PROXY STATEMENT

GENERAL INFORMATION

Proxy Solicitation

These proxy materials are being furnished to you by the Board of Directors (the Board) of Resolute Energy Corporation, a Delaware corporation (we, our, us, Resolute or the Company), in connection with its solicitation proxies for Resolute's Annual Meeting of Stockholders to be held on June 10, 2010, at 2:00 p.m., Mountain Time, at the offices of Davis Graham & Stubbs LLP, 1550 Seventeenth Street, Suite 500, Denver, Colorado 80202, and at any adjournments or postponements thereof (the Annual Meeting). In addition to solicitation by mail, certain of our directors, officers and employees may solicit proxies by telephone, personal contact, or other means of communication. They will not receive any additional compensation for these activities. Also, brokers, banks and other persons holding common stock on behalf of beneficial owners will be requested to solicit proxies or authorizations from beneficial owners. We will bear all costs incurred in connection with the preparation, assembly and mailing of the proxy materials and the solicitation of proxies and will reimburse brokers, banks and other nominees, fiduciaries and custodians for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of our common stock.

This proxy statement and the enclosed proxy card are expected to be first sent to our stockholders on or about May 10, 2010. The proxy materials are also available at www.proxydocs.com/ren.

Stockholders Entitled to Vote

The close of business on Monday, April 19, 2010, has been fixed as the record date for the determination of stockholders entitled to receive notice of and to vote at the Annual Meeting. On that date, our outstanding voting securities consisted of 53,160,375 shares of common stock. Each share of common stock is entitled to one vote. Votes may not be cumulated.

Differences Between Holding Stock of Record and as a Beneficial Owner

Most stockholders hold their shares through a broker or other nominee rather than directly in their own name. If your shares are registered directly in your name with our transfer agent, Continental Stock Transfer & Trust Company, you are considered, with respect to those shares, the stockholder of record, and we are sending these proxy materials directly to you. As the stockholder of record, you have the right to grant your voting proxy directly to the named proxy holder or to vote in person at the meeting. We have enclosed a proxy card for you to use that contains voting instructions and allows you to vote via the phone, mail or online.

Edgar Filing: Resolute Energy Corp - Form DEF 14A

If your shares are held in a brokerage account or by another nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by such brokerage account or nominee, together with a voting instruction card. As the beneficial owner, you have the

Table of Contents

right to direct your broker, trustee or nominee how to vote and are also invited to attend the Annual Meeting. Since a beneficial owner is not the stockholder of record, you may not vote these shares in person at the meeting unless you obtain a legal proxy from the broker, trustee or nominee that holds your shares, giving you the right to vote the shares at the meeting. Your broker, trustee or nominee has enclosed or provided voting instructions for you to use in directing the broker, trustee or nominee how to vote your shares.

Attending the Annual Meeting

All stockholders as of the record date, or their duly appointed proxies, may attend the Annual Meeting. If you are not a stockholder of record but hold shares through a broker or nominee (i.e., in street name), you should provide proof of beneficial ownership on the record date, such as your most recent account statement prior to April 19, 2010, a copy of the voting instruction card provided by your broker, trustee or nominee, or other similar evidence of ownership.

Voting in Person at the Annual Meeting

Shares held in your name as the stockholder of record may be voted in person at the Annual Meeting. Shares held beneficially in street name may be voted in person only if you obtain a legal proxy from the broker, trustee or nominee that holds your shares giving you the right to vote the shares. Even if you plan to attend the Annual Meeting, we recommend that you also submit your proxy or voting instructions prior to the meeting as described below so that your vote will be counted if you later decide not to attend the meeting.

Voting Without Attending the Annual Meeting

Whether you hold shares directly as the stockholder of record or beneficially in street name, you may direct how your shares are voted without attending the Annual Meeting. If you are a stockholder of record, you may vote by submitting a proxy. If you hold shares beneficially in street name, you may vote by submitting voting instructions to your broker, trustee or nominee. For directions on how to vote, please refer to the instructions included on your proxy card or, for shares held beneficially in street name, the voting instruction card provided by your broker, trustee or nominee.

Quorum

Holders of a majority of our outstanding common stock entitled to vote must be present, in person or by proxy, at the Annual Meeting for a quorum to exist. If the shares present in person or by proxy at the Annual Meeting do not constitute a quorum, the Annual Meeting may be adjourned to a subsequent time. Shares that are voted FOR, AGAINST, ABSTAIN, or, with respect to the election of directors, WITHHOLD, will be treated as being present at the Annual Meeting for purposes of establishing a quorum. Accordingly, if you have returned a valid proxy or attend the Annual Meeting in person, your shares will be counted for the purpose of determining whether there is a quorum, even if you wish to abstain from voting on some or all matters at the Annual Meeting. Broker non-votes will also be counted as present for purposes of determining the presence of a quorum. A broker non-vote occurs when a bank, broker or other person holding shares for a beneficial owner does not vote on a particular proposal because that holder does not have discretionary voting power for that particular item and has not received voting instructions from the beneficial owner.

Required Vote

You may vote FOR or WITHHOLD authority to vote on Proposal One, relating to the election of William H. Cunningham, James E. Duffy and William J. Quinn as Class I directors to the Board. Members of the Board are elected by a plurality of votes cast. This means that the three nominees who receive the largest number of FOR votes

Edgar Filing: Resolute Energy Corp - Form DEF 14A

cast will be elected. Neither broker non-votes nor WITHHOLD votes cast with respect to any nominee will affect the election of that nominee.

You may vote FOR, AGAINST or ABSTAIN on Proposal Two, relating to the ratification of KPMG LLP as our independent registered public accounting firm. To be approved, that proposal must receive

Table of Contents

the affirmative vote of a majority of the voting shares that are present, in person or by proxy, at the meeting and entitled to vote on the proposal. An abstention will have the affect of a vote against the proposal. A broker non-vote will not have any effect on the outcome of the vote on the proposal.

Board Recommendation

The Board recommends that you vote as follows:

FOR Proposal One, relating to the election of William H. Cunningham, James E. Duffy and William J. Quinn to our Board as Class I directors; and

FOR Proposal Two, relating to the ratification of KPMG LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010.

Any proxy as to which no instructions are given will be voted in accordance with the foregoing recommendations; however, your broker, bank or other holder of record does not have discretionary voting authority to vote on the election of directors without instructions from you, in which case a broker non-vote will occur and your shares will not be voted for the election of directors. If you are a beneficial owner whose shares are held of record by a broker, your broker does have discretionary voting authority under the new rules to vote your shares on the routine matter of ratification of KPMG LLP, even if the broker does not receive voting instructions from you. Accordingly, in the election of directors, which requires a plurality of votes, broker non-votes will have no effect, and in the proposal to ratify the appointment of our independent registered public accounting firm, broker non-votes will have no effect.

Other Matters

The proposals set forth in this proxy statement constitute the only business that the Board intends to present or is informed that others will present at the meeting. The proxy does, however, confer discretionary authority upon the persons named therein (the Proxy Agents), or their substitutes, to vote on any other business that may properly come before the meeting. If the Annual Meeting is adjourned, the Proxy Agents can vote your shares on the new meeting date as well, unless you have revoked your proxy.

Revocation of Proxies

You may revoke your proxy at any time prior to its use by (i) delivering a written notice of revocation to our Secretary, (ii) filing a duly executed proxy bearing a later date with us or (iii) attending the Annual Meeting and voting in person.

Table of Contents**PROPOSAL ONE ELECTION OF DIRECTORS**

Our certificate of incorporation provides that members of the Board are to be divided into three classes. The Board currently consists of three Class I directors (William H. Cunningham, James E. Duffy and William J. Quinn), three Class II directors (James M. Piccone, Richard L. Covington and Robert M. Swartz) and three Class III directors (Nicholas J. Sutton, Kenneth A. Hersh and Thomas O. Hicks, Jr.). Our certificate of incorporation provides that a director will generally serve for a term that expires at the annual stockholders' meeting three years after the date of his or her election. The term of the current Class I directors will expire at the Annual Meeting. Our certificate of incorporation and applicable rules of the New York Stock Exchange (the "NYSE") contemplate that the number of directors in each class will be approximately equal.

The Board has nominated Dr. Cunningham, Mr. Duffy and Mr. Quinn to stand for election at the Annual Meeting and to serve until the 2013 annual meeting or until their successors are duly elected and qualified. Directors whose terms of office will not expire at the Annual Meeting will continue in office for the remainder of their respective terms. Under our certificate of incorporation and bylaws, the number of directors on the Board is determined by a resolution of the Board.

