K12 Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

1. Description of the Business

K12 Inc. and its subsidiaries (K12 or the Company) sell online curriculum and educational books and materials designed for students in grades K-12 and provide management and technology services to virtual public schools. The K12 proprietary curriculum is research-based and combines content with innovative technology to allow students to receive an outstanding education regardless of geographic location. In contracting with a virtual public school, the Company typically provides students with access to the K12 on-line curriculum, offline learning kits, and use of a personal computer. As of March 31, 2009, the Company served schools in 21 states and the District of Columbia. The Company expanded into four new states in fiscal year 2009: Hawaii, Indiana, Oregon and South Carolina. In addition, the Company sells access to its on-line curriculum and offline learning kits directly to individual consumers.

2. Basis of Presentation

The accompanying condensed consolidated balance sheet as of March 31, 2009, the condensed consolidated statements of operations for the three and nine months ended March 31, 2009 and 2008, the condensed consolidated statements of cash flows for the nine months ended March 31, 2009 and 2008, and the condensed consolidated statement of stockholders' equity for the nine months ended March 31, 2009 are unaudited. The unaudited interim financial statements have been prepared on the same basis as the annual financial statements and in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the Company's financial position as of March 31, 2009, the results of operations for the three and nine months ended March 31, 2009 and 2008, the results of cash flows for the nine months ended March 31, 2009 and 2008 and the stockholders' equity for the nine months ended March 31, 2009. The results of the three and nine month periods ended March 31, 2009 are not necessarily indicative of the results to be expected for the year ending June 30, 2009 or for any other interim period or for any other future fiscal year. The consolidated balance sheet as of June 30, 2008 has been derived from the audited consolidated financial statements at that date.

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X of the Securities Exchange Act of 1934, as amended (Exchange Act). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, these statements include all adjustments (consisting of normal recurring adjustments) considered necessary to present a fair statement of our consolidated results of operations, financial position and cash flows. Preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the financial statements and footnotes. Actual results could differ from those estimates. This quarterly report on Form 10-Q should be read in conjunction with the financial statements and the notes thereto included in the company's latest annual report on Form 10-K filed on September 26, 2008, which contains the Company's audited financial statements for the fiscal year ended June 30, 2008.

K12 Inc.**Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****3. Summary of Significant Accounting Policies*****Restricted Cash***

Restricted cash consists of cash held in escrow pursuant to an agreement with a virtual public school we manage. The Company established an escrow account for the benefit of the school's sponsoring school district in the event a future claim is made.

Consolidation

The condensed consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries and affiliated companies in which the Company owns, directly or indirectly, or otherwise controls 50% or more of the outstanding voting interests. Under the consolidation method, an affiliated company's results of operations are reflected within the consolidated statements of operations. Earnings or losses attributable to other stockholders of a consolidated affiliated company are classified as minority interest in the Company's consolidated statements of operations. Minority interest adjusts the Company's consolidated net results of operations to reflect only its share of the after-tax earnings or losses of an affiliated company. Income taxes attributable to minority interest are determined using the applicable statutory tax rates in the jurisdictions where such operations are conducted. These rates vary from country to country. All significant intercompany transactions and balances have been eliminated in consolidation.

Net Income Per Common Share

Basic earnings per share is computed by dividing net income available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflects the potential dilution that could occur assuming conversion or exercise of all dilutive unexercised stock options and warrants. The dilutive effect of stock options was determined using the treasury stock method. Under the treasury stock method, the proceeds received from the exercise of stock options, the amount of compensation cost for future service not yet recognized by the Company, and the amount of tax benefits that would be recorded in additional paid-in capital when the stock options become deductible for income tax purposes are all assumed to be used to repurchase shares of the Company's common stock. Stock options are not included in the computation of diluted earnings per share when they are antidilutive.

The following schedule presents the calculation of basic and diluted net income per share:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2009	2008	2009	2008
	(In thousands, except share and per share data)		(In thousands, except share and per share data)	
Net income available to common shareholders - basic and diluted	\$ 3,547	\$ 2,460	\$ 12,981	\$ 1,411

Edgar Filing: K12 INC - Form 10-Q

Weighted average common shares outstanding basic	28,863,137	27,449,893	28,664,900	11,700,017
Weighted average common shares outstanding diluted	29,466,247	28,780,389	29,613,784	12,706,126
Net income per common share:				
Basic	\$ 0.12	\$ 0.09	\$ 0.45	\$ 0.12
Diluted	\$ 0.12	\$ 0.09	\$ 0.44	\$ 0.11

K12 Inc.**Notes to Unaudited Condensed Consolidated Financial Statements (Continued)*****Recently Adopted Financial Accounting Pronouncements***

The Company adopted the provisions of Financial Accounting Standards Board (FASB) Statement No. 157 (FAS 157), Fair Value Measurements, on July 1, 2008. FAS 157 defines fair value, establishes a framework for measuring fair value under Generally Accepted Accounting Principles (GAAP), and expands disclosures about fair value measurements. The implementation of this Statement was not material to the Company's consolidated financial position or results of operations. Please refer to Note 8, Fair Value Measurements, for additional information.

4. Long-term Obligations***Capital Leases***

As of March 31, 2009, computer equipment and software under capital leases are recorded at a cost of \$34.4 million and accumulated depreciation of \$14.7 million. The Company has an equipment lease line of credit that expires on August 31, 2009 for new purchases on the line of credit. The interest rate on new purchases under the equipment lease line typically is set quarterly. Borrowings under the equipment lease line have interest rates ranging from 5.6% to 8.8% and include a 36-month payment term with a \$1 purchase option at the end of the term. The Company has pledged the assets financed with the equipment lease line to secure the amounts outstanding. The Company entered into a guaranty agreement with the lessor to guarantee the obligations under this equipment lease and financing agreement.

