Table of Contents

ASSISTED LIVING CONCEPTS, INC.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

1. The Company

Assisted Living Concepts, Inc., (the Company) operates owned and leased free-standing assisted living residences which provide housing to older persons who need help with the activities of daily living such as bathing and dressing. The Company provides personal care and support services and makes available routine health care services, as permitted by applicable law, designed to meet the needs of its residents.

2. Basis of Presentation

The condensed consolidated financial statements included herein have been prepared by the Company without audit and in the opinion of management include all adjustments (all of which are normal and recurring) necessary for a fair presentation of the results of operations for each of the three months ended March 31, 2003 and 2004, pursuant to the rules and regulations of the Securities and Exchange Commission. The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications have been made to the prior period financial statements to conform to the current period presentation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations; however the Company believes that the disclosures in the accompanying financial statements are adequate to make the information presented not misleading.

The accompanying condensed consolidated financial statements should be read in conjunction with the Company s annual report on Form 10-K for the fiscal year ended December 31, 2003 filed with the Securities and Exchange Commission. The results of operations for the three months ended March 31, 2004 are not necessarily indicative of the results for a full year.

The results of operations for the three months ended March 31, 2003 and 2004 reflect the continuing operations of 177 residences. Results of operations for two residences sold in March 2003 are included in discontinued operations in the accompanying financial statements. (See Note 5).

Table of Contents**3. Long-Term Debt**

As of December 31, 2003 and March 31, 2004, long-term debt consists of the following (in thousands):

	December 31, 2003		March 31, 2004	
	Carrying Amount	Principal Amount	Carrying Amount	Principal Amount
Trust Deed Notes, payable to the State of Oregon Housing and Community Services Department (OHCS) (Oregon Notes) due 2028	\$ 9,508	\$ 9,412	\$ 9,447	\$ 9,353

Total debt	147,454	\$147,648	142,528	\$142,719
Less current portion	3,175		3,317	
Long-term debt	\$144,279		\$139,211	

The Oregon Notes are secured by buildings, land, furniture and fixtures of six Oregon residences. The notes are payable in monthly installments including interest at effective rates ranging from 7.4% to 9.0%.

The Washington Bonds are secured by a \$7.1 million letter of credit and buildings, land, furniture and fixtures of five Washington residences and had an interest rate of 1.1% at March 31, 2004. The letter of credit expires in July 2005

and has an annual commitment fee of 2.0%.

The Idaho Bonds are secured by a \$6.2 million letter of credit and buildings, land, furniture and fixtures of four Idaho residences and had an interest rate of 1.1% at March 31, 2004. The letter of credit expires in July 2005 and has an annual commitment fee of 2.0%.

The Ohio Bonds are secured by a \$10.3 million letter of credit and buildings, land, furniture and fixtures of six Ohio residences and had an interest rate of 1.1% at March 31, 2004. The letter of credit expires in July 2005 and has an annual commitment fee of 2.0%.

The HUD insured mortgages include three separate loan agreements entered into in 2001. The mortgages are each secured by a separate facility in Texas. These loans mature between July 1, 2036 and August 1, 2036 and collectively require monthly principal and interest payments of \$47,493. The loans bear interest at fixed rates ranging from 7.4% and 7.6%.

At March 31, 2004, mortgage loans include three fixed rate loans secured by seven Texas residences, three Oregon residences and three New Jersey residences. These loans collectively require monthly principal and interest payments of \$230,000, with balloon payments of \$11.8 million, \$5.3 million and \$7.2 million due at maturity in May, August and September 2008, respectively. These loans bear interest at fixed rates ranging from 7.6% to 8.7%.

As of the Effective Date, the Successor Company revalued its long-term debt in conjunction with the implementation of fresh-start reporting. At December 31, 2001, an adjustment of \$3.1 million was recorded to reduce long-term debt to its fair market value. Amortization of this adjustment is computed using the straight-line method over the life of the corresponding debt.

Table of Contents

In December 2003, the Company refinanced Senior and Junior Secured Notes and a secured loan provided by GE Capital (collectively Refinanced Debt), which had a total principal amount of approximately \$90.5 million at the refinancing date. The Senior Notes were due to mature in January 2009 and accrued interest at 10%. The Junior Notes were due to mature in January 2012, bearing interest payable in additional Junior Notes at 8% per annum through 2004 and bearing interest at 12% payable in cash beginning in 2005. The GE Capital loan had a maturity of January 2005, and accrued interest at LIBOR plus 4.5% with a minimum interest rate of 8%. Under the terms of the Junior and Senior Indentures, the notes were legally defeased effective December 29, 2003.