The Board has no reason to believe that Dr. Cunningham, Mr. Duffy or Mr. Quinn will be unable to serve if elected and, to the knowledge of the Board, each nominee intends to serve the entire term for which election is sought. Only the nominees, or substitute nominees designated by the Board, will be eligible to stand for election as directors at the Annual Meeting. If any nominee becomes unable to serve as a director before the Annual Meeting, the Proxy Agents have the discretionary authority to vote proxies held by them for substitute nominees designated by the Board.

The Board recommends a vote FOR the election of William H. Cunningham, James E. Duffy and William J. Quinn to the Board.

The Company was incorporated on July 28, 2009 to consummate a business combination with HACI, a Delaware corporation incorporated on February 26, 2007. HACI was formed to acquire through a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination, one or more businesses or assets. HACI's initial public offering was consummated on October 3, 2007. HACI had neither engaged in any operations nor generated any operating revenue prior to the business combination with us.

On September 25, 2009 (the Acquisition Date), we consummated a business combination with HACI (the Resolute Transaction) under the terms of a Purchase and IPO Reorganization Agreement, dated as of August 2, 2009 (Acquisition Agreement) among the Company, HACI, Resolute Holdings Sub, LLC, Resolute Subsidiary Corporation,

Resolute Aneth, LLC, Resolute Holdings and HH HACI, L.P., as amended. As a result of the Resolute Transaction, HACI became a wholly owned subsidiary of the Company. In

addition, the Company owned, directly or indirectly, prior to the Resolute Transaction, and continues to own after the Resolute Transaction, 100% of the equity interests of Resolute Natural Resources Company, LLC (Resources), WYNR, LLC (WYNR), BWNR, LLC (BWNR), RNRC Holdings, Inc. (RNRC), and Resolute Wyoming, Inc. (RWI) (formerly known as Primary Natural Resources, Inc. (PNR)), and a 99.996% equity interest in Resolute Aneth, LLC (Aneth), (collectively, Resources, WYNR, BWNR, RNRC, Aneth and RWI are referred to as Predecessor Resolute). The entities comprising Predecessor Resolute prior to the Resolute Transaction were wholly owned by Resolute Holdings Sub, LLC (except for Aneth, which was 99.996% owned by Resolute Holdings Sub, LLC), which in turn is a wholly-owned subsidiary of Resolute Holdings. Under generally accepted accounting principles, HACI was the accounting acquirer in the Resolute Transaction.

Pursuant to the Purchase and IPO Reorganization Agreement the parties agreed that the initial board of directors of the Company would consist of (i) five members designated by Resolute Holdings/NGP, which members were Messrs. Sutton, Piccone, Hersh, Quinn and Covington, (ii) Thomas O. Hicks or his designee, which was Thomas O. Hicks, Jr., and (iii) two members to be proposed by Hicks Acquisition Company I, Inc., which were Messrs. Swartz and Cunningham, and one member to be proposed by Resolute Holdings Sub LLC, which was Mr. Duffy. Such arrangements have been superseded, with respect to Messrs. Duffy, Cunningham and Quinn, by the determination made by the Nominating/Corporate Governance Committee to nominate such persons for re-election at the Annual Meeting.

**PROPOSAL TWO RATIFICATION OF THE APPOINTMENT OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee of the Board has appointed KPMG LLP (KPMG) to act as our independent registered public accounting firm for the fiscal year ending December 31, 2010, and requests ratification of this appointment by our stockholders. KPMG has served as our independent registered public accounting firm since December 21, 2009. If our stockholders do not ratify the appointment of KPMG, the adverse vote would be considered as a direction to the Audit Committee to consider other auditors for the subsequent fiscal year. However, because of the difficulty and expense of making any substitution of auditors after the beginning of the current fiscal year, it is contemplated that the appointment for the fiscal year ending December 31, 2010, will be permitted to stand unless the Audit Committee finds other reasons for making a change. Even if the selection of KPMG is ratified, the Audit Committee may, in its discretion, direct the appointment of new auditors at any time during the year if it determines that such a change would be in the best interests of the Company and our stockholders.

As previously reported, Resolute engaged in a business combination (the Resolute Transaction) with Hicks Acquisition Company I, Inc. (HACI), consummated on September 25, 2009. KPMG served as HACI 's independent registered public accounting firm prior to the Resolute Transaction. Under generally accepted accounting principles, HACI was the accounting acquirer. Deloitte & Touche LLP (Deloitte & Touche) was the auditor of Predecessor Resolute and of the Company prior to the Resolute Transaction and was retained in connection with the filing of the Company 's Quarterly Report on Form 10-Q for the three and nine months ended September 30, 2009. Subsequent to the filing of the Form 10-Q for the period ended September 30, 2009, the Company elected to retain KPMG and to terminate the relationship between the Company and Deloitte & Touche. On December 16, 2009, the Company began the process of retaining KPMG to serve as its independent registered public accounting firm for the fiscal year ended December 31, 2009 and dismissed Deloitte & Touche.

KPMG accepted its appointment as the Company 's independent registered public accountants on December 21, 2009. The decision to retain KPMG and to terminate the relationship with Deloitte & Touche was made by the Company 's Audit Committee.

The reports of Deloitte & Touche on the balance sheet of the Company as of August 3, 2009, and on the financial statements of Predecessor Resolute as of and for the fiscal years ended December 31, 2008 and 2007 contained no adverse opinion or disclaimer of opinion, nor were the reports qualified or modified as to uncertainty, audit scope or accounting principles; except that the report on Predecessor Resolute for the fiscal year ended December 31, 2008 did contain a going concern uncertainty paragraph.

During the fiscal years ended December 31, 2008 and 2007, and during the subsequent interim period that began on January 1, 2009 and ended on December 16, 2009, there were no disagreements with Deloitte & Touche on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if they had occurred and not been resolved to the satisfaction of Deloitte & Touche, would have caused Deloitte & Touche to make reference to such disagreements in their reports on the financial statements for such years; and there were no reportable events as described in Item 304(a)(1)(v) of Regulation S-K.

During the fiscal years ended December 31, 2008 and 2007, and during the subsequent interim period that began on January 1, 2009 and ended on December 16, 2009, we did not consult with KPMG regarding either (i) the application of accounting principles to any specific completed or proposed transaction, or the type of audit opinion that might be rendered on our financial statements, nor did KPMG provide written or oral advice to us that KPMG concluded was an important factor considered by us in reaching a decision as to any accounting, auditing or financial reporting issue

or (ii) any matter that was either the subject of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K) or a reportable event (as defined in Item 304(a)(1)(v) of Regulation S-K). During such periods, KPMG was the auditor for HACL.

Representatives of KPMG are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

Requests should be directed to Resolute Energy Corporation, Attn: Secretary, 1675 Broadway, Suite 1950, Denver, Colorado 80202.

The Board meets regularly to review significant developments affecting us and to act on matters requiring its approval. The Board held two meetings in 2009 and acted nine times by written consent. On and after September 25, 2009, when the current board took office, the board met one time and acted two times by written consent. No director, during his period of service in 2009, attended fewer than 75% of the total number of meetings of the Board and committees on which he served. Directors are encouraged, but not required, to attend the Annual Meeting. Because the Company was formed in July 2009, no annual stockholders' meeting was held in 2009.

Director Independence

Under the rules of the NYSE, a majority of the members of the Board of Directors and all of the members of certain committees must be composed of independent directors, as defined in the rules of the NYSE. In general, an independent director is a person other than an officer or employee of the Company or any other individual who has a relationship, which, in the opinion of the Company's Board of Directors, would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director. Additional independence and qualification requirements apply to our directors serving on certain committees. As discussed under *Board Committees*, the Company has standing Audit, Compensation and Corporate Governance/Nominating Committees, each of which is

composed entirely of independent directors, under each of the applicable standards. The Company's Board of Directors has determined that, other than Messrs. Sutton and Piccone, each member of the Board of Directors is independent under the NYSE rules. In making that determination, the Board of Directors considered the relationships of Messrs. Swartz and Hicks with HACI and HH-HACI, L.P., and the relationships of Messrs. Hersh, Covington and Quinn with various NGP entities.

Table of Contents

Board Committees

The composition and primary responsibilities of the Audit Committee, the Compensation Committee and the Corporate Governance/Nominating Committee are described below.