Notes Payable

The Company has purchased computer software licenses and maintenance services through notes payable arrangements with various vendors at interest rates ranging up to 6.1% and payment terms ranging from eighteen months to three years. The balance of notes payable at March 31, 2009 is \$3.4 million.

The following is a summary as of March 31, 2009 of the present value of the net minimum payments on capital leases and notes payable under the Company's commitments:

March 31,	Capital Leases	Notes Payable	Total
2009	\$ 11,917	\$ 1,224	\$ 13,141
2010	8,361	1,345	9,706
2011	3,668	1,004	4,672
Total minimum payments	23,946	3,573	27,519
Less amount representing interest (imputed interest rate of 7.5% on capital leases)	(1,739)	(217)	(1,956)
Net minimum payments	22,207	3,356	25,563
Less current portion	(10,746)	(1,143)	(11,889)

Edgar Filing: K12 INC - Form 10-Q

Present value of minimum payments, less current portion	\$ 11,461	\$ 2,213	\$ 13,674
---	-----------	----------	-----------

K12 Inc.**Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****5. Stock Option Plan**

Stock option activity during the nine months ended March 31, 2009 was as follows:

	Shares	Weighted-Average Exercise Price	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding, June 30, 2008	4,766,849	\$ 11.20		
Granted	778,650	22.80		
Exercised	(980,303)	7.29		
Canceled	(92,122)	14.77		
Outstanding, March 31, 2009	4,473,074	\$ 14.00	5.18	\$
Stock options exercisable at March 31, 2009	2,141,801	\$ 9.01	4.14	\$ 10,472

The total intrinsic value of options exercised during the three months ended March 31, 2009 was \$0.8 million.

The following table summarizes the option grant activity for the nine months ended March 31, 2009.

Grant date	Options Granted	Weighted-Average Exercise Price	Weighted Average Grant-Date Fair Value	Intrinsic Value
July 2008	15,700	\$ 21.94	\$ 9.81	\$
August 2008	489,000	\$ 23.45	\$ 10.47	\$
September 2008	54,400	\$ 27.77	\$ 12.40	\$
November 2008	67,850	\$ 23.94	\$ 10.50	\$
February 2009	151,700	\$ 18.49	\$ 8.48	\$
	778,650			

As of March 31, 2009, there was \$8.0 million of total unrecognized compensation expense related to unvested stock options granted. The cost is expected to be recognized over a weighted average period of 2.9 years. The total fair value of shares vested during the nine months ended March 31, 2009 was \$9.3 million. During the nine months ended

March 31, 2009, the Company recognized \$2.0 million of stock based compensation expense.

6. Commitments and Contingencies

Litigation

In the ordinary conduct of business, the Company is subject to lawsuits, arbitrations and administrative proceedings from time to time. The Company is currently involved in a lawsuit brought by a teacher's union seeking the closure of the virtual public school the Company serves in Illinois.

K12 Inc.**Notes to Unaudited Condensed Consolidated Financial Statements (Continued)*****Illinois v. Chicago Virtual Charter School***

On October 4, 2006, the Chicago Teachers Union and individual taxpayers (CTU or plaintiffs) filed a citizen taxpayer's lawsuit in the Circuit Court of Cook County challenging the decision of the Illinois State Board of Education to certify the Chicago Virtual Charter School (CVCS) and to enjoin the disbursement of state funds to the Chicago Board of Education under its contract with the CVCS. Specifically, the CTU alleges that the Illinois charter school law prohibits any home-based charter schools and that CVCS does not provide sufficient direct instruction by certified teachers of at least five clock hours per day to qualify for funding. K12 Inc. and K12 Illinois LLC were also named as defendants. On May 16, 2007, the Court dismissed K12 Inc. and K12 Illinois LLC from the case. After three dismissals of their complaint on procedural grounds, the Court granted the plaintiff's Fourth Amended Citizen Complaint on May 20, 2008. CVCS and the Board of Education of the City of Chicago jointly filed a Motion to Reconsider, which was denied by Memorandum Opinion and Order dated August 8, 2008. The case is now in the discovery stage. On December 30, 2008, CVCS filed a Motion for Summary Judgment. In an order entered on January 14, 2009, the court allowed for limited additional discovery and scheduled oral argument on the Motion for Summary Judgment on May 7, 2009. Motions to join CVCS Motion for Summary Judgment were filed by the Board of Education of the City of Chicago, and by the State of Illinois on April 20, 2009 and April 24, 2009, respectively. The Company continues to participate in the defense of CVCS under an indemnity obligation in our service agreement with that school, which requires the Company to indemnify CVCS against certain liabilities arising out of the performance of the service agreement, and certain other claims and liabilities, including liabilities arising out of challenges to the validity of the virtual school charter. The Company is not able to estimate the range of potential loss if the plaintiff were to prevail and a claim was made against the Company for indemnification. In fiscal year 2008 and for the nine months ended March 31, 2009, average enrollments in CVCS were 407 and 576 respectively, and we derived 1.3% and 1.0%, respectively of our revenues from CVCS.

The Company expenses legal costs as incurred.

