CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Basis of Presentation

The consolidated financial statements include the accounts of Cash America International, Inc. and its majority-owned subsidiaries (the Company). All significant intercompany accounts and transactions have been eliminated in consolidation.

The financial statements as of September 30, 2004 and 2003, and for the three and nine month periods then ended, are unaudited but, in management's opinion, include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results for such interim periods. Operating results for the three and nine month periods are not necessarily indicative of the results that may be expected for the full fiscal year. These financial statements and related notes should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2003 Annual Report to Stockholders.

Certain amounts in the consolidated financial statements for the three and nine month periods ended September 30, 2003, have been reclassified to conform to the presentation format adopted in 2004. These reclassifications have no effect on the net income previously reported.

In September 2004, the Company sold its foreign pawn lending operations in the United Kingdom and Sweden. The results of the foreign pawn lending operations have been reclassified as discontinued operations for all periods presented in accordance with Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. See Note 6.

In addressing comments from the staff of the Securities and Exchange Commission in connection with the staff's review of the Company's 2003 Form 10-K, the Company restated its Consolidated Statements of Cash Flows to eliminate certain non-cash items and reclassify certain items between operating cash flows and investing cash flows for the year ended December 31, 2003, the three months ended March 31, 2004 and the six months ended June 30, 2004. The restated amounts for the nine months ended September 30, 2003, reflect solely a reclassification in the Consolidated Statements of Cash Flows to eliminate the amounts of forfeited pawn loans during that period, previously reported when the pawn loan amount was fully satisfied through a forfeiture of the pledged goods which were then transferred to goods available for disposition, to reporting the principal amount collected on those loans in the period when the forfeited collateral is sold. Any proceeds received in excess of the principal amount loaned are reported as operating cash flows. In addition, pawn loans renewed and cash advances renewed are no longer included in the Consolidated Statements of Cash Flows.

Table of Contents

CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued

Following is a summary of the effect of restatement on the Company's Consolidated Statements of Cash Flows for the nine months ended September 30, 2003 (in thousands):

	Previously Reported After Reclassifying Discontinued Operations	As Restated
	<hr/>	<hr/>
Cash Flows from Operating Activities:		
Changes in operating assets and liabilities		
Merchandises held for disposition	\$ (2,376)	\$ 3,324
Net cash provided by operating activities of continuing operations	33,770	39,470
Cash Flows from Investing Activities:		
Pawn loans forfeited and transferred to merchandise held for disposition	89,213	
Pawn loans made, including loans renewed	(235,688)	
Pawn loans made		(205,754)
Pawn loans repaid or renewed	143,578	
Pawn loans repaid		113,644
Principal recovered on forfeited loans through disposition		83,513
Cash advances made, assigned or purchased	(95,410)	(91,158)
Cash advances repaid or renewed	80,829	
Cash advances repaid		76,577
Net cash used by investing activities of continuing operations	(69,361)	(75,061)
Net cash provided by financing activities of continuing operations	42,416	42,416
Net increase in cash and cash equivalents	6,825	6,825
Cash and cash equivalents at beginning of year	2,255	2,255
Cash and cash equivalents at end of period	9,080	9,080

2. Revenue Recognition

Pawn Lending Pawn loans (loans) are made on the pledge of tangible personal property. The Company accrues finance and service charges revenue only on those loans that the Company deems collectible, based on historical loan redemption statistics. For loans not repaid, the carrying value of the forfeited collateral (merchandise held for disposition) is stated at the lower of cost (cash amount loaned) or market. Revenue is recognized at the time that merchandise is disposed. Interim customer payments for layaway sales are recorded as customer deposits and subsequently recognized as revenue during the period in which final payment is received.

Cash Advances Cash advances provide customers with cash in exchange for a promissory note or other repayment agreement supported by that customer's personal check for the aggregate amount of the cash advanced plus a service fee. To repay the cash advance, customers may redeem their check by paying cash or they may allow the check to be presented for collection. The Company accrues fees and interest on cash advances on a constant yield basis ratably over their terms. For those locations that offer cash advances from a third-party bank, the Company receives administrative service fees for services provided on the banks' behalf. These fees are recorded in revenue when earned.

Check Cashing The Company records fees derived from its owned check cashing locations and consumer finance centers in the period in which the service is provided. Royalties derived from franchise locations are recorded on the accrual basis.

Table of Contents

**CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued**

3. Stock-Based Compensation

Under various equity compensation plans (the Plans) it sponsors, the Company is authorized to issue 8,300,000 shares of common stock pursuant to the grant of Awards including incentive stock options (intended to qualify under Section 422 of the Internal Revenue Code of 1986, as amended), nonqualified stock options, restricted stock and restricted stock units.

In January 2004, the Company changed its approach concerning annual equity based compensation awards and granted 103,175 restricted stock units to its officers under the provisions of the 1994 Long-Term Incentive Plan in lieu of stock options. In April 2004, the Company adopted the 2004 Long-Term Incentive Plan, which was approved by shareholders at the 2004 annual shareholders meeting held April 21, 2004 and granted 11,574 restricted stock units to the non-management members of its Board of Directors. The aggregate market value of these restricted stock units at the date of grant of \$2,597,000 is being amortized to expense over the vesting periods of 4 years for officers and 1 year for Directors. For officers, each vested restricted stock unit entitles the holder to receive a share of the common stock of the Company to be issued upon vesting. Directors are entitled to their shares once their restricted stock units are vested and the Director is no longer a member of the Board. In conjunction with the adoption of the Company's Supplemental Executive Retirement Plan, in December 2003, a grant consisting of 233,223 restricted stock units with an aggregate market value at date of grant of \$4,485,000 was made to officers of the Company. This amount is being amortized to expense over the vesting periods of 4 to 15 years. Each vested restricted stock unit entitles the holder to receive a share of the common stock of the Company to be issued upon termination of employment from the Company. Compensation expenses totaling \$348,000 (\$226,000 net of related tax) and \$872,000 (\$567,000 net of related tax) were recognized in the three and nine month periods ended September 30, 2004, respectively, for all of the above grants and restricted stock units. There was no compensation expense related to stock based compensation in the 2003 periods.

Prior to December 2003, the Company granted stock options under the Plans with contractual terms of 5 to 15 years and an exercise price equal to or greater than the fair market value of the stock at grant date. Stock options granted vest over periods ranging from 1 to 7 years. However, the terms of the options with the 7-year vesting periods and certain of the 4-year and 5-year vesting periods include provisions which accelerate vesting if specified share price appreciation criteria are met. During the nine months ended September 30, 2004 and 2003, 551,547 and 794,575 shares, respectively, vested due to the acceleration provision.

The Company accounts for its stock-based employee compensation plans in accordance with Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25), often referred to as the intrinsic value based method, and accordingly, no compensation expense has been recognized for its stock options. Had compensation expense for the Company's stock options been determined using the fair value accounting provisions of SFAS No. 123 *Accounting for Stock-Based Compensation* (SFAS 123), the Company's net income and related amounts per share, basic and diluted, for each of the three and nine month periods ended September 30, 2004 and 2003 would have been reported as follows (in thousands, except per share amounts).

^(a) Determined under fair value based method for all awards, net of related tax effects. All awards refers to options granted, modified, or settled in fiscal periods beginning after December 15, 1994, that is, options for which the fair value was required to be measured under SFAS 123.

