PERMIAN BASIN ROYALTY TRUST
PART I FINANCIAL INFORMATION

Item 1. Financial Statements

The condensed financial statements included herein have been prepared by Bank of America, N.A. as Trustee for the Permian Basin Royalty Trust, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements have been condensed or omitted pursuant to such rules and regulations, although the Trustee believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed financial statements and notes thereto be read in conjunction with the financial statements and the notes thereto included in the Trust's latest annual report on Form 10-K. In the opinion of the Trustee, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the assets, liabilities and trust corpus of the Permian Basin Royalty Trust at September 30, 2010, the distributable income for the three-month and nine-month periods ended September 30, 2010 and 2009 and the changes in trust corpus for the nine-month periods ended September 30, 2010 and 2009 have been included. The distributable income for such interim periods is not necessarily indicative of the distributable income for the full year.

The condensed financial statements as of September 30, 2010 and for the three-month and nine-month periods ended September 30, 2010 and 2009 included herein have been reviewed by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report appearing herein.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Unit Holders of Permian Basin Royalty Trust and

Bank of America, N.A., Trustee

Dallas, Texas

We have reviewed the accompanying condensed statement of assets, liabilities and trust corpus of Permian Basin Royalty Trust (the Trust) as of September 30, 2010, the related condensed statements of distributable income for the three-month and nine-month periods ended September 30, 2010 and 2009 and changes in trust corpus for the nine-month periods ended September 30, 2010 and 2009. These condensed financial statements are the responsibility of the Trustee.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

As described in Note 1 to the condensed financial statements, these condensed financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed interim financial statements for them to be in conformity with the basis of accounting described in Note 1.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of assets, liabilities, and trust corpus of Permian Basin Royalty Trust as of December 31, 2009, and the related statements of distributable income and changes in trust corpus for the year then ended (not presented herein); and in our report dated March 1, 2010, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying condensed statement of assets, liabilities, and trust corpus as of December 31, 2009, is fairly stated, in all material respects, in relation to the statement of assets, liabilities and trust corpus from which it has been derived.

PERMIAN BASIN ROYALTY TRUST

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF ACCOUNTING

The Permian Basin Royalty Trust (Trust) was established as of November 1, 1980. The net overriding royalties conveyed to the Trust include: (1) a 75% net overriding royalty carved out of Southland Royalty Company's fee mineral interests in the Waddell Ranch in Crane County, Texas (the Waddell Ranch properties); and (2) a 95% net overriding royalty carved out of Southland Royalty Company's major producing royalty interests in Texas (the Texas Royalty properties). The net overriding royalty for the Texas Royalty properties is subject to the provisions of the lease agreements under which such royalties were created. The financial statements of the Trust are prepared on the following basis:

Royalty income recorded for a month is the amount computed and paid to Bank of America, N.A. (Trustee) as Trustee for the Trust by the interest owners: Burlington Resources Oil & Gas Company LP (BROG), a subsidiary of ConocoPhillips for the Waddell Ranch properties and Riverhill Energy Corporation (Riverhill Energy), formerly a wholly owned subsidiary of Riverhill Capital Corporation (Riverhill Capital) and formerly an affiliate of Coastal Management Corporation (CMC), for the Texas Royalty properties. Schlumberger Technology Corporation (STC) currently conducts all field, technical and accounting operations on behalf of BROG with regard to the Waddell Ranch properties. Riverhill Energy currently conducts the accounting operations for the Texas Royalty properties. Royalty income consists of the amounts received by the owners of the interest burdened by the net overriding royalty interests (Royalties) from the sale of production less accrued production costs, development and drilling costs, applicable taxes, operating charges, and other costs and deductions multiplied by 75% in the case of the Waddell Ranch properties and 95% in the case of the Texas Royalty properties.

As was previously reported, in February 1997, BROG sold its interest in the Texas Royalty properties to Riverhill Energy.

