ITEM 5. OTHER EVENTS AND REGULATION FD DISCLOSURE.

On May 23, 2003, Reinsurance Group of America, Incorporated (the "Company") entered into a First Amended and Restated Credit Agreement (the "Credit Agreement") with a bank syndicate, under which the Company may borrow up to \$175.0 million for general corporate purposes. The Credit Agreement is a continuation of a similar agreement dated as of May 24, 2000, which provided the Company with the ability to borrow up to \$140.0 million. The Company had \$10.0 million of borrowings outstanding under the former credit agreement, which expired May 24, 2003, and those borrowings were continued under the Credit Agreement. Interest on borrowings under the Credit Agreement is payable at rates based either on the prime, federal funds or LIBOR rates plus a base rate margin defined in the Credit Agreement. The Company also must pay a utilization fee of 0.125% to the extent borrowings exceed 33.3% of the lenders' commitments under the Credit Agreement. As of May 30, 2003, the Company had approximately \$10.0 million outstanding under the Credit Agreement at an interest rate of 1.8%. The termination date of the Credit Agreement is May 23, 2006.

The Credit Agreement contains financial covenants, including restrictions related to, among others, indebtedness, guarantees, liens, payments, merger or consolidation, the issuance and disposition of stock of restricted subsidiaries, maximum requirements of consolidated indebtedness, and

minimum requirements of statutory surplus and capital. A material ongoing covenant default could require immediate payment of the amount due, including principal. Additionally, the Credit Agreement contains cross-default covenants, which would make outstanding borrowings under the Credit Agreement immediately payable in the event of a material uncured covenant default under any of the Company's other debt agreements, including, but not limited to, non-payment of indebtedness when due, bankruptcy proceedings, and any other event which results in the acceleration of the maturity of indebtedness. As of March 31, 2003, the Company had \$344.7 million in outstanding borrowings under its debt agreements and was in compliance with all covenants under those agreements. Of that amount, approximately \$35.2 million is subject to immediate payment in the event of a downgrade of certain ratings issued by credit rating agencies, unless a waiver is obtained from the lenders. The ability of the Company to make principal and interest payments under its debt agreements depends on the earnings and surplus of subsidiaries, investment earnings on undeployed capital proceeds, and the Company's ability to raise additional funds.

A copy of the Credit Agreement is filed as Exhibit 10.1 and incorporated herein by reference.