4. Recent Accounting Pronouncement

In December 2003, the Accounting Standards Executive Committee (AcSEC) issued Statement of Position 03-3 (SOP 03-3), *Accounting for Certain Loans or Debt Securities Acquired in a Transfer*. SOP 03-3 requires that the excess of contractual cash flows over cash flows expected to be collected not be recognized as an adjustment of yield, loss accrual, or valuation allowance. Subsequent increases in cash flows expected to be collected generally should be recognized prospectively through adjustment of the loan s yield over its remaining life and decreases in cash flows expected to be collected should be recognized as impairment. SOP 03-3 is effective for loans acquired in fiscal years beginning after December 15, 2004 and is not expected to have a material effect on the Company s consolidated financial position or results of operations.

5. Acquisitions

In keeping with its business strategy to expand its service offerings to a larger number of potential customers, in September 2004 the Company entered into an agreement to purchase the assets of Camco, Inc. which conducts

business under the trade name of SuperPawn (hereafter referred to as SuperPawn), with 41 pawn locations in four western states, based in Las Vegas, Nevada. Management currently estimates that the aggregate purchase price will be approximately \$125,000,000, however, this amount will be adjusted based on asset and debt levels at closing. The purchase consideration would consist of \$15,000,000 of Company common stock and the balance in cash. The transaction is anticipated to close following final due diligence, license transfer, and the approval of regulatory agencies, late in the fourth quarter of 2004 or in early 2005.

In addition, the Company acquired, in two distinct transactions, the operating assets of 32 cash advance locations in southern California operating under the trade names of GoldX (acquired on August 31, 2004) and Urgent Money (acquired on September 20, 2004) for \$14,451,000 cash. The operating results of those locations have been included in the consolidated financial statements since the respective dates of acquisition.

CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued

The Company's June 30, 2003 asset purchase agreement for the purchase of the assets of Cashland, Inc. through Cashland Financial Services, Inc. (Cashland), a wholly-owned subsidiary, contained a provision under which the seller could potentially have received additional consideration based upon the future earnings of the business. On February 2, 2004, the parties amended the asset purchase agreement to eliminate that provision and to provide instead for the Company to make a final payment of additional consideration in the amount of \$5,400,000. The payment consisted of \$2,900,000 in cash and a subordinated note for \$2,500,000 (see Note 10). The Company increased goodwill for the additional consideration.

The following table provides information concerning the acquisitions made by the Company's continuing operations during the nine months ended September 30, 2004 and 2003 (\$ in thousands):

	<u>2004</u>	<u>2003</u>

	<u> </u>	<u> </u>
Cash paid for acquisitions	<u>\$14,451</u>	<u>\$43,059</u>

6. Discontinued Operations

In order to focus on the growth of pawn lending and cash advance activities in the United States, the Company announced in September 2004, the sale of its foreign pawn lending operations in the United Kingdom and Sweden to Rutland Partners LLP for \$112,870,000, including two separate subordinated notes receivable valued at \$7,961,000 and the remainder in cash. The Company received net cash proceeds of \$102,788,000 at closing after paying off the outstanding balance of the multi-currency line of credit and received an additional \$2,120,000 in cash in October upon a final reconciliation. The notes are the sole obligation of the company that acquired Svensk Pantbelåning and are both

subordinated as to rights and payment terms to certain senior lenders in the transaction. The senior subordinated note received in the maximum principal amount of SEK 80,400,000 (approximately \$10,685,000 face value at the date of sale with a discounted value of \$7,216,000 at September 30, 2004) bears a coupon rate of 8.33% per annum (effective yield of 16.4% per annum) payable quarterly with scheduled principal payments due between 2007 and 2011 subject to terms of the senior indebtedness. The convertible junior subordinated note received in the amount of SEK 13,400,000 (approximately \$1,781,000 face value at the date of sale with discounted value of \$765,000 at September 30, 2004) bears a coupon rate at 10.0% per annum (effective yield of 25.5% per annum) payable quarterly with the entire principal or remaining unconverted principal due in 2014. This subordinated note is convertible, after two years, at the Company's option, into approximately 27.7% of the equity interest on a fully diluted basis in the acquiring company of Svensk Pantbelåning. The Company will have

Table of Contents

CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued

no voting rights related to this equity interest, if and when exercised. See Exhibit 99.1 for pro forma information on the sale.

As the issuer of the two subordinated notes is heavily leveraged with minimal equity, and due to the subordination feature and the payment structure of the two notes, the Company has valued the notes based on comparable yields for securities of this nature and discounted the senior subordinated note with 8.33% coupon rate and face value of \$10,685,000 to \$7,197,000 at the date of sale to yield 16.4% per annum, and the junior subordinated convertible note with 10.0% coupon rate and face value of \$1,781,000 to \$764,000 at the date of sale to yield 25.5% per annum.

The Company realized a gain of \$18,902,000 (\$14,689,000 net of related taxes) upon the sale of the discontinued operations. In connection with the sale, the Company declared a special dividend of \$0.30 per share to its shareholders to be paid in December 2004. The special dividend reflects a share of the significant gain realized on the sale. A foreign currency translation gain of \$233,000 on the U.S. dollar equivalent value of the subordinated notes, the accrued interest and other receivable and accrual adjustments at September 30, 2004 was recognized in the Company's Consolidated Statements of Operations as a reduction of administrative expenses.

The carrying amounts of the major classes of the assets and liabilities of the foreign pawn lending operations at September 30, 2004 and 2003, and at December 31, 2003 were as follows (in thousands):

	<u>September 30,</u>		<u>December 31,</u>

7. Cash Advances and Allowance for Losses

The Company offers the cash advance product through its Cash America pawnshops, Cash America Payday Advance locations and Cashland consumer finance centers. Cash advances are generally offered for a term of 7 to 45 days. The Company originates cash advances in some of its locations and markets and services cash advances made by third-party banks in other Company locations. The Company entered into an agreement with a second third-party bank that began offering cash advances in some of those locations in the second quarter of 2004.

Table of Contents

CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued

Under the banks' programs, the banks sell participation interests in bank originated cash advances to third parties, and the Company purchases sub-participation interests in certain of those participations. The Company also receives an administrative fee for its services. In order to benefit from the use of the Company's collection resources and proficiency, cash advances unpaid after maturity are assigned to the Company at a discount from the amount owed by the borrower. Losses on cash advances assigned to the Company that prove uncollectible are the responsibility of the Company. To the extent that the Company collects an amount owed by the customer in excess of the amount assigned by the banks, the Company is entitled to the excess and recognizes it in income when collected. Since the Company may not be successful in the collection of the assigned accounts, the Company's cash advance loss provision includes amounts estimated to be adequate to absorb credit losses from cash advances in the aggregate portfolio, including those expected to be assigned to the Company.

Cash advances outstanding at September 30, 2004 and 2003, were as follows (\$ in thousands):

	<u>2004</u>	<u>2003</u>
<i>Originated by the Company</i>

Table of Contents

CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued

Cash advances assigned by the banks to the Company for collection were \$30,938,000 and \$21,701,000, for the nine months ended September 30, 2004 and 2003, respectively. The Company's participation interest in bank originated cash advances was \$5,136,000 and \$6,996,000 at September 30, 2004 and 2003, respectively.

During the quarter ended September 30, 2004, the Company modified its estimate of the historical period used to base current loss experience on its cash advance portfolio to a rolling twelve-month basis from a shorter time frame. Management believes that this change more accurately reflects the potential loss inherent in the portfolio and provides for an adequate estimate of future loss on loans which have not reached their due date. The Company continues to treat all loans which become past due as fully reserved for losses at the point they become sixty days past due.