The Refinanced Debt was retired using proceeds from a new \$38.4 million loan from Red Mortgage Capital (FNMA Loan), as lender for Fannie Mae, a new \$35 million term loan and a \$15 million revolving loan, both from GE Capital (GE Term Loan and GE Credit Facility , respectively).

The FNMA Loan has a fixed interest rate of 6.24%, matures in 10 years, has a 25-year principal amortization and is secured by 24 residences, which serve as collateral. Both the GE Term Loan and the GE Credit Facility mature in 5 years, accrue interest at LIBOR plus 4.0%, which is calculated based on a 360 day year and charged for the actual number of days elapsed, with an interest rate floor of 5.75%, and are secured by a collective pool of 30 residences, which serve as collateral. The GE Term Loan and the GE Credit Facility had an interest rate of 5.75% at March 31, 2004. The GE Term Loan requires monthly interest payments and principal reductions based on a 25-year principal amortization schedule, with a balloon payment at maturity. The GE Credit Facility has an initial revolving borrowing period of 2 years, which may be extended annually thereafter for three years upon mutual consent by GE Capital and the Company. During the initial revolving borrowing period, the GE Credit Facility requires monthly interest payments, no principal reductions, and accrues interest on the unused loan availability at a rate of 0.75% per year, which is paid quarterly. If the initial revolving borrowing period is not extended, then the GE Credit Facility converts from a revolving loan to a term loan with the same terms as the GE Term Loan. The GE Term Loan and the GE Credit Facility contain financial covenants that require a certain level of financial performance for the residences which serve as collateral for the loan and require the Company to remain current on its other debt service obligations. Failure to comply with these covenants could restrict loan amounts available to the Company under the loan agreement and could constitute an event of default, which would allow GE Capital to declare any amounts outstanding under the loan documents to be due and payable. The loans from Red Mortgage Capital and GE Capital were entered into by subsidiaries of the Company and are non-recourse to the Company, subject to a limited guaranty by the Company.

As of March 31, 2004, the following annual principal payments are required (in thousands):

April 1, 2004 through December 31, 2004	\$ 2,700
2005	3,498
2006	3,767
2007	4,009
2008	28,092
Thereafter	<u>100,653</u>
 Total	 <u>\$142,719</u>

The Company has a series of Reimbursement Agreements with U.S. Bank for Letters of Credit that support certain of our Revenue Bonds Payable. The total amount of these Letters of Credit was approximately \$23.6 million as of March 31, 2004. The Company's agreements with U.S. Bank contain certain financial covenants. Failure to comply

with these covenants could constitute an event of default, which would allow U.S. Bank to declare any amounts outstanding under the loan documents to be due and payable. The agreements also require the Company to deposit \$500,000 in cash collateral with U.S. Bank in the event certain regulatory actions are commenced with respect to the properties securing the Company's obligations to U.S. Bank. U.S. Bank is required to release such deposits upon satisfactory resolution of the regulatory action.

Approximately \$23.1 million of the Company's indebtedness was secured by letters of credit held by U.S. Bank as of March 31, 2004, which in some cases have termination dates prior to the maturity of the underlying debt. As such letters of credit expire, in July 2005, the Company will need to extend the current letters of credit, obtain replacement letters of credit, post cash collateral or refinance the underlying debt. There can be no assurance that the Company will be able to extend the current letters of credit or procure replacement letters of credit from the same or other lending institutions on terms that are acceptable to the Company or at all. In the event that the Company is unable to obtain a replacement letter of credit or provide alternate collateral prior to the expiration of any of these letters of credit, the Company would be in default on the underlying debt. Such a default would allow U.S. Bank to declare any amounts outstanding under the loan documents to be immediately due and payable.