The Trustee has been advised that in the first quarter of 1998, STC acquired all of the shares of stock of Riverhill Capital. Prior to such acquisition by STC, CMC and Riverhill Energy were wholly owned subsidiaries of Riverhill Capital. The Trustee has further been advised that in connection with STC's acquisition of Riverhill Capital, the shareholders of Riverhill Capital acquired ownership of all of the shares of stock of Riverhill Energy. Thus, the ownership in the Texas Royalty properties referenced above remained in Riverhill Energy, the stock ownership of which was acquired by the former shareholders of Riverhill Capital.

In 2007 the Bank of America private wealth management group officially became known as U.S. Trust, Bank of America Private Wealth Management. The legal entity that serves as Trustee of the Trust did not change, and references in this

Table of Contents

Form 10-Q to U.S. Trust, Bank of America Private Wealth Management shall describe the legal entity Bank of America, N.A.

Trust expenses recorded are based on liabilities paid and cash reserves established out of cash received or borrowed funds for liabilities and contingencies.

Distributions to Unit holders are recorded when declared by the Trustee.

Royalty income is computed separately for each of the conveyances under which the Royalties were conveyed to the Trust. If monthly costs exceed revenues for any conveyance (excess costs), such excess costs cannot reduce royalty income from other conveyances, but is carried forward with accrued interest to be recovered from future net proceeds of that conveyance.

The financial statements of the Trust differ from financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) because revenues are not accrued in the month of production and certain cash reserves may be established for contingencies which would not be accrued in financial statements prepared in accordance with GAAP. Amortization of the Royalties calculated on a unit-of-production basis is charged directly to trust corpus. This comprehensive basis of accounting other than GAAP corresponds to the accounting permitted for royalty trusts by the U.S. Securities and Exchange Commission as specified by Staff Accounting Bulletin Topic 12:E, *Financial Statements of Royalty Trusts*.

New Accounting Pronouncements

In June 2009, the FASB issued guidance which changes how a company determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a company is required to consolidate an entity is based on, among other things, an entity's purpose and design and a company's ability to direct the activities of the entity that most significantly impact the entity's economic performance. This guidance was effective for the Trust on January 1, 2010 and the adoption did not have an impact on the Trust's financial statements.

Use of Estimates

The preparation of financial statements in conformity with the basis of accounting described above requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues and expenses as of and for the reporting period. Actual results may differ from such estimates.

2. FEDERAL INCOME TAXES

For federal income tax purposes, the Trust constitutes a fixed investment trust which is taxed as a grantor trust. A grantor trust is not subject to tax at the trust level. The Unit holders are considered to own the Trust's income and principal as though no trust were in existence. The income of the Trust is deemed to have been received or accrued by each

Table of Contents

Unit holder at the time such income is received or accrued by the Trust and not when distributed by the Trust.

The Royalties constitute economic interests in oil and gas properties for federal income tax purposes. Unit holders must report their share of the revenues from the Royalties as ordinary income from oil and gas royalties and are entitled to claim depletion with respect to such income.

The Trust has on file technical advice memoranda confirming the tax treatment described above.

The classification of the Trust's income for purposes of the passive loss rules may be important to a Unit holder. Royalty income generally is treated as portfolio income and does not offset passive losses.

Some Trust Units are held by middlemen, as such term is broadly defined in U.S. Treasury Regulations (and includes custodians, nominees, certain joint owners, and brokers holding an interest for a custodian in street name, collectively referred to herein as middlemen). Therefore, the Trustee considers the Trust to be a non-mortgage widely held fixed investment trust (WHFIT) for U.S. federal income tax purposes. U.S. Trust, Bank of America Private Wealth Management, EIN: 56-0906609, 901 Main Street, 17th Floor, Dallas, Texas 75202, telephone number (214) 209-2400, is the representative of the Trust that will provide tax information in accordance with applicable U.S. Treasury Regulations governing the information reporting requirements of the Trust as a WHFIT. Tax information is also posted by the Trustee at www.pbt-permianbasintrust.com. Notwithstanding the foregoing, the middlemen holding Trust Units on behalf of Unit holders, and not the Trustee of the Trust, are solely responsible for complying with the information reporting requirements under the U.S. Treasury Regulations with respect to such Trust Units, including the issuance of IRS Forms 1099 and certain written tax statements. Unit holders whose Trust Units are held by middlemen should consult with such middlemen regarding the information that will be reported to them by the middlemen with respect to the Trust Units.