8. Earnings Per Share Computation

The following table sets forth the reconciliation of numerators and denominators for the basic and diluted earnings per share computation for the three and nine month periods ended September 30, 2004 and 2003 (in thousands):

	<u> </u>	<u> </u>	<u> </u>	<u> </u>

9. Goodwill and Other Intangible Assets

Goodwill and other intangible assets having an indefinite useful life are tested for impairment annually at June 30, or more frequently if events or changes in circumstances indicate that the assets might be impaired. Based on the results of the test, management determined there was no impairment as of June 30, 2004, as the respective fair value of the Company's reporting units exceeds their respective carrying amounts. The Company amortizes intangible assets with an expected useful life based on their expected periods of benefit.

Table of Contents

CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued

Goodwill The changes in the carrying value of goodwill of continuing operations for the nine month periods ended September 30, 2004 and 2003, were as follows (in thousands):

12.00% subordinated note due 2014	2,500	
	<u> </u>	<u> </u>
Total debt	74,143	163,350
Less current portion	16,786	8,286
	<u> </u>	<u> </u>
Total long-term debt	<u>\$57,357</u>	<u>\$155,064</u>

In connection with the sale of the foreign pawn lending operations and the intended acquisition of SuperPawn, the Company entered into agreements to amend certain terms and calculations of covenants under the U.S. line of credit, the 8.14%, 7.10% and 7.20% senior notes.

Table of Contents

**CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued**

Under the terms of its U.S. line of credit agreement, as of March 31, 2004, the Company's line of credit was reduced to \$130,000,000 from \$135,000,000. This line of credit will be further reduced to \$125,000,000 at March 31, 2005 and to \$115,000,000 at March 31, 2006. In conjunction with the sale of the Company's foreign operations, the credit agreement was further amended in August 2004, to allow the Company to pay a one-time dividend of up to \$10,000,000 to its shareholders. The outstanding balance under this line of credit was paid off with the cash proceeds received from the sale of the foreign pawn lending operations.

Pursuant to the amended Cashland asset purchase agreement, the Company issued a subordinated note for \$2,500,000 as a partial consideration of the final payment. Interest on this note accrues at 12% per annum and is payable semi-annually. The note principal is payable in nine equal annual installments beginning in February 2006. The final payment is due in February 2014. However, the note may be prepaid after February 1, 2006.

11. Operating Segment Information

During the quarter ended March 31, 2004, the Company realigned its segment reporting to reflect the business mix and management reporting structure. The Company's continuing operations has three reportable operating segments, the pawn lending operations; the cash advance operations which include Cashland and Cash America Payday Advance locations; and the check cashing operations (Mr. Payroll). Cash advance and check cashing are managed separately due to the different operational strategies required and, therefore, are reported as separate segments.

As noted in Note 6, during the quarter ended September 30, 2004, the Company sold its foreign pawn lending operations which was previously reported as a separate operating segment. The segment data presented below excludes amounts related to the foreign pawn lending operations that is reported as discontinued operations.

12. Litigation

On August 6, 2004, James E. Strong filed a purported class action lawsuit in the State Court of Cobb County, Georgia against Georgia Cash America, Inc., Cash America International, Inc. (together with Georgia Cash America, Inc., Cash America), Daniel R. Feehan, and several unnamed officers, directors, owners and stakeholders of Cash America. The lawsuit alleges many different causes of action, among the most significant of which is that Cash America has been making illegal payday loans in Georgia in violation of Georgia's usury law, the Georgia Industrial Loan Act and Georgia's Racketeer Influenced and Corrupt Organizations Act. Community State Bank has for some time made loans to Georgia residents through Cash America's Georgia operating locations. The complaint in this lawsuit claims that Community State Bank is not the true lender with respect to the loans made to Georgia borrowers and that its involvement in the process is a mere subterfuge. Based on this claim, the suit alleges that Cash America is the de facto lender and is illegally operating in Georgia. The complaint seeks unspecified compensatory damages, attorney's fees,

Table of Contents

**CASH AMERICA INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) Continued**

punitive damages and the trebling of any compensatory damages. The Company believes that the claims in this suit are without merit and intends to vigorously defend this lawsuit. Cash America has filed a motion to compel Mr. Strong to arbitrate his claim. Discovery has not yet commenced in this lawsuit, and as a result neither the likelihood of an unfavorable outcome nor the ultimate liability, if any, with respect to this litigation can be determined at this time.

The Company is also a defendant in certain lawsuits encountered in the ordinary course of its business. Certain of these matters are covered to an extent by insurance. In the opinion of management, the resolution of these matters will not have a material adverse effect on the Company's financial position, results of operations or liquidity.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

GENERAL

The Company is a provider of specialty financial services to U.S. consumers. The Company offers secured non-recourse loans, commonly referred to as pawn loans, to individuals through its pawn lending operations. The pawn loan portfolio generates finance and service charges revenue. A related activity of the pawn lending operations is the disposition of merchandise, primarily collateral from unredeemed pawn loans. As an alternative to a pawn loan, the Company offers unsecured cash advances in selected lending locations and on behalf of third-party banks in other locations. The Company also provides check cashing and related money services through its consumer finance centers and its franchised and company-owned check cashing centers. Prior to September 7, 2004, the Company also provided financial services to individuals in the United Kingdom and Sweden (the foreign pawn lending operations). The foreign pawn lending operations were sold to Rutland Partners LLP for approximately \$112.9 million, consisting of cash and notes receivable valued at \$8.0 million. See Note 6 of Notes to Consolidated Financial Statements.

As of September 30, 2004, the Company's pawn lending operations consisted of 404 pawnshops, including 398 owned units and 6 unconsolidated franchised units in 17 states. During the 21 months ended September 30, 2004, excluding the 69 units of the foreign pawn lending operations that were sold in September 2004, the Company acquired 7 operating units, established 3 locations, and combined or closed 8 locations for a net increase in pawn lending units of 2. In addition, the Company terminated 6 franchises and purchased 1 for its company-owned operations.

As of September 30, 2004, the Company's cash advance operations consisted of 230 cash advance locations, including 162 locations through Cashland Financial Services, Inc. (Cashland), a wholly-owned subsidiary, 32 southern California locations operating under the brand names Urgent Money and GoldX, and 36 Cash America Payday Advance locations. The Cashland consumer finance centers offer cash advances, check cashing and related money services in 4 states; the Urgent Money and GoldX consumer finance centers offer cash advances and related money services in California; and the Cash America Payday Advance locations offer the cash advance product in Texas. During the 14 months since its acquisition on August 1, 2003, Cashland has established 46 locations and closed 5 locations.

As of September 30, 2004, the check cashing operations of Mr. Payroll Corporation (Mr. Payroll), a wholly-owned subsidiary, consisted of 124 franchised and 6 company-owned check cashing centers in 20 states.

Table of Contents**DISCONTINUED OPERATIONS**

In September 2004, in order to focus on the growth of its pawn lending and cash advance activities in the United States, the Company sold its foreign pawn lending operations in the United Kingdom and Sweden to Rutland Partners LLP for approximately \$112.9 million, including notes receivable valued at \$8.0 million and the remainder in cash. The Company realized a gain on the sale of \$18.9 million (\$14.7 million net of related tax). The Company received net cash proceeds of \$102.8 million at closing after paying off the outstanding balance of the multi-currency line of credit and received an additional \$2.1 million in cash in October 2004 upon a final reconciliation. The results of the foreign pawn lending operations have been reclassified as discontinued operations for all periods presented in accordance with the Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* in the accompanying consolidated financial statements.