Audit Committee

The Company has a separately designated Audit Committee, the members of which are Messrs. Duffy, Cunningham and Swartz, with Mr. Swartz serving as Chairman. The primary function of the Audit Committee is to assist the Board of Directors in its oversight of the Company's financial reporting process. Among other things, the committee is responsible for reviewing and selecting our independent registered public accounting firm and reviewing our accounting practices and policies, and to serve as an independent and objective party to monitor the financial reporting process. The Board of Directors has determined that each of Mr. Swartz, Mr. Duffy and Dr. Cunningham qualifies as an audit committee financial expert as defined in Item 407(d)(5) of SEC Regulation S-K and that each member of the committee is independent for purposes of SEC Rule 10A-3, and financially literate for purposes of applicable NYSE rules. See *Proposal One Election of Directors Board of Directors* for a summary of the business experience of each member of the committee. During 2009, the Audit Committee held eight meetings.

Compensation Committee

The Company has a separately designated Compensation Committee, which currently consists of Messrs. Duffy, Covington, Hersh and Quinn, with Mr. Duffy acting as Chairman. The Compensation Committee's primary function is to discharge the Board of Director's responsibilities relating to the compensation of our CEO and to make recommendations to the Board regarding the compensation of our other executive officers. Among other things, the committee reviews and approves corporate goals and objectives for setting CEO compensation, evaluates the performance of the CEO in light of those goals and objectives and sets the compensation of the CEO. No compensation consultants were engaged in 2009. In February 2010, the Company engaged Effective Compensation, Inc. as its compensation consultant. The Board has determined that each member of the committee is (i) independent under applicable NYSE rules, (ii) a non-employee director as defined in Rule 16b-3 under the Exchange Act and (iii) an outside director as defined in Section 162(m) of the Internal Revenue Code. During 2009, the Compensation Committee held one meeting and acted once by written consent.

Corporate Governance/Nominating Committee

The Company has a separately designated Corporate Governance/Nominating Committee, the members of which are Messrs. Covington, Hersh and Hicks, with Mr. Covington serving as Chairman. The primary function of the Corporate Governance/Nominating Committee is to assist the Board of Directors with identifying, evaluating and recommending to the Board qualified candidates for election or appointment to the Board, (ii) reviewing, evaluating and recommending changes to the Company's corporate governance guidelines and (iii) monitoring and overseeing matters of corporate governance, including the evaluation of Board and management performance and the independence of directors. The Board has determined that each member of the committee is independent under applicable NYSE rules. During 2009, the Corporate Governance/Nominating Committee held one meeting.

Director Nominations

The charter of the Corporate Governance/Nominating Committee provides that director candidates recommended by security holders will be considered on the same basis as candidates recommended by other persons. A security holder who wishes to recommend a candidate should send complete information regarding the candidate to Resolute Energy Corporation, Attn: Secretary, 1675 Broadway, Suite 1950, Denver, Colorado 80202. The information provided with

respect to the nominee should include five years of professional background, academic qualifications, whether the nominee has been subject to any legal proceedings in the past ten years, the relationship between the security holder and the nominee, and any other specific

Table of Contents

experience, qualifications, attributes or skills that qualify the nominee for the Board. The committee will assess each candidate, including candidates recommended by security holders, by evaluating all factors it considers appropriate, which may include career specialization, relevant technical skills or financial acumen, diversity of viewpoint and industry knowledge. The charter provides that nominees must meet certain minimum qualifications. In particular, a nominee must:

have displayed the highest personal and professional ethics, integrity and values and sound business judgment;

be highly accomplished in his or her field, with superior credentials and recognition and broad experience at the administrative or policy-making level in business, government, education, technology or public interest;

have relevant expertise and experience and be able to offer guidance and advice to the chief executive officer based on that expertise and experience;

with respect to a majority of directors, be independent and able to represent all stockholders and be committed to enhancing long term stockholder value; and

have sufficient time available to devote to the activities of the Board of Directors and to enhance his or her knowledge of the Company's business.

The committee does not have a formal policy with respect to the consideration of diversity when assessing director nominees, but considers diversity as part of its overall assessment of the Board's functioning and needs. The committee may retain a search firm to assist it in identifying potential candidates, but it has not done so to date.

Non-Management Sessions

The Board schedules regular executive sessions involving exclusively non-management directors, as required by NYSE rules, at the time of each in-person board meeting. Mr. Covington, as our lead independent director, presides at all such executive sessions.

Interested Parties Communications Policy

In recognition of the importance of providing all interested parties, including but not limited to, the holders of Resolute securities, with the ability to communicate with members of the Board, including non-management directors, the Board has adopted a Stockholder and Interested Parties Communication Policy, a copy of which is available on our website. Pursuant to the policy, interested parties may direct correspondence to the Board, or to any individual director and the lead independent director by mail to the following address: Resolute Energy Corporation, Attn: Lead Independent Director, 1675 Broadway, Suite 1950, Denver, CO 80202.

Communications should not exceed 1,000 words in length and should indicate (i) the type and amount of Resolute securities held by the person submitting the communication, if any, and/or the nature of the person's interest in Resolute, (ii) any personal interest the person has in the subject matter of the communication and (iii) the person's mailing address, e-mail address and telephone number. Unless the communication relates to an improper topic (e.g., it contains offensive content or advocates that we engage in illegal activities) or it fails to satisfy the procedural requirements of the policy, we will deliver it to the person(s) to whom it is addressed.

Absence of Appraisal Rights

We are incorporated in the State of Delaware and, accordingly, are subject to the Delaware General Corporation Law. Under the Delaware General Corporation Law, our stockholders are not entitled to appraisal rights with respect to any of the proposals to be acted upon at the Annual Meeting.

Table of Contents

Stockholder Proposals

Any proposal that a stockholder wishes to include in proxy materials for our 2011 annual meeting of stockholders must be received no later than January 10, 2011 and must be submitted in compliance with SEC Rule 14a-8. Proposals should be directed to Resolute Energy Corporation, Attn: Secretary, 1675 Broadway, Suite 1950, Denver, Colorado 80202.

Any proposal or nomination for director that a stockholder wishes to propose for consideration at the 2011 annual meeting of stockholders, but does not seek to include in our proxy statement under applicable SEC rules, must be submitted in accordance with Section 2.7 of our bylaws, and must be received at our principal executive offices no earlier than February 10, 2011, and no later than March 12, 2011, in each case assuming that the 2011 annual meeting is held on the anniversary of the Annual Meeting. Any such proposal must be an appropriate subject for stockholder action under applicable law and must otherwise comply with Section 2.7 of our bylaws.

Pursuant to SEC Rule 14a-4(c)(1), if our Secretary receives any stockholder proposal at the address listed above after March 12, 2011 that is intended to be presented at the 2011 annual meeting without inclusion in the proxy statement for the meeting, the proxies designated by the Board will have discretionary authority to vote on such proposal.

Board Leadership Structure and Risk Management

Our Board of Directors currently consists of nine directors, all of whom, other than Messrs. Sutton and Piccone, have been determined to be independent directors under the rules of the NYSE. Mr. Sutton has served as CEO since the Company became a public company in September 2009, was Chief Executive Officer of Resolute Holdings from its inception in 2004, and was instrumental in the completion of the Resolute Transaction. He is most familiar with the Company's properties and, based on his years as chairman and chief executive officer of HS Resources from 1978 to 2001, has demonstrated skills in building and leading a public oil and gas company. Accordingly, the Board of Directors believes that he is uniquely qualified to be the person who sets the agenda for, and leads discussion of, strategic issues for the Company. Our Lead Independent Director, Mr. Covington, presides over executive sessions of the independent directors, which occur at the time of each in-person board meeting. The Board appointed Mr. Covington as the Lead Independent Director in March 2010. In such capacity, Mr. Covington reviews agendas for Board meetings, reviews with Mr. Sutton annual goals and objectives for the Company, and consults with the Board regarding its evaluation of the performance of the CEO. The Board believes that its supermajority of independent directors and other aspects of its governance provides appropriate independent oversight to Board decisions.

The Board of Directors oversees the risks involved in the Company's operations as part of its general oversight function, integrating risk management into the Company's compliance policies and procedures. While the Board has the ultimate oversight responsibility for the risk management process, the Audit Committee has certain specific responsibilities relating to risk management. Among other things, the Audit Committee, pursuant to its charter, addresses Company policies with respect to risk assessment and risk management, and reviews major risk exposures (whether financial, operating or otherwise) and the guidelines and policies that management has put in place to govern the process of assessing, controlling, managing and reporting such exposures. While the charters of the Compensation and Corporate Governance/Nominating Committees do not assign specific risk-related responsibilities to those committees, the committees nevertheless consider risk and risk management issues in the course of performing their duties with respect to compensation and governance issues, respectively.

2009 Grants of Plan-Based Awards

The Company has one equity incentive plan, the 2009 Performance Incentive Plan (the Plan), pursuant to which the Company may grant stock options, restricted stock, restricted stock units and stock appreciation rights to executive officers and directors. The Plan provides for the issuance of up to 2,657,744 shares of common stock. No plan-based awards were made to the Named Executive Officers in 2009.