7. Joint Venture

On August 14, 2008, a subsidiary of the Company entered into an agreement to establish a joint venture with a Middle East partner. The purpose of the joint venture is to develop and manage the distribution of the Company's learning system in the Gulf Cooperating Countries. The Company's investment into this joint venture consists of \$1 million in cash and contributed assets in return for a 66.7% ownership interest. The Company's Middle East partner contributed \$5 million in cash in return for a 33.3% ownership interest. The Company accounts for this joint venture under the consolidated method of accounting.

K12 Inc.**Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****8. Fair Value Measurements**

The following table summarizes certain fair value information at March 31, 2009 for assets and liabilities measured at fair value on a recurring basis:

Description	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash and cash equivalents (including restricted cash):

K12 Inc.**Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****10. Recent Accounting Pronouncements**

In December 2007, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 141R (revised 2007), *Business Combinations* , which replaces SFAS No 141. The statement retains the purchase method of accounting for acquisitions, but requires a number of changes, including changes in the way assets and liabilities are recognized in the purchase accounting. It also changes the recognition of assets acquired and liabilities assumed arising from contingencies, requires the capitalization of in-process research and development at fair value, and requires the expensing of acquisition-related costs as incurred. SFAS No. 141R is effective for the Company beginning July 1, 2009 and will apply prospectively to business combinations completed on or after that date.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB 51*, which changes the accounting and reporting for minority interests. Minority interests will be recharacterized as noncontrolling interests and will be reported as a component of equity separate from the parent s equity, and purchases or sales of equity interests that do not result in a change in control will be accounted for as equity transactions. In addition, net income attributable to the noncontrolling interest will be included in consolidated net income on the face of the income statement and, upon a loss of control, the interest sold, as well as any interest retained, will be recorded at fair value with any gain or loss recognized in earnings. SFAS No. 160 is effective for the Company beginning July 1, 2009 and will apply prospectively, except for the presentation and disclosure requirements, which will apply retrospectively. The Company does not believe that the provisions of this statement will have a material effect on its financial condition, results of operations and disclosures.

In March 2008, the FASB issued SFAS No. 161, *Disclosures About Derivative Instruments and Hedging Activities* amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 changes the disclosure requirements for derivative instruments and hedging activities. SFAS No. 161 is effective for financial statements issued for fiscal years beginning after November 15, 2008. As SFAS No. 161 relates only to disclosure, the Company anticipates that the adoption of SFAS No. 161 will not have a material effect on its consolidated financial statements.

In October 2008, the FASB issued Staff Position No. FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active* (FSP 157-3). FSP 157-3 clarifies the application of SFAS 157, which the Company adopted as of July 1, 2008, in cases where a market is not active. The Company has considered the guidance provided by FSP 157-3 in its determination of estimated fair values as of March 31, 2009, and the impact did not have a material effect on its consolidated financial statements as the Company does not hold securities in inactive markets.

11. Subsequent Events

On April 24, 2009, pursuant to an agreement with a virtual public school we manage, the Company established an escrow account in the amount of \$1.5 million for the benefit of the school s sponsoring school district. The amount is related to the preliminary findings of a state agency audit pertaining to the school district s compliance with certain student record keeping and learning plan documentation requirements. The amount is to secure the indemnification obligations of the Company until the completion of the audit. The Company and the school district are disputing these preliminary findings.

On April 24, 2009, the Company established an escrow account in the amount of \$2.6 million for the benefit of an inventory supplier related to purchases made on behalf of the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to assist in understanding and assessing the trends and significant changes in our results of operations and financial condition. As used in this MD&A, the words, we, our and us refer to K12 Inc. and its consolidated subsidiaries. This MD&A should be read in conjunction with our condensed consolidated financial statements and related notes included in this report, as well as the consolidated financial statements and MD&A of our Annual Report on Form 10-K (Annual Report). The following overview provides a summary of the sections included in our MD&A:

Forward-Looking Statements – cautionary information about forward-looking statements and a description of certain risks and uncertainties that could cause our actual results to differ materially from our historical results or our current expectations or projections.

Executive Summary – a general description of our business and key highlights of the three and nine months ended March 31, 2009.

Critical Accounting Policies and Estimates – a discussion of critical accounting policies requiring critical judgments and estimates.

Results of Operations – an analysis of our results of operations in our consolidated financial statements.

Liquidity and Capital Resources – an analysis of cash flows, sources and uses of cash, commitments and contingencies, seasonality in the results of our operations, the impact of inflation, and quantitative and qualitative disclosures about market risk.

Forward-Looking Statements

This MD&A contains certain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Historical results may not indicate future performance. Our forward-looking statements reflect our current views about future events, are based on assumptions and are subject to known and unknown risks and uncertainties that could cause actual results to differ materially from those contemplated by these statements. Factors that may cause differences between actual results and those contemplated by forward-looking statements include, but are not limited to, those discussed in Risk Factors in Part I, Item 1A, of our Annual Report, including any updates found in Part II, Item 1A, Risk Factors, of this quarterly report. We undertake no obligation to publicly update or revise any forward-looking statements, including any changes that might result from any facts, events, or circumstances after the date hereof that may bear upon forward-looking statements. Furthermore, we cannot guarantee future results, events, levels of activity, performance, or achievements.

Executive Summary

We are a technology-based education company. We offer proprietary curriculum and educational services created for online delivery to students in kindergarten through 12th grade, or K-12. Our mission is to maximize a child's potential by providing access to an engaging and effective education, regardless of geographic location or socio-economic background. Since our inception, we have invested more than \$143 million to develop curriculum and an online learning platform that promotes mastery of core concepts and skills for students of all abilities. This learning system combines a cognitive research-based curriculum with an individualized learning approach well-suited for virtual schools and other educational applications.