Income from discontinued operations was \$1.8 million and \$6.5 million (excluding gain on the sale) for the three and nine months ended September 30, 2004, respectively, and \$2.0 million and \$5.6 million for the three and nine months ended September 30, 2003, respectively. See Note 6 of Notes to Consolidated Financial Statements and Exhibit 99.1.

RESULTS OF CONTINUING OPERATIONS

OVERVIEW

Components of Consolidated Net Revenue. Consolidated net revenue is total revenue reduced by the cost of merchandise disposed of in the period. It represents the income available to satisfy expenses and is the measure management uses to evaluate top line performance. The growth in cash advance fees due to higher balances and the addition of new units, including the acquisition of Cashland in August 2003, has increased the comparative contribution from this product to the consolidated net revenue of the Company in the three and nine months ended September 30, 2004 compared to the same periods of 2003. Pawn related net revenue of aggregate finance and service charges plus profit on the disposition of merchandise remains the dominant source of net revenue at 62.8% and 74.2% of consolidated net revenue for the three months ended September 30, 2004 and 2003, and at 66.0% and 81.7% for the nine months ended September 30, 2004 and 2003, respectively. The following graphs show consolidated net revenue of continuing operations and depict the mix of the components of net revenue for the quarter and nine months ended September 30, 2004 and 2003:

Table of Contents

Contribution to Increase in Net Revenue. In conjunction with the increase in cash advance fees as a percentage of net revenue, the relative percentage contribution from cash advance fees to the quarter over quarter and nine months over nine months increase in net revenue has grown significantly due to the inclusion of Cashland, greater cash advance balances and additional units. In addition, the elimination of foreign pawn lending activities from net revenue from continuing operations causes the contribution of cash advance fees to be larger. The increase in pawn related net revenue in the aggregate, combined finance and service charges and profit from the disposition of merchandise, declined from 26.7% to 17.6% and from 37.9% to 18.3% of the increase in net revenue from continuing operations for the third quarter and nine months of 2004 compared to 2003, respectively. Check cashing royalties and fees accounted for 3.7% and 7.5% of the increase in net revenue in the quarter and nine months ended September 30, 2004, respectively. This trend is depicted in the following graphs:

Table of Contents**Quarter Ended September 30, 2004 Compared To Quarter Ended September 30, 2003**

Consolidated Net Revenue. Consolidated net revenue increased \$15.5 million, or 25.2%, to \$76.9 million during the third quarter ended September 30, 2004 (the current quarter) from \$61.4 million during the third quarter ended September 30, 2003 (the prior year quarter). The following table sets forth net revenue results by operating segment for the three month periods ended September 30 (\$ in millions):

	<u>2004</u>	<u>2003</u>	<u>Increase</u>	
Pawn lending operations	\$57.1	\$52.6	\$ 4.5	8.6%
Cash advance operations	19.0	8.0	11.0	137.5
Check cashing operations	0.8	0.8		
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Consolidated net revenue	\$76.9	\$61.4	\$15.5	25.2%
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

The increase in consolidated net revenue was primarily due to the consolidation of the operating results of Cashland for the entire current quarter as compared to only two months for the prior year quarter. Excluding the impact of Cashland, net revenue for the current quarter was up \$6.3 million, or 11.8%, compared to the prior year quarter. The Company's pawn lending operations contributed the majority of the increase in consolidated net revenue excluding Cashland. Higher revenue from the Company's cash advance product, higher finance and service charges from pawn loans, and higher profit from the disposition of merchandise accounted for the increase in net revenue.

The components of net revenue are finance and service charges from pawn loans, which increased \$2.3 million; profit from the disposition of merchandise, which increased \$0.4 million; cash advance fees, which increased \$12.2 million; and check cashing royalties and fees, which increased \$0.6 million. Management believes that the trend of higher cash advance fees and higher finance and service charges on pawn loans will continue during the remainder of 2004 due to the higher balances of cash advances and pawn loans at the end of the current quarter compared to the prior year quarter and the addition of new locations in 2003 and 2004.

Finance and Service Charges. Finance and service charges increased \$2.3 million, or 8.9%, from \$25.7 million in the prior year quarter to \$28.0 million in the current quarter. An increase in the average balance of pawn loans outstanding contributed \$1.8 million of the increase and the higher annualized yield of the pawn loan portfolio resulted in \$0.5 million of the increase.

The average balance of pawn loans outstanding was 7.0% higher during the current quarter than the prior year quarter. The increase in the average balance of pawn loans outstanding was driven by a 2.5% increase in the average number of pawn loans outstanding during the current quarter coupled with a 4.5% increase in the average amount per loan. Pawn loan balances at September 30, 2004, were \$4.6 million, or 5.5%, higher than at September 30, 2003. Management believes the higher average pawn loan balance outstanding is partially attributable to the current economic environment affecting the Company's customers, which was conducive to an increase in loan demand, and expects this trend of higher demand for pawn loans to continue throughout the remainder of 2004 and into fiscal 2005.

The annualized loan yield was 125.9% in the current quarter, compared to 123.2% in the prior year quarter. The higher yield is partially due to an increase in the permitted rate and shortening of loan terms in one state in which the Company operates. In addition, improved performance of the pawn loan portfolio, including higher redemption rates and a slightly higher concentration of extended and renewed loans in the portfolio, contributed to the higher pawn loan yield.

Table of Contents

Profit from Disposition of Merchandise. Profit from disposition of merchandise represents the proceeds received from disposition of merchandise in excess of the cost of disposed merchandise. The following table summarizes the proceeds from disposition of merchandise and the related profit for the current quarter compared to the prior year quarter (\$ in millions):

	Three Months Ended September 30,					
	2004			2003		
	Merch- andise	Refined Gold	Total	Merch- andise	Refined Gold	Total
Proceeds from disposition	\$45.0	\$ 8.8	\$53.8	\$46.2	\$ 7.3	\$53.5
Profit on disposition	\$17.6	\$ 2.6	\$20.2	\$17.8	\$ 2.1	\$19.9
Profit margin	39.2%	29.5%	37.6%	38.5%	28.8%	37.2%

Profit from the disposition of merchandise and refined gold increased \$0.3 million, or 1.5%, due to higher profit margins (to 37.6% in the current quarter from 37.2% in the prior year quarter). Excluding the effect of the disposition of refined gold, the profit margin on the disposition of merchandise increased to 39.2% in the current quarter from 38.5% in the prior year quarter due predominately to a slightly heavier mix of jewelry sales. The profit margin on the disposition of refined gold was 29.5% in the current quarter compared to 28.8% in the prior year quarter due to the prevailing higher market prices of refined gold in the current quarter than in the prior year quarter and slightly higher volume of gold sold in the current period. Proceeds from disposition of merchandise decreased by \$1.2 million, or 2.6%. Management attributes this slight decline to higher sales levels in the prior year quarter due to the advance child tax credit refund distributed by the Internal Revenue Service to certain customers during the third quarter of 2003 and adverse weather in the Florida and Alabama market in September of the current quarter. Proceeds from disposition of refined gold increased by \$1.5 million, or 20.5%. The consolidated merchandise turnover rate decreased slightly to 2.5 times during the current quarter compared to 2.7 times during the prior year quarter due to higher average merchandise balances which is consistent with the results of greater balances of pawn loans over time.

Whereas profit margins on disposition of merchandise have risen in recent periods, Management now expects those profit margins to stabilize in the near term around current levels, as higher levels of pawn loan balances are likely to generate an increase in merchandise available for disposition moving into the last quarter of the year and further significant increases in the prevailing market price of gold are unlikely.