Outstanding Equity Awards at Fiscal Year End

Named executive officers had no outstanding equity awards under the Plan at December 31, 2009.

Option Exercises and Stock Vested in 2009

No options to purchase Company Common Stock were exercised by Named Executive Officers in 2009, and no options held by Named Executive Officers vested in 2009.

2009 Pension Benefits

The Company has no defined benefit pension plans.

2009 Nonqualified Deferred Compensation Plans

In the year ended December 31, 2009, the Company had no nonqualified plan that provides for deferral of compensation to Named Executive Officers.

Potential Payments Upon Termination or Change of Control of Resolute

There are currently no agreements under which the Named Executive Officers would be entitled to receive payments upon termination or upon a change of control of the Company. Predecessor Resolute is a party to agreements with the Named Executive Officers giving it the right, in its sole discretion, to make severance payments to any executive officer for up to eighteen months following termination other than for Cause (as defined), or upon voluntary resignation following a reduction in annual salary. Severance payments, if made, would be equal to the executive's salary immediately prior to termination. During the period in which severance payments are being made, the executive is prohibited from engaging in the oil and gas business in an area within a ten mile radius of the boundaries of any property interest of Predecessor Resolute. Upon the consummation of the Resolute Transaction, these agreements became agreements of Resolute. The following table illustrates the amounts that would be payable to the executive officers assuming that (i) the executive officer was terminated as of December 31, 2009, and (ii) Resolute elected to make the severance payments for the full eighteen month period.

Name	Total Severance Payment
Nicholas J. Sutton	\$ 750,000
James M. Piccone	\$ 525,000
Richard F. Betz	\$ 450,000

Compensation Discussion and Analysis of the Company

The Company began operations on September 25, 2009, and the Board of Directors and Compensation Committee assumed their positions at that date. Prior to that date, the Company was not a public company, and compensation decisions were made by the managing members of Predecessor Resolute.

Overview of the Company's Compensation Program. The Company's Board of Directors has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Board of Directors has delegated to the Compensation Committee of the Board of Directors its responsibilities with respect to development of a compensation program and implementation of that program. The Compensation Committee will be solely responsible for determining the compensation of the CEO and will make recommendations to the Board of Directors regarding the compensation of other executive officers. It will also administer equity incentive plans, and make recommendations to the Board of Directors regarding awards under the Incentive Plan. Generally, the types of compensation and benefits that are provided to the Company's executive officers are similar to those provided to the Company's other officers and employees. The Company does not have compensation plans that are solely for executive officers. Those officers whose compensation elements and amounts are specifically listed in the Company's proxy statement are referred to in this discussion as the Named Executive Officers.

The CEO plays a key role in determining executive compensation for the other Named Executive Officers and other officers. The CEO attends the meetings of the Compensation Committee at which executive compensation is being discussed and makes recommendations to the Committee. In arriving at his recommendations, the CEO evaluates the performance of each executive and solicits input from the peers of such executives and others, if necessary. This evaluation is shared with the Committee and forms the basis for the recommendation. These recommendations are considered by the Compensation Committee, along with other relevant data, in determining the base salary, annual cash incentives, long-term equity incentives, and benefits and perquisites for such executives.

Compensation Philosophy and Objectives. The Company believes that the most effective compensation program is one that is designed to reward all employees, not just executives, for the achievement of the Company's short-term and long-term strategic goals. As a result, the Company's compensation philosophy is to provide all employees (except those covered by union contracts that limit the Company's flexibility in matters related to compensation), with cash incentives or a combination of cash and equity-based incentives that foster the continued growth and overall success of the Company and encourage employees to maximize stockholder value.

Under this philosophy, all Company employees (with the exception noted above), have aligned interests. When establishing its total compensation, the Company has the following objectives:

To attract, retain and motivate highly qualified and experienced individuals;

To provide financial incentives, through an appropriate mix of fixed and variable pay components, to achieve the organization's key financial and operational objectives;

To ensure that a portion of total compensation is at risk in the form of equity compensation; and

To offer competitive compensation packages that are consistent with the Company's core values, including the balance of fairness to the individual and the organization, and the demand for commitment and dedication in the performance of the job.

Table of Contents

It is the Committee's policy to provide incentives that promote both our short term and long term financial objectives that are appropriate to the nature of our assets. Base salary and short term incentive compensation are designed to reward achievement of short term objectives, while the long term incentive compensation is intended to encourage employees, particularly executives, to focus on our long term goals. Salary, annual cash bonuses and equity awards are the primary components of our compensation program and we believe that attention to all three elements is important to retain our existing personnel and to attract and hire new employees. As to any given individual, the factors considered in any compensation decision include, but are not limited to, the complexity of that individual's job, the person's dedication and demonstrated contributions to our value, competitive pressures in the marketplace and his or her relative performance compared to peers within the Company.

We consider an inability to attract or retain qualified motivated employees as a significant risk for the Company as we operate in a highly competitive industry. In approving elements of the compensation program, the Compensation Committee and the Board prefer a balancing of factors, so that no single performance metric becomes an overriding influence. For that reason, the incentive compensation program described below balances a number of metrics. Our Long Term Incentive Program, also described below, provides for vesting over a four year period in order to mitigate against a short term focus at the expense of long-term results by our senior executives, including the Named Executive Officers.

Role of Compensation Consultant. The Compensation Committee, which has sole authority to retain and terminate any compensation consulting firm, independently retains a compensation consultant to assist in deliberations regarding executive compensation. In February 2010 the Compensation Committee engaged Effective Compensation, Inc. (ECI), an independent compensation consultant, to advise with respect to development of a comprehensive compensation philosophy and practices for executives and other employees. The Committee sought advice from ECI regarding base salary, annual bonus, the nature and amount of long-term incentives, performance measures for short-term and long-term incentives, identification of representative peer groups and general market data. ECI evaluated our executive compensation and recommended continued focus on total direct compensation as a means to achieve the compensation objectives outlined above while remaining competitive with the external market.

In February 2010, ECI provided the Committee with a selection of possible peer companies for discussion purposes for use as part of its compensation evaluation process. These companies were selected based on their size, as measured by market capitalization, and an assessment that they are reasonably comparable to the Company in terms of business scope and objectives in the upstream oil and gas segment. The following companies comprise the peer group jointly selected by ECI and the Committee and utilized by the Committee:

Berry Petroleum Company	Petroleum Development Corporation
Bill Barrett Corporation	PetroQuest Energy Inc.
Carrizo Oil & Gas Inc.	St. Mary Land & Exploration Company
Comstock Resources, Inc.	Stone Energy Company
Mariner Energy, Inc.	Swift Energy Company
Penn Virginia Corporation	

The Compensation Committee may make modifications to the peer group from time to time due to consolidations within, and to accommodate new companies entering, the oil and gas exploration and production industry, or for other reasons. The Committee will continue to monitor the appropriateness of the peer group and the relative measures drawn from the process with the primary objective of utilizing a peer group that provides the most appropriate comparison to the Company to assist in formulating compensation that maintains the Company's ability to compete for top executives. The Compensation Committee does not formally benchmark the compensation of our executive

officers against the compensation of executives in the peer group.

Setting the Company's Executive Compensation. Executive compensation is reviewed by the

Table of Contents

Compensation Committee no less frequently than annually. Compensation is expected to be based on the foregoing objectives, and to include as integral components base salary and annual and long-term incentive-based cash and non-cash compensation. In performing its compensation reviews and making its compensation decisions regarding the compensation of the Company's chief executive officer and other executive officers, the Compensation Committee will conduct an ongoing review of compensation data from the peer group.

In establishing executive compensation, base salaries are expected to be targeted near the midpoint of a range established by this peer review, although adjustments are made for such things as experience, market factors or exceptional performance, among others, and potential total compensation, including annual incentive compensation, are expected to be at the upper range of total compensation at comparable companies if performance targets are met. Annual cash incentive and equity incentive awards will be designed to reflect progress toward company-wide financial goals and personal objectives, as well as salary grade level, and to balance rewards for short-term and long-term performance.

Long-term incentive compensation will be used to reward and to encourage long-term performance and an alignment of interests between the individual and the organization. Long-term incentive grants will be used not only to reward prior performance, but also to retain executive officers and other employees and provide incentives for future exceptional performance. To the extent that business success makes long-term incentive awards more valuable, an individual's total compensation may move from the median to the high end of ranges established with reference to peer data.