Table of Contents

In addition to the debt agreements with OHCS related to the six owned residences in Oregon, the Company has entered into Lease Approval Agreements with OHCS and the lessor of the Oregon Leases, which obligates the Company to comply with the terms and conditions of the underlying trust deed relating to the leased buildings. Under the terms of the OHCS debt agreements, the Company is required to maintain a capital replacement escrow account to cover expected capital expenditure requirements for the Oregon Leases and the six OHCS loans. As a further condition of the OHCS debt agreements, the Company is required to comply with the terms of certain regulatory agreements which provide, among other things, that in order to preserve the federal income tax exempt status of the bonds, the Company is required to lease at least 20% of the units of the projects to low or moderate income persons as defined in Section 142(d) of the Internal Revenue Code. There are additional requirements as to the age and physical condition of the residents with which the Company must also comply. Non-compliance with these restrictions may result in an event of default and cause acceleration of the scheduled repayment.

4. Income Taxes

The Company anticipates taxable income for financial reporting purposes for the year ending December 31, 2004, and accordingly, has provided for federal and state income taxes on income for the three months ended March 31, 2004. The Company has recorded such income tax expense at the rate of 14.9% for the three months ended March 31, 2004.

The provision for income taxes differs from the applicable U.S. statutory federal rate as a result of the following items:

Statutory federal income tax rate	34.0%
State income taxes, net of federal benefit	8.1%
Non-deductible expenses	0.6%
Reduction of valuation allowance	(35.3)%
Utilization of Predecessor Company NOL s recorded as additional paid in capital	7.5%
	<hr/>
Effective tax rate	14.9%

At December 31, 2003, the Company had approximately \$12.7 million of net operating loss (NOL) carry-forwards, which will expire between 2009 and 2022. The NOL carry-forwards are subject to certain provisions of the Internal Revenue Code which restricts the utilization of the losses. In addition, any net unrealized built-in losses resulting from the excess of tax basis over the carrying value of the Company's assets (primarily property and equipment) as of the Effective Date, which are recognized within five years, are also subject to these provisions. Section 382 of the Internal Revenue Code imposes limitations on the utilization of the NOL carry-forwards and built-in losses after certain changes of ownership of a loss company. The Company is deemed to be a loss company for these purposes. Under these provisions, the Company's ability to utilize these NOL carry-forwards and built-in losses in the future will generally be subject to an annual limitation of approximately \$1.6 million (the Annual Limitation). There can be no assurance that the Company will be able to utilize NOL carry-forwards or built-in losses and therefore, the Company established a 100 percent valuation allowance to offset the remaining deferred tax asset.

Pursuant to SOP 90-7, the income tax benefit, if any, of the realization of NOL carry-forwards and other deductible temporary differences existing as of the Effective Date is recorded as an adjustment to additional paid-in capital.

For the year ended December 31, 2003, the Annual Limitation was utilized on all available pre-change NOL carry-forwards, except for approximately \$36,000. At December 31, 2003, the Company had recorded a \$42.8 million

valuation allowance against a net deferred tax asset of \$43.4 million. For the full fiscal year ending December 31, 2004, the Company anticipates utilizing the 2004 Annual Limitation as well as the unused 2003 Annual Limitation.

5. Discontinued Operations

During March 2003, the Company sold one residence in Ohio and one residence in Indiana. The total sales price for these residences was \$2.6 million, and the Company recognized a gain from these sales of \$899,000. In accordance with SFAS No. 144, the results of operations and the gain and losses from sales have been included in Income from discontinued operations in the accompanying financial statements for the three months ended March 31, 2003.

6. Stock-based Compensation

Effective January 1, 2003, the Company adopted the fair value recognition provisions of SFAS No. 123, Accounting for Stock-Based Compensation, and recognizes compensation expense according to the prospective transition method under SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. Under this method the Company expenses the fair value

Table of Contents

of all new stock options granted after January 1, 2003. Previously, the Company accounted for stock-based compensation plans under the recognition and measurement provisions of APB Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25) and related interpretations. No stock-based employee compensation expense for stock options was reflected in Net Income previous to April 1, 2003, as all stock options granted under those plans had an exercise price equal to the fair market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and earnings per share had the Company applied the fair value accounting method to all of the Company's stock option grants.