Cash Advance Fees. Cash advance fees increased \$12.2 million, or 84.1%, to \$26.7 million in the current quarter as compared to \$14.5 million in the prior year quarter. The increase was primarily due to the additions of cash advance units and the inclusion of the entire current quarter's operating results of Cashland, while only two months of operating results of Cashland were included in the prior year quarter. Higher average cash advance balances outstanding during the current quarter resulting from higher demand for the cash advance product also contributed to the increase in cash advance fees. The cash advance product was available in 620 U.S. lending locations, which

included 390 Cash America pawnshops, 68 Cash America Payday Advance locations and 162 Cashland consumer finance centers at September 30, 2004. These included 332 units that offer the product on behalf of third-party banks for which the Company performs administrative services. Cash advance fees include revenue from the cash advance portfolio owned by the Company and fees for administrative services performed for the banks. (Although cash advance transactions may take the form of loans or deferred check deposit transactions, the transactions are referred to throughout this discussion as cash advances for convenience.)

The amount of cash advances written increased \$81.6 million, or 88.3%, to \$174.0 million in the current quarter from \$92.4 million in the prior year quarter. Included in the amount of cash advances written in the current quarter and prior year quarter were \$62.9 million and \$41.7 million, respectively, extended to customers by the banks. The average amount per cash advance increased to \$335 from \$313 primarily as a

Table of Contents

result of larger loans originated by the third-party banks in some markets. The combined Company and bank portfolios of cash advances generated \$28.9 million in revenue during the current quarter compared to \$15.7 million in the prior year quarter. The outstanding combined portfolio balance of cash advances increased \$17.6 million to \$45.6 million at September 30, 2004, from \$28.0 million at September 30, 2003. Included in these amounts are \$38.9 million and \$26.6 million for 2004 and 2003, respectively, that are included in the Company's consolidated balance sheets. An allowance for losses of \$4.9 million and \$3.8 million has been provided in the consolidated financial statements as of September 30, 2004 and 2003, respectively, which offsets the outstanding cash advance amounts.

Management anticipates continued growth in cash advance fees for the remainder of 2004 and into fiscal 2005 due to increased consumer awareness and demand for the cash advance product, higher outstanding balances at September 30, 2004 compared to September 30, 2003, and the growth of balances from new units opened in 2003 and in the first nine months of 2004, and expected to be opened during the remainder of 2004.

Check Cashing Royalties and Fees. Check cashing fees for Mr. Payroll remained at \$0.8 million for both periods. Check cashing revenue for Cashland in the current quarter and prior year quarter was \$1.1 million and \$0.5 million, respectively. The increase in fees for Cashland is due to growth in the units and the fact that Cashland is included for all three months in the current quarter.

Operations and Administration Expenses. Consolidated operations and administration expenses, as a percentage of total revenue, were 47.3% in the current quarter compared to 47.6% in the prior year quarter. These expenses increased \$7.1 million, or 15.6%, in the current quarter compared to the prior year quarter, primarily due to the inclusion of the entire quarter of Cashland, while only two months of operating and administrative expenses were included in the prior year quarter. Pawn lending and Cash America Payday Advance operations expenses increased \$1.6 million, or 4.0%, as a result of slightly higher staffing levels, and higher expenses related to the cash advance product, including advertising and the net increase of 7 owned pawnshop locations and 20 Cash America Payday Advance locations. Cashland contributed \$5.5 million of the increase as a result of the establishment of 36 consumer finance centers net of 5 closures and an additional month of expenses included for the current quarter as compared to the prior year quarter due to the acquisition on August 1 last year.

As a multi-unit operator in the consumer finance industry, the Company's operations and administration expenses are predominately for personnel and occupancy expenses. Personnel expenses include base salary and wages, performance incentives, and benefits. Occupancy expenses include rent, property taxes and insurance, utilities, and maintenance. The combination of personnel and occupancy expenses represents 82.8% of total operations and administration expenses in the current quarter and 84.3% in the prior year quarter. The comparison as a percentage of revenue is as follows (\$ in millions):

	Three Months Ended September 30,			
	2004		2003	
	Amount	% of Revenue	Amount	% of Revenue
Personnel	\$30.8	27.8%	\$27.3	28.7%
Occupancy	12.5	11.3	10.9	11.4
Other	9.0	8.2	7.1	7.5
Total	\$52.3	47.3%	\$45.3	47.6%

Personnel expense increased \$3.5 million, or 12.7%, and \$3.1 million of the increase is attributable to the additional one month of Cashland operations and the increased number of Cashland consumer finance centers. The balance of the increase is due to the additions of Cash America payday advance and pawnshop locations during the last 12 months, an increase in staffing levels, higher benefit costs and normal recurring

Table of Contents

annual salary increases. Occupancy expenses increased \$1.6 million, or 14.7%, and \$1.1 million of the increase is due to Cashland.

Cash Advance Loss Provision. The Company maintains an allowance for losses on cash advances at a level projected to be adequate to absorb credit losses inherent in the outstanding combined cash advance portfolio. The cash advance loss provision is utilized to increase the allowance carried against the outstanding combined cash advance portfolio. The cash advance loss provision increased \$2.9 million to \$7.0 million in the current quarter as compared to \$4.1 million in the prior year quarter, principally due to the significant increase in the size of the portfolio. The loss provision as a percentage of cash advance fees decreased to 26.3% in the current quarter as compared to 28.1% in the prior year quarter. The decrease in the loss provision as a percentage of cash advance fees is primarily due to the increased significance of the cash advance operating segment in the current quarter compared to the prior year quarter. On average, cash advance locations tend to originate more advances and experience lower loss rate than pawnshop locations.

In addition, during the current quarter, the Company modified its estimate of the historical period used to base current period loss experience in its cash advance portfolio to a rolling twelve-month basis. Previously, loss rates were estimated using a rolling three months of collections history, which limited performance to only near term collection success. Management believes that this change more accurately reflects the potential loss inherent in the portfolio and provides for an adequate estimate of future loss on loans which have not reached their due date. Management continues to treat all loans which become past due as fully reserved for losses at the point they become sixty days past due. The impact of this adjustment in the current quarter is approximately \$1.6 million and is reflective of the more appropriate measure of the non-past due portion of the portfolio's anticipated loss experience.

Depreciation and Amortization. Depreciation and amortization expense as a percentage of total revenue increased slightly to 3.9% in the current period, as compared to 3.7% for the prior year period. Total depreciation and amortization expense increased \$0.9 million, or 25.7%, primarily due to the amortization of intangibles such as non-competition agreements and customer relations acquired in the Cashland and other acquisitions.

Interest Expense. Net interest expense as a percentage of total revenue was 1.8% for the current quarter as compared to 2.3% for the prior year quarter. Interest expense decreased \$0.3 million to \$1.9 million (net of interest income of \$127,000) in the current quarter as compared to \$2.2 million (net of interest income of \$87,000) in the prior year quarter. The decrease was due to the repayment of the outstanding U.S. line of credit upon the sale of the foreign pawn lending operations, and partially offset by the effect of higher interest rates. The effective blended borrowing cost increased to 5.5% in the current quarter compared to 5.4% in the prior year quarter. The increase in blended borrowing cost was due to the addition of the 12% subordinated note which was partially offset by a year over year decline in interest rates on domestic floating rate debt. The average amount of debt outstanding decreased during the current quarter to \$141.1 million from \$164.2 million during the prior year quarter.

Income Taxes. The Company's effective tax rate for continuing operations for the current quarter was 36.6% as compared to 36.3% for the prior year quarter.