In determining the allocation between cash short-term and non-cash long-term incentive compensation for executive officers, the Compensation Committee engages in an individual analysis for each executive. Factors affecting compensation include:

- (i) The Company's annual performance;
- (ii) Impact of the employee's performance on the Company's results;
- (iii) The Company's objective to provide total compensation that is higher than competitive levels when aggressive goals of the Company are exceeded; and
- (iv) Internal equity.

The Committee also takes into consideration the fact that, although our officers are responsible for specific business functions, together they share responsibility for the performance of the Company. As we seek to attract and retain the best talent available, we also wish to have employees view employment at the Company as a career decision. It takes a long period of time and a significant investment to develop the experienced executive talent necessary to succeed in the oil and gas business; senior executives must have experience with all phases of the business cycle to be effective leaders. We have an experienced executive team that has been in the oil and gas industry for thirty years or more, and we believe that our future success will be enhanced by retaining these experienced employees through our compensation philosophy and practices.

We believe that the proportion of total compensation that is performance-based, and therefore at risk, should increase with an individual's level of responsibility. Therefore, long-term incentive compensation grants will typically represent a larger proportion of the total compensation package as the level of responsibility of the executive increases. For the chief executive officer, long term incentive grants are typically the largest element of the total compensation package. Executive officers generally receive the same benefits as other employees, although not necessarily in the same mix or amounts.

Executive Compensation Components. The principal components of compensation for executive officers are:

Base salary;

Table of Contents

Cash bonus;

Long-term incentive compensation; and,

401(k) and other benefits.

Relative Size of Major Compensation Elements. The combination of base salary, annual cash incentives and equity awards comprises total direct compensation. In setting executive compensation, the Compensation Committee considers the aggregate compensation payable to an executive officer and the form of that compensation. The Compensation Committee seeks to achieve the appropriate balance between immediate cash rewards and long-term financial incentives for the achievement of both annual and long-term financial and non-financial objectives. The Compensation Committee may decide, as appropriate, to modify the mix of base salary, annual cash incentives and long-term equity incentives to best fit an executive officer's specific circumstances. For example, the Compensation Committee may make the decision to award more cash and not award an equity grant. The Compensation Committee may also increase the size of equity grants to an executive officer if the total number of career equity grants does not adequately reflect the executive's current position with the Company.

Timing of Compensation Decisions. It is expected that all elements of the executive officers' compensation will be reviewed each February, including a review of financial, operating and personal objectives with respect to the prior year's results. At that time, the financial, operating and personal objectives and performance targets will be determined for the current year. The Board of Directors or the Compensation Committee may, however, review salaries or grant equity incentives at other times in connection with new appointments or promotions or other extraordinary events that occur during the year, or under other circumstances that it deems appropriate.

Base Salary. The Company provides executive officers with a base salary to compensate them for services rendered during the fiscal year. Base salaries for executive officers are based upon each individual's responsibilities, experience and performance, taking into account among other things, the individual's initiative, contribution to our overall performance, managerial ability and handling of special projects. These same factors are applied to establish base salaries for other key management employees. The Compensation Committee's evaluation of each executive officer's performance is subjective; no specific written criteria or formulas, and no pre-determined targets, are used in determining base salary. The factors considered in compensation decisions are not weighted, but are viewed collectively. Base salaries for executive officers generally are reviewed annually for possible adjustment, but are not necessarily changed each year. The Committee is responsible for determining the base salary for the Chief Executive Officer, and the Chief Executive Officer recommends the base salary for the other executive officers. Other executive officers recommend the base salary for all employees that are in the executive officer's area of responsibility. The Chief Executive Officer, the President and the Chief Financial Officer review the recommendations for salaries and bonuses for all other employees and adjust them as they deem appropriate. The Compensation Committee reviews the recommendations for all employees from the Chief Executive Officer and approves them or adjusts them as it deems appropriate.

Base salaries for each of the Named Executive Officers were reset in the fall of 2009 following the consummation of the Resolute Transaction, as follows: base salary levels for Messrs. Betz, Cantwell and Gazulis and Ms. Pasque were set at \$300,000, for Mr. Piccone at \$350,000, and for Mr. Sutton at \$500,000. This decision reflected increased responsibilities associated with public company status, as well as other factors. The Compensation Committee reviewed survey data compiled by a third party of publicly available information of salary levels for executives at companies in the oil and gas industry with a market capitalization comparable to that of the Company. In addition, the Compensation Committee considered the then current salary levels of executives. Prior to the Resolute Transaction in 2009, all Named Executive Officers had been executive officers of Resolute Holdings. Each executive had an annual

salary of \$175,000 per year, which reflected private company salary, and equity arrangements for a start-up company that were no longer applicable to a much larger, public company. Salaries had been unchanged since 2004, and these levels were not considered competitive with market rates. In addition, executives had foregone salary increases and

Table of Contents

had agreed to salary reductions in 2009 from agreed levels in response to reduced cash flow of Resolute Holdings due to significantly lower oil and gas product prices during that period of time.

For 2010, the Committee concluded that the wage adjustments made effective in September 2009 would remain in place without further change. Absent unusual circumstances, base salaries will be reviewed again in early 2011.

Cash Bonus. Annual cash bonuses will be performance-based and are intended to promote achievement of our business objectives of increasing stockholder value. All eligible employees participate in an annual bonus plan with the same performance objectives as those used for executive officers. The annual bonus awards for 2011 and thereafter are also intended to assist executives in meeting income tax obligations associated with vesting of restricted stock, which is a significant component of the executives' compensation, so that executives are not forced to sell their stock to meet tax obligations and are able to maintain their equity positions in the Company.

Cash bonuses to executive officers will be made at the direction of the Board of Directors. Cash bonuses totaling \$578,055 were awarded in December 2009 to the Named Executive Officers for services during 2009. Each bonus was equal to approximately one quarter of each executive's annual salary at year-end 2009, subject to certain adjustments and special considerations. Mr. Sutton received a bonus of \$138,100, Mr. Piccone a bonus of \$100,600, Messrs. Gazulis and Cantwell and Ms. Pasque each received bonuses of \$88,100, and Mr. Betz received a bonus of \$75,000. Factors considered in awarding this bonus included the exemplary efforts made by such executives in completing the Resolute Transaction and in transitioning to public company status. In addition, the bonuses took into consideration the salary reductions agreed to by the executives in 2009: Mr. Sutton had agreed to a 50% reduction in his salary from February 2009 and other executives had agreed to a 10% reduction in salary from April 2009. The Committee also considered, in determining the amount of the bonuses, that the Company's normal policy of matching employee 401(k) contributions had been suspended in 2009 (with respect to 2008 contributions) and that Named Executive Officers received no bonus in 2009 for services in 2008.

Similar to base salaries, the Committee is responsible for determining the bonus for the Chief Executive Officer, and the Chief Executive Officer recommends the annual bonus for each other executive officer. Other executive officers recommend the annual bonus for all employees that are in that executive officer's area of responsibility. The Chief Executive Officer, the President and the Chief Financial Officer review the recommendations for bonuses for all other employees and adjust them as they deem appropriate. The Compensation Committee reviews the recommendations for all executives from the Chief Executive Officer and approves them or adjusts them as it deems appropriate.

The Committee expects that future year-end cash bonuses would range from 0% to 150% of each executive's annual base salary, depending on an executive's position of responsibility. Bonuses will reflect the Committee's assessment of whether performance goals established for the executives have been achieved. Another important factor to be considered is the income tax liability that our executive officers will incur upon the vesting of restricted stock grants in 2011 and thereafter, as it is expected that required tax withholdings on vesting will in some cases equal or exceed an executive's annual bonus. The payment of bonuses adequate to cover tax costs encourages executives to retain their vested shares.

For 2010, the Committee implemented a program that set bonus targets, which are a percentage of base salary, for the senior executives and decided which performance metrics would be used to determine whether bonus awards will be less than (the threshold level), equal to or greater than (the stretch level) the target percentage. The target awards for our Named Executive Officers, as a percentage of each executive's base salary, are as follows: CEO 100%, President 85%, Senior Vice Presidents 70%, other officers 50%. Threshold levels are 50% below target and stretch levels are 50% above target.

The Committee will establish a bonus pool equal to each eligible employee's target bonus percentage multiplied by that employee's base salary (the Bonus Pool). Fifty percent of the Bonus Pool will be allocated to the Performance Metrics Pool. The Performance Metrics Pool may be increased or decreased depending

Table of Contents

on how the Company has performed as measured against certain pre-established parameters. In determining which performance metrics to use to in evaluating this portion of bonus awards, the Committee concluded that short-term incentive compensation should be based on achievement of operational objectives rather than measures such as total shareholder return that can be greatly influenced by factors outside of any individual's influence or control. Longer term performance metrics are more appropriate for the long-term incentive plan. For 2010, the Committee will utilize three key performance metrics: Production, Lease Operating Expense, and General and Administrative Expense.