We deliver our learning system to students primarily through virtual public schools. We offer virtual public schools our proprietary curriculum, online learning platform and academic and management services, under long-term contracts. Academic and management services can range from targeted programs to complete turnkey solutions. As of March 31, 2009, substantially all of our enrollments were served through 32 virtual public schools to which we provide full turnkey solutions and seven virtual public schools to which we provide limited management services, located in 21 states and the District of Columbia. For the third quarter of fiscal year 2009 versus the same period in the prior year, we increased average enrollments in the virtual public schools we serve to approximately 56,022 students from 42,048 students, an increase of 33.2%, and increased revenues to \$77.2 million from \$56.0 million, an increase of 37.8%.

For the three months ended March 31, 2009, approximately 85.7% of our enrollments were associated with virtual public schools to which we provide turnkey management services as compared to 82.6% for the same period in the prior year. We are responsible for the complete management of these schools and therefore, we recognize as revenues the funds received by the schools, up to the level of costs incurred. These costs are substantial, as they include the cost of teacher compensation and other ancillary school expenses. Accordingly, enrollments in these schools generate substantially more revenues than enrollments in other schools where we provide limited or no management services. In these situations, our revenues are limited to direct invoices and are independent of the total funds received by the school from a state or district.

Parents can also purchase our curriculum and online learning platform directly to facilitate or supplement their children's education. Additionally, we have piloted portions of our curriculum in brick and mortar classrooms with promising academic results. We launched the K12 International Academy in January 2008, an online private school which serves students in the U.S. and throughout the world. The school utilizes the same K12 curriculum, systems, and teaching practices as the virtual public schools we serve. The school is accredited by the Southern Association of Colleges and Schools (SACS), the Commission on International and Trans-Regional Accreditation (CITA), and is recognized by the Commonwealth of Virginia as a degree granting institution of secondary learning.

Formation of Joint Venture

On August 14, 2008, a subsidiary of the Company entered into an agreement to establish a joint venture with a Middle East partner. The purpose of the joint venture is to develop and manage the distribution of our learning system in the Gulf Cooperating Countries. The K12 International Academy has a branch facility in Dubai, operated under this joint venture. Our investment into this joint venture consists of \$1 million in cash and contributed assets in return for a 66.7% ownership interest. Our Middle East partner contributed \$5 million in cash in return for a 33.3% ownership interest. Our condensed consolidated financial statements reflect the results of operations of this joint venture. Earnings or losses attributable to our partner are classified as minority interest in our consolidated statements of operations. Minority interest adjusts our consolidated net results of operations to reflect only our share of the after-tax earnings or losses of an affiliated company. Income taxes attributable to minority interest are determined using the applicable statutory tax rates in the jurisdictions where such operations are conducted.

Discussion of Seasonality

Our revenues and operating results normally fluctuate as a result of seasonal variations in our business, principally due to the number of months that our virtual public schools are fully operational and changes in the number of enrollments. While school administrative offices are generally open year round, a school typically serves students during a 10 month academic year. A school's academic year will typically start in August or September, our first fiscal quarter, and finish in May or June, our fourth fiscal quarter. Consequently, our first and fourth fiscal quarters may have fewer than three months of full operations when

compared to the second and third fiscal quarters. In addition, we experience a seasonal increase in enrollments in August and September, although students will enroll to a lesser extent during the school year.

In the first fiscal quarter, we ship and recognize revenues for materials to students for the beginning of the school year. This generally results in higher materials revenues and margin in the first quarter versus other quarters. In the first and fourth fiscal quarters, online curriculum and computer revenues are generally lower as these revenues are primarily earned during the school academic year which may provide for only one or two months of these revenues in these quarters versus the second and third fiscal quarters. The combined effect of these factors results in higher revenues in the first fiscal quarter than in the subsequent quarters.

Operating expenses are also seasonal. Instructional costs and services expenses increase in the first fiscal quarter primarily due to the costs incurred to ship student materials at the beginning of the school year. Instructional costs may increase significantly quarter-to-quarter as school operating expenses increase. For example, enrollment growth will require additional teaching staff, thereby increasing salary and benefits expense. School events may be seasonal (e.g. professional development, proctored exam related expenses, and community events), impacting the quarterly change in instructional costs. The majority of our recruiting and selling expenses are incurred in the first and fourth fiscal quarters, as our primary enrollment season is July through September. A significant portion of our overhead expenses does not vary with the school year or enrollment season.

Federal Support for State Education Funding

Funding for the virtual public schools we serve is dependent on the relevant state's budgetary process. While this normally occurs on an annual or bi-annual basis, the current economic recession has caused a departure from the normal process in some states. During our fiscal year 2009, several states enacted funding cuts for public education, affecting the virtual public schools we serve. The impact of these funding reductions, as well as the effect of offsetting expense reductions designed to mitigate their impact, is reflected in our estimates of annual school revenues and expenses and in our year-to-date revenues through March 31, 2009.

Currently, per-enrollment funding levels for the 2009-2010 school year are being established by states as part of their annual budget processes. We are aware of legislative and administrative proposals involving funding reductions for public education that may affect some of the virtual public schools we serve. In conjunction with this, states are now submitting applications for federal education funds under the American Recovery and Reinvestment Act of 2009 (Stimulus Package), which provides significant allocations designed to alleviate reductions in critical spending on education. At this point, the federal Stimulus Package and completion of state budgets remain a work-in-progress. We are therefore unable to assess with certainty the ultimate impact on per enrollment funding levels. While we believe that we have the flexibility to reduce spending to offset the impact of material reductions, we cannot be certain that we will be able to fully mitigate the impact of the reductions on our results of operations and cash flows for fiscal year 2010.