Table of Contents**Nine Months Ended September 30, 2004 Compared to Nine Months Ended September 30, 2003**

Consolidated Net Revenue. Consolidated net revenue increased \$55.3 million, or 33.0%, to \$222.9 million during the nine months ended September 30, 2004 (the current period) from \$167.6 million during the nine months ended September 30, 2003 (the prior year period). The following table sets forth net revenue results by operating segment for the nine month periods ended September 30 (\$ in millions):

	<u>2004</u>	<u>2003</u>	<u>Increase</u>	
Pawn lending operations	\$170.5	\$156.7	\$13.8	8.8%
Cash advance operations	49.6	8.2	41.4	
Check cashing operations	2.8	2.7	0.1	3.7
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Consolidated net revenue	\$222.9	\$167.6	\$55.3	33.0%
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

The increase in consolidated net revenue was primarily due to the consolidation of the nine months operating results of Cashland, while only two months of such results were included in the prior year period. Excluding the impact of Cashland, net revenue for the current period was up \$18.1 million, or 11.3%, compared to the prior year period. The Company's pawn lending operations contributed the majority of the increase in consolidated net revenue, excluding Cashland. Higher revenue from the Company's cash advance product, higher finance and service charges from pawn loans, and higher profit from the disposition of merchandise accounted for the increase in net revenue.

The components of net revenue are finance and service charges from pawn loans, which increased \$6.4 million; profit from the disposition of merchandise, which increased \$3.7 million; cash advance fees, which increased \$41.1 million; and check cashing royalties and fees, which increased \$4.1 million.

Finance and Service Charges. Finance and service charges increased \$6.4 million, or 8.7%, from \$73.9 million in the prior year period to \$80.3 million in the current period. An increase in the average balance of pawn loans outstanding contributed \$4.0 million of the increase and the higher annualized yield of the pawn loan portfolio resulted in \$2.4 million of the increase.

The average balance of pawn loans outstanding was 5.4% higher during the current period than the prior year period. The increase in the average balance of pawn loans outstanding was driven by a 1.9% increase in the average number of pawn loans outstanding during the current period coupled with a 3.5% increase in the average amount per loan. The annualized loan yield was 131.3% in the current period, compared to 127.4% in the prior year period. The higher yield is partially due to an increase in the permitted rate and shortening of loan terms in one of the states in which the Company operates. In addition, improved performance of the pawn loan portfolio, including higher redemption rates and a slightly higher concentration of extended or renewed loans in the portfolio, contributed to the higher pawn loan yield.

Profit from Disposition of Merchandise. The following table summarizes the proceeds from disposition of merchandise and the related profit for the current period compared to the prior year period (\$ in millions):

Nine Months Ended September 30,

	2004			2003		
	Merchandise	Refined Gold	Total	Merchandise	Refined Gold	Total
Proceeds from disposition	\$145.6	\$27.0	\$172.6	\$145.7	\$22.5	\$168.2
Profit on disposition	\$ 58.1	\$ 8.7	\$ 66.8	\$ 56.9	\$ 6.2	\$ 63.1
Profit margin	39.9%	32.2%	38.7%	39.1%	27.6%	37.5%

Table of Contents

Profit from the disposition of merchandise and refined gold increased \$3.7 million, or 5.9%, due to higher profit margins (to 38.7% in the current period from 37.5% in the prior year period). Excluding the effect of the disposition of refined gold, the profit margin on the disposition of merchandise increased to 39.9% in the current period from 39.1% in the prior year period due predominately to a slightly heavier mix of jewelry sales. The profit margin on the disposition of refined gold was 32.2% in the current period compared to 27.6% in the prior year period due to the prevailing higher market prices of refined gold in the current period than in the prior year period. Proceeds from disposition of refined gold increased by \$4.5 million, or 20.0%. The consolidated merchandise turnover rate decreased slightly to 2.9 times during the current period compared to 3.0 times during the prior year period.

Cash Advance Fees. Cash advance fees increased \$41.1 million, or 150.0%, to \$68.5 million in the current period as compared to \$27.4 million in the prior year period. The increase was primarily due to the addition of the operating results of Cashland. Higher average cash advance balances outstanding during the current period resulting from higher demand for the cash advance product also contributed to the increase in cash advance fees.

The amount of cash advances written increased \$266.4 million, or 152.9%, to \$440.6 million in the current period from \$174.2 million in the prior year period. Included in the amount of cash advances written in the current period and prior year period was \$157.4 million and \$112.9 million, respectively, extended to customers by the banks. The average amount per cash advance increased to \$335 from \$304 primarily as a result of larger loans originated by the third-party banks in some markets. The combined Company and bank portfolios of cash advances generated \$73.3 million in revenue during the current year period as compared to \$30.3 million in the prior year period.

Check Cashing Royalties and Fees. Check cashing fees for Mr. Payroll totaled \$2.8 million and \$2.7 million in the current and prior year period, respectively. Check cashing revenue was \$4.6 million and \$0.5 million for Cashland in the current and prior year period, respectively.

Operations and Administration Expenses. Consolidated operations and administration expenses, as a percentage of total revenue, were 47.3% in the current period compared to 46.2% in the prior year period. These expenses increased \$29.4 million, or 23.3%, in the current period compared to the prior year period. Pawn lending and Cash America Payday Advance operations expenses increased \$7.0 million, or 5.6%, as a result of slightly higher staffing levels, higher benefit costs and higher expenses, related to the cash advance product, including advertising and the net increase of 52 Cash America Payday Advance locations (including 32 acquired through the asset purchases of GoldX and Urgent Money). The addition of Cashland for the entire current period contributed \$22.4 million of the increase. The combination of personnel and occupancy expenses represents 82.8% of total operations and administration expenses in the current period and 84.4% in the prior year period. The comparison as a percentage of revenue is as follows (\$ in millions):

	Nine Months Ended September 30,			
	2004		2003	
	Amount	% of Revenue	Amount	% of Revenue
Personnel	\$ 93.6	28.5%	\$ 76.6	28.1%
Occupancy	35.1	10.7	29.8	10.9
Other	26.8	8.1	19.7	7.2

Edgar Filing: CASH AMERICA INTERNATIONAL INC - Form 10-Q

Total	\$155.5	47.3%	\$126.1	46.2%
-------	---------	-------	---------	-------

Personnel expense increased \$17.0 million, or 22.2%, and \$12.3 million of the increase is attributable to the addition of Cashland operations and the increase in Cashland consumer finance centers. The balance of the increase is due to the additions of Cash America payday advance and pawnshop locations during the last 12 months, an increase in staffing levels, higher benefit costs and normal recurring salary adjustments.

Table of Contents

Occupancy expenses increased \$5.3 million, or 17.8%, and \$4.4 million of the increase is due to the addition of Cashland.

Cash Advance Loss Provision. The cash advance loss provision increased \$8.3 million to \$15.4 million in the current period as compared to \$7.1 million in the prior year period principally due to the acquisition of Cashland and the significant increase in the size of the portfolio. The loss provision as a percentage of cash advance fees decreased to 22.6% in the current period as compared to 25.9% in the prior year period. The decrease in the loss provision as a percentage of cash advance fees is primarily due to the increased significance of the cash advance operating segment in the current period compared to the prior year period. On average, cash advance locations tend to originate more advances and experience lower loss rate than pawnshop locations.