Although the Committee did not identify specific levels of these metrics that would trigger the threshold, target and stretch bonus payments, performance criteria for the target bonus are generally at the midpoint of the range of our public guidance, with the threshold and stretch bonuses being payable for performance that is less than or exceeds those expectations. In some cases, performance metrics may be adjusted during the year based on changes in our business, such as increased costs or commodity prices or as a result of an acquisition or disposition. Performance that would qualify for bonuses at the threshold level is expected in normal operating circumstances. Performance satisfying the criteria for bonuses at the target level is believed to be achievable with additional effort. Performance that would qualify for bonuses at the stretch level is believed to be achievable with extraordinary efforts.

A fourth metric that will be used in the determination of the size of the Performance Metric Pool is the Company's success in advancing its capital and strategic projects on time and on budget. The Committee has identified several key initiatives that will be evaluated as part of this metric, including Aneth Phase IV CO₂, Aneth gas plant construction engineering, Aneth compression reconfiguration, and execution of plans to drill wells in the Williston Basin.

Generally the Performance Metric Pool will be divided among eligible participants on a formulaic prorata basis, although the Committee reserves the ability to adjust individual participants' awards as the result of extraordinary individual contribution or lack thereof.

The other fifty percent of the Bonus Pool will be increased or decreased and allocated according to management's and the Committee's assessment of individual and group performance measured against defined goals and objectives. This portion of the bonus determination is more subjective than the performance metrics described above, which are inherently more formulaic, but the Committee believes that motivating and rewarding superior performance is not a matter of "one size fits all." Effective discretion in this regard is a significant component of good management.

Long-Term Incentive Compensation. The Company adopted the 2009 Performance Incentive Plan (the "Incentive Plan") in July 2009, and the Incentive Plan was approved by the sole stockholder of the Company at that time. The maximum number of shares of Company Common Stock that may be issued pursuant to awards under the Incentive Plan is 2,657,744. No awards were made in 2009.

The purpose of the Incentive Plan is to promote the success of the Company and the interests of its stockholders by providing an additional means for the Company to attract, motivate, retain and reward directors, officers, employees and other eligible persons (including consultants and advisors) through the grant of incentive awards. Equity-based awards are also intended to further align the interests of award recipients and the Company's stockholders. In particular, long term incentive compensation is awarded to employees who are important for us to retain to accomplish our strategic goals over the longer term. As with base salary and short term incentive compensation, the long term awards granted to each recipient are determined by several factors. These factors include our need to retain a specific employee, the employee's performance, the employee's ability to add value to our enterprise and the compensation data of our peer group.

On May 5, 2010, the Compensation Committee met for the purpose of determining and approving awards of restricted stock for certain of the Named Executive Officers and other employees. In evaluating 2010 LTI awards, the

Committee reviewed and considered peer group data as well as other survey data presented by ECI. However, the Committee initially considered that, since no awards had been made under the Incentive Plan, the goal of motivating employees to contribute to the long-term growth of the Company and

Table of Contents

participating fully in that growth through equity participation was not being met. Because the Company only became a public reporting company in September 2009, it was required to completely restructure the equity compensation component of compensation, starting with a clean-slate. Accordingly, the Committee considered that it was not appropriate to base its grants on those of peer companies that have been public for longer periods and have long-standing practices of annual equity incentive grants with vesting provisions that have built significant retention value over time. Of concern to the Committee was that the entire management team could leave the Company for higher financial benefits offered by other industry participants and suffer no economic detriment in terms of foregone equity compensation. This asymmetry of risk and reward was not, in the Committee's view, in the best long-term interest of our shareholders. As a result, the Committee concluded that the initial grants under the long-term incentive program should be structured to build significant equity incentives for the executives, comparable to the positions they would have been in had the long-term incentive plan been implemented approximately two years ago. This conclusion impacted both the size of the grants and the vesting periods. In setting the number of shares subject to the grants, the Committee established an aggregate pool of approximately 1,600,000 shares, approximately 500,000 of which were allocated to non-NEOs. This allocation to non-NEOs is approximately double what the Committee expects would be allocated in periods following the initial grant and is intended to accommodate the preload discussed above. The allocations were further adjusted in individual cases based on the recommendations of management. The remaining 1,100,000 shares allocated to NEOs is approximately 1.5 times what the Committee expects would be allocated in periods following the initial grant, again with the intention of accommodating the preload consideration. The Committee awarded Mr. Sutton 450,000 shares of restricted stock, and recommended to the Board awards to Mr. Piccone of 275,000 shares of restricted stock, and to Mr. Gazulis and Mr. Betz awards of 200,000 shares of restricted stock each. Mr. Cantwell and Ms. Pasque have notified the Company that they intend to leave the Company; thus no award was made to them.

Shares of restricted stock are subject to forfeiture and vest if executives continue to be employed at specified dates in the future, and if certain performance metrics are satisfied. For 2010, two-thirds of each grant of restricted stock is time-based, as the shares will vest based on continued employment in four equal tranches. The first tranche will vest on December 31, 2010. The remaining tranches will vest on each successive December 31st, with the final tranche vesting on December 31, 2013. The remaining one-third of each grant is subject to the satisfaction of pre-established performance targets. The performance-based shares will vest in equal tranches on the same dates if there has been a 10% annual appreciation in the trading price of the Company's common stock, compounded annually, from the twenty trading day average stock price at December 31, 2009. At the end of each year, the twenty trading day average share price will be measured, and if the 10% threshold is met, the stock subject to the performance criteria will vest. If the 10% threshold is not met, shares that have not vested will roll to the following year. In that way, an underperforming year can be offset by an over-performing year. At December 31, 2013, any unvested shares will vest if the cumulative test is met or will be forfeited if the test is not met. The Committee believes that this plan emphasizes long-term, multi-year performance and value creation.

Vesting will accelerate on an individual's death or disability or, in the discretion of the Compensation Committee, on certain change of control events.

Employment Agreements. The Company expects to enter into employment agreements with the Named Executive Officers in 2010. It is expected that the employment agreements will provide for (i) base salary, (ii) bonuses to be earned by achievement of specified performance targets, (iii) severance and change of control benefits, (iv) non-competition and non-solicitation provisions, (v) obligations to maintain the confidentiality of the Company information, and (vi) assignment of all intellectual property rights to the Company.

Retirement and Other Benefit Plans. All of the Company's employees will be eligible to participate in a 401(k) plan. While the Company will have the option but not the requirement to match all or a portion of employee contributions to the 401(k) plan, a matching contribution was made in 2010 for 2009 contributions.

Other Benefits Plans. The Company offers a variety of health and benefit programs to all employees, including medical, dental, vision, life insurance and disability insurance. The Company's executive officers are

Table of Contents

generally eligible to participate in these employee benefit plans on the same basis as the rest of the Company's employees.

Compensation Programs and Potential of Risks. The Committee and Board have determined that the risks arising from its compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Tax Deductibility of Compensation. Section 162(m) of the Internal Revenue Code of 1986, as amended, generally limits the corporate income tax deduction for compensation paid to the principal executive officer and each other executive officer shown in the summary compensation table in the proxy statement to \$1 million, unless the compensation is performance-based compensation and qualifies under certain other exceptions. Our policy is primarily to design and administer compensation plans which support the achievement of long-term strategic objectives and enhance shareholder value. Where it is consistent with our compensation philosophy, the Compensation Committee will also attempt to structure compensation programs that are tax-advantageous to us.

Change in Executive Officers. On May 7, 2010, the Company announced that Janet W. Pasque and Dale E. Cantwell will each retire from the Company effective as of May 31, 2010. The Company and each of Ms. Pasque and Mr. Cantwell will enter into a consulting agreement under which Ms. Pasque will serve as a consultant to the Company from June 1, 2010 until December 31, 2010 and Mr. Cantwell will serve as a consultant to the Company from June 1, 2010 for a period of up to one year. Mr. Cantwell will consult on capital projects, principally in Aneth Field.

On May 7, 2010, the Company also announced that the Board of Directors had appointed other persons to vice president positions, effective June 1, 2010. Two of these appointments will be executive officers: James A. Tuell, who has been Interim Chief Accounting Officer, will become a Vice President and Chief Accounting Officer; and Bobby D. Brady, Jr. will become Vice President, Operations. In addition, William R. Alleman will become Vice President, Land; M. David Clouatre will become Vice President, Reservoir Engineering; Patrick E. Flynn will become Vice President, Governmental and Corporate Affairs; Bret R. Siepmann will become Vice President, Geology and Geophysics. Mr. Tuell was a consultant for the Company and each of the other newly appointed Vice Presidents was an employee of the Company prior to such appointment.