Unit holders should consult their tax advisors regarding Trust tax compliance matters.

3. STATE TAX CONSIDERATIONS

All revenues from the Trust are from sources within Texas, which has no individual income tax. However, Texas imposes a margin tax on generally all entity types providing limited liability protection at a rate of 1% on gross revenues less certain deductions as specifically set forth in the Texas margin tax statute. Entities subject to tax generally include trusts unless otherwise exempt. Trusts that receive at least 90% of their federal gross income from designated passive sources, including royalties from mineral properties and other non-operated mineral interest income, and do not receive more than 10% of their income from operating an active trade or business, generally are exempt from the Texas margin tax as passive entities. The Trust should be exempt from Texas margin tax as a passive entity. Since the Trust should be exempt from Texas margin tax at the Trust level as a passive entity, each Unit holder that is considered a taxable

Table of Contents

entity under the Texas margin tax will generally be required to include its portion of Trust revenues in its own Texas margin tax computation. This revenue is sourced to Texas under provisions of the Texas Administrative Code that provide such income is sourced according to the principal place of business of the Trust, which is Texas.

Each Unit holder is urged to consult his own tax advisor regarding the requirements for filing state tax returns.

4. SUBSEQUENT EVENTS

Subsequent to September 30, 2010, the Trust declared a distribution on October 19, 2010 of \$0.107227 per Unit payable on November 15, 2010, to Unit holders of record on October 29, 2010.

5. CONTINGENCIES

Contingencies related to the Underlying Properties that are unfavorably resolved would generally be reflected by the Trust as reductions to future royalty income payments to the Trust with corresponding reductions to cash distributions to Unit holders. The Trustee is aware of no such items as of September 30, 2010.

* * * * *

Item 2. Trustee's Discussion and Analysis

Forward Looking Information

Certain information included in this report contains, and other materials filed or to be filed by the Trust with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by the Trust) may contain or include, forward looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. Such forward looking statements may be or may concern, among other things, capital expenditures, drilling activity, development activities, production efforts and volumes, hydrocarbon prices and the results thereof, and regulatory matters. Although the Trustee believes that the expectations reflected in such forward-looking statements are reasonable, such expectations are subject to numerous risks and uncertainties and the Trustee can give no assurance that they will prove correct. There are many factors, none of which are within the Trustee's control, that may cause such expectations not to be realized, including, among other things, factors such as actual oil and gas prices and the recoverability of reserves, capital expenditures, general economic conditions, actions and policies of petroleum-producing nations and other changes in the domestic and international energy markets. Such forward looking statements generally are accompanied by words such as estimate, expect, predict, anticipate, goal, show, assume, believe, or other words that convey the uncertainty of future events or outcomes.

Table of Contents**Three Months Ended September 30, 2010 Compared to Three Months Ended September 30, 2009**

For the quarter ended September 30, 2010, royalty income received by the Trust amounted to \$16,016,241 compared to royalty income of \$10,469,008 during the third quarter of 2009. The increase in royalty income is primarily attributable to increases in both oil and gas prices.

Interest income for the quarter ended September 30, 2010, was \$420 compared to \$335 during the third quarter of 2009. The increase in interest income is primarily attributable to more funds available for investment, offset by lower interest rates. General and administrative expenses during the third quarter of 2010 amounted to \$124,056 compared to \$135,642 during the third quarter of 2009. The decrease in general and administrative expenses can be primarily attributed to decreased professional expenses.

These transactions resulted in distributable income for the quarter ended September 30, 2010 of \$15,892,605 or \$.340979 per Unit of beneficial interest. Distributions of \$.116351, \$.111909 and \$.112717 per Unit were made to Unit holders of record as of July 30, 2010, August 31, 2010 and September 30, 2010, respectively. For the third quarter of 2009, distributable income was \$10,333,701, or \$.221711 per Unit of beneficial interest.