During the current period, the Company modified its estimate of the historical period used to base current loss experience in its cash advance portfolio to a rolling twelve-month basis. Previously, loss rates were estimated using a rolling three months of collections history, which limited performance to only near term collection success. Management believes that this change more accurately reflects the potential loss inherent in the portfolio and provides for an adequate estimate of future loss on loans which have not reached their due date. Management continues to treat all loans which become past due as fully reserved for losses at the point they become sixty days past due. The impact of this adjustment in the current period is approximately \$1.6 million and is reflective of the more appropriate measure of the non-past due portion of the portfolio's anticipated loss experience in the view of management.

Depreciation and Amortization. Depreciation and amortization expense as a percentage of total revenue increased slightly to 3.7% as compared to 3.5% for the prior year period. Total depreciation and amortization expense increased \$2.9 million, or 30.5%.

Interest Expense. Net interest expense as a percentage of total revenue was 1.8% for the current period as compared to 2.3% for the prior year period. Interest expense was \$6.1 million (net of interest income of \$203,000) in the current period as compared to \$6.2 million (net of interest income of \$269,000) in the prior year period. The Company paid off the outstanding balance of its U.S. line of credit at the sale of its foreign pawn lending operations. The effective blended borrowing cost decreased to 5.8% in the current period compared to 5.9% in the prior year period. The slight decrease in blended borrowing cost was due to the interest income on the notes receivable received in connection with the sale of the foreign pawn lending business, which was partially offset by the elimination of interest income from a note receivable repaid in the prior year period and the addition of the 12% subordinated note. The average amount of debt outstanding decreased during the current period to \$139.2 million from \$140.1 million during the prior year period as the Company paid off its U.S. line of credit in early September 2004 with the cash proceeds from the sale of foreign pawn lending operations.

Income Taxes. The Company's effective tax rate for continuing operations for the current period was 36.9% as compared to 35.2% for the prior year period. The lower effective rate in the prior year period is primarily attributable to a reduction in the deferred tax valuation allowance for capital losses resulting from the recognition of a capital gain from the sale of real estate held for investment. The effective tax rate for the prior year period would have been 37.8% excluding the gain and related tax effects.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

In addressing comments from the staff of the Securities and Exchange Commission in connection with the staff's review of the Company's 2003 Form 10-K, the Company restated its Consolidated Statements of Cash Flows for the nine months ended September 30, 2003, to eliminate certain non-cash items and reclassify certain items between operating cash flows and investing cash flows relating to the forfeited pawn loans. The net effect (excluding the effect of eliminating the discontinued foreign pawn lending operations activities) of the reclassification is to increase operating cash flows by \$5.7 million with a corresponding decrease in investing cash flows. See Note 1 of Notes to Consolidated Financial Statements.

The Company's cash flows and other key indicators of liquidity are summarized as follows (\$ in millions):

	Nine Months Ended September 30,	
	2004	2003
Operating activities cash flows	\$ 47.6	\$ 39.5
Investing activities cash flows:		
Pawn loans	(17.2)	(8.6)
Cash advances	(18.4)	(14.6)
Acquisitions	(17.4)	(43.1)
Proceeds from sale of subsidiaries/non-operating assets	102.8	1.6
Property and equipment additions	(19.1)	(10.4)
Financing activities cash flows	(76.5)	42.4
Working capital, excluding discontinued operations for 2003 period	\$ 163.3	\$ 161.5
Current ratio	3.5x	5.1x
Merchandise turnover	2.9x	3.0x

Cash flows from operating activities. Net cash provided by operating activities was \$47.6 million for the current period. Net cash generated from the Company's pawn lending operations, cash advance operations and check cashing operations were \$32.0 million, \$14.8 million and \$0.8 million, respectively.

Cash flows from investing activities. The seasonal increase in balances due to higher lending activities led to increases in the Company's investment in pawn loans and cash advances during the current period that used cash of \$17.2 million and \$18.4 million, respectively. In addition, the Company acquired the assets of 32 cash advance locations in southern California operated under the trade names of Urgent Money and GoldX for \$14.5 million of cash. The Company also invested \$19.1 million in property and equipment during the current period for the establishment of 2 pawnshops, 46 cash advance units (17 Cash America Payday Advance locations and 32 Cashland consumer finance centers), the remodeling of selected operating units and ongoing enhancements to the information technology infrastructure, and other property additions. In the first quarter of 2004, the Company amended the Cashland asset purchase agreement and made a final payment of additional consideration in the amount of \$5.4 million, consisting of \$2.9 million in cash and a subordinated note for \$2.5 million (see Notes 5 and 10 of Notes to Consolidated Financial Statements.)

During the quarter ended September 30, 2004, the Company entered into a definitive agreement to purchase the assets of SuperPawn, with 41 pawn locations in four western states, based in Las Vegas, Nevada, for an aggregate purchase price of approximately \$125.0 million, which is subject to adjustment based on, among other things, the

asset levels as of the date of closing. The purchase consideration would consist of \$15.0 million of Company common stock and the balance in cash. The transaction is anticipated to close following final due

Table of Contents

diligence, license transfer, and the approval of regulatory agencies, late in the fourth quarter of 2004 or in early 2005. See Note 5 of Notes to Consolidated Financial Statements for additional information.

Management anticipates that it will incur additional capital expenditures for the remainder of 2004 primarily for the establishment of approximately 25 new pawnshops and cash advance-only locations, for the remodeling of selected operating units, and for enhancements to communications and information systems. Management currently estimates that these additional expenditures will be approximately \$2.0 to \$3.0 million. The additional capital required to pursue acquisition opportunities is not included in the estimate of capital expenditures.

Cash flows from financing activities. During the current period, the Company made net repayments of \$68.1 million on bank lines of credit and \$8.3 million on notes. The outstanding balance of the U.S. line of credit was reduced to zero with the cash proceeds received from the sale of the Company's foreign pawn lending operations. Additional uses of cash included \$1.5 million for dividends and \$2.3 million for the purchase of treasury shares.

Under the terms of its U.S. line of credit agreement, as of March 31, 2004, the Company's line of credit was reduced to \$130.0 million from \$135.0 million. This line of credit will be further reduced to \$125.0 million at March 31, 2005 and to \$115.0 million at March 31, 2006. In conjunction with the intended acquisition of the assets of SuperPawn and the sale of the Company's foreign pawn lending operations, the credit agreement was further amended to permit these transactions in August 2004, and to allow the Company to pay a one-time dividend of up to \$10.0 million to its shareholders.

The line of credit agreements and the senior unsecured notes require the Company to maintain certain financial ratios. In connection with the sale of its foreign pawn lending operations and the intended acquisition of the assets of SuperPawn, certain terms and calculations of covenants under the U.S. line of credit and the senior unsecured note agreements were amended. The Company is in compliance with all covenants and other requirements set forth in its debt agreements. A significant decline in demand for the Company's products and services may cause the Company to reduce its planned level of capital expenditures and lower its working capital needs in order to maintain compliance with the financial ratios in those agreements. A violation of the credit agreements could result in an acceleration of the Company's debt and increase the Company's borrowing costs and could even adversely affect the Company's ability to renew existing credit facilities, or obtain access to new credit facilities in the future. The Company does not anticipate a significant decline in demand for its services and has historically been successful in maintaining compliance with and renewing its debt agreements.

In connection with the sale of its foreign pawn lending operations, the Company declared a special cash dividend of \$0.30 per share, or \$8.6 million, to its shareholders. The special dividend reflects a share of the significant gain realized on the sale and will be paid on December 15, 2004 to shareholders of record on December 1, 2004.

During the current period, the Company received equity totaling \$3.7 million upon the exercise of 450,876 stock options by its current and former directors, officers and employees.