Director Summary Compensation Table. The following table summarizes the compensation we paid to our non-employee directors between September 25, 2009, the date the Company became a public reporting company, and December 31, 2009.

Messrs. Sutton and Piccone are not included in this table because as employees of the Company they receive no additional compensation for their services as directors. The compensation received by Messrs. Sutton and Piccone as employees is shown in Executive Officer Compensation in 2009 Summary Compensation Table.

On December 14, 2009, the Compensation Committee recommended, and the Board of Directors approved, the following annual compensation for non-employee directors: annual retainer of \$50,000, fees of \$2,000 for each Board of Directors meeting and \$1,000 for each Committee meeting, and additional compensation of \$7,500 for each Committee chairman and for Lead Independent Director. In addition, non-

Table of Contents

employee directors would receive equity compensation, in a form to be determined by the Compensation Committee, having a value of \$50,000 annually. The cash fees appearing in the above table reflects this compensation arrangement with respect to cash compensation paid for 2009. While the Board of Directors authorized the directors to receive equity compensation for services as a director for the period from September 25, 2009, to December 31, 2009, the form and terms of any such equity compensation were subject to analysis of legal, tax and other factors and had not been determined by the end of 2009. As a result, no awards were made in 2009, but awards of 1,373 shares of restricted stock were made to directors Swartz, Duffy, Hicks and Cunningham on March 16, 2010, with respect to 2009 services. If such grants had been included in the Director Compensation Table, the column Stock Awards would have reflected \$16,503 for each such director. The amount that would have been included in the table does not reflect compensation actually received by such directors or the actual value that may be recognized with respect to the awards in the future. Rather, it reflects the grant date fair value of the award, determined in accordance with FASB ASC Topic 718, which does not take into account future vesting contingencies. Of the total award, 343 shares vested upon grant, 343 shares will vest on the first and second anniversaries of the date of grant, and 344 shares will vest on the third anniversary of the date of grant. Vesting is subject to the continued service of the director on the vesting date. See *Security Ownership of Certain Beneficial Owners and Management*.

Messrs. Hersh, Covington and Quinn waived their director compensation made through the issuance of common stock on March 16, 2010. However, on May 7, 2010, each of such persons was awarded 1,373 stock appreciation rights in respect of their services as director for the period from September 25, 2009, through December 31, 2009. Cash payments will be based on the difference between the closing price of the common stock on the vesting date of the stock appreciation rights and \$12.40, the closing price of the common stock on May 7, 2010. Stock appreciation rights will vest on March 16, 2011 (with respect to 457 stock appreciation rights) and March 16, 2012 and 2013 (with respect to 458 stock appreciation rights). Stock appreciation rights will be deemed exercised upon vesting. If such grants had been included in the Director Compensation Table, the column Stock Awards would have reflected \$17,025 for each such director. The amount that would have been included in the table does not reflect compensation actually received by such directors or the actual value that may be recognized with respect to the awards in the future. Rather, it reflects the grant date fair value of the award, determined in accordance with FASB ASC Topic 718, which does not take into account future vesting contingencies.

In addition, each director will be reimbursed for his or her out-of-pocket expenses in connection with attending meetings of the Board of Directors or Committees. Each director is covered by a liability insurance policy paid for by the Company and is indemnified, to the fullest extent permitted under Delaware law, by the Company for his or her actions associated with being a director. The Company entered into indemnification agreements with each of its directors.

Compensation Committee Report. We, the Compensation Committee of the Board of Directors, have reviewed and discussed the Compensation Discussion and Analysis with the management of the Company, and, based on such review and discussion, have recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement.

2009 PERFORMANCE INCENTIVE PLAN

The Company adopted the 2009 Performance Incentive Plan (the Incentive Plan) in July 2009, and the Incentive Plan was approved by the sole stockholder of the Company at that time. This summary is qualified in its entirety by the full text of the Incentive Plan.

Purpose. The purpose of the Incentive Plan is to promote the success of the Company and the interests of its stockholders by providing an additional means for the Company to attract, motivate, retain and reward directors, officers, employees and other eligible persons (including consultants and advisors) through the grant of awards and incentives for high levels of individual performance and improved financial performance of the Company. Equity-based awards are also intended to further align the interests of award recipients and the Company's stockholders.

Administration. The Company's Board of Directors or one or more committees consisting of independent directors appointed by the Company's Board of Directors will administer the Incentive Plan. Our Board of Directors has delegated general administrative authority for the Incentive Plan to the compensation committee, which is comprised of directors who qualify as independent under rules promulgated by the SEC and The New York Stock Exchange listing standards. Except with respect to grants to non-employee directors, a committee may delegate some or all of its authority with respect to the Incentive Plan to another committee of directors and certain limited authority to grant awards to employees may be delegated to one or more officers of the Company. For purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), Rule 16b-3 of the Securities Exchange Act of 1934, as amended, the rules of the New York Stock Exchange (NYSE) and for grants to non-employee directors, the Incentive Plan must be administered by a committee consisting solely of independent directors. The appropriate acting body, be it the Company's Board of Directors, a committee within its delegated authority, or an officer within his or her delegated authority, is referred to in this plan description as the Administrator.

The Administrator has broad authority under the Incentive Plan with respect to award grants including, without limitation, the authority:

to select participants and determine the type(s) of award(s) that they are to receive;

to determine the number of shares that are to be subject to awards and the terms and conditions of awards, including the price (if any) to be paid for the shares or the award;

to cancel, modify, or waive the Company's rights with respect to, or modify, discontinue, suspend, or terminate any or all outstanding awards, subject to any required consents;

to accelerate or extend the vesting or exercisability or extend the term of any or all outstanding awards subject to any required consent;

subject to the other provisions of the Incentive Plan, to make certain adjustments to an outstanding award and to authorize the conversion, succession or substitution of an award;

to allow the purchase price of an award or shares of Company Common Stock to be paid in the form of cash, check, or electronic funds transfer, by the delivery of already-owned shares of Company Common Stock or by a reduction of the number of shares deliverable pursuant to the award, by services rendered by the recipient of the award, by notice of third party payment or by cashless exercise, on such terms as the Administrator may authorize, or any other form permitted by law.

Eligibility. Persons eligible to receive awards under the Incentive Plan include officers and employees of the Company or any of its subsidiaries, directors of the Company, and certain consultants and advisors to the Company or any of its subsidiaries.

Authorized Shares. The maximum number of shares of Company Common Stock that may be issued pursuant to awards under the Incentive Plan is 2,657,744. No awards were made in 2009. The Incentive Plan generally provides that shares issued in connection with awards that are granted by or become obligations of

Table of Contents

the Company through the assumption of awards (or in substitution for awards) in connection with an acquisition of another Company will not count against the shares available for issuance under the Incentive Plan.

No Repricing. In no case (except due to an adjustment to reflect a stock split or similar event or any repricing that may be approved by stockholders) will any adjustment be made to a stock option or stock appreciation right award under the Incentive Plan (by amendment, cancellation and regrant, exchange or other means) that would constitute a repricing of the per share exercise or base price of the award.

Types of Awards. The Incentive Plan authorizes stock options, stock appreciation rights, restricted stock, restricted stock units, stock bonuses and other forms of awards that may be granted or denominated in Company Common Stock or units of Company Common Stock, as well as cash bonus awards. The Incentive Plan retains flexibility to offer competitive incentives and to tailor benefits to specific needs and circumstances. Any award may be paid or settled in cash.

Stock Options. A stock option is the right to purchase shares of Company Common Stock at a future date at a specified price per share (the exercise price.) The per share exercise price of an option generally may not be less than the fair market value of a share of Company Common Stock on the date of grant. The maximum term of an option is ten years from the date of grant. An option may be either an incentive stock option or a nonqualified stock option. Incentive stock options are taxed differently than nonqualified stock options and are subject to more restrictive terms under the Code and the Incentive Plan. Incentive stock options may be granted only to employees of the Company or a subsidiary.

Stock Appreciation Rights. A stock appreciation right is the right to receive payment of an amount equal to the excess of the fair market value of shares of Company Common Stock on the date of exercise of the stock appreciation right over the base price of the stock appreciation right. The base price will be established by the Administrator at the time of grant of the stock appreciation right and generally cannot be less than the fair market value of a share of Company Common Stock on the date of grant. Stock appreciation rights may be granted in connection with other awards or independently. The maximum term of a stock appreciation right is ten years from the date of grant.

