferred Stock are listed on the NYSE.

Common Stock

Holders of common stock are entitled to receive dividends when, as and if declared by our board of directors out of funds legally available for the payment of dividends, provided that, if any shares of New Series Preferred Stock or 4% Preferred Stock are outstanding, no dividends or other distributions may be made with respect to the common stock unless full required dividends on the shares of New Series Preferred Stock and 4% Preferred Stock have been paid, including accumulated dividends in the case of any series of New Series Preferred Stock designated to receive cumulative dividends.

We have not declared any cash dividends on our common stock during the last five fiscal years and do not anticipate making any cash dividend payments to common stockholders in the foreseeable future. The agreements governing our term loan, revolving credit facility and debt securities impose restrictions on our ability to pay cash dividends on our common stock.

Holders of common stock are entitled to one vote per share multiplied by the number of directors to be elected in an election of directors, which may be cast cumulatively, and to one vote per share on any other matter, voting as a single class. In the event of the voluntary or involuntary dissolution, liquidation or winding up of KCS, holders of common stock are entitled to receive pro rata, after satisfaction in full of the prior rights of creditors (including holders of our indebtedness) and holders of New Series Preferred Stock and 4% Preferred Stock, all our remaining assets available for distribution. The issuance of additional shares of New Series Preferred Stock or 4% Preferred Stock may result in a dilution in the voting power and relative equity interests of the holders of common stock and would subject the common stock to the prior dividend and liquidation rights of the additional New Series Preferred Stock and 4% Preferred Stock issued. The issuance of common stock in payment of dividends on or upon conversion of Series D Preferred Stock could also result in dilution in the voting power and relative equity interests of the holders of our common stock. The common stock is not redeemable and has no preemptive rights.

PRICE RANGE OF COMMON STOCK AND DIVIDENDS

Our common stock is traded on the New York Stock Exchange, or NYSE, under the symbol KSU. As of June 30, 2009, we had approximately 94,873,978 shares of common stock outstanding and 4,707 holders of record of our common stock (including 113 holders of record of our 4% noncumulative preferred stock entitled to vote).

DIVIDEND POLICY

Common Stock. We have not declared any cash dividends or made any other distribution on our common stock during the last five fiscal years and we do not anticipate making any cash dividend payments to our common stockholders in the foreseeable future. Pursuant to our credit agreement, we are prohibited from the payment of cash dividends on our common stock; we may, however, pay dividends payable in shares of our common stock.

Preferred Stock. We are restricted from paying cash dividends on our Series D Preferred Stock when our coverage ratio (as defined in the indentures for KCSR's 8.0% Senior Notes and 13.0% Senior Notes) is less than 2.0:1; we may, however, pay dividends payable in shares of our common stock. It is our intention to pay timely cash dividends on all preferred stock in either cash or stock when dividend payments are not restricted under the covenants of our various debt agreements and we have adequate levels of liquidity. In the event that dividends on our Series D Preferred Stock are in arrears for six consecutive quarters (or an equivalent number of days in the aggregate, whether or not consecutive), holders of our Series D Preferred Stock, as applicable, will be entitled to elect two of the authorized number of directors at the next annual stockholders' meeting, and at each subsequent stockholders' meeting until such time as all accumulated dividends are paid on the Series D Preferred Stock, as applicable, or set aside for payment.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of certain U.S. federal income tax considerations relating to the purchase, ownership and disposition of our common stock. This summary addresses only the U.S. federal income tax considerations of holders of our common stock who are initial purchasers of our common stock and that will hold the common stock as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the "Code").

This description does not address tax considerations applicable to holders that may be subject to certain special U.S. federal income tax rules, such as:

financial institutions,

banks,

insurance companies,

real estate investment trusts,

regulated investment companies,

partnerships,

grantor trusts,

dealers or traders in securities or currencies or notional principal contracts,

tax-exempt entities,

certain former citizens or long-term residents of the United States,

persons that received shares as compensation for the performance of services or pursuant to the exercise of options or warrants,

persons who use or are required to use mark-to-market accounting,

persons that will hold shares as part of a hedging or conversion transaction or as a position in a straddle or as part of a synthetic security or other integrated transaction for U.S. federal income tax purposes, or

U.S. Holders (as defined below) that have a functional currency other than the U.S. dollar.