	Three Months Ended March 31,	
	2003	2004
Net income, as reported	\$ 1,031	\$ 1,553
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects		43
Deduct: Total stock-based employee compensation expense determined under fair value method for all awards granted, net of related tax effects	(20)	(57)
Pro forma net income	<u>\$ 1,011</u>	<u>\$ 1,539</u>
Net income per share:		
Basic as reported	\$ 0.16	\$ 0.24
Basic pro forma	\$ 0.16	\$ 0.24
Diluted as reported	\$ 0.16	\$ 0.23
Diluted pro forma	\$ 0.16	\$ 0.23

7. Income Per Share

The weighted average common shares used for basic net income per common share were 6,500,166 for the three months ended March 31, 2003 and 2004. The effect of dilutive stock options using the treasury stock method added 8,976 shares for the three months ended March 31, 2003 and 335,133 shares for the three months ended March 31, 2004. For the three months ended March 31, 2003 and 2004, 106,583 and zero stock options, respectively, were excluded from the computation of diluted earnings per share as their inclusion would be anti-dilutive.

8. Liquidity

The Company had working capital deficits of \$11,729,000 and \$13,989,000 at December 31, 2003 and March 31, 2004, respectively.

The Company has certain contingencies and reserves, including litigation reserves, recorded as current liabilities at March 31, 2004 that management believes it will not be required to liquidate within the next twelve months. However, in the event that all current liabilities become due within twelve months, the Company may be required to obtain debt

financing and/or sell securities on unfavorable terms. There can be no assurance that such action may not be necessary to ensure appropriate liquidity for the operations of the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report on Form 10-Q (or otherwise made by the Company or on the Company's behalf from time to time in other reports, filings with the Securities and Exchange Commission, news releases, conferences, World Wide Web posting or otherwise), may be deemed to constitute forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements include statements about the Company's estimates, expectations, beliefs, intentions or strategies for the future, and the assumptions underlying these forward-looking statements. The Company uses the words will, believes, anticipates, estimates, intends, expect, should, could, and words of similar import, to identify these forward-looking statements. These forward-looking statements may be affected by risks and uncertainties, including without limitation (i) our ability to control costs and improve operating margins, (ii) our ability to increase occupancy, (iii) our ability to increase our revenue at a pace which exceeds expense inflation, (iv) our ability to operate our residences in compliance with evolving regulatory requirements, (v) the degree to which our future operating results and financial condition may be affected by a reduction in Medicaid reimbursement rates, (vi) our ability to extend or renegotiate our current debt agreements, and (vii) the risk factors discussed in our Form 10-K for the period ending December 31, 2003. In light of such risks and uncertainties, our actual results could differ materially from such forward-looking statements. Caution should be taken not to place undue reliance on the Company's forward-looking statements which

Table of Contents

represent the Company's views only as of the date this report is filed. Except as may be required by law, we do not undertake any obligation to publicly release any revisions to any forward-looking statements contained herein to reflect events and circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events.

References in this section to ALC, the Company, us or we refer to Assisted Living Concepts, Inc. and its wholly owned subsidiaries.

General

We operate owned and leased free-standing assisted living residences. These residences are primarily located in small, middle-market, rural and suburban communities with a population typically ranging from 10,000 to 40,000. As of March 31, 2004, we had residences in 14 states.

We provide personal care and support services, and make available routine nursing services (as permitted by applicable law) designed to meet the personal and health care needs of our residents. We believe that this combination of residential, personal care, support and health care services provides a cost-efficient alternative to, and affords an independent lifestyle for, individuals who do not require the broader array of medical services that nursing facilities are required by law to provide.

As of March 31, 2004, we operated 177 assisted living residences (6,838 units), of which we owned 122 residences (4,734 units) and leased 55 residences (2,104 units).

We derive our revenues primarily from resident fees for room, board and care. Resident fees typically are paid monthly by residents, their families, state Medicaid agencies or other third parties. Resident fees include revenue derived from a multi-tiered rate structure, which varies based on the level of care provided. Resident fees are recognized as revenues when services are provided. Our expenses include:

- residence operating expenses, such as staff payroll, food, property taxes, utilities, insurance and other direct residence operating expenses;

- general and administrative expenses consisting of regional management and corporate support functions such as legal, accounting and other administrative expenses;

- building rentals;

- depreciation and amortization; and

- interest expense related to debt.

We anticipate that the majority of our revenues will continue to come from private pay sources. However, we believe that by having located some of our residences in states with favorable regulatory and reimbursement climates, we should have a stable source of residents eligible for Medicaid reimbursement to the extent that private pay residents are not available and, in addition, provide our private pay residents with alternative sources of income when their private funds are depleted and they become Medicaid eligible.