Agora Cyber Charter School

On April 29, 2009, the Pennsylvania Department of Education (the PDE) filed a lawsuit against the Agora Cyber Charter School (Agora). K12 is not a defendant in this lawsuit. K12 is a sub-contractor to an education management company retained by Agora to operate the school, namely Cynwyd Group, LLC (Cynwyd). Cynwyd sub-contracts with K12 for the provision of our curriculum to Agora's students and for school management services. The lawsuit filed by the PDE alleges that the Agora Board of Trustees, the school's independent governing body, unlawfully misled the PDE about its management contract with Cynwyd, and under that arrangement, state funds have been used improperly to benefit Cynwyd and its principals. In addition, the complaint alleges that the Agora Board of Trustees violated the State's charter

school law, breached its fiduciary duties and engaged in common law fraud. As a result, the PDE has directed all funding to Agora to be placed into an escrow account and is seeking the appointment of a trustee or receiver to replace Agora's Board of Trustees. The trustee or receiver would temporarily oversee the operations of the school and assure an appropriate disbursement of funds pending the outcome of the litigation. The PDE has further publicly stated that the actions it has taken will not impact the daily operations of Agora by K12 and that Agora's students will continue to have the same curriculum and day-to-day education experience. Given these state agency assurances, we do not believe at this early stage of PDE's lawsuit against Agora that our financial results or operations will be materially affected.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions about future events that affect the amounts reported in our consolidated financial statements and accompanying notes. Future events and their effects cannot be determined with certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results could differ from those estimates, and any such differences may be material to our consolidated financial statements. Critical accounting policies are disclosed in our fiscal year 2008 audited consolidated financial statements, which are included in our Annual Report. Other than described in the condensed consolidated financials, there have been no significant updates to our critical accounting policies from those disclosed in the Annual Report.

Results of Operations

The following table sets forth average enrollment data for each of the periods indicated:

	Three Months Ended		Nine Months	
	March 31,		Ended	
	2009	2008	2009	2008
Total Enrollments	56,022	42,048	55,647	41,095
Managed Enrollments as percentage of total enrollments	85.7%	82.6%	85.5%	81.9%
High School enrollments as a percentage of total enrollments	18.6%	13.8%	19.0%	13.8%

The following table sets forth statements of operations data for each of the periods indicated:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2009	2008	2009	2008
	(In thousands)		(In thousands)	
Revenues	\$ 77,164	\$ 56,016	\$ 243,407	\$ 169,760
Cost and expenses				
Instructional costs and services	47,868	32,062	152,601	98,820
Selling, administrative, and other operating expenses	19,467	17,032	61,189	49,681
Product development expenses	2,415	2,542	7,015	7,529
Total costs and expenses	69,750	51,636	220,805	156,030
Income from operations	7,414	4,380	22,602	13,730
Interest (expense) income, net	(361)	309	(518)	(383)
Income before income tax (expense) benefit and minority interest	7,053	4,689	22,084	13,347
Income tax (expense) benefit	(3,490)	(2,229)	(9,642)	3,323
Income before minority interest	3,563	2,460	12,442	16,670
Minority interest, net of tax	(16)		539	
Net income	\$ 3,547	\$ 2,460	\$ 12,981	\$ 16,670

The following table sets forth statements of operations data as a percentage of revenues for each of the periods indicated:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2009	2008	2009	2008
Revenues	100%	100%	100%	100%
Cost and expenses				
Instructional costs and services	62.1	57.2	62.7	58.2
Selling, administrative, and other operating expenses	25.2	30.4	25.1	29.3
Product development expenses	3.1	4.6	2.9	4.4
Total costs and expenses	90.4	92.2	90.7	91.9
Income from operations	9.6	7.8	9.3	8.1

Interest (expense) income, net	(0.5)	0.6	(0.2)	(0.2)
Income before income tax (expense) benefit and minority interest	9.1	8.4	9.1	7.9
Income tax (expense) benefit	(4.5)	(4.0)	(4.0)	1.9
Income before minority interest	4.6	4.4	5.1	9.8
Minority interest, net of tax			0.2	
Net income	4.6%	4.4%	5.3%	9.8%

We have included below a discussion of our operating results and significant items which explain the material changes in our operating results during the last three and nine months versus the prior year.

Comparison of the Three Months Ended March 31, 2009 and Three Months Ended March 31, 2008

Revenues. Our revenues for the three months ended March 31, 2009 were \$77.2 million, representing an increase of \$21.2 million, or 37.8%, as compared to revenues of \$56.0 million for the three months ended March 31, 2008. Average enrollments increased 33.2% to 56,022 for the three months ended March 31, 2009 from 42,048 for the three months ended March 31, 2008. The increase in average enrollments was primarily attributable to 28.8% enrollment growth in existing states. New school openings in Hawaii, Indiana, Oregon, and South Carolina contributed approximately 4.4% to enrollment growth. In new and existing states combined, high school enrollments contributed approximately 11.0% to enrollment growth. High school enrollments increased 79.9% and constituted approximately 18.6% of our enrollments for the three months ended March 31, 2009 as compared to 13.8% for the same period in the prior year. Also contributing to the growth in revenues was the increase in the percentage of enrollments associated with managed schools, which generate higher revenue per enrollment than non-managed school enrollments. The percentage of enrollments associated with managed schools increased to 85.7% for the three months ended March 31, 2009 from 82.6% for the three months March 31, 2008.