Royalty income for the Trust for the third quarter of the calendar year is associated with actual oil and gas production for the period of May, June and July 2010 from the properties from which the Trust's net overriding royalty interests (Royalties) were carved. Oil and gas sales attributable to the Royalties and the properties from which the Royalties were carved are as follows:

	Third Quarter	
	2010	2009
Production:		
Oil sales (Bbls)	168,282	138,420
Gas sales (Mcf)	763,886	588,825
Product Sales From Which The Royalties Were Carved:		
Oil:		
Total oil sales (Bbls)	256,478	266,797
Average per day (Bbls)	2,788	2,900
Average price per Bbl	\$ 69.56	\$ 59.65
Gas:		
Total gas sales (Mcf)	1,318,837	1,474,200
Average per day (Mcf)	14,335	16,024
Average price per Mcf	\$ 6.45	\$ 4.48

The average received price of oil increased to an average price per barrel of \$69.56 Bbl in the third quarter of 2010, compared to \$59.65 per Bbl in the third quarter of 2009 due to worldwide market variables. The Trustee has been advised by ConocoPhillips that for the period of August 1, 1993, through September 30, 2010, the oil from the Waddell Ranch properties was being sold

Table of Contents

under a competitive bid to a third party. The average price of gas increased from \$4.48 per Mcf in the third quarter of 2009 to \$6.45 per Mcf in the third quarter of 2010 due to change in overall market variables.

Since the oil and gas sales attributable to the Royalties are based on an allocation formula that is dependent on such factors as price and cost (including capital expenditures), the production amounts in the Royalties section of the above table do not provide a meaningful comparison. Oil sales volumes decreased and gas sales volumes decreased from the Underlying Properties (as defined in the Trust's Annual Report on Form 10-K for the year ended December 31, 2009) for the applicable period in 2010 compared to 2009.

Capital expenditures for drilling, remedial and maintenance activities on the Waddell Ranch properties during the third quarter of 2010 totaled \$366,440 as compared to \$3,881,031 for the Trust for the third quarter of 2009.

ConocoPhillips has informed the Trustee that the 2010 capital expenditures budget has been revised to \$22 million (gross) for the Waddell Ranch properties. The total amount of capital expenditures for 2009 was \$24.1 million.

Through the third quarter of 2010, capital expenditures of \$4.3 million (gross) have been expended.

The Trustee has been advised that there were 0 wells completed and 1 drill well in progress, and 2 workover wells completed and 13 workover wells in progress, during the three months ended September 30, 2010 as compared to 3 wells completed, 2 drill wells in progress, and 12 workover wells completed and 1 workover well in progress for the three months ended September 30, 2009 on the Waddell Ranch properties. There were 0 facility projects completed and 14 projects in progress for the third quarter of 2010.

Lease operating expenses and property taxes totaled \$4.7 million for the third quarter of 2010, compared to \$4.7 million in the third quarter of 2009 on the Waddell Ranch properties.

Nine Months Ended September 30, 2010 and 2009

For the nine months ended September 30, 2010, royalty income received by the Trust amounted to \$50,969,184 compared to royalty income of \$24,907,635 for the nine months ended September 30, 2009. The increase in royalty income is primarily due to an increase in oil and gas prices in the first nine months of 2010 compared to the first nine months in 2009. Interest income for the nine months ended September 30, 2010 was \$808 compared to \$3,017 for the nine months ended September 30, 2009. The decrease in interest income is attributable primarily to significantly lowered interest rates. General and administrative expenses for the nine months ended September 30, 2010 were \$987,391. During the nine months ended September 30, 2009, general and administrative expenses were \$1,065,614. The decrease in general and administrative expenses is primarily due to reduced professional expenses.

These transactions resulted in distributable income for the nine months ended September 30, 2010 of \$49,982,601, or \$1.072386 per Unit. For the nine months ended September 30, 2009, distributable income was \$23,845,038, or \$.511600 per Unit.