Although we manage the mix of private paying residents and Medicaid paying residents residing in our facilities, any significant increase in our Medicaid population could have an adverse effect on our financial position, results of operations and cash flows, particularly if states operating these programs continue to limit, or more aggressively seek limits on, reimbursement rates.

Sales of Residences

During March 2003, the Company sold one residence in Ohio and one residence in Indiana. The total sales price for these residences was \$2.6 million, and the Company recognized a gain from these sales of \$899,000.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate these

Table of Contents

estimates, including those related to bad debts, income taxes, professional and general liability reserves, the carrying value of long-lived assets, financing operations, contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. See *Critical Accounting Policies and Estimates* under *Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations* in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2003.

Results of Operations

The following tables set forth, for the periods presented, operating expenses as a percentage of revenue, the number of total residences and units operated, average occupancy and rental rates and the sources of our revenue. The portion of revenues received from state Medicaid agencies are labeled as *Medicaid state paid portion* while the portion of our revenues that a Medicaid-eligible resident must pay out of his or her own resources is labeled *Medicaid resident paid portion*.

Three months ended March 31, 2004 compared to three months ended March 31, 2003:

The Company recorded net income of \$1.6 million on revenues of \$42.6 million for the three months ended March 31, 2004 (the March 2004 Quarter) compared to net income of \$1.0 million on revenues of \$41.1 million for the three months ended March 31, 2003 (the March 2003 Quarter).

Revenues increased \$1.4 million for the March 2004 Quarter compared to the March 2003 Quarter primarily due to an increase in average occupancy percentage of approximately 0.6% and an increase in average rental rate received from residents of approximately \$71 per month. In March 2004 the Company instituted a private resident rent increase in all its residences.

Residence operating expenses increased \$1.0 million for the March 2004 Quarter compared to the March 2003 Quarter and increased slightly as a percentage of revenue from 67.4% to 67.5%. Of the increase, \$1.2 million is attributable to an increase in payroll expenses, which increased slightly as a percentage of revenue. The increase in payroll is primarily due to an increase in benefits and workers' compensation expense, and increased salaries and wages, including expenses related to employee incentives. The increases in payroll and other less significant increases were offset primarily by a decrease of \$204,000 in administrative expenses and a decrease of \$247,000 in bad debt expense.

Corporate, general and administrative expenses increased \$230,000 for the March 2004 Quarter compared to the March 2003 Quarter and increased slightly as a percentage of revenue. This increase is primarily related to increases in payroll of \$428,000 and legal expenses of \$140,000 that were partially offset by a decrease in building rent expense of \$232,000 and other less significant decreases. The decrease in building rent expense is primarily due to the absence in the March 2004 Quarter of expenses incurred in the March 2003 Quarter related to operating two corporate headquarters and other costs associated with the preparation to close the corporate office in Portland, Oregon.

Building rentals increased \$57,000, or 1.8%, for the March 2004 Quarter compared to the March 2003 Quarter and decreased as a percentage of revenue from 7.5% to 7.4%.

Depreciation and amortization expense increased by \$226,000 for the March 2004 Quarter compared to the March 2003 Quarter due to fixed asset purchases in 2003 and 2004.

Interest expense decreased \$1.0 million for the March 2004 Quarter compared to the March 2003 Quarter due to the overall reduction of indebtedness and lower interest rates.

Liquidity and Capital Resources

At March 31, 2004, we had a working capital deficit of \$14.0 million and unrestricted cash and cash equivalents of \$94,000. Cash decreased from December 31, 2003 to March 31, 2004 primarily due to \$4.5 million of payments towards the GE Credit Facility, thereby increasing our availability under the GE Credit Facility at March 31, 2004 to \$12.5 million.

Net cash provided by operating activities was \$4.2 million during the three months ended March 31, 2004. The primary sources were net income of \$1.6 million plus \$1.9 million for depreciation and amortization.

Table of Contents

Net cash used in investing activities was \$1.1 million during the three months ended March 31, 2004 and primarily related to the purchases of property and equipment.

Net cash used in financing activities was \$4.9 million during the three months ended March 31, 2004, all of which related to borrowings of and payments on long-term debt. Of this \$4.9 million, \$4.5 million related to net payments towards the GE Credit Facility, under which we have \$12.5 million available at March 31, 2004.