Instructional costs and services expenses. Instructional costs and services expenses for the three months ended March 31, 2009 were \$47.9 million, representing an increase of \$15.8 million, or 49.3% as compared to instructional costs and services of \$32.1 million for the three months ended March 31, 2008. This increase was primarily attributable to a \$12.1 million increase in expenses to operate and manage the schools and a \$3.7 million increase in costs to supply curriculum, books, educational materials and computers to students, including depreciation and amortization. As a percentage of revenues, instructional costs increased to 62.1% for the three months ended March 31, 2009, as compared to 57.2% for the three months ended March 31, 2008. This increase as a percentage of revenues is primarily attributable to three factors: 1) an increase in the percentage of managed school enrollments relative to total enrollments from 82.6% to 85.7%. Managed school enrollments generate more revenue than those associated with non-managed schools, but have higher instructional costs as a percentage of revenues; 2) an increase in the percentage of high school enrollments relative to total enrollments from 13.8% to 18.6%. High school enrollments have higher costs as a percentage of revenues due to increased teacher and related services costs; and 3) start-up costs associated with the commencement of school operations in four new states and two existing states.

Selling, administrative, and other operating expenses. Selling, administrative, and other operating expenses for the three months ended March 31, 2009 were \$19.5 million, representing an increase of \$2.5 million, or 14.3%, as compared to selling, administrative and other operating expenses of \$17.0 million for the three months ended March 31, 2008. This increase is primarily attributable to a \$1.4 million increase in student recruiting costs in addition to a \$1.1 million increase in other expenses. As a percentage of revenues, selling, administrative, and other operating expenses decreased to 25.2% for the three months ended March 31, 2009 as compared to 30.4% for the three months ended March 31, 2008 primarily due to greater leverage on our corporate overhead and fixed selling resources. Partially offsetting this leverage were increased investments in demand generating activities and our international expansion efforts.

Product development expenses. Product development expenses for the three months ended March 31, 2009 were \$2.4 million, representing a decrease of \$0.1 million, or 5.0%, as compared to product development expenses of \$2.5 million for the three months ended March 31, 2008. Employee compensation as well as contract labor costs increased, but were offset by greater utilization of these resources to develop curriculum assets. As a percentage of revenues, product development expenses decreased to 3.1% for the three months ended March 31, 2009 as compared to 4.6% for the three months ended March 31, 2008 as we were able to leverage these costs over a larger revenue base.

Interest expense, net. Net interest expense for the three months ended March 31, 2009 was \$0.4 million, as compared to a net interest income of \$0.3 million for the three months ended March 31, 2008. Interest expense increased primarily due to an increase in capital lease obligations. In addition, interest income

decreased due to a significant decline in interest rates and lower average cash balances for the three months ended March 31, 2009.

Income taxes. Income tax expense for the three months ended March 31, 2009 was \$3.5 million, or 49.5% of income before income taxes, as compared to an income tax expense of \$2.2 million, or 47.5% of income before taxes, for the three months ended March 31, 2008. The increase in rate is primarily attributable to a timing difference in the treatment of the deferred tax asset allowance related to stock compensation expense.

Minority interest. Minority interest for the three months ended March 31, 2009 was \$(0.1) million, reflecting income attributable to shareholders in our joint venture. There was no minority interest for the three months ended March 31, 2008.

Comparison of the Nine Months Ended March 31, 2009 and Nine Months Ended March 31, 2008

Revenues. Our revenues for the nine months ended March 31, 2009 were \$243.4 million, representing an increase of \$73.6 million, or 43.4%, as compared to revenues of \$169.8 million for the nine months ended March 31, 2008. Average enrollments increased 35.4% to 55,647 for the nine months ended March 31, 2009 from 41,095 for the nine months ended March 31, 2008. The increase in average enrollments was primarily attributable to 30.8% enrollment growth in existing states. New school openings in Hawaii, Indiana, Oregon, and South Carolina contributed approximately 4.6% to enrollment growth. In new and existing states combined, high school enrollments contributed approximately 11.9% to enrollment growth. High school enrollments increased 86.8% and constituted approximately 19.0% of our enrollments for the nine months ended March 31, 2009 as compared to 13.8% for the same period in the prior year. Also contributing to the growth in revenues was the increase in the percentage of enrollments associated with managed schools, which generate higher revenue per enrollment than non-managed school enrollments. The percentage of enrollments associated with managed schools increased to 85.5% for the nine months ended March 31, 2009 from 81.9% for the nine months March 31, 2008.

Instructional costs and services expenses. Instructional costs and services expenses for the nine months ended March 31, 2009 were \$152.6 million, representing an increase of \$53.8 million, or 54.4% as compared to instructional costs and services of \$98.8 million for the nine months ended March 31, 2008. This increase was primarily attributable to a \$38.3 million increase in expenses to operate and manage the schools and a \$15.5 million increase in costs to supply curriculum, books, educational materials and computers to students, including depreciation and amortization. As a percentage of revenues, instructional costs increased to 62.7% for the nine months ended March 31, 2009, as compared to 58.2% for the nine months ended March 31, 2008. This increase as a percentage of revenues is primarily attributable to four factors: 1) an increase in the percentage of managed school enrollments relative to total enrollments from 81.9% to 85.5%. Managed school enrollments generate more revenue than those associated with non-managed schools, but have higher instructional costs as a percentage of revenues; 2) an increase in the percentage of high school enrollments relative to total enrollments from 13.8% to 19.0%. High school enrollments have higher costs as a percentage of revenues due to increased teacher and related services costs; 3) incremental freight charges due to expedited student materials shipments and fuel surcharges, partially offset by reduced costs of student materials and computers; and 4) start-up costs associated with the commencement of school operations in four new states and two existing states.