This summary is not intended to constitute a complete analysis of all U.S. federal income tax consequences relating to the purchase, ownership and disposition of our common stock. Moreover, this summary does not address the U.S. federal estate and gift or alternative minimum tax consequences, or any U.S. state, local or foreign tax consequences, of the purchase, ownership and disposition of our common stock.

This summary is based upon the Code, proposed, temporary and final Treasury Regulations promulgated under the Code, and judicial and administrative interpretations of the Code and Treasury Regulations, in each case as in effect as of the date of this prospectus supplement. The Code, Treasury Regulations and judicial and administrative interpretations thereof may change at any time, and any change could be retroactive to the date of this prospectus supplement. The Code, Treasury Regulations and judicial and administrative interpretations thereof are also subject to various interpretations, and there can be no guarantee that the Internal Revenue Service (the "IRS") or U.S. courts will agree with the tax consequences described in this summary.

EACH PROSPECTIVE PURCHASER OF OUR COMMON STOCK IS URGED TO CONSULT ITS TAX ADVISOR REGARDING ITS SPECIFIC U.S. FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES RELATING TO THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

U.S. HOLDERS

For purposes of this summary, a U.S. Holder is a beneficial owner of our common stock that, for U.S. federal income tax purposes, is:

a citizen or individual resident of the United States;

corporation, or other entity treated as a corporation for U.S. federal income tax purposes, created

S-9

or organized in or under the laws of the United States or any state thereof (or the District of Columbia);

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if such trust was in existence on August 20, 1996 and validly elected to be treated as a United States person for U.S. federal income tax purposes or if (1) a court within the United States is able to exercise primary supervision over its administration and (2) one or more United States persons have the authority to control all of the substantial decisions of such trust.

If a partnership (or any other entity treated as a partnership for U.S. federal income tax purposes) holds our common stock, the tax treatment of a partner in such partnership will generally depend on the status of the partner and the activities of the partnership. Such a partner should consult its own tax advisors as to the U.S. tax consequences of being a partner in a partnership that acquires, holds, or disposes of our common stock.

Distributions on Common Stock

General Taxation of Distributions

We currently do not make distributions with respect to our common stock and do not anticipate making distributions in the foreseeable future. However, a U.S. Holder that receives a distribution with respect to our common stock, including a constructive distribution, of cash or property, generally will be required to include the amount of such distribution in gross income as a dividend to the extent of our current or accumulated earnings and profits, as computed for U.S. federal income tax purposes. To the extent that a distribution exceeds our current and accumulated earnings and profits, such distribution will be treated first as a tax-free return of capital to the extent of a U.S. Holder's tax basis in our common stock and thereafter as gain from the sale or exchange of common stock. (See *Sale or Exchange of Common Stock* below). Dividends received on common stock generally will be eligible for the dividends received deduction if the U.S. Holder receiving such dividend is a U.S. corporation.

Reduced Tax Rates for Certain Dividends

For taxable years beginning before January 1, 2011, a dividend paid by us generally will be eligible to be taxed at the preferential tax rates applicable to long-term capital gains if the U.S. Holder receiving such dividend is an individual, estate, or trust.

Sale or Exchange of Common Stock

A U.S. Holder will recognize gain or loss on the sale or other taxable disposition of our common stock in an amount equal to the difference, if any, between the amount realized on such sale or exchange and the U.S. Holder's adjusted tax basis in our common stock. Any such gain or loss generally will be capital gain or loss, which will be long-term capital gain or loss if the common stock is held for more than one year. Preferential tax rates apply to long-term capital gains of a U.S. Holder that is an individual, estate, or trust. Deductions for capital losses are subject to significant limitations under the Code.

Backup Withholding Tax and Information Reporting Requirements

Unless a holder of our common stock is a corporation or other exempt recipient, payments to certain holders of our common stock of dividends or the proceeds of the sale or other disposition of our common stock that are made within the United States or through certain United States-related financial intermediaries may be subject to information reporting. Such payments may also be subject to U.S. federal backup withholding tax at the rate of twenty-eight percent (28%) (subject to periodic adjustment) if the holder of our common stock fails to supply a correct taxpayer identification number or otherwise fails to comply with applicable U.S. information reporting or certification requirements. Any amount withheld from a payment to a holder of our common stock under the backup withholding rules is allowable as a credit against such holder's U.S. federal income tax and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS.