In December 2003, the Company refinanced the Senior and Junior Secured Notes and a secured loan provided by GE Capital (collectively Refinanced Debt), which had a total principal amount of approximately \$90.5 million at the refinancing date. The Senior Notes were due to mature in January 2009 and accrued interest at 10%. The Junior Notes were due to mature in January 2012, bearing interest payable in additional Junior Notes at 8% per annum through 2004 and bearing interest at 12% payable in cash beginning in 2005. The GE Capital loan had a maturity of January 2005, and accrued interest at LIBOR plus 4.5% with a minimum interest rate of 8%. Under the terms of the Junior and Senior Indentures, the Indentures and notes were legally defeased effective December 29, 2003 and the notes were redeemed in their entirety.

The Refinanced Debt was retired using proceeds from a new \$38.4 million loan from Red Mortgage Capital (FNMA Loan), as lender for Fannie Mae, a new \$35 million term loan and a \$15 million revolving loan, both from GE Capital (GE Term Loan and GE Credit Facility , respectively).

The FNMA Loan has a fixed interest rate of 6.24%, matures in 10 years, has a 25-year principal amortization and is secured by 24 residences, which serve as collateral. Both the GE Term Loan and the GE Credit Facility mature in 5 years, accrue interest at LIBOR plus 4.0%, which is calculated based on a 360 day year and charged for the actual number of days elapsed, with an interest rate floor of 5.75%, and are secured by a collective pool of 30 residences, which serve as collateral. The GE Term Loan and the GE Credit Facility had an interest rate of 5.75% at March 31, 2004. The GE Term Loan requires monthly interest payments and principal reductions based on a 25-year principal amortization schedule, with a balloon payment at maturity. The GE Credit Facility has an initial revolving borrowing period of 2 years, which may be extended annually thereafter for three years upon mutual consent by GE Capital and the Company. During the initial revolving borrowing period, the GE Credit Facility requires monthly interest payments and no principal reductions. If the initial revolving borrowing period is not extended, then the GE Credit Facility converts from a revolving loan to a term loan with the same terms as the GE Term Loan.

The GE Term Loan and the GE Credit Facility contain financial covenants that require a certain level of financial performance for the residences which serve as collateral for the loan and require the Company to remain current on its other debt service obligations. Failure to comply with these covenants could restrict loan amounts available to the Company under the loan agreement and could constitute an event of default, which would allow GE Capital to declare any amounts outstanding under the loan documents to be due and payable. Any such default could have a material adverse effect on the Company. The loans from Red Mortgage Capital and GE Capital were entered into by subsidiaries of the Company and are non-recourse to the Company, subject to a limited guaranty by the Company.

The Company has a series of Reimbursement Agreements with U.S. Bank for Letters of Credit that support certain of our Revenue Bonds Payable. The total amount of these Letters of Credit was approximately \$23.6 million as of March 31, 2004. Our agreements with U.S. Bank contain certain financial covenants. Failure to comply with these covenants could constitute an event of default, which would allow U.S. Bank to declare any amounts outstanding under the loan documents to be due and payable. Any such default could have a material adverse effect on the Company. The agreements also require us to deposit \$500,000 in cash collateral with U.S. Bank in the event certain regulatory actions are commenced with respect to the properties securing our obligations to U.S. Bank. U.S. Bank is required to release such deposits upon satisfactory resolution of the regulatory action.

Approximately \$23.1 million of our indebtedness was secured by letters of credit held by U.S. Bank as of March 31, 2004, which in some cases have termination dates prior to the maturity of the underlying debt. As such letters of credit expire, in July 2005, we will need to extend the current letters of credit, obtain replacement letters of credit, post cash collateral or refinance the underlying debt. There can be no assurance that we will be able to extend the current letters of credit or procure replacement letters of credit from the same or other lending institutions on terms that are acceptable to us or at all. In the event that we are unable to obtain a replacement letter of credit or provide alternate collateral prior to the expiration of any of these letters of credit, we would be in default on the underlying debt.

Certain of our leases, loan agreements, and debt instruments contain covenants and cross-default provisions such that a default on one of those agreements could cause us to be in default on one or more other agreements, which would have a material adverse effect on the Company.