Selling, administrative, and other operating expenses. Selling, administrative, and other operating expenses for nine months ended March 31, 2009 were \$61.2 million, representing an increase of \$11.5 million, or 23.2%, as compared to selling, administrative and other operating expenses of \$49.7 million for the nine months ended March 31, 2008. This increase is primarily attributable to a \$5.7 million increase in student recruiting costs, a \$2.1 million increase in professional services, and a \$3.7 million increase in other expenses. As a percentage of revenues, selling, administrative, and other operating expenses decreased to

25.1% for the nine months ended March 31, 2009 as compared to 29.3% for the nine months ended March 31, 2008 primarily due to greater leverage on our corporate overhead and fixed selling resources. Partially offsetting this leverage were increased investments in demand generating activities and our international expansion efforts.

Product development expenses. Product development expenses for the nine months ended March 31, 2009 were \$7.0 million, representing a decrease of \$0.5 million, or 6.8%, as compared to product development expenses of \$7.5 million for the nine months ended March 31, 2008. Employee compensation as well as contract labor costs increased, but were offset by greater utilization of these resources to develop curriculum assets. As a percentage of revenues, product development expenses decreased to 2.9% for the nine months ended March 31, 2009 as compared to 4.4% for the nine months ended March 31, 2008 as we were able to leverage these costs over a larger revenue base.

Interest expense, net. Net interest expense for the nine months ended March 31, 2009 was \$0.5 million, as compared to net interest expense of \$0.4 million for the nine months ended March 31, 2008. The increase is due to growth in our capital lease obligations partially offset by reduced borrowings under our revolving line of credit. In addition, although our average cash balances were higher for the nine months ended March 31, 2009, the significant decline in interest rates resulted in lower interest income.

Income taxes. Income tax expense for the nine months ended March 31, 2009 was \$9.6 million, or 43.7% of income before income taxes, as compared to an income tax benefit of \$3.3 million for the nine months ended March 31, 2008. The income tax benefit for the nine months ended March 31, 2008 reflects a \$9.7 million tax benefit as we were able to reverse the valuation allowance on net deferred tax assets generated by our net operating losses that were fully reserved in prior periods. Had that reversal not occurred, we would have recorded an income tax expense of \$6.4 million, or 47.6% of income before income taxes for the nine months ended March 31, 2008.

Minority interest. Minority interest for the nine months ended March 31, 2009 was \$0.5 million, reflecting losses attributable to shareholders in our joint venture. There was no minority interest for the nine months ended March 31, 2008.

Liquidity and Capital Resources

As of March 31, 2009 and June 30, 2008, we had cash and cash equivalents of \$56.4 million and \$71.7 million, respectively. We financed our operating activities and capital expenditures during the nine months ended March 31, 2009 primarily through the use of cash on hand and capital lease financing.

Our cash requirements consist primarily of day-to-day operating expenses, capital expenditures and contractual obligations with respect to facility leases, capital equipment leases and other operating leases. We expect capital expenditures for additional courses, new releases of existing courses and internal systems enhancements to remain relatively stable for the next two years and expenditures for computers to support virtual school enrollments to increase with enrollment growth. In total, we expect that our capital expenditures in the 12 months ended March 31, 2010 will be approximately \$35 million to \$47 million for student computers, curriculum development and related systems. We expect to be able to fund these capital expenditures with cash on hand, cash generated from operations and capital lease financing. We lease all of our office facilities. We expect to make future payments on existing leases from cash generated from operations. Based on our current operating and capital expenditure forecasts, we believe that the combination of funds currently available and funds to be generated from operations will be adequate to finance our ongoing operations for at least the next twelve months.

Operating Activities

Net cash used in operating activities for the nine months ended March 31, 2009 was \$8.6 million as compared to net cash provided by operating activities for the nine months ended March 31, 2008 of \$5.9 million.

The overall decrease of \$14.5 million in cash from operating activities was primarily due to a \$15.3 million increase in the amount of cash used to finance accounts receivable, a \$7.6 million increase in the change in inventories, a \$6.3 million increase in the use of cash for accrued compensation and benefits, a \$7.1 million adjustment for the excess tax benefit from stock compensation expense, a decrease in net income of \$3.7 million, and a \$2.6 million increase in the change of other assets. These amounts were partially offset by a \$13.0 million change in adjustments for deferred income taxes, a \$6.1 million increase in depreciation and amortization, a \$4.8 million increase in the change in deferred revenues, and a \$4.5 million increase in the change in accrued liabilities.

The increase in accounts receivable is primarily attributable to the growth in revenues as well as slower initial payments from new schools and growth in schools with slower payment trends. Accounts receivable balances tend to be at the highest levels in the first quarter as we begin billing for students and many of our billing arrangements include upfront fees. Deferred revenues are primarily a result of invoicing upfront fees, not cash payments. Deferred revenue balances tend to be highest in the first quarter, when the majority of students enroll, and are generally amortized over the course of the fiscal year. The increase in the change in inventory is primarily due to earlier purchases for the 2009-2010 school year. We are purchasing inventory for the 2009-2010 school year earlier in the year as compared to inventory purchases for the 2008-2009 school year to minimize fulfillment risk associated with the transition to our new warehousing and packaging partner. The increase in change of accrued liabilities is primarily due to additional accruals for anticipated vendor payments. The decrease in accrued compensation is primarily due to lower accrued compensation partially offset by an increase in liabilities related to stock option exercises.

