Item 1.02. Termination of a Material Definitive Agreement.

As previously disclosed in its Current Report on Form 8-K filed September 18, 2007, on September 17, 2007, Sterling Chemicals, Inc. (Sterling) entered into a long-term exclusive styrene supply agreement and a related rail car purchase and sale agreement with Nova Chemicals Inc. (NOVA), which have subsequently been assigned by NOVA to INEOS NOVA LLC (INEOS NOVA). Under the supply agreement, INEOS NOVA had the exclusive right to 100% of our styrene production (subject to existing contractual commitments), the amount of any styrene supplied in any particular period being at INEOS NOVA s option based on a full-cost formula.

On November 12, 2007, INEOS NOVA nominated zero pounds of styrene for the balance of 2007 and, on that same date, Sterling elected to exercise its right under the supply agreement to permanently shut down and decommission its styrene plant and sent notice of this election to INEOS NOVA and NOVA on such date. The determination by Sterling to permanently shut down its styrene plant under the agreement resulted in the agreement s termination, which became effective upon receipt by INEOS NOVA and NOVA of Sterling s notice.

The press release announcing Sterling s election to shut down and decommission its styrene plant and the supply agreement is included in this Current Report as Exhibit 99.1 and 10.1, respectively, and each is incorporated herein by reference.