NON-U.S. HOLDERS

The following is a general discussion of certain U.S. federal income and estate tax consequences of the purchase, ownership, and disposition of common stock by a Non-U.S. Holder (as defined below) that holds the common stock as a capital asset. This discussion is based upon the Code, effective U.S. Treasury regulations, and judicial decisions and administrative interpretations thereof, all as of the date hereof and all of which are subject to change, possibly with retroactive effect. The foregoing are subject to differing interpretations which could affect the tax consequences described herein. This discussion does not address all aspects of U.S. federal income and estate taxation that may be applicable to investors in light of their particular circumstances, or to investors subject to special treatment under U.S. federal income tax laws, such as financial institutions, regulated investments companies, real estate investment trusts, insurance companies, tax-exempt organizations, entities that are treated as partnerships for U.S. federal income tax purposes, dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, expatriates, persons deemed to sell common stock under the constructive sale provisions of the Code, and persons that hold common stock as part of a straddle, hedge, conversion transaction, or other integrated investment. Furthermore, this discussion does not address any U.S. federal gift tax laws or any state, local, or foreign tax laws.

For purposes of this summary, you are a Non-U.S. Holder if you are a beneficial owner of common stock that, for U.S. federal income tax purposes, is:

an individual that is not a citizen or resident of the United States;

a corporation or other entity treated as a corporation for U.S. federal income tax purposes that is not created or organized under the laws of the United States, any state thereof, or the District of Columbia;

an estate the income of which is not subject to U.S. federal income taxation regardless of its source; or

a trust if (1) no court within the United States is able to exercise primary supervision over its administration or no United States persons (as defined in the Code) have the authority to control all substantial decisions of that trust, and (2) the trust has not made an election under the applicable U.S. Treasury regulations to be treated as a United States person.

If a partnership (including any entity or arrangement treated as a partnership for U.S. federal income tax purposes) owns common stock, the U.S. federal income tax treatment of a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership. Partners in a partnership that owns common stock should consult their tax advisors as to the particular U.S. federal income tax consequences applicable to them.

The following discussion applies only to Non-U.S. Holders. Special rules may apply to a Non-U.S. Holder that is a controlled foreign corporation or a passive foreign investment company or is otherwise subject to special treatment under the Code. Any such holders should consult their own tax advisors to determine the U.S. federal, state, local, and foreign tax consequences that may be relevant to them.

Distributions on Common Stock

We currently do not make distributions with respect to our common stock and do not anticipate making any distributions on our common stock in the foreseeable future. Should our intentions change, however, except as described below, if you are a Non-U.S. Holder of common stock, dividends paid to you will be subject to withholding of U.S. federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, we and other payors will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to you, unless you have furnished to us or another payor:

a valid Internal Revenue Service Form W-8BEN upon which you certify, under penalties of perjury, your status as (or, in the case of a Non-U.S. Holder that is an estate or trust, such forms certifying the status of each beneficiary of the estate or trust as) a non-United States person and your entitlement to the lower treaty rate with respect to such payments; or

in the case of payments made outside the United States to an offshore account (generally, an account maintained by you at an office or branch of a bank or other financial institution at any location outside the United States), other documentary evidence establishing your entitlement to the lower treaty rate in accordance with U.S. Treasury regulations.

If you are eligible for a reduced rate of U.S. withholding tax under a tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by filing a refund claim with the Internal Revenue Service.

If dividends paid to you are effectively connected with your conduct of a trade or business within the United States, and, if required by a tax treaty, the dividends are attributable to a permanent establishment that you maintain in the United States, we and other payors generally are not required to withhold tax from the dividends, provided that you have furnished to us or another payor a valid Internal Revenue Service Form W-8ECI or an acceptable substitute form upon which you certify, under penalties of perjury, that you are a non-United States person, and the dividends are effectively connected with your conduct of a trade or business within the United States or attributable to a permanent establishment in the United States and are includible in your gross income. Such dividends, however, will be taxed at rates applicable to U.S. citizens, resident aliens, and domestic U.S. corporations on a net income basis. If you are a corporate Non-U.S. Holder, such dividends, under certain circumstances, may also be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Sale or Exchange of Common Stock

If you are a Non-U.S. Holder, you generally will not be subject to U.S. federal income tax on any gain that you recognize on a sale or exchange of common stock unless:

the gain is effectively connected with your conduct of a trade or business in the United States, and the gain is attributable to a permanent establishment that you maintain in the United States, if that is required by an applicable income tax treaty as a condition for subjecting you to U.S. taxation on a net income basis;

you are an individual, you hold the common stock as a capital asset, you are present in the United States for 183 or more days in the taxable year of the disposition, and certain other conditions exist; or

we are or have been a United States real property holding corporation for U.S. federal income tax purposes.