Investing Activities

Net cash used in investing activities for the nine months ended March 31, 2009 and 2008 was \$22.3 million and \$14.0 million, respectively.

Net cash used in investing activities for the nine months ended March 31, 2009 was primarily due to investment in capitalized curriculum of \$10.7 million, primarily related to the production of high school courses and elementary school math courses, investment of \$10.6 million in property and equipment, including internally developed and purchased software and cash placed in escrow of \$1.0 million. During the nine months ended March 31, 2009, we financed equipment purchases of \$16.0 million through capital leases. These financed purchases include \$15.1 million of computers and software for use by students.

Net cash used in investing activities for the nine months ended March 31, 2008 was attributable to investment in capitalized curriculum of \$8.5 million, primarily related to the development of high school courses and \$5.1 million in property and equipment, including internally developed software. In addition, we financed purchases of \$10.7 million of computers and software, primarily for use by students, through capital leases.

Financing Activities

Net cash provided by financing activities for the nine months ended March 31, 2009 and 2008 was \$15.6 million and \$73.4 million, respectively.

For the nine months ended March 31, 2009, net cash provided by financing activities was primarily due to the proceeds from the exercise of stock options of \$7.1 million, proceeds received from the minority interest contribution of \$5.0 million, proceeds from notes payable of \$3.1 million, and the excess tax benefit from stock compensation expense of \$7.1 million. These amounts were partially offset by payments on capital leases and notes payable totaling \$6.7 million. As of March 31, 2009, there were no borrowings outstanding on our \$20 million line of credit.

For the nine months ended March 31, 2008, net cash used for the repayment of short term debt was \$1.5 million and cash used for the repayment of capital leases and notes payable was \$3.5 million. In December 2007, we completed the initial public offering (IPO) of our common stock in which we raised approximately \$71.3 million in net proceeds after deducting underwriting discounts and commissions and other offering costs. Concurrently with the closing of the IPO, we sold shares of common stock at the initial public offering price for an aggregate purchase price of \$15.0 million to a non-U.S. person, in a private placement transaction outside the United States in reliance upon Regulation S under the Securities Act. Also concurrently with the closing of the IPO, the holders of Redeemable, Convertible Series C Preferred stock were paid a cash dividend of \$6.4 million.

Off Balance Sheet Arrangements, Contractual Obligations and Commitments

There were no substantial changes to our guarantee and indemnification obligations in the nine months ended March 31, 2009.

Our contractual obligations consist primarily of leases for office space, capital leases for equipment and other operating leases. The total amount due under contractual obligations increased during the nine months ended March 31, 2009 primarily due to approximately \$10.2 million for capital leases related to student computers and \$3.0 million for notes payable for software licenses and maintenance services, net of payments.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

Interest Rate Risk

At March 31, 2009 and June 30, 2008, we had cash and cash equivalents totaling \$56.4 million and \$71.7 million. Our excess cash has been invested primarily in U.S. treasury money market funds although we may also invest in money market accounts, government securities, corporate debt securities and similar investments. Future interest and investment income is subject to the impact of interest rate changes and we may be subject to changes in the fair value of our investment portfolio as a result of changes in interest rates.

Our short-term debt obligations under our revolving credit facility are subject to interest rate exposure, however as we had no outstanding balance on this facility during the three months ended March 31, 2009, fluctuations in interest rates had no impact on our interest expense.

Foreign Currency Exchange Risk

We currently operate in a foreign country, but we do not transact a material amount of business in a foreign currency and therefore fluctuations in exchange rates will not have a material impact on our financial statements. However, we continue to pursue opportunities in international markets. If we enter into any material transactions in a foreign currency or establish or acquire any subsidiaries that measure and record their financial condition and results of operation in a foreign currency, we will be exposed to currency transaction risk and/or currency translation risk. Exchange rates between U.S. dollars and many foreign currencies have fluctuated significantly over the last few years and may continue to do so in the future.

Accordingly, we may decide in the future to undertake hedging strategies to minimize the effect of currency fluctuations on our financial condition and results of operations.

Item 4T. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934, as amended, or Exchange Act) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures.

We carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as required by Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on this review, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of March 31, 2009 at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

During the three months ended March 31, 2009, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings.

In the ordinary conduct of our business, we are subject to lawsuits and other adjudicative proceedings from time to time, including but not limited to, employment and contractual disputes. In addition, a lawsuit has been brought by the teacher's union that seeks the closure of the virtual public school we serve in Illinois. This lawsuit is described in Footnote 6 to our unaudited condensed consolidated financial statements set forth in Part I, Item 1 of this quarterly report.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in Risk Factors in Part I, Item 1A, of our Annual Report.

Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds.*

None.

Item 3. *Defaults Upon Senior Securities.*

None.

Item 4. *Submission of Matters to a Vote of Security Holders.*

None.

Item 5. *Other Information.*

None.

Item 6. *Exhibits.*

(a) Exhibits.

The exhibits listed on the accompanying Exhibit Index are filed as part of this report and such Exhibit Index is incorporated herein by reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
