Item 1.01. Entry into a Material Definitive Agreement

On May 4, 2011, Linn Energy, LLC (the Company) entered into, through one of its wholly-owned subsidiaries, a definitive purchase agreement (the Agreement) with Panther Energy Company, LLC and Red Willow Mid-Continent, LLC to acquire 40 percent of their oil and natural gas properties located in Ochiltree and Lipscomb Counties, Texas and Ellis County, Oklahoma (the Acquisition) for a contract price of \$220 million, subject to closing conditions. The Company anticipates the acquisition will close on or before June 1, 2011, and will be financed with net proceeds from a private offering by the Company and its subsidiary, Linn Energy Finance Corp., of \$750 million in aggregate principal amount of senior unsecured notes due 2019 (the Notes Offering). - (1) The Company uses puts and basis swaps, which settle on the Panhandle Eastern Pipeline, or PEPL, spot price of natural gas, to hedge basis differential associated with natural gas production in the Mid-Continent Deep and Mid-Continent Shallow regions.
- (2) As presented in the table above, the Company has certain outstanding fixed price oil swaps on 14,750 Bbls of daily production which may be extended annually at a price of \$100.00 per Bbl for each of the years ending December 31, 2015, December 31, 2016, and December 31, 2017, if the counterparties determine that the strike prices are in-the-money on a designated date in each respective preceding year. The extension for each year is exercisable without respect to the other years.
- (3) The Company uses trade month roll swaps to hedge timing risk associated with the sales price of oil in the Mid-Continent Deep, Mid-Continent Shallow and Permian Basin regions. In these regions, the Company generally sells oil for the delivery month at a sales price based on the average NYMEX price of light oil during that month, plus an adjustment calculated as a spread between the weighted average prices of the delivery month, the next month and the following month during the period when the delivery month is prompt (the trade month roll). Swaps for 2011 hedge production volumes for October through December.