Table of Contents

The Company leases 37 of its facilities, representing 1,426 units, from LTC Properties, Inc. (LTC). In accordance with the Company's plan of reorganization, effective January 1, 2002, the Company entered into a Master Lease Agreement with LTC under which 16 leases were consolidated. This Master Lease Agreement provides for aggregate rent reductions of \$875,000 per year and restructured the provision related to minimum rent increases for the 16 properties for the remaining initial term. The Master Lease Agreement and other LTC lease agreements also provide LTC with the option to exercise certain remedies, including the termination of the Master Lease Agreement and the other LTC leases, upon the occurrence of an Event of Default. A change of control of the Company is deemed to be an Event of Default if certain conditions are not met. A change of control is deemed to occur if, among other things, (i) any person, directly or indirectly, is or becomes the beneficial owner of thirty percent (30%) or more of the combined voting power of the Company's outstanding voting securities, (ii) the stockholders approve under certain conditions a merger or consolidation of the Company with another corporation or entity, or (iii) the stockholders approve a plan of liquidation or sale of all or substantially all of the assets of the Company. However, if upon a change of control, the surviving entity has a net worth of \$75 million or more, the change of control would not constitute an Event of Default. In addition, there are cross default provisions in the LTC leases. At the same time that the Company entered into the Master Lease Agreement, it also amended 16 other leases with LTC under which the renewal rights of certain of those leases are tied. The lease agreements between the Company and LTC expire according to the following schedule:

	Number of LTC Properties	Year of Lease Expiration
	6	2007
	18	2008
	7	2009
	1	2010
	5	2015
Total	37	

Sixteen of the 37 LTC leases expiring between 2007 and 2010 have been further consolidated into two groups of eight leases each for purposes of applying certain provisions of the underlying leases (collectively, the Pooled Leases). Specifically the Pooled Leases provide for the right to collectively extend the individual leases of each pool for two periods of five years each, provided no uncured events of default exist and the right to extend is exercised upon the earliest deadline of renewal for the individual lease in the pool. Under the terms of the Pooled Leases, the Company must elect to exercise its option to extend in 2007, or all of the leases will expire on their scheduled expiration date.

Below is summarized financial information for the 37 LTC properties:

	Three months ended				
(in thousands) (unaudited)	March 31, 2003	June 30, 2003	September 30, 2003	December 31, 2003	March 31, 2004

Edgar Filing: ASSISTED LIVING CONCEPTS INC - Form 10-Q

Revenue	\$ 8,448	\$ 8,776	\$ 8,855	\$ 8,886	\$ 9,020
Residence operating expenses	5,469	5,442	5,552	5,620	5,719
Building rentals	2,149	2,149	2,236	2,157	2,187
Depreciation & amortization	15	17	20	34	50
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total operating expenses	7,633	7,608	7,808	7,811	7,956
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Operating income(1)	\$ 815	\$ 1,168	\$ 1,047	\$ 1,075	\$ 1,064
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

(1) Excludes certain corporate and other general and administrative expenses that are not allocated at the property level, and is therefore not consistent with the presentation of operating income on the Consolidated Statements of Income.

The occurrence of an Event of Default under the LTC leases, including a change of control of the Company that resulted in the termination of the LTC leases, would significantly impair the Company's cash flow from operations and could have a material adverse effect on the Company.

Table of Contents

Andre Dimitriadis, a member of the Company's Board of Directors, is the President, Chief Executive Officer and Chairman of the Board of LTC Properties, Inc. (LTC). Mr. Dimitriadis, acting solely as a director of the Company and not in his capacity as an officer or director of LTC, has orally raised certain issues regarding compliance with certain of the LTC Leases, which include at this time, the following: 1) whether there are inconsistencies in the number of units that constitute the leased property in the Athens, Texas, Greenville, Texas and Tiffen, Ohio leases, 2) whether the LTC leases require insurance based on the limits stated in the lease on a per facility basis, and 3) whether the 4 LTC leases with Carriage House require Carriage House to deliver on an annual basis audited consolidated financial statements of Carriage House. Mr. Dimitriadis similarly raised the issue as to whether the Company is required to obtain licenses for the 2 facilities located in Elkhart, Indiana and Madison, Indiana as assisted living facilities.