Royalty income for the Trust for the nine months ended September 30, 2010 is associated with actual oil and gas production for the period November 2009 through July 2010 from the properties from which the Royalties were carved. Oil and gas production attributable to the Royalties and the properties from which the Royalties were carved are as follows:

Table of Contents

	Nine Months Ended	
	2010	2009
Royalties:		
Oil sales (Bbls)	506,837	390,775
Gas sales (Mcf)	2,292,284	1,579,848
Properties From Which The Royalties Were Carved:		
Oil:		
Total oil sales (Bbls)	776,746	813,511
Average per day (Bbls)	2,845	2,980
Average price per Bbl	\$ 72.91	\$ 46.66
Gas:		
Total gas sales (Mcf)	3,958,768	4,300,963
Average per day (Mcf)	14,501	15,754
Average price per Mcf	\$ 6.95	\$ 4.44

The average received price of oil increased during the nine months ended September 30, 2010 to \$72.91 per barrel compared to \$46.66 per barrel for the same period in 2009. The increase in the average price of oil is primarily due to worldwide market variables. The increase in the average price of gas from \$4.44 per Mcf for the nine months ended September 30, 2009 to \$6.95 per Mcf for the nine months ended September 30, 2010 is primarily the result of an increase in the spot prices of natural gas. This average price for gas also includes significant prices for natural gas liquids which raises this average price of gas well above the average posted price of natural gas.

Since the oil and gas sales volumes attributable to the Royalties are based on an allocation formula that is dependent on such factors as price and cost (including capital expenditures), the production amounts in the Royalties section of the above table do not provide a meaningful comparison. The oil and gas sales volumes from the properties from which the Royalties are carved have declined for the applicable period of 2010 compared to 2009.

Capital expenditures for the Waddell Ranch properties for the nine months ended September 30, 2010 totaled \$1.6 million compared to \$9.3 million net to the Trust for the same period in 2009. ConocoPhillips has previously advised the Trust that the remaining 2010 capital expenditures budget for the Waddell Ranch properties is \$17.7 million (gross).

The Trustee has been advised that 0 wells were drilled and completed and 1 well to be completed on the Waddell Ranch properties during the nine months ended September 30, 2010, as compared to 9 wells drilled and completed and 2 wells to be completed on the Waddell Ranch properties during the nine months ended September 30, 2009. Approximately 2 workover wells were completed and approximately 13 workover wells were in progress as of September 30, 2010. Approximately 0 facilities projects were completed and 14 facilities projects were in progress. Lease operating expense and property taxes totaled \$12.1 million for the nine months ended September 30, 2010 compared to \$11.4 million for the same period in 2009. The increase in lease operating expense is primarily attributable to a increased maintenance work.

Table of Contents**Calculation of Royalty Income**

The Trust's royalty income is computed as a percentage of the net profit from the operation of the properties in which the Trust owns net overriding royalty interests. These percentages of net profits are 75% and 95% in the case of the Waddell Ranch properties and the Texas Royalty properties, respectively. Royalty income received by the Trust for the three months ended September 30, 2010 and 2009, respectively, were computed as shown in the table below:

	THREE MONTHS ENDED SEPTEMBER 30,			
	2010		2009	
	WADDELL RANCH PROPERTIES	TEXAS ROYALTY PROPERTIES	WADDELL RANCH PROPERTIES	TEXAS ROYALTY PROPERTIES
Gross proceeds of sales from the Underlying Properties				
Oil proceeds	\$ 12,343,193	\$ 5,496,900	\$ 11,136,482	\$ 4,778,476
Gas proceeds	7,333,630	1,168,823	5,836,377	775,040
Total	19,676,823	6,665,723	16,972,859	5,553,516
Less:				
Severance tax:				
Oil	491,195	177,759	434,136	173,940
Gas	363,863	68,120	330,079	45,387
Lease operating expense and property tax:

Critical Accounting Policies and Estimates

The Trust's financial statements reflect the selection and application of accounting policies that require the Trust to make significant estimates and assumptions. The following are some of the more critical judgment areas in the application of accounting policies that currently affect the Trust's financial condition and results of operations.