Restricted Stock. Shares of restricted stock are shares of Company Common Stock that are subject to certain restrictions on sale, pledge, or other transfer by the recipient during a particular period of time (the restricted period). Subject to the restrictions provided in the applicable award agreement and the Incentive Plan, a participant receiving restricted stock may have all of the rights of a stockholder as to such shares, including the right to vote and the right to receive dividends.

Restricted Stock Units. A restricted stock unit (RSU), represents the right to receive one share of Company Common Stock on a specific future vesting or payment date. Subject to the restrictions provided in the applicable award agreement and the Incentive Plan, a participant receiving RSUs has no stockholder rights until shares of common stock are issued to the participant. RSUs may be granted with dividend equivalent rights.

Cash Awards. The Administrator, in its sole discretion, may grant cash awards, including without limitation, discretionary awards, awards based on objective or subjective performance criteria, and awards subject to other vesting criteria.

Other Awards. The other types of awards that may be granted under the Incentive Plan include, without limitation, stock bonuses, performance stock, dividend equivalents, and similar rights to purchase or acquire shares of Company Common Stock.

Performance-Based Awards. The Administrator may grant awards that are intended to be performance-based compensation within the meaning of Section 162(m) of the Code (Performance-Based Awards). Performance-Based Awards are in addition to any of the other types of awards that may be granted under the Incentive Plan (including options and stock appreciation rights which may also qualify as performance-based

Table of Contents

compensation for Section 162(m) purposes). Performance-Based Awards may be in the form of restricted stock, performance stock, stock units, other rights, or cash bonus opportunities.

The vesting or payment of Performance-Based Awards (other than options or stock appreciation rights) will depend on the absolute or relative performance of the Company on a consolidated, subsidiary, segment, division, or business unit basis. The Administrator will establish the targets on which performance will be measured based on criterion or criteria selected by the Administrator. The Administrator must establish criteria and targets in advance of applicable deadlines under the Code and while the attainment of the performance targets remains substantially uncertain. The Administrator may use any criteria it deems appropriate for this purpose, and applicable criteria may include one or more of the following: earnings per share, cash flow (which means cash and cash equivalents derived from either net cash flow from operations or net cash flow from operating, financing and investing activities), total stockholder return, gross revenue, revenue growth, operating income (before or after taxes), net earnings (before or after interest, taxes, depreciation and/or amortization), return on equity, capital employed, or on assets or net investment, cost containment or reduction, operating margin, debt reduction, finding and development costs, production growth or production growth per share, reserve replacement or reserve replacement per share or any combination thereof. The performance measurement period with respect to an award may be as short as three months to as long as ten years. Performance targets will be adjusted to mitigate the unbudgeted impact of material, unusual or nonrecurring gains and losses, accounting changes or other extraordinary events not foreseen at the time the targets were set unless the Administrator provides otherwise at the time of establishing the targets.

Performance-Based Awards may be paid in stock or in cash. Before any Performance-Based Award (other than an option or stock appreciation right) is paid, the Administrator must certify that the performance target or targets have been satisfied. The Administrator has discretion to determine the performance target or targets and any other restrictions or other limitations of Performance-Based Awards and may reserve discretion to reduce payments below maximum award limits.

Acceleration of Awards; Possible Early Termination of Awards. Generally, and subject to limited exceptions set forth in the Incentive Plan, if any person acquires more than 50% of the outstanding common stock or combined voting power of the Company, if there are certain changes in a majority of the Company Board of Directors, if stockholders prior to a transaction do not continue to own more than 50% of the voting securities of the Company (or a successor or a parent) following a reorganization, merger, statutory share exchange or consolidation or similar corporate transaction involving the Company or any of its subsidiaries, a sale or other disposition of all or substantially all of the Company's assets or the acquisition of assets or stock of another entity by the Company or any of its subsidiaries, or if the Company is dissolved or liquidated, then awards then-outstanding under the Incentive Plan may become fully vested or paid, as applicable, and may terminate or be terminated upon consummation of such a change in control event. The Administrator also has the discretion to establish other change in control provisions with respect to awards granted under the Incentive Plan. For example, the Administrator could provide for the acceleration of vesting or payment of an award in connection with a change in control event that is not described above or provide that any such acceleration shall be automatic upon the occurrence of any such event.

Transfer Restrictions. Awards under the Incentive Plan generally are not transferable by the recipient other than by will or the laws of descent and distribution, or pursuant to domestic relations orders, and are generally exercisable during the recipient's lifetime only by the recipient. Any amounts payable or shares issuable pursuant to an award generally will be paid only to the recipient or the recipient's beneficiary or representative. The Administrator has discretion, however, to establish written conditions and procedures for the transfer of awards to other persons or entities, as long as such transfers comply with applicable federal and state securities laws.

Adjustments. As is customary in incentive plans of this nature, the share limit and the number and kind of shares available under the Incentive Plan and any outstanding awards, as well as the exercise or purchase prices of awards,

and performance targets under certain types of performance-based awards, are subject to adjustment in the event of certain reorganizations, mergers, combinations, recapitalizations, stock

splits, stock dividends, or other similar events that change the number or kind of shares outstanding, and extraordinary dividends or distributions of property to the stockholders.

No Limit on Other Authority. The Incentive Plan does not limit the authority of the Company's Board of Directors or any committee to grant awards or authorize any other compensation, with or without reference to Company Common Stock, under any other plan or authority.

Termination of, or Changes to, the Incentive Plan. The Administrator may amend or terminate the Incentive Plan at any time and in any manner. Stockholder approval for an amendment will be required only to the extent then required by applicable law or any applicable listing agency or required under Sections 162, 409A, 422 or 424 of the Code to preserve the intended tax consequences of the Incentive Plan. For example, stockholder approval will be required for any amendment that proposes to increase the maximum number of shares that may be delivered with respect to awards granted under the Incentive Plan. Adjustments as a result of stock splits or similar events will not, however, be considered an amendment requiring stockholder approval. Unless terminated earlier by the Board of Directors, the authority to grant new awards under the Incentive Plan will terminate ten years from the date of its adoption, or July 31, 2019. Outstanding awards generally will continue following the expiration or termination of the Incentive Plan. Generally speaking, outstanding awards may be amended by the Administrator (except for a repricing), but the consent of the award holder is required if the amendment (or any plan amendment) materially and adversely affects the holder.

Awards Under the Incentive Plan. No awards were made under the Incentive Plan in 2009. Because future awards under the Incentive Plan will be granted in the discretion of the Company's Board of Directors or a committee of the board, the type, number, recipients and other terms of future awards cannot be determined at this time.

as to which such executive became aware, during his employment belong to Predecessor Resolute, (ii) to maintain confidentiality of proprietary information, and (iii) to turn over to Predecessor Resolute all business records during, and upon termination of, employment.

In addition, as discussed above, Predecessor Resolute has the right, in its sole discretion, to agree to make severance payments to any executive officer for up to eighteen months following termination other than for Cause (as defined), or upon voluntary resignation following a reduction in annual salary. Severance payments would be equal to the executive's salary immediately prior to termination. During the period in which severance payments are being made, the executive may not engage in the oil and gas business in an area within a ten mile radius of the boundaries of any property interest of Predecessor Resolute (the Non-Compete). In addition, the executive is subject to the Non-Compete, even if no severance is paid, if the executive resigns other than following a salary reduction, the executive is terminated for Cause, or the executive has breached any material provision of the Confidentiality Agreement. In addition, the executive is in all events prohibited during the eighteen months following termination from inducing any other employee of Predecessor Resolute to terminate his employment or cease providing services to Predecessor Resolute. Upon the consummation of the Resolute Transaction, these agreements became agreements of Resolute.

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially provides extra convenience for stockholders and cost savings for us. Under this procedure, multiple stockholders who share the same last name and address will receive only one copy of the annual proxy materials, unless they notify us that they wish to continue receiving multiple copies. We have undertaken householding to reduce our printing costs and postage fees.

If you wish to opt-out of householding and continue to receive multiple copies of the proxy materials at the same address, you may do so at any time prior to thirty days before the mailing of proxy materials, which will typically be mailed in April of each year, by notifying us in writing at: Resolute Energy Corporation, Attn: Shareholder Services, 1675 Broadway, Suite 1950, Denver CO 80202, or by contacting us at (303) 534-4600. You also may request additional copies of the proxy materials by notifying us in writing at the same address or contacting us at (303) 534-4600, and we will undertake to deliver such additional copies promptly. If you share an address with another stockholder and currently are receiving multiple copies of the proxy materials, you may request householding by notifying us at the above referenced address or telephone number.