Management believes that borrowings available under the credit facilities, cash generated from operations and current working capital of \$163.3 million should be sufficient to meet the Company's anticipated future capital requirements.

Table of Contents

CAUTIONARY STATEMENT REGARDING RISKS AND UNCERTAINTIES THAT MAY AFFECT FUTURE RESULTS

This quarterly report, including Management's Discussion and Analysis of Financial Condition and Results of Operations, contains statements that are forward-looking, as that term is defined by the Private Securities Litigation Reform Act of 1995 or by the Securities and Exchange Commission in its rules. The Company intends that all forward-looking statements be subject to the safe harbors created by these laws and rules. When used in this quarterly report on Form 10-Q, the words believes, estimates, plans, expects, anticipates, and similar expressions as they apply to the Company or its management are intended to identify forward-looking statements. All forward-looking statements are based on current expectations regarding important risk factors. These risks and uncertainties are beyond the ability of the Company to control, and, in many cases, the Company cannot predict all of the risks and uncertainties that could cause its actual results to differ materially from those expressed in the forward-looking statements. Accordingly, actual results may differ materially from those expressed in the forward-looking statements, and such statements should not be regarded as a representation by the Company or any other person that the results expressed in the statements will be achieved. Important risk factors that could cause results or events to differ from current expectations are described below. These factors are not intended to be an all-encompassing list of risks and uncertainties that may affect the operations, performance, development and results of the Company's business.

Risk Factors

Changes in customer demand for the Company's products and specialty financial services. Although the Company's products and services are a staple of its customer base, a significant change in the needs or wants of customers and the Company's failure to adapt to those needs or wants could result in a significant decrease in the revenues of the Company.

The actions of third-parties who offer products and services at the Company's locations. The Company makes products and services available to its customers through various third parties. A failure of a third-party provider to provide its product or service or to maintain the quality and consistency of its product or service could result in a loss of customers and a related loss in revenue from those products or services.

The ability of the Company to open and acquire new operating units in accordance with its plans. The Company's expansion program is subject to numerous factors which cannot be predicted or controlled, such as the availability of attractive acquisition candidates and the Company's ability to attract, train and retain qualified unit management personnel. Another such factor is the availability of sites with acceptable restrictions and suitable terms and general economic conditions.

Changes in competition from various sources such as banks, savings and loans, short-term consumer lenders, and other similar financial services entities, as well as retail businesses that offer products and services offered by the Company. The Company encounters significant competition in connection with its lending and merchandise disposition operations from other pawnshops, cash advance companies and other forms of financial institutions such as consumer finance companies. Significant increases in these competitive influences could adversely affect the Company's operations through a decrease in the number of cash advances and pawn loans originated, resulting in lower levels of earning assets in these categories.

Changes in economic conditions. While the credit risk for most of the Company's consumer lending is mitigated by the collateralized nature of pawn lending, a sustained deterioration in the economic environment could adversely affect the Company's operations through a deterioration in performance of its pawn loan or cash advance portfolios, or by reducing consumer demand for the purchase of pre-owned merchandise.

Real estate market fluctuations. A significant rise in real estate prices could result in an increase in the cost of store leases as the Company opens new locations and renews leases for existing locations.

Table of Contents

Interest rate fluctuations. Although the weakness in the U.S. economy over the past several quarters has resulted in relatively low interest rates offered by lending institutions, a significant economic recovery could result in a substantial rise in interest rates that would, in turn, increase the cost of borrowing to the Company.

Changes in the capital markets. The Company regularly accesses the debt capital markets to refinance existing debt obligations and to obtain capital to finance growth. Efficient access to these markets is critical to the Company's ongoing financial success; however, the Company's future access to the debt capital markets could become restricted should the Company experience deterioration of its cash flows, balance sheet quality, or overall business or industry prospects.

Changes in tax and other laws and governmental rules and regulations applicable to the specialty financial services industry. The Company's lending activities are subject to extensive regulation and supervision under various federal, state and local laws, ordinances and regulations. The Company faces the risk that new laws and regulations could be enacted that could have a negative impact on the Company's U.S. lending activities.

Other factors discussed under Quantitative and Qualitative Disclosures about Market Risk in Item 3 of this Form 10-Q and in the Company's 2003 Annual Report to Stockholders.

Other risks indicated in the Company's filings with the Securities and Exchange Commission.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risks relating to the Company's operations result primarily from changes in interest rates and gold prices. The Company does not engage in speculative or leveraged transactions, nor does it hold or issue financial instruments for trading purposes. There have been no material changes in the Company's exposure to market risks since December 31, 2003.

Item 4. Controls and Procedures

The Company restated its Consolidated Statements of Cash Flows for the nine months ended September 30, 2003. For a description of the restatement of the Consolidated Statements of Cash Flows and the amendment of related disclosures, see the Explanatory Note on Page 1 of this Form 10-Q.

Under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, management of the Company has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of September 30, 2004 (Evaluation Date).

In making this evaluation, the Chief Executive Officer and Chief Financial Officer considered matters relating to the restatement of the previously issued Consolidated Statements of Cash Flows and the amendment of related disclosures. In light of, among other things, the facts and circumstances relating to the restatement, the Chief Executive Officer and Chief Financial Officer concluded the restatement was not reflective of any material weakness in the disclosure controls and procedures. In support of this conclusion, the Chief Executive Officer and Chief Financial Officer noted that the Company's restatement of its Consolidated Statements of Cash Flows for the nine months ended September 30, 2003 follows from the review of the Company's Annual Report on Form 10-K for the year ended December 31, 2003 by the staff of the Securities and Exchange Commission (SEC). The restatement is, in substance, a reclassification of certain items as well as an elimination of certain non-cash items in the Consolidated Statements of Cash Flows, all as more particularly described in Note 1 of Notes to Consolidated Financial Statements.

Given the unique nature of the Company's pawnbroking business and in conjunction with other elements of the Company's formal disclosure of its business activities in Item 1 of the Company's 2003 Form 10-K, the Company has previously viewed its longstanding presentation of the affected items to be an appropriate disclosure approach. Since 1987, the Company has utilized that same presentation format in its audited financial statements. Further, the other registrants in the industry have utilized the same format. Also, to

Table of Contents

management's knowledge no investors have expressed to the Company any confusion or uncertainty about the Company's disclosure approach during that period of time.

The reclassification is the result of an interpretation of the Company's business characteristics in relation to generally acceptable accounting principles pursuant to the requirements of the Financial Accounting Standard Board's Statement of Financial Accounting Standards No. 95 - Statement of Cash Flows (SFAS 95). SFAS 95 calls for the exclusion of non-cash transactions from the statement of cash flows.

Notwithstanding the preceding, management will institute more rigorous reviews of the elements contained in the Statement of Cash Flows to be certain that it accurately captures only cash items consistent with SFAS 95. Management assessed the magnitude of any actual or potential misstatement resulting from the changes described above and concluded that the magnitude of any actual or potential misstatement was limited to the classification of certain items in the Cash Flows from Operating Activities and Cash Flows from Investing Activities sections of the Consolidated Statements of Cash Flows and did not affect any other part of the Consolidated Statements of Cash Flows or any of the Company's other financial statements.

Based upon the evaluation described above, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures are effective in timely alerting them to the material information relating to the Company required to be included in its periodic filings with the Securities and Exchange Commission.

For the quarter ended September 30, 2004, there was no significant change in the Company's internal control over financial reporting that was identified in connection with management's evaluation described in Item 4 above and has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company's management, including its Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls and procedures or internal controls will prevent all possible error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.