U.S. gains described in the first bullet point are taxed at rates applicable to U.S. citizens, resident aliens, and domestic U.S. corporations on a net income tax basis. If you are a corporate Non-U.S. Holder, such gains, under certain circumstances, may also be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. A Non-U.S. Holder described in the second bullet point above will be subject to a flat 30% tax on the gain derived from the disposition, which gain may be offset by U.S.-source capital loss.

We believe we are not, and we do not anticipate becoming, a United States real property holding corporation for U.S. federal income tax purposes.

Information Reporting and Backup Withholding

Except as described below, a Non-U.S. Holder generally will be exempt from backup withholding and information reporting requirements with respect to dividend payments and the payment of the proceeds from the sale of common stock effected at a United States office of a broker, as long as the payor or broker does not have actual

knowledge or reason to know that you are a United States person and you have furnished to the payor or broker:
a valid Internal Revenue Service Form W-8BEN upon which you certify, under penalties of perjury, that you are (or, in the case of a Non-U.S. Holder that is an estate, or a trust, Form W-8IMY (if applicable), together with any other relevant documents, certifying that the Non-U.S. Holder and each beneficiary of the estate or trust is) a non-United States person; or

other documentation upon which it may rely to treat the payments as made to a non-United States person in accordance with U.S. Treasury regulations.

However, we must report annually to the Internal Revenue Service and to each Non-U.S. Holder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the Non-U.S. Holder resides under the provisions of an applicable income tax treaty.

Payment of the proceeds from the sale of common stock effected at a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, a sale of common stock that is effected at a foreign office of a broker will be subject to information reporting and backup withholding if:

the proceeds are transferred to an account maintained by you in the United States;

the payment of proceeds or the confirmation of the sale is mailed to you at a United States address; or

the sale has some other specified connection with the United States as provided in U.S. Treasury regulations, unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above are met or you otherwise establish an exemption.

In addition, a sale of common stock will be subject to information reporting if it is effected at a foreign office of a broker that is:

a United States person;

a controlled foreign corporation for U.S. federal income tax purposes;

a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period; or

a foreign partnership, if at any time during its tax year (a) one or more of its partners are U.S. persons, as defined in U.S. Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership, or (b) such foreign partnership is engaged in the conduct of a United States trade or business,

unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above are met or you otherwise establish an exemption. Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

You generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed your income tax liability by filing a refund claim with the IRS.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (SEC) utilizing a shelf registration process or continuous offering process. Under this shelf registration process, the Company may, from time to time, sell the securities described in this prospectus in one or more offerings. This prospectus provides you with a general description of the securities which may be offered by the Company. Each time the Company sells securities, we will provide you with this prospectus and, in certain cases a prospectus supplement containing specific information about the terms of the securities being offered. That prospectus supplement may include additional risk factors or other special considerations applicable to those securities. Any prospectus supplement may also add, update, or change information in this prospectus. If there is any inconsistency between the information in this prospectus and any prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under Where You Can Find More Information.

Unless we have indicated otherwise, references in this prospectus to KCS mean Kansas City Southern and references to the Company, we, us, our, and similar terms refer to KCS and our consolidated subsidiaries.

RISK FACTORS

An investment in our securities involves certain risks. Before investing in our common stock, preferred stock, debt securities or other securities, you should carefully consider the risk factors described in Risk Factors in our periodic reports filed with the SEC, including, but not limited to, our Annual Report on Form 10-K for the year ended December 31, 2007, filed on February 15, 2008, and subsequent periodic reports or supplements to this prospectus containing updated disclosures of such factors, together with all of the other information included in this prospectus, any prospectus supplement, other offering materials and the other information that we have incorporated by reference. Any of these risks, as well as other risks and uncertainties, could harm our business and financial results and cause the value of our securities to decline, which in turn could cause you to lose all or a part of your investment. These risks are not the only ones facing our company. Additional risks not currently known to us or that we currently deem immaterial also may impair our business.

USE OF PROCEEDS

We will describe the use of proceeds from the sale of our securities in the prospectus supplement related to the sale of those securities.