Basis of Accounting

The financial statements of the Trust are prepared on a modified cash basis and are not intended to present financial positions and results of operations in conformity with accounting principles generally accepted in the United States of America (GAAP). Preparation of the Trust's financial statements on such basis includes the following:

Table of Contents

Royalty income and interest income are recorded in the period in which amounts are received by the Trust rather than in the period of production and accrual, respectively.

General and administrative expenses recorded are based on liabilities paid and cash reserves established out of cash received.

Amortization of the royalty interests is calculated on a unit-of-production basis and charged directly to trust corpus when revenues are received.

Distributions to Unit holders are recorded when declared by the Trustee (see Note 1 to the Financial Statements).

The financial statements of the Trust differ from financial statements prepared in accordance with accounting principles generally accepted in the United States of America because royalty income is not accrued in the period of production, general and administrative expenses recorded are based on liabilities paid and cash reserves established rather than on accrual basis, and amortization of the royalty interests is not charged against operating results. This comprehensive basis of accounting other than GAAP corresponds to the accounting permitted for royalty trusts by the U.S. Securities and Exchange Commission as specified by Staff Accounting Bulletin Topic 12:E, *Financial Statements of Royalty Trusts*.

New Accounting Pronouncements

In June 2009, the FASB issued guidance which changes how a company determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a company is required to consolidate an entity is based on, among other things, an entity's purpose and design and a company's ability to direct the activities of the entity that most significantly impact the entity's economic performance. This guidance was effective for the Trust on January 1, 2010 and the adoption did not have an impact on the Trust's financial statements.

Revenue Recognition

Revenues from the royalty interests are recognized in the period in which amounts are received by the Trust. Royalty income received by the Trust in a given calendar year will generally reflect the proceeds, on an entitlement basis, from natural gas produced and sold for the twelve-month period ended October 31st in that calendar year. Royalty income received by the Trust in the third quarter of 2010 generally reflects the proceeds associated with actual oil and gas production for the period of May, June and July 2010.

Reserve Disclosure

As of January 1, 2010, independent petroleum engineers estimated the net proved reserves attributable to the royalty interests. Estimates of future net revenues from proved reserves have been prepared using average 12-month oil and gas prices, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within the 12-month period preceding the end of the most recent fiscal year, unless prices are defined by contractual arrangements. Numerous uncertainties are inherent in estimating volumes and the value of

Table of Contents

proved reserves and in projecting future production rates and the timing of development of non-producing reserves. Such reserve estimates are subject to change as additional information becomes available. The reserves actually recovered and the timing of production may be substantially different from the reserves estimates.

Contingencies

Contingencies related to the Underlying Properties that are unfavorably resolved would generally be reflected by the Trust as reductions to future royalty income payments to the Trust with corresponding reductions to cash distributions to Unit holders. The Trustee is aware of no such items as of September 30, 2010.

Use of Estimates

The preparation of financial statements in conformity with the basis of accounting described above requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues and expenses as of and for the reporting period. Actual results may differ from such estimates.

New Securities and Exchange Commission Rule

In December 2008, the Securities and Exchange Commission (the SEC) released Final Rule, Modernization of Oil and Gas Reporting. The new disclosure requirements include provisions that permit the use of new technologies to determine proved reserves if those technologies have been demonstrated empirically to lead to reliable conclusions about reserves volumes. The new requirements also allow companies to disclose their probable and possible reserves to investors. In addition, the new disclosure requirements require companies to: (a) report the independence and qualifications of its reserves preparer or auditor; (b) file reports when a third party is relied upon to prepare reserves estimates or conducts a reserves audit; and (c) report oil and gas reserves using an average price based upon the prior 12-month period rather than year-end prices. The new disclosure requirements are effective for financial statements for fiscal years ending on or after December 31, 2009. The effect of adopting the SEC rules did not have a significant effect on our reported financial position or distributable income.