Management believes that the Company has meritorious defenses available to it and/or could exercise its cure rights under the leases to resolve these matters in the event that LTC were to deliver a notice of default. LTC has not delivered any notice of default to the Company. However, the Company is continuing to review and assess these matters internally and no assurance can be given as to whether the eventual resolution of these issues will be favorable to the Company. The Company is in the process of obtaining licenses for the 2 Indiana properties as assisted living facilities which is expected to be completed by December 31, 2004. The Company provides LTC on an annual basis with annual consolidated audited financial statements of the Company, but not Carriage House, which was acquired in 1997. Mr. Dimitriadis has sent a letter to the Company, a copy of which was filed as Exhibit 99 to our Form 10-K for the period ending December 31, 2003, further discussing these matters and the circumstances that led him to raise these issues.

Failure to favorably resolve these issues in a manner that avoids an occurrence of an Event of Default under one or more of the LTC leases would have a material adverse effect on the Company. This would include, but not be limited to, creating Events of Default on loan covenants regarding a significant portion of outstanding indebtedness which, if not cured, would make such indebtedness become immediately payable.

Our ability to make payments on and to refinance any of our indebtedness, to satisfy our lease obligations and to fund planned capital expenditures will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. In addition, our ability to draw additional amounts under our credit facility with GE Capital will depend on us maintaining certain levels of financial performance at the residences that serve as collateral for the credit facility.

Based upon our current level of operations, we believe that our current cash on hand, along with our available credit and expected cash flow from operations, are sufficient to meet our liquidity needs for at least the next twelve months.

There can be no assurance, however, that our business will generate sufficient cash flow from operations to enable us to pay our indebtedness, to satisfy our lease obligations and to fund our other liquidity needs. As a result, we may need to refinance all or a portion of our indebtedness, on or before maturity. There can be no assurance that we will be able to refinance any of our indebtedness, on commercially reasonable terms or at all.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Market risk represents the risk of changes in value of a financial instrument, derivative or non-derivative, caused by fluctuations in interest rates and equity prices. Changes in these factors could cause fluctuations in our results of operations and cash flows.

For fixed rate debt, changes in interest rates generally affect the fair market value of the debt instrument, but not our results of operations or cash flows. We do not have an obligation to prepay any of our fixed rate debt prior to maturity,

and therefore, interest rate risk and changes in the fair market value of our fixed rate debt will not have an impact on our results of operations or cash flows until we decide, or are required, to refinance such debt.

For variable rate debt, changes in interest rates generally do not impact the fair market value of the debt instrument, but do affect our future earnings and cash flows. We had variable rate debt of \$60.5 million outstanding at March 31, 2004 with a weighted average interest rate of 4.0%, of which \$37.4 million has an interest rate floor of 5.75%. Assuming that our balance of variable rate debt, excluding \$37.4 million which has an interest rate floor of 5.75%, remains constant at \$23.1 million, each one-percent increase in interest rates would result in an annual increase in interest expense, and a corresponding decrease in net cash flows, of \$231,350. Conversely, each one-percent decrease in interest rates would result in an annual decrease in interest expense, and a corresponding increase in net cash flows, of \$231,350. For our \$37.4 million of variable rate debt which has a interest rate floor of 5.75%, each one-percent increase in interest rates in excess of 5.75% would result in an annual increase in interest expense, and a corresponding decrease in net cash flows, of \$374,000. Conversely, each one-percent decrease at interest rates of 6.75% or greater would result in an annual decrease in interest expense, and a corresponding increase in net cash flows, of \$374,000.

Table of Contents

We are also exposed to market risks from fluctuations in interest rates and the effects of those fluctuations on market values of our cash equivalents and short-term investments. These investments generally consist of overnight investments that are not significantly exposed to interest rate risk, except to the extent that changes in interest rates will ultimately affect the amount of interest income earned and cash flow from these investments.

We do not have any derivative financial instruments in place to manage interest costs, but that does not mean we will not use them as a means to manage interest rate risk in the future.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated our disclosure controls and procedures (as defined in Securities Exchange Act of 1934 (the Exchange Act) Rules 13a-15(e) and 15d-15(e) as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Exchange Act). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective to ensure that information required to be disclosed in reports that we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during our last fiscal quarter that has materially affected or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We are involved from time to time in ordinary, routine or regulatory legal proceedings incidental to our business. As of May 10, 2004, we believe that such legal proceedings should not have a material adverse effect on our business.

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 6. Exhibits and Reports on Form 8-K