RATIOS OF EARNINGS TO FIXED CHARGES

	Year Ended December 31,					Nine Months Ended	
	2007	2006	2005	2004	2003	September 30, 2008	September 30, 2007
Ratio of earnings to fixed charges(1)	2.1x	1.7x	1.5x	2.0x	0.8x	2.5x	1.9x
Ratio of earnings to combined fixed charges and preference dividends(2)	1.8x	1.5x	1.4x	1.6x	0.8x	2.3x	1.6x

- (1) For the purpose of computing the ratio of earnings to fixed charges, earnings include pre-tax income before minority interest and equity in earnings of

unconsolidated affiliates, fixed charges and distributed income of equity investments. Fixed charges include interest expense on indebtedness and the portion of rent that represents a reasonable approximation of the interest factor. For the year ended December 31, 2003, the ratio of earnings to fixed charges was less than 1:1. This ratio would have been 1:1 if a deficiency of \$10.5 million was eliminated.

- (2) For the purpose of computing the ratio of earnings to combined fixed charges and preference dividends, earnings is divided by the sum of fixed charges and preference dividends. For the year ended December 31, 2003, the ratio of earnings to combined fixed charges and preference dividends was less than 1:1. This ratio would have been 1:1 if a deficiency of \$18.2 million was eliminated.

PLAN OF DISTRIBUTION

Subject to the restrictions described in this prospectus and any prospectus supplement, the Company may offer and sell or exchange the securities described in this prospectus from time to time in any of the following ways:

The securities may be sold through a broker or brokers, acting as principals or agents. Agents designated by the Company from time to time may solicit offers to purchase the securities. The prospectus supplement will name any such agent who may be deemed to be an underwriter, as that term is defined in the Securities Act of 1933, as amended (the "1933 Act"), involved in the offer or sale of the securities in respect of which this prospectus is delivered. Transactions through broker-dealers may include block trades in which brokers or dealers will attempt to sell the securities as agent but may position and resell the block as principal to facilitate the transaction. The securities may be sold through dealers or agents or to dealers acting as market makers. Broker-dealers may receive compensation in the form of discounts, concessions, or commissions from us or the Company and/or the purchasers of the securities for whom such broker-dealers may act as agents or to whom they sell as principal, or both (which compensation as to a particular broker-dealer might be in excess of customary commissions).

The securities may be sold on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale, in the over-the-counter market, or in transactions otherwise than on such exchanges or services or in the over-the-counter market.

The securities may be sold in private sales directly to purchasers.

The Company may enter into derivative transactions or forward sale agreements on shares of securities with third parties. In such event, the Company may pledge the shares underlying such transactions to the counterparties under such agreements, to secure the Company's delivery obligation. The counterparties or third parties may borrow shares of securities from the Company or third parties and sell such shares in a public offering. This prospectus may be delivered in conjunction with such sales. Upon settlement of such transactions, the Company may deliver shares of securities to the counterparties that, in turn, the counterparties may deliver to the Company or third parties, as the case may be, to close out the open borrowings of securities. The counterparty in such transactions will be an underwriter and will be identified in the applicable prospectus supplement.

The Company may also sell its shares of securities through various arrangements involving mandatorily or optionally exchangeable securities, and this prospectus may be delivered in conjunction with those sales.

LEGAL MATTERS

Sonnenschein Nath & Rosenthal LLP, Kansas City, Missouri, will issue an opinion to us relating to the legality of any securities that are offered by this prospectus and any prospectus supplement. If legal matters in connection with offerings made by this prospectus are passed on by counsel for the underwriters of an offering of the securities, that counsel will be named in the prospectus supplement relating to that offering.

The audit report covering the December 31, 2007 consolidated financial statements refers to the Company's adoption of Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, effective January 1, 2007.

However, their separate reports included in the Company's quarterly reports on Form 10-Q for the quarters ended March 31, 2008 and 2007, June 30, 2008 and 2007, and September 30, 2008 and 2007, and incorporated by reference herein, state that they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their reports on such information should be restricted in light of the limited nature of the review procedures applied. The accountants are not subject to the liability provisions of Section 11 of the Securities Act of 1933 (the "1933 Act") for their report on the unaudited interim financial information because that report is not a report or a part of the registration statement prepared or certified by the accountants within the meaning of Sections 7 and 11 of the 1933 Act.