Item 3. Qualitative and Quantitative Disclosures About Market Risk

There have been no material changes in the Trust's market risk, as disclosed in the Trust's Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

Item 4. Controls and Procedures

As of the end of the period covered by this report, the Trustee carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Trustee concluded that the Trust's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Trust in the reports that it files or submits under the Securities Exchange Act of 1934 and

Table of Contents

are effective in ensuring that information required to be disclosed by the Trust in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the Trustee to allow timely decisions regarding required disclosure. In its evaluation of disclosure controls and procedures, the Trustee has relied, to the extent considered reasonable, on information provided by Burlington Resources Oil & Gas Company LP, the owner of the Waddell Ranch properties, and Riverhill Energy Corporation, the owner of the Texas Royalty properties. There has not been any change in the Trust's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.

PART II OTHER INFORMATION

Items 1 through 5.

Not applicable.

Item 6. Exhibits

- 4.1 Permian Basin Royalty Trust Indenture dated November 3, 1980, between Southland Royalty Company (now Burlington Resources Oil & Gas Company LP) and The First National Bank of Fort Worth (now Bank of America, N.A.), as Trustee, heretofore filed as Exhibit (4)(a) to the Trust's Annual Report on Form 10-K to the Securities and Exchange Commission for the fiscal year ended December 31, 1980 is incorporated herein by reference.
- 4.2 Net Overriding Royalty Conveyance (Permian Basin Royalty Trust) from Southland Royalty Company (now Burlington Resources Oil & Gas Company LP) to The First National Bank of Fort Worth (now Bank of America, N.A.), as Trustee, dated November 3, 1980 (without Schedules), heretofore filed as Exhibit (4)(b) to the Trust's Annual Report on Form 10-K to the Securities and Exchange Commission for the fiscal year ended December 31, 1980 is incorporated herein by reference.
- 4.3 Net Overriding Royalty Conveyance (Permian Basin Royalty Trust - Waddell Ranch) from Southland Royalty Company (now Burlington Resources Oil & Gas Company LP) to The First National Bank of Fort Worth (now Bank of America, N.A.), as Trustee, dated November 3, 1980 (without Schedules), heretofore filed as Exhibit (4)(c) to the Trust's Annual Report on Form 10-K to the Securities and Exchange Commission for the fiscal year ended December 31, 1980 is incorporated herein by reference.
- 10.1 Registration Rights Agreement dated as of July 21, 2004 by and between Burlington Resources, Inc. and Bank of America, N.A., as trustee of Permian Basin Royalty Trust, heretofore filed as Exhibit 10.1 to the Trust's Quarterly Report on Form 10-Q to the Securities and Exchange Commission for the quarterly period ended June 30, 2004 is incorporated herein by reference.
- 10.2 Underwriting Agreement dated December 15, 2005 among the Permian Basin Royalty Trust, Burlington Resources, Inc., Burlington Resources Oil & Gas L.P. and Lehman Brothers Inc. and Wachovia Capital Markets, LLC as representatives of the several underwriters, heretofore filed as Exhibit 10.1 to the Trust's current report on Form 8-K to the Securities and Exchange Commission filed on December 19, 2005, is incorporated herein by reference.

Table of Contents

- 10.3 Underwriting Agreement dated August 2, 2005 among the Permian Basin Royalty Trust, Burlington Resources, Inc., Burlington Resources Oil & Gas L.P. and Goldman Sachs & Co. and Lehman Brothers Inc. as representatives of the several underwriters, heretofore filed as Exhibit 10.1 to the Trust's current report on Form 8-K to the Securities and Exchange Commission filed on August 8, 2005, is incorporated herein by reference.
- 10.4 Underwriting Agreement dated August 17, 2006, among Permian Basin Royalty Trust, ConocoPhillips, Burlington Resources Oil & Gas Company LP and Lehman Brothers Inc. and Wachovia Capital Markets, LLC as representatives of the several underwriters heretofore filed as Exhibit 10.1 to the Trust's current report on Form 8-K to the Securities and Exchange Commission filed on August 22, 2006, is incorporated herein by reference.
- 31.1 Certification by Ron E. Hooper, Senior Vice President and Trust Administrator of Bank of America, Trustee of Permian Basin Royalty Trust, dated November 5, 2010 and submitted pursuant to Rule 13a-14(a)/15d-14(a) and pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certificate by Bank of America, Trustee of Permian Basin Royalty Trust, dated November 5, 2010 and submitted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. Section 1350).
